ELYRIA, OHIO

(Lorain County)

1920 Population, 20,474. (1925 est. 25,009.)

City and Suburban Estimate, 100,000.

Native Whites, 95%; **Negroes,** 3%; **Foreign Born,** 7%; **Industrial Workers,** 65%; **English Reading,** 95%; **Families,** 5,500.

Schools: Public Grade, 9; High, 1; Junior High, 1; Parochial, 4; Number of Pupils total 4,945.

Churches: Baptist, 1; Christian Science, 1; Congregational, 2; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 3; Miscellaneous, Spiritualist, 1; Lutheran, 2; Holy Pilgrims, 1.

Banks: State, 3; Total Resources, $18,799,840.59; Savings Bank Deposits Total, $9,520,108.85.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3; Total number of seats, 5,000.

Location: 9 miles from Lorain Harbor, connected by B. & O. On main line N. Y. C. Interurban terminal for Cleveland. South Western Railway, Lakeshore Electric Railway. On main line of Gooden Motor freight. 25 miles from Cleveland, assuring expedient distribution of merchandise purchased through jobbers. Excellent Bus service from all suburban cities. County Seat of County with 95 per cent concrete or hard-surfaced highways. To nearest large city (Cleveland) by railroad, 30 minutes; by trolley, 30 minutes; by auto, 1 hour.

Principal Industries: Manufacturing is widely diversified, embracing electric motors and appliances; screw and bolt, chemical, gasoline motors, steam fittings and packings, electrolyte steel, lace, cold rolled steel, steel bars, steel rails.

Manufacturing Establishments: Leading firms, Elyria Iron and Steel, Columbia Iron and Steel, General Phonograph, Pfaudler Co., Colson Co., Perry Fay Co., Fox Furnace Co. (a subsidiary of the American Radiator Co.), Universal Crane Co., Elyria Foundry, Duplex Foundry, I. T. S. Rubber Co., Troxel Mfg. Co., Western Automatic Machine Screw Co., Harshaw, Fuller & Co., Fay Stocking, American Lace Co., Worthing Ball, G. T. S. Co., Electro alloys. Total value of yearly output of factories estimated at $55,000,000.

Special Information: Elyria has increased population 85 per cent in 10 years. Is the County Seat of Lorain County, and is within 15 miles of Suburban towns and villages having a total population of 75,000. Diversified manufacture is so wide that Elyria has never experienced any serious labor trouble, and is amply supplied with water from Lake Erie by a $7,000,000 Municipal plant. 85 per cent of the total city population own their residences. It has more than triple the recreation park acreage of any city twice its size. It is a noted residential municipality. The average per capita weath is $900.

Residential Features: With unlimited water, exceptionally low, electric, gas rates and automatic telephone system locally owned and enforced building restrictions in restricted area, Elyria will create an impression of a thriving city, teeming in social, religious, political and scholastic activity, which is the foundation and principals set forth by its founders in 1811.

Retail Shopping Section: Is principally on Broad street, extending 5 blocks east and west of Square with one to four blocks north and south, the entire length of the main thoroughfare, with about 40 neighborhood grocers and meat markets in key locations.

Trading Area: Stands about 20 miles south, west and east and 9 miles north. Considerable week-end business is secured from smaller towns and villages, who find it convenient to shop in the County Seat, via trolley, motor bus and automobile over a net-work of linking hard surfaced roads.

Wholesale Houses: Grocers, 3; Fruits, 3; Dry Goods, 1; Miscellaneous line, Cigars and Tobacco, 3; Confectionery, 3.

Native Whites, 89.9%; **Negroes,** 3.3%; **Foreign Born,** 6.8%; **Industrial Workers,** 20%; **English Reading,** 97.3%; **Families,** 9,706.

Schools: Public Grade, 12; High, 2; Catholic, 1; Junior High, 1; Parochial, 7; Number of Pupils, 2,000 Parochial, 6,759 Public.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 6; Miscellaneous, about 10.

Banks: National, 2; State, 2; Total Resources, $17,000,000; Savings Bank Deposits Total, $3,600,000.

Theatres: Legitimate, 1; Moving Pictures, 6; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 7,000.

Location: On Great Miami River, 25 miles north of Cincinnati and 31 miles southwest of Dayton. Served by B. & O., Penn., Erie and Cincinnati, Indianapolis & Western Railways. Good interurbans and bus service, in all directions within a radius of 25 miles for buses and a much greater distance for interurban traffic. To nearest large city by railroad, 1 hour; by trolley, 1 hour; by auto, 1 hour.

Principal Industries: Paper, safes, vaults, engines, sugar mills, machine tools, stoves, paper mill machinery, power punches and presses, parts for Ford cars, castings, felts and blankets, pig iron, food products.

Manufacturing Establishments: 150. Leading firms: Champion Coated Paper Co., Mosler Safe Co., Herring-Hall-Marvin Safe Co., Hooven-Owens-Rentschler Co., Niles Tool Works Co., Estate Stove Co., Black-Clawson Co., Beckett Paper Co., Ford Motor Co., Hamilton Foundry & Machine Co., Shuler & Benninghofen. Total value of yearly output of factories estimated at $60,000,000.

Special Information: Transportation facilities and economic manufacturing advantages have made Hamilton an industrial city "Known in the World's Markets." Here are located one of the largest coated paper mills, and one of the three finest blast furnaces and by-product coke plants in America. Three-fourths of the nation's output of safes and vaults are made in Hamilton. Large machinery of national reputation and exclusive design is made here, contributing much to the prestige of Hamilton.

Residential Features: Mostly one family houses. Large percentage home owners. A very fine residential section is located in west portion of city. Homes in this section average in value about $9,000.

Retail Shopping Section: Main business street is High Street. Business section extends east from Miami River 6 blocks to 5th Street. 3rd and 2nd Streets are secondary business streets, 2nd Street on 6 blocks from Central Avenue to Dayton Street, 3rd Street on 5 blocks from Dayton to Sycamore Street. 2nd and 3rd Streets are parallel and both intersect High Street. Court and Market Streets are business streets from Front to 4th and parallel High Street. Market Street is first north of High and Court Street is first south of High Street. There are about 15 outlying "Neighborhood" business centers.

Trading Area: Extends about 20 miles west, 15 miles north, 15 miles east and about 10 miles south. Good roads and bus service make this business possible.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; commercial auto agencies, 6; automobile accessories, 26; automobile tire agencies, 26; bakers, 10; cigar stores and stands (including hotels), 24 (chain, 1); confectioners (including hotel stands), 10; delicatessen, 3; dressmakers, 30; druggists, 20; dry goods, 9; department stores, 6; electrical supplies, 9; florists, 5; fruits, 2; furniture, 8; garages (public), 20; grocers, 185 (chain, 7); hardware, 5; jewelry, 9; meat markets, 58 (chain, 3); men's furnishings, 6; men's clothing, 6; merchant tailors, 16; milliners, 6; opticians, 9; photographers, 3; pianos (and miscellaneous musical instruments), 5; radio supplies, 10; restaurants (including hotels), 41; shoes, 12; sporting goods, 3; stationers, 2; women's apparel, 3 (only).

Miscellaneous Data: Average temperature, 53 degrees; average number of rainy days per twelve months, 120; most pleasant months, May, June, Sept., Oct.; doctors (medical, 50), (dentists, 24), (osteopaths, 2); number of wired houses, 9,150; street car service; gas, natural and artificial; electric current, alternating; water, hard.

The Hamilton Ohio

JOURNAL

Not only has the largest circulation in Hamilton and Butler County, but it has the only

A. B. C. Audited, Guaranteed, Non-Premium Circulation.

No other paper covers this rich valley so thoroughly. Goes into eight out of every ten homes and the circulation is not affected by any metropolitan newspaper.

On account of its diversified industries, Hamilton, a very busy and prosperous city of nearly 48,000 population, is usually in a flourishing condition.

LORAIN, OHIO

(Lorain County)

1920 Population, 37,295.

City and Suburban Estimate, 100,000.

Native Whites, 60.9%; **Negroes,** 1.3%; **Foreign Born,** 37.8%; **Industrial Workers,** 27%; **English Reading,** 79%; **Families,** 11,176.

Schools: Public Grade, 8; High, 1; Junior High, 4; Parochial, 7; Number of Pupils, 9,133.

Churches: Baptist, 3; Christian Science, 1; Congregational, 1; Episcopal, 2; Hebrew, 2; Methodist, 6; Presbyterian, 1; Roman Catholic, 11; Miscellaneous, 21.

Banks: National, 1; State, 5; Total Resources, $14,445,789.38; Savings Banks Deposits Total, $10,187,361.14.

Theatres: Moving Pictures, 8; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, approximately, 6,000.

Location: On south shore of Lake Erie at mouth of Black River. Served by Baltimore & Ohio, Nickel Plate, Wabash, Lorain, Ashland & Southern. Lake Shore Electric and Cleveland, Southwestern & Columbus Electric Lines. Bus service East, West and South; numerous Truck Services in all directions.

Principal Industries: Iron and steel, stoves, automatic shovels, shipbuilding, men's clothing, automatic water heaters, steel and bronze castings, stamping of steel.

Manufacturing Establishments, 18. Leading firms: National Tube Co., Thew Shovel Co., American Shipbuilding Co., The Automatic Shovel Co., National Stove Works, Hoffman Heater Co. Total value of yearly output of factories estimated at $250,000,000.

Special Information: River front locations good and plenty. Electric Power Plant supplies cities throughout the state. River navigable for all lake boats. Paved roads leading in all directions. Best water supply in Ohio and cheap. Plenty of mechanics and labor.

Residential Features: Mostly one- and two-family houses. Private homes predominate, owned by occupants. The finest residential section is located east and west of Lorain. Homes in latter section average $11,000. Streets are nearly all paved with plenty of shade trees and abundant parks. Schools located in the residential section.

Retail Shopping Section: Main business section extends from lake front south 10 blocks. Two other large business sections at center and southern extremity of city. Many smaller neighborhood districts.

Trading Area: Extends about 10 miles west, east and south. Fine trolley and bus service and good roads bring people from further distance to the city.

Wholesale Houses: Groceries, 2; meats, 4; fruits, 3; confectionery, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 17; commercial auto agencies, 7; automobile accessories, 16; automobile tire agencies, 9; bakers, 17; cigar stores and stands (including hotels), 89; confectioners (including hotel stands), 58; delicatessen, 2; dressmakers, 10; druggists, 15; dry goods, 20; department stores, 7; electrical supplies, 11; florists, 7; fruits, 9; furniture, 16; furriers, 1; garages (public), 23; grocers, 147; hardware, 15; jewelry, 11; meat markets, 49; men's furnishing, 17; men's clothing, 15; merchant tailors, 23; milliners, 11; opticians, 7; photographers, 8; pianos (and miscellaneous musical instruments), 17; radio supplies, 7; restaurants (including hotels), 46; shoes, 23; sporting goods, 7; stationers, 4; women's apparel, 11.

MANSFIELD, OHIO

(Richland County)

1920 Population, 27,824.

City and Suburban Estimate, 60,000.

Native Whites, 87.6%; **Negroes,** 0.9%; **Foreign Born,** 11.5%; **Industrial Workers,** 28%; **English Reading,** 92%; **Families,** 7,215.

Schools: Public Grade, 9; High, 1; Parochial, 1; Number of Pupils, 4,890.

Churches: Baptist, 2; Congregational, 2; Episcopal, 1; Hebrew, 1; Methodist, 5; Presbyterian, 3; Roman Catholic, 1; Christian, 2; Evangelical, 2; Miscellaneous, 9.

Banks: National, 1; State, 5; Total Resources, $12,200,000.

Theatres: Legitimate, 1; Moving Pictures, 6; Vaudeville, 1; Total number of seats, 3,500.

Location: 80 miles southwest of Cleveland on Main Line Penn. RR., Erie RR. and B. & O. RR. Also a division of B. & O. and Penn. RR. north and south. Two interurban trolley lines.

Principal Industries: Steel sheets, brass castings, railway and mining equipment, threshers and tractors, stores and ranges, elastic and rigid webbing, steel abrasives, ordinance and clay working machinery, motors, generators, electrical appliances and watch cases.

Residential Features: One family houses predominate.

Retail Shopping Section: North Main Street, East and West 4th Street, East and West Park Avenue, West 3rd Street, Walnut and Diamont Streets forming about 25 blocks.

Trading Area: Radius 25 miles.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 1; hardware, 4; miscellaneous lines, druggists, 1; dry goods, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 25; commercial auto. agencies, 13; automobile accessories, 15; automobile tire agencies, 15; bakers, 15; cigar stores and stands (including hotels), 22; confectioners (including hotel stands), 19; delicatessen, 1; dressmakers, 20; druggists, 10; dry goods, 6; department stores, 2; electrical supplies, 7; florists, 5; fruits, 4; furniture, 7; furriers, 8; garages (public), 17; grocers, 77; hardware, 6; jewelry, 10; meat markets, 24; men's furnishings, 13; men's clothing, 13; merchant tailors, 12; milliners, 10; opticians, 5; photographers, 6; pianos (and miscellaneous musical instruments, 6; radio supplies, 7; restaurants (including hotels), 31; shoes, 15; sporting goods, 3; stationers, 2; women's apparel, 8.

MARIETTA, OHIO

(Washington County)

1920 Population, 15,140.

City and Suburban Estimate, 16,000; Sub. 5,500.

Native Whites, 95.3%; **Negros,** 3.1%; **Foreign Born,** 1.6%; **Industrial Workers,** 20%; **English Reading,** 100%; **Families,** 4,114.

Schools: Public Grade, 8; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 3,300.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 4 white, 2 colored; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 7.

Banks: National, 3; State, 2; Total Resources, $15,125,000; Savings Bank Deposits Total, $1,375,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 3; Total number of seats, 6,000.

Location: B. & O. (3 divisions), P. R. R. (1 division) Packet boats for passenger and freight operate on Ohio and Muskingum Rivers between Pittsburgh, Zanesville and Cincinnati, and intermediate points. To nearest larger city, by railroad, 5½ hours; by auto, 5 hours.

Manufacturing Establishments: 18. Leading firms: Diamond Alkali Co., Coe Mfg. Co., Gakelite Corp., Light Alloys Co., Harrison Basket Co., Painesville Metallic Binding Co. Total value of yearly output of factories estimated at $16,000,00.

Special Information: Location of the city makes it the meeting place of the Ohio, Pennsylvania and West Virginia coal outlets for shipment to northwest. Lake County is one of the foremost nursery belts in the country. We have over 100 nurseries large and small, doing a world wide business.

Residential Features: The homes and surroundings in Painesville are far above the average. 85% of the people are home owners.

Retail Shopping Section: Painesville's shopping district is compact. The business houses are well established, some having seen ownership pass to three generations. Transportation facilities are good; steam, trolley and buses. Co-operation is wonderful throughout the city. All roads are paved out of Painesville. It is located on the Chicago-Buffalo main highway.

Trading Area: Extends about 15 miles west, 20 miles south and 15 miles east. Intermittent business is secured from people living at greater distance because of the fine paved roads and bus service.

Wholesale Houses: Meats, 1; fruits, 2; miscellaneous lines, cigars, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; commercial auto. agencies, 7; automobile accessories, 5; automobile tire agencies, 4; bakers, 5; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 4; delicatessen, 2; dressmakers, 7; druggists, 6; dry goods, 6; department stores, 4; electrical supplies, 5; florists, 5; fruits, 4; furniture, 4; garages (public), 7; grocers, 28 (chain, 6) hardware, 5; jewelry, 6; meat markets, 10 (chain, 1); men's furnishings, 12; men's clothing, 10; merchant tailors, 6; milliners, 8; opticians, 5; photographers, 5; pianos (and miscellaneous musical instruments), 3; radio supplies, 8; restaurants (including hotels), 10; shoes, 10; sporting goods, 5; stationers, 6; women's apparel, 10.

Miscellaneous Data: Average temperature, 50 degrees; average number of rainy days per twelve months, 113; most pleasant months, May, June, July, October; doctors (medical, 16), (dentists, 10), (osteopaths, 2); number of wired houses, 2,850; street car service; gas, artificial; electric current, alternating; water, soft.

PIQUA, OHIO

(Miami County)

1920 Population, 15,044.

City and Suburban Estimate, 30,000.

Native Whites, 92.8%; **Negroes,** 3.3%; **Foreign Born,** 3.9%; **English Reading,** 97%; **Families,** 4,027.

Schools: Public Grade, 7; High, 1; Junior High, 2; Parochial, 2; Number of Pupils, 3,000.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Presbyterian, 2; Roman Catholic, 2; United Brethren, 1; Methodist Episcopal, 3; Evangelical, 1; Miscellaneous, 4.

Banks: National, 2; State, 1; Total Resources, $10,000,000; Total Deposits, $6,000,000.

Theatres: Legitimate, 2; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 6,250.

Location: Pennsylvania R.R., B. & O. R.R., Western Ohio Electric Ry. Terminal, Dayton & Troy Electric Ry., Terminal and Dayton, Covington and Piqua Electric Ry., Terminal. To nearest large city by railroad, 1 hour; by trolley, 1½ hours; by auto, 1½ hours.

Principal Industries: Manufacturing of stoves, underwear, furniture, handles and oil and machinery.

Manufacturing Establishments: 25. Total yearly payroll in factories approximately $3,-120,000.

Special Information: Piqua is in the center of an excellent farming community, with good paved roads leading into the city from four directions. It is located on the Dixie Highway, and on the Pike's Peak Ocean to Ocean Highway.

Residential Features: Piqua is known widely as a city of unusually beautiful homes, and the residential districts are especially well cared for and are most attractive. The majority of the citizens own their own homes. There are two new additions to the north and to the west, which are being built up rapidly.

Shopping Section: There are six squares of retail shopping district on Main St., three on Wayne, one each on Water, High, Market and Ash Sts.

Trading Area: Northern part of Miami County, southern part of Shelby County, and includes part of each county on the east and west. There are many smaller towns in the surrounding territory, from which Piqua draws considerable trade.

Banks: National, 3; Total Resources, $5,000,000; Building & Loan Associations, 3; Total Deposits, $2,000,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 1,800.

Location: Western Central, Ohio, 25 miles from Indiana, Ohio Line, served by the Baltimore and Ohio RR. 83 miles south of Toledo, and 117 miles north of Cincinnati; also N. Y. C. west of Columbus. Western Ohio car shops are located here. Lima is 12 miles north of Wapakoneta.

Principal Industries: Wheels, chain machine knives, candy hollowware, churns, dairy products, cigars, Wapakoneta Wheel Co., Standard Churn Co., Deisel-Wemmer Cigar Co., Krein Chain Co., Wapakoneta Hollow Ware Co., Foundry, Wapakoneta Machine Co., Wm. Teege Co., Cigars, Sheets Manufacturing Co., furniture.

Manufacturing Establishments: 13. See above.

Special Information: Wapakoneta is located in the heart of agricultural county of Northwestern Ohio and depends largely upon agriculture. Pork production is principal industry. Good supply of water, natural gas and electric current. Postal service, educational facilities, lodges, clubs, newspapers, retail storehouses are unexcelled.

Residential Features: Home owning community, occupied by retail tradesmen, business men, officials, workingmen and retired farmers. Three-fourths of all homes are owned by occupants. Average cost probably $2,500.

Retail Shopping Section: Extends from Blackhoof Street to B. & O. RR. on Augaize Street 5 blocks, side streets for one only off Auglaize, four neighborhood groceries.

Trading Area: Extends about seven miles in every direction, while much trade is attracted by reason of city being a county seat, coming from all corners of the county.

Wholesale Houses: Meats, 2; fruits, 1; miscellaneous lines, tobacco, 1; candy, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 5; automobile accessories, 10; automobile tire agencies, 9; bakers, 4; cigar stores and stands (including hotels), 5; confectioners (including hotel stands), 4; dressmakers, 6; druggists, 6; dry goods, 4; electrical supplies, 2; florists, 1; fruits, 1; furniture, 2; garages (public), 6; grocers, 11; hardware, 2; jewelry, 3; meat markets, 5; men's furnishings, 3; men's clothing, 3; merchant tailors, 1; milliners, 3; opticians, 3; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants (including hotels), 4; shoes, 4; sporting goods, 1; stationers, 2; women's apparel, 2.

OHIO (Cont'd)

WARREN, OHIO

(Trumbull County)

1920 Population, 27,050.

City and Suburban Estimate, 35,000.

Native Whites, 87%; **Negroes,** 1%; **Foreign Born,** 12%; **Industrial Workers,** 44%; **English Reading,** 95%; **Families,** 8,000.

Schools: Public Grade, 12; High, 1; Junior High, 2; Parochial, 1; Number of Pupils, 8,000.

Churches: Baptist, 6; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 4; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 12.

Banks: National, 2; State, 3; Total Resources, $18,001,286.66; Savings Bank Deposits Total, $6,212,822.99.

Theatres: Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 6,000.

Location: B. & O., P. RR., Erie, N. O. T. L. Bus service. Warren is in almost exact center of the largest industrial buying area in the country. It is on four direct rail routes between Lake Erie and Pittsburgh, and approximately half way between Pittsburgh and Cleveland and that section is traversed by every large Eastern trunk line, all with direct rail connections to Warren. To nearest large city by railroad, 1¼ hours; by trolley, 2½ hours; by auto, 2 hours.

Principal Industries: Iron and steel, automobiles, incandescent lamps, tanks, cars, cable, electric machinery, tools, auto bodies.

Manufacturing Establishments: 60. Leading firms: Trumbull Steel, Packard Electric, Borden Co., Warren Tool & Forge Co., American Tank Car, Sterling Knight Auto., Youngstown Pressed Steel, Heltzel Steel Form, Phillips Body Co., Peerless Electric Frost Fence Co., Ohio Corrugating Co., General Fire Extinguisher, Warren Foundry Co.

Special Information: Warren is the second largest manufacturer of electrical lamps in the world. The manufacture of iron and steel products and of electrical lamps and equipment constitute the principal industries of Warren, although the city's products are well diversified.

Residential Features: Mostly one and two family houses, greater portion of which are owned. Very few apartments. City Planning and City Zoning Commissions are planning widening main thoroughfares of the city and planning a boulevard system to completely surround the city.

Retail Shopping Section: West Market Street, 8 blocks; East Market Street, 7 blocks; Park Avenue, 10 blocks; Pine Street, 5 blocks; Main Street, 3 blocks; High Street, 2 blocks.

Trading Area: Extends to about 12 miles north, south, east and west.

Wholesale Houses: Groceries, 1; fruits, 2; dry goods, 1; miscellaneous lines, Scott Candy, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto. agencies, 10; automobile accessories, 30; automobile tire agencies, 30; bakers, 7; cigar stores and stands (including hotels), 51; confectioners (including hotel stands), 53; delicatessen, 10; dressmakers, 20; druggists, 10; dry goods, 12; department stores, 5; electrical supplies, 6; florists, 4; fruits, 15; furniture, 8; furriers, 2; garages (public), 15; grocers, 120 (chain, 3); hardware, 3; jewelry, 10; meat markets, 30; men's furnishings, 16; men's clothing, 16; merchant tailors, 8; milliners, 8; opticians, 7; photographers, 5; pianos (and miscellaneous musical instruments), 4; radio supplies, 8; restaurants (including hotels) 30; shoes, 10; sporting goods, 10; stationers, 3; women's apparel, 12.

Miscellaneous Data: Average temperature, 49.4 degrees; average number of rainy days per twelve months, 120; most pleasant months, May, June, Sept., Oct., Nov.; doctors (medical, 45), (dentists, 27), (osteopaths, 4); number of wired houses, 9,000; street car service; gas, natural and artificial; electric current, alternating; water, soft.

WASHINGTON COURT HOUSE, OHIO

(Fayette County)

1920 Population, 7,962.

City and Suburban Estimate, 30,000.

Native Whites, 95%; **Negroes,** 5%; **Foreign Born,** 1%; **Industrial Workers,** 15%; **English Reading,** 99.5%; **Families,** 1,990 approximate.

Schools: Public Grade, 5; High, 1; Junior High, 1; Number of Pupils, 1,400.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 1; State, 4; Total Resources, $5,841,563.29; Savings Bank Deposits Total, $561,329.56.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 1,550 (estimated).

Location: Located on C. C. C. highway in Fayette County, 40 miles southwest of state capitol. B. & O. S. W., Baltimore & Ohio, Wellston Div., Pennsylvania, Detroit, Toledo and Ironton Railway (Henry Ford's Ry), two of these railways, running north and south, other two east and west, and to all different points. Four inter-state highways (all improved) cross here. To nearest large city (Columbus, by railroad, 1 hour; by auto, 1½ hours.

Principal Industries: Shoes, metal products, packing, canning, flour mills, creameries, wood preserving, fertilizer, veneering, auto tubes, glove manufacturing company, candy, concrete posts.

Manufacturing Establishments: 25. Leading firms: P. Hagerty Shoe Co. (2 factories), Inskeep Mfg. Co. (gloves), Sunlight Creameries, Washington Milling Co., Sears & Nichols Canning Co., The Fayette Canning Co., Washington Metal Products, Washington Candy Co.

Special Information: Main branch (Dahl Campbell Branch) of largest wholesale grocery in the United States—Midland Grocery Co., is located here doing approximately $15,000,000 business yearly. Sunlight Creameries (br. of Cudahey Pkg. Co.), $1,000,000 creamery and one of the largest in the state, located here. City is main market for the greatest hog producing center in the United States. Has one of the largest Y. M. C. A.'s for city this size in United States. County has more miles of improved highways than any rural county in the state of Ohio. City has more paved streets than any city of size in the United States.

Residential Features: Mostly one family houses. Limited section devoted to workingmen's tenements. Private homes predominate and an unusually large percentage of residents are home owners.

Retail Shopping Section: Extends from Court House Square three blocks south and two blocks north on Main Street; two blocks west and three blocks east on Court Street; and intersecting streets.

Trading Area: Extends about eighteen miles, north, south, east and west. Intermittent business is secured from people living at a greater distance because of the exceedingly good department stores, the fine train and bus service, and splendid roads.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 14; commercial auto. agencies, 3; automobile accessories, 8; automobile tire agencies, 7; bakers, 3; cigar stores and stands (including hotels), 14; confectioners (including hotel stands), 4; delicatessen, 2; dressmakers, 12; druggists, 4; dry goods, 7; department stores, 4; electrical supplies, 4; florists, 1; fruits, 2; furniture, 3; garages (public), 10; grocers, 35 (chain, 4); hardware, 3; jewelry, 5; meat markets, 5; men's furnishings, 7; men's clothing, 7; merchant tailors, 4; milliners, 4; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 7; restaurants (including hotels), 11; shoes, 8; sporting goods, 2; stationers, 3; women's apparel, 6.

Miscellaneous Data: Average temperature, 52.5 degrees; average number of rainy days per twelve months, 108; most pleasant months, May, June, Sept., Oct.; doctors (medical, 17), (dentists, 7), (osteopaths, 2); number of wired houses, 3,500 (city and suburban); gas, natural and artificial; electric current, alternating; water, hard.

WILMINGTON, OHIO

(Clinton County)

1920 Population, 5,037.

Native Whites, 90%; **Negroes,** 10%.

Schools: Public Grade, 4; High, 1; Junior High, 1; Number of Pupils, 980.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1, and Church of Christ.

Banks: National, 3; Total, $3,750,000.

Theatres: Moving Pictures, 2; Auditoriums, etc., 2; Total number of seats, 3,500.

Location: Baltimore & Ohio, Pennsylvania. Center of Motor Bus lines in all directions. To nearest large city, by railroad, 2 hours; by auto, 2 hours.

Principal Industries: Auto accessories, auger bits, furnaces and heating plants, bridges, structural steel, ice cream cone machinery, air compressors, umbrellas, steel castings, harvesting machinery, stock food, ice, ice cream, snaps for harness.

Manufacturing Establishments, 11. Leading firms: Irwin Auger Bit Co. (largest wood-boring tool plant in the world); Farquhar Furnace Co., Auto Compressor Co., Moulton Wireless Umbrella Co., Turko Co., Safety Snap Co., Clinton Chemical Co., Wilmington Casting Co., Champion Bridge Co. Total value of yearly output of factories estimated at $2,500,000.

Special Information: Center of very rich agricultural county, making large trade territory. No foreign element. Labor mostly skilled and well paid. Richest county in Ohio per capita. Educational center with Junior and Senior High Schools and Wilmington College, all year round institution with large Normal school in summer. One of finest Court Houses in United States set in entire square. Live Commercial Club, owning its own beautiful home.

Residential Features: No "slums" or tenement district. Very large percentage of home owners. Large well-kept lawns and multitude of old trees distinguish this city from the average.

Retail Shopping Section: Extends three blocks each way from Court House Square.

Trading Area: Covers sixteen miles north, 12 miles east, 30 miles south and 20 miles west. Not only Clinton, but large section of Highland and some of Brown County, trade here regularly.

Wholesale Houses: Grocery, 1; fruit, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial auto agencies, 4; automobile accessories, 6; automobile tire agencies, 15; bakeries, 2; cigar stores and stands, 6; confectioners (including stands), 4; delicatessen, 1; dressmakers, 6; druggists, 4; dry goods, 4; department stores, 2; electrical supplies, 3; florists, 2; fruits, 4; furniture, 3; furriers, 1; public garages, 8; grocers, 18 (chain, 1); hardware, 3; jewelry, 3; meat markets, 6; men's furnishings, 4; men's clothing, 4; merchant tailors, 2; milliners, 4; opticians, 4; photographers, 2; pianos, 3; radio supplies, 5; restaurants (including hotels), 6; shoes, 5; sporting goods, 3; stationers, 2; women's apparel, 3.

Miscellaneous Data: Average temperature, 49 degrees; average number of rainy days per 12 months, 120; most pleasant months, May, June, Oct., Nov.; doctors (medical, 11), (dentists, 5), (osteopaths, 2); gas, artificial; electric current, alternating; water, hard.

WOOSTER, OHIO

(Wayne County)

1920 Population, 8,204.

City and Suburban Estimate, 10,500.

Native Whites, 96%; **Negroes,** 1.5%; **Foreign Born,** 2%; **Industrial Workers,** 45%; **English Reading,** 99%; **Families,** 2,500.

Schools: Public Grade, 5; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,800 and 1,900.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 6.

Banks: National, 2; State, 1; Total Resources, $5,500,000; Savings Bank Deposits Total, $100,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 4; Total number of seats, 2,400.

Location: P. R. R. main line and small branch of B. & O. Cleveland & Southwestern Traction Co., has a freight service to Wooster. Bus service embraces all principal cities in the vicinity, including Cleveland, Canton, Massilon, Millersburg and Medina. To nearest large city by railroad, 1 hour; by trolley, 2½ hours; by auto, 2 hours.

Principal Industries: Agriculture. In the line of manufacturing, steel and rubber predominate. The oil industry is now leading all others in and around Wooster.

Manufacturing Establishments: 20. Leading firms, Woodard Machine Co., Ohio Overall Co., Wooster Preserving Co., Wooster Rubber Co., Holmes Construction Co., Perkins Structural Steel Co., Toy Craft Co., Wooster Brush Co., Buckeye Aluminum Co., Medal Paving Brick Co., Buckeye Boiler Works, Canton Rim Co., Akron Brass Mfg. Co., Superior Cloak Co., Success Dish Washing Machine Co., Wooster Feed Mfg. Co., Weldless Tube Mfg. Co.

Special Information: The Ohio Experimental Station is located just outside of Wooster. Three main highways, the Lincoln, Harding and CCC, go through Wooster and Wayne Co. At present Wooster is enjoying phenomenal growth due to the coming of many new industries, among which are oil. Wooster is in the center of one of the best oil fields in the state. The College of Wooster adds about 850 to the population during school year.

Residential Features: Mostly one and two family houses occupied generally by business men. The families are largely retired farmers and business men. Wooster attracts many people for the purpose of educating their children in the schools here. The value of the homes in the better part of town is about $6,000.

Retail Shopping Section: Liberty street is the main shopping street, extending the entire length of the city and the main business part will cover 10 blocks. On Market street are about 3 blocks of business houses.

Trading Area: Wooster attracts people within about a 20-mile radius. Many come further for the purchase of clothing and other goods, Wooster being considered an excellent place for such articles.

Wholesale Houses: Groceries, 3; meats, 1; fruits, 1; dry goods, 1; Miscellaneous lines, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; commercial auto. agencies, 3; automobile accessories, 19; automobile tire agencies, 10; bakers, 4; cigar stores and stands (including hotels), 11; confectioners (including hotel stands), 12; delicatessen, 1; dressmakers, 20; druggists, 5 (chain, 1); dry goods, 7; department stores, 4; electrical supplies, 5; florists, 5; fruits, 4; furniture, 2; furriers, 1; garages (public), 17; groceries, 28; hardware, 5; jewelry, 4; meat markets, 10; men's furnishings, 5; men's clothing, 7; merchant tailors, 2; milliners, 6; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 2; restaurants (including hotels), 14; shoes, 9; sporting goods, 4; stationers, 3; women's apparel, 7.

Miscellaneous Data: Average temperature, 48 degrees; average number of rainy days per twelve months, 120; most pleasant months, May, June, September, October; doctors (medical, 18); (dentists, 12), (osteopaths, 3); number of wired houses, 2,300; street car service; gas, natural; electric current, alternating; water, hard.

XENIA, OHIO

(Greene County)

1920 Population, 9,110.

City and Suburban Estimate: No suburban sections.

Native Whites, 80%; **Negroes,** 20%; **English Reading,** 99%; **Families,** 2,500.

Churches: Baptist, 4; Christian Science, 1; Episcopal, 1; Methodist, 6; Presbyterian, 3; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 2; State, 1; Total Resources, $3,000,000; Savings Bank Deposits Total, $50,000; Building and Loans, $2,000,000.

The

Youngstown Telegram

is FIRST in ALL!

THE radius of the suburban territory of Youngstown is only 14 miles. Eight nearby towns, with one exception, have no big stores. These towns have grown with Youngstown proper into one big metropolitan community—into one continuous city.

City and Suburban circulation (i.e., Local Circulation, A.B.C.) is therefore comparable with just City circulation in other markets while Country circulation compares with what is called Suburban elsewhere.

Leads in Reaching

Youngstown Homes

Always Ahead in Home Interest

YOUNGSTOWN ranks fifth among all U. S. cities in home ownership. 47.8% of its homes are owned by their occupants.

In this city and its immediate environs there are 34,175 families, according to an accurate compilation by The 100,000 Group of American Cities.

In these prosperous homes The Youngstown Vindicator finds a welcome and intense popularity, partly because of its particular local appeal but also because of the large amount of general news it prints.

The Vindicator, Daily and Sunday, goes into many more of these homes than any other newspaper.

Enormous Annual Industrial Payroll

Youngstown is largely made up of highly paid steel workers, the annual payroll exceeding $100,000,000. These ambitious, progressive people quickly respond to new products and are greatly interested in everything that improves daily living.

Radio Profits

Radio advertisers find Youngstown a most fruitful field. Technical and mechanical activities of these workers make them enthusiastic radio fans. City ideally located for exceptional radio reception.

Helpful Merchandising Service

The Vindicator Service Bureau will gladly cooperate closely with you in promoting distribution of your products in this rich, industrial territory.

CUSHING, OKLA.

(Payne County)

1920 Population, 6,326. (1925, est. 9,500.)

City and Suburban Estimate, 11,000.

Native Whites, 90%; Negroes, 8%; Foreign Born, 2%; Industrial Workers, 15%; English Reading, 95%; Families, 2,200.

Schools: Public Grade, 2,500; High, 462; Junior High, 375; Parochial, 85.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1.

Banks: National, 3; Total Resources, $3,500,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 3,300.

Location: Served by the Santa Fe, and the M. K. & T. R.Rs. Excellent shipping facilities, direct freight line to Santa Fe., and through passenger service on the M. K. & T. R.R. Cushing is claimed to be the third largest shipping point on the M. K. & T. north of the Red River, and one of the largest shipping points in the State. To nearest large city, by railroad, 3 hours; by auto, 4 hours.

Principal Industries: Oil refining, cotton oil mills, compresses, cotton gins, meat packing, oil supply houses, machine shops, brick plants, tank farms, ice plant, bottling plant, gasoline, wax plant, agriculture.

Manufacturing Establishments: 23. Leading firms: Shaffer Oil & Refining Co., Empire Oil Refining Co., Pure Oil Refining Co., Sinclair Refining Co., Illinois Refining Co., Inland Refining Co., Cushing Refining & Gasoline Co., Commonwealth Cotton Oil Co., Cushing Packing Co., People Compress Co., Ozark Pipe Line Co.

Special Information: Cushing claims to be the second largest shipping point in the state, the Santa Fe R.R. alone hauling 16,000 cars of petroleum products each year. The two railroads average about 75 cars a day. Has some of the largest oil tank farms in the country. New oil fields in development near city.

Residential Features: Cushing has some large houses, but the majority of homes are of the one-story bungalow type. Few apartment houses. Good paved streets. Town spreads out over a territory of about 5 square miles.

Retail Shopping Section: On Broadway for about 6 blocks of the business district. Harrison, Cleveland, and Moses Sts., each have about 3 blocks of business houses.

Trading Area: East 20 miles, west 25 miles, north, 15 miles.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 1; miscellaneous lines, 6.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 2; automobile accessories, 3; automobile tire agencies, 5; bakers, 2; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 8; delicatessen, 3; dressmakers, 7; druggists, 5; dry goods, 6; department stores, 5; electrical supplies, 3; florists, 1; fruits, 2; furniture, 7; garages (public), 8; total grocers, 51 (chain, 1); hardware, 5; jewelry, 4; meat markets, 4; men's furnishings, 2; men's clothing, 3; merchant tailors, 2; milliners, 4; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 7; restaurants (including hotels), 12; shoes, 1; sporting goods, 1; women's apparel, 5.

Miscellaneous Data: Doctors (medical, 8), (dentists, 5), (osteopaths, 4); number of wired houses, 1,870; gas, natural; electric current, alternating and direct; water, hard.

DRUMRIGHT, OKLA.

(Creek County)

1920 Population, 6,460.

City and Suburban Estimate: 15,000. This estimate for an oil field immediately surrounding which may be considered an industrial suburban district.).

Native Whites, 88%; Negroes, 5%; Foreign Born, 7%; Industrial Workers, 75%; English Reading, 95%; Families, 1,500.

Schools: Public Grade, 4; High, 1; Junior High, 1; Number of Pupils, 2,937.

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, Church of Christ, 1; Disciples, 1.

Banks: National, 1; State, 1; Total Resources, $1,389,619.80.

Theatres: Moving Pictures, 2; Airdrom, 1.

Location: Is the trading center for the Cushing oil field, situated in middle of field served indifferently by Santa Fe railroad. Gravel roads in all directions, N. S. E. W. concrete building to Tulsa proposed and now being constructed to Oklahoma City. Railroad travel is slow with four trains a day on spur track connecting with the main line at Cushing. Oil companies depend on trucks largely.

Principal Industries: Pumping wells, refining, gasoline field plants making gasoline from natural gas, operating pumps, stations on main trunk lines. Oil storage and distribution from other fields, farming.

Manufacturing Establishments: Gypsy Oil Co., Magnolia Petroleum Co., Oklahoma Pipe Line Co., Prairie Oil & Gas Co., Roxana Oil Co., Shaffer Oil Co., Tidal Oil Co., Tidal Refining Co., Pure Oil Company, Texas Company, Eureka Tool Co. Understand these companies, all branches of national producers, are here in the business of making gasoline and oils, mostly, however, they stick to production. All make gasoline on the field. The Tidal operates a big refinery. The Eureka is the only plant in town that would answer the general description of a factory. Average daily production of crude oil 30,000 barrels.

Special Information: Detailed information on output of field supporting this city can be obtained from the big companies mentioned above. The field and city are really one unit. There is no new drilling, the field having settled down to steady production. Population is settled. Production about steady. Farming conditions now supply only 15 per cent of city trade rapidly becoming stronger as owners turn attention to soil and forget the oil below them.

Residential Features: The town is new and a large percentage of the people living here are looking to the time when they can build better homes. Ten years ago when the Cushing pool blew in this was a wild eyed gusher town. Today some of the temporary shacks remain but slowly and steadily good private houses are being built. Population now is staple, being lease, refinery, gasoline plant, and pump station workers with the business folk they support.

Retail Shopping Section: On Broadway, extending north and south for about six blocks, shopping section is compact, almost congested. Most of the better stores are on the west of the railroad. Usual business houses besides several oil wells supply houses which do a good share of business.

Trading Area: The Cushing, Oilton and Shamrock fields, runs five miles north and really includes the town of Oilton, ten miles south in the rich oil field with numerous plants, five miles east to the limit of oil fields. The farm trading territory is much wider, but not nearly so compact and valuable as oil worker trade. This is roughly a ten mile radius except on west where it is about 7 miles.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 4; automobile accessories, 15; automobile tire agencies, 20; bakers, 2; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 9; delicatessen, 3; druggists, 7; dry goods, 10; department stores, 1; electrical supplies, 2; florists, 1; furniture, 3; garages (public), 5; grocers, 14; hardware, 8; jewelry, 3; meat markets, 6; men's furnishing, 2; men's clothing, 6; merchant tailors, 3; milliners, 4; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 3; restaurants (including hotels) 5; shoes, 10; sporting goods, 3; stationers, 2; women's apparel, 3.

DUNCAN, OKLA.

(Stephens County)

1920 Population, 3,463.

City and Suburban Estimate, 40,000.

Native Whites, 99%; Negroes, ½%; Foreign Born, ½%; English Reading, 100%; Families, 2,836.

Schools: Public Grade, 3; High, 1; Junior, High, 1; Parochial, 1; Number of Pupils, 2,931.

Churches: Baptist, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 4; Total Resources, $5,956,206; Savings Banks Deposits Total, $100,000.

Theatres: Legitimate, 2; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 2,000.

Location: C. R. I. & P. Ry., Meridan Highway, and Lee Highway, Ozark Trails, Highway. Bus line connecting Oklahoma City, Okla., and Ft. Worth, Texas.

Principal Industries: Oil and gas fields; agriculture.

Manufacturing Establishments: Broom factory, mattress factory, electro polish factory.

See announcement columns 3 and 4

FREDERICK, OKLA.

(Tillman County)

1920 Population, 3,822.

City and Suburban Estimate, 5,000. (Est. population of trade territory 25,000.)

Native Whites, 95%; **Negroes,** 3%; **Foreign Born,** 2%; **Industrial Workers,** 50%; **English Reading,** 100%; **Families,** 1,250.

Schools: Public Grade, 3; High, 1; Junior High, 1; Junior College, 1; Number of Pupils, 1,200.

Churches: Baptist, 2; Christian Science, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, Christian, 1; Church of Christ, 1.

Banks: National, 2; state, 1; Total Resources, $1,167,206.46; Savings Banks Deposits Total, $1,736,138.

Theatres: Moving Pictures, 3; Total number of seats, 1,500.

Location: Frisco, and Missouri, Kansas & Texas Rys. Lee Highway and Star Highway. County seat of Tillman County, in extreme southwest corner of Oklahoma, 13 miles north of Red River.

Principal Industries: These have to do almost exclusively with the agricultural pursuits of the farmers in the city's trade territory. There are eight cotton gins, a cotton oil mill, a flouring mill, a creamery and ice cream factory, and industries of a kindred nature.

Manufacturing Establishments: Include the above and many smaller industries. City's inexhaustible supply of pure water makes it the center of ice manufacturing industry for wide area. In 1923 Tillman County ginned over 42,000 bales of cotton, the greatest production of any county in Oklahoma. Production and shipment of alfalfa seed is a considerable industry. The Frederick Seed Farms raise pedigreed cotton seed and ship all over the south.

Residential Features: There is a large percentage of home ownership, with bungalow type of construction; houses and yards well kept and civic pride dominant. Many beautiful homes.

Retail Shopping Section: Grand Avenue.

Trading Area: East 20 miles, southeast 30 miles, south and west 15 miles, north 15 miles.

Wholesale Houses: Groceries, 2; Miscellaneous lines: cotton seed, 1.

HENRYETTA, OKLA.

(Okmulgee County)

1920 Population, 5,889.

City and Suburban Estimate, 26,000.

Native Whites, 95%; **Foreign Born,** 5%; **Industrial Workers,** 65%; **English Reading,** 98%; **Families,** 5,000.

Schools: Public Grade, 14 High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 4,369.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 5.

Banks: State, 2; Total Resources, $1,700,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 3,200.

Location: On main lines St. Louis & San Francisco and Kansas, Oklahoma and Gulf Rys. Thirteenth in point of tonnage on entire line of Frisco, and principal shipping point of K. O. & G. Junction point of federal aided highways Nos. 7 and 12 for Oklahoma City, Tulsa and Muskogee. Hourly taxi service in four directions, serving large territory.

Principal Industries: Largest coal field in southwest, 54 mines; zinc smelters, oil well tools, brick and tile plants.

Social: Country club having 160 acres with 20-hole golf course; 12-acre lake for boating and fishing.

Special Information: City is located in center of the great oil field of Oklahoma. Offers fuel gas in quantities of 700,000,000 cubic feet daily at 8c per 1,000 feet. Greatest coal field in southwest. Great beds of tile shale; 12 hour run to Kansas City, St. Louis and Dallas. Two hours to Tulsa and Oklahoma City.

Residential Features: Private homes predominate even among the working class. Two special apartment houses. Common labor tenements around mines and smelters. Three beautiful residential districts overlook the city. Homes ranging from $3,500 to $12,500. City may be described as a great earthen saucer, the surrounding hills being the rim. A peculiarly picturesque location.

Retail Shopping Section: Extends 16 blocks on Main St.; 5 blocks on Trudgeon; 4 on Broadway; "Neighborhood" territory of Kusa, Spelter City, Dear, Schulter, Coalton, Pleasant Valley, Crystal City—all coal and oil suburbs with customary shops, but do the bulk of their trading in Henryetta. A large farm and poultry raising center, cotton the especial crop, while 11 special poultry farms form the additional industry. A special milk goat breeding farm ships milk stock throughout the country.

Trading Area: Extends about 7 miles north, half way to Okmulgee, 20 miles southwest and north.

Wholesale Houses: Groceries, 3; meats, 1; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 29; commerical auto. agencies, 11; automobile accessories, 16; automobile tire agencies, 8; bakers, 4; cigar stores and stands (including hotels), 9; confectioners (including hotel stands), 5; delicatessen, 3; dressmakers, 3; druggists, 7; dry goods, 17; electrical supplies, 3; florists, 1; fruits, 5; furniture, 4; garages (public), 13; grocers, 32; hardware, 5; jewelry, 2; meat markets, 7; men's furnishing, 4; men's clothing, 4; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 14; shoes, 1; sporting goods, 2; stationers, 2; women's apparel, 4.

HUGO, OKLA.

(Choctaw County)

1920 Population, 6,368.

City and Suburban Estimate, 10,000.

Native Whites, 89%; **Negroes,** 10%; **Foreign Born,** 1%; **Industrial Workers,** 22%; **English Reading,** 98%; **Families,** 1,460.

Schools: 6; **Number of Pupils,** 1,850.

Churches, 7.

Banks: 4; **Total Resources,** $4,670,000.

Theatres: 2; **Total number of seats,** 2,000.

Residential Features: One family houses.

Retail Shopping Section: 6 blocks.

Trading Area: 12 mile radius.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 4; automobile accessories, 4; automobile tire agencies, 4; bakers, 2; cigar stores and stands (including hotels), 7; confectioners (including, hotel stands), 2; dressmakers, 4; druggists, 7; dry goods, 4; department stores, 1; electrical supplies, 3; florists, 1; fruits, 1; furniture, 3; garages (public), 8; grocers, 10; hardware, 2; jewelry, 3; meat markets, 6; men's furnishings, 2; men's clothing, 4; merchant tailors, 1; milliners, 2; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 6; shoes, 2; sporting goods, 1; stationers, 2; women's apparel, 4.

LAWTON, OKLA.

(Comanche County)

1920 Population, 8,930.

City and Suburban Estimate, Approximately 14,000 including Fort Sill.

Native Whites, 89%; **Negroes,** 10%; **Foreign Born,** 1%; **Industrial Workers,** 10%; **English Reading,** 95%; **Families,** 2,000.

Schools: Public Grade, 8; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 2,300; Indian School, 1; Agricultural School, 1.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 2. Also Army Y. M. C. A. and Salvation Army.

Banks: National, 3.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 4,100.

Location: On the Frisco and Rock Island railroads 92 miles southwest of Oklahoma City and 200 miles north of Dallas. Has excellent railroad service, which facilitates the shipment of merchandise to all parts of southwestern Oklahoma and makes this the leading wholesale distribution point in this section of the state.

Principal Industries: Fort Sill, 3,500 soldiers, monthly payroll $300,000. Medicine Park and Wichita Mountains, summer resorts. Oil refineries, oil field machine shops, electric power distribution center, structural steel works, cotton gins, cotton oil mill, flour mill, elevators, railroad shops.

Manufacturing Establishments: 19. Leading firms, Larrance Tank Corporation. Park broom factory, Mount Scott and Fuller creameries, Lawton Refining Co., Southwestern Light and Power Co., Lawton Mattress factory, Lawton Tent and Awning Co., Walker Flour Mill, Independent Cotton Seed Oil mill, Lawton Poultry and Egg Co., Lawton Ice Cream Co. Total value of yearly output of factories estimated at $6,000,000.

Special Information: Lawton business men and wholesale houses receive every year in the neighborhood of $4,000,000 from Fort Sill. Tourists this year have spent $2,000,000 in the Wichita Mountains most of which comes into Lawton. Lawton is a wheat and cotton marketing center.

Residential Features: Mostly for light housekeeping apartments. Large number of railroad, industrial and civil service workers' homes on South side. Gore addition and Fort Sill Boulevard form exclusive residence sections. Homes in latter average $7,500 each.

Retail Shopping Section: Business section extends west from Rock Island Railroad five blocks on C and D avenues, with automobile agencies on E avenue. Unusually large number of filling stations and cafes due to large tourist trade through here to resorts in the Wichita Mountains and also because of Fort Sill, personnel of which consists largely of unmarried men. Lawton is an army town and its business district is of about the size usually found in cities of 20,000.

Trading Area: Trading area extends from city in a radius of 25 miles. Ready-to-wear and clothing drawing trade as far as forty and fifty miles, due to high class of shops, which cater to army officers' wives. Interurban to Fort Sill which is also connected with city by concrete highway four miles long draws big volume of business from post.

Wholesale Houses: Groceries, 4; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 1; automobile accessories, 1; automobile tire agencies, 4; bakers, 5; cigar stores and stands (including hotels), 4; confectioners (including hotel stands), 2; dressmakers, 5; druggists, 9; dry goods, 6; department stores, 2; electrical supplies, 3; florists, 3; furniture, 5; garages (public), 13; grocers, 65; hardware, 4; jewelry, 5; meat markets, 5; men's furnishings, 1; men's clothing, 8; merchant tailors, 2; milliners, 2; opticians, 4; photographers, 4; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 10; shoes, 4; sporting goods, 2; stationers, 2; women's apparel, 5.

McALESTER, OKLA.

(Pittsburgh County)

1920 Population, 12,095. (1925, est. 16,980.)

City and Suburban Estimate, 18,000. All reached by our street car system.

Special Information: Miami at the south of one of the largest lead and zinc fields in the world and its business and wealth is largely drawn from this source. Many of the largest operators have their offices in the city and operators and workmen live here. Hard surfaced roads, asphalt, and concrete traverse the country east to west, and north to south, furnishing easy access to the city from both mining and farming sections. To the nearest large city by railroad, 2 hours; by trolley, 4 hours; by auto, 3 hours. A fine tourist camp is located in the suburbs on Lake Miami with fine bathing, boating and fishing. One of the most noted herds of Aberdeen-Angus cattle has its home here as well as many other herds of pure bred cattle and hogs.

Residential Features: Miami is noted for its excellent housing accommodations. There are very few two or three room houses or old shabby buildings. Majority of houses range from five rooms up and many of them cost $10,000 and up. About 30 rooming houses and apartment houses. Natural gas is the predominant fuel and the water and light systems (municipally owned) furnish excellent service at low prices. Asphalt streets and concrete sidewalks do away with all the dust and dirt. Two 5-storied hotels (150 rooms each), rank with the best to be found anywhere. There are several smaller hotels.

Retail Shopping Section: Main shopping section 6 blocks on Main Street and 5 blocks on Central Avenue with some 25 or more small stores scattered in the residence district.

Trading Area: A radius of 20 miles around the city with a heavy trade from the lead and zinc fields along the N. E. O. RR. north of the city.

SHAWNEE, OKLA.

(Pottawatomie County)

1920 Population, 15,348. (1925, est. 18,285.)

City and Suburban Estimate, 26,100.

Native Whites, 95%; Negroes, 3.5%; Foreign Born, 1.5%; Industrial Workers, 18%; English Reading, 3,005; Families, 3,085.

Schools: Public Grade, 7; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 5,650. Baptist University, students, 1,051.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 1; Methodist, 4; Presbyterian, 3; Roman Catholic, 1; Miscellaneous, Christian, Nazarene, Church of Christ.

Banks: National, 3; Total Resources, $5,110,-242, July 5, 1925. Savings Banks Deposits Total—Three Building and Loan Associations have resources of $9,550,000.

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 1; Burlesque, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 3,100.

Location: On main line Chicago, Rock Island & Pacific—division and shop point—branches of Santa Fe and Oklahoma City, Ada and Atoka, and on Shawnee-Tecumseh interurban. Southern terminus of Oklahoma Southwestern now building. Seventeen bus lines operate regularly to oil fields' towns and the adjoining counties. To the nearest large city by railroad, 1 hour, 45 minutes; by auto, 2 hours.

Principal Industries: Shops of the Rock Island and Santa Fe, flour and feed mills, garment manufacturing plant, two commercial ice plants operating year round; seed cleaning and shipping concern, machine shops, welding works, bottling works, creameries, cotton gins, cotton compresses.

Manufacturing Establishments: 24. Leading firms: Shawnee Milling Co., Shawnee Garment Mfg. Co., Climax Creamery Co., Western Ice & Storage Co. Total value of output of factories estimated at $5,225,000 not including R. R. shops and cotton comps.

Special Information: Shawnee is in the heart of a large cotton producing area and is the principal concentration point. It is a large mule market and handles dairy products of much value. During two years it has become an important supply point for the largest new oil fields developed in the state. It is an educational point of importance, besides the public schools being the seat of the Oklahoma Baptist University and St. Gregory's Catholic college.

Residential Features: Shawnee is a city of home-owners, only a small section of the city being set aside for industrial workers. Homes of negroes are segregated and no whites live among them. Streets are shaded and, in the best residential district the average value of the homes is about $12,000.

Retail Shopping Section: Extends from the second block on West Main Street to the sixth block on East Main, two blocks on North Broadway, one block each on North Beard, North Bell, North Union, South Union, South Bell, South Broadway and South Beard.

Trading Area: Extends forty miles to the east, 32 miles to the south, 20 miles to the west and 30 miles to the north; the most recent extension being to the north to the oil fields which are principally supplied from Shawnee which built its own road to them.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 3; miscellaneous lines, flour and feed.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; commercial auto. agencies, 7; automobile accessories, 8; automobile tire agencies, 12; bakers, 3; cigar stores and stands (including hotels), 44; confectioners (including hotel stands), 8; delicatessen, 1; dressmakers, 6; druggists, 9 (chain, 5); dry goods, 10; department stores, 1; electrical supplies, 1; florists, 2; fruits, 4; furniture, 4; furriers, 4; garages (public), 8; grocers, 42 (chain, 2); hardware, 4; jewelry, 5; meat markets, 8; men's furnishings, 5; men's clothing, 4; merchant tailors, 5; milliners, 4; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 10; shoes, 2; sporting goods, 2; stationers, 2; women's apparel, 8; paint and paper, 2.

Miscellaneous Data: Average temperature, 70 degrees; average number of rainy days per twelve months, 60; most pleasant months, July, Aug., Sept., Oct.; doctors (medical, 40), (dentists, 10), (osteopaths, 4); number of wired houses, 3,200; street car service; gas, natural; electric current, alternating and direct; water, hard.

STILLWATER, OKLA.

(Payne County)

1920 Population, 4,701. (1925, est. 7,500.)

City and Suburban Estimate, 5,600; 1925 estimate, 8,500.

Native Whites, 98%; Negroes, 1%; Foreign Born, 1%; English Reading, 99.50%; Families, 1,750.

Schools: Public Grade, 5; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,466.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 3; Total Resources, $2,287,-389.70.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 3,635.

Location: Atchison, Topeka & Santa Fe. Fine auto service to points on St. Louis & San Francisco Railroad and Mo. Kans. & Texas Ry. To nearest large city by railroad, 3 hours; by trolley, 3 hours; by auto, 3½ hours.

Principal Industries: Flour mills, ice plant, broom factory, cement block, wholesale grocery houses and candy factory.

Manufacturing Establishments: Leading firms: Lehman Ice Co., with four branch plants.

Special Information: Seat of Oklahoma Agricultural and Mechanical College with 1,000 acre farm, Twenty-three principal buildings. Forty-four departments of special education.

Residential Features: Private homes. Modern 5 and 6 room homes average value is $6,-500.

Retail Shopping Section: Main Street, 5 blocks. East Ninth Avenue, 1 block. East Eighth Avenue, 2 blocks. West Seventh Avenue, 1 block. Small business neighborhood just outside of college campus.

Trading Area: Eleven miles south. Twelve miles east. Fifteen miles west and twelve miles north.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 2; automobile accessories, 4; automobile tire agencies, 5; bakers, 8; cigar stores and stands (including hotels), 8 (chain, 1); confectioners (including hotel stands), 4; dressmakers, 4; druggists, 5; dry goods, 3; department stores, 3; electrical supplies, 2; florists, 1; furniture, 5; garages (public), 10; grocers, 14 (chain, 2); hardware, 2; jewelry, 3; meat markets, 6; men's furnishings, 4; men's clothing, 4; merchant tailors, 2; milliners, 4; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 1; radio supplies, 1; restaurants (including hotels), 8; shoes, 5; sporting goods, 3; stationers, 1; women's apparel, 4.

Miscellaneous Data: Average temperature, 62 degrees; average number of rainy days per twelve months, 50; most pleasant months, Sept., Oct., Nov., Dec.; doctors (medical, 6), (dentists, 4), (osteopaths, 3); number of wired houses, 1,640; bus service; gas, natural; electric current, alternating; water, soft.

TULSA, OKLA.

1920 Population, 72,075. (Official estimate by Bureau of Census, April, 1923—102,018.)

City and Suburban Estimates, 125,000.

Native Whites, 85%; Negroes, 12%; Foreign Born, 3%; Industrial Workers, 20%; English Reading, 98%; Families, 25,000.

Schools: Public Grade, 23; High, 1; Junior High, 5; Parochial, 2; Number of Pupils, 17,675.

Churches: Baptist, 18; Christian Science, 2; Congregational, 1; Episcopal, 1; Hebrew, 2; Methodist, 14; Presbyterian, 6; Roman Catholic, 3; Miscellaneous, 32.

Banks: National, 6; State, 2; Total Resources, $70,247,547.93; Savings Bank Deposits Total, $14,769,470.

Theatres: Legitimate, 1; Moving Pictures, 12; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 5; Total number of seats, 15,000.

Location: In northwestern Oklahoma, 250 miles south of Kansas City, 424 miles southwest of St. Louis, and 284 miles north of Dallas. Served by the St. Louis & San Francisco (Frisco System), M. K. & T., Midland Valley, Atchison, Topeka and Sante Fe. Excellent bus and electric railway service to all points in trade territory.

Principal Industries: Petroleum production and refining, oil well supplies and machinery, cotton sheeting, glass, furniture, stoves. Large coal, lead and zinc mines in trade territory.

Manufacturing Establishments: 210. Leading firms, Cosden Co., Texas Co., Sand Spring Cotton Mill, Kerr Glass Co., Oklahoma Iron Works, Braden Co., Queen Bee Stove Co. Practically all the large oil companies have warehouses and shops.

Special Information: Tulsa is the oil capital of the state, the financial center of the Mid-Continent field, the industrial center of Oklahoma, the hub of the extensive system of paved highways in the southwest, the center of a rich agricultural and dairying district, an important jobbing center. Very large income producing point on the Frisco System. Cosden Co. operates the largest independent refinery in the mid-continent oil field.

Residential Features: Mostly single family homes. No congested areas. Colored section entirely segregated. No tenement districts. Tulsa is noted for its many magnificent homes and beautiful residence sections made possible by the great wealth of the prominent men in the oil industry.

Retail Shopping Section: Extends 12 blocks south to Frisco R. R. (which is the dividing line between the north and south parts of the city) along Main Street, and for about 8 blocks along Boston, Boulder; 6 blocks along Cincinnati and Cheyenne, these streets all paralleling Main Street. Also on cross streets between limits set above. There are outlying retail sections in West Tulsa and Sand Springs, and several smaller "neighborhood sections" with the usual grocery, meat, drug and small shops.

Trading Area: Extends for approximately 100 miles in every direction and Tulsa is the retail center for this entire area.

Wholesale Houses: Groceries, 6; meats, 4; fruits, 10; hardware, 1; miscellaneous lines, oil well supplies, confectionery, paper, etc.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 28; commercial auto. agencies, 8; automobile accessories, 8; automobile tire agencies, 14; bakers, 16; cigar stores and stands (including hotels), 30; confectioners (including hotel stands), 28; delicatessen, 5; dressmakers, 6; druggists, 72; dry goods, 7; department stores, 4; electrical supplies, 20; florists, 7; fruits, 15; furniture, 38; furriers, 1; garages (public), 59; grocers, 262, hardware, 10; jewelry, 11; meat markets, 150; men's furnishing, 30; men's clothing, 37; merchant tailors, 21; milliners, 9; opticians, 7; photographers, 18; pianos (and miscellaneous musical instruments), 6; radio supplies, 8; restaurants (including hotels), 68; shoes, 16; sporting goods, 5; stationers, 3; women's apparel, 12.

WILSON, OKLA.

(Carter County)

1920 Population, 2,286.

City and Suburban Estimate, 2,200.

Native Whites, 98%; Foreign Born, 2%; Industrial Workers, 25%; English Reading, 100%; Families, 500.

Schools: Public Grade, 1; High, 1; Junior High, 1.

Churches: Baptist, 1; Church of Christ, 1; Miscellaneous, Modern Apostolic 1.

Banks: National, 1; State, 1; Total Resources, $450,644.08. Savings Bank Deposits Total, $400,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 2,000.

Location: About midway on Ringling Ry.

OKLAHOMA and OREGON Newspaper Markets in Standard Surveys

OKLAHOMA (Cont'd)

Wilson (con't)

System which extends from Ardmore, Okla.—city of about 2,500 to Ringling, Okla.—a small town of probably 700. To nearest larger city (30-mile system) by railroad, 1 hour; by auto, 1 hour.

Principal Industries: Cotton, oil, produce, lumber, markets, refining of oil.

Manufacturing Establishments: Leading firms: Wyanza Refining Co., Daisy Bell Refining Co.

Special Information: Wilson's oil industry is the most prominent, with cotton production ranking a close second, and other very important agricultural products, such as corn-milo maize, and garden produce, pecans, and peaches in the horticultural line.

Residential Features: The families of this city and neighborhood are mostly old residents here. Unlike most oil-field towns the city has a large per cent of well-built homes. No apartments. One good hotel.

Retail Shopping Section: On Main Street, with 10 blocks of business houses. C Street, with 2 blocks, and D Street, with 5 blocks.

Trading Area: East, 3 miles; west, 6 miles; south, 10 miles; north, 8 miles.

Wholesale Houses: Groceries, 1; hardware, 2; miscellaneous lines, lumber, 3; oil, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 3; commercial auto. agencies, 3; automobile accessories, 7; automobile tire agencies, 8; bakers, 1; total cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 13; dressmakers, 2; druggists, 4 (chain, 1); dry goods, 8; department stores, 1; electrical supplies, 2; fruits, 15; furniture, 3; furriers, 2; garages (public), 7; grocers, 13; hardware, 3; jewelry, 2; meat markets, 4; men's furnishings, 2; men's clothing, 2; merchant tailors, 3; milliners, 2; opticians, 1; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 8.

Miscellaneous Data: Average temperature, 70 degrees; average number of rainy days per twelve months, 60; most pleasant months, Sept., Oct., Nov., Dec.; doctors (medical, 6), (dentists, 2), (osteopaths, 1); number of wired houses, 440; gas, natural; electric current, direct; water, soft.

WOODWARD, OKLA.

(Woodward County)

1920 Population, 3,896.

City and Suburban Estimate, 5000.

Native Whites, 98%; **Foreign Born,** 2%; **Industrial Workers,** 3%; **English Reading,** 100%; **Families,** 1,000.

Schools: Public Grade, 6; High, 1; Junior High, 1; Business College, 1; Number of Pupils, 1,250.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous: Disciples Christ, United Brethren, Nazarene, Lutheran.

Banks: National, 1; State, 1; Total Resources, $1,200,000. Building and Loan Association, $233,000.

Theatres: Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), Convention Hall, High School and Community Bldg. Total number of seats, 1,800, Convention Hall; 800, High School; 800, Community Bldg.

Location: Atchinson, Topeka & Santa Fe main line to Pacific coast, to Kansas City and Chicago, carrying through passenger and freight service on fast schedules. Missouri, Kansas and Texas, direct line to Fort Worth, Dallas and Gulf coast. To nearest large city by railroad, 5½ hours; by auto, 7½ hours.

Principal Industries: Ice plant, ice cream factory, butter factory, bakeries, cement blocks, and the government experimental farm (town is rural center supported by diversified farming, ranging from beef cattle to intensive truck gardening, and including poultry, dairying, sheep and hogs).

Manufacturing Establishments: Leading firms: Railways Ice & Coal, Greer's Ice Cream Co., Woodward Cement Co., City Bakery, Purity Bakery, Puriton Creamery, Bowlin's Broom Factory. Kightlinger Monument Works. Total value of yearly output of factories estimated at $500,000.

Special Information: Woodward is in the center of an area which has been officially declared by an authorized commission of the French government, in a critical survey of the United States, to be absolutely free from tuberculosis. Ample bridges; good roads.

Residential Features: Mostly of bungalow type, wooden, stucco and brick veneer, well set on spacious grounds. Some more pretentious structures two-stories, colonial designs. All special attention to lawns, flower gardens and landscaping. Houses mostly one-family plants, with sufficient family apartments to accommodate limited demand.

Retail Shopping Section: Confined largely to Main Avenue from Fifth to Tenth inclusive—with some activity on adjoining blocks to main Seventh, Eighth, Ninth and Tenth streets.

Trading Area: Forty miles north, thirty-six miles east, fifty miles south and eighty-five miles west by northwest. (This is conservative and includes the mass and not the exceptional, or chance buyer from remote distances.)

Wholesale Houses: Groceries, 3; fruits and produce, 1; miscellaneous lines, brooms, 1; ice cream, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 6; automobile accessories, 7; automobile tire agencies, 7; bakers, 2; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 5; delicatessen, 1; dressmakers, 3; druggists, 3 (chain, 2); dry goods, 8; department stores, 3; electrical supplies, 1; florists, 1; fruits, 10; furniture, 3; garages (public), 8; grocers, 10; hardware, 4; jewelry, 2; meat markets, 3; men's furnishings, 4; men's clothing, 4; merchant tailors, 1; milliners, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 6; restaurants (including hotels), 5; sporting goods, 2; stationers and printers, 3; women's apparel, 4.

Miscellaneous Data: Average temperature, 58 degrees; average number of rainy days per twelve months, 81; most pleasant months, April, May, June, Sept., Oct.; doctors (medical, 9), (dentists, 5), (osteopaths, 1); number of wired houses, 100%; electric current, alternating; water, soft.

Standard Surveys of OREGON

ALBANY, ORE.

CORVALLIS, ORE.

(Benton County)

1920 Population, 5,752.

City and Suburban Estimate, 6,300.

Native Whites, 95%; **Foreign Born,** 5%; **Industrial Workers,** 30%; **English Reading,** 98%; **Families,** 1,510.

Schools, 4; **Number of Pupils,** 900.

Churches: 12.

OREGON (Cont'd)

Banks: 3; Total Resources, $4,270,000.

Theatres, 2; Total number of seats, 1,100.

Location: 87 miles south of Portland on lines of Southern Pacific RR., P. E. & E. RR. and Oregon Electric Railways.

Principal Industries: Mostly one family cottages and bungalows.

Retail Shopping Section: About 6 blocks on Second, Third, Madison, Jefferson and Monroe Streets.

Trading Area: West about 16 miles, north and south 10 miles, east about 12 miles.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 5; automobile accessories, 12; automobile tire agencies, 12; bakers, 3; cigar stores and stands (including hotels), 4; confectioners (including hotel stands), 5; dressmakers, 10; druggists, 4; dry goods, 6; department stores, 1; electrical supplies, 4; florists, 10; fruits, 4; furniture, 2; garages (public), 8; grocers, 17; hardware, 2; jewelry, 3; meat markets, 6; men's furnishings, 3; men's clothing, 3; merchant tailors, 3; milliners, 4; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 5; shoes, 6; sporting goods, 3; stationers, 1; women's apparel, 5.

EUGENE, ORE.

(Lane County)

1920 Population, 10,593. (1925, est. 19,000.)

City and Suburban Estimate, 45,000.

Native Whites, 94%; Foreign Born, 6%; Industrial Workers, 12.2%; English Reading, 98.5%; Families, 3,975.

Schools: Public Grade, 6; High, 2; Junior High, 3; Parochial, 1; Number of Pupils, 3,750.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 10.

Banks: National, 2; State, 2; Total Resources, $8,641,246.70; Savings Bank Deposits. Total, $2,856,038.77.

Theatres: Legitimate, 1; Moving Pictures, 4; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 3,000.

Location: On main line of Southern Pacific; Southern terminus on Pacific coast of Oregon Electric, owned jointly by the Northern Pacific and Great Northern. Branch lines from here reach entire southwestern and southeastern Oregon. On paved Pacific highway, paved from Canada to Mexico. On main trans-state east and west highway. Excellent bus and truck service on all these highways. To nearest large city by railroad, 4¼ hours; by trolley, 4¼ hours; by auto, 4½ hours.

Principal Industries: Lumbering, fruit and vegetable canning and preserving, woolen mills, furniture and woodworking plants and railroad shops.

Manufacturing Establishments: 60. Leading firms: Booth-Kelly Lumber Co., Eugene Fruit Growers' Association, Eugene Woolen Mills, Far West Mfg. Co., Eugene Excelsior Co. Total value of yearly output of factories estimated at $25,000,000.

Special Information: Building permits, first six months of 1925, $1,406,355. This total exceeded in entire Pacific Northwest only by Portland, Seattle, Tacoma and Spokane. One twentieth of the nation's remaining supply of timber lies within a radius of 75 miles of Eugene. Lane county heaviest timbered county in the United States, containing 65 billion feet. Railroads and highways make this natural distributing point for southern Oregon; 175 traveling men work out of Eugene.

Residential Features: Chiefly one and two-family homes. Limited number of high class apartment houses. Bungalow courts increasing in number. Handsome residence section in hills surrounding city. No tenement section or "shack" section. Average value of homes throughout the city around $3,000. Better type homes average $15,000 to $20,000.

Retail Shopping Section: Willamette Street from Fifth to Eleventh; about four blocks each on Seventh, Eighth and Ninth Avenues, crossing Willamette; Civic Center around parks, bounded by Eighth and Ninth Avenues, and East and West Park Streets. Small outlying retail district near University of Oregon. Springfield population, 2,000, located just across Willamette River, constitutes second outlying retail district.

Trading Area: Extends 75 miles west to Pacific Ocean, 75 miles east to summit of Cascade Range, 25 miles north and 30 miles south. Trading area large because of lack of large towns. Well served with paved and macadam roads, and automobile ownership averages one car to each five persons.

Wholesale Houses: Groceries, 5; meats, 2; fruits, 4; dry goods, 2; drugs, 1; musical instruments, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; commercial automobile agencies, 6; automobile accessories, 13; automobile tire agencies, 15; bakers, 9 (chain, 3); cigar stores and stands (including hotels), 18; confectioners (including hotel stands), 16; delicatessen, 16; dressmakers, 12; druggists, 9 (chain, 1); dry goods, 13; department stores, 8; electrical supplies, 5; florists, 6; fruits, 4; furniture, 9; furriers, 2; garages (public), 15; grocers, 42 (chain, 2); hardware, 5; jewelry, 4; meat markets, 13 (chain, 1); men's furnishings, 12; men's clothing, 12; merchant tailors, 7; milliners, 9; opticians, 5; photographers, 7; pianos (and miscellaneous musical instruments), 6; radio supplies, 3; restaurants (including hotels), 15; shoes, 6; sporting goods, 4; stationers, 4.

Miscellaneous Data: Average temperature, 52.41 degrees; average number of rainy days per twelve months, 160; most pleasant months, April, to November; doctors (medical, 35), (dentists, 23), (osteopaths, 3); number of wired houses, 4,915; street car service; gas, artificial; electric current, alternating; water, soft.

GRANTS PASS, ORE.

(Josephine County)

1920 Population, 3,151.

City and Suburban Estimate, 1924, 7,000.

Native Whites, 100%; English Reading, 99%.

Schools: Public Grade, 3; High, 1; Junior High, 1; Number of Pupils, 1,400.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 10.

Banks: National, 1; State, 1; Total Resources, $2,284,282.82. Savings Bank Deposits Total, $748,116.99.

Theatres: Legitimate, 1; Moving Pictures, 1. Total number of seats, 1,350.

Location: Southern Pacific Ry. 300 miles from Portland and 450 miles from San Francisco. Bus service on paved highway from Los Angeles to Portland, Oregon. Junction of the Pacific and Redwood Highways. Redwood Highway to Crescent City, Calif., water shipping point, 99 miles. Also terminus of Calif. & Oregon Coast Ry., extending 15 miles toward the coast and depending upon lumber shipments principally. On Rogue River, world famous fishing stream.

Principal Industries: Lumbering, dairying, fruit, the home of the Tokay grape. Irrigated farm district adjoining city.

Manufacturing Establishments: 1. Leading firms, Pine Company. There are 17 saw mills in county and two creameries.

Special Information: Trading center for vast area extending nearly to Pacific Coast. On paved highway, and is junction for western terminus of Redwood Highway.

Residential Features: 90% of residents are home owners.

Retail Shopping Section: Main business section on Pacific Highway between courthouse and river. Business houses cover nine blocks on Sixth Street, five blocks on G Street, and two blocks on H Street.

Trading Area: Extends 30 miles north, 15 miles east, 60 miles south and west.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial automobile agencies, 4; automobile accessories, 18; automobile tire agencies, 18; bakers, 2; cigar stores and stands (including hotels), 21; confectioners (including hotel stands), 20, including grocers; dressmakers, 15; druggists, 4; dry goods, 4; department stores, 2; electrical supplies, 2; florists, 1; furniture, 5; garages (public), 7; grocers, 13; hardware, 3; jewelry, 3; meat markets, 4; men's furnishings, 7; men's clothing, 5; merchant tailors, 2; milliners, 2; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 1; radio supplies, 1; restaurants (including hotels), 11; shoes, 5; sporting goods, 3; stationers, 4; women's apparel, 4.

KLAMATH FALLS, ORE.

(Klamath County)

1920 Population, 4,801. (1925, est. 10,000.)

City and Suburban Estimate, 25,000.

Native Whites, 85%; Foreign Born, 15%; Industrial Workers, 60%; English Reading, 90%; Families, 1,500 (estimate—census report not completed).

Schools: Public Grades, 5; High, 1; Parochial, 1; Number of Pupils, 1,917 (Grade, 1,114; High, School, 486; Parochial, 317).

Churches: Baptist, 2; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3: Christian, 1; Lutheran, 1; Non-Denominational, 1.

Banks: National, 2; Total Resources, $5,000,000; Savings Bank Deposits Total, $800,000.

Theatres: Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 2,500.

Location: Southern Pacific R. R., O. C. & E., S. P. with transcontinental connections, O. C. & E. with local connections only. To nearest large city by railroad, 8 hours; by auto, 2½ hours.

Principal Industries: Box lumber; agriculture, livestock.

Manufacturing Establishments: 50. Leading firms: Ewauna Box Co., Big Lake Box Co., Wheeler-Olmstead Lumber Co., Shaw-Bertram Lumber Co., Klamath Lumber & Box Co., Pelican Bay Lumber Co., Nine Lumber Co., Ackley Brothers Lumber Co., Kruse Lumber Co., Long Pine Lumber Co., Southern Oregon Lumber Co., Anna Creek Lumber Co., Lamm Lumber Co., Solomon Butte Lumber Co., Sprague River Lumber Co., Chiloquin Lumber Co., Algoma Lumber Co., Swan Lake Lumber Co., Langell Valley Lumber Co., Sprague White Pine Lumber Co., Modoc Lumber Co., Martin Bros., Flour Mills, Swan Lake Moulding Co., Klamath Iron & Steel Works, etc. Total value of yearly output of factories estimated at $20,000,000 lumber, $1,000,000 miscellaneous.

Special Information: Heart of world's largest stand, yellow and white pine. Wonderful playgrounds. Gateway to Crater Lake. Sixty miles distant, seat of United States Government's "Klamath" reclamation project, costing millions, and putting 140,000 acres under water. Region trades largely with San Francisco and is close to northern California border. S. P. building cut off toward Portland. This city to be on main line S. P. Portland to S. F. within two years.

Residential Features: Cottages for workers, not tenements. Fifteen apartment houses. Homes ranging in values from $1,000 to $30,000. Elevation, 4,300. Finest mountain water. Moderate summers and winters.

Retail Shopping Section: Main Street, 12 blocks; Klamath Avenue, 10 blocks; Third St. to Eleventh Street, inclusive, averaging two blocks.

Trading Area: 40 to 50 miles from north and east, 30 miles from west, and 40 miles from south. County is half as large as Maryland. This city is only consequentional trading center in entire district.

Wholesale Houses: Groceries, 3; meats, 2; fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial automobile agencies, 5; automobile accessories, agencies carry parts; automobile tire agencies, 8; bakers, 5; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 8; delicatessen, 1; dressmakers, 5; druggists, 6; dry goods, 8; department stores, 3; electrical supplies, 4; florists, 2; fruits, 5; furniture, 6; furriers, 2; garages (public), 10; grocers, 42 (chain, 2); hardware, 5; jewelry, 3; meat markets, 6; men's furnishing, 8; men's clothing, 8; merchant tailors, 3; milliners, 5; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 4; radio supplies, 6; restaurants (including hotels), 15; shoes, 6; sporting goods, 7; stationers, 5; women's apparel, 3.

OREGON CITY, ORE.

(Clackamas County)

1920 Population, 5,686 (does not include suburbs, of about 11,000 total).

City and Suburban Estimate, about 12,500.

Native Whites, 98%; **Negroes,** none; **Foreign Born,** 2%; **Industrial Workers,** 60%; **English Reading,** 100%; **Families,** 1,600.

Schools: Public Grade, 3; High, 1; Parochial, 2; Number of Pupils, 1,739.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 2; State, 1; Total Resources, $4,831,969.71; Savings Banks Deposits Total, $2,000,000.

Theatres: Moving Pictures, 2. Total number of seats, 1,600.

Location: In Clackamas County, on Willamette River, 15 miles south of Portland; on main Southern Pacific lines; Portland Electric Power street cars service and bus line to Portland. Willamette Valley Southern Ry. taps rich timber and agricultural district of Clackamas County; has headquarters here. Mills use river navigation for transporting supplies and finished products.

Principal Industries: Paper manufacturing, woolen goods manufacturing, agriculture, furniture manufacturing.

Manufacturing Establishments: 4. Leading firms, Crown Willamette Paper Co., Hawley Pulp & Paper Co., Oregon City Mfg. Co. (woolen mills), Byrne Furniture Factory. Total value of yearly output of factories estimated at $20,000,000.

Special Information: Has historical interest; second oldest city in State. Is the gateway to the upper Willamette Valley. On the highway line of travel, getting practically all the tourist travel in to the Pacific Northwest.

Residential Features: Mostly one and two-family houses; few apartments. Large percentage of people are home-owners. Many people living in surrounding towns of West Linn, Gladstone, Canemah, Bolton and Willamette work in Oregon City and trade here. Town is on a hillside, and a bluff separates the residential and business districts. Free municipal elevator. Concrete bridge connects West Linn and Oregon City.

Retail Shopping Section: Chiefly for 14 blocks on Main Street. A few business houses on hill, on Seventh Street.

Trading Area: Twenty-five miles in all directions except towards Portland.

Wholesale Houses: O. C. Mfg. Co., wholesale woolen goods.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial automobile agencies, 5; automobile accessories, 14; automobile tire agencies, 20; bakers, 2; cigar stores and stands including hotels), 10; confectioners (including hotel stands), 4; delicatessen, 1; dressmakers, 10; druggists, 4; dry goods, 6; department stores, 3; electrical supplies, 4; florists, 3; fruits, 1; furniture, 4; garages (public), 6; grocers, 20; hardware, 6; jewelry, 3; meat markets, 6; men's furnishings, 3; men's clothing, 4; merchant tailors, 2; milliners, 3; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 6; restaurants (including hotels), 10; shoes, 1; sporting goods, 4; stationers, 4; women's apparel, 3.

PENDLETON, ORE.

(Umatilla County)

1920 Population census, 7,387.

City and Suburban Estimate, 25,000.

Native Whites, 95%; **English Reading,** 95%; **Families,** 1,700 in city.

Schools: Public Grade, 4; High, 1; Parochial, 1; Number of Pupils, 1,496 in city.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous: Christian, 1; Peace Lutheran, 1; Miscellaneous, 2.

Banks: National, 2; State, 1; Total Resources, $8,199,140.93.

Theatres: Legitimate and Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, theatres, 1,750; High School Auditorium, 750.

Location: On main line of Union Pacific System (O. W. R. & N. Co), 219 miles east of Portland, and is the southern terminus of its main line to Spokane; also operates branch lines which connect all of principal towns in county and a branch line of the Northern Pacific connects Pendleton with main line at Pasco, Wash. Pendleton is a natural highway center, being on the Old Oregon Trail, which to the west becomes the Columbia River Highway. Also on the Oregon-Washington Highway, which is a paved road, and the traffic over it is extremely heavy. With these splendid transportation facilities, Pendleton is ideally situated to become a distributing center for Eastern Oregon.

Principal Industries: Four flouring mills having a combined capacity of 2,050 barrels a day. Woolen mills, manufacturing Indian robes, bath robes, steamer robes, blankets, shawls, etc. Packing plant, creamery and ice cream manufacturing plant, planing mills, foundry and machine shops, saddle and harness manufacturing plant, roofing materials.

Manufacturing Establishments, 15. Leading firms, Pendleton Woolen Mills, Collins Flouring Mills. Walters Flouring Mills, Pendleton Flour and Grain Co., Pendleton Packing and Provision Co., Hamley & Co., Smythe-Barthel Co., B. L. Burroughs Planing Mills, Golden West Creamery, Pendleton Iron Works.

Special Information: Pendleton's volume of business is much greater than usual for a town of its size because it is the trading center of an unusually large agricultural and stock raising empire. The wealth of its trading zone has been estimated at over $100,000,000. The population of Umatilla County alone is near 30,000 and Pendleton is in the geographical center of the county. Pendleton is the home of the Round Up, the "Epic Drama of the West," and Happy Canyon, "The Round Up's Little Brother" These are great outdoor shows and are held annually in September.

Residential Features: Pendleton is a city of good homes, and more than 10 miles of its streets are paved and the sidewalks and gutters are of concrete construction. The streets are shaded with trees, and fringes of well-kept parkings on either side are backed up with substantial houses. The city is more than fifty years old and has a wonderfully pleasing climate throughout the year. It is noted for its pure drinking water, which is secured from springs and is piped a distance of twenty miles from the mountains.

Retail Shopping Section: Pendleton has a very large section of business houses in proportion to its population, and this condition almost invariably attracts the attention of strangers. The reason for this is that the city has a large area from which it draws trade. The retail shopping section extends 4 blocks on Main St., 4 blocks on Court St., 4 blocks on Alta St., and 4 blocks on Webb St.

Trade Area: Extends over a radius of 40 miles north, east, west and south of Pendleton. Practically all of this section is covered with paved roads.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 1; miscellaneous lines, gents' furnishings, 1; confectionery and cigars, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial auto. agencies, 4; automobile accessories, 5; automobile tire agencies, 16; bakers, 4; cigar stores and stands (including hotels), 14; confectioners (including hotel stands), 6; dressmakers, 4; druggists, 5; dry goods, 5; department stores, 2; electrical supplies, 3; florists, 2; furniture, 5; furriers, 4; garages (public), 11; grocers, 18; hardware, 2; jewelry, 5; meat markets, 10; men's furnishings and men's clothing, 8; merchant tailors, 3; milliners, 5; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 6; restaurants (including hotels), 14; shoes, 8; sporting goods, 3; stationers, 2; women's apparel, 6.

PORTLAND, ORE.

(Multnomah County)

1920 Population, 258,288.

City and Suburban Estimate, 460,000.

Native Whites, 79.7%; **Negroes,** 0.6%; **Foreign Born,** 18.2%; **Industrial Workers,** 10%; **English Reading,** 98.3%; **Families,** 67,045.

Schools: Public Grade, 74; High, 8; Parochial, 28; Number of Pupils, 52,923.

Churches: Baptist, 19; Christian Science, 8; Congregational, 15; Episcopal, 14; Hebrew, 5; Methodist, 38; Presbyterian, 26; Roman Catholic, 31; Miscellaneous, 69.

Banks: National, 9; State, 14; Trust Companies, 4; Total Resources, $179,883,690.24. Savings Bank Deposits Total $60,976,663.63.

Theatres: Legitimate, 2; Moving Pictures, 39; Vaudeville, 3; Miscellaneous Auditoriums, etc.), 5.

Location: In northwestern Oregon, at confluence of Willamette and Columbia Rivers, 112 miles by water from Pacific Ocean, and at head of ocean navigation on Columbia River. Served by 54 coastwise and oceanic steamer lines. Also by Southern Pacific; O. W. R. & N. Co., Spokane Portland & Seattle; Gt. Northern and Northern Pacific and Oregon Electric Rys. To nearest large city by railroad, 6 hours; by auto, 8 hours.

Principal Industries: Lumber manufacturing, furniture manufacturing, ready-cut houses, machinery, copper, tin and sheet metal products, stoves, furnaces and house heating equipment, auto bodies, accessories, ships and boats, rubber products, heels, soles, tires and tubes, cereals flour, bran, feeds and fertilizer, paper and paper products, woolen textiles, underwear, cloth, yarn, blankets, robes, clothing and knit goods, women's outing suits, men's and boys' clothing, work and rainproof clothing, shoes, saddlery and leather specialties, burlap bags and other gunny products, packing house products, fish, canned and fresh, canned, dried and dehydrated fruits and vegetables, vegetable and fish oils, oil products, soap, cleaning compounds and cocoanut oil compounds, paints, varnishes and chemicals, toilet preparations, drugs, medicine and mint.

Manufacturing Establishments: 1,000. Leading firms, Portland Woolen Mills, Portland Worsted Mills, Nicolai Door Co., Eastern & Western Lumber Co., Inman-Poulsen Lumber Co., American Can Co., Pacific Car & Foundry Co., Doernbecher Furniture Mfg. Co., Grand Rapids Show Case Co., Portland Vegetable Oil Mills, Willamette Iron & Steel Works, Smith & Watson Iron Works. Total value of yearly output of factories estimated at $200,000,000.

Special Information: Portland is the country's greatest lumber manufacturing center. One-fifth the world's supply of standing timber is in Oregon. Portland mills in 1923 cut 920 billion board feet, which total lumber output in Oregon in 1923 was four billion board feet. Portland is the outlet of the Willamette Valley, an extremely rich farming and dairying section and scattered throughout the State are many fertile fields, while the eastern half of the State is a famous wheat growing region. Portland is the second grain exporting port and second wool market of the United States.

Residential Features: Chiefly detached houses. No slum or tenement district. Proportion of apartment houses very small. Fully fifteen separate high class residential districts in the city.

Retail Shopping Section: Extends from Third Street to Fourteenth Street, and from Taylor Street to Ankeny Street (9 blocks), and about 15 outlying retail districts. The principal suburban shopping area, however, is within a radius of 40 miles.

Trading Area: Trading area irregular in shape owing to paved motor roads extending 125 miles south, 100 miles west, 100 miles north and 125 miles east.

Wholesale Houses: Groceries, 8; meats, 6; fruits, 16; hardware, 7; dry goods, 4; miscellaneous lines—notions, 2; shirts and overalls, 3; crockery, 1; drugs, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 66; commercial automobile agencies, 6; automobile accessories, 15; automobile tire agencies, 146; bakers 76; cigar stores and stands (including hotels), 108 (chain, 8); confectioners, (including hotel stands), 700; delicatessen, 135; dressmakers, 27; druggists, 160 (chain, 12); dry goods, 112; department stores, 4; electrical supplies, 78; florists, 56; fruits, 50; furniture, 100; furriers, 5; garages (public), 121; grocers, 1,050 (chain, 120); hardware, 78; jewelry, 77; meat markets, 227; men's furnishings and men's clothing, 128; merchant tailors, 127; milliners, 35; opticians, 29; pianos (and miscellaneous musical instruments), 38; radio supplies, 15; restaurants, 507; sporting goods, 5; stationers, 7; women's apparel, 6.

Miscellaneous Data: Average temperature, 53 degrees; average number of rainy days per twelve months, 156; most pleasant months, May, June, July, Aug., Sept., Oct.; doctors (medical, 450), (dentists, 366), (osteopaths, 25); number of wired houses, 72,000; gas, artificial; electric current, alternating and direct; water, soft.

ROSEBURG, ORE.

(Douglas County)

1920 Population, 4,381.

City and Suburban Estimate, 7,500.

Native Whites, 90%; **Foreign Born,** 10%; **Industrial Workers,** 40%; **English Reading,** 95%; **Families,** 1,500.

Schools: Public Grade, 3; High, 2; Parochial, 2; Number of Pupils, 1,750.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 2; State, 2; Total Resources, $3,500,000; Savings Bank Deposits Total, $451,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 3.

Location: Roseburg is situated about center of Douglas County, on bank of South Umpqua River. Served by S. P. R. R. Pacific Highway passes through city. Several auto bus lines, both freight and passenger, operate out of this city to coast points and also towns north as far as Portland, south to San Francisco. To nearest large city by railroad, 4 hours; by auto, 3 hours.

Principal Industries: Fruit raising, prunes, pears, peaches, apples, cherries and berries. Cattle, sheep, hogs, goats, poultry, hay and grain, and lumber on large scale. This is general county survey. City has S. P. Co., railroad shops and division headquarters.

Manufacturing Establishments: 6. Umpqua Canning Co., H. S. Gile Packing Co., California Packing Co., Drager Packing Co., Umpqua Broccoli Exchange, Roseburg Ice Co.

Special Information: The geographical location of Roseburg makes it the hub for a vast section of country as large as half of New England.

Residential Features: Roseburg is a city of homes, most of the people owning own houses. There is but one regular apartment in the town. These homes are well kept with nice lawns and shade trees.

Retail Shopping Section: Extends from the S. P. Co. station in the western part of the city along Cass Street to Jackson, and thence north for eight blocks to North Roseburg.

Trading Area: Extends for more than 75 miles north and south of this city. Roseburg also draws from the stockmen from the east for more than 25 miles and for 20 miles on the west. Paved highways bring residents of small towns from 35 to 40 miles each way.

Wholesale Houses: Fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial automobile agencies, 4; automobile accessories, 14; automobile tire agencies, 15; bakers, 3; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 10; dressmakers, 6; druggists, 4; dry goods, 6; department stores, 2; electrical supplies, 3; florists, 1; furniture, 3; garages (public), 7; grocers, 12 (chain, 4); hardware, 4; jewelry, 3; meat markets, 5; men's furnishing, 6; men's clothing, 6; merchant tailors, 4; milliners, 4; opticians, 3; photographers, 2; pianos (and miscellaneous musical intruments), 2; radio supplies, 2; restaurants (including hotels), 7; shoes, 9; sporting goods, 4; stationers, 2; women's apparel, 8.

Miscellaneous Data: Average temperature, 53 degrees; average number of rainy days per twelve months, 156; most pleasant months, May, June, July, Aug., Sept., Oct.; doctors (medical, 14), (dentists, 10), (osteopaths, 4); gas, artificial; electric current, alternating; water, soft.

SALEM, ORE.

(Marion County)

1920 Population, 17,679. (1925, est. 23,000).

City and Suburban Estimate, 25,000.

Native White, 93%; **Negroes,** ½%; **Foreign Born,** 7%; **Industrial Workers,** 25%; **English Reading,** 99%; **Families,** 5,737 (Jan. 1, 1925).

Schools: Public Grade, 5; High, 1; Junior High, 4; Parochial, 1; Number of Pupils, 4,157. Willamette University, 625 students.

BROWNSVILLE, PA.

(Fayette County)

1920 Population, 2,502.

City and Suburban Estimate, 40,000 (within 2 mile circle of post office).

Native Whites, 60%; **Negroes,** 2%; **Foreign Born,** 38%; **Industrial Workers,** 50%; **English Reading,** 100%; **Families,** 2,600.

Schools: Public Grade, 39; High, 2; Parochial, 2; Number of Pupils, 2,400.

Churches: Baptist, 2; Episcopal, 1; Hebrew, 2; Methodist, 4; Presbyterian, 3; Roman Catholic, 3; Greek Orthodox, 2; Miscellaneous, 4.

Banks: National, 3; State, 1; Total Resources, $15,000,000. Savings Bank Deposits Total, $8,000,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Burlesque, 1. Total number of seats, 3,500.

Location: Western part of Fayette County on Monongahela River. (Shipping by river saves 70 cents a ton in freight rates.) Also Monongahela R.R. and P. & L. E. and Penna. R.R. branches extending in 6 different directions. Excellent bus service in 6 directions.

Principal Industries: Coal mining and coke works, railroad shops, farming. $24,000,000 annual railroad payroll.

Manufacturing Establishments: H. C. Frick Coke Co., Pittsburgh Coal Co., W. J. Rainey & Co., and hundreds of others.

Special Information: Brownsville being centrally located in the rich coal and coke field of southwestern Pennsylvania, favorably located on Monongahela River and a railroad center, makes it a trading center for over 100,000 people in close proximity and with good train service. Excellent stores and big banks give it a volume of business equal to a city of 40,000. This survey includes South and West Brownsville, three separate boroughs, but all one town.

Residential Features: Mostly two-family company houses, with some modern houses for officers around the coal and coke section. Brownsville (proper) residences are all modern, and, being a river town, all surrounding hills are resident sections.

Retail Shopping Section: Market, High, Bank and Water Sts. and Brownsville Ave.

Trading Area: Brownsville is the shopping center for South and West Brownsville and closely settled suburban districts. Nearest competitor 12 miles east, 24 miles west, 13 miles north and 39 miles south. Good train and bus service. About $2,000,000 wages paid a month to labor in trade adjacent to Brownsville.

Wholesale Houses: Groceries, 2; meats, 2; fruits, 4; miscellaneous lines, 7.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 27; commercial auto. agencies, 12; automobile accessories, 26; automobile tire agencies, 16; bakers, 7; cigar stores and stands (including hotels), 33; confectioners (including hotel stands), 39; delicatessen, 21; dressmakers, 8; druggists, 7 (chain, 1); dry goods, 12; department stores, 8; electrical supplies, 14; florists, 2; fruits, 41; furniture, 9; garages (public), 17; grocers, 63 (chain, 10); hardware, 6; jewelry, 4; meat markets, 17; men's furnishings, 21; men's clothing, 15; merchant tailors, 17; milliners, 12; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 6; restaurants (including hotels), 31; shoes, 29; sporting goods, 8; stationers, 12; women's apparel, 12.

Miscellaneous Data: Doctors (medical, 15). (dentists, 8), (osteopaths, 4); street car service; gas, natural; electric current, alternating; water, hard.

See announcement columns 3 and 4

BUTLER, PA.

(Butler County)

1920 Population, 23,778.

Native Whites, 88.8%; **Negroes,** 1.3%; **Foreign Born,** 9.9%; **Industrial Workers,** 4,250; **Families,** 6,083.

Schools: Public Grade, 7; High, 1; Junior High, 1; Parochial, 2; Number of Pupils, 5,097.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 3; Roman Catholic, 5; Miscellaneous, 6.

Banks: National, 5; State, 2; Total Resources, $23,152,674. Savings Bank Deposits Total, $14,939,044.

Theatres: Legitimate, 1; Moving Pictures, 5; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, largest 1,100.

Location: B. & O., B. & L. E., B. R. & P. and P. R.R. Electrical lines to Pittsburgh and New Castle. Butler enjoys exceptional freight rate because of proximity to Pittsburgh. To nearest large city by railroad, 1¼ hours; by trolley, 2 hours; by auto, 1 hour.

ELLWOOD CITY, PA.

(Lawrence County)

1920 Population, 8,958.

City and Suburban Estimate, 16,000.

Native Whites, 78%; **Negroes,** 2%; **Foreign Born,** 20%; **Industrial Workers,** 6,000.

Schools: Public Grade, 10; High, 1; Junior High, 1; Number of Pupils, about 3,000.

Churches: Baptist, 1; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 3; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 3; Total Resources, $4,682,506.

Theatres: Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 4; Total number of seats, 10,000.

Location: On main line Baltimore & Ohio Railroad; Pittsburgh & Lake Erie (New York Central) railway, midway between Pittsburgh and Youngstown. Direct connection, passenger and freight, with Pennsylvania lines and Buffalo, Rochester, Erie, Cleveland, Pittsburgh and other points. Interurbans to all points.

Principal Industries: Iron, steel, stone, coal, etc.

Manufacturing Establishments: Leading firms, National Tube Co.; Steel Car Forge Co.; Standard Engineering Co.; Matthews Gravity Conveyor Co.; Stevens Metal Products Co.; American Steel Co.; Ellwood City Forge Co.; Edwood Stone Co., Ellwood Brass & Bronze Co.; Ellwood Foundry & Machine Co.; Specialty Foundry Co.; Beaver Enameling Co., etc.

Special Information: Splendid transportation facilities with varied manufacturing enterprises. Cheap fuel, power and living expenses, good schools and churchase.

Residential Features: Mostly one and two family homes. Private homes predominate. One of the finest private residential sections; over six miles of paved streets; the best water supply in the state, always adequate, and typhoid fever unknown from local infection.

Retail Shopping Section: Extends five blocks on Lawrence avenue; two on Sixth; four on Fifth; two on Seventh; three on North, and stores in other sections. Nearly all lines of business represented and the stores would be a credit to any city of 25,000 to 50,000.

Trading Area: A radius of ten to twenty miles in each direction. There is excellent trolley and bus service north, south, east and west.

Wholesale Houses: Groceries, 2; fruits, 2; hardware, 1; Miscellaneous lines, flour and feed, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 18; automobile accessories, 14; automobile tire agencies, 17; bakers, 4; cigar stores and stands (including hotels), 17; confectioners (including hotel stands), 8; delicatessen, 1; dressmakers, 6; druggists, 7; dry goods, 4; department stores, 3; electrical supplies, 4; florists, 2; fruits, 6; furniture, 4; garages (public), 14; grocers, 25; hardware, 5; jewelry, 3; meat markets, 24; men's furnishings, 8; men's clothing, 8; merchant tailors, 2; milliners, 5; opticians 1; photographers, 2; pianos (and miscellaneous musical instruments), 4; radio supplies, 4; restaurants (including hotels), 7; shoes, 9; sporting goods, 5; stationers, 2; women's apparel, 8.

ERIE, PA.

(Erie County)

1920 Population, 93,372.

City and Suburban Estimate, 131,620.

Schools: Public Grade, 20; High, 3; Junior High, 2; Parochial, 12; Number of Pupils, 18,000.

Churches: Baptist, 8; Christian Science, 3; Episcopal, 5; Hebrew, 4; Methodist, 10; Presbyterian, 10; Roman Catholic, 22; Miscellaneous, 34.

Banks: National, 3; State, 9; Total Resources, $58,018,580.64.

Theatres: Legitimate, 2; Moving Pictures, 20; Vaudeville, 1; Burlesque, 1; Miscellaneous (Auditoriums, etc.), 4; Total number of seats, 20,000.

Location: On south shore of Lake Erie on Presque Isle Bay, N. Y. C., N. Y. C. & St. L. P. & L. E., E. & P. Steamers to lake ports, and excellent trolley service to surrounding cities. To nearest large city by railroad, 2½ hours; by trolley, 4 hours; by auto, 3½ hours.

Principal Industries: Paper, boilers, engines, wringers, locomotives, machine and hand tools, stoves, steam shovels, household utensils of all descriptions.

Manufacturing Establishments, 537. Leading firms, General Electric Co., Hammermill Paper Co., Jarecki Mfg. Co., Erie City Iron Works, Skinner Engine Works, Union Iron Works, Nagle Engine Works, Pennsylvania Boiler Works, H. F. Watson Paper Co., Griswold Mfg. Co., Erie Forge & Steel Co., Erie Malleable Iron Works. Total value of yearly output of factories estimated at $167,446,400.

Special Information: Erie ranks third in U. S. for variety of manufacturers; second to none in manufacture of boilers, wringers, tanks, engines, etc. Pennsylvania's only lake port, second to none of great lakes. Only 12 hours distant from largest cities in U. S. One of the best public school systems, with buildings to compare with those in any city.

Residential Features: Mainly one and two-family houses, 45.2% owned. To the west and south of the city wonderful home sections are building up rapidly. Rents proportionate to values and real estate close to normal.

Retail Shopping Section: From Public Dock, foot of State St., south to 26th St. Peach St. from 5th to 26th St. Parade St. from 3rd to 18th St. Four outlying sections. Streets from 6th to 18th, one block east and one block west of State St. also taken up by business.

Trading Area: 20 miles east, west and south. Irregular business secured by trolley service from greater distances.

Wholesale Houses: Groceries, 10; meats, 6; fruits, 4; hardware, 2; miscelaneous, confectioners, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies. 57; commercial auto. agencies, 4; automobile accessories, 20; automobile tire agencies, 23; bakers, 48; cigar stores and stands (including hotels), 13 (chain, 3); confectioners (including hotel stands), 142; delicatessen, 6; dressmakers, 92; druggists, 28 (chain, 2); dry goods, 34; department stores, 7; electrical supplies, 8; florists, 14; fruits, 18; furniture, 12; furriers, 3; garages (public), 64; grocers, 432 (chain, 48); hardware, 37; jewelry, 31; meat markets, 148 (chain, 2); men's furnishings, 14; men's clothing, 54; merchant tailors, 76; milliners, 52; opticians, 14; photographers, 16; pianos (and miscellaneous musical instruments), 7; radio supplies, 7; restaurants (including hotels), 147 (chain, 2); shoes, 49; sporting goods, 6; stationers, 3; women's apparel, 54.

Miscellaneous Data: Most pleasant months, June, July, Aug., Sept., Oct.; doctors (medical, 132), (dentists, 86), (osteopaths, 11); number of wired houses, 20,000; street car service; gas, natural and artificial; electric current, alternating; water, hard.

FRANKLIN, PA.

(Venango County)

1920 Population, 9,970.

City and Suburban Estimate, 50,000.

Native Whites, 91%; **Negroes,** 3%; **Foreign Born,** 6%; **Industrial Workers,** 30%; **English Reading,** 97%; **Families,** 2,570.

Schools: Public Grade, 6; High, 1; Parochial, 1; Number of Pupils, 2,146.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 4; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 1; State, 2; Total Resources, $15,000,000; Savings Bank Deposits Total, $6,677,484.

Theatres: Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc), 2. Total number of seats, 3,041.

Location: On the Allegheny River, at the junction of French Creek, served by the New York Central, Pennsylvania, Lake Erie, Franklin and Clarion, and the Erie Railroads, also connected by trolley and has excellent bus service in all directions.

Principal Industries: Railroad supplies, engines, mine car loaders, wagons, air compressors and oil refineries.

Manufacturing Establishments: 30. Leading firms, Joy Machine Co., Franklin Steel Co., Chicago Pneumatic Tool Co., Atlantic Refining Co., Venango Mfg. Co., Franklin Valveless Engine Co., General Manifold & Printing Co.

Total value of yearly output of factories estimated at $25,000,000.

Special Information: The city is particularly noted for its oil industry. The Atlantic Refining Co., is one of the largest oil refineries in the

Continued on page 218

PENNSYLVANIA (Cont'd)

Franklin (con't)

world. Because of its refineries Franklin is said to have a larger value of manufactured exports per capita than any city of its size in the United States. It is the hub of an improved highway system making it easily accessible from any point.

Residential Features: Private homes predominate. A limited number of two family houses and only a few apartment houses. Miller Park, an exclusive residential section, is not equalled in the state.

Retail Shopping Section: Extends from Franklin Ave., to Buffalo St., on Thirteenth. The main business section is on Liberty St., from Thirteenth to Eleventh, Eighteenth St., parallel to Liberty from Liberty to Buffalo. Business section covers about eight blocks.

Trading Area: Extends about 8 miles east, 20 miles north, 30 miles west and 25 miles south.

Wholesale Houses: Fruits, 2; Dry Goods, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 14; commercial auto. agencies, 4; automobile accessories, 20; automobile tire agencies, 16; bakers, 3; cigar stores and stands (including hotels), 21; confectioners (including hotel stands), 10; delicatessen, 1; dressmakers, 9; druggists, 6; dry goods, 7; department stores, 5; electrical supplies, 4; florists, 2; fruits, 13; furniture, 4; garages (public), 10; grocers, 24; hardware, 2; jewelry, 4; meat markets, 9; men's furnishings, 9; men's clothing, 9; merchant tailors, 5; milliners, 4; opticians, 1; photographers, 2; pianos(and miscellaneous musical instruments), 2; radio supplies, 11; restaurants (including hotels), 6; shoes; 7; sporting goods, 3; stationers, 2; womens apparel, 4.

GETTYSBURG, PA.

(Adams County)

1920 Population, 4,439.

City and Suburban Estimate, 7,500.

Native Whites, 95%; Negroes, 5%; Industrial Workers, 23%; English Reading, 100%; Families, 1,200.

Schools: Public Grade, 4; High, 1; Parochial, 1; Number of Pupils, 1,500.

Churches: Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Lutheran, 2; United Brethren, 1.

Banks: National, 2; State, 2; Total Resources, $6,100,000; Savings Bank Deposits Total, $2,250,000.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 2,500 (approximately).

Location: In Adams County, southern extremity of central Pennsylvania. Served by the Gettysburg & Harrisburg Railroad Co., connecting with P. & R. System at Harrisburg; Western Maryland Railroad, connecting Baltimore, Washington, York (Pa.), Hanover (Pa.), Hagerstown (Md.) and points west. Excellent bus service to and from Baltimore, Emmetsburg (Md.), York, Hanover, Harrisburg and Chambersburg. To nearest large city by railroad, 2½ hours; by auto, 2 hours.

Principal Industries: Furniture, silk, shirts, tile, brick, fertilizer and scattered throughout the county are numerous fruit and vegetable canning factories.

Manufacturing Establishments, 10. Leading firms, Gettysburg Furniture Co., Reaser Furniture Co., J. H. & C. K. Eagle, Inc. Total value of yearly output of factories estimated at $6,500,000.

Special Information: City enjoys excellent climate the year round, due to good elevation and protection of mountains to the west. Situated at the intersection of highways connecting Canada and the Gulf of Mexico and the Atlantic and Pacific oceans and is a hub of the Primary Good Roads System of Pennsylvania, all of which are hard, all-weather roads. Gettysburg is a mecca for tourists from all parts of the United Staes and Canada.

Residential Features: Mostly one and two-family houses. A few apartment buildings. Private homes predominate. New sections on the edge of town are being developed as residential sections. Homes in these sections average in value, approximately, $9,000.

Retail Shopping Section: Extends from Public Square (which forms the heart of the business section and is the terminal for bus lines), one square north and west and two squares east and south. There are the usual "neighborhood" grocery and confectionery stores scattered through town, but they are few.

Trading Area: 15 miles west and south, 20 miles north and east.

Wholesale Houses: Groceries, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto. agencies, 3; automobile accessories, 4; and all garages; automobile tire agencies, 3, and all garages; bakers, 2; cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 5; druggists, 6; dry goods, 8; department stores, 5; electrical supplies, 4; fruits, 2; furniture, 2; garages (public), 6; grocers, 13; hardware, 2; jewelry, 2; meat markets, 3; men's furnishings, 8; men's clothing, 5; merchant tailors, 3; milliners, 8; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 10; shoes, 6; sporting goods, 4; stationers, 3; women's apparel, 8.

Miscellaneous Data: Doctors (medical, 12), (dentists, 4), (osteopaths, 1); gas, artificial; electric current, alternating; water, soft.

GREENSBURG, PA.

(Westmoreland County)

1920 Population, 15,033.

City and Suburban Estimate, 243,402.

Native Whites, 85.7%; Negroes, 1.5%; Foreign Born, 12.1%; English Reading, 82%; Families, 3,444. Westmoreland Co., 56,610.

Schools: Public Grade, 10; High, 1; Parochial, 1; Number of Pupils, 10,000.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Hebrew, 2; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

Theatres: Moving Pictures, 3; Vaudeville, 1.

Location: P. RR., 86 trains west and 33 east daily. Excellent bus service on schedule connecting Greensburg with Delmont and New Kensington on the north, a score of mining towns on the east, West Newton and Monessen thriving steel towns on Monongahela River boundary. To nearest large city by railroad, 2 hours; by trolley, 1 hour; by auto, 1 hour.

Principal Industries: Brass and pipe fittings, coal, china, aluminum, lumber, steel, etc.

Manufacturing Establishments: 657. Leading firms, Keystone Coal & Coke Co., Kelly & Jones, Irwin Gas Coal Co., Pittsburgh American China Co., Hempfield Foundry, Railway and Industrial Engineering Co., Penn Aluminum Co., Greensburg Glass Co. Total value of yearly output of factories estimated at $437,342,000.

Special Information: Center of soft coal industry of Western Pennsylvania. County seat. On Lincoln Highway. Headquarters of Troop A State Police. Has 400 hotel rooms. Commercial advantages with natural gas and an abundance of coal. Town connected by West Penn Trolley system with rich communities of Brush Creek Valley on the west.

Residential Features: Mainly 1 and 2 family houses predominate. Beautiful residence section. Real estate value of $160,352,660, and taxable real estate valued at $147,331,841.

Retail Shopping Section: Main St., Pennsylvania Ave., Maple Ave. Terminal for suburban trolleys and buses. Pennsylvania Ave. and Main St. are business sections for about 6 blocks, while Maple Ave. has several business houses and others are in process of building. Numerous neighborhood sections.

Trading Area: Radius of 20 miles.

Wholesale Houses: Groceries, 3; meats, 4; fruits, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 19; commercial auto. agencies, 5; automobile accessories, 9; automobile tire agencies, 9; bakers, 15; cigar stores and stands (including hotels, 2; confectioners (including hotel stands), 7; delicatessen, 5; dressmakers, 25; druggists, 13; dry goods, 10; department stores, 3; electrical supplies, 4; florists, 4; fruits, 20; furniture, 5; furriers, 1; garages (public), 17; grocers, 53 (chain, 3); hardware, 6; jewelry, 6; meat markets, 18; men's furnishings, 17; men's clothing, 17; merchant tailors, 12; milliners, 9; opticians, 4; photographers, 6; pianos (and miscellaneous musical instruments), 10; radio supplies, 5; restaurants (including hotels), 10; shoes, 15; sporting goods, 1; stationers, 2; women's apparel, 11.

Miscellaneous Data: Most pleasant months, June, July, Aug., Sept.; doctors (medical, 27), (dentists, 18), (osteopaths, 3); street car service; gas, natural; electric current, alternating; water, soft.

GREENVILLE, PA.

(Mercer County)

1920 Population, 8,101.

City and Suburban Estimate, 12,386.

Native Whites, 90%; Negroes, 1%; Foreign Born, 9%; Industrial Workers, 30%; English Reading, 95%; Families, 2,500.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,895.

Churches: Baptist, 1; Episcopal, 1; Methodist, 2; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 2; State, 1; Total Resources, $7,635,000; Savings Bank Deposits Total, $3,779,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,500.

Location: Erie, B. & L. E., E. & P. branch of P. RR. Close rail connection with N. P., N. Y. Central lines in suburbs. Buses to nearby towns. Six permanent highways leading from town. To nearest large city by railroad, 1 hour; by auto. 1 hour and 20 minutes.

Principal Industries: Car repairing, tank works, foundry, dairying and farming.

Manufacturing Establishments, 4. B. & L. E. RR. headquarters and shops. Greenville Steel Car Co., Hodge Mfg. Co., Chicago Bridge & Iron Works. Total value of yearly output of factories estimated at $25,000,000.

Special Information: Railroad town primarily because of B. & L. E. extensive locomotive and repair shops and Greenville Steel Car Co. Also big ore carrying center. In normal times these two industries employ 2,000 or more. In busy season, more than 3,000, almost all American. Chicago Bridge & Iron Works employ normally about 350. Local dairy company building $80,000 plant. Trading center for northern Mercer Co. with trading population of 35,000.

Residential Features: Mainly one-family houses, private homes predominating; 80% owned. Best residential section in eastern part of town. Average value $6,000. Practically no part of town more than 15 minutes' walk from retail section. One small jitney line in town, no trolleys.

Retail Shopping Section: Main St. about one-third of a mile and Clinton St. paralleling cross streets, connecting the two and used for business are Water, Race, Canal, Wall and Mercer. No outlying sections, except few scattered groceries.

Trading Area: 7 to 8 miles. Some business from 12 to 15 miles, because of good roads.

Wholesale Houses: Groceries, 1; hardware, 1; miscellaneous lines, Neighbor Candy Co.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial auto. agencies, 4; automobile accessories, 28; automobile tire agencies, 9; bakers, 2; cigar stores and stands (including hotels), 43; confectioners (including hotel stands), 44; dressmakers, 8; druggists, 5; dry goods, 7; department stores, 1; electrical supplies, 3; florists, 1; fruits, 28; furniture, 2; garages (public), 9; grocers, 34 (chain, 9); hardware, 5; jewelry, 4; meat markets, 11 (chain, 3); men's furnishings, 7; men's clothing, 7; merchant tailors, 4; milliners, 3; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 3; restaurants (including hotels), 9; shoes, 8; sporting goods, 3; stationers, 2; women's apparel, 7.

Miscellaneous Data: Most pleasant months, May, June, July, Sept., Oct., Nov.; doctors (medical, 10), (dentists, 7), (osteopaths, 3); number of wired houses, 2,520; gas, natural; electric current, alternating; water, soft.

HANOVER, PA.

(York County)

1920 Population, 8,664. (1925 est. 10,000.)

City and Suburban Estimate, 16,000.

Native Whites, 100%; Industrial Workers, 30%; English Reading, 100%; Families, 3,000.

Schools: Public Grade, 1,160; High, 415; Paroachial, 250.

Churches: Episcopal, 1; Roman Catholic, 2; Lutheran, 3; Reformed, 3; Miscellaneous, 5.

Banks: National, 1; State, 4; Total Resources, $13,000,000; Savings Bank Deposits Total, $7,000,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 3,000.

Location: Southern Pennsylvania west of Susquehanna River. Served by Pennsylvania & Western Maryland Railroads. Excellent bus and electric service to central and western parts of state. To nearest large city by railroad, 40 minutes; by trolley, 50 minutes; by auto, ½ hour.

Principal Industries: Boots and shoes, wire-cloth, furniture, auto bodies and wagons, leather insoles and heels and box toes, silk ribbon, wall paper, cordage and twine, cigars, gloves, cigar boxes, shirts and pajamas, bakeries, flour mills, auto valves, water wheels, pattern makers, penholder, magazine and job printing, canning factories, extra plant.

Manufacturing Establishments, 150. Hanover Shoe Co., Long Furniture Co., Hopkins Mfg. Co., Hanover Cordage Works, Century Ribbon Mills, Hanover Wirecloth, Bobrow Cigar Factory, E. R. Haffelfinger & Co., W. F. Kintzling Co. Total value of yearly output of factories estimated at $16,500,000.

Special Information: Hanover lies close to Mason and Dixon Line and adjoins Adams Co. Half hour ride from famous Gettysburg national battlefields and cemetery. About 50% of wire-cloth manufactured in United States is produced in Hanover. Hanover is surrounded by one of the richest agricultural districts in the United States.

Residential Features: Mostly one and two-family brick houses, limited section devoted to workingmen's tenements, private homes predominate. Four private dwellings aggregate a total approximately $200,000. White way now under construction. First class modern hotel, 75 rooms being erected.

Retail Shopping Section: Extends from public square which forms heart of business section and terminal for suburban trolley and bus lines. Three blocks on Carlisle St., two on Broadway, 5 on Baltimore St. There are six outlying business sections of several blocks each and several smaller neighborhood sections with the usual grocery and confections.

Trading Area: Extends about 20 miles west, north, east and south. Intermittent business is secured from people living at a greater distance because of the fine bus and trolley service and individual use of motor cars.

Wholesale Houses: Groceries, 2; meats, 10; fruits, 5; hardware, 4; dry goods, 7; miscellaneous lines: shoes, 7; confectioners, 10.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; commercial auto. agencies, 5; automobile accessories, 19; automobile tire agencies, 20; bakers, 6; cigar stores and stands (including hotels), 11; confectioners (including hotel stands), 8; dressmakers, 10; druggists, 5 (chain, 1); dry goods, 9; department stores, 2; electrical supplies, 12; florists, 1; fruits, 4; furniture, 3; garages (public), 17; grocers, 62 (chain, 5); hardware, 4; jewelry, 5; meat markets, 12; men's furnishings, 5; men's clothing, 8; merchant tailors, 8; milliners, 8; opticians, 5; photographers, 2; pianos (and miscellaneous musical instruments), 4; radio supplies, 5; restaurants (including hotels), 17; shoes, 11; sporting goods, 5; stationers, 2; women's apparel, 10.

Miscellaneous Data: Most pleasant months, May, June, July, Aug., Sept., Oct.; doctors (medical, 17), (dentists, 9), (osteopaths, 2); street car service; gas, artificial; electric current, alternating; water, soft.

HARRISBURG, PA.

(Dauphin County)

1920 Population, 75,917. (1925 est, 97,000.)

City and Suburban Estimate, 200,000.

Native Whites, 88%; Negroes, 7%; Foreign Born, 5%; Industrial Workers, 24%; English Reading, 97%; Families, 16,000.

Schools: Public Grade, 28; High, 2; Junior High, 3; Parochial, 3; Number of Pupils, 11,761.

Churches: Baptist, 5; Christian Science, 1; Episcopal, 2; Hebrew, 3; Methodist, 11; Presbyterian, 10; Roman Catholic, 5; Miscellaneous, 48.

Banks: National, 1; Trust Companies, 17; Total Resources, $57,000,000; Savings Bank Deposits Total, $17,869,000.

Theatres: Legitimate, 1; Moving Pictures, 13; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 7. Total number of seats, 8,500.

Location: Main line of P. RR. at intersection of north, south, east and west divisions, and is terminus of Reading system. From transportation viewpoint, it is the key to the Atlantic seaboard. Three great national highways pass through the city. Excellent bus and street car service maintained in all directions. To nearest large city (Philadelphia) by railroad, 3 hours; by auto, 5 hours.

Principal Industries: Pennsylvania and Reading shops and yards. Iron and steel, food products, textiles, leather and rubber goods.

Manufacturing Establishments, 477. Leading firms, Bethlehem Steel Co., Central Iron & Steel Co., Elliott-Fisher, Harrisburg Pipe Bending Co. Total value of yearly output of factories estimated at $154,412,952.

Special Information: Few cities have so favorable geographical position. The great markets of the east are from two to four hours away. Harrisburg has 22,400 telephone connections, 17,200 autos and trucks.

Residential Features: Mostly 1 and 2-family houses, private homes predominating, 35% owned. Practically no tenements. One of the finest residential sections in Pennsylvania, located on the Susquehanna River front.

Retail Shopping Section: Extends from Market Square (which forms a terminal for suburban and bus lines) for 12 blocks east on Market Street, Chestnut, Walnut and Mulberry Streets., parallel Market Street and are business streets for 5 to 8 blocks each. Six outlying retail business sections and several smaller neighborhood sections.

Trading Area: 25 miles north, east, south and west. Considerable volume of business is secured from people living within a 100-mile radius because of the relatively large number of railway employees who travel on passes and because of Harrisburg being the State Capitol.

Wholesale Houses: Groceries, 4; meats, 4; fruits, 9; hardware, 5; dry goods, 3; miscellaneous lines, 12.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 36; commercial auto. agencies, 8; automobile accessories, 68; automobile tire agencies, 54; bakers, 36; cigar stores and stands (including hotels), 101 (chain, 6); confectioners (including hotel stands), 132; delicatessen, 35; dressmakers, 71; druggists, 46; dry goods, 21; department stores, 10; electrical supplies, 20; florists, 18; fruits, 165; furniture, 37; furriers, 4; garages (public), 45; grocers, 356 (chain, 52); hardware, 22; jewelry, 21; meat markets, 76; men's furnishings, 20; men's clothing, 43; merchant tailors, 62; milliners, 38; opticians, 18; photographers, 14; pianos (and miscellaneous musical instruments), 13; radio supplies, 40; restaurants (including hotels), 125; shoes, 43; sporting goods, 8; stationers, 51; women's apparel, 28.

Miscellaneous Data: Most pleasant months, May, June, Oct., and Nov.; doctors (medical, 135); (dentists, 55); (osteopaths, 9); street car service; gas, artificial; electric current, alternating; water, soft.

HAZLETON, PA.

(Luzerne County)

1920 Population, 32,277 (1925 est. 35,440.)

City and Suburban Estimate, 91,468.

Native Whites, 81.2%; Negroes, 0.1%; Foreign Born, 18.7%; Industrial Workers, 38%; English Reading, 80%; Families, 18,000.

Schools: Public Grade, 86; High, 8; Junior High, 3; Parochial, 19; Number of Pupils, 23,811.

Churches: Baptist, 3; Congregational, 3; Episcopal, 5; Hebrew, 3; Methodist, 14; Presbyterian, 6; Roman Catholic, 29; Miscellaneous, 8; Lutheran, 9; Reformed, 9.

Banks: National, 6; State, 6; No savings banks in district; Total Resources, $41,259,651.16.

Theatres: Moving Pictures, 14; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 10. Total number of seats, 14,984.

Location: Southern portion of Luzerne county, on borders of Schuykill and Carbon counties in heart of anthracite region. On Lehigh Valley, Pennsylvania, and Wilkes-Barre & Hazelton Railways. Reading, and Jersey Central Railroads tap sections north and south within five miles of city. Bus and trolley service to suburbs. On main state roads, east and west, and north and south. State highway system sending traffic through Hazelton in all four direction. To nearest large city by railroad, ½ hour; by auto, 1¾ hours.

Principal Industries: Anthracite coal (weekly tonnage 200,000 to 250,000). Shirts, silk, knitted goods, steel, iron products for mines and mills, manufacture of electric power for 125 towns and 2,000,000 people in northeastern part of Pennsylvania.

PENNSYLVANIA (Cont'd)

Manufacturing Establishments: 93; Leading firms, Lehigh Valley Coal Co., Duplan Silk Corp., Jacob Gerhardt & Co., Pennsylvania Power & Light Co., Century Knitting Mills, Hazelton Iron Works, Anthracite Separator Mfg. Co., Lehigh & Wilkes-Barre Coal Co., Hazle Brook Coal Co., Shirtcraft Co., J. H. Janowitch & Janov, Inc., Louis Roessel Silk Co., Jeddo Highland Coal Co., Cranberry Creek Coal Co., Leichtman Ice Cream Co., Hazleton Baking Co., Power City Baking Co., Ashmore Engine Shops of L. V. R.R., Hazleton Mfg. Co. (caskets), Barrett-Haentjens Pump Co.

Special Information: Large silk mill. Anthracite producing center. High wage-scales guaranteed miners. Located on main lines of tourist traffic in all directions. Banking center for over 20 anthracite communities. Headquarters for oil, gasoline, mine machinery and supplies. Distributors for southern coal fields. Center for deliveries to many towns for wholesale grocers and bakers. Altitude 1,810 feet. Electric power-producing district.

Residential Features: Mostly private homes, a majority being double dwellings. Northern section of city is an exceptionally fine residential section. Within a radius of ten miles there are about forty mining towns and villages where many families own their own homes and others have comfortable dwellings erected by the coal companies. People who maintain homes of their own predominate in the entire trading area.

Retail Shopping Section: In Hazleton City 9 blocks on Broad Street from Hazle to James; 24 blocks on Wyoming Street from Noble to Diamond Ave.; 10 blocks on East Diamond Ave. to Pardee Street; 22 blocks on Alter Street from Diamond Avenue to 22nd Street. All the outlying towns have an average of small retail shops.

Trading Area: A radius of ten miles embraces the shopping area, with towns scattered in all four directions.

Wholesale Houses: Groceries, 10; meats, 7; fruits, 3; hardware, 3; dry goods, 1; miscellaneous Lines, Macaroni, 2; confectioner, 8; shoes, 1; ice cream, 5; notions, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 43; commercial auto. agencies, 17; automobile accessories, 88; automobile tire agencies, 49; bakers, 21; cigar stores and stands (including hotels), 74; confectioners (including hotel stands), 87; delicatessen, 8; dressmakers, 31; druggists, 25; dry goods, 54; department stores, 18; electrical supplies, 29; florists, 4; fruits, 275; furniture, 32; furriers, 10; garages (public), 107; grocers, 434 (chain, 37); hardware, 36; jewelry, 45; meat markets, 83 (chain, 9); men's furnishings, 64 men's clothing, 53; merchant tailors, 40; milliners, 33; opticians, 46; photographers, 17; pianos (and miscellaneous musical instruments), 28; radio supplies, 11; restaurants (including hotels), 52; shoes, 128; sporting goods, 25; stationers, 20; women's apparel, 93.

Miscellaneous Data: Average temperature, 74 degrees; average number of rainy days per twelve months, 50; most pleasant months, May to November; doctors (medical, 45), (dentists, 17) (osteopaths, 1); number of wired houses, 15,000; street car service; gas, artificial; electric current, alternating; water, soft.

HOMESTEAD, PA.

(Allegheny County)

1920 Population, 20,452.

City and Suburban Estimate, 40,038.

Schools: Public Grade, 21; High, 2; Junior High, 3; Parochial, 8; Number of Pupils, 10,065.

Churches: Baptist, 2; Episcopal, 1; Hebrew, 1; Methodist, 4; Presbyterian, 2; Roman Catholic, 9; Miscellaneous, 4.

Banks: National, 2; State, 1; Total Resources, $13,452,000; Savings Bank Deposits Total, $8,-319,000.

Theatres: Moving Pictures, 4; Miscellaneous (Auditoriums, etc.), 3.

Lewistown is known as "Pennsylvania's most rapid growing town," due to extensive building operations in last three years. Mifflin County, of which Lewistown is the county seat, was incorporated in 1789, six years before incorporation of town. This entire section is historically rich.

Residential Features: Mainly 1 and 2-family houses, majority owned. Small number of apartment houses.

Retail Shopping Section: With public square as center, section extends 2 blocks east and 1 block west on Market St., with one block on both Valley and Chestnut Sts., which join Market diagonally at "Fountain Square." Business extends south from Monument Square about two blocks, garages, gas stations and neighborhood stores. Outlying sections have usual grocery, confectionery and meat stores.

Trading Area: Covers Mifflin, parts of Juniata, Snyder and Center Counties. Extends about 15 miles southeast, 15 west, 26 east and 10 north, making center of a buying radius of about 20 miles. Intermittent business from greater distances owing to large number of autos and good roads.

Wholesale Houses: Groceries, 3; fruits, 2; hardware, 1; Miscellaneous Lines, shoes, 2; confectionery, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto agencies, 5; automobile accessories, 20; automobile tire agencies, 15; bakers, 3; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 10; delicatessen, 2; dressmakers, 10; druggists, 6; dry goods, 3; department stores, 2; electrical supplies, 5; florists, 2; fruits, 4; furniture, 5; garages (public), 12; grocers, 51; hardware, 4; jewelry, 4; meat markets, 6; men's furnishings, 6; men's clothing, 5; merchant tailors, 3; milliners, 10; opticians, 5; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 11; shoes, 9; sporting goods, 7; stationers, 1; women's apparel, 6.

Continued on page 222

PENNSYLVANIA (Cont'd)

New Castle (con't)

Manufacturing Establishments: 136. Leading firms: American Sheet and Tin Plate Co., Carnegie Steel Co., Lehigh Cement, Seiberling Rubber Co., Johnson Bronze Co. Total value of yearly output of factories estimated at $150,000,000.

Special Information: One of the finest junior high schools in the state. Low tax rate.

Residential Features: Mostly one family houses. North Hill and East Side sections are more exclusive than west and south side. North Hill section is best and has some restrictions. Average home in this section is $8,000.

Retail Shopping Section: Washington Street 5 blocks east of public square and 3 blocks west. Mill, Mercer, Jefferson Streets for a block north and south of Washington street. The retail buying section is well bunched together and affords easy shopping for those who come down town.

Trading Area: About 10 miles in each direction. Excellent roads, street cars and buses afford transportation to those not having their own cars. Our trading radius is circumscribed because of the closeness of Youngstown on the west, Pittsburgh on the south, Sharon on the north and Butler on the east. Pittsburgh and Youngstown draw some from this city.

Wholesale Houses: Groceries, 5; meats, 3; fruits, 3. Miscellaneous lines: Bakers, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 19; commercial auto. agencies, 15; automobile accessories, 26; automobile tire agencies, 24; bakers, 21; cigar stores and stands (including hotels), 26; confectioners (including hotel stands), 65; delicatessen, 3; dressmakers, 8; druggists, 12 (chain, 1); dry goods, 24; department stores, 5; electrical supplies, 11; florists, 5, fruits, 6; furniture, 16; garages (public), 19; grocers, 251 (chain, 12); hardware, 12; jewelry, 14; meat markets, 51; men's furnishings, 22; men's clothing, 21; merchant tailors, 12; milliners, 18; opticians, 14; photographers, 7; pianos and miscellaneous musical instruments), 7; radio supplies, 8; restaurants (including hotels), 37; shoes, 26; sporting goods, 4; stationers, 2; women's apparel, 15.

Miscellaneous Data: Average temperature, 75 degrees. Average number of rainy days per twelve months, 60. Most pleasant months, May to October. Doctors (medical, 60); (dentists, 35), (osteopaths, 12). Number of wired houses, 12,000. Street car service. Gas, natural. Electric current, alternating. Water, soft.

NEW KENSINGTON, PA.

(Westmoreland County)

1920 Population, 11,987.

City and Suburban Estimate: 1920, 25,000; 1924, 30,000.

Native Whites, 65%; **Negroes,** 2%; **Foreign Born,** 33%; **Industrial Workers,** 75%; **English Reading,** 85%; **Families,** 6,000.

Schools: Public Grade, 7; High, 3; Junior High, 1; Parochial, 3; Number of Pupils, 6,743.

Churches: Baptist, 3; Christian Science, 2; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 2; Roman Catholic, 4; Miscellaneous, 4.

Banks: National, 3; State, 4; Total Resources, $16,000,000; Savings Banks Deposits Total $5,425,000.

Theatres: Moving Pictures, 5; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 3,700.

Location: Penna. R. R., Connemaugh and West Penn branches. Main line between Pittsburgh and Buffalo. West Penn Traction Co. and Allegheny River. To nearest large city by railroad, 40 minutes; by trolley, 1½ hours; by auto, 45 minutes.

Principal Industries: Aluminumware, sheet and tin plate, springs, electrical goods, lead and oil, window glass, coal.

Manufacturing Establishments, 18. U. S. Aluminum Co., Aluminum Cooking Utensil Co., American Sheet & Tin Plate Co., American Window Glass Co., Union Spring & Mfg. Co., P. H. Murphy Co., Sprague Electric Co., National Lead & Oil Co.

Special Information: Center of population of Allegheny Valley outside of Pittsburgh. Largest town in the valley and draws trade for radius of 20 miles.

Residential Features: Mostly one-family houses, private homes predominating. Few tenements. Fine residential sections. Homes in latter probably average $15,000.

Retail Shopping Section: Covers several blocks in three directions, north, south and west of center at 5th Ave. and 9th St. Three outlying sections.

Trading Area: Extends about 20 miles north, south and east.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 4; Miscellaneous lines, confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 22; automobile accessories, 8; automobile tire agencies, 5; bakers, 11; cigar stores and stands (including hotels), 37; confectioners (including hotel stands), 17; delicatessen, 3; dressmakers, 6; druggists, 11; dry goods, 9; department stores, 7; electrical supplies, 6; florists, 2; fruits, 43; furniture, 8; garages (public), 11; hardware, 7; jewelry, 6; men's furnishings, 73; men's clothing, 26; merchant tailors, 9; milliners, 8; opticians, 4; photographers, 4; pianos (and miscellaneous musical instruments), 2; radio supplies, 17; restaurants (including hotels), 18; shoes, 11; sporting goods, 8; stationers, 3; women's apparel, 5.

Miscellaneous Data: Most pleasant months, May to December; doctors (medical, 26); (dentists, 15); (osteopaths, 5); number of wired houses, 5,200; street car service; gas, natural; electric current, direct; water, hard.

NORRISTOWN, PA.

(Montgomery County)

1920 Population, 32,319. (1925 est. 35,000).

City and Suburban Estimate, 81,000 within radius of 12 miles.

Native Whites, 80%; **Negroes,** 5%; **Foreign Born,** 15%; **Industrial Workers,** 40%; **English Reading,** 85%; **Families,** 6,500.

Schools: Public Grade, 7; High, 2; Parochial, 1. Number of Pupils, 6,000.

Churches: Baptist, 5; Christian Science, 1; Episcopal, 2; Hebrew, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 3; Miscellaneous: Lutheran, 5.

Banks: National, 2; Trust Companies, 2; Bank clearings, $60,000,000.

Theatres: Moving Pictures, 5; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 7,000.

Location: On north side of Schuylkill River, 20 miles from Delaware River. P. R. R., P. & R., Lehigh Valley Transit Co., Philadelphia & Western, Reading Transit and Light Co. and West Chester Transit Co. To nearest large city by railroad, ½ hour; by trolley, 45 minutes; by auto, 45 minutes.

Principal Industries: Wood, steel, coke, iron, cigars, printing, hosiery, machinery, shirts.

Manufacturing Establishments: 60. Leading firms: Alan Wood Iron & Steel Co., Wildman Mfg. Co., Geo. Watt Woolen Co., Reading Screw Works, Tyson Shirt Co., Rainey-Wood Coke Co., Rambo and Regar Hosiery Co., Republic Cigar Co., Taubel Star Knitting Co., Summerill Tubing Co., Diamond State Fibre Co., Jas. Lee's Sons' Minerva Yarn Co., Ballard Knitting Co., Newbold Iron Foundry, Coral Rug Co., Dill Medicine Co., Norristown Box Co., McCarter Iron Works, Hosey Worsted Co., Philadelphia Slag Co., Norristown Magnesia and Asbestos Co.

Special Information: Norristown as community center in eastern Pennsylvania offers wide area for trade results. Great public improvement campaign is being carried on by residents.

Residential Features: Mainly 1-and 2-family houses, private homes predominating. Fine residential section to west and north end of city.

Retail Shopping Section: Astor to Ford Sts. on Main, River to Chestnut on De Kalb St. Astor to Kohn Sts. on Marshall. Usual small neighborhood sections. Number of stores beginning to locate on Swede St.

Trading Area. 20 miles west, 10 miles east, 30 miles north, 5 miles south.

Wholesale Houses: Groceries, 2; meats, 3; fruits, 5; hardware, 4; dry goods, 4; drugs, 1; confectioners, 2; bakeries, 4; builders' supplies, 6.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto. agencies, 4; automobile accessories, 22; automobile tire agencies, 19; bakers, 7; cigar stores and stands (including hotels), 50; confectioners (including hotel stands), 60; delicatessen, 25; dressmakers, 60; druggists, 23; dry goods, 50; department stores, 13; electrical supplies, 18; florists, 16; fruits, 125; furniture, 6; furriers, 2; garages (public), 25; grocers, 105 (chain, 20); hardware, 8; jewelry, 10; meat markets, 25; men's furnishings, 40; men's clothing, 15; merchant tailors, 6; milliners, 10; opticians, 10; photographers, 5; pianos (and miscellaneous musical instruments), 10; radio supplies, 20; restaurants (including hotels), 20; shoes, 20; sporting goods, 8; stationers, 6; women's apparel, 12.

Miscellaneous Data: Most pleasant months, June to October; doctors (medical, 52); (dentists, 20); (osteopaths, 5); number of wired houses, 6,500; street car service; gas, artificial; electric current, alternating and direct; water, hard.

OIL CITY, PA.

(Venango County)

1920 Population, 21,274. (1925 Est. 25,000).

City and Suburban Estimate, 59,184.

Native Whites, 64%; **Negroes,** 4%; **Foreign Born,** 32%; **Industrial Workers,** 25%; **English Reading,** 90%; **Families,** 3,000.

Schools: Public Grade, 11; High, 1; Junior High, 2; Parochial, 2. Number of Pupils, 5,262.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 5; Presbyterian, 3; Roman Catholic, 4; Miscellaneous, 7.

Banks: National, 2; State, 1; Trust Co., 1; Total Resources, $26,500,000.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 2.

Location: P. R. R., Erie, L. S. & M. S. Located on Alleghany River at the junction of Oil Creek. Oil City forms center of a triangle whose three points are Pittsburgh, Cleveland and Buffalo. To nearest large city (Pittsburgh), by railroad, 4 hours; by auto, 3½ hours.

Principal Industries: Oil, chemical and allied products, metal trades, barrel manufacturing, boilermakers, building materials, woodworking, candy, cigars, foundries, iron, gas engines, machine shops, oil refiners, oil well supplies, printers and bookbinders, pumping machinery, sheet metal works, tack mfrs.

Manufacturing Establishments, 20. Leading firms: National Transit Pump & Machine Co., Penn American Refining Co., Oil Well Supply Works, Allied Barrel Works Co., Peinzoil Co., Continental Refining Co., Reid Gas Engine Co., Oil City Boiler Works.

Residential Features: Mainly 1 and 2-family houses, owned. Very few apartments and no tenements.

Retail Shopping Section: Extends one half mile along Seneca Street, one fourth mile on Main Street, 3 blocks on First, 4 blocks on Elm, 4 blocks on Center, 3 blocks on Sycamore, 3 blocks on Spring, 1 block on Central Avenue, 3 blocks on East 2nd, 2 blocks on State, 3 blocks on Front, with numerous neighborhood stores.

Trading Area: About 25 miles west, south and east. Intermittent business from greater distances.

Wholesale Houses: Groceries, 2; meats, 2; fruits, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 21; automobile accessories, 20; automobile tire agencies, 15; bakers, 6; cigar stores and stands (including hotels,) ,25; confectioners (including hotel stands), 20; dressmakers, 20; druggists, a (chain, 2); dry goods, 11; department stores, 6; electrical supplies, 4; florists, 4; furniture, 4; grocers, 85 (chain, 15): hardware, 4; jewelry, 9; meat markets, 28; men's furnishings, 11; men's clothing, 6; merchant tailors, 4; milliners, 19; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 5; restaurants (including hotels), 22; shoes, 11; sporting goods, 4; stationers, 4; women's apparel, 6.

Miscellaneous Data: Average temperature 58 degrees: average number of rainy days per twelve months, 75; most pleasant months, June, July, Aug., Sept.; doctors (medical, 60); (dentists, 18); (osteopaths, 1); number of wired houses, 3,000 street car service; gas, natural; electric current, alternating; water, hard.

PHILADELPHIA, PA.

(Philadelphia County)

City Classed As: Philadelphia is the third largest city in the United States and ninth in the world. It is the third richest city in the United States and ranks third in value of manufactured products. It is the second port of the United States and an important wholesale distributing point.

Space Buyers' Guide to Philadelphia

America's Third Largest Market

Map of the Philadelphia Trading Area

Embraces 524,404 separate homes. Population, 3,005,090 people.

Advertisers who want their advertising outlay to do them the most good in Philadelphia should read and analyze the facts given below:

Question	Answer
What is the third largest market in the United States?	—Philadelphia
What is the city population?	—1,823,779
What's the population of the Philadelphia trading zone?	—3,005,090
How many separate dwellings in the Philadelphia trading zone?	—524,404
What Philadelphia newspaper goes daily into nearly every home in Philadelphia.	—The Evening Bulletin
What Philadelphia newspaper goes into most homes in the Philadelphia trading zone?	—The Evening Bulletin
What was the net paid daily average circulation of The Evening Bulletin for six months ending September 30, 1925?	—520,072 copies

Question	Answer
In what Philadelphia newspaper can you buy advertising space at the lowest rate per line per thousand copies?	—The Evening Bulletin
What is the agate line rate of The Evening Bulletin?	—65 cents
What Philadelphia newspaper carries most local retail and national display advertisements?	—The Evening Bulletin
What kind of a newspaper is The Evening Bulletin?	—High class and conservative
What Philadelphia newspaper has the largest circulation?	—The Evening Bulletin
What is the annual business done in Philadelphia, as indicated by the 1924 figures of the Philadelphia Clearing House?	—$25,645,000,000.00
What city and newspaper should be on the schedule of every advertiser?	—Philadelphia and The Evening Bulletin

The above questionnaire is the "acid test" of the Philadelphia newspaper advertising situation.

To get results it is important that your advertising should be in the newspaper that goes daily into nearly every home in Philadelphia, Camden and their vicinity.

Suburban Population—Among the towns included in the suburban district within 40 miles of the city's limits are: Ambler, Pa., 2,649; Ardmore, Pa., 3,650; Bristol, Pa., 10,273; Bryn Mawr, Pa., 2,400; Burlington, N. J., 9,409; Camden, N. J., 116,309; Chester, Pa., 58,030; Clifton, Pa., 26,470; Coatesville, Pa., 14,515; Conshohocken, Pa., 7,480; Downington, Pa., 3,326; Doylestown, Pa., 3,304; Eddystone, Pa., 7,500; Jenkintown, Pa., 2,968; Lansdale, Pa., 3,551; Lansdowne, Pa., 4,066; Marcus Hook, Pa., 1,573; Media, Pa., 3,562; Norristown, Pa., 32,319; Penns Grove, N. J., 6,060; Phoenixville, Pa., 11,871; Pottstown, Pa., 17,431; Salem, N. J., 7,435; Treaton, N. J., 119,269; Vineland, N. J., 6,769; West Chester, Pa., 11,717; Wilmington, Del., 110,168; Woodbury, N. J., 5,801; Allentown, Pa., 65,109; Atlantic City, N. J., 50,682; Bethlehem, Pa., 50,358; Columbia, Pa., 10,836; Dover, Del., 9,817; Easton, Pa., 33,813; Harrisburg, Pa., 75,917; Lancaster, Pa., 53,510; Lebanon, Pa., 24,643; Pottsville, Pa., 21,785; Reading, Pa., 111,607; Stroudsburg, Pa., 4,379; York, Pa., 52,770. These communities, as listed herein, are, in reality, a part of the great metropolitan market, shoppers going into the city daily, tri-weekly, semi-weekly and weekly to buy.

SCHOOLS

Public Grade	199	Pupils	211,231
High	12	Pupils	26,281
Colleges	10	Pupils	26,500
Junior High	12	Pupils	17,640
Normal School	1	Pupils	935
Trade School, Girls	1	Pupils	322

In addition to the regular schools there are 12 elementary evening schools, 8 evening high schools, and one evening trade school.

Of the 124 parishes in Philadelphia, 101 maintained schools during the last school year. Their combined enrollment was 39,797 boys and 40,955 girls, making a total of 80,732 pupils. There are 6 Parochial High Schools with an average daily attendance of 4,260, also 9 Catholic Charitable Institutions maintain schools with average daily attendance of 1,104.

Of collegiate institutions in or near Philadelphia, the best known are the University of Pennsylvania, Girard College, Temple University, Swarthmore College, Bryn Mawr College, Haverford College and Villa Nova. Among the famous special schools are Jefferson Medical College, Philadelphia College of Pharmacy, The Woman's Medical College and Hahnemann Medical College; and there are other technical, industrial, theological and commercial schools, too numerous to mention.

The University of Pennsylvania is an object of great pride to all Philadelphians. It now stands among the first American colleges. Its departmental schools—of medicine, dentistry, engineering, finance, law and science—occupy several of the seventy-one University buildings..

BANKS

National Banks	32

LOCATION AND TRANSPORTATION

Philadelphia, the metropolis of Pennsylvania, third city of the United States in population, is situated in the southeastern corner of the state, at the confluence of the Delaware and Schuylkill Rivers, about 60 miles from the sea. It occupies a central position on the North Atlantic seaboard, 90 miles by rail from New York, 96 from Baltimore and 132 from Washington. It occupies the peninsula about two miles in width between the two rivers, and extends westward and southward beyond the Schuylkill, including both shores of that stream. Philadelphia is connected with the rest of the country by three great trunk line systems of railroads—the Pennsylvania, Philadelphia and Reading and the Baltimore and Ohio, also the Lehigh Valley reaching Philadelphia over the Philadelphia and Reading. The two first named reach the center of the city by substantial viaducts. The Baltimore and Ohio has a fully equipped station on the east bank of the Schuylkill at Chestnut street, connected by tunnel and subway with the Reading Terminal. About one thousand trains a day enter and depart from these three terminals. At the freight terminals in different parts of the city millions of tons of freight are handled annually. Philadelphia has a Belt Line Railroad serving its active waterfront, by means of which freight from any railroad point in the country can be delivered direct in railroad cars to any steamship wharf in the city, and can be sent in cars direct from any wharf to any interior points without rehandling. Within the city there is a wonderful system of trackage, freight station and distributing points. There are seventy stations at which freight is received and delivered.

The terminal facilities of Philadelphia are second to none. There are 267 wharves, 41 railroad piers, 8 municipal piers and 12,000,000 square feet of storage space, practically all connected by the Belt Line R. R. The expensive system of transferring freight by lighters and car floats from one part of the harbor to another is not necessary in Philadelphia. A network of high speed electric lines connect suburban towns with Philadelphia and each other. Motor bus transportation has been highly developed, regular schedules are maintained. Connecting Philadelphia with all points of the world is a host of ship lines. Fifty-four now are serving this port. Forty of these are trans-Atlantic lines, while the rest go to South America, Asia, the South Seas, and Pacific Coast ports.

PRINCIPAL INDUSTRIES

		Per cent of increase 1914-1919
Number of establishments	9,065	7.2
Persons engaged in mfrs..	338,965	15.0
Proprietors and firm members	9,493	5.6
Salaried employees	48,325	40.6
Wage earners (average number)	281,147	11.9
Capital	$1,549,795,000	100.6
Services	426,922,000	130.2
Salaries	100,032,000	111.8
Wages	326,890,000	136.5
Materials	1,156,479,000	156.3
Value of products	1,996,727,000	154.5
Value added by manufacture	840,248,000	152.1

Adding machines, agricultural implements, air compressors, asbestos goods, automobile axles, beds and bed springs, bolts and nuts, bottles, brass and bronze castings, carpets, cash registers, chemicals, cigars, clay products, electric cranes, electric motors, elevators and apparatus, farm tractors, electric street cars and trucks, dyestuffs, cordage and twines, fertilizers, iron and steel products, heating apparatus, oil refining, marine tools, linoleum, locomotives, knitting machinery, knitting apparatus, lathes, ships, steam-shovels, worsted goods, wire wheels, paints, washing machines, watch cases, saws, shoes, soaps, speedometers, type casting machines, surgical appliances, worsteds, dyeing and finishing textiles, sporting goods, sugar, hats.

Philadelphia claims to hold first place in this country in the value of its manufacture of textiles, locomotives, steel ships, street cars, leather, storage batteries, cigars, dental instruments, talking machines, carpets, bone buttons, hosiery, saws and felt hats.

Philadelphia claims second rank in the production of worsted goods, sugar and molasses, fertilizers, foundry castings, petroleum products, chemicals, druggists' preparations, and machine-shop products.

With but one-sixtieth of the country's population, Philadelphia's manufacturing plants produce about one twenty-fifth of all American-made goods.

Of the 1,640 products listed in the latest census as manufactured in this country, this city makes 271, which shows that Philadelphia is not a specialist in a few lines. In other words, its eggs are not all in one basket, and it is not affected by seasonal conditions.

Philadelphia's production in 1920 was valued at $2,343,626,700, and in 1919 it was only $391,000,000 less.

Here are some of the stunning figures of Philadelphia production by the year.—365,000,000 pounds of cotton and cotton waste; 10,000,000 saws; 45,000,000 yards of carpet; 6,669,600 hats, or more than 18,000 hats per day; 180,000,000 yards of cotton piece goods; 400,000,000 cigars; 250,000,000 pairs of hosiery; 83,862,700 false teeth; 60 per cent of the world's glazed kid.

Three-fifths of the street cars of the country are made in this city, every day six steam locomotives have been turned out here, and daily two and a half million paper boxes are made.

The principal industries of Philadelphia for which statistics can be presented separately arranged in the order of value of products:

	Value of Products	Per cent U.S.Census of 1920	for State
Sugar, refining, not including beet sugar	$133,796,119	100.0	
Foundry and machine shop products	92,810,903	23.2

Food preparations, not elsewhere specified	10,461,801	53.8	
Lumber, planing-mill products, not including planing mills connected with sawmills	10,153,828	28.0	

New Census Figures for 1923

(Subject to correction are as follows):

Number of establishments	6,425
Number of workers	274,819
Wages paid workers	$356,437,913
Value of products	$1,998,749,780

PRINCIPAL INDUSTRIES

Separate figures available for 1923, arranged according to groups and value of product are as follows:

Textiles and textile products	$521,601,100
Food and kindred products	268,788,300
Chemicals and allied products	177,376,600
Paper and printing industries	168,930,700
Leather and rubber goods	72,021,200
Tobacco and its products	41,567,500
Lumber and its re-manufacture	36,505,500
Clay, glass and stone products	16,713,700
Metals and metal products	13,960,700

Manufacturing Establishments

Baldwin Locomotive Works, J. G. Brill Co., street cars; Henry Disston Son's Co., saws; S. S. White Dental Mfg. Co., dental supplies; Wm. Cramp Ship and Engine Co., Atlantic Refining Co., Electric Storage Battery Co., S. B. & B. W. Fleischer Co., yarns; H. K. Mulford Co., chemicals; Franklin Sugar Refinery, Wm. Sellers Co., machine tools; Lanston Monotype Co., Dungan-Hood Co., glazed kid.

SPECIAL INFORMATION

Philadelphia is America's third largest market. It is also known as "The World's Workshop" and the "City of Homes." There are half a million separate dwellings in Philadelphia and suburbs. The city covers 129½ square miles and extends about 22 miles north and south, and from 6 to 10 east and west. 25% of America's Building and Loan Associations are in Philadelphia. 50% of the homes are owned by those living in them. Nearly 200,000 passenger autos are owned by the people. The payroll of the manufacturing plants exceeds $7,572,704 weekly. One of the greatest industries in Philadelphia is the textiles and allied products. The center of the textile industry is near Philadelphia, and in Philadelphia county alone there are 1,189 industries engaged in the manufacture of textiles and allied products. The leading product is yarn; hosiery and knit goods take the second position, while next in order come woolen, worsted and felt goods, women's and children's clothing, cotton goods, hats and caps, etc. Number of telephones, 303,480; number of houses wired for electricity, 300,000; number of gas meters (domestic and commercial), 460,000.

Building activities in 1924 amounted to $141,737,460, and it is estimated that this amount will be exceeded by the 1925 figures. The 8,379 Philadelphia establishments manufactured 211 of the 264 articles covered by the census of classifications, indicating the great diversity of its industrial activities. The Philadelphia retail shops rank very high, both in character of merchandise and point of service.

Philadelphia's financial institutions occupy a unique and important part in the industrial development of the city. Many of them are old established, and, in addition to being directed by industrial leaders, have during their long careers been identified in all their activities with the industries of the city.

The annual product of the factories in Philadelphia exceeds $1,998,000,000, employing more than 300,000 people. Philadelphia has 423,000 homes, only 11,607 of which are frame. It is distinctly a home town, and more homes are owned by the occupants than in any other city in the country. It is the shopping center for a tremendous population, living in the surrounding country.

Port of Philadelphia

Philadelphia is the second port of the United States. Modern piers, natural advantages and superior wharf and dock facilities, splendidly interlocked with the three railroad systems, give Philadelphia this proud position. Philadelphia has a water frontage of 34 miles, 20 miles on the Delaware and 14 on the Schuylkill. The Schuylkill River is unobstructed for the passage of large vessels to a point within two blocks of Market Street, and for some further distance for barges. At the lower end of the Schuylkill one of the largest Standard Oil Refineries is situated, and large shipments of oil for the foreign trade, as well as of grain, are made by way of the Schuylkill and Delaware. The Delaware River has a 35-foot channel, from 800 to 1,200 feet wide, running from the city to the sea. The Government pier, at the foot of Oregon Avenue, cost $15,000,000 and can accommodate 10 large ships at a time. The city owns 13 municipal piers and there are no port charges by either the city or state. There are 267 docks used for the shipment of cargo. In addition to the city owned piers the list includes thirty-three for foreign trade, ten for coastwise trade, two for river and bay trade, twelve coal piers, four ore piers, three grain piers, six lumber piers, thirteen miscellaneous and industrial cargo piers, eleven railroad waterfront freight stations, and three United States Government piers.

The foreign and coastwise arrivals and clearance during the calendar year 1924, as recorded in the office of the Commissioners of Navigation, numbered 10,896, a loss of 945 vessels over the preceding year. The aggregate net tonnage of the 5,449 arrivals was 11,181,668, and of the 5,447 clearances 11,133,285, or bottoms sufficient to move in excess of 55,000,000 tons of cargo.

The total value of imports was $202,712,364, a loss of $17,276,323 compared with 1923; export values also fell off $266,019, the total being $105,376,882, showing a total loss in the value of commerce of the port of $17,542,342.

Increases were shown in the importation of bananas, bauxite, china clay, coffee, chrome ore, manganese ore, molasses and sugar. Bananas increased from 3,706,269 bunches to 4,821,827 bunches; bauxite from 36,278 tons to 47,664 tons; china clay from 134,314 tons to 172,749 tons; coffee from 54,644 bags to 109,807 bags; chrome ore from 80,216 tons to 83,444 tons; manganese ore from 74,158 tons to 93,594 tons; molasses from 21,771,392 gallons to 30,559,650 gallons; and sugar from 5,260,957 bags and 613,536 sacks to 5,965,328 bags and 1,037,611 sacks.

The nationalities of foreign arrivals at the port during the calendar year 1924 were: American, 463; British, 564; Belgian, 16; Cuban, 1; Danish, 55; Dutch, 37; German, 60; Greek, 4; Finn, 2; French, 22; Italian, 72; Japanese, 47; Norwegian, 219; Panama, 1; Spanish, 51; Swedish, 40; Jugo-Slav., 2; Honduran, 8; Dom., 4; Czecho-Slav., 3; Peru, 3.

Statistics for the Port from Jan. 1 to June 30, 1925, showed 2,773 vessels arriving with gross tonnage of 9,412,556. Value of imports, foreign trade only, $117,015,648. In 1924 there were 1,887,198,928 gallons of oil imported and 74,849,643 gallons of gasoline. There were 135,787,492 gallons of lubricating oil shipped from this port in 1924.

The leading exports are grain, provisions, petroleum, tobacco, oil cake, lumber, tallow, hides, leather, shoes, cotton goods, machinery and coal.

RESIDENTIAL FEATURES

Philadelphia is a wide spread city, without the usual cramped living conditions of other large cities. Witin the city limits there are more than four hundred and twenty thousand individual dwellings, with over 40.6% owned by occupants.

Outside of the business districts and industrial sections, are to be found miles upon miles of neat, trim red-brick or stone dwellings, not flat and uninteresting in type, but laid out with a bit of ground and built with a certain artistry that is characteristic of the city.

Following are statistics on Philadelphia's housing accommodations:

Dwelling Houses

Brick or Stone	
One-story	992
Two-story	272,172
Three-story	133,577
Four-story	4,825
Five-story or over	204
	411,797
Frame Houses	
One-story	720
Two-story	7,712
Three-story or over	3,193
	11,607
Total number of dwelling houses 423,404.	
Hotels	348
Apartments & Tenements	3,906
Bldgs. used exclusively for business	8,486
Factories, mills, etc.	3,889
Office Bldgs.	868
Halls & Theatres	685
Unimproved parcels	44,602
All others including churches, hospitals, garages, schools, etc.	34,616
Total all kinds for assessment	520,804

Estimated cost of all construction for which permits were issued by the Bureau of Building Construction during 1924 set a new record, totalling $141,737,460, an increase of $19,086,525 over 1923, the previous high mark. Housing accommodations were increased by 10,017 dwellings of various types, 55 apartment houses and 4 rooming houses.

1924	15,500	24,234	141,737,460
1925 . 1st 6 mo.	7,429	14,632	86,014,515

RETAIL SHOPPING SECTION

City Hall, at the intersection of Broad Street, the main North and South Street and Market Street running East and West is the hub of Philadelphia.

Two railroads, the Pennsylvania and Reading Company, have their terminals at this hub. The city's main shopping, hotel and theatre district is located in this same section, so that either residents or visitors have ready access to these important phases of city life.

On Market Street are clustered the great department stores. Several of these stores have frontage on Chestnut Street, the next main street below Market. In addition to the railroads, subways, elevated and surface street car lines pour their tens of thousands into this shopping center, while the ferry boats plying the Delaware River deposit at the foot of Market and Chestnut Streets the flood of visitors from Southern New Jersey and the Atlantic Coast resorts.

The retail specialty shops are scattered along Chestnut and Walnut Streets, parallel streets just below Market and overflow into the various streets intersecting them.

West Philadelphia and North Philadelphia each have important shopping centers with department stores, specialty shops, hotels, theatres and restaurants on main thoroughfares.

TRADING AREA

Extending on the north to Easton, northeast to Trenton; south to Wilmington, ton, Delaware; on the east to Atlantic City and on the west to Harrisburg and Lancaster. Philadelphia's trading territory is the second largest and most densely populated in the United States. Within 10 miles of Philadelphia's City Hall there is a population of 2,078,961, to which may be added 281,010 people in the 20-mile zone and 514,780 people in the 40-mile zone. Philadelphia in a metropolitan sense has a population in its trading area of 4,936,913.

Wholesale Houses: Groceries, 99; meats, 35; florists, 14; fruits, 110; hardware, 43; dry goods, 85; butter and eggs, 25; shoes, 121; drugs, 92; cigars and tobacco, 228; confectionery, 184; electrical supplies, 95.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 212; commercial auto. agencies, 32; automobile accessories, 319; automobile tire agencies, 310; bakers, 811; total cigar stores and stands (including hotels), 3,482; confectioners (including hotel stands), 1,163; delicatessen, 628; dressmakers, 1,274; total druggists, 1,455; dry goods, 1,595; department stores, 33; electrical supplies, 2,759; florists, 293; fruits, 503; furniture, 216; furriers, 188; garages (public), 761; total grocers, 5,540 (chain, 2,400); hardware, 640; jewelry, 281; total meat markets, 1,978; men's furnishings, 726; men's clothing, 223; merchant tailors, 296; milliners, 453; opticians, 293; photographers, 192; pianos (and miscellaneous musical instruments), 99; radio supplies, 240; total restaurants (including hotels), 1,830; shoes, 638; sporting goods, 67; stationers, 108; women's apparel and specialty shops, 7,373.

The chain store field is dominated by three organizations with a total of approximately 2,400 stores. In the independent field, two co-operative buying associations have a membership of about 2,800 stores. To be fully efficient every merchandising campaign must take into consideration these factors and as they are naturally competitive, it is no small task to secure the support and co-operation of all.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,000.

Location: On the Schuylkill River 28 miles from Philadelphia, on the main line of Reading Railway.

Principal Industries: Iron and steel, bridges, boilers, knitting mills, silk mills, printing, cement blocks.

Manufacturing Establishments, 15. Leading firms: Phoenix Iron Co., Phoenix Bridge Co., Heine Boiler Co., Thomas F. Byrne Knitting Mills, Parsons & Balser.

Residential Features: Mostly one-and two-family houses; sections for foreigners working in industrial iron works. Fine residential section with houses valued at from $10,000 to $50,000.

Retail Shopping Section: Bridge, Main, Church and Gay Sts.

Trading Area: Radius of 10 miles.

Wholesale Houses: Meats, 2; fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 6; automobile accessories, 15; automobile tire agencies, 14; bakers, 5; cigar stores and stands (including hotels), 30; confectioners (including hotel stands), 16; delicatessen, 3; dressmakers, 15; druggists, 5; dry goods, 3; department stores, 2; electrical supplies, 7; florists, 2; fruits, 10; furniture, 3; garages (public), 6; grocers, 30; hardware, 2; jewelry, 4; meat markets, 6; men's furnishing, 10; men's clothing, 9; merchant tailors, 2; milliners, 8; opticians, 4; photographers, 4; pianos (and miscellaneous musical instruments), 2; radio supplies, 6; restaurants (including hotels), 11; shoes, 15; sporting goods, 2; stationers, 2; women's apparel, 12.

PITTSTON, PA.

(Luzerne County)

1920 Population, 18,497.

City and Suburban Estimate, 45,000.

Native Whites, 79.6%; **Foreign Born,** 20.4%; **Industrial Workers,** 28%; **English Reading,** 88%; **Families,** 3,619.

Schools: 9; **Number of Pupils,** 1,900.

Churches: 20.

Banks: 5; **Total Resources,** $15,900,000.

Theatres: 5; **Total number of seats,** 3,000.

Residential Features: Mostly one and two family houses.

Retail Shopping Section: 20 blocks.

Trading Area: Eight mile radius.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto, agencies, 5; automobile accessories, 16; automobile tire agencies, 11; bakers, 7; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 30; dressmakers, 48; druggists, 16; dry goods, 20; department stores, 4; electrical supplies, 9; florists, 8; fruits, 12; furniture, 15; furriers, 1; garages (public), 18; grocers, 261; hardware, 10; jewelry, 9; meat markets, 55; men's furnishings, 14; men's clothing, 19; merchant tailors, 2; milliners, 5; opticians, 3; photographers, 6; pianos (and miscellaneous musical instruments), 3; radio supplies, 7; restaurants (including hotels), 10; shoes, 19; sporting goods, 4; stationers, 2; women's apparel, 6.

POTTSTOWN, PA.

(Montgomery County)

1920 Population, 17,431.

City and Suburban Estimate, 35,000.

Native Whites, 87%; **Negroes,** 3%; **Foreign Born,** 10%; **Industrial Workers,** 75%; **English Reading,** 96%; **Families,** 4,125.

Schools: Public Grade, 21; High, 1; Junior High, 1; Parochial, 1. Number of Pupils, 3,006.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 3; Miscellaneous, 13.

Banks: National, 3; State, 1; Total Resources, $13,000,000.

Theatres: Legitimate, 1; Moving Pictures, 1.

Location: Forty miles northwest of Philadelphia on east bank of Schuylkill River, Reading R. R., and Pennsylvania R. R. Along the main outlet of anthracite coal fields.

Principal Industries: Fabrication of iron and steel, textiles.

Manufacturing Establishments: Leading firms: McClintic-Marshall Construction Co., Satterthwaite & Co., Eastern Steel Co., Sotter Bros., Spicer Mfg. Co., Light Mfg. Co.

Residential Features: Dwellings mainly 1 and 2 family houses. On a few streets there are houses built in rows. One large apartment house. In other cases, remodelled buildings in perhaps a dozen instances provide three to four suites.

Retail Shopping Section: High Street between Washington and Manatawny (5 blocks) and Hanover Street between Penna R. R. and King Street (4 blocks); Walnut Street in the 500 and 600 blocks contains several grocery and cigar stores.

Trading Area: 10 to 12 miles. Growing daily with the opening of concrete roads and bus lines. Royersford and Spring City (thriving boroughs on opposite sides of the Schuykill River and 8 miles southeast of Pottstown) are big feeders.

Wholesale Houses: Groceries, 2; meats, 2; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial auto agencies, 6; automobile accessories, 11; automobile tire agencies, 12; bakers, 7; cigar stores and stands (including hotels), 53; confectioners (including hotel stands, 4; delicatessen, 1; dressmakers, 8; druggists, 12; dry goods, 6; department stores, 5; electrical supplies, 7; florists, 3; fruits, 3; furniture, 5; furriers, 2; garages (public), 8; hardware, 7; jewelry, 4; meat markets, 13; men's furnishings, 9; men's clothing, 11; merchant tailors, 5; milliners, 8; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 3; restaurants (including hotels), 8; shoes, 13; sporting goods, 5; stationers, 6; women's apparel, 8.

PITTSBURGH, PA.

1920 Population, 588,343 (1924 est. 631,563).

City and Suburban Estimate: County, 1,185,-808. Metropolitan District, 1,500,000.

Native Whites, 429,995; **Negroes,** 37,725; **Foreign Born,** 120,266; **Families,** Metropolitan District, 311,094.

Schools: Public Grade, 145; High, 129; Junior High, 6; Parochial, 73; Number of Pupils, 130,457.

Churches: Baptist, 66; Christian Science, 3; Congregational, 4; Episcopal, 38; Hebrew, 26; Methodist, 68; Presbyterian, 89; Roman Catholic, 91; Miscellaneous, 111.

Banks: For the prosecution of the vast amount of business carried on in Pittsburgh a large capital is required and there is naturally a tremendous demand for banking facilities. National, 55; State, 41; Trust Cos., 35. Total Resources, $1,143,032,010. Savings Banks Deposits, $323,194,662.26. Per Capita Savings, $236.57. Per Capita Wealth, $2,580.41.

Theatres: Legitimate, 5; Moving Pictures, 134; Vaudeville, 8; Burlesque, 2; Miscellaneous, (Auditoriums, etc.), 196. Total Number of Seats: Syria Mosque, 3,800; Carnegie Hall, 2,000; Memorial Hall, 2,850.

Location: Pittsburgh is situated at the confluence of the Allegheny and Monongahela rivers, which form the Ohio river at this point. Fifty-four miles of harbor frontage. Heart of the Mississippi-Ohio-Missouri waterway system of over 8,000 miles of regularly navigable rivers. Surrounded within a night's ride by a population of 60,000,000 people. Railroad service by B. & O. R. R., Bessemer & Lake Erie R. R., Buffalo, Rochester & Pittsburgh Ry., Cleveland & Pittsburgh R. R., Erie & Pittsburgh R. R., Ligonier Valley R. R., Monongahela Ry., Pennsylvania R. R., Conemaugh Division, Buffalo & A. V., P. & L. E. R. R., P. C. C. & St. L. R. R., P. Ft. W. & C. Ry., Pittsburgh & W. Va., Western Allegheny R. R. In addition, electric interurban trolley passenger and freight service is furnished by Pittsburgh Railways Co., Pittsburgh, Mars & Butler Ry., Pittsburgh, Harmony & Butler Ry., West Penn Railways System. Street car companies operate over 2,000 modern street cars. To nearest larger city, by railroad, 10 hours; by auto, 15 hours.

Principal Industries: Pittsburgh has 259 different kinds of industries with a total of 3,410 establishments. The manufacture of iron, steel and their allied products, electrical equipment, glass, cork, coal, coke, aluminum, are Pittsburg's principal industries:

Textiles and textile products	11,514,400
Miscellaneous	49,405,400
Total	$1,883,477,400

Total wages paid, $283,413,400; average number employes, 186,359; total value of products, $1,883,477,400.

The proportion of output of the major industries in Pittsburgh and the immediate vicinity, in ratio to the entire output of the United States, is approximately as follows:

Steel	36%
Steel rails	45%
Steel cars	50%
Pipe and tubing	55%
Tin plate	60%
Pig iron	30%
Crucible steel	50%
Glass, flint and window	65%
Bituminous coal	25%
Coke	50%
Automobiles	49%
Hardware	47%
Agricultural implements	46%
Machinery	39%

Manufacturing Establishments: 3,410. Leading firms: National Fireproofing Co., Standard Sanitary Manufacturing Co., Westinghouse Electric Manufacturing Co., Pressed Steel Car Co., Jones & Laughlin Steel Co., American Sheet & Tin Plate Co., Koppers Company. W. & H. Walker Co., U. S. Glass Co., American Locomotive Co., Oil Well Supply Co., American Steel & Wire Co., Crucible Steel Co., A. M. Byers Co., Carnegie Steel Co. Pittsburgh is the 3d largest produce distributing center in the United States.

Special Information: Pittsburgh Bank Clearings for 1924 were—$8,036,969,343.95. Building permits issued in Pittsburgh during the year of 1924: 2,151 family dwellings for 2,751 families cost $18,294,396, a. 151 duplexes, b. 7 double duplexes, c. 88 double dwellings, d. 18 apartments, e. 24 rows; Total 288, leaving 1,863 single family dwellings. Cost comparisons in buildings;

1924—1st 7 months—$20,472,109

1925—1st 7 months—$26,517,554

The Per Capita wealth of Allegheny County based upon bank deposits, building & loan resources, real estate, and personal property assessments is $2,580.14.

Figures from March, 1925: 2,000,000,000 individual bank accounts in Pittsburgh.

In 5,000,000 acres of land there are 18,000 gas wells.

Pittsburgh has a sufficient quantity of Bituminous coal to last indefinitely.

The greater Pittsburgh territory produces 11,500,000 tons of coke annually and mines 228,000,000 tons of coal annually.

Residential Features: The City of Pittsburgh is well known for the beauty, elegance and abundance of its palatial homes. The Eastern extremes of Fifth Ave., Penn Ave., Highland Ave., Ridge Ave. and Irwin Ave., on the North Side, as well as the Squirrel Hill district and Sewickley Heights, suburban, are exclusively residential. Pittsburgh has 350 groups of apartments to which she can truly point with pride. The suburbs abound with the high priced homes and also medium priced homes for the middle class. There are estimated to be 138,274 dwellings in Pittsburgh Proper alone, and 247,225 in the Pittsburgh Metropolitan District.

Retail Shopping Section: Pittsburgh serves as a shopping center for 2,750,000 people and exceeded as a department store city only by New York and Chicago. Department store heads estimate that over 300,000 customers shop in an average day. The volume of business done by retail establishments is over $400,000,000 annually. These figures represent 18% of all the retail sales in Pennsylvania. Aside from the numerous neighborhood sections the larger retail area is as follows. Penn Ave., 10 blocks; Fifth Ave., 15 blocks; Stanwix St., 2 locks; Wood St., 6 blocks; Liberty Ave. 10 blocks; Fourth Ave., 3 blocks; Market St., 6 blocks; Smithfield St., 7 blocks; Ohio St. (North Side), 12 blocks; Federal St., 9 blocks.

The downtown stores occupy over 3,000,000 square feet of selling space and require many additional feet of warehouse space throughout the city.

Trading Area: The industrial, jobbing and distributing territory surrounding Pittsburgh, a 100 mile radius, embraces a wealthy region populated by approximately 5,400,000. Any populous point within this territory is reached in a railroad trip of less than three hours, and is covered in one day's postal or express delivery. Is easily reached in a one day drive by motor truck.

Wholesale Houses: Groceries, 66; meats, 5; fruits and produce, 247; hardware, 9; dry goods, 37; drugs, 17; automobiles, 11; electrical, 117; men's furnishings, 22.

Number of Retail Outlets for Nationally Advertised products: Passenger automobile agencies, 138; automobile accessories, 217; commercial auto agencies, 34; auto tire agencies, 60; bakers, 284; confectioners, 935; druggists, 524; cigar stores and stands, 290; delicatessen, 23; department stores, 43; florists, 136; garages (public), 354; paint and oil stores, 350; men's clothing, 64; photographers, 124; shoes, 186; dressmakers, 92; electrical supplies, 83; furriers, 30; jewelry, 191; hotels, 50; men's furnishings, 285; opticians, 58; furniture, 151; hardware, 165; hats and caps, 30; meat markets, 955; milliners, 261; radio supplies, 97; stationers, 55; dry goods, 174; fruits, 230; grocers, 5,023; stationery, 62; pool and billiard rooms, 500; merchant tailors, 486; pianos and mus. insts., 60; restaurants (hotels inc.), 2,100; women's apparel, 73; sporting goods, 14.

Miscellaneous Data: Average temperature, 52.6 degrees; average number of rainy days per twelve months, 153; most pleasant months, April, May, June, July, August, Sept., Oct.; doctors (medical, 811); (dentists, 588); (osteopaths, 38); number of wired houses, about 75,000; street car service; gas, natural; electric current, alternating; water, hard.

A Powerful Voice in a Great Market Place—

In a place where Prosperity bestows her gifts with a most lavish hand, strewing the land with plenty, and blessing all the people with means for the very highest average standard of living in that place,

READING AND BERKS COUNTY, PENNSYLVANIA,

the dominant newspaper is the

READING EAGLE

(Established 1867)

CIRCULATION 42,536 COPIES A DAY

(Sworn Average for October, 1925)

In this wonderful market, not excelled in buying power by any interior community in America, the *EAGLE* enters eighty per cent of the homes, and is the trusted and reliable newspaper, the powerful and compelling voice among the buyers of this great market, the third industrial city of the first industrial state.

The greater part of this rich, compact field, closely united by steam railways, electric railways and auto bus lines, would, in many parts of the country, be considered within one big city boundary.

It is covered fully by this one leading daily newspaper at a low cost, which makes the EAGLE'S territory a good field for try-out and all other advertising campaigns.

For sample copies, advertising rates, sworn circulation statements and any other information, write

Trading Area: Total retail zone 485,000 people. Within wholesale zone 1,423,695.

Wholesale Houses: Groceries, 24; meats, 10; fruits, 21; hardware, 7; dry goods, 7.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 50; automobile accessories, 60; automobile tire agencies, 16; bakers, 38; cigar stores and stands (including hotels), 53 (chain, 2); confectioners (including hotel stands), 111; delicatessen, 10; druggists, 50; dry goods, 35; department stores, 15; electrical supplies, 18; florists, 12; fruits, 27; furniture, 24; furriers, 7; garages (public), 43; grocers, 410; hardware, 17; jewelry, 32; meat markets, 103; men's furnishings, 25; merchant tailors, 64; milliners, 23; opticians, 16; photographers, 10; pianos (and miscellaneous musical instruments), 12; radio supplies, 4; restaurants (including hotels), 61; shoes, 27; sporting goods, 5; stationers, 4.

Miscellaneous Data: Average temperature, 60 degrees; average number of rainy days per twelve months, 55; most pleasant months, April, May, June, July, Aug., Sept.; doctors (medical, 230), (dentists, 124), (osteopaths, 111); gas, artificial; electric current, alternating and direct; water, soft.

WILLIAMSPORT, PA.

(Lycoming County)

1920 Population, 36,198.

City and Suburban Estimate, 50,000.

Native Whites, 91.2%; **Negroes,** 2.5%; **Foreign Born,** 6.3%; **Families,** 10,000.

Schools: Public Grade, 15; High, 1; Junior High, 1; Parochial, 2; Number of Pupils, 8,305. (Dickinson Seminary).

Churches: Baptist, 7; Christian Science, 1; Congregational, 1; Episcopal, 5; Hebrew, 2; Methodist, 12; Presbyterian, 5; Roman Catholic, 5; Miscellaneous, 24.

Banks: National, 4; State, 5; Total Resources, $7,568,118.

Theatres: Legitimate, 1; Moving Pictures, 5; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 7,200.

Location: In Central Penna. on west branch of Susquehanna River. P. R. R., N. Y. C., Reading & Susquehanna and N. Y. Ry. Fine state roads radiate in all directions, including Susquehanna Trail and Horseshoe Trail. Bus service makes Williamsport easily reached.

Principal Industries: Furniture, sole leather, rubber boots and shoes, silk, steel, machinery, motors, railroad shops, sandpapers.

Manufacturing Establishments, 80. Leading firms, Armour & Co., J. K. Mosser Co., U. S. Rubber Co., Lycoming Motors Corp., Crooks-Dittmar Co., U. S. Sand Paper Co., J. K. Rishel Furniture Co., Sweet Steel Co.

Special Information: Great diversity of industries, making business very uniform and depression in business seldom experienced.

Residential Features: Mainly one- and two-family houses, majority of people own their own houses.

Retail Shopping Section: Three blocks east on 3rd St. from Market Square and 3 blocks west from Market Square on West 3rd St. Four blocks west from Market St. on West 4th St. Intersecting 3rd and 4th Sts. the retail section runs for 3 blocks on both Pine and Market Sts.

Trading Area: Extends 25 miles west, 30 north, east and south. Some trade from greater distances because of fine roads and good train service.

Wholesale Houses: Groceries, 4; meats, 1; fruits, 1; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 24; automobile accessories, 11; automobile tire agencies, 14; bakers, 20; cigar stores and stands (including hotels), 29; confectioners (including hotel stands), 55; delicatessen, 1; dressmakers, 29; druggists, 25; dry goods, 17; department stores, 2; electrical supplies, 9; florists, 9; fruits, 9; furniture, 20; furriers, 3; garages (public), 38; grocers, 201; hardware, 9; jewelry, 18; meat markets, 39; men's furnishings, 10; men's clothing, 24; merchant tailors, 8; milliners, 18; opticians, 2; photographers, 9; pianos (and miscellaneous musical instruments), 11; restaurants (including hotels), 61; shoes, 20; sporting goods, 8; stationers, 10; women's apparel, 13.

YORK, PA.

(York County)

1920 Population, 47,512.

City and Suburban Estimate, 144,520.

Native Whites, 93.7%; **Negroes,** 2.8%; **Foreign Born,** 3.5%; **Industrial Workers, Women,** 29.3%; **Men,** 70.7%; **Families,** 11,692.

Schools: Public Grade, 24; High, 1; Parochial, 5; Number of Pupils, 8,396.

Churches: Baptist, 6; Christian Science, 1; Episcopal, 2; Hebrew, 4; Methodist, 6; Presbyterian, 5; Roman Catholic, 4; Miscellaneous, 54.

Banks: National, 8; State, 6; Total Resources, $33,653,431; Savings Bank Deposits Total, $12,739,033.

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 5,450.

Location: On P. R. R., M. & P. R. R., and the W. M. R. R. At intersection of Lincoln Highway and Susquehanna Trail, which cross at right angles in Centre Square. Interurban railway line to Dallastown (7 miles), Wrightsville (11), York Haven (10), Dover (7) and Hanover (18). Bus lines to Gettysburg, East Berlin and Shrewsbury.

Principal Industries: York has nine of the largest industrial plants that lead all others in volume of production in ice-making and refrigerating machinery, bank safes and vaults, water turbines, artificial teeth, wall paper, roofing paper, pretzels, commercial auto bodies and tire chains. Also agricultural machinery, pianos, hosiery, silk, furniture, pottery products, stained glass windows, lime, wire cloth, heating systems, candy, cement.

Manufacturing Establishments, 255. Leading firms, York Mfg. Co., York Safe & Lock Co., S. Morgan Smith Co., Dental Supply Co., Certainteed Products Corp., York Wall Paper Co., York Pretzel Baking Co., Martin-Parry Corp., American Chain Co.; 21,000 people work in York, with a payroll of $21,000,000.

Total value of yearly output of factories estimated at $87,000,000.

Special Information: York leads the U. S. in number of cigars produced, manufacturing one-eighth of all made in U. S. York county 14th in value of production in the entire U. S. Four city markets, farmers bring and sell produce themselves.

Residential Features: Practically all one-family houses, large proportion owned. Very few apartments. Residential sections in three parts of city. No foreign section.

Retail Shopping Section: From Centre Square west on Market St. 4 blocks: east on Market 2 blocks; 2 blocks north and south on George St. All trolley lines cross and transfer at Centre Square. Neighborhood groceries throughout city. No other important retail centres in city. Retail sections in West York and North York, adjoining boroughs usually considered in Greater York.

Trading Area: Covers roughly York County, 12 miles east, 10 miles north, 20 south and 14 miles to eastern limits of Adams Co., including indefinite portion of northern Maryland. Southwest corner includes Hanover, a town of 8,000, which is a small trading center whose people buy greatly in York. Area covered by electric lines and buses, radiating from York, and bus systems on main roads.

Wholesale Houses: Groceries, 6; fruits, 3; hardware, 2; dry goods, 3; miscellaneous lines, shoes, 1; confectioneries, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 21; commercial auto. agencies, 12; automobile accessories, 12; automobile tire agencies, 50; bakers, 11; cigar stores and stands (including hotels), 47; confectioners (including hotel stands), 24; delicatessen, 8; dressmakers, 75; druggists, 18; dry goods, 9; department stores, 4; electrical supplies, 18; florists, 7; fruits, 10; furniture, 30; furriers, 10; garages (public), 64; grocers, 180; hardware, 10; jewelry, 18; meat markets, 45; men's furnishings and men's clothing, 22; merchant tailors, 7; milliners, 19; opticians, 24; photographers, 8; pianos (and miscellaneous musical instruments), 7; radio supplies, 8; restaurants (including hotels), 37; shoes, 20; sporting goods, 6; stationers, 9; women's apparel, 21.

Standard Surveys of MANILA, PHILIPPINE IS.

MANILA, PHILIPPINE ISLANDS

1920 Population, 1918 Census, 285,306. 1924 (estimated), 300,000.

City and Suburban Estimate, 350,000.

Native Filipinos, 71%; **Chinese,** 21%; **American and European,** 8%; **Industrial Workers,** 20%; **English Reading,** 25%; **Families,** 56,780.

Schools: Public Grade, 95; High, 4; Junior High, none; Private Schools, 137; Catholic, 84; Protestant, 8; Non-Sectarian, 45.

Churches: Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 4; Presbyterian, 4; Roman Catholic, 50.

Banks: 9. Total Resources, $250,000,000; Savings Bank Reports—See attached bank report (A).

Theatres: Moving Pictures, 45; Vaudeville, 2. Total number of seats, 15,000.

Location: On the island of Luzon. Manila Bay at mouth of Pasig River. Steamship lines to all parts of Islands. Foreign steamers to and from all parts of world. Good auto roads throughout Luzon. Many auto bus lines. Manila Railroad Co. lines reach important points in Luzon, fed by auto bus lines.

Principal Industries: Rice milling. Hand embroideries, cocoanut oil and allied products, shoes and slippers, Manila hemp rope, sugar, alcohol, cigars and cigarettes, candies, etc.

Manufacturing Establishments: 8,354. Leading firms, Compania Gral. de Tobacas de Filipino, Ynchanster & Co., U. S. Shoe Co., Atlanta Gulf & Pacific Co., Insular Lumber Co., Cadwallader Gibson Co., Smith, Bell & Co., W. F. Stevenson & Co., Johnson & Pickett Rope Co., Philippine Refining Corporation, etc. Total value of yearly output of factories estimated at $356,094,433 (Census 1918).

Special Information: Center of Philippine commerce and principal seaport. Distributing center for Orient. More than one-half population of the earth live within a radius of 1,700 miles of Manila and more than three-quarters within a radius of 3,500 miles. Fine harbor and one of the finest piers in the world. Ample docking facilities.

Residential Features: Many fine residences. Congested districts thickly populated. Many wealthy Filipinos and Chinese have fine homes, ranging in value from $50,000 to $200,000. Few Americans and Europeans consider themselves permanent enough to warrant their investing in fine homes.

Retail Shopping Section: Widely scattered. Escolta is main rental street. Rasario is Chinese retail street. About 90% of retail business in hands of Chinese.

Trading Area: People come from all parts of Islands. Retail trading area probably includes points in Luzon along railroads and near-by points not on railroad but reached by bus lines.

BANK REPORT (A).

July 12, 1924.

1. Total loans, discounts and overdrafts, July 12, $145,742,888; July 5, $145,704,716.

Tobacco dealers	3,504
Opticians and dental surgeons	118
Photographers, engravers and professional appraisers or connoisseurs of tobacco and other domestic or foreign products	83

In York as Elsewhere

What Local Advertisers Do

is the best guide to national advertisers in sizing up any city.

THE YORK DISPATCH

prints each day the most local retail store advertisements. Many of these advertisements are exclusive. They get best results because, "In York most everyone reads the Dispatch."

You can get best results by concentrating in the paper "most everyone" reads—

THE YORK DISPATCH

YORK, PA.

York's Only Evening Paper

Market Surveys of RHODE ISLAND

ARCTIC, R. I.

(Providence County)

1920 Population, (est.) 4,500 (1925 est. 20,000 for Pawtuxet Valley).

Churches: Baptist, 3; Congregational, 1; Episcopal, 3; Methodist, 3; Roman Catholic, 7.

Banks: National, 1.

Theatres: Moving Pictures, 2. Total number of seats, about 3,500.

Location: Between Providence and Willimantic and between Providence and Hope. New York, New Haven & Hartford Railroad, two branches—one Providence and Hope, one Providence and Willimantic. The latter is one of the direct routes Boston to New York through Providence.

Principal Industries: Cotton manufacturing.

Manufacturing Establishments: Many mills. Leading firms, B. B. & R. Knight, Inc., Crompton Mills, Goddard Mills, Hope & Phenix, Coventry Cotton Mills, Warwick Mills, Livingston Worsted Co.

Special Information: Arctic is the center of several prosperous mill towns, so closely connected that it is hard to define the boundary lines of any of them. It is the shopping center of these towns. It is one of the state's four big textile centers.

Residential Features: There are some splendid residential sections in this community. Near shore resorts. Near Providence. On direct line to New York and Boston. Around several large factories there are well managed mill settlements.

Retail Shopping Section: About ½ mile on Washington, Main and Allen Streets.

Trading Area: Radius from 18 to 20 miles.

Wholesale Houses: Trade is served by Providence.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 17; commercial auto. agencies, 9; automobile accessories, 1; automobile tire agencies, 8; bakers, 7; cigar stores and stands (including hotels), 14; confectioners (including hotel stands), 19; dressmakers, 13; druggists, 9; dry goods, 9; department stores, 1; electrical supplies, 4; florists, 2; fruits, 8; furniture, 5; furriers, 4; garages (public), 12; grocers, 32; hardware, 7; jewelry, 7; meat markets, 17; men's furnishings, 7; men's clothing, 7; merchant tailors, 5; milliners, 10; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 5; radio supplies, 4; restaurants (including hotels), 7; shoes, 12; sporting goods, 3; stationers, 7; women's apparel, 6.

NEWPORT, R. I.

(Newport County)

1920 Population, 30,255.

City and Suburban Estimate, 75,000.

Native Whites, 74.8%; **Negroes,** 7%; **Foreign Born,** 18.2%; **Industrial Workers,** 6.5%; **English Reading,** 95%; **Families,** 6,800.

Schools: Public Grade, 13; High, 2; Parochial, 4; Number of Pupils, 6,100.

Churches: Baptist, 4; Christian Science, 1; Congregational, 2; Episcopal, 4; Hebrew, 2; Methodist, 3; Presbyterian, 1; Roman Catholic, 3; Miscellaneous, 4.

Banks: National, 3; State, 3; Total Resources, $30,000,000. Savings Bank Deposits Total, $17,783,854.

Theatres: Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 14. Total number of seats, 8,200.

Location: At entrance to Narragansett Bay, N. Y., N. H. & H. R. R. Co. and New England Steamship Co., the former giving direct and quick transportation facilities with Boston, and the latter overnight transportation facilities with New York City. Nearest larger city is 50 minutes by auto, 1½ hours by trolley, and 50 minutes by railroad.

Principal Industries: Torpedo manufacture (Government), chewing gum, cigars, cartoning machinery.

Manufacturing Establishments: 6. Leading firms: U. S. Naval Torpedo Station, New England Steamship Co., repair shops, Listerated Gum Corp., American Cigar Co., Cartoning Machinery Corp., Rueckert Mfg. Co. Total value of yearly output of factories estimated at $596,000,000.

Special Information: Newport is favored by a practically unlimited anchorage in deep and perfectly sheltered harbor. It is not a manufacturing city, but because of its natural beauties and healthful climate it is the summer headquarters for many of the wealthiest families in the country.

Residential Features: Mostly one-family houses. Private homes predominate. One of the finest private residential sections in the world is located in the southeastern part of the city.

Retail Shopping Section: Extends along Thames St. and for about half the length of Broadway, with a small section on Bellevue Ave. There are several smaller "neighborhood" sections with the usual grocery, confectionery, meat and small shops.

Trading Area: Extends about three miles west and east and about eight miles north.

Wholesale Houses: Groceries, 1; meats, 2; Miscellaneous lines, confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 19; commercial auto agencies, 6; automobile accessories, 32; automobile tire agencies, 15; bakers, 16; cigar stores and stands (including hotels), 33; confectioners (including hotel stands), 19; delicatessen, 12; dressmakers, 47; druggists, 14; dry goods, 21; department stores, 5; electrical supplies, 11; florists, 16; fruits, 125; furniture, 19; furriers, 5; garages (public), 35; grocers, 126 (chain, 1); hardware, 11; jewelry, 12; meat markets, 61; men's furnishings, 16; men's clothing, 17; merchant tailors, 39; milliners, 17; opticians, 6; photographers, 11; pianos (and miscellaneous musical instruments), 6; radio supplies, 12; restaurants (including hotels), 58; shoes, 18; sporting goods, 10; stationers, 12; women's apparel, 37.

Miscellaneous Data: Average temperature, 49.5 degrees; average number of rainy days per twelve months, 80; most pleasant months, May, July, Aug., Sept., Oct.; doctors (medical, 30), (dentists, 28), (osteopaths, 2); number of wired houses, 4,000; street car service; gas, artificial; electric current, alternating; water, soft.

PAWTUCKET, R. I.

(INCLUDING CENTRAL FALLS)

(Providence County)

1920 Population, 64,248. (1925 est., 69,760.) Central Falls, 24,174. (1925 est., 25,403.)

City and Suburban Estimate, 150,000.

Native Whites, 66.7%; **Negroes,** 0.5%; **Foreign Born,** 32.7%; **Families** (both cities), 21,628.

Schools: Public Grade, 21; High, 1; Junior High, 1; Parochial, 6; Number of Pupils, 8,743.

Churches: Baptist, 5; Congregational, 5; Episcopal, 2; Hebrew, 1; Methodist, 3; Roman Catholic, 8; Miscellaneous, 10.

Banks: State, 3; Savings Bank, 1; Morris Plan, 1.

Theatres: Legitimate, 1; Moving Pictures, 6; Vaudeville, 1; Burlesque, 1; Miscellaneous (Auditoriums, etc.), 18.

Location: New York, New Haven & Hartford R. R. Co., Blackstone Valley Transportation Co. Trolley lines from the entire territory come to a point at Main St. Square. Nearest larger city is 15 minutes by auto, 25 minutes by trolley, and 15 minutes by railroad.

Principal Industries: Textile industry, cotton machinery, bolts and nuts, machinery, weaving, gymnasium appartus.

Manufacturing Establishments: Leading firms: J. & P. Coats, Inc., Manville-Jenks Co., Royal Weaving Co., Lorraine Mfg. Co., Sayles Finishing Plants, Narragansett Machine Co., Wm. H. Haskell Mfg. Co., Phillips Wire Co., Potter & Johnston, Seekonk Lace Co.

Special Information: This section is notably one of the large cotton textile centers. However, it is not dependent on this alone, as about 40% of the manufacturing is in other lines. As a result of this diversification of industries, business conditions in this city are generally good.

Residential Features: Largely two and three-family houses with a very few apartment houses. In a few sections only do one-family houses and cottages predominate. Pawtucket is a typical industrial city.

Retail Shopping Section: Extends from Main Street Square, which is the trolley transfer, centering out in both directions on Main St., No. Main St., East Ave. and Broad St., making a total of about 15 blocks. The larger stores are concentrated in space of about six blocks.

Trading Area: Extends to the west to include No. Providence, 4 miles, 7 miles to the north as far as Manville in Rhode Island, and 15 miles to the northeast to Plainsville in Massachusetts, including 11 miles to the city of Attleboro and the towns of North and South Attleboro, in Mass., and 2 miles to the east to include Seekonk.

Wholesale Houses: Groceries, 2; meats, 3; hardware, 1; Miscellaneous lines, 2 confectionery, 2 tobacco.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 23; commercial auto. agencies, 5; automobiles accessories, 23; automobile tire agencies, 17; bakers, 44; cigar stores and stands (including hotels), 16 (chain, 2); confectioners (including hotel stands), 15; delicatessen, 2; dressmakers, 111; druggists, 56 (chain, 2); dry goods, 52; department stores, 5; electrical supplies, 11; florists, 12; fruits, 18; furniture, 31; furriers, 3; garages (public), 4; grocers, 319 (chain, 70); hardware, 8; jewelry, 16; meat markets, see grocers; men's furnishings, 13; men's clothing, 8; tailors, 57; milliners, 37; opticians, 5; photographers, 17; pianos (and miscellaneous musical instruments), 6; radio supplies, 11; restaurants (including hotels), 79 (chain, 1); shoes, 27; sporting goods, 1; stationers, 2; women's apparel, 13.

Miscellaneous Data: Average temperature, 50 degrees; average number of rainy days per twelve months, 126; most pleasant months, August, September, October; doctors (medical, 65), (dentists, 53), (osteopaths, 1); number of wired houses, 20,000; street car service; gas, artificial; electric current, alternating; water, hard.

Location: Northwestern part of South Carolina, top of Piedmont Plateau and within sight of the Blue Ridge Mts. Distances—mail hours to New York, 19:43; New Orleans, 21:25; Norfolk, 18:35; Charleston, 11:55; Jacksonville, 13:10; and Atlanta, 5:30. is served by Southern, (main line doubletracked from Washington to Atlanta); C. C. and O.; C. and W. C. (A. C. L.) and Piedmont and Northern Railways. Electric street railways. Excellent bus service in city and to all outside points.

Principal Industries: Textile manufacturing, farming, railway repair shops, loom, reed and harness works, sizing compounds, iron and steel works, lumber and fertilizer plants, broom works, oils, flour and grist mills, bread and cake bakeries, candy, drug, leather and harness, cement pipe and cigar industries, creosoting plant.

Manufacturing Establishments: Southern railway repair shops, Andrews Looms, Reed and Harness Works, Geilfuss Bakery, P. S. Minus, cement pipe; Spartan Grain and Mills Co., Beaumont, Arkwright, Spartan, Crescent, Star Hosiery, Saxon textile mills. Piedmont and Standard Iron and Steel Works, Pickens Roofing Co., Spartanburg Underwear Mill; Hygeia Ice and Fuel Co., Hallet Ice and Coal Co.; Muckenfuss Mfg. Co., Spartanburg Fertilizer Co., Taylor-Colquitt Co., creosoting plant. Total value of products manufactured annually about $60,000,000.

Residential Features: Mostly all one family houses; eight apartment houses with one to six room apartments. Latest in construction and comfort.

Retail Shopping Section: Extends from intersection of Main and Church sts. (heart of business section) five blocks on East Main st.; four blocks West Main st.; four North Church st.; three South Church st.; six blocks Liberty st. (parallel with Church); five blocks, Broad, two Commerce, five Wofford, which parallels Main st.; several outlying sections and also around textile mills general merchandise stores.

Trading Area: About 43 miles northeast and 15 miles other directions.

Wholesale Houses: Groceries, 12; meats, 3; hardware, 4; dry goods, 2; candy, 4; cigars, 8; drugs, 1; electrical supplies, 3; furniture, 1.

Number of Retail Outlets for Nationally Advertised Products: Automobiles, 14; commercial auto trucks, 8; auto accessories, 8; auto tires, 10; cigar stores and stands (including hotels), 80 (chain, 1); confectioners, 180; drug stores, 10 (chain, 1); delicatessen, 2; dressmakers, 15; dry goods, 20; department stores, 8; electrical supplies, 10; florists, 3; fruits, 130; furniture, 14; grocers, 180 (chain, 3); hardware, 8; jewelry, 10; garages (public), 18; meat markets, 30; men's furnishings, 18; men's clothing, 15; merchant tailors, 4; milliners, 8; opticians, 10; photographers, 8; pianos (and miscellaneous musical instruments), 5; radio supplies, 10; restaurants, (including hotels), 19; shoes, 9; sporting goods, 6; stationers, 8; women's apparel, 18; printing, 5.

Miscellaneous Data: Average temperature, 60.4 degrees; average number of rainy days per twelve months, 60; most pleasant months, Mar. 1st to Nov. 1st; doctors (medical, 30), (dentists, 15), (osteopaths, 5); number of wired houses, 78%; street car service; gas, artificial; electric current, alternating; water, soft.

SUMTER, S. C.

(Sumter County)

1920 Population, 9,508.

City and Suburban Estimate, 13,000.

Native Whites, 59%; **Negroes,** 40%; **Foreign Born,** 1%; **Industrial Workers,** 8%; **English Reading,** 100%; **Families,** 2,000.

Schools: Public Grade, 3 W., 2 N., High, 2 W., 1 N., Parochial, 1 W., 2 N.; Number of Pupils, 4,097.

Churches: Baptist, 3 W., 6 N., Christian Scinece, 1; Episcopal, 1 W., 1 N.; Hebrew, 1; Methodist, 2 W., 4 N.; Presbyterian, 1 W., 2 N., Roman Catholic, 1.

Banks: National, 4; State, 1; Total Resources, $8,866,154.66, One trust company. Saving Bank Deposits Total, $3,601,667.80.

Theatres: Legitimate, 1; Moving Pictures, 2; Total number of seats, 1,721.

Location: In the upper coastal plains. On the A. C. L. Ry., Atlanta and Birmingham Div.; Southern Ry. and Seaboard Air Line and N. W. of S. C. Have nine lines radiating to several eastern points and principal seaports in southeast.

Principal Industries: Lumber, hardwood, veneer, caskets, wardrobe garment hangers, radio receiving sets, saw mill machinery, machine die castings, canned goods, butter, ice cream, sash, door, flooring, blinds, cotton oil, cigars, cotton trouserings, fertilizer, flour, feed, meal, face brick, automatic sewer flushers, hardwood dimension materials.

Manufacturing Establishments: 60. Leading firms, Korn Co., C. L. Williams Veneer Co., Sumter Brick Works, Sumter Machinery Co., Witherspoon Bros. & Co., London Mills, Sumter Radio Mfg. Corp., Sumter Veneer Cabinet Co., Sumter Planing Mills, Sumter Packing Co. (Cannery), 2 creameries.

Special Information: One of the leading pine and hardwood lumber centers in the southeast. Its R. R. Service and system of ten diverging hard surface highways makes it an excellent distributing point. Industrial survey by Lockwood, Green & Co., industrial engineers, develop the fact that there is a surplus of female labor for industries. The retail and wholesale trade territory is unusually large for a city of its size.

Residential Features: Practically all individual homes. Limited section devoted to homes for laboring classes. Negroes segregated. City mostly paved, sanitary and storm sewage. Parks, playgrounds, bathing and picnic resorts, country club and easily accessible to seashore and mountain resorts.

Retail Shopping Section: Main street (4 blocks), Liberty street (3 blocks), Liberty and Main intersection is center of city. Retail district is split in center by intersection of these streets.

Trading Area: The normal retail trade territory is roughly a radius of 20 to 25 miles. Considerable volume of business comes from points as much as 35 to 40 miles distant.

Wholesale Houses: Groceries, 7; meats, 1; fruits, 1; hardware, 1; Miscellaneous Lines, drugs, 1; mill supplies, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto agencies, 1; automobile accessories, 8; automobile tire agencies, 6; bakers, 3; cigar stores and stands (including hotels), 13; confectioners (including hotel stands), 7; delicatessen, 1; dressmakers, 5; druggists, 10; dry goods, 11; department stores, 4; electrical supplies, 1; florists, 2; fruits, 4; furniture, 5; garages (public), 3; grocers, 44; hardware, 4; jewelry, 8; meat markets, 11; men's furnishings, 8; men's clothing, 8; merchant tailors, 2; milliners, 4; opticians, 4; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 1; restaurants (including hotels), 8; shoes, 4; sporting goods, 3; stationers, 2; women's apparel, 2.

Standard Surveys of SOUTH DAKOTA

ABERDEEN, S. DAK.

(Brown County)

1920 Population, 14,537.

Native Whites, in 1920 12,335; **Negroes,** 21; **Foreign Born,** 2,171; **Industrial Workers,** 700; **English Reading,** 98.6%; **Families,** 3,239.

Schools: Public Grade, 6; High, 1; Junior High, 1; Parochial, 2; Number of Pupils, 5,000.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 10.

Theatres: Legitimate, 1; Moving Pictures, 5; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Capacity, 400.

Location: Aberdeen is county seat of Brown County. Situated in famous James River Valley, 707 miles from Chicago, 380 miles from Duluth, 286 miles from the Twin Cities, 265 miles from Sioux City, 183 miles from Sioux Falls, 107 miles west of the Minn. State Line, 98 miles east of Missouri River, 185 miles from Fargo, and 35 miles north of N. Dakota state line. Four trunk lines serve Aberdeen—C. M. & St. P., C. & N. W., Gt. Northern and M. & St. L., with 9 lines radius in all directions. On transcontinental line of C. M. & St. L. It is an important division point of that road where 700 people are employed with annual payroll of 1,125,000. 22 passenger trains daily give Aberdeen connections with important points north, south, east and west. Aberdeen is on the famous Yellowstone Trail, which extends from Plymouth Rock to Puget Sound. It is also on the Sunshine Highway from Canada to the Gulf. These two highways give Aberdeen tourist travel of approximately 60,000 every year.

Principal Industries: Candy factory, railroad shops, publishing, 6 creameries, metal products, road machinery, jobbing groceries, fruits, hardware, drugs, bakeries, 3 ice cream factories, farm machinery, automobile accessories.

Manufacturing Establishments: 57. Leading firms: Milwaukee R. R. shops, Ward-Owsley Candy Factory, Gilbert Mfg. Co. (road machinery). Total value of yearly output of factories estimated at $6,055,139 in 1919.

Special Information: Location and railroad facilities makes it a center (trading) for the northern half of So. Dakota. In 1922 Brown County produced 2,710,000 bu. of matured corn. The same year there were 2,995,000 lbs. of butter manufactured in Brown County.

Residential Features: Private homes predominate. 15 miles of paved streets. Fine residential section.

Retail Shopping Section: Main Street principal business street, especially for about 15 to 20 blocks, from the Milwaukee depot on Railroad Ave. and Main St. to the M. & S. L. depot on Main St. and 12th Ave. All along this distance, particularly from R. R. Ave. to about 7th Ave. there are stores and shops in the cross avenues for 1 or 2 blocks east and west.

Trading Area: 100 miles in all directions. Auto trails from all directions make travel easy.

Wholesale Houses: Groceries, 2 meats, 2; fruits, 3; hardware, 1; Miscellaneous lines, approx. 60.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 14; automobile accessories, 17; automobile tire agencies, 12; bakers, 9; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 13; delicatessen, 2; dressmakers, 1 (school); druggists, 8; dry goods, 9; department stores, 4; electrical supplies, 5; florists, 3; fruits, 55; furniture, 5; furriers, 2; garages (public), 10; grocers, 55; hardware, 6; jewelry, 4; meat markets, 36; men's furnishings, 12; men's clothing, 11; merchant tailors, 6; milliners, 6; opticians, 4; photographers, 5; pianos (and miscellaneous musical instruments), 5; radio supplies, 2; restaurants (including hotels), 30; shoes, 7; sporting goods, 10; stationers, 6; women's apparel, 8 (including dept. stores).

SOUTH DAKOTA (Cont'd)

DEADWOOD, S. DAK.

(Lawrence County)

1920 Population, 2,403.

City and Suburban Estimate, 75,000.

Native Whites, 85%; **Negroes,** 1%; **Foreign Born,** 14%.

Schools: Public Grade, 3; High, 1; Parochial, 1; Number of Pupils, 425.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1.

Banks: National, 1; Total Resources, $1,175,000. Savings Bank Deposits Total, $1,228,846.

Theatres: Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 6—City Auditorium, Masonic Auditorium, Elks Auditorium, Odd Fellows, Eagles, Firemen.

Location: Terminal of Chicago & Northwestern and Chicago, Burlington & Quincy Railroads. In the heart of the Black Hills of South Dakota. More than 3,500 gold miners and gold mill men are employed in the county at from $4.50 to $7.00 per day.

Principal Industries: Principal industries are gold mining and milling, with rich agricultural district surrounding; tourists' Mecca. Total value of yearly output of mines and mills, $7,000,000.

HURON, S. DAK.

(Beadle County)

1920 Population, 8,310. (1925 State Census, 10,196.)

City and Suburban Estimate, (1925) 10,259.

Native Whites, 85%; **Foreign Born,** 15%; **Industrial Workers,** 50%; **English Reading,** 90%; **Families,** 3,359.

Schools: Public Grade, 8; High, 1; Junior High, 1; Number of Pupils, 2,229.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 1; Total Resources, $3,145,168.51 (as per called, Sept. 28, 1925). Deposits total for Huron, $2,900,000; for Beadle County, 6½ millions.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 2—one seats 2,300. Total number of seats, 3,600—4,000.

Location: Chicago Northwestern, Great Northern. Most accessible city in South Dakota. Five railroad avenues out and in. Excellent mail service. Nearest larger city 5 hours distant by automobile and 6 hours by railroad.

Principal Industries: Armour Packing Co., Swift & Co., Northwestern Public Service, Star Sash & Door, Huron Wholesale Grocery, Moirn, Colton & Co., Division Office of Chicago & Northwestern, State Headquarters of Standard Oil of Indiana, Reese Elevators, Scruby Mills, Mayflower Flour Mills, Huron Mills.

Special Information: Location of Huron College, Presbyterian Endowment, 1¼ million, enrollment, 450. Seat of South Dakota State Fair. Best day's attendance, 79,000, average, 60,000 per day for week.

Residential Features: Mostly one-family houses.

Retail Shopping Section: 3 blocks on 3rd St. and 4 blocks on Dakota Ave., 2 blocks on 4th St., 2 blocks on Wisconsin Ave., 3 blocks on 2nd St.

Trading Area: 30 miles south and southwest, 60 miles west, 35 miles northwest and north 40 miles northeast and east.

Wholesale Houses: Groceries, 3; meats, 3; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 14; commercial auto. agencies, 5; automobile accessories, 15; automobile tire agencies, 5; bakers, 3; cigar stores and stands (including hotels), 22; (chain, 1); confectioners (including hotel stands), 14; delicatessen, 6; dressmakers, 6; druggists, 4; dry goods, 4; department stores, 3; electrical supplies, 3; florists, 1; fruits, 3; furniture, 2; furriers, 1; garages (public), 9; grocers, 25; hardware, 3; jewelry, 4; meat markets, 3; men's furnishings, 6; men's clothing, 5; merchant tailors, 4; milliners, 4; opticians, 5; photographers, 2; pianos (and miscellaneous musical instruments), 2; restaurants (including hotels), 6; shoes, 7; sporting goods, 2; stationers, 3; women's apparel, 7.

Miscellaneous Data: Number of wired houses, 2,900; gas, artificial; electric current alternating; water, soft.

LEAD, S. DAK.

(Lawrence County)

1920 Population, 5,013. (1925—6,810.)

City and Suburban Estimate, 8,000.

Schools: Public Grade, 5; High, 1; Parochial, 1; Number of Pupils, 1,600.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Roman Catholic, 1; Miscellaneous—Augustana Lutheran; Bethel Lutheran, 1.

Banks: National, 1; State, 1; Total Resources, $3,286,224.13.

Theatres: Legitimate, 1; Moving Pictures, 2. Total number of seats, 1,500.

Location: Northern Black Hills. Rich valleys for farming and stockraising. C. & N. W. Ry. and C. B. & Q. Ry. lines serve the city and community. Besides, auto truck service. To nearest larger city is 20 hours by auto and 18 hours by railroad.

Principal Industries: Gold mining. The Homestake mine is the largest free milling gold mine in the world and employs about 2,500 men. Also valuable farmlands in valleys. Extensive dairying and stockraising.

Special Information: Lead is located in one of the scenic beauty spots of the Black Hills, and therefore attracts large numbers of tourists throughout the summer season.

Retail Shopping Section: Covers not only Lead but several smaller mining camps and agricultural communities. Also numerous tourists camps.

Trading Area: Twenty-five miles to the west and twenty miles north and east.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; automobile accessories, 5; automobile tire agencies, 5; bakers, 3; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 7; dressmakers, 3; druggists, 3; dry goods, 4; department stores, 2; electrical supplies, 2; florists, 1; fruits, 7; furniture, 2; garages (public), 6; grocers, 10; hardware, 3; jewelry, 4; meat markets, 5; men's furnishing, 5; men's clothing, 5; merchant tailors, 2; milliners, 2; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 6; shoes, 5; sporting goods, 6; stationers, 3; women's apparel, 5.

Miscellaneous Data: Most pleasant months, summer; doctors (medical, 7), (dentists, 4); number of wired houses, 1,500; electric current, alternating; water, soft.

MADISON, S. DAK.

(Lake County)

1920 Population, 4,144. (1925—4,320.)

City and Suburban Estimate, 6,000.

Native Whites, 95%; **Foreign Born,** 5%; **Industrial Workers,** 2%; **English Reading,** 100%; **Families,** 1,000.

Schools: Public Grade, 8; High, 4; Junior High, 2; Number of Pupils, 1,200.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1.

Banks: National, 1; State, 2; Total Resources, $2,000,000.

Theatres: Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 1,500.

Location: C. M. and St. P. Ry. Nearest larger city is 2 hours distant by automobile, 50 minutes by trolley and 2 hours by railroad.

Principal Industries: Agricultural center.

Manufacturing Establishments: 2. Leading firms: Hoseguard Creamery, Hoseguard factory.

Residential Features: Mostly one-family houses.

Retail Shopping Section: Egan Ave. 4 blocks, Center St. 2 blocks.

Trading Area: Radius of 20 to 35 miles.

Wholesale Houses: Groceries, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; automobile accessories, 6; automobile tire agencies, 4; bakers, 2; cigar stores and stands (including hotels), 12; confectioners (including hotel stands), 3; delicatessen, 2; dressmakers, 2; druggists, 4 (chain, 1); dry goods, 4; department stores, 3; electrical supplies, 1; florists, 2; fruits, 4; furniture, 3; garages (public), 2; grocers, 12 (chain, 1); hardware, 3; jewelry, 3; meat markets, 3; men's furnishings, 4; men's clothing, 4; merchant tailors, 1; milliners, 2; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 2; restaurants (including hotels), 7; shoes, 4; sporting goods, 2; stationers, 4; women's apparel, 4.

MITCHELL, S. DAK.

(Davison County)

1920 Population, 8,478.

City and Suburban Estimate, 65,000.

Native Whites, 90%; **Foreign Born,** 10%; **English Reading,** 98%; **Families,** 2,000.

Schools: Public Grade, 5; High, 1; Junior High, 1; Parochial, 1.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 8.

Banks: National, 1; State, 1; Total Resources, $4,850,949.77; Savings Bank Deposits Total, $2,919,960.

Theatres: Legitimate, 1; Moving Pictures, 3; Corn Palace Auditorium. Total number of seats, 6,500.

Location: Division point on Chicago, Milwaukee & St. Paul R. R. Western terminus of Chicago, Omaha & St. Paul R. R.

Principal Industries: No particular industries. Big agricultural trading center.

Special Information: Location of city makes it the retail trading center for an area, extending 70 miles west, 50 miles north, south and east.

Residential Features: Mostly one and two-family houses, a very large percentage owned by the occupants.

Retail Shopping Section: Extends four blocks on Main Street, two blocks east on East Third Avenue, two blocks on Lawler Street, one block east and west on Second Avenue and on First Avenue.

Trading Area: 70 miles west, 50 miles north, east and south. Other seasonable business comes from the west up to 250 to 300 miles because Mitchell is the nearest large town. Good roads and the large auto ownership also contributes to the bringing up of trade from long distances.

Wholesale Houses: Groceries, 2; fruits, 2; Miscellaneous lines—automobiles accessories.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; automobile accessories, 3; automobile tire agencies, 7; bakers, 4; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 4; delicatessen, 1; dressmakers, 5; druggists, 5; dry goods, 6; department stores, 3; electrical supplies, 3; florists, 2; fruit, 5; furniture, 2; furriers, 1; garages (public), 15 grocers, 30; hardware, 4; jewelry, 4; meat markets, 10; men's furnishings, 1; men's clothing, 5; merchant tailors, 5; milliners, 7; opticans, 4; photographers, 6; pianos (and miscellaneous musical instruments), 3; radio supplies, 3; restaurants (including hotels), 13; shoes, 6; sporting goods, 2; stationers, 3; women's apparel, 2.

PIERRE, S. DAK.

(Hughes County)

1920 Population, 3,209. (1925—3,667.)

City and Suburban Estimate, 3,500.

Native Whites, 95%; **Negroes,** .009%; **Foreign Born,** 4.991%; **Industrial Workers,** 5%; **English Reading,** 100%; **Families,** 500 (estimated).

Schools: Public Grade, 735; High, 287. Total number of seats, 2,500.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Roman Catholic, 1.

Banks: National, 2; State, 1; Total Resources, $3,750,000.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1 (4 lodge halls). Total number of seats, 12,000.

Location: Exact center of Southern Dakota, on C. & M. W. Ry., on north bank of Missouri River. Is on Black and Yellow Trail. Fine graveled road from Chicago to Yellowstone Park. Is capital city of State. Nearest larger city is 1 hour by auto and 1½ hour by railroad.

Principal Industies: Farming and cattle country. State Capitol and R. R. have largest payroll. No other large manufacturing concerns.

Residential Features: Mostly small houses. No big, modern apartment houses. Considerable building this year of small cottages, twenty new homes, about $5,000 to $8,000 each.

Retail Shopping Section: Pierce Street, four blocks Dakota Avenue, three blocks; Capitol Avenue, two blocks.

Trading Area: 90 miles radius.

Wholesale Houses: Groceries, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial automobile agencies, 6; automobile accessories, 8; automobile tire agencies, 9; bakers, 2; cigar stores and stands (including hotels), 17; confectioners (including hotel stands), 5; dressmakers, 4; druggists, 3; dry goods, 4; department stores, 3; electrical supplies, 4; florists, 1; fruits, 7; furniture, 2; garages (public), 5; grocers, 6; hardware, 4; jewelry, 2; meat markets, 2; men's furnishings, 4; men's clothing, 4; milliners, 2; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 3; restaurants (including hotels), 9; shoes, 4; sporting goods, 4; stationers, 3; women's apparel, 4.

Miscellaneous Data: Average temperature, 75 degrees; average number of rainy days per twelve months, 30; most pleasant months, April, May, June, July, Sept., Oct., November; doctors (medical, 4), (dentists, 2), (osteopaths, 1); gas, natural; electric current, alternating; water, soft.

RAPID CITY, S. DAK.

(Pennington County)

1920 Population, 5,777. (1925—7,500.)

City and Suburban Estimate, 50,000.

Native Whites, 95%; **Foreign Born,** 5%; **Industrial Workers,** 25½; **English Reading,** 99%; **Families,** 1,600.

Schools: Public Grade, 5; High, 1; Junior High, 1; Parochial, 1; State School of Mines, and State Indian School; Number of Pupils, 2,819.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 10.

Banks: National, 1; State, 1; Total Resources, $5,000,000; Savings Bank Deposits, $4,000,000; $280 savings deposits.

Theatres: Legitimate, 1; Moving Pictures, 3; Total number of seats, 2,500.

Location: Railroads enter Rapid City from five directions: C. M. & St. P. from Chicago; Two, C. & N. W. lines from Chicago via Omaha and Twin Cities; locally owned Black Hills & Western connects Rapid City with the Burlington South, East and West and Northwest. Is the junction of two main state highways and of all railroads entering the Black Hills from the East. County highways, 3; state highways, 4; national highways, 5. Nearest larger city, 12 hours by auto or railroad.

Principal Industries: Diversified group of industries. These include mining, lumbering, packing, alfalfa seed distribution, hay shipping, cement and stucco mills, stock shipping and dairying, flour milling, cattle and sheep raising.

Residential Features: Pricipally one-family houses, generally first class. Few apartment houses. Residential districts uniformly attractive. Out of the 1,500 homes in Rapid City, we estimate 80% are owned by the occupants, and not more than 50% so owned carry any encumbrance.

Retail Shopping Section: Ten lineal blocks of retail section.

Trading Area: Fifty to 75 miles east; 60 miles west; 30 miles north, and a fan-shaped territory up to 125 miles of inland territory northeast. People come from much greater distances, however, up to 150 miles southeast and from all towns in a radius of 100 miles.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 2; hardware, 1; tires, 1; lumber, 5; mineral products, 1; oil, 6; biscuits, 2; machinery, 2.

Theatres: Legitimate, 1; Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 1,800 in auditorium.

Location: Southern Railway and Norfolk & Western. Bus service to Bluefield, W. Va.; Radford, Va.; Goldfield, Johnson City, Tenn.; Kingsport, Tenn.; and surrounding towns within 75 miles.

Principal Industries: Paper, leather, lumber, iron, hosiery, clothing, furniture, drugs, and various manufactures.

Manufacturing Establishments: 57. Leading firms: Lincoln Furniture Mfg. Co., Columbia Paper Co., Shieren & Co., Enterprise Wheel Corp., S. E. Massengill Drug Co., Bristol Door & Lumber Co., Bristol Stove and Foundry Co., Central Glass Co., Dominion Veneer Co.

Residential Features: Most people own their own homes and have gardens which contribute to the contentment of labor. Residential sections chiefly at altitude of 2,000 ft.

Retail Shopping Section: Extends from passenger and freight station west for about 15 blocks on State street and there are quite a number of stores both retail and wholesale on the streets crossing State, such as Lee, Moore, Fourth, Fifth, Sixth and Commonwealth. Also small groceries, etc., in outlying districts.

Trading Area: About 50 miles radius, including the Virginia coal fields 80 miles distant. Trading radius embraces southwest Va., eastern Tenn. and Western N. C. and to some extent eastern Ky. and West Va.

Wholesale Houses: Groceries, 7; meats, 1; fruits, 3; hardware, 2; dry goods, 2; Miscellaneous lines, 54 wholesale houses, all lines of jobbing represented.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto agencies, 7; automobile accessories, 28; automobile tire agencies, 18; bakers, 2; cigar stores and stands (including hotels), 35; confectioners (including hotel stands), 35; delicatessen, 1; dressmakers, 10; druggists, 5; dry goods, 22; department stores, 3; electrical supplies, 10; florists, 2; fruits 18; furniture, 7; furriers, 3; garages (public), 8; grocers, 121; hardware, 3; jewelry, 3; meat markets, 12; men's furnishings, 18; men's clothing, 18; merchant tailors, 3; milliners, 2; opticians, 2; photographers, 4; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 18; shoes, 8; sporting goods, 3; stationers, 1; women's apparel, 22.

CHATTANOOGA, TENN.

(Hamilton County)

1920 Population, 57,895 (1925 est., 136,464).

City and Suburban Estimate, 125,748.

Native Whites, 71%; Negroes, 27%; Foreign Born, 2%; Industrial Workers, 18%; English Reading, 84%; Families, 32,000.

Schools: Public Grade, 23; High, 7; Junior High, 2; Parochial, 1; Number of Pupils, 21,456.

Churches: Baptist, 20; Adventist, 2; Christian Science, 2; Congregational, 3; Episcopal, 4; Hebrew, 3; Methodist, 37; Presbyterian, 13; Roman Catholic, 1; Miscellaneous, 12.

Banks: National, 2; State, 10; Total Resources, $52,247,667. Savings Bank Deposits Total, $43,273,336. Bank clearings (1924), $331,326,020.

Theatres: Legitimate, 1; Moving Pictures, 10; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 15,173.

Location: On Tennessee River, open to through navigation. Served by nine trunk lines. Southern Railway, Central of Georgia, C. N. O. & T. P. N. C. & St. L., A. G. S., and T. A. G. Four bus lines operate in 100-mile radius. Nearest larger city is 4½ hours by auto or railroad.

Principal Industries: Hosiery, boilers, mercerized products, woolen goods, plows, saw mill machinery, oil well machinery, gas ranges, shovels, automobile wrecking cars, clay, cedar chests, undertaking goods, fire hydrants, valves, paper box boards, patent medicines, refrigerators, gas tips, steel alloys, inside finishings for buildings, mine drills, mouldings, ratchet drills, wirebound boxes, sewer pipe, candy, logging machinery, malleable, gray iron and steel castings. Capital invested $124,146,000.

Manufacturing Establishments: 378. Leading firms: United Hosiery Mills, Walsh & Wiener Boiler Works, Chattanooga Plow Co., Lucey Mfg. Co., Ross-Mehan Foundries, Dixie Portland Cement Co., Signal Mountain Portland Cement Co., Tenn. Furniture Corp., Chattanooga Stamping & Enameling Co., U. S. Cast Iron Pipe & Fdry. Co., Chattanooga Medicine Co., Thatcher Medicine Co., Dixie Mercerizing Co., Standard Processing Co. Total value of yearly output of factories estimated at $151,601,000.

Special Information: Location of the city makes it the ideal distributing point of the South, served as it is by transportation on the Tennessee River and by nine trunk lines. Fine for manufacturing because of proximity to unlimited coal fields, and unlimited current furnished by three hydro-electric plants of the Tennessee Electric Co. Big wholesale and distributing center.

Residential Features: Mostly a city of home owners; houses constructed in last few years are of bungalow type; average in price $6,000 to $9,000. Fine residential district in the South on Lookout and Signal Mountains, and Missionary Ridge, reaches by convenient trolley lines or by automobile on paved roads, homes averaging in price $6,000 to $25,000 and more. About twenty new sub divisions now under way east of Missionary Ridge.

Retail Shopping Section: On Market St. from Fourth to Main, 11 blocks, and on parallel street—Chestnut, Broad, Cherry, Walnut, and

KNOWN CIRCULATION

The CHATTANOOGA TIMES

Only morning and Sunday paper in Chattanooga, Tennessee, the fastest growing city in the Industrial South. Average net paid circulation for the six months ending September 30th, 1925—

30,140 Daily
30,149 Sunday

Largest circulation of any newspaper—morning or evening—in East Tennessee.

The CHATTANOOGA TIMES goes every day and Sunday into every home in Chattanooga and Suburbs that a National Advertiser would send his salesman to effect a sale. The CHATTANOOGA TIMES is not a street sale newspaper, rainy days and fair days affect its circulation scarcely at all. It is a CARRIER DELIVERED, HOME NEWSPAPER, merit alone accounting for the superiority of its circulation, both in quantity and quality,—the kind that brings results.

It censors its advertising columns as it does its news columns. That accounts for its small lineage in certain advertising classifications.

No National Advertising Campaign has ever failed in Chattanooga when the CHATTANOOGA TIMES has been used—none can if the advertised goods have merit and proper distribution.

You, MR. NATIONAL ADVERTISER, if your goods have the merit, if your advertising has the punch, if you are willing to pay for the space you buy, IF YOU DO NOT SEEK TO BREAK THE RATE, BY DEMANDING FREE READERS, AND POSITION WITHOUT PAYING FOR IT, can also firmly entrench yourself in Chattanooga and the Chattanooga territory (55 miles in every direction from the center of Chattanooga) by using the advertising columns of

BEAUMONT ENTERPRISE
AND
THE BEAUMONT JOURNAL

Necessary to Any Campaign in Either Texas or Louisiana

Southeast Texas and Southwest Louisiana form an industrial territory producing dependable revenue twelve months in the year. A territory in which there is no competition by outside newspapers; thus an advertiser receives full value for the money invested in advertising in the Beaumont Enterprise and the Beaumont Journal.

These publications cover the fifth market in Texas and the third market for Louisiana.

Greater Beaumont Population 131,862

In reality Beaumont is the fifth city in Texas for in and within twenty miles of Beaumont, the A. B. C. has set the population as 131,862 (these are 1923 figures). Every part of the twenty-mile radius is served with concrete roads and carrier service is afforded every home within this radius for both the Beaumont Enterprise and the Beaumont Journal.

Beaumont should be included in every campaign even if the plans include cities of 100,000 and over.

Sole National Representatives

BEAUMONT ENTERPRISE
AND
THE BEAUMONT JOURNAL

TEXAS (Cont'd)

Brownsville (con't)

Location: Extreme southern terminus of the Missouri Pacific R.R. System. Eastern terminus of the National railway lines of Mexico. Probable southern terminus of the Southern Pacific System now building; 26 miles from Point Isabel, on Gulf of Mexico. To nearest large city (San Antonio) by railroad, 12 hours; by auto, 16 hours.

Principal Industries: Agriculture (including winter-grown truck), citrus fruits, cotton, corn; winter and summer tourist resort.

Manufacturing Establishments: Three factories for manufacture of hats from palm leaf straw; factory for manufacture of work and other common shirts, work trousers, khaki jackets, etc., employing fifty women; cotton-seed oil mill; brick and hollow and drain tile plant representing investment of $150,000; broom factory; mattress factory; ice factory; 5 soda water bottling establishments. Total value of yearly output of factories estimated at $1,000,000.

Special Information: Brownsville is a Summer and Winter resort, and is the largest city in what is known as the "Lower Rio Grande Valley of Texas," which has become important as a winter truck and citrus fruit section; truck shipments in past two seasons, 14,000 carloads per season, including cabbage, carrots, beets, eggplant, beans, tomatoes, and other products; 750 carloads of grapefruit shipped in 1924-25, and production in 1925-26 estimated at 1,000 cars. Section raised 90,000 bales of cotton in 1924, and 115,000 bales in 1925. Brownsville is known as the first cotton producing section in the United States, growing first bale as early as June 15. Towns in this territory number 15, all located on concrete highway, 65 miles long, and being extended further. Towns include San Benito, 5,000; Harlingen, 5,000; La Feria, 1,200; Mercedes, 5,000; Weslaco, 3,000; Donna, 1,500; Pharr-San Juan, 1,500; McAllen, 5,500; Mission, 4,000; Edinburg, 1,500; Raymondville, 1,000; Lyford, 600. Counties in lower Rio Grande valley include Cameron, Hidalgo, Willacy, and Starr. Total assessable valuations for taxes, $75,000,000; bank deposits, $20,000,000. Growing season, all months of the year. Cameron, and Hidalgo counties are now expending $3,120,000 for control of flood waters of Rio Grande, insuring stable land values. Brownsville is wholesale and financial center of this section, although much buying is done in San Antonio, 320 miles distant; Houston, 372 miles distant; and Dallas, 555 miles distant. Fort Brown, U. S. army post, with garrison of 500 men, is located here. Fort Ringgold, in Rio Grande City 110 miles west of Brownsville, has garrison of 500 men. Value of irrigation canals and pumping plants in lower Rio Grande placed at $20,000,000, irrigating 400,000 acres of agricultural land. All except two systems are owned by farmers and landowners. American Land & Irrigation Company, Mercedes, is watering 80,000 acres and is one of the privately owned irrigation systems in the United States.

Retail Shopping Section: Includes 5 blocks on Elizabeth (principal business street); 3 on Washington; 5 on Levee (one side); 3 on 11th; 5 on 12th; 2 on 13th. Many grocery and other small stores in residential sections.

Trading Area: Extends north 50 miles to Raymondville; north and west 65 miles to Mission; across Rio Grande to Matamoras, and extends from 50 to 75 miles. Bus lines operate over concrete highway between Brownsville and Mission, and by parallel railroad. Trading area includes Matamoras on account of its inhabitants virtually doing all their wholesale and retail buying in Brownsville. fruits, 2; dry goods, 2; iron and steel, and allied lines, 1; drugs, 1; cigars, 1.

Wholesale Houses: Groceries, 5; meats, 4;

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; commercial autos, 4; automobile accessories, 7; automobile tires, 10; bakers, 6; cigar stores and stands (including hotels), 6; confectioners, 5; dressmakers, 23; druggists, 7; dry goods, 15; electrical supplies, 3; florists, 3; fruits, 40 (including stalls in city market); furniture, 4; garages (public), 5; grocers, 18 (chain, 1); hardware, 5; jewelry, 4; meat markets, 10 (all in city market); men's furnishings, 5; milliners, 4; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 4; restaurants (including hotel cafes), 8; sporting goods, 2; stationers, 1; women's apparel, 7; curio stores, 2.

Miscellaneous Data: Average temperature, 73 degrees; average number of rainy days per twelve months, 65; most pleasant months, March, April, July, Aug., Sept., Oct.; doctors (medical, 13), (dentists, 4), (osteopaths, 2); number of wired houses, 1,600; electric current, alternating; water, soft.

BROWNWOOD, TEXAS

(Brown County)

1920 Population, 8,223.

Native Whites, 90%; Negroes, 9%; Foreign Born, 1%; Industrial Workers, 20%; English Reading, 100%.

Manufacturing Establishments: 3. Leading firms: Bryan Fertilizer Co., Stephon Ice Box Co., Western Public Service Co. Total value of yearly output of factories estimated at $1,500,000.

Special Information: Rich cotton farming district, Brazos River bottom nearby, and trade territory covers Brazos and parts of three other counties.

Residential Features: Fine residences of wealthy citizens for small community are features, but for most part ordinary frame one- and two-story houses.

Retail Shopping Section: Main Street ¾-mile long, extending between two railways. Retail section beginning to occupy parallel street to west—also the intersecting ones.

Trading Area: Extends to west and south 20 miles in heavy cotton producing section, and to north and west of well populated district of small farmers, 20 to 30 miles.

Wholesale Houses: Groceries, 2; hardware, 1; miscellaneous lines, 1 ice, 1 cotton seed oil, coke and fertilizer.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; automobile accessories, 8; automobile tire agencies, 10; bakers, 2; cigar stores and stands (including hotels), 4; confectioners (including hotel stands), 6; delicatessen, 2; dressmakers, 5; druggists, 7; dry goods, 14; department stores, 2; electrical supplies, 2; florists, 1; fruits, 2; furniture, 3; garages (public), 8; grocers, 22; hardware, 4; jewelry, 2; meat markets, 6; men's furnishings, 7; men's clothing, 11; merchant tailors, 2; milliners, 2; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 1; restaurants (including hotels), 8; shoes, 2; sporting goods, 1; stationers, 1; women's apparel, 3.

CISCO, TEXAS

(Eastland County)

1920 Population, 7,422.

Native Whites, 90%; Negroes, 5%; Foreign Born, 5%; Industrial Workers, 15%; English Reading, 99%; Families, 2,000.

Schools: Public Grade, 4; High, 1; Junior High, 1; Number of Pupils, 1,900.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

Banks: Private, 1; State, 2; Total Resources, $2,000,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 1,700.

Location: Texas & Pacific RR., M. K. & T. RR., Cisco & Northeastern RR.

Principal Industries: Oil and gas, nitro glyc. plants, oil well supplies. Headquarters for the larger oil companies.

Manufacturing Establishments: Several small plants. Mattress, candy, ice, etc.

Special Information: Cisco is the home city of the North Central Texas Oil Fields. It has just completed a large reinforced concrete hollow type dam, costing $1,250,000. Cisco is noted for its paved streets, good water and all modern improvements.

Residential Features: Modern homes 75% owned by occupants. Best residential section on West Side of city.

Retail Shopping Section: About 8 blocks. Business section (shopping) confined mostly to Main Street about 6 blocks.

Trading Area: Extends about 30 miles in each direction, on account of hard surfaced road leading from Cisco, north, east, south and west.

Wholesale Houses: Groceries, 3; meats, 1; fruits, 1; miscellaneous lines, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 4; automobile accessories, 3; automobile tire agencies, 2; bakers, 3; cigar stores and stands (including hotels), 5; confectioners (including hotel stands), 2; delicatessen, 1; dressmakers, 10; druggists, 6; dry goods, 5; department stores, 3; electrical supplies, 1; florists, 2; fruits, 1; furniture, 1; garages (public), 15; grocers, 20; hardware, 3; jewelry, 1; meat markets, 2; men's furnishings, 2; men's clothing, 6; merchant tailors, 1; milliners, 5; opticians, 1; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 1; restaurants (including hotels), 25; sporting goods, 1; women's apparel, 2.

CLEBURNE, TEXAS

(Johnston County)

1920 Population, 12,820.

Native Whites, 97%; Negroes, 3%; English Reading, 95%; Families, 4,500.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 3,300.

Churches: Baptist, 5; Christian Science, 1; Episcopal, 1; Methodist, 6; Presbyterian, 3; Roman Catholic, 1; Miscellaneous, First Christian, Central Church of Christ, Church of God in Christ, Pentecostal Holiness.

Banks: National, 2; State, 1.

Theatres: Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3; Total number of seats, 6,500.

Location: Cleburne, located in north central Texas, with the Santa Fe Railroad running four ways out of Cleburne; also served by the Trinity & Brazos Valley; thirty miles from Fort Worth and fifty miles from Dallas, and connected with hourly interurban service, bus lines and good roads.

Principal Industries: Agricultural products especially the raising of cotton, also dairy, poultry, fruit and vegetable products; Cleburne is noted for her pure bred Jersey cattle, as well as beef cattle.

Manufacturing Establishments: 8. Leading firms: Starling's Creamery, manufacturing butter, ice cream and cream products; Cleburne Broom Factory, Cleburne Ice & Cold Storage, Coco Cola Bottling Works, Cleburne Mattress Factory, Keel Manufacturing Co. (making potato chips and candy), Palace of Sweets (candy).

Special Information: Cleburne, present approximate population, 20,000; county seat of Johnson County, whose area is 464,000 acres, of which 85% is under cultivation; Johnson County last year raised 50,000 bales of cotton; over a hundred thousand dollars' worth of dressed turkeys were shipped from Cleburne. Cleburne has an excellent school system, pure artesian water, excellent railroad facilities, natural gas, cheap electrical power and splendid roads; and has modern homes and fine churches.

Residential Features: Majority of people in Cleburne own their own homes, however, we have all the rent houses needed, which are moderately priced in rent; most of houses are one-family houses, from four to eight rooms. Special section devoted to the negroes.

Retail Shopping Section: Extends from the Court House, which is in the center of our business district, about four blocks down each street leading from the Court House, whcih are North Main Street, South Main Street, West Chambers, East Chambers, West Henderson, East Henderson, North Caddo, South Caddo.

Trading Area: Extends about 15 miles north, thirty east, fifty south and seventy-five west.

Wholesale Houses: Groceries, 4; lumber companies, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; automobile accessories, 16; automobile tire agencies, 9; bakers, 3; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 5; dressmakers, 5; druggists, 9; dry goods, 10; department stores, 7; electrical supplies, 5; florists, 4; fruits, 20; furniture, 5; garages (public), 10; grocers, 75; hardware, 6; jewelry, 3; meat markets, 8; men's furnishings, 5; men's clothing, 9; merchant tailors, 2; milliners, 10; opticians, 3; photographers, 4; pianos (and miscellaneous musical instruments), 5; radio supplies, 11; restaurants (including hotels), 10; shoes, 15; sporting goods, 4; stationers, 10; women's apparel, 12.

Miscellaneous Data: Average number of rainy days per twelve months, 100; most pleasant months, April, May, Oct., Nov.; doctors (medical, 21), (dentists, 6), (osteopaths, 2); gas, natural; electric current, alternating and direct; water, soft.

COMMERCE, TEXAS

(Hunt County)

1920 Population, 3,842 (1925, est. 6,000).

City and Suburban Estimate, 40,000.

Native Whites, 95%; Negroes, 5%; Industrial Workers, 15%; English Reading, 100%; Families, 1,000.

Schools: Public Grade, 5; High, 2; Junior High, 1; Number of Pupils, 1,200. State Teachers' College with annual enrollment of more than 3,000.

Churches: Baptist, 2; Christian, 2; Episcopal, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1.

Banks: National, 3; State, 1; Total Resources, $1,000,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), two high school auditoriums and two auditoriums at State College. Total number of seats, 2,500.

Location: On St. Louis-Southwestern (Cotton Belt), and Texas Midland railroads, with five railroad outlets. Has three freight divisions of St. L.-S.W. Ry. and roundhouse and shops. Through freight is received from St. Louis in two days and from Dallas in one day. To nearest large city by railroad, 1 hour: by auto, 1 hour.

Principal Industries: Cotton seed oil mill, railroad shops, cotton gins (4), flour mills, ice factory, bottling and ice cream factory, planing mill, paper mill.

Manufacturing Establishments: Leading firms: Commerce Cotton Seed Oil Co., Commerce Ice Co., Lone Star Paper Mills, Thomas Grain & Coal Co. (Milled stock and poultry feeds.)

Special Information: Is located at division of black land cotton, corn and grain belt on the west, and light soil fruit and vegetable region on east. Country is thickly settled by farmers. Is noted as a school town, the biennial appropriation for the State college here being more than $500,000. Is 74 miles from Dallas with an asphalt and concrete paved road all the way. Also has paved road outlets north and east. Is noted for modern homes and paved streets.

Residential Features: Owing to the school and railroad population there are quite a number of apartment houses and boarding houses.

Retail Shopping Section: Main Street, 2 blocks; Alamo Street, 2 blocks; Washington Street, 2 blocks.

Trading Area: A radius of ten miles is regarded by the merchants here as Commerce trade territory and they advertise to cover this area.

Wholesale Houses: Groceries, 1; fruits, 1; miscellaneous lines: feed and grain, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 4; commercial auto. agencies, 3; automobile accessories, 5; automobile tire agencies, 15; bakers, 1; cigar stores and stands (including hotels), 46; confectioners (including hotel stands), 18; dressmakers, 4; druggists, 5; dry goods, 6; department stores, 3; electrical supplies, 4; florists, 1; fruits, 8; furniture, 3; garages (public), 6; grocers, 21; hardware, 4; jewelry, 2; meat markets, 5; men's furnishings, 3; men's clothing, 5; merchant tailors, 2; milliners, 5; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 4; restaurants (including hotels), 12; shoes, 8; sporting goods, 3; stationers, 10; women's apparel, 9.

Miscellaneous Data: Average temperature, 65 degrees; average number of rainy days per twelve months, 30; most pleasant months, April, May, June, Sept., Oct., Nov.; doctors (medical, 9), (dentists, 3), (osteopaths, 1); number of wired houses, 800; electric current, alternating; water, soft.

CORPUS CHRISTI, TEXAS

(Nueces County)

1920 Population, 10,522 (1925, est. 17,500).
City and Suburban Estimate, 40,000.

Native Whites, 75%; Negroes, 5%; Foreign Born, 20%; Industrial Workers, 2%; English Reading, 75%; Families, 3,500.

Schools: Public Grade, 6; High, 1; Parochial, 2.

Banks: National, 3; Total Resources, $8,750,000; Savings Bank Deposits Total, $800,000

Continued on page 246

TEXAS (Cont'd)

Corpus Christi (con't)

Theatres: Moving Pictures, 7. Total number of seats, 2,800.

Location: West shore of Corpus Christi Bay off the Gulf of Mexico. Served by the Missouri Pacific, Texas-Mexican, Southern Pacific and the San Antonio Uvalde and Gulf Railways. Bus service to San Antonio, Kingsville,, and Rio Grande Valley points. To nearest large city by railroad, 6 hours; by auto, 5 hours.

Principal Industries: At present strictly agritural. Neuces County produced 35,000 bales of staple cotton this year, about one-third of the normal crop, despite a general drought that prevailed in the central, and northern part of the state. This county has had the highest yield per acre of any section of the cotton belt for the last 10-year period.

Manufacturing Establishments: 6. Leading firms: Cloverdale Creamery, Dixon Sprayer Co., Corpus Christi Oil Mill, Lone Star Ice Factory, Gulf Coast Power & Ice Co., Corpus Christi Foundry.

Special Information: Terminal for three railways. Port facilities benefiting states as far west as Arizona, and north to the Dakotas. Abundance of cheap labor, and municipally owned gas field supplying industry with 6-cent fuel at city limits. Two million acres Victoria clay, and Victoria loam farm lands within a radius of 50 miles of Corpus Christi. Summer and winter resort, with all-year-round bathing and fishing.

Residential Features: Mostly families, with limited section for homes of laboring class occupying smaller dwellings. First-class deep-water port, with safe and adequate harbor, which will be completed in May, 1926.

Retail Shopping Section: Five blocks on Chaparral Street, 5 blocks on Mesquite Street, 3 blocks on Leopard Street, 2 blocks on Peoples Street, 2 blocks on Scatzel Street, 2 blocks on Starr Street.

Trading Area: Thirty miles north, 30 miles northeast, 40 miles south, and 40 miles west. Bay lies due east of city.

Wholesale Houses: Groceries, 9; meats, 2; fruits, 3; hardware, 1; Miscellaneous lines, 3 grain, 1 ice cream.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 11; commercial auto. agencies, 4; automobile accessories, 8; automobile tire agencies, 7; bakers, 8; cigar stores and stands (including hotels), 15 (chain, 2); confectioners (including hotel stands), 12; delicatessen, 3; druggists, 8; dry goods, 20; department stores, 6; electrical supplies, 5; florists, 4; fruits, 15; furniture, 4; garages (public), 12; grocers, 48 (chain, 1); hardware, 4; jewelry, 3; meat markets, 12; men's furnishings, 7; men's clothing, 9; merchant tailors, 4; milliners, 9; opticians, 5; photographers, 4; pianos (and miscellaneous musical instruments), 7; radio supplies, 3; restaurants (including hotels), 14; shoes, 1; sporting goods, 2; stationers, 3; women's apparel, 7.

Miscellaneous Data: Average temperature, 70.6 degrees; most pleasant months, nearly all; doctors (medical, 16), (dentists, 9), (osteopaths, 2); number of wired houses, 1,100; street car service; gas, natural; electric current, alternating; water, hard.

CORSICANA, TEXAS

(Navarro County)

1920 Population, 11,356. (Since recent gusher oil field has been opened population has increased to 22,000.)

City and Suburban Estimate: Population in oil field and suburban sections about 26,000.

Native Whites, 85%; **Negroes,** 15%; **Industrial Workers,** 4,000; **English Reading,** 90%; **Families,** about 5,000.

Schools: Public Grade, 5; High, 1; Junior High, 1; Number of Pupils, 4,700.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 1; Hebrew, 2; Methodist, 4; Presbyterian, 4; Roman Catholic, 1; Miscellaneous, 10.

Banks: National, 3; State, 2; Total Resources, $17,000,000. Savings Bank Deposits Total, $15,000,000.

Theatres: Legitimate, 2; Moving Pictures, 5; Vaudeville, 1. Total number of seats, 5,000.

Location: Southern Pacific, St. Louis & Southwestern, Trinity and Brazos Valley, Hillsboro branch, Interurban, Texas Electric Co. To nearest large city by railroad, 2¼ hours; by trolley, 2¼ hours; by auto, 3 hours.

Principal Industries: Oil refineries, cotton mills, cotton oil mills, big machine shops, oil well machinery manufacturers, road graders, candy factory, broom factory, fruit cake factory, brick plants, cotton warehouses and compressers, wholesale center with large oil well supply houses, planing mills, and many smaller industries. Center of large agricultural district.

Manufacturing Establishments: Leading firms: American Well & Prospecting Co., Magnolia Petroleum Co., Corsicana Oil & Refining Co., Corsicana Cotton Mills, Southland Cotton Oil Co., Navarro Cotton Oil Co., De Luxe Fruit Cake Factory, Frick Ice Cream Co., Corsicana Ice & Utilities Co. Total value of yearly output of factories estimated at $25,000,000.

Special Information: Corsicana is so located in the black land belt that it is an important agricultural center, and having an almost unlimited trading territory, has developed into a wholesale and jobbing center, there being located here at the present time forty-seven wholesale houses, groceries, hardware, tinware, poultry, oil products, oil well machinery, supplies, etc., cotton products, cotton oil products. It is located in Navarro County which is the second largest cotton county in Texas, sixth largest county in individual farm owners, eighth largest county in population, and third richest county in Texas due to its extended gusher oil field—greatest daily production reaching over 425,000 barrels. Estimated cotton crops for 1925, 80,000 bales.

Residential Features: Corsicana is a city of homes, churches and religious environments, together with being a good school town, there are now being completed five new public school buildings, with a new $400,000 high school to take care of the growing attendance. With a municipal lake large enough to accommodate a city three times its size, Corsicana has sufficient fresh water for all purposes, industrial and otherwise, with plenty left for the beautification of lawns, flowers, etc., thereby making the city one of flowers and trees.

Retail Shopping Section: Corsicana being centrally located and seventy miles distant from any larger trading district, makes it an ideal trading center. With forty miles of pavement, 300 miles piked roads and ample railroad and motor car service, together with hourly interurban service, makes transportation easy and available for retail shoppers. With several large department stores, attractive cafes and daily amusements, the shoppers are well cared for.

Trading Area: The trading area of Corsicana is almost unlimited to the east and south, with larger cities seventy miles north and west dividing the trade about half way.

Wholesale Houses: Groceries, 7; meats, 3; fruits, 2; hardware, 1; dry goods, 2; miscellaneous lines, oil well supplies, 32.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial auto. agencies, 2; automobile accessories, 3; automobile tire agencies, 2; bakers, 2; cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 5; delicatessen, 1; dressmakers, 9; druggists, 11; dry goods, 12; department stores, 6; electrical supplies, 3; florists, 2; fruits, 4; furniture, 7; garages (public), 7; grocers, 49 (chain, 7); hardware, 5; jewelry, 3; meat markets, 14; men's furnishings, 5; men's clothing, 7; merchant tailors, 3; milliners, 4; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 3; radio supplies, 3; restaurants (including hotels), 9; shoes, 5; sporting goods, 3; stationers, 2; women's apparel, 5.

Miscellaneous Data: Average temperature, 75 degrees; average number of rainy days per twelve months, 60; most pleasant months, April, May, June, Oct., Nov., Dec.; doctors (medical, 30), (dentists, 9), (osteopaths, 2); number of wired houses, 5,000; street car service; gas, natural; electric current, alternating; water, soft.

CUERO, TEXAS

(De Witt County)

1920 Population, 3,671.

City and Suburban Estimate, 5,500.

Native Whites, 65%; **Negroes,** 20%; **Foreign Born,** 15%; **Industrial Workers,** 3%; **English Reading,** 85%; **Families,** 1,000.

Schools: Public Grade, 4; High, 1; Parochial, 1; Number of Pupils, 1,350.

Churches: Baptist, 2; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 2.

Banks: National, 1; Private, 1; State, 1; Total Resources, $3,000,000. Total deposits estimated, $2,600,000.

Theatres: Legitimate, 1; Moving Pictures, 2. Total number of seats, 1,400.

Location: On Guadalupe River, 60 miles from sea coast, in south central Texas in the center of a fertile farming, dairy stock and poultry production territory. Situated about half way between Houston and San Antonio at the intersection of the San Antonio & Arkansas Pass and Southern Pacific railways, and on four designated State and Federal highways. Motor bus service to neighboring cities.

Principal Industries: Cotton cloth, cottonseed products; dressed turkeys and poultry, poultry and stock feeds. Important inland concentration point for south Texas cotton. Home of Mid-West utilities, dam and power company, supplying lights and power for Cuero and three neighbor cities. To nearest large city by railroad, 3 hours; by auto, 4 hours.

Manufacturing Establishments: 2. Leading firms: Guadalupe Valley Cotton Mills, Cuero Cotton Oil & Mfg. Co., Washington Gray Co., Cuero Mill & Feed Co., R. C. Flick, Buchel Milling Co., Cuero Compress & Warehouse Co.

Special Information: Location makes city market center for large and fertile territory. Jobbing center for groceries, pecans, fruits and produce. Home of large cotton compress. Large shipping point for dressed turkeys. Internationally known for its famous "Turkey Trots." City of attractive homes.

Residential Features: 75% of residents own their own homes. City of beautiful homes and wide streets bordered by huge live oak trees. Well kept lawns. Sixteen miles of paved streets.

Retail Shopping Section: Extends six blocks on Main Street and four blocks on Esplanade, the two principal streets. Two blocks each on Church and Railroad Streets, which parallel Main; and two blocks on Gonzales, which runs parallel with Esplanade.

Trading Area: Extends about 15 miles north, 35 miles west, 30 miles south and 18 miles east. Some business from points even further away because of modern stores and stocks and city's reputation as cotton and poultry market.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 1; hardware, 1; dry goods, 1; miscellaneous lines: machinery, 1; feed, 1; seed, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 4; automobile accessories, 4; automobile tire agencies, 12; bakers, 4; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 12; delicatessen, 4; dressmakers, about 10; druggists, 3; dry goods, 16; department stores, 4; electrical supplies, 3; florists, 1; fruits, 4; furniture, 2; garages (public), 15; grocers, 12; hardware, 3; jewelry, 4; meat markets, 7; men's furnishings, 1, exclusive; men's clothing, 8; merchant tailors, 5; milliners, 7; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 9; shoes, 8; supply goods, 2; stationers, 1; women's apparel, 12. Only two exclusive women's shops.

Miscellaneous Data: Average temperature, 72 degrees; average number of rainy days per twelve months, 36; most pleasant months, April, May, June, Sept., Oct., Nov.; doctors (medical, 16), (dentists, 3); number of wired houses, 1,050.

.DALLAS, TEXAS

(Dallas County)

1920 Population, 158,976. (1925, est. 193,450.)

City and Suburban Estimate, 257,000.

Native Whites, 79.3%; **Negroes,** 15.2%; **Foreign Born,** 5.5%; **Industrial Workers,** 5.2%; **English Reading,** 96.8%; **Families,** 45,000.

Schools: Public Grade, 45; High, 6; Private, 80; Universities, 3; Number of Pupils, 43,825.

Churches: Baptist, 22; Christian Science, 2; Congregational, 6; Episcopal, 5; Hebrew, 3; Methodist, 19; Presbyterian, 11; Roman Catholic, 9; Miscellaneous, 22.

Banks: National, 8; State, 8; Total Resources, June 30, 1925, $156,509,329.50.

Theatres: Legitimate, 3; Moving Pictures, 25; Vaudeville, 3; Burlesque, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 29,500.

Location: Dallas is located on the Trinity River in the northern portion of Texas. Served by the following interurban lines: Waco, Sherman, Forth Worth, Terrell, Denison, Waxahachie, Corsicana and Fenton. The following trunk steam lines also serve Dallas: M. K. & T., H. & T. C., Rock Island, T. & N. O., Santa Fe, Southern Pacific, Texas & Pacific, Frisco, St. Louis Southwestern, Trinity and Brazos Valley and Ft. Worth & Denver. To nearest larger city (Kansas City) by railroad, 12 hours.

Principal Industries: Petroleum products, cotton seed products, iron and steel, cement, clothing, flour, mixed feeds, bakery products, furniture, packing house products, paints, building materials, cigars, candy, trunks, sporting goods, engraving, architectural stone, automobile accessories, ice cream, jewelry, tents and awnings, tools, show-cases and toys. The leading industry is cotton raising.

Manufacturing Establishments: Leading firms: Procter & Gamble, Holcombe & Hoke Mfg. Co., Dallas Textile Mills, Dallas Wire Works, Texas Keen Kola Co., Trinity Portland Cement Co., Texas Portland Cement Co., Simns Oil Co., Oriental Oil Co., Miller Mfg. Co., National Macaroni Co., Ralston's Mfg. Co., Southern Steel Co., Standard Fixture Co., Standard Sanitary Mfg. Co., Thrift Packing Co., Lone Star Bed Mfg. Co., Daltex Spring Bed Mfg. Co., Co-Co Lime Co., Pollock Trunk Mfg. Co., Schoelkopf Co., and Padgitt Bros. 752 factories in 1923 produced merchandise worth $92,188,697.

Special Information: Location and transportation facilities make Dallas the market and distributing point for the Southwest. Dallas a high place in the manufacture of gins, saddlery, harness and leather goods. Dallas finances one-third the Texas cotton crop, which is one-fourth the cotton crop of the entire U. S. Dallas is the largest inland cotton market in the South. Much of the oil of the U. S. is produced within a radius of 150 miles of Dallas. This city is one of the first fifteen jobbing centers of the United States. The last figures available show Dallas manufactured one-half the cotton gin machinery sold in the United States. 55,000 telephone installations.

Residential Features: Dallas has 50,000 homes. Two of the finest residential sections to the southwest are located in Dallas, Highland Park, and Munger Place. Homes in these two sections will average between $30,000 and $40,000 each. There are numerous medium class additions to the city. All sections of Dallas have direct street car service to the business district.

Retail Shopping Section: Retail business is located principally on the following streets: Pacific, Elm, Main, Commerce, from Houston to H. & T. C. Ry.; on Jackson from Market to Pershing Square, and on Young, from the Union Terminal Station, to Harwood Street. These streets are about 24 blocks long in the business section, while the cross streets are six blocks. Dallas also has twenty-five or thirty small business districts, with the usual drug stores, groceries and small shops.

Trading Area: Dallas has a weekly trading radius of 150 miles in the rich black land

New and Important

Dallas Data

IN Dallas, the great jobbing and distributing center of Texas, advertising should be "laid on thick" in order to cash to the fullest extent the rich possibilities of this Key City.

Dallas is the "sky-scraper city of the south" and presents the most imposing sky-line of any city save New York.

Dallas cannot be covered without the Dallas Dispatch.

Circulation, six months ending October 1, 1925, was 30,796. October average was 32,241. Advertising gain for 12 months exceeds 1,000,000 lines. Rate only 7c a line. The most distinctive and virile newspaper in Dallas with an intelligent and cultured reader-following.

TEXAS (Cont'd)

farming belt of Texas. Within the 100-mile radius of Dallas there are 198,673 people, according to the 1920 census. Residents of this section have excellent facilities for coming to Dallas to do their buying and shopping. The steam railroads, interurbans, and good automobile highways make it easy for them to reach Dallas in a very short time and at small expense.

DENISON, TEXAS

(Grayson County)

1920 Population, 17,065 (1925 est. 22,000).

City and Suburban Estimate, 27,000.

Native Whites, 79.3%; Negroes, 17.9%; Foreign Born, 2.8%; Industrial Workers, 25%; English Reading, 93.9%; Families, 4,404.

Schools: Public Grade, 9; High, 2; Parochial, 2; Number of Pupils, 5,338.

Churches: Baptist, 7; Christian Science, 1; Episcopal, 1; Methodist, 7; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 6.

Banks: National, 2; State, 2; Total Resources, $4,989,702.10. Savings Bank Deposits Total, $184,628.59; individual deposits subject to check, $2,677,065.07.

Theatres: Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 3,850.

Location: Denison, the gate city to North Texas is located in Grayson County in the fertile Red River valley. On M. K. & T., T. & P., M. O. & G., Southern Pacific and Frisco Lines. Electric lines to Central Texas points. Bus service to Oklahoma and Texas points. Seven marked auto trails through city and three bridges across Red River lead into city. Terminal point for four steam and one electric line.

Principal Industries: Railroad shops, textile mill, coffee roasting, peanuts and pecans, mattresses, woodwork and cabinet work, nursery stock, greenhouses, flour mills, poultry and cow feeds, ice, ice cream, candy and soda water. Rich farming lands in every direction. Truck farming, cotton corn and small grains principal crops.

Manufacturing Establishments: 34. Leading firms: Denison Cotton Mills, Barnhart Mercantile Co., Waples-Platter Grocer Co., Denison Mattress factory, Knaur Grain Co., M. K. & T. R. R. car shops.

Special Information: Wholesale center for groceries, bank and store fixtures, hardware, poultry and eggs, barber supplies, nursery stock, packing house products. Largest mail distribution point in this district. M. K. & T. freight terminal just west of the city is among the largest west of Mississippi River, with a capacity of 5,000 cars daily and 65 miles of track. Heavy tourist travel through city, due to marked highways, free tourist park, and general location.

Residential Features: Largely railroad employes, many of whom own their homes. In the northwest central portion, private homes of business men predominate. The extreme northwest portion near the new M. K. & T. Ry. terminals is building up with homes for employes of the railway.

Retail Shopping Section: Extends West along Main Street from Union Station six blocks, and along the avenues north and south of Main Street for two blocks in each direction. Some business on Woodward Street north of Main, and also on Chestnut Street, south of Main. There is also a section in the southwest section, called "Sugar Bottom," where there are a couple of blocks devoted to business. There are retail grocers and markets in all sections of town.

Trading Area: Covers a radius of about twenty-five miles, though business is secured from greater distances because of the good roads, and the railroad and interurban service.

Wholesale Houses: Groceries, 2; meats, 2; fruits, 1; hardware, 1; dry goods, 1; miscellaneous lines; nursery stock, 1; barber supplies, 1; poultry and eggs, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 2; automobile accessories, 5; automobile tire agencies, 5; bakers, 4; cigar stores and stands (including hotels), 75; confectioners (including hotel stands), 25; delicatessen, 1; dressmakers, 3; druggists, 10; dry goods, 7; department stores, 2; electrical supplies, 4; florists, 3; fruits, 6; furniture, 8; furriers, 1; garages (public), 15; grocers, 75; hardware, 2; jewelry, 3; meat markets, 11; men's furnishings, 5; men's clothing, 5; merchant tailors, 3; milliners, 6; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 5; restaurants (including hotels), 7; shoes, 7; sporting goods, 2; stationers, 1; women's apparel, 3.

DENTON, TEXAS

(Denton County)

1920 Population, 7,626. (1925, est. 9,647.)

City and Suburban Estimate, 40,000.

Native Whites, 93%; Negroes, 5%; Foreign Born, 2%; Industrial Workers, 5%; English Reading, 99½%; Families, 1,950.

Schools: Public Grade, 5; High, 1; Junior High, 1; Number of Pupils, 2,475.

Churches: Baptist, 5; Christian Science, 1; Episcopal, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 3; State, 1; Total Resources, $2,945,669.54.

Theatres: Moving Pictures, 3. Total number of seats, 1,500.

Location: Served by M. K. & T. and T. & P. Railroads and Dallas-Denton Interurban. Good bus service to suburban points. In center of Denton County, leading producer of wheat in Texas. Four designated state highways leading out of city. To nearest large city by railroad, 1 hour; by trolley, 1½ hours; by auto, 1½ hours.

Principal Industries: Flour milling, brick manufacturing, pottery making.

Manufacturing Establishments: Leading firms: Alliance Milling Co., Denton Milling Co., Acme Brick Co., Daugherty Art Pottery.

Special Information: Denton is a college town, having the College of Industrial Arts, a noted college, of the first class, for women. Annual enrollment about 2,500. North Texas State Teachers' College, with annual enrollment of 4,500. Also has a large high school.

Residential Features: Private homes ranging in value from $3,000 to $15,000. Large boarding houses for students, near both colleges. Average homes a credit to the town.

Retail Shopping Section: Public Square and for one block west on Hickory and Oak streets, two blocks north on Locust Street, three blocks east on Hickory, one block east on Oak Street. Several neighborhood groceries.

Trading Area: Extends about twenty miles in each direction.

Wholesale Houses: Groceries, 2.

TEXAS (Cont'd)

Ft. Worth (con't)

Packing Co., Texas Dressed Meat Co., King Candy Co., Texas Steel Rolling Mill, Pierce Oil Corp., Magnolia Petroleum Co., Gulf Refining Co., White Eagle Refining Co., Transcontinental Oil Co., Riverside Cotton Oil Mills, Bain Peanut Oil Mills, Purina Mills, Hub Furniture Co., Trinity Portland Cement Co., Ft. Worth Well Drilling & Tool Co., Dixie Hosiery Mill, Justin Boot & Shoe Co., Bunker Paper Box Co., Midland Mfg. Co., Worth Cotton Mills, Texas Power & Light Co., T. & P. Ry. Shops, Rock Island Shops, Frisco Shops, Smith Bros. Elevator Co., Stafford-Lowden Co., Ellison Furn. Co., Bewley Mills, Burrus Mills and Universal Mills.

Special Information: Location of the city makes it the largest railroad center in north central Texas. Large oil refining center, meat packing, and grain center. Eighteen railroads. Trade territory of West Texas, population, 1920, 1,580,931. Headquarters for large steel fabricating mills, large power and light plant. 1920 census report shows that Tarrant County (Ft. Worth) produced manufactured products worth $155,000,000.

Residential Features: City has large percentage of home owners. Apartments and rented houses are not in such proportion as is generally found in such a city. This is due to the intensified "Own Your Own Home" campaign that has been waged here for years. Beautiful additions are being added. Four such additions now on the market. Home cost averages in all new additions $5,600. Golf links and country clubs in most new additions.

Retail Shopping Section: Main retail business section is composed of Main, Houston, Throckmorton and Commerce streets, eighteen blocks in length; North Main, 20 blocks; South Main, 12 blocks; East Front, 8 blocks; Jennings, 8 blocks; and all cross streets from five to eight blocks. Usual suburban centers, with groceries, etc.

Trading Area: Extends about 15 miles east; 50 miles north; 50 miles west and south. Intermittent business is received from all over the Panhandle and West Texas areas from distances as far as 500 miles. This trade is made possible by the splendid paved highway system centering in Ft. Worth and the unusual railroad service. Trading area population, 1,500,000.

Wholesale Houses: Groceries 7; meats, 35; fruits, 14; hardware, 4; dry goods, 3; miscellaneous lines, drugs, 3; oil well supplies, 42; grain, 37; cotton, 14.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 70; commercial auto. agencies, 12; automobile accessories, 204; automobile tire agencies, 51; bakers, 38; cigar stores and stands (including hotels), 40 (chain, 5); confectioners (including hotel stands), 100; delicatessen, 40; dressmakers, 53; druggists, 500 (chain, 11); dry goods, 38; department stores, 5; electrical supplies, 14; florists, 24; fruits, 97; furniture, 64; furriers, 3; garages (public), 142; grocers, 854 (chain, 28); hardware, 22; jewelry, 42; meat markets, 274 (chain, 14); men's furnishings, 32; men's clothing, 44; merchant tailors, 62; milliners, 24; opticians, 12; photographers, 20; pianos (and miscellaneous musical instruments), 11; radio supplies, 12; restaurants (including hotels), 340; shoes, 112; sporting goods, 5 stationers, 5; women's apparel, 8.

Miscellaneous Data: Average temperature, 65 degrees; average number of rainy days per twelve months, 76; most pleasant months, April, May, June, Oct., Nov., Dec.; doctors (medical, 174), (dentists, 68), (osteopaths, 7); number of wired houses, 25,000; street car service; gas, natural; electric current, alternating and direct; water, soft.

GAINESVILLE, TEXAS

(Cooke County)

1920 Population, 8,648.

City and Suburban Estimate, 10,000.

Native Whites, 85%; Negroes, 15%; Industrial Workers, 20%; English Reading, 100%; Families, 2,000.

Schools: Public Grade, 5; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,800.

Churches: Baptist, 5; Christian Science, 2; Episcopal, 1; Methodist, 3; Presbyterian, 3; Roman Catholic, 1; Disciple of Christ, 3; Miscellaneous, 6.

Banks: National, 2; State, 1; Total Resources, $2,585,573.77. Savings Bank Deposits Total, $105,000.

Theatres: Legitimate, 1; Moving Pictures, 3. Total number of seats, 2,100.

Location: On main line of Gulf, Colorado & Santa Fe, and branch of M. K. & T. R. R. Two National Highways six miles from Southern Oklahoma line. Excellent motor truck service and passenger car lines. To nearest large city by railroad, 3 hours; by auto, 3 hours.

See announcement below

GILMER, TEXAS

(Upshur County)

1920 Population, 2,268. (est. 2,500.)

City and Suburban Estimate, 3,000.

Native Whites, 90%; Negroes, 10%; Industrial Workers, 1%; English Reading, 100%; Families, 500.

Schools: Public Grade, 2; High, 1.

Churches: Baptist, 1; Methodist, 1; Miscellaneous; Christian, 1.

Banks: National, 2; State, 1; Total Resources, $1,300,000.

Theatres: Moving Pictures, 1. Total number of seats, 500.

Location: On Jefferson Highway (Winnipeg to New Orleans), and on Cotton Belt R.R. (main line, St. Louis to Waco). To nearest larger city (Shreveport, La.) by auto, 4 hours.

Principal Industries: Agriculture, lumbering, oil mill (cottonseed), ice plant, bottling works, shingle mill, box factory. Farming includes cotton, sweet potatoes, peanuts, citrus, fruits, peaches, figs, melons, etc.

Special Information: Gilmer has a population of about 25,000. It is in the geographical center of the county and is its chief trading center as well. More than half the cotton raised in the county is sold in Gilmer. 90% of the people depend upon the prosperity of the farmers, as this is primarily an agricultural community, and known as the "Garden Spot of Texas," as anything grown in Texas, except oranges and grape fruits, can be grown, and are grown, abundantly here.

Residential Features: Most people are home owners. There is not a single apartment house, but houses owned by the occupant predominate, and while there are houses that are in the $15,000 to $20,000 cost class, the average is the brick or frame cottage so prevalent in Texas.

Retail Shopping Section: Extends on streets running into the Square. 75% of the stores are built around the Square, which is the location of the County Court House.

Trading Area: Roads lead to Gilmer from every community and settlement in the county and its trade area extends for a distance of about ten miles around Gilmer—in some cases as much as fifteen miles, from the more remote parts of the county.

Wholesale Houses: Groceries, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 4; automobile accessories, 7; automobile tire agencies, 7; bakers, 1; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 8; dressmakers, 4; druggists, 7; dry goods, 14; department stores, 2; electrical supplies, 1; florists, 1; furniture, 3; garages (public), 4; grocers, 12; hardware, 3; jewelry, 1; meat markets, 3; men's clothing, 1; merchant tailors, 2; milliners, 5; opticians, 1; photographers, 1; radio supplies, 2; restaurants (including hotels), 7; shoes, 1.

Miscellaneous Data: Average temperature, 75 degrees; average number of rainy days per twelve months, 50; most pleasant months, April, May, June, Sept., Oct., Nov., Dec.; doctors (medical, 6), (dentists, 3); electric current, alternating; water, soft.

HILLSBORO, TEXAS

(Hill County)

1920 Population, 6,952. (1925, est. 9,500.)

City and Suburban Estimate, 10,500.

Native Whites, 95%; Negroes, 4%; Foreign Born, 1%; Industrial Workers, 10%; English Reading, 99%; Families, 1,550.

Schools: Public Grade, 6; High, 1; Junior High, 1; Junior College, 1; Number of Pupils, 2,775.

Churches: Baptist, 4; Christian Science, 1; Episcopal, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 3; Christian, 1; Church of Christ, 1; Lazarus, 1.

Banks: National, 2; State, 1; Trust Co., 1; Total Resources, $540,000.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 1,600.

Location: Hillsboro is located a little east of the center of the State. Served by M. K. & T. Ry., St. Louis & Southwestern Ry., Trinity & Brazos Valley Ry., and the Texas Electric Railway Interurban, also by a system of good roads, two of which are State highways and are improved with hard surface entirely through the county. To nearest larger city by railroad (Ft. Worth), 2 hours; by auto (Dallas), 3 hours; by auto (Waco), 1 hour.

Principal Industries: Farming, Cottonseed oil and cake, cotton duck and Osneberg, advertising novelties.

Manufacturing Establishments: 5. Leading firms: Hillsboro Cotton Mills, Hill County Cotton Oil Co., Exporters & Traders Compress & Warehouse Co., Texas Novelty Advertising Co., Monarch Foundry & Machine Co.

Special Information: The location of the city of the main state highways and trunk line railroads places it among the prominent cities of the state, and the improvement of the highways bespeaks its public enterprise. The character of its business houses and institutions are evidence of its importance as a trade center. The establishment of a Junior College in connection with the school system places it in the front rank as an educational community.

Residential Features: Houses are mainly one and two-story structures tending toward modern features. Private houses predominate. A great deal of pride is manifested in keeping of private homes. 75% of citizens own homes.

Retail Shopping Section: Embraces all of the Public Square; 3 blocks on E. Elm Street, 3 on S. Waco Street, 3 on W. Elm Street, and 2 each on N. Waco and E. Franklin. 1 on W. Franklin, 1 on S. Covington. Two community neighborhoods in which minor supplies are sold, with quite a number of retail stores in other parts of the city.

Trading Area: Extends about twenty miles in all directions, while some business is secured from distances up to thirty miles. The interurban and excellent county roads provide means for transportation which increases business from a distance.

Wholesale Houses: Groceries, 3; miscellaneous lines, produce, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; automobile accessories, 10; automobile tire agencies, 13; bakers, 2; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 15; dressmakers, 7; druggists, 5; dry goods, 9; department stores, 3; electrical supplies, 3; florists, 2; fruits, 4; furniture, 4; garages (public), 7; grocers, 45; hardware, 3; jewelry, 4; meat markets, 7; men's furnishings, 1; men's clothing, 1; merchant tailors, 1; milliners, 6; opticians, 5; photographers, 2; pianos (and miscellaneous musical instruments), 3; radio supplies, 3; restaurants (including hotels), 9; shoes, 1; women's apparel, 1.

Miscellaneous Data: Average temperature, 66 degrees; average number of rainy days per twelve months, 65; most pleasant months, April, May, June, Sept., Oct., Nov.; doctors (medical, 15), (dentists, 4), (osteopaths, 1); gas, natural; electric current, alternating and direct; water, soft.

HOUSTON, TEXAS

(Harris County)

1920 Population, 138,276. (1925, est. 230,000.)

City and Suburban Estimate, 300,000.

Native Whites, 76.3%; Negroes, 16.5%; Foreign Born, 7.2%; Industrial Workers, 22%; English Reading, 95%; Families, 33,392 in 1922 (Present Est. 43,000).

Schools: Public Grade, 53; High, 6; Junior High, 3; Parochial, 14; Number of Pupils, 35,434.

Banks: National, 9; State, 8; Total Resources, $132,810,395. Savings Bank Deposits Total, $24,474,879.

Theatres: Legitimate, 1; Moving Pictures, 23; Vaudeville, 1; Burlesque, 2; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 30,000.

Location: Houston is located fifty miles from natural deep water and 25 miles from the head of Galveston Bay on the Houston ship channel. This is an artificial waterway with a depth of thirty feet and bottom width of one hundred and fifty feet. With terminals which are owned by the Port District, it has cost over $20,000,000. To nearest large city by railroad, 2 hours; by trolley, 1½ hours; by auto, 2 hours.

Principal Industries: Petroleum refining, vegetable oil pressing and refining, cottonseed products, car wheel foundries, rice milling, oil well machinery and supplies, press cloth, bagging factories, cement and fertilizer, iron and brass foundries, machine shops, packing house products, locomotive repair plants, flour mills, textile mills, railroad shops, candy, overalls, ice cream, boilers and tanks.

Manufacturing Establishments: 400. Leading firms: Sinclair Oil & Refining Co., Texas Company, Humble Oil Co., Texas Chemical Co., American Maid Flour Mills, Texas Portland Cement Co., Houston Packing Co., Cheek-Neal Coffee Co., Texas Creamery Co., Houston Textile Co.

Special Information: Houston claims to be the largest inland cotton market in the U. S., and the second cotton port, handling one-fifth of the American cotton crop. About one-seventh of all American oil is controlled by companies with head offices in Houston. Houston is the largest wool and lumber market in the Southwest. Houston is the home of the most heavily endowed university in the South. Houston leads the State of Texas in savings deposits.

Residential Features: Houston is primarily a city of one and two-family houses. More than 75% of its people live in one-family houses. There are practically no tenement districts. Apartments are mostly four or six-family size. Residences in the best section average from $8,000 to $20,000 in value. Ordinary houses, $4,000 to $7,000.

Retail Shopping Section: Main Street, running north and south from 100 to 1,200 blocks inclusive. Fannin and San Jacinto Streets, east of Main and Travis and Milam Streets, west of Main from 100 to 1,000 blocks inclusive.

Trading Area: Extends about thirty to thirty-five miles, north, west and south, possibly a little farther along the Interurban Line east.

Wholesale Houses: Groceries, 10; meats, 7; fruits, 33; hardware, 8; dry goods, 7; miscellaneous lines: shoes, 2; tires, 9; bottles, 2; genl. mdse., 1; grain, 16; confectionery, 6; tobacco, 5; bakers, 6; drugs, 3; ice, 10.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 32; commercial auto. agencies, 13; automobile accessories, 54; automobile tire agencies, 51; bakers, 60; cigar stores and stands (including hotels), 43 (chain, 3); confectioners (including hotel stands), 573; delicatessen, 14; dressmakers, 227; druggists, 152 (chain, 5); dry goods, 64; department stores, 5; electrical supplies, 17; florists, 40; fruits, 89; furniture, 68; furriers, 4; garages (public), 63; grocers, 841 (chain, 7); hardware, 17; jewelry, 35; meat markets, 158; men's furnishings, 22; men's clothing, 52; merchant tailors, 87; milliners, 23; opticians, 12; photographers, 37; pianos (and miscellaneous musical instruments), 19; radio supplies, 24; restaurants (including hotels), 225; shoes, 37; sporting goods, 9; stationers, 7; women's apparel, 17.

Miscellaneous Data: Average temperature, 69 degrees; average number of rainy days per twelve months, 101; most pleasant months, March, April, Oct., Nov.; doctors (medical, 375), (dentists, 115), (osteopaths, 11); number of wired houses, 37,875; street car service; gas, natural and artificial; electric current, alternating; water, hard.

JACKSONVILLE, TEXAS

(Chereokee County)

1920 Population, 3,723.

City and Suburban Estimate, 6,000.

Native Whites, 75%; Negroes, 25%; Industrial Workers, 15%; English Reading, 90%; Families, 1,200.

Schools: Public Grade, 4; High, 1; Junior College, 2; Number of Pupils, 1,800.

Churches: Baptist, 2 (white).

Banks: National, 1; State, 2; Total Resources, $2,500,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), four school auditoriums. Total number of seats, 4,000.

Location: On Missouri Pacific, Southern Pacific, and Cotton Belt R.Rs. Largest shipping point in Texas for tomatoes (551 carloads in 1925, with a total of 900 cars originating within 8 miles of town, out of total of 1,900 cars in Texas). Also large peach shipping point, about 100 cars this year. 10,000 bales of cotton this year. To nearest larger city (Dallas) by railroad, 5 hours; by auto, 6 hours.

Principal Industries: Three box and crate factories; two lumber and planing mills; cotton compress; ice factory; creamery; railroad repair shops.

Residential Features: About 1,000 residences, mostly frame houses, ranging from cheapest, to some costing $25,000. Probably a dozen apartment houses. Four to the house.

Retail Shopping Section: On Commerce Street. 5 blocks; Main, 5 blocks; Bolton, 2 blocks; and Rusk, 1 block.

Trading Area: 15 to 20 miles in each direction.

Wholesale Houses: Groceries, 4; fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 3; automobile accessories, 4; automobile tire agencies, 5; bakers, 2; cigar stores and stands (including hotels), 12; confectioners (including hotel stands), 12; delicatessen, 5; dressmakers, 12; druggists, 5; dry goods, 12; electrical supplies, 2; florists, 1; fruits, 6; furniture, 4; garages (public), 15; grocers, 15; hardware, 3; jewelry, 4; meat markets, 6; men's furnishings, 10; men's clothing, 10; merchant tailors, 3; milliners, 6; opticians, 4; photographers, 1; radio supplies, 4; restaurants (including hotels), 10; shoes, 10; sporting goods, 4; stationers, 4; women's apparel, 12.

Miscellaneous Data: Average temperature, 45 degrees; average number of rainy days per twelve months, 30; most pleasant months, April, May, June, Sept., Oct.; doctors (medical, 12), (dentists, 4); number of wired houses, 600; electric current, alternating; water, soft.

LAMPASAS, TEXAS

(Lampasas County)

1920 Population, 2,107.

City and Suburban Estimate, 3,500.

Native Whites, 90%; Negroes, 10%; English Reading, 100%.

Schools: Public Grade, 2; High, 1; Number of Pupils, 850.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 2; Private, 1; Total Resources, $1,500,000.

Theatres: Legitimate, 1; Moving Pictures, 2. Total number of seats, 1,500.

Location: In center of Texas on G. C. & S. F. Railway and Southern Pacific.

Principal Industries: Farming and stock raising.

Manufacturing Establishments: Large shipping point for wool mohair, pecans, turkeys, chickens, sheep and cattle.

Residential Features: Large percentage own their own homes.

Trading Area: 25 to 40 miles in each direction.

Wholesale Houses: Groceries, 4; Produce, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; commercial auto. agencies, 4; automobile accessories, 12; automobile tire agencies, 12; bakers, 1; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 6; dressmakers, 5; druggists, 3; dry goods, 5; department stores, 2; electrical supplies, 3; florists, 1; furniture, 2; furriers, 1; garages (public), 10; grocers, 5; hardware, 3; jewelry, 2; meat markets, 3; men's furnishings, 3; merchant tailors, 5; milliners, 3; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 4; restaurants (including hotels), 9; shoes, 5; sporting goods, 3; stationers, 3; women's apparel, 5.

LAREDO, TEXAS

(Webb County)

1920 Population, 22,710.

City and Suburban Estimate, 30,000.

Native Whites, 46.5%; Negroes, 0.2%; Foreign Born, 53.3%; Industrial Workers, 40%; English Reading, 75%; Families, 6,100.

Schools: Public Grade, 9; High, 1; Junior High, 1; Parochial, 3; Number of Pupils, 7,500.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Hebrew, 1; Methodist, 2; Presbyterian, 2; Roman Catholic, 3; Miscellaneous, 2.

Banks: National, 2; State, 2; Total Resources, $10,000,000. Savings Bank Deposits Total, $500,000.

Theatres: Legitimate, 3; Moving Pictures, 5. Total number of seats, 3,000.

Location: North bank of Rio Grande; served by International & Great Northern Ry., Texas-Mexican Ry. and Rio Grande & Eagle Pass Ry. Excellent bus service between Laredo and San Antonio over Meridian Highway to all parts of state. To nearest large city by railroad, 6 hours; by auto, 5 hours.

Principal Industries: Crude oil refining, Laredo brick, railroad shops, printing. Numerous miscellaneous factories such as ice, bakeries, rope and twine, planing mills, concrete materials, cotton gins, soap factory, garment factory, Mexican products, cotton-seed oil mill.

Manufacturing Establishments: About 100. Leading firms: Texas-Mexican Oil Refining Co., Mexican-American Soap Co., Laredo Brick Co., S. N. Johnson Brick Co., Farmer's Gin Co., Miskro Refining Co.

Special Information: Laredo is the natural and most important gateway for all commercial trade relations with Mexico. Also for passenger traffic and for the movement of cheap labor. Laredo's import and export movement between Mexico and the United States represents fifty million dollars' worth of commodities annually, ranking second to New York in trade relations with Mexico. Laredo is a producing territory for the famous Bermuda-Texas onions, spinach, and other winter truck growing crops. The movement is represented by 1,500 cars of onions, 1,200 cars of spinach, 1,000 cars of cabbage, carrots and other miscellaneous crops.

Residential Features: Mostly one-family houses. Private homes predominate. One of the finest residential sections is known as the Heights, being the eastern portion of the city.

Retail Shopping Section: Extends from Market Square, which constitutes the heart of the business section for a depth of two or three blocks each way around the square. Extends also toward the Federal Building and hotels, six or eight business blocks intervening between the Federal Building Square and Market Square. Street railway centers at Market Square, and radiates through the business district to the residential sections.

Trading Area: Includes Nueva Laredo in the State of Tamaulipas, across the Rio Grande. This also is a city of about 15,000. Surrounding territory is largely ranch and stockmen's country for a radius of 60 to 80 miles along the Rio Grande both north and south on the American side.

Wholesale Houses: Groceries, 6; meats, 5;

LUFKIN, TEXAS

(Angelina County)

1920 Population, 4,878; (1924, 6,500).

Native Whites, 80%; **Negroes,** 19%; **Foreign Born,** 1%; **Industrial Workers,** 25%; **English Reading,** 98%; **Families,** 1,200.

Schools: Public Grade, 5; High, 1; Number of Pupils, 2,400.

Churches: Baptist, 2; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 2.

Banks: National, 1; State, 2; Total Resources, $2,500,000; Savings Bank Deposits Total, $87,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 2,000.

Location: On main line of Houston East and West Texas Railway at the intersection of Lufkin Branch of St. Louis Southwestern. Also terminus of 3 branch lines and on direct highway between Shreveport and Houston where 5 hard surfaced roads meet.

Principal Industries: Four lumber mills, manufacturing pine and numerous hard wood mills that aggregate capacity of 600,000 feet per day. Foundry and machine shop, railroad shops, wagon works, special gin machinery, chemical plant, veneering plant, brick factory, chair and handle factory, 2 printing plants.

Manufacturing Establishments: 3. Lumber Manufacturing, Martin Wagon Works, Foundry and Machine Shops are shipping products to all parts of the United States and some foregin ports.

Special Information: Lufkin is located in the timber belt of the south and makes it a desirable location for the manufacture of furniture and other wood products. One of the largest distributing points in east Texas. Inbound and outbound car load traffic amount to more than 22,000 cars per annum.

Residential Features: Business portion of city covers about 25 blocks in the center of a tract of land covering 4 square miles. The residence portion surrounds this cental business portion and is built up largely with well constructed bungalows and two story frame structures. Very few rent homes in town; mostly owned.

Retail Shopping Section: Located largely on three principal streets, one of which lies at right angle of the other two, with a number of prominent stores being located on what is known as the square.

Trading Area: The trade territory reaches out on the rail lines 50 miles or more, while the highways bring in rural patronage up to 25 miles.

Wholesale Houses: Groceries, 3; meats, 1; fruits, 1; miscellaneous lines: Hay and grain, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto. agencies, 2; automobile accessories, 8; automobile tire agencies, 8; bakers, 2; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 6; druggists, 5; dry goods, 9; department stores, 2; electrical supplies, 5; florists, 1; fruits, 3; furniture, 4; garages (public), 6; grocers, 40; hardware, 2; jewelry, 3; meat markets, 4; men's furnishings, 6 men's clothing, 6; merchant tailors, 2; milliners, 5; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 1; radio supplies, 1; restaurants (including hotels), 10; shoes, 7; stationers, 3; women's apparel, 7; sporting goods, 2; dressmakers, 6.

McALLEN, TEXAS

(Hidalgo County)

1920 Population: 5,331.

City and Suburban Estimate, 10,000.

Native Whites, 60%; **Foreign Born,** 20%; **English Reading,** 70%.

Schools: Public Grade, 4; High, 1; Parochial, 2; Number of Pupils, 1,500.

Churches: Baptist, 1; Christian Science, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1.

Banks: National, 1; State, 1; Total Resources, $1,500,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 3.

Location: On Rio Grande River sever miles from Mexico, and 60 miles from mouth of river. On Gulf Coast Ry. in what is known as Rio Grande Valley. Franchises and arrangements made for second railway. The county of Hidalgo has more American farmers than any county in the state. McAllen largest city in upper valley.

Principal Industries: No manufacturing. Citrus fruit, grapefruit, oranges, lemons, etc.

Special Information: McAllen—the trading center of the valley—14 years old and just beginning to build rapidly. Big Baptist University going this Fall. Never freezes, tropical climate, gulf breeze, 60 miles from Gulf of Mexico.

SAN ANTONIO EVENING NEWS

Every Evening Except Sunday

Offer the National Advertiser

Two Distinct and Separate Newspapers of almost Non-Duplicating Circulations

San Antonio Express	32,767 Daily, 58,393 Sunday
San Antonio Evening News	34,143 Daily
Combined Daily Circulation	66,910 Daily

Over 26,000 Non-Duplicated City Carrier Circulation Alone

Lead in Circulation. Both the Express and News lead all other San Antonio papers in circulation. Their circulation is now at the highest point ever attained by either paper.

Nearly Double the Outside Circulation. The Daily Express, the only morning paper in San Antonio, has the class circulation in the city and nearly double the outside circulation of any other San Antonio paper.

Leads the Evening Field. The Evening News leads the evening field in total circulation, street sales and its carrier circulation is larger than the combined carrier, dealer and independent carrier circulation of the other evening paper.

The Sunday Express Leads. The Sunday Express leads in city carrier and outside circulation. Its outside circulation is nearly twice that of any other San Antonio Sunday paper.

Prestige Enjoyed. The prestige enjoyed by the San Antonio Express (morning), San Antonio Evening News (evening), makes them the greatest mediums for the National advertiser in a territory larger than the New England States and Ohio combined.

The Express and News, or our National Advertising Representatives, will be pleased to give you further information as to why and how the Express and Evening News combination covers San Antonio and the San Antonio territory more completely than any other combination of San Antonio newspapers.

WAXAHACHIE, TEXAS

(Ellis County)

1920 Population, 7,958.

City and Suburban Estimate, 20,000.

Native Whites, 84%; Negroes, 15%; Foreign Born, 1%; Industrial Workers, 5%; English Reading, 100%; Families, 1,550.

Schools: Public Grade, 4; High, 2; Number of Pupils, 3,000.

Churches: Baptist, 2; Christian 2; Episcopal, 1; Methodist, 1; Presbyterian, 2; Roman Catholic, 1.

Banks: National, 2; State, 1; Total Resources, $5,000,000.

Theatres: Moving Pictures, 2; Total number of seats, 650.

Location: Thirty-two miles south of Dallas, 45 miles southeast of Ft. Worth, served by M. K. & T., Southern Pacific, T. & N. V. RR., Texas Electric Ry.

Principal Industries: Cotton duck, cotton seed products, hosiery, medicine and toilet goods.

Manufacturing Establishments: 30. Leading firms: Waxachie Cotton Mills, Southland Cotton Oil Co., Planters Cotton Oil Co., Waxahachie Medicine Co., Ellis County Hosiery Mill. Total value of yearly output of factories estimated at $500,000.

Special Information: County seat of greatest cotton producing county in United States. Home of Trinity University—only college of the Presbyterian Church in Texas.

Residential Features: Homes are mostly comfortable bungalows or two story brick residences.

Retail Shopping Section: Principally around four sides of the main square, on which is the Court House, and extending one block in every direction from Square.

Trading Area: About 10 miles in all directions.

Wholesale Houses: Groceries, 3; meats, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 12; automobile accessories, 12; automobile tire agencies, 15; bakers, 2; confectioners (including hotel stands), 1; dressmakers, 5; druggists, 8; dry goods, 10; department stores, 4; electrical supplies, 4; florists, 2; furniture, 4; garages (public), 5; grocers, 20; hardware, 5; jewelry, 4; meat markets, 4; men's furnishings, 2; men's clothing, 10; milliners, 4; opticians, 5; photographers, 3; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 5; shoes, 11; sporting goods, 2; stationers, 10; women's apparel, 12.

WICHITA FALLS, TEXAS

(Wichita County)

1920 Population, 40,079.

City and Suburban Estimate, 58,023.

Native Whites, 90.1%; Negroes, 4%; Foreign Born, 5.9%; Industrial Workers, 8%; English Reading, 98.4%; Families, 12,000.

Schools: Public Grade, 12; High, 1; Junior High, 2; Junior College, 1; Parochial, 7; Number of Pupils, 8,315.

Churches: Baptist, 5; Christian Science, 1; Episcopal, 1; Hebrew, 2; Methodist, 5; Presbyterian, 4; Roman Catholic, 1; Miscellaneous, 8.

Banks: National, 3; State, 1; Trust Company, 1; Total Resources, $4,218,000.

Theatres: Legitimate, 2; Moving Pictures, 5. Total number of seats, 8,000.

Location: On Wichita River in northwest Texas. Served by Ft. Worth & Denver Ry., M. K. & T., (Missouri, Kansas & Texas); Wichita Falls & Oklahoma, Wichita Falls & Northwestern, Wichita Valley, and Wichita Falls & Southern. This gives seven outlets into the rich agricultural and oil regions of northwest Texas, and southern Oklahoma. The advantage in freight rates over other cities due to the Texas Common Point, makes this an ideal distributing center. Stage line service to surrounding points. To nearest large city by railroad, 4 hours; by auto, 5 hours.

Principal Industries: Refineries, motor trucks, fruit jars, window glass, brick and tile, railroad and machine shops, flour, poultry stock beds, printing, tank oil wells, tool supply mfrs.

Manufacturing Establishments: 125. Leading firms: Texhoma Oil & Refining Co., American Refinery, Panhandle Refinery, Wichita Motors, Ball Bros. Fruit Jar Co., Wichita Falls Window Glass Co., Wichita Mill & Elevator, Wichita Falls Brick & Tile Co. Total value of yearly output of factories estimated at $24,169,241.

Special Information: Oil center of north Texas and wholesale and distributing point of a territory of over 700,000 people. Recently completed Wichita irrigation project which will provide water to irrigate 150,000 acres of rich valley land. There are 18 refineries in immediate territory.

Residential Features: Mostly five and six room bungalows. Many beautiful and expensive homes scattered throughout the best residential sections.

Retail Shopping Section: Extends from Sixth Street to Tenth on Ohio, Indiana and Scott Avenues. A number of small neighborhood sections, with groceries, drug stores, meats, etc.

Trading Area: Extends about five miles in all directions with much business from greater distances because of good highways and bus service.

Wholesale Houses: Groceries, 4; meats, 3; fruits, 5; hardware, 5; miscellaneous lines, 35.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto. agencies, 5; automobile accessories, 25; automobile tire agencies, 28; bakers, 9; cigar stores and stands (including hotels), 20 (chain, 1); confectioners (including hotel stands), 43; delicatessen, 4; dressmakers, 40; druggists, 25 (chain, 8); dry goods, 7; department stores, 6; electrical supplies, 4; florists, 3; fruits, 25; furniture, 7; furriers, 6; garages (public), 28; grocers, 150 (chain, 10); hardware, 5; jewelry, 6; meat markets, 48; men's furnishings, 15; men's clothing, 17; merchant tailors, 2; milliners, 14; opticians, 5; photographers, 6; pianos (and miscellaneous musical instruments), 5; radio supplies, 6; restaurants (including hotels), 98; shoes, 16; sporting goods, 4; stationers, 5; women's apparel, 15.

Miscellaneous Data: Average temperature, 65 degrees; average number of rainy days per twelve months, 48; most pleasant months, April, May, Oct., Nov., Dec.; doctors (medical, 60), (dentists, 23), (osteopaths, 3); number of wired houses, 10,800; street car service; gas, natural; electric current, alternating; water, hard.

YOAKUM, TEXAS

(De Witt County)

1920 Population, 6,184.

City and Suburban Estimate, 12,300.

Native Whites, 73%; Negroes, 15%; Foreign Born, 12%; Industrial Workers, 40%; English Reading, 90%; Families, 1,750.

See announcement column 4

PROVO, UTAH

(Utah County)

1920 Population, 10,303.

City and Suburban Estimate, 40,792 within radius of 20 miles of city.

Native Whites, 89.7%; Negroes, 0.1%; Foreign Born, 10.2%; Industrial Workers, 15%; English Reading, 100%; Families, 2,130.

Schools: Public Grade, 4; High, 1; Junior High, 1; and 1 University. Number of pupils, 5,250.

Churches: Christian Science, 1; Congregational, 1; Episcopal, 1; Miscellaneous, 15 L. D. S. (Mormon).

Banks: State, 4.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,500.

Location: 48 miles south, south-east of Salt Lake City in Utah's richest valley. Served by the Union Pacific, Denver and Rio Grande western, and the Salt Lake and Utah railroad (Interurban). Auto bus connection with points east, west and south.

Principal Industries: Iron and railroad shops, machinery supplies, bricks, candy, woolen goods.

Manufacturing Establishments: 50. Leading firms, Columbia Steel Corporation, Provo Foundry and Machine Company, Utah Valley Gas and Coke Company, Startup Candy Company, Knight Woolen Mills, Smoot Lumber Company, National Packing Company, Provo Brick & Tile Company, Republic Creosote Company. Total value of yearly output of factories estimated at $7,500,000.

Special Information: Provo is located at the junction of the railroads tapping the large coal and iron fields of Utah. It is also an educational center, the large Young University of the L. D. S. church being located here with students coming from the entire inter-mountain country. Appropriation of a million dollars has been made by Congress for the reclamation of lands adjoining the Utah lake, less than three miles from Provo.

Residential Features: Majority of homes are for one family only. Three apartment houses and no tenement district. More than 80 per cent of residents own their own homes. Most homes average a cost of about $4,000. Many new homes built due to the increased industrial activities of the plants of the Columbia Steel Corporation.

Retail Shopping Section: Includes eight blocks in the heart of the city. Smaller grocery stores are scattered in various parts of the city.

Trading Area: Extends all over Utah county, covering a distance of about 25 miles north and 30 miles south of Provo. All travel north or south must pass through Provo due to the mountains east of the city and the lake west of the city. Residents of the higher Wasatch valley, 20 miles northeast, also patronize Provo stores, as do also the residents of the Tintic mining district, about 40 miles southwest from here.

Wholesale Houses: Groceries, 2; meats, 2; fruits, 2; dry goods, 1; miscellaneous lines, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; commercial auto. agencies, 7; automobile accessories, 12; automobile tire agencies, 15; bakers, 3; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 8; delicatessen, 2; dressmakers, 10; druggists, 4; dry goods, 7; department stores, 5; electrical supplies, 4; florists, 5; fruits, 20; furniture, 5; garages (public), 7; grocers, 35; hardware, 3; jewelry, 3; meat markets, 12; men's furnishings, 6; men's clothing, 6; merchant tailors, 3; milliners, 4; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 4; restaurants (including hotels), 8; shoes, 12; sporting goods, 2; stationers, 3; women's apparel, 9.

Prosperity in the Salt Lake Territory

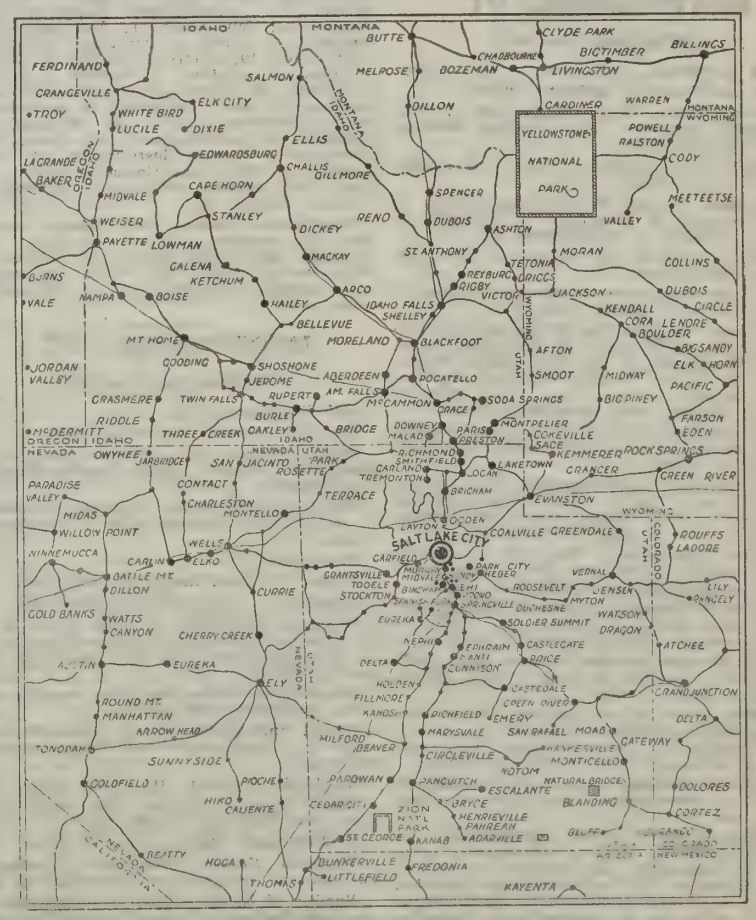
Agricultural products bringing good yield and fair prices to 50,000 farmers—

Sugar and canning factories at full blast and prices good—

Sheep and wool and the livestock industry in a healthy condition—

Coal mines working full time—

A newly established iron and steel industry growing into a mighty power—



Mines of copper, gold and silver working to capacity—

Smelters running night and day, as a result of high metal prices—

Manufacturing steadily increasing—

These spell prosperity for Salt Lake, one of the big jobbing centers of the West, whose steadily increasing importance in commerce is attracting attention throughout the country.

The City of Salt Lake, its suburbs and the retail and jobbing territory outside (as shown in the accompanying map) are completely dominated by

NEWPORT NEWS, VA.

An independent community with a population of approximately 35,000 people, and a trading area population of over 100,000.

Newport News, in spite of its fame as an export and import city,, has a diversity of industry,—manufacturing steel freight cars, heavy machinery of all kinds, ship-building, from small power boats to the greatest men-of-war, men's and women's wear, furniture, mattresses, phonographs, various leather products, fertilizers, and canned sea food, besides various other smaller industries giving employment to a large number of contented men and women.

Situated on the famous harbor of Hampton Roads, at the mouth of the James River, on the Tidewater Peninsula of Virginia, it does not depend upon any other city for its business or support.

This prosperous and responsive field is served only by the DAILY PRESS and EVENING TIMES-HERALD—they are the only daily newspapers published in Newport News, and the five surrounding counties.

The circulation of the DAILY PRESS is 5,173 daily and 8,922 Sunday, and the EVENING TIMES-HERALD 7,791 daily.

Their combined circulation, is 12,964 daily, and the rate is 5c per agate line flat—space is not sold in either paper separately. Advertisers have the choice of using both papers on the same day, or the evening paper of one day and the morning paper of the next. Both newspapers are members of the A. B. C.

The DAILY PRESS and TIMES-HERALD completely cover Newport News and the surrounding towns and cities of that section. They are not reached by any other newspapers, and the Norfolk and Richmond papers have little or no circulation in Newport News.

Newport News retail merchants may buy largely from Norfolk, Richmond and Baltimore jobbers and wholesalers, but the retailer and consumer demand is in Newport News, where the goods are sold, and a demand for your product in Newport News can only be created through advertising in the DAILY PRESS and TIMES-HERALD. Do not overlook Newport News because the retail merchants buy through outside jobbers—the demand exists in Newport News.

We will be glad to make a canvass or survey of any product among the retailers if you desire a line on Newport News distribution.

Churches: Baptists, 1; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 2; State, 2; Total Resources, $8,000,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 2,000.

Location: In the famous Shenandoah Valley of Virginia, in the heart of the apple belt. Three railroads: B. & O., Penna. R. R. and Winchester & Western. The last named having opened a virgin country of minerals, magnesium and millions of feet of virgin timber. The apple industry in this section has grown to be one of the largest in the South. The Handley Schools are among the finest in the world, building having cost $750,000 with an endowment fund of $1,000,000.

Principal Industries: Virginia Woolen Co., 300 men. Lewis Jones Knitting Co., 100 employes. Winchester Woolen Mills.

Manufacturing Establishments: The beautiful location of this thriving little city makes it a haven for tourists and a brand new 100 room hotel, added to former hotel facilities, making it a wonderful stopping place, especially during the Apple Blossom Festival, which is held each year and when the town is flooded with people from all sections.

Residential Features: Town is composed of several residential sections, a business district and small home sections. The residential sections are among the finest in the state, being made up chiefly or retired farmers and fruit growers. The town as a whole consists of pretty and attractive homes, a great majority of the people owning their own.

Retail Shopping Section: North Main, Piccadilly and Water St.

Trading Area: Extends 20 to 25 miles north, east, south and west, and in some cases as much as 50 miles.

Wholesale Houses: Groceries, 3; meats, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 4; automobile accessories, 15; automobile tire agencies, 16; bakers, 1; cigar stores and stands (including hotels), 11; confectioners (including botel stands), 4; dressmakers, 5; druggists, 5; dry goods, 5; department stores, 3; electrical supplies, 3; florists, 1; fruits, 2; furniture, 2; garages (public), 5; grocers, 53; hardware, 4; jewelry, 4; meat markets, 7; men's furnishing, 3; men's clothing, 7; merchant tailors, 1; milliners, 5; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 4; restaurants (including hotels), 8; shoes, 5; sporting goods, 2; stationers, 3; women's apparel, 6.

Standard Surveys of WASHINGTON

ABERDEEN, WASH.

(Grays Harbor County)

1920 Population, 15,337.

City and Suburban Estimate, 60,000.

Native Whites, 75%; Negroes, .001%; Foreign Born, 25%; Industrial Workers, 30%; English Reading, 80%; Families, 4,107.

Schools: Public Grade, 8; Parochial, 1.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 2; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 2; State, 4; Total Resources, $15,500,000; Savings Banks Deposits Total, $3,900,000.

Theatres: Legitimate, 1; Moving Pictures, 5; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 7,500.

Location: On N. & P., Union Pacific and Milwaukee Railroads. Many steamship freight lines to Atlantic ports and Orient on which are operated large lumber carriers. Nearest large city is 4 hours distant by auto and 5½ hours by railroad.

Principal Industries: Lumber manufacturing, 12 saw mills, shingle mills, bucket and keg factories, door factories, veneer plants, woodworking factories, fruit and fish canneries.

Manufacturing Establishments, 44. Leading firms: Anderson Middleton Mills, and Logging Co.

Special Information: The trade center for all of prosperous surrounding territory. Center for thousands of tourists during summer.

Residential Features: Mostly houses of five and six rooms, very few old fashioned dwellings. Less than 100 workmen's shacks. Many fine homes have been and are being built.

Retail Shopping Section: Confined largely to two streets, one of which is given over to groceries, meat markets, etc. Second business street now being built as result of new bridge at main entrance recently completed. Complete change in business section certain during next few years.

Trading Area: 35 miles to east and 20 miles west, both sections being spotted with small towns. 20 miles north and south, farms only.

Wholesale Houses: Groceries, 2; meats, 3; fruits, 3; hardware, 2; logging and mill machinery.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 14; commercial auto. agencies, 2; automobile accessories, 2; automobile tire agencies, 20; bakers, 4; cigar stores and stands (including hotels), 46; confectioners (including hotel stands), 44; delicatessen, 1; dressmakers, 16; druggists, 15 (chain, 1); dry goods, 7; department stores, 4; electrical supplies, 3; florists, 3; fruits, 2; furniture, 4; furriers, 2; garages (public), 7; grocers, 45 (chain, 2); hardware, 3; jewelry, 5; meat markets, 17; men's furnishings, 11; men's clothing, 12; merchant tailors, 3; milliners, 3; opticians, 4; photographers, 6; pianos (and miscellaneous musical instruments), 4; radio supplies, 5; restaurants (including hotels) 30; shoes, 17; sporting goods, 3; stationers, 4; women's apparel, 3.

Miscellaneous Data: Average temperature 55 degrees; average number of rainy days per twelve months, 150; most pleasant months, June 1st to November 1st; doctors (medical, 22), (dentists, 22), (osteopaths, 1); number of wired houses, 6,000; street car service; gas, artificial; electric current, alternating; water, soft.

BELLINGHAM, WASH.

(Whatcom County)

1920 Population, 25,585 (1925 est. 38,000).

Native Whites, 79%; Foreign Born, 21%.

Schools: Public Grade, 12; High, 2; State Normal, 1; Parochial, 2; Total number of Pupils, 6,000.

Churches: 43 Christian religious societies and organizations.

Banks: National, 4.

Theatres: Vaudeville, 1; Moving Pictures, 4.

Location: On Bellingham Bay, one of the best harbors on the Pacific Ocean, also served by four trans-continental railroads—Gt. Northern, Northern Pacific, Chicago, Milwaukee & St. Paul, and Canadian Pacific.

Principal Industries: Lumber mills and manufacturers of lumber products, several of largest mills in Northwest located in trading area; headquarters of the Puget Sound salmon canning industry, and home of 12 packing corporations engaged in Alaska Fisheries, operating fleet of steamers making this their home port and drawing their labor supply from this city; coal mining, Portland cements, poultry products, dairy products.

Manufacturing Establishments: Center of extensive system of paved highways, covering Whatcom and Skagit counties. Every town of

(*Continued on page* 261)

NO district in the Pacific Northwest is showing more rapid and substantial growth than the Bellingham district of the Puget Sound country.

It leads in lumber, fisheries, poultry and dairy products, fruit canning, sugar beet culture, cement manufacture, coal production, highway construction and in development of recreational resources.

Nearly seventy percent of the citizens own their homes.

Few, if any newspapers as thoroughly cover their trading field as

The Bellingham Herald

(Evening)

The Bellingham Reveille

(Morning and Sunday)

These newspapers will soon occupy a $350,000 home now being erected and owned by them and equipped with most modern machinery.

VEREE & CONKLIN

Special Representatives

WASHINGTON (Cont'd)

Bellingham (con't)

Whatcom County is connected with every other town by a paved highway, and from Bellingham all the towns of Whatcom or Skagit County may be reached in an hour's drive over a paved road, and the Pacific Highway runs through it, which is all paved from Vancouver, B. C., to the California line, and lacks only few miles of being all paved from Vancouver to the Mexican line.

Residential Features: Large per cent own their own homes. Mostly one and two family.

Retail Shopping Section: Has several retail shopping centers. Principal one comprises Elk and Holly Sts., extending around the bay for a distance of one and a half miles, with one to five blocks of their intersecting streets; the old town of Fairhaven, on Lake Whatcom, the Normal School district, etc.

Trading Area: All of Whatcom, Skagit and San Juan Counties, with a population of 150,000.

Wholesale Houses: Groceries, 3; hardware, 2; dry goods, 3; miscellaneous lines, drugs, 1; auto accessories, 1.

Number of Retail Outlets for National Advertised Products: Bakers, 11; cigar stores and stands (including hotels), 22; confectioners (including hotel stands), 10; druggists, 13; dry goods, 7; department stores, 3; electrical supplies, 7; florists, 5; furniture, 6; furriers, 2; grocers, 81; hardware, 7; meat markets, 19; men's clothing, 9; merchant tailors, 9; pianos (and miscellaneous musical instruments), 5; restaurants (including hotels), 19; shoes, 16.

See announcement page 260

BREMERTON, WASH.

(Kitsap County)

1920 Population, 8,918.

City and Suburban Estimate, 20,000.

Native Whites, 99; Negroes, ¼ of 1%; Foreign Born, ¾ of 1%; Industrial Workers, 75%; English Reading 100%; Families, 2,254.

Schools: Public Grade, 4; High, 1; Number of Pupils, 1,960.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, Seventh Day Adventist and Colored A. M. E.

Banks: National, 1; State, 2; Total Resources, $3,500,000.

Theatres: Moving Pictures, 1; Vaudeville, 1. Total number of seats, 3,000.

Location: No railroads, but 18 miles by water from Seattle. Easy access to markets of city and transportation.

Principal Industries: United States Navy Yard. Farming of truck garden variety.

Special Information: Bremerton and Charleston, two distinct but nearby communities, have a population of approximately 15,000 and are part of a trading radius of 20,000 in the Navy Yard Bay district. Bremerton is the home port of the United States battle fleet, and employed in the Yard are 4,000 civilians.

Residential Features: Approximately 1,000 homes are in Bremerton-Charleston. There are twelve apartment houses capable of housing 500 people.

Retail Shopping Section: Pacific Avenue, 6 blocks; Front Street, 2 blocks; Second Street, 1 block; Burwell Avenue, 2 blocks; Fourth Street, 3 blocks; Fifth Street, 2 blocks; Naval Avenue, 1 block; Washington Avenue, 4 blocks.

Trading Area: Thirty-five miles.

Wholesale Houses: Groceries, 2; meats, 2; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; commercial auto. agencies, 2; automobile accessories, 4; automobile tire agencies, 6; bakers, 1; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 12; delicatessen, 2; dressmakers, 2; druggists, 4 (chain, 1); dry goods, 3; department stores, 3; electrical supplies, 4; florists, 2; fruits, 4; furniture, 3; garages (public), 3; grocers, 25 (chain, 3); hardware, 2; jewelry, 4; meat markets, 7 (chain, 3); men's furnishings, 4; men's clothing, 4; merchant tailors, 3; milliners, 2; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 1; radio supplies, 6; restaurants (including hotels), 12; shoes, 5; sporting goods, 2; stationers, 1; woman's apparel, 4.

Miscellaneous Data: Average temperature, 70 degrees; average number of rainy days per twelve months, 75; most pleasant months, April, May, June, July, Aug., and Sept.; doctors (medical, 7); (dentists, 10); (osteopaths, 2); electric current, alternating; water, soft.

CENTRALIA, WASH.

(Lewis County)

1920 Population, 7,549 (1925 est., 10,000).

City and Suburban Estimate, 18,000.

Native Whites, 95%; Foreign Born, 5%; Industrial Workers, 65%; English Reading, 97%; Families, 1,800.

Schools: Public Grade, 6; High, 1; Junior High, 1; Parochial, 1; Suburban, 3; Number of Pupils, 2,950.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 7.

Banks: State, 3; Total Resources, $5,000,000.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 4,000.

Location: Midway between Seattle and Portland, 104 miles from each. Served by Nor. Pac., Great Northern, Union Pacific and Milwaukee Railroads. Excellent motor stage service north and south, east and west. Nearest larger city is 2 hours by auto and 1¾ hours by railroad.

Principal Industries: Lumber and lignite coal.

Manufacturing Establishments: Eastern Ry. and Lumber Co., Lincoln Creek Lumber Co., Centralia Cross Arm Factory, Lumber Transit Co., Victory Coal Mine, Mendota Coal Co., Washington Coal Co., Shean Briquette Co., Olympia Mine, Concrete Pipe Co., Centralia Iron Works, Genge Mfg. Co., Churchill Glove Mfg. Co., Polar Ice Cream Co., Pitts Mfg. Co. Annual output, mills and mines, $5,000,000.

Special Information: Distributing railroad center for Grays Harbor, Willapa Harbor and eastern Lewis County. R. R. payroll, $85,000 month. District shipped 5,500,000 dozen eggs in 1924. Fine strawberry crops.

Residential Features: Modern homes, mostly owned by occupants.

Retail Shopping Section: 10 blocks on Tower Ave. north and south, 3 blocks on Main; numerous family groceries in outskirts.

Trading Area: Come from 50 miles in all directions to trade, but exclusive area is probably confined to 20 mile circle. Center of about 50,000 population.

Wholesale Houses: Groceries, 2; meats, 4; fruits, 2; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 5; automobile accessories, 3; automobile tire agencies, 2; bakers, 3; cigar stores and stands (including hotels), 11; confectioners (including hotel stands), 4; delicatessen, 1; dressmakers, 7; druggists, 7; dry goods, 3; department stores, 1; electrical supplies, 3; florists, 2; fruits, 4; furniture, 5; furriers, 1; garages (public), 14; grocers, 49 (chain, 2); hardware, 6; jewelry, 4; meat markets, 10 (chain, 2); men's furnishings, 5; men's clothing, 6; merchant tailors, 4; milliners, 3; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 6; radio supplies, 3; restaurants (including hotels), 22; shoes, 8; sporting goods, 5; stationers, 3; women's apparel, 19.

Miscellaneous Data: Average temperature, 46 degrees; average number of rainy days per twelve months, 193; most pleasant months, May, June, July, Aug., Sept.; doctors (medical, 14); (dentists, 9); (osteopaths, 3); number of wired houses, 3,150; street car service; gas, artificial; electric current, alternating; water, soft.

ELLENSBURG, WASH.

(Kittitas County)

1920 Population, 3,967.

City and Suburban Estimate, 6,000.

Native Whites, 85%; Negroes, 5%; Foreign Born, 10%; Industrial Workers, 25%; English Reading, 98%; Families, 1,250, city and suburbs.

Schools: Public Grade, 3; High, 1; Junior High, 1; Parochial, 1; State Normal, 3. Number of Pupils, 1,345. Normal, over 1,000.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 2; State, 1; Total Resources, $3,050,772. Savings Bank Deposits Total, $2,528,264.

Theatres: Legitimate, 1; Moving Pictures, 2. Total number of seats, 4,000.

Location: Ellensburg is located 125 miles east of Seattle and Tacoma, Washington, in irrigated section of northern Yakima Valley on main lines of Northern Pacific and Milwaukee Railroads. Railroad service is excellent. Fine automobile roads east and west to Pacific Coast and east and south. Much freight handled by trucks for shorter hauls. Five great auto highways pass through Ellensburg.

Principal Industries: Ellensburg is a Northern Pacific division point and railroad shops located here. Creameries, lumber, coal mining (near), farming, flour mills, stock raising, hay and grain, wool, fruit, feed mills. Hay shipped 65,000 tons, consumed locally 30,000 tons. Bushels grain raised annually 500,000. Lumber output approximately 23,000,000 feet.

Manufacturing Establishments: 11. Leading firms: Ellensburg Lumber Co., Kittitas Lumber Co., Tjossem Flour Mills, Consolidated Creamery, Ellensburg Milling Co. This is not chiefly a manufacturing section. The real backing of Ellensburg is the dairying, agricultural and stock raising. Impossible to reduce to an accurate dollar and cent basis.

Special Information: Ellensburg is the buying center of an immensely rich and fertile irrigated section. Near Ellensburg are largest bituminous coal fields in the west, employing thousands of men the year round. Division point on N. P., payroll over $1,000,000 annually.

Residential Features: Ellensburg is distinctively a city of comfortable homes; few apartments. Most of the occupants own their own homes. Average $2,500, lowered by the number of inexpensive cottages and small bungalows.

Retail Shopping Section: The retail shopping district is practically included in a section of 9 blocks, between 3d and 6th Sts. north and south and Pine St., Pearl St. and Main St. east and west. Pearl is the main business street. Not only are all these streets paved, but the paving extends well into the residential district, there being over 12 miles of paving in city and suburbs.

Trading Area: From the north and northeast about 40 miles, including the large trade from the coal mining and lumber industrial section to the north. On the east a prosperous farm trade for about 15 miles and scattering trade for 40 or 50 miles. On the south the same for about 12 miles and west about 10 miles. The largest towns in this section of Washington are Yakima, 40 miles southeast, and Wenatchee, 75 miles northeast. High mountain ranges completely enclose the valley.

Wholesale Houses: Fruits, 2; miscellaneous lines, lumber 2, flour 2, butter 2, ice cream 1, hay and grain 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 6; automobile accessories, 15; automobile tire agencies, 13; bakers, 3; cigar stores and stands (including hotel), 18; confectioners (including hotel stands), 12; dressmakers, 6; druggists, 4; dry goods, 4; electrical supplies, 2; florists, 2; furniture, 3; garages (public), 10; grocers, 8; hardware, 3; jewelry, 3; meat markets, 3; men's furnishings, 4; men's clothing, 6; merchant tailors, 3; milliners, 3; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 2; radio supplies, 6; restaurants (including hotels), 9; shoes, 4; sporting goods, 4; stationers, 5; women's apparel, 6.

EVERETT, WASH.

(Snohomish County)

1920 Population, 27,744 (1925 est. 36,000).

City and Suburban Estimate, 78,000.

Native Whites, 78%; Negroes, 1%; Foreign Born, 21%; Industrial Workers, 14%; English Reading, 90%; Families, 7,514.

Schools: Public Grade, 9; High, 1; Junior High, 2; Parochial, 5; Number of Pupils, 7,736.

Churches: Baptist, 4; Christian Science, 1; Congregational, 2; Episcopal, 1; Hebrew, 2; Methodist, 5; Presbyterian, 3; Roman Catholic, 2; Miscellaneous, 32.

Banks: National, 2; State, 3; Total Resources, $17,316,065. Deposits Total, $15,973,209.

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 5,000.

Location: Everett holds very central location on Puget Sound, at the mouth of the Snohomish River, 33 miles north of Seattle. Here the Great Northern first reaches tidewater, and from the port of Everett is short shipping route across the Pacific. Nearest larger city is 1¼ hours distant by auto, trolley and railroad.

Principal Industries: Lumber, fruit, vegetables and fish canning, paper manufacturing, steel shingles, brick, milk condensing, stoves, tannery, railroad shops and yards.

Manufacturing Establishments: 294. Leading firms: Three Weyerhauser Lumber Mills, Sumner Iron Works, Everett Fruit Products Co., Everett Pulp and Paper Mill, Clark-Nickerson, Robinson Mfg. Co., Washington Stove Works, Everett Steel Co., American Packing Co., Walton Lumber Co., Canyon Mill Co., Hulbert Mill Co., Clough-Hartley Co. Annual output, $50,000,000.

Special Information: 1 of every 7 people works in a mill or factory. Annual payroll estimated at $15,000,000. During 1923 there passed through this port manufactured goods, lumber, logs and freight in volume of more than 4,000,000 tons, valued at $40,000,000.

Residential Features: Mostly one and two-family houses. Limited section devoted to workingmen's tenements. Private homes predominate. Homes in the best residential section average $4,000 to $15,000.

Retail Shopping Section: Extends from G. N. depot, Hewitt and Bond St., east 20 blocks, then north 4, south 3 blocks from Colby and Hewitt Ave., which forms the heart of business section and terminal for suburban trolley and bus lines. Several smaller neighborhood sections with usual stores.

Trading Area: Extends about 40 miles north and east and 15 miles to the south. Intermittent business from people living at greater distances because of fine trolley and bus service, made possible by Puget Sound Power & Light Co.

Wholesale Houses: Groceries, 2; meats, 3; fruits, 2; hardware, 1; cigars, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; commercial auto. agencies, 4; automobile accessories, 23; automobile tire agencies, 13; bakers, 8; cigar stores and stands (including hotels), 12; confectioners (including hotel stands), 50; delicatessen, 10; dressmakers, 155; druggists, 12; dry goods, 10; department stores, 2; electrical supplies, 9; florists, 3; fruits, 48; furniture, 8; furriers, 2; garages (public), 45; grocers, 108 (chain, 2); hardware, 6; jewelry, 11; meat markets, 24; men's furnishings, 13; men's clothing, 10; merchant tailors, 10; milliners, 12; opticians, 6; photographers, 10; pianos (and miscellaneous musical instruments), 5; radio supplies, 10; restaurants (including hotels), 16; shoes, 11; sporting goods, 7; stationers, 2; women's apparel, 5.

Miscellaneous Data: Average temperature, 49 degrees; average number of rainy days per twelve months, 157; most pleasant months, April to September, inclusive; doctors (medical, 42), (dentists, 30), (osteopaths, 6); number of wired houses, 6,500; street car service and motor bus service; gas, artificial; electric current, direct; water, soft.

HOQUIAM, WASH.

(Grays Harbor County)

1920 Population, 10,058.

City and Suburban Estimate, 14,000.

Native Whites, 90%; Negroes, .0017%; Foreign Born, 10%; Industrial Workers, 90%; English Reading, 80%; Families, 2,750.

Schools: Public Grade, 9; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 2,300.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 1; State, 1; Total Resources, $5,763,914.48; Savings Banks Deposits Total, $5,129,377.01.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 3,000.

Location: On Gray's Harbor in southwest Washington. Connected with Alaska, the Orient, Australia and all important points by excellent steamship service. Served by Chicago, Milwaukee & St. Paul, Northern Pacific, Oregon-Washington, Union Pacific Railways. Very good bus service to western and central parts of the state. Nearest larger city is 3 hours by auto and 4 hours by railroad.

Principal Industries: Lumbering, salmon fisheries, door manufacturing, piano boards, agriculture, bee-keeping, logging machinery. The only whaling station in the United States.

Manufacturing Establishments, 20. Leading firms: Eureka Cedar Lbr. & Shingle Co., Grays Harbor Lbr. Co., National Lumber & Box Co., North Bay Lbr. Co., North Western Lbr. Co., Posey Mfg. Co., E. K. Wood Lbr. Co., East Hoquiam Shingle Co., Robert Gray Shingle Co., American Door Mfg. Co., Home Building & Mfg. Co., Knox & Toombs, Arquetite Products Co., Hoquiam Mfg. Co., Grays Harbor Veneer Co., Lamb Machine Co., Chilmen shipyards. Value annual output, $20,000,000.

Special Information: Noted for production of lumber. Is a leader in lumber shipments with one billion and a quarter feet of sawmill products in 1923. The 1924 production is in excess of 1,000,000,000 feet by water alone. Over 11,000 men are employed in the camps and mills. Payroll is $17,000,000. There are 112 plants in the county, which have a daily capacity of 3,672,000 feet of lumber and 7,100,000 shingles. Log production is 6,000,000 feet per day. In 1923 the fisheries pack of canneries was estimated at $1,000,000.

Residential Features: Mostly wooden, one-family houses. No special residential section. Section of town populated by foreign born. Not many apartment houses, and no tenement district.

Retail Shopping Section: Business section includes 8th St. Levee, I. J. K. 7th, Lincoln, Washington, Monroe, Simpson, Ontario, etc. Approximately 26 business blocks. Three small outlying business districts, with groceries, etc.

Trading Area: People from 50 miles north, Lake Quinault, come to Hoquiam for supplies; also from 35 miles east, beaches and Indian Reservation.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 3; hardware, 1; miscellaneous lines, logging equipment, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; commercial auto agencies, 7; automobile accessories, 8; automobile tire agencies, 4; bakers, 3; cigar stores and stands (including hotels), 18; confectioners (including hotel stands), 15; delicatessen, 1; dressmakers, 7; druggists, 8; dry goods, 8; department stores, 6; electrical supplies, 3; florists, 3; fruits, 4; furniture, 9; garages (public), 11; grocers, 28 (chain, 2); hardware, 4; jewelry, 4; meat markets, 11; men's furnishing, 9; merchant tailors, 5; milliners, 3; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 3; restaurants (including hotels), 11; shoes, 7; sporting goods, 4; stationers, 6; women's apparel, 12.

Miscellaneous Data: Average temperature, 58.5 degrees; average number of rainy days per 12 months, 180; most pleasant months, February to November, inclusive; doctors (medical, 9), (dentists, 11), (osteopaths, 1); number of wired houses, 2,990; street car service; gas, artificial; electric current, alternating; water, soft.

KELSO, WASH.

(Cowlitz County)

1920 Population, 2,228.

City and Suburban Estimate, 10,000.

Native Whites, 75%; Negroes, 1%; Foreign Born, 24%; Industrial Workers, 50%; English Reading, 90%; Families, 2,000.

Schools: Public Grade, 4; High, 1; Junior High, 1.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 5.

Banks: National, 1; State, 1; Savings Bank Deposits Total, over $1,000,000.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 2,550.

Location: On the Cowlitz River 3½ miles from the mouth, where it joins the Columbia River. Union Pacific, Nor. Pacific and Great Northern railroads. Served by steamship service with ports on Cowlitz River County seat of Cowlitz Co.

Principal Industries: Manufacturers of lumber products, shingle mills, canneries, can factory, smelt fishing, coal mines, lumbering, veneer plant.

Special Information: The town of Kelso joins the limits of Longview and to intents and purposes is one city. The Longview Public Service Co. operate a regular schedule of auto buses connecting Longview and Kelso business and residential sections.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 2; miscellaneous lines, 2.

WASHINGTON (Cont'd)

LONGVIEW, WASH.

(Benton County)

1920 Population, 2,000.

City and Suburban Estimate, 15,000.

Native Whites, 94%; **Negroes,** 1%; **Foreign Born,** 5%; **Industrial Workers,** 85%; **English Reading,** 90%; **Families,** 1,000.

Schools: Public Grade, 1; High, 1; Number of Pupils, 1,500.

Churches: Christian Science, 1; Miscellaneous, 2.

Banks: National, 1; State, 1; Total Resources, $1,500,000.

Theatres: Moving Pictures, 1; Combination, 1.

Location: At confluence of Cowlitz and Columbia Rivers in Benton Co. Connected by the Longview, Portland and Northern R. R. with the Nor. Pac., G. N. and U. P. systems. Service by steamship with port on Columbia River. Excellent stage service on Columbia River and Pacific Coast highways. Nearest larger city is 2 hours distant by auto and railroad.

Principal Industries: Lumber manufacture, straw paper manufacturing, creamery, concrete pipe and brick.

Manufacturing Establishments, 4. Leading firms: Long-Bell Lumber Co., Weyerheaner Timber Co., Longview Concrete Pipe Co., Pacific Straw Paper and Board Co., Highland Dairy.

Special Information: Two of the largest sawmills in the country are located here.

Residential Features: One-family houses predominate. Under zoning plan there are 4 residential sections, two having no restrictions, one requiring dwellings to cost $1,000 or more and the other to cost $3,000 or more. No business buildings allowed in these sections.

Retail Shopping Section: Main shopping section from Michigan Ave., down both sides of Commerce St. to Hemlock. Smaller sections located on Broadway, Hudson, 12th and 14th streets.

Trading Area: People from Kalama, Kelso, Castle Rock, Ostrander and Ranier, covering a radius of 12 miles, make this their shopping center. The newly opened road into Wakkeakum County will enable people forty miles away to shop here.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 6; commercial auto agencies, 3; automobile accessories, 3; automobile tire agencies, 5; bakers, 2; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 3; delicatessen, 1; dressmakers, 3; druggists, 4; dry goods, 3; department stores, 1; electrical supplies, 2; florists, 2; furniture, 4; garages (public), 3; grocers, 9 (chain, 2); hardware, 3; jewelry, 3; meat markets, 4; men's furnishings, 3; men's clothing, 3; merchant tailors, 2; milliners, 3; opticians, 1; photographers, 3; pianos (and miscellaneous musical instruments), 1; restaurants (including hotels), 7; shoes, 4; sporting goods, 5; stationers, 2; women's apparel, 2.

Miscellaneous Data: Average temperature, 53 degrees; average number of rainy days per 12 months, 120; most pleasant months, July, Aug., Sept.; doctors (medical, 8), (dentists, 6), (osteopaths, 2); number of wired houses, 1,640; street car service; electric current, alternating; water, soft.

MOUNT VERNON, WASH.

(Skagit County)

1920 Population, 3,341. (1925, est. 4,500.)

City and Suburban Estimate, 16,000.

Native Whites, 99%; **Foreign Born,** 1%; **Industrial Workers,** 15%; **English Reading,** 90%; **Families,** 2,000.

Schools: Public Grade, 8; High, 4; Number of Pupils, 1,000.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 3; **Total Resources, $2,500,000.**

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 3,000.

Location: On Puget Sound midway between Seattle on the south and Vancouver, B. C., on the north. Bellingham 35 miles to the north and Everett 40 miles to the south. Nearest larger city is 1 hour by auto and railroad; 45 minutes by trolley.

Principal Industries: Dairying, farming and seed raising.

Manufacturing Establishments: Three milk condensers and one cannery.

Residential Features: Strictly a residential town. Private homes and all of the substanial variety. Beautiful homes, many costing $15,000 to $20,000. Average $7,000.

Retail Shopping Section: Business section covers about 3 blocks wide and 5 blocks long. Several outlying business sections.

Trading Area: Includes a radius of 12 miles. All paved roads and a population of 12,000 outlying.

Wholesale Houses: Meats, 2; fruits, 1; grocers, 1; produce, 1; eggs and poultry, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto agencies, 6; automobile accessories, 8; automobile tire agencies, 12; bakers, 4; cigar stores and stands (including hotels), 47; confectioners (including hotel stands), 18; delicatessen, 5; dressmakers, 6; druggists, 4; dry goods, 4; department stores, 4; electrical supplies, 3; florists, 2; fruits, 2; furniture, 3; garages (public), 6; grocers, 18 (chain, 2); hardware, 5; jewelry, 3; meat markets, 4; men's furnishings, 10; men's clothing, 6; merchant tailors, 2; milliners, 3; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 3; radio supplies, 1; restaurants (including hotels), 6; shoes, 10; sporting goods, 2; stationers, 2; women's apparel, 6.

Miscellaneous Data: Average temperature, 70 degrees; average number of rainy days per 12 months, 70; most pleasant months, May, June, July, Aug., Sept., Oct.; doctors (medical, 6), (dentists, 4), (osteopaths, 2); number of wired houses, 800; street car service; no gas; electric current, both alternating and direct; water, medium.

OLYMPIA, WASH.

(Thurston County)

1920 Population, 7,795. (1925, est. 13,000.)

City and Suburban Estimate, 18,000.

Native Whites, 99%; **Negroes,** less than 1%; **Foreign Born,** not over 1%; **Industrial Workers,** less than 10%; **English Reading,** 99%; **Families,** 2,250.

Schools: Public Grade, 5; High, 1; Parochial, 1; Number of Pupils, 2,450.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 8.

Banks: National, 2; State, 1; Total Resources, $5,139,051; Savings & Loan Associations, 2; Total Resources, including Building & Loan, $9,540,000; Savings Bank Deposits Total, Sav. & Loan, $4,472,512.

Theatres: Moving Pictures, 4; Vaudeville and Pictures, 2; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 5,500.

Location: On extreme southern tip of Puget Sound—navigable waters—freight by Sound boats. Ocean vessels load lumber in harbor. Union Pacific & No. Pacific Railways. Center of bus transportation for S. W. Washington, 25,000 people stop or transfer at Olympia on four main bus lines each month. Six bus lines in all. At intersection of Pacific Highway (paved from Canada to Mexico) and Olympic Highway Gateway to Olympic peninsula.

Principal Industries: Lumber mills, veneer mills, shingle mills, Wil-Wite bathing suits, home of Olympia oyster industry, extracts and spices, fruit and vegetable cannery. Industrial payroll, $1,634,750; commercial payroll, $2,505,000; state, city, county, etc., $1,210,000; total payroll, $5,349,750. Other miscellaneous, $78,341; grand total $5,428,091.

Manufacturing Establishments, 43. Leading firms: Washington Veneer Co., Brenner Oyster Co., Olympia Oyster Co., Olympia Veneer Co., Olympia Cannery Co., Olympia Door Co., Olympia Knitting Mills, Tumwater Lumber Mills. Total value of yearly output of factories estimated at $8,157,000.

Special Information: County seat of Thurston County. Capital of state. $12,000,000 Capitol group now under construction; $900,000 yearly payroll for capitol employes. Center of territory with varied resources, including all branches of agriculture, stone quarries, coal mines, huge forests, dozens of lumber, shingle and tie mills, fishing and oyster raising, etc. Paved highways lead in four directions, making Olympia center of travel for Southwest Washington. Intersection of Olympia and Pacific highways in center of business district, great highway traffic point.

Residential Features: No tenements or so-called poor sections—practically all one-family homes. Several high class apartment houses—city 99%; native born Americans. Homes average $3,000 in valuation. Over 50% of homes owned by occupants (estimate Chamber of Commerce).

Retail Shopping Section: Extends from corner of Capitol Way and 4th Ave. (intersection of Olympic and Pacific Highways), four blocks south on Capitol Way from 3d Ave. to 6th Ave., 3d and 4th Aves. for 9 blocks from Water St. to East Bay Drive, 5th and 6th Aves. from Water to Adams. Three neighborhood trading districts in south, east and west parts of city, also supply sections.

Trading Area: 16 miles south, 16 miles west and 12 miles east. Fine bus service brings purchasers from adjacent territories to purchase; 93 buses daily scheduled to arrive and depart on four main bus lines; 6 bus lines in all.

Wholesale Houses: Meats, 2; fruits, 1; hardware jobber, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; automobile accessories, 30; automobile tire agencies, 15; bakers, 5; cigar stores and stands (including hotels), 21; confectioners (including hotel stands), 7; delicatessen, 2; dressmakers, 19; druggists, 6; dry goods, 4; department stores, 2; electrical supplies, 5; florists, 3; fruits, 2; furniture, 8; garages (public), 17; grocers, 32; hardware, 7; jewelry, 6; meat markets, 12; men's furnishings, 3; men's clothing, 7; merchant tailors, 7; milliners, 4; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 2; restaurants (including hotels), 15; shoes, 7; sporting goods, 3; stationers, 2; women's apparel, 6.

PORT ANGELES, WASH.

Clallam County)

1920 Population, 5,351.

Native Whites, 98%; **Foreign Born,** 2%; **Industrial Workers,** 50%; **English Reading,** 95%; **Families,** 2,500.

Schools: Public Grade, 3; High, 1; Junior High, 1. Number of Pupils, 1,730.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 1; State, 1; Total Resources, $3,000,000. Savings Bank Deposits Total, $600,000,

Theatres: Moving Pictures, 3. Total number of seats, $1,700.

Location: C. M. & St. P. Ry., Puget Sound Navigation Co. Located on Straits of Juan de Fuca. Steamer service to Victoria and Seattle.

Principal Industries: Lumber and paper making and fishing, cooperage.

Manufacturing Establishments: 4. Leading firms: Puget Sound Mill & Timber Co., Washington Pulp & Paper Corporation, Crescent Boxboard, Port Angeles Cooperage Co. Annual output, $9,000,000.

Special Information: This city is the outlet for one of the richest dairying districts in the state and also attracts tourists. Devilfish are caught quite extensively in the Straits within a few miles of the city and seal fishing is the main industry of Indians in the county.

Residential Features: Mostly one-family houses.

Retail Shopping Section: Extends along two main streets for two blocks, Front and Main Sts., and up Lincoln St. for two blocks.

Trading Area: Extends 72 miles west and 28 east. Fine graveled highways leading through the city from one extreme end of the county to the other bring people from outlying districts.

Wholesale Houses: Fruits, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 3; automobile accessories, 5; automobile tire agencies, 3; bakers, 3; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 10; dressmakers, 4; druggists, 6; dry goods, 3; department stores, 1; electrical supplies, 3; florists, 1; fruits, 10; furniture, 5; garages (public), 10; grocers, 18; hardware, 4; jewelry, 2; meat markets, 5; men's furnishing, 4; men's clothing, 4; merchant tailors, 4; milliners, 5; opticians, 3; photographers, 1; pianos (and miscellaneous musical instruments), 3; radio supplies, 1; restaurants (including hotels), 9; shoes, 4; sporting goods, 2; stationers, 2; women's apparel, 4.

SEATTLE, WASH.

(King County)

1920 Population, 315,312.

City and Suburban Estimate, 425,000.

Native Whites, 72.5%; **Negroes,** 0.9%; **Foreign Born,** 26.6%; **Industrial Workers,** 15%; **English Reading,** 98.5%; **Families,** 93,000.

Schools: Public Grade, 75; High, 8; Parochial, 20; Number of Pupils, 68,725.

Churches: Baptist, 19; Christian Science, 5; Congregational, 20; Episcopal, 14; Hebrew, 4; Methodist, 35; Presbyterian, 20; Roman Catholic, 19; Miscellaneous, 48.

Banks: National, 9; State, 10; Total Resources, $205,562,224.42; Savings Bank Deposits Total, $35,024,302.53.

Theatres: Legitimate, 2; Moving Pictures, 41; Vaudeville, 2; Burlesque, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 25,000.

Location: On Puget Sound and on east shore of Lake Washington. Served by C. M. & St. P., Northern Pacific, Canadian Pacific, Great Northern, Oregon-Washington R. R. and 56 steamship lines connecting Seattle with all parts of the world. Bus and interurban service to all principal towns in western Washington. Nearest large city 1 hour 45 minutes by auto, trolley and railroad. San Francisco is 3 days by auto.

Principal Industries: Lumber products, machinery and engines, furniture and woodenware, canned food products, dairy products, fishing, milling.

Manufacturing Establishments: 1,500. Fisher Flour Mills, Seattle-Astoria Iron Works, Knettelton Lumber Co., Fry & Co., Carnation Milk Co. Annual output, $275,000,000 (1923—$155,000,000).

Special Information: Location of Seattle makes it chief shipping center for all Alaska and Oriental ports, while sale center for Washington and Alaska. Outlet for rich coal mines and cement mills.

Residential Features: Mostly one and two-family residences, no tenement or slum districts. 46% homes owned. Close proximity to lumber makes cost of building less than in most sections of country. High class residential sections located in several sections of city. Average value of houses in these sections $12,000.

Retail Shopping Section: Extends from Yesler Way for 10 blocks north to Pine Street, and from First Avenue to Fifth Avenue. Four outlying business districts and 12 smaller neighborhood shopping centers.

Trading Area: Is area within radius of 32 miles of Seattle. Intermittent business is secured from people living at greater distances because of network of motor buses and electric interurban lines, also because Seattle is the metropolis of the Northwest.

Wholesale Houses: Groceries, 16; meats, 18; fruits, 27; hardware, 10; dry goods, 17; Miscellaneous lines, drugs, 5; lumber, 9.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 76; commercial automobile agencies, 12; automobile accessories, 95; automobile tire agencies, 89; bakers, 127; cigar stores and stands (including hotels), 156 (chain, 20); confectioners (including hotel stands), 99; delicatessen, 20; dressmakers, 170; druggists, 282 (chain, 3); dry goods, 256; department stores, 51; electrical supplies, 7; florists, 66; fruits, 49; furniture, 70; furriers, 15; garages (public), 169; grocers, 1,050; hardware, 60; jewelry, 120; meat markets, 258; men's furnishing, 65; men's clothing, 15; merchant tailors, 170; milliners, 43; opticians, 44; photographers, 59; pianos (and miscellaneous musical instruments), 19; radio supplies, 13; restaurants (including hotels), 342; shoes, 63; sporting goods, 12; stationers, 14; women's apparel, 60.

Miscellaneous Data: Average temperature, 51.9 degrees; average number of rainy days per twelve months, 128; most pleasant months, May 1st to Oct. 1st.; doctors (medical, 500), (dentists, 476), (osteopaths, 4); number of wired houses, 72,690; street car service; gas, artificial; electric current, both alternating and direct; water, soft.

SPOKANE, WASH.

(Spokane County)

1920 Population, 104,437.

City and Suburban Estimate, 145,000.

Native Whites, 82.9%; **Negroes,** .007%; **Foreign Born,** 17.1%; **English Reading,** 99%; **Families,** 27,178.

Schools: Number of Pupils, 29,640.

Churches: Baptist, 11; Christian Science, 2; Congregational, 8; Episcopal, 8; Hebrew, 3; Methodist, 23; Presbyterian, 14; Roman Catholic, 13; Miscellaneous, 65.

Banks: National, 2; State, 10.

Theatres: Legitimate, 2; Moving Pictures, 10; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 13,310.

Location: Spokane is located in the eastern part of Washington, with Seattle 300 miles west, Portland 368 miles southwest, and San Francisco 1,136 miles distant. Natural gateway between Pacific tidewater and a vast rich interior, being served by five transcontinental railroad systems and 12 branch lines. It stands at the only point for 200 miles north and south, at which railroads can cross the Rocky Mountains and reach the Columbia River basin on a reasonable grade. Hub of large railroad mileage. G. N., N. P., C. M. & St. P., U. P., C. P. railroads Nearest large city 16 hours by auto, and 11 by railroad.

Principal Industries: Paper, meat products, furniture, confectionery, cement, lumber, poles, posts, paints. Annual wholesale business jumped from $50,000,000 in 1918 to $192,000,000 in 1923. Annual new wealth production of the Spokane country (200-mile radius)—farm crops, live stock and wool, $250,000,000; orchards, $50,000,000; minerals, $55,000,000; lumber shipments, $50,000,000.

Manufacturing Establishments: 364. Armour's most important western packing plant located here. Tru Blu Biscuit Co., crackers and confections. Spokane is the commercial center of a territory very rich in natural resources. The Spokane country produces 40% of the nation's lead; one-ninth to one-eleventh of its wheat, one-fifth to one-seventh of its boxed apples; 37,000,000 lbs. of wool annually; one-third of nation's magnesite. Has extremely large body of white pine.

Special Information: The Spokane country—150-mile radius of Spokane, 522 cities, towns and villages; urban population 389,707; rural 175,000. 10,085 miles improved motor roads. Motor registration, 1923, 101,203.

Residential Features: Spokane is a city of homes. No slums. Private homes predominate. Residential electric lighting customers, 1923, 23,312. In Spokane and nearby territory, 70,000.

Retail Shopping Section: Retail trading area of Spokane extends approximately 90 miles in every direction. 128 passenger trains, steam and electric, and 50 motor buses entering and leaving daily. Spokane's wholesale houses and jobbers, serve a territory even larger than the retail area, or a field of approximately 1,500,000 people.

Wholesale Houses: Groceries, 5; meats, 11; fruits, 7; hardware, 5; dry goods, 2; Miscellaneous lines—drugs, 2; tobacco, 5; lumber, 45; paper and stationery, 5; paint, 3; jewelry, 2.

Number of Retail Outlets for Nationally Advertised Products: Automobile accessories, 30; bakers, 36; cigar stores and stands (including hotels), 92 (chain, 2); confectioners (including hotel stands), 137; druggists, 51 (chain, 1); dry goods, 18; department stores, 19; electrical supplies, 28; garages (public), 72; grocers, 421 (chain, 35); hardware, 25; jewelry, 45; men's furnishing and men's clothing, 59; restaurants (including hotels), 202; shoes, 26.

Miscellaneous Data: Average temperature, 48 degrees; average number of rainy days per twelve months, 115; most pleasant months, May 1st to Nov. 1st.; doctors (medical, 181), (dentists, 114), (osteopaths, 19); number of wired houses, 23,000; street car service; gas, artificial; electric current, alternating; water, hard.

TACOMA, WASH.

(Pierce County)

1920 Population, 96,965 (1925, est. 115,984).

City and Suburban Estimate, 160,000.

Native Whites, 76.9%; **Negroes,** 14.8%; **Foreign Born,** 8.3%; **Industrial Workers,** 12.7%; **Families,** 27,748.

Schools: Public Grade, 40; High, 2; Junior High, 3 (also 3 under construction); Parochial, 6; Number of Pupils, 28,996. Annie Wright Seminary and College of Puget Sound.

Churches: Baptist, 13; Christian Science, 6; Congregational, 8; Episcopal, 9; Hebrew, 2;

WASHINGTON (Cont'd)

Methodist, 28; Presbyterian, 14; Roman Catholic, 12; Miscellaneous, 44; Lutheran, 21.

Banks: National, 4; State, 3; Total Bank Transactions, $860,596,000; Total Savings Bank Deposits, $12,000,000; Building & Loan Savings Deposits, $18,031,042; Total Bank Deposits as of call April 6, 1925, $38,541,323; Postal Savings Deposits, $1,557,667.

Theatres: Legitimate, 1; Moving Pictures, 26; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 6. Total number of seats, 23,000. Outdoor Stadium, 40,000 seats.

Location: On shores of Puget Sound. Served by four railroads—Gt. Northern, No. Pacific, Chi. Mil. & St. Paul, and Union Pacific, with direct connections with So. Pacific and Canadian lines. 54 steamship lines dock at Tacoma for ports of the world. Nearest large city is 1¼ hours by auto and trolley; 2 hours by railroad.

Principal Industries: Lumber, mill work, sash and doors, boxes, veneer, wood pipe, wood columns, furniture, smelting, car wheels, candy, flour, meat and fish packing, ship building, food products, railroad shops.

Manufacturing Establishments: 550. Leading firms: Tacoma & St. Paul Lumber Co., Pacific Box Co., Northwestern Wooden Ware Co., P. S. Iron & Steel Works, Wheeler-Osgood Co., Griffin Wheel Co., American Wood Pipe Co., Cascade Paper Co., Carstens Packing Co., Gregory Furniture Co., Washington Parlor Furniture Co., Carmen Mfg. Co., Bufflin Lumber Co., National Cocoanut Butter Co., Tacoma Smelting Co., Marine Products Co., Tacoma Grain Co., Albers Milling Co., Washington Column Co., Washington Handle Co., Oriole Candy Co., Tacoma Candy & Biscuit Co., Sperry Flour Co. Total yearly value of factory output, $136,526,951. Annual payroll of factories, $26,605,857.

Special Information: "The Lumber Capital of America"—Mill capacity, 5,000,000 ft. of lumber every eight-hour shift or more than 1,500,000,000 ft. per year. Value of cut, $33,000,000. Municipal power plant offers lowest lights and power rate in United States. Exports, 1924, were 1,619,799 cargo tons; value, $85,262,936. Imports, 2,536,791 cargo tons; value, $77,054,674. Grinds more flour than any city west of Minneapolis and Kansas City. Has 21 furniture factories. "The Grand Rapids of the West."

Residential Features: Tacomans own 54.65% of their homes and more than one-half of these are free from incumbrances. One- and two-story houses predominate, principally wood construction. Northern part of city holds the finer residences, while on the lake sides, just outside the city limits, are to be found the more palatial homes.

Retail Shopping Section: Extends north and south on following streets: Pacific Ave,, Commerce St., Broadway, St. Helen's Ave. and Market St., a distance of from 4 to 10 blocks, varying four to ten blocks, with numerous small shops on the number streets running east and west. There are 6 outlying retail sections and several smaller neighborhood sections with the usual grocery, market and notion stores.

Trading Area: Extends 10 miles north, 20 miles east, 40 miles south, and 30 miles west. Intermittent business extends throughout southeastern Washington, owing to 450 miles of hard surfaced (paved) highways with excellent bus service in every direction, coupled with trains, interurban, steamer and ferry service.

Wholesale Houses: Groceries, 5; meats, 7; drugs, 1; fruits, 13; hardware, 5; dry goods, 2; Miscellaneous lines, 49.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 41; commercial auto. agencies, 21; automobile accessories, 67; automobile tire agencies, 12; bakers, 40; cigar stores and stands (including hotels), 65 (chain, 7); confectioners (including hotel stands), 126; delicatessen, 8; dressmakers, 59; druggists, 44 (chain, 11); dry goods, 23; department stores, 6; electrical supplies, 37; florists, 25; fruits, 35; furniture, 32; furriers, 5; garages (public), 64; grocers, 510 (chain, 41); hardware, 27; jewelry, 41; meat markets, 99 (chain, 12); men's furnishing, 47; men's clothing, 50; merchant tailors, 64; milliners, 30; opticians, 16; photographers, 17; pianos (and miscellaneous musical instruments), 17; radio supplies, 17; restaurants, 131; shoes, 32; sporting goods, 4; stationers, 8; women's apparel, 20.

See announcement columns 3 and 4

VANCOUVER, WASH.

(Clarke County)

1920 Population, 12,637.

City and Suburban Estimate, 15,600.

Native Whites, 88.2%; Negroes, 0.2%; Foreign Born, 11.1%; Industrial Workers, 4,040; English Reading, 92%; Families, 3,146.

Schools: Public Grade, 7; High, 1; Number of Pupils, 2,982.

Churches: 14.

Banks: 11. Total Deposits Total, $6,244,155.22.

Theatres: Moving Pictures, 3. Total number of seats, 1,950.

Location: This, the oldest and most historical city in the state of Washington, and second oldest in the Pacific Northwest, is located in southwest Washington, on the Columbia River, and is the gateway city to Washington from Oregon, California and other Southern States. Vancouver is the county seat of Clarke County, its largest city and principal trading point.

Transportation: Served by four great transcontinental railways, Northern Pacific, Great Northern, O. W. R. & N., and the Spokane, Portland & Seattle. Vancouver lies at the head of deep-water navigation on the Columbia River, one hundred miles from its mouth; it is thus served by vessels from the world's ports, as well as up-river navigation for several hundred miles.

Principal Industries: Its industrial activities consist mostly of modern paper and lumber mills, large veneer and panel plants, electric steel plant, logging truck plant, architectural terra cotta plant, sash and door and planing mills, iron foundry and machine plants, very extensive canneries of fruits and vegetables, woolen mills, packing plants, furniture factories, several creameries, and other smaller industries.

Payrolls: The annual industrial payroll of Vancouver is $3,338,764. The annual mercantile payroll of Vancouver is $1,172,148. The payroll of Vancouver is $4,510,912. The total county payroll is over $8,000,000. There are industrially employed in Vancouver 2,945 men and 1,086 women.

Residential Features: One- and two-family houses.

Retail Shopping Section: Extends on Main, Washington and part of Broadway.

Trading Area: Extends 30 miles north along Columbia River.

Wholesale Houses: Tobacco, 1; Confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial automobile agencies, 3; automobile accessories, 10; automobile tire agencies, 10; bakers, 3; cigar stores and stands (including hotels), 4; confectioners (including hotel stands), 6; dressmakers, 7; druggists, 5; dry goods, 5; department stores, 1; electrical supplies, 4; florists, 2; furniture, 4; garages (public), 12; grocers, 15; hardware, 3; jewelry, 5; meat markets, 6; men's furnishings, 4; men's clothing, 4; merchant tailors, 2; milliners, 3; opticians, 2; photographers, 2; pianos (and miscellaneous musical instruments), 2; radio supplies, 1; restaurants (including hotels), 20; shoes, 3; sporting goods, 2; stationers, 1.

WALLA WALLA, WASH.

(Walla Walla County)

1920 Population, 15,503.

City and Suburban Estimate, 25,000; county, 32,000; trading radius, 45,000.

Native Whites, 86.8%; Negroes, 0.6%; Foreign Born, 12.6%; English Reading, 98.6%.

Schools: Public Grade, 5; High, 1; Parochial, 2; Number of Pupils, 4,658; Whitman College, 505.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 3; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 16.

Banks: National, 3; State, 2; Building and Loan Association, 2; Trust companies, 1; Total Bank Resources, $11,962,022.25; Total Bank Deposits, $9,609,879.02; of which $3,698,700.84 is in savings accounts held by 6,015 people. The Building and Loan Associations have a total of 1,134 stockholders whose savings total $800,016.64.

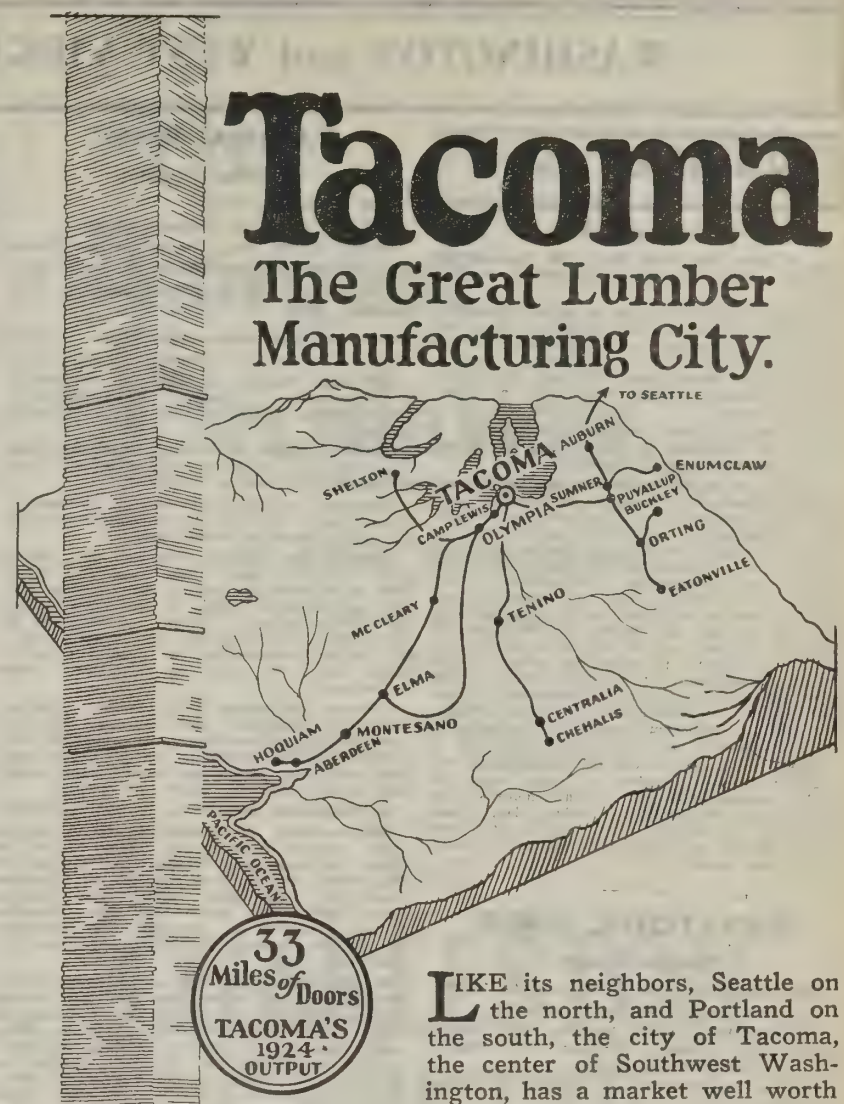
Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 4. Total number of seats, 7,500.

Location: Union Pac. and No. Pac. Railroads, Inland Empire Highway with hard surfaced road connecting Portland and Spokane, also main travelled highway between Seattle and Spokane. Bus service to principal points. Road program for past several years has made Walla Walla most accessible from large radius in southeastern Washington and northeastern Oregon. Interurban car line to Umapine, Milton and Freewater, Oregon, taps a rich fruit belt, vegetable and hay producing section. Nearest larger city is 6 hours by auto and 9 hours by railroad.

Principal Industries: Wheat growing, vegetables, fruit, milling, harvester manufacturing, vinegar, candy, concrete products, meat products, creamery and dairy products, brick and lumber products.

Manufacturing Establishments: 40. Leading firms: Harris Mfg. Co., Walla Walla Meat and Cold Storage Co., Walla Walla Valley Dairymen's Assn., Walla Walla Candy Co., Walla Walla Vinegar Co., Walla Walla Iron Works, Walla Walla Construction Co., Eureka Flour Mills, Whitehouse Crawford Co., Walla Walla Lumber Co., Washington Brewing Co. and Walla Walla Mill Co. Annual output, $4,250,000.

Special Information: Walla Walla is location for Whitman College with more than 500 students. While at College Place, just two miles west, is located the Walla Walla College, a Seventh Day Adventist School, from which pupils are drawn from all parts of the world. Walla Walla shipped following totals last year: Wheat, $6,500,000; orchard and vegetable products, $4,000,000; alfalfa, $350,000; dairy products and live stock, $500,000.



Residential Features: Private homes predominate large percentage owned. Only 5 apartment houses in entire city. City has to the west large section of orchard and garden tracts on which are located hundreds of modern homes with electric lights, telephones, artesian water and other conveniences.

Retail Shopping Section: 12 blocks on Main

Tacoma

The Great Lumber Manufacturing City.

LIKE its neighbors, Seattle on the north, and Portland on the south, the city of Tacoma, the center of Southwest Washington, has a market well worth the attention of national advertisers.

Tacoma is one of the five major markets of the Pacific Northwest, with clearly defined boundaries. Advertising in Seattle and Portland will not move goods in Tacoma stores. City loyalty is strong in the Pacific Northwest. Local merchants prefer not to stock goods unless manufacturers use space in Tacoma newspapers.

Tacoma's trading territory lies within the flourishing southwestern portion of Washington. It contains 14 cities and towns whose combined jobbers and retailers number 140 and 2,493 respectively.

Tacoma's production of fir doors, wood columns and veneer is the largest in the country. In 1924 Tacoma mills produced 33 miles of doors piled flat. The city has 23 factories which manufacture more than $3,631,712 worth of furniture each year. The Tacoma smelter is the largest on the west coast. Flour mills export annually over 1,500,000 barrels. It has one of the best harbors on the Pacific Coast with 30 commercial docks.

Tacoma's annual manufacturing payroll is $26,605,857; 1924 bank transactions were $860,590,000; building permits for 1924 were $8,539,035; exports, $85,847,315; imports, $77,054,674. Bank savings deposits, $12,000,000. Savings and Loan bank deposits, $18,031,042; postal savings deposits, $1,557,667.

This rich and prosperous territory is blanketed by

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 2,900.

Location: At the junction of Columbia and Wenatchee Rivers on the main line of Great Northern Ry., midway between Spokane and Seattle, 175 miles from both. Two branch lines terminating at Wenatchee make it a shipping point for north central Washington, consisting of 4 counties. Nearest larger city is 7 hours by auto or railroad.

Principal Industries: Flour milling, manufacturing of fruit boxes, orchard appliances, spray materials and lumber mills. One of the largest ice plants in the Pacific Northwest. Two nationally advertised fruit products.

Manufacturing Establishments: 12. Leading firms: Wenatchee Box Spray Co., Wenatchee Milling Co., Wenatchee Packing Corp., Wenatchee Vinegar Co.

Annual output, $7,100,000.

Residential Features: 90% of the homes are modern, and 95% have electric light or gas connections and running water. Private homes predominate. On the outskirts of the city are many 5 and 10 acre orchard home tracts. Average home value $4,100.

Retail Shopping Section: Extends from Wenatchee Ave. west to Chelan Ave. 3 blocks, south on Wenatchee Ave., Chelan Ave., Mission St., 3 parallel streets, for a distance of 8 blocks.

Trading Area: Six miles south to the mountains, 50 miles east to Euphrata, 28 miles west to Leavenworth, 112 miles north to the Canadian border.

Wholesale Houses: Groceries, 1; Meats, 3; Fruits, 2; Miscellaneous Lines, Auto, Accessories, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 14; commercial auto. agencies, 4; automobile accessories, 3; automobile tire agencies, 15; bakers, 6; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 8; delicatessen, 3; druggists, 6; dry goods, 5; department stores, 3; electrical supplies, 3; florists, 2; furniture, 4; garages (public), 18; grocers, 25; hardware, 3; jewelry, 5; meat markets, 10; men's furnishings, 12; men's clothing, 8; merchant tailors, 4; milliners, 7; opticians, 4; photographers, 4; piano (and miscellaneous musical instruments), 4; radio supplies, 8; restaurants (including hotels), 9; shoes, 9; sporting goods, 3; stationers, 2; women's apparel, 9.

Miscellaneous Data: Average temperature, 56 degrees; average number of rainy days per 12 months, 40; most pleasant months, April to December 1st; doctors (medical, 15), (dentists, 9), (osteopaths, 2); number of wired houses, 2,300; no street car service; gas, artificial; electric current, alternating; water, soft.

YAKIMA, WASH.

(Yakima County)

1920 Population, 18,539.

City and Suburban Estimate, 28,000.

Native Whites, 88%; Negroes, 1.5%; Foreign Born, 10.5%; Industrial Workers, 9.8%; heavy agricultural percentage; English Reading, 95%; Families, 4.418.

Schools; Public Grade, 10; High, 1; Junior High, 1; Parochial, 5; Number of Pupils, 4,905.

Churches: Baptist, 3; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 3; Presbyterian, 2; Roman Catholic, 2; Miscellaneous, 22.

Banks: National, 5; State, 3; Total Resources, $11,487,233.20; Savings Bank Deposits Total, $5,540,567.01.

Theatres: Legitimate, 1; Moving Pictures, 2; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 8,000.

Location: On main line Nor. Pac. Ry., branch of U. P. and Yakima Valley Trans. Co. (elec.). Two latter reach all leading fruit sections near city and branches extend to productive Naches and Moxee valleys. Eleven bus lines to all towns within 60 miles, and auto freight line to all leading communities in county. Nearest larger city is 7½ hours by auto and 7 hours by railroad.

Principal Industries: Fruit products, lumber, boxes and woodwork, meat products, flour and cereals, iron and structural steel, bakeries, ice, fruit harvesting machinery, candy, dairy products, auto tops, bodies and woodworking, printing, cement products, tents and awnings.

Annual Output, $6,000,000. Payroll, $2,327,400.

Manufacturing Establishments: 68. Leading firms: Cascade Lumber Co., Libby, McNeil & Libby, California Fruit Packing Co., Washington Dehydrator, Yakima Sash and Box Co., Yakima Candy Co., Jones Bros. Vinegar Co., Yakima Fruit Products Co., Miller Fruit Mills, Yakima Cement Products Co., Granger Clay Products Co., Gibson Packing Co., Fruit Appliance Co., Utah-Idaho Sugar Co.

Special Information: Metropolis of southeastern Washington. On Yellowstone Trail and Inland Empire Highway; 110 miles paved roads in county. Wholesale center for large area. Sixth county in U. S. in value of agricultural products, nearly $40,000,000 annually. Gateway to Mt. Ranier, 75 miles, and Mt. Adams, 64 miles. Diverging point for tourist travel. More than 14,000 auto licenses in country.

Residential Features: Mostly 3 to 8 room dwellings, small sections near Cascade Mill and canning plant occupied by employees' cottages. Several modern apartment houses. Fine residences along Naches Ave. and old part of city, and many modern homes on high land in western section, ranging in value from $5,000 to $25,000.

Retail Shopping Section: Extends for 13 blocks on Yakima Ave. and for 1 block on either side on Front, First, Second and Third Sts., also for 3 blocks on Chestnut St. and A St., paralleling Yakima Ave. Five outlying business sections of 2 to 10 stores each.

Trading Area: Extends 8 miles north, 32 miles northwest, 21 miles west, 35 miles southwest, 60 miles southeast, and 10 miles east.

Wholesale Houses: Groceries, 2; Meats, 1; Fruits, 50; Hardware, 1; Miscellaneous Lines, Plumbing, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 25; commercial auto. agencies, 5; automobile accessories, 40; automobile tire agencies, 45; bakers, 9; cigar stores and stands (including hotels), 10; confectioners (including hotel stands, 45; delicatessen, 12; dressmakers, 20; druggists, 15; dry goods, 12; department stores, 6; electrical supplies, 9; florists, 5; fruits, 2; furniture, 6; furriers, 2; garages (public), 7; grocers, 101 (chain, 1); hardware, 5; jewelry, 8; meat markets, 17; men's furnishings, 11; merchant tailors, 10; milliners, 8; opticians, 4; photographers, 7; pianos (and miscellaneous musical instruments), 6; radio supplies, 11; restaurants (including hotels), 60; shoes, 14; sporting goods, 9; stationers, 4; women's apparel, 17.

Miscellaneous Data: Average temperature, 54 degrees; average number of rainy days per 12 months, 60; most pleasant months, April, May, June, Sept., Oct.; doctors (medical, 38), (dentists, 33), (osteopaths, 6); number of wired houses, 5,900; no street car service; gas, artificial; electric current, both alternating and direct; water, soft.

Standard Surveys of WEST VIRGINIA

BECKLEY, W. VA.

(Raleigh County)

1920 Population, 4,149. (1925 est. 7,054.)

City and Surburban Estimate, 10.000.

Native Whites, 90%; Negroes, 2%; Foreign Born, 8%; Industrial Workers, 30%; English Reading, 95%; Families, 1,500.

Schools: Public Grade, 5; High, 1; Junior High, 1; Number of Pupils, 2,404.

Churches: Baptist, 1; Episcopal, 1; Methodist, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous Christian, 1.

Banks: National 2; State, 2: Total Resources, $8,000,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,500.

Location: Chesapeake and Ohio, Virginian Railway. Nearest larger city is 2 hours distant by automobile, and 6 hours by railroad.

WELCH, W. VA.

(McDowell County)

1920 Population, 3,232. (Survey made in 1924 shows 5,922).

City and Suburban Estimate, 15,000. (Estimate for county for 1925, 78,171).

Native Whites, 80%; **Negroes,** 12%; **Foreign Born,** 8%; **Industrial Workers,** 10%; **English Reading,** 93%; **Families,** 1,193.

Schools: Public Grade, 1; High, 1; Junior High, 1; Number of pupils, 992 in city; 5,873 in district; 20,863 in county.

Churches: Baptist, 1; Episcopal, 1; Hebrew, 1; Methodist (South), 1; Presbyterian (South), 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 2; State, 1; Total Resources $5,519,633.07.

Theatres: Legitimate, 1; Moving Pictures, 1; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 1,850.

Location: Welch is on the main line of the Norfolk & Western R. R., 140 miles east of Huntington, and 138 miles west of Roanoke, Va. Located at junction of the Tug Fork branch of the N. &. W. R. R. with the main line. On Tug River state highway. Seventeen passenger trains stop in city daily. Excellent bus service furnished by three bus lines. Four concrete highways lead out of city. To nearest large city by railroad, 2 hours; by auto, 2½ hours.

Principal Industries: Coal mining, timber, mine props, bottling works, potato flake factory. City is principally retail shopping center for surrounding mining communities.

Manufacturing Establishments: 6. Leading firms: Keystone Bottling Works, Bright & Davis Planing Mill, McDowell Armature Works.

Special Information: Welch is the largest city in the county. Headquarters of Tug River Coal Operators' Association. Center of famous Pocahontas "smokeless" coal field. County leads state in coal production, output in 1924 being 16,751,478 gross tons. City is near twelve large mining operations of the United States Coal & Coke Co. (a subsidiary of the U. S. Steel Corporation), and is also near two other mines belonging to Henry Ford. Location of the State Miners' Hospital, one of the most complete, up-to-date hospitals in the state. People of Welch are great consumers of package foodstuffs.

Residential Features: Because of topographical conditions (surrounded by mountains), available building sites are limited, consequently, city has unusual number of apartments for a city of its size. Ninety per cent of all buildings, business, and residential, are of brick or stone. Electric ranges are the most used type of stove in Welch. A great deal of stone masonry is a striking characteristic of the city.

Retail Shopping Section: Extends 6 blocks on McDowell Street, 6 blocks on Wyoming Street, 4 blocks on Elkhorn Street, 3 blocks on Railroad Street and 3 blocks on Bank Street. All business houses are of stone or brick construction.

Trading Area: Twenty miles in all directions. City is near center of county, with good roads leading out five ways, and with bus and railroad facilities. It is natural shopping center for practically all the adjacent counties being the largest city in the county. Shopping center for part of Wyoming County and Tazewell County, Virginia.

Wholesale Houses: Groceries, 3; meats, 1; fruits, 2; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 22; commercial auto, agencies, 6; automobile accessories, 12; automobile tire agencies, 22; bakers, 3; cigar stores and stands (including hotels), 18 (chain, 1); confectioners (including hotel stands), 21; delicatessen, 4; dressmakers, 3; druggists, 5; dry goods, 8; department stores, 8; electrical supplies, 4; florists, 3; fruits, 3; furniture, 5; furriers, 2; garages (public), 10; grocers, 18 (chain, 4); hardware, 3; jewelry, 3; meat markets, 5; men's furnishings, 8; men's clothing, 8; merchant tailers, 4; milliners, 5; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 5; radio supplies, 5; restaurants (including hotels), 10; shoes, 14; sporting goods, 2; stationers, 5; women's apparel, 8.

Miscellaneous Data: Average temperature, 70 degrees; average number of rainy days per twelve months, 50; most pleasant months, May, June, Aug., Sept.; doctors (medical, 15), (dentists, 10), (osteopaths, 1); number of wired houses, 1,051; bus service; electric current, alternating; water, hard.

WELLSBURG, W. VA.

(Brooke County)

1920 Population, 4,918.

City and Suburban Estimate, 25,000 suburban.

Native Whites, 90%; **Negroes,** 3%; **Foreign Born,** 7%; **Industrial Workers,** 72%; **English Reading,** 85%.

Schools: Public Grade, 3; High, 1; Parochial, 1; Number of Pupils, 1,100.

Churches: Baptist, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1 (Latter Day Saints).

Banks: National, 1; State, 1; Total Resources, $2,800,000; Savings Bank Deposits Total $900,000.

Theatres: Moving Pictures, 2; Vaudeville, 1; Total number of seats, 1,015.

Location: Penna. main line between Pittsburgh and Wheeling. River packets also make deliveries here. Fast trolley service between Wheeling and Steubenville and ample local trolley service. Nearest larger city is 2 hours by auto and 1 hour 30 minutes by railroad.

Principal Industries: Coal, gas, paper bags, steel, rope, paper, glassware, tinware.

Manufacturing Establishments: 24. Leading firms: Eagle Mfg. Co., George & Sherrard Paper Co., Hammond Bag & Paper Co., Riverside Glass House, Erskine Glass Co., Pittsburgh-W. Va. Coal Co. Annual output, $40,000,000.

Residential Features: The average American home is to be found here with about 25% above the average. Mostly self-owned.

Retail Shopping Section: Main and Charles Streets, 4th to 27th.

Trading Area: 15 square miles.

Wholesale Houses: Fruits, 1; miscellaneous lines, tobacco, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 2; automobile accessories, 12; automobile tire agencies, 9; bakers, 2; cigar stores and stands including hotels), 5; confectioners (including hotel stands), 4; delicatessen, 2; dressmakers, 3; druggists, 2; dry goods, 5; electrical supplies, 3; fruits, 4; furniture, 4; garages (public), 7; grocers, 19; hardware, 3; jewelry, 1; meat markets, 4; men's furnishings, 4; men's clothing, 4; merchant tailors, 3; milliners, 2; opticians, 2; photographers, 1; pianos (and miscellaneous musical instruments), 1; radio supplies, 2; restaurants (including hotels), 4; shoes, 4; sporting goods, 2; stationers, 2; women's apparel, 4.

Miscellaneous Data: Average temperature, 56 degrees; average number of rainy days per twelve months, 140; most pleasant months, June, Sept. and Oct.; doctors (medical, 5), (dentists, 4), (osteopaths, 3); number of wired houses, 70%; street car service; gas, natural; electric current, alternating; water, soft.

WHEELING, W. VA.

(Ohio County)

1920 Population, 56,208. (1925 Est. 68,000.)

City and Suburban Estimate, 250,000.

Native Whites, 90%; **Negroes,** 2%; **Foreign Born,** 8%; **Industrial Workers,** 30%; **English Reading,** 85%; **Families,** 16,817.

Schools: Public Grade, 24; High, 4; Parochial, 17; Number of Pupils, 13,706.

Churches: 51.

Banks: 16; Resources, $68,776,381.

Theatres: 22; Total number of seats, 9,500.

Location: On Ohio River in northern part of state; served by Wheeling & Lake Erie, Pennsylvania and B. & O. Railroads. Nearest larger city is 2½ hours by auto and 2 hours, 10 minutes by railroad.

JANESVILLE, WIS.

(Rock County)

1920 Population, 18,293. (1925 Est. 20,785).

City and Suburban Estimate, 90,000.

Native Whites, 83.3%; Negroes .3%; Foreign Born, 16.3%; Industrial Workers, 20%; English Reading, 94%; Families 4,300. German, Irish and Norwegian are the predominating races of Foreign Born Population. Percentage of illiterates .9%.

Schools: Public Grade, 8; High, 1; Junior High, 1; Parochial, 3; Vocational, 1; Number of pupils 3,842; Number of teachers, 125.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 6.

Banks: National, 2; State, 3; Total Resources, $9,788,741.86; Total Savings Bank Deposits, $3,770,237, 12.

Theatres: Legitimate, 1; Moving Pictures, 3; Vaudeville, 1; Miscellaneous, (Auditoriums, etc.), 2; Total number of seats, 4,480.

Location: In the center of Rock County on Rock River. Geographical entrance to center and west of state. Radiating point for five cross-state highways. On C. M. & St. P. Ry. with lines to Chicago, Milwaukee, Madison and points west. Also on C. & N. W. Ry. main line between Chicago, Minneapolis, St. Paul and Duluth. Also connections over this line for Madison, Fond du Lac and points north. Rockford & Interurban Line runs south through Beloit and Rockford carrying passengers and freight. Makes connections for Chicago. Excellent bus service can be had from Janesville to strategic points within a 75-mile radius of Janesville. Nearest large city (Madison) is 1¼ hours by auto and 1 hour by railroad. Milwaukee is 2½ hours by auto and railroad. Chicago is 3¾ hours by auto and 3 hours by railroad.

Principal Industries: Number of factories, 85; include: automobile—assembly, automobile body manufacture, fountain pen manufacture, porch shades, union suits, sweaters, bathing suits, cotton bats, shirts and overalls, woolen fabrics, coaster wagons, sugar refining, steel fencing, furniture, cigar and paper boxes, thread, metal stampings, foundry, tents, and awnings, corsets and brassieres, lightning rods, shearing machines, spark plugs, tobacco, tools, portable conveyors, and canning.

Manufacturing Establishments, 85. Leading firms, Parker Pen Co., Chevrolet Motor Co., Fisher Body Corp., Lewis Knitting Co., Janesville Shirt & Overall Co., Hough Porch Shade Co., Rock River Cotton Co., Rock River Woolen Mills, Janesville Products Co., Rock River Sugar Co., Bower City Stamping Co., Wisconsin Thread Co., Janesville Fence & Post Co., Gossard Corset Co., Hanson Furniture Co., Northrup Tent & Awning Co., Northern Conveyor Co., Bower City Canning Co., Janesville Cabinet Works. The total value of the yearly output of these factories is estimated at $28,000,000.

Special Information: Located in the heart of the rich dairying region of Wisconsin, and with great diversity of industry within its city limits. The value of dairy products and general field crops raised in Rock County will total over $14,000,000.00 in 1925. The Janesville City Annual Industrial payroll is over $5,000,000.00. Rock County is the third county in the state in point of automobile registration, having over 12,000 passenger cars in 1925. The assessed valuation for Janesville, 1925, is $27,406,993.00. In 1925, Janesville subscribed and is building a $100,000 Y.M.C.A. Building, completed 4½ miles of concrete streets as the completion of a two-year nine-mile paving program; bought, planned, and organized a new municipal park with a new 9-hole golf course.

Residential Features: The city has mostly one-family frame and brick houses. There are several apartment houses. The city has no tenement sections. The average valuation for a home is $5,000.

Retail Shopping Section: Extends from Main and Milwaukee Sts., the geographical center of the city 4 blocks south on S. Main St., 4 blocks north on N. Main St., 11 blocks west on W. Milwaukee St., and 4 blocks east on E. Milwaukee St. There are three outlying retail business sections with the usual retail meat, grocery and confectionery stores. Note: The streets parallel to Main St. for 11 blocks west and 4 blocks east are business streets for the same length as Main St. Considerable development is going on in this district.

Trading Area: Extends about ten miles south and about 25 southeast, east, north, west and southwest. Much trade is secured from 25-mile radius and even greater distances, due to the fact that Janesville is the radiating point for five state highways, seven main railway lines and many Southern Wisconsin bus services. There are 28 towns in this section that consider Janesville as the hub of their trading area.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 1; hardware, 1; dry goods, 1; auto supplies, 1; auto tires, 2; candy and confections, 1. beverages, 2.

MADISON, WIS.

(Dane County)

1920 Population, 38,378.

City and Suburban Estimate, 50,000.

Native Whites, 86%; Negroes, .6%; Foreign Born, 13.4%; Industrial Workers, 11%; English Reading, 97%; Families, 10,213. (7,200 pupil population not included in census figures.)

Schools: Public Grade, 15; High, 3; Junior High, 2; Parochial, 7; Number of Pupils, 9,102; University of Wisconsin, 7,200.

Churches: Baptist, 2; Christian Science, 2; Congregational, 3; Episcopal, 2; Hebrew, 1; Methodist, 8; Presbyterian, 4; Roman Catholic, 8; Miscellaneous, 19.

Banks: National, 2; State, 8; Total Resources, $30,896,655; Trust Companies, 3.

Theatres: Legitimate, 1; Moving Pictures, 5; Vaudeville, 1; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 12,600.

Location: In south central Wisconsin on the Four Lakes. Served by the Chicago and North Western, Chicago, Milwaukee & St. Paul, and the Illinois Central railroads. Very good bus service in practically all directions. Motor truck service also in several directions. Nearest larger city 3 hrs. by auto or railroad.

Principal Industries: Machine tools, turret lathes, dry cell batteries, including radio batteries, flashlights, lubricators, hospital furniture, time-recording devices, chemicals, farm machinery, gas engines, shoes, drugs, candy, sugar, rennet extract, cheese color, ice cream and butter.

Manufacturing Establishments, 60. Leading firms: Gisholt Machine Co., Fuller & Johnson Mfg. Co., Burgess Battery Co., French Battery & Carbon Co., Madison-Kipp Lubricator Corp., Scanlan-Morris Co., Badger State Shoe Co., General Laboratories, Marschall Dairy Laboratory, Madison Plow Co., M. W. Keeley, Teckemeyer Candy Co., Madison Candy Mfg. Co., Kennedy Dairy Co., Mansfield Caughey Co., and the American Ice Cream Co. Total value of output of factories estimated at $16,000,000.

Special Information: Madison is nearer the center of population in Wisconsin than any other city. In the heart of the richest dairy region in America. An important battery center, one-tenth of the batteries and dry cells made in the country being made here.

Residential Features: Mostly one and two-family houses. A few apartment houses, 14 having 10 or 12 apartments, and one having 34 apartments. Three very fine suburbs, Nakoma, Lakewood, Shorewood. A large percentage of the people own their own homes.

Retail Shopping Section: The streets around the Capitol Square and State and King Sts. are principal shopping district, and terminal for street cars and bus lines from other cities. Pinckney St. 3 blocks, Main St. 4 blocks, Carroll St. 3 blocks, Mifflin St. 3 blocks, State St. 6 blocks, King St. 2 blocks. There are five outlying retail business sections and several smaller "neighborhood" sections with the usual grocery and meat shops.

Trading Area: The retail trade area takes in a 40-mile radius around the city; has a population of 305,000.

Wholesale Houses: Groceries, 4; meats, 2; fruits, 6; hardware, 1; dry goods, 1; miscellaneous lines, 15.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 25; commercial auto. agencies, 10; automobile accessories, 6; automobile tire agencies, 10; bakers, 24; cigar stores and stands (including hotels), 30; confectioners (including hotel stands), 31; delicatessen, 3; dressmakers, 60; druggists, 45; dry goods, 30; department stores, 5; electrical supplies, 15; florists, 5; fruits, 6; furniture, 6; furriers, 5; garages (public), 15; grocers, 125 (chain, 33); hardware, 16; jewelry, 12; meat markets, 48 (chain, 2); men's furnishing, 1; men's clothing, 23; merchant tailors, 24; milliners, 7; opticians, 5; photographers, 13; pianos (and miscellaneous musical instruments), 5; radio supplies, 6; restaurants (including hotels), 64, shoes, 22; sporting goods, 4; stationers, 3; women's apparel, 8.

Miscellaneous Data: Average temperature, 36 degrees; average number of rainy days per twelve months, 112; most pleasant months, June, July, Aug., Sept., Oct.; doctors (medical, 100), (dentists, 75); (osteopaths, 8); number of wired houses, 13,686; street car service; gas, artificial; electric current, alternating; water, hard.

MANITOWOC, WIS.

(Manitowoc County)

1920 Population, 17,354; (1925 est., 20,000).

City and Suburban Estimate, 60,000.

Native Whites, 87.1%; Negroes, .1%; Foreign Born, 12.8%; Industrial Workers, 53%; English Reading, 91%; Families, 4,176.

Schools: Public Grade, 9; High, 1; Junior High, 1; Parochial, 2.

Churches: Christian Science, 1; Episcopal, 1; Methodist, 1; Presbyterian, 2; Roman Catholic, 3; Miscellaneous, 4.

Banks: National, 1; State, 1.

Theatres: Legitimate, 1; Moving Pictures, 4; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 3. Total number of seats, 8,000.

Location: On west shore of Lake Michigan. Served by the Chicago & North Western Railway, Soo Line, and served by steamships on all Lake Michigan ports. The Goodrich & Hill steamboat lines and the Ann Arbor and Pere Marquette lines run in and out daily. Excellent bus service to south, west and northern part of the State.

Principal Industries: Manitowoc being a leading aluminum center has for its largest industry aluminum, next comes its large shipbuilding corporation, and another being the cement industry. Ranking in proportion are woodworking, furniture, and boiler works.

Manufacturing Establishments, 23. Leading firms: The Aluminum Goods Mfg. Co., The Manitowoc Shipbuilding Corp., Portland Cement Co., The Burger Boat Co., The American Seating Works; The Weise Laboratory Furniture Co. Total value of yearly output of factories estimated at $41,000,000.

Special Information: The excellent bus and train service of Manitowoc makes it the shopping center of a 30-mile radius.

Residential Features: Mostly one and two-family homes. Manitowoc has no special residential features to speak of, all classes of people mingle and live in about the same sections. Private homes predominate.

Retail Shopping Section: Extends from 25th and Washington Ave. to 8th and Washington Ave. down to Buffalo St. N., which forms the heart of the business section. Washington and 8th Sts. are business streets of 15 blocks in length. There are the usual smaller "neighborhood" sections with the usual grocery, confectionery, meat, and other small shops.

Trading Area: Extends about 30 miles west, 15 miles northeast and 20 miles south. A large amount of business is secured from tourists that travel through this city, 3 months of the year, June, July and August. The city has provided excellent tourists parks, where we have tourists camping and registering up to 55 per day. A large amount of business is secured from Two Rivers, 7 miles east of here.

Wholesale Houses: Groceries, 2; fruits, 1; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto. agencies, 3; automobile accessories, 6; automobile tire agencies, 9; bakers, 9; cigar stores and stands (including hotels), 26; confectioners (including hotel stands), 51; delicatessen, 2; druggists, 7; dry goods, 10; department stores, 8; electrical supplies, 5; florists, 4; fruits, 2; furniture, 5; garages (public), 21; grocers, 50; hardware, 8; jewelry, 4; meat markets, 16; men's furnishing, 8; men's clothing, 8; merchant tailors, 7; milliners, 5; opticians, 2; photographers, 3; pianos (including miscellaneous musical instruments), 6; radio supplies, 5; restaurants (including hotels), 8; shoes, 10; sporting goods, 7; stationers, 3; women's apparel, 8.

MARINETTE, WIS.

(Marinette County)

1920 Population, 13,610.

City and Suburban Estimate, 45,000.

Native Whites, 65%; Negroes, 1%; Foreign Born, 34%; Industrial Workers, 25%; English Reading, 95%; Families, 2,800.

Schools: Public Grade, 6; High, 1; Junior High, 1; Parochial, 8; Number of Pupils, 5,621.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 1; Hebrew, 2; Methodist, 5; Presbyterian, 1; Roman Catholic, 4; Miscellaneous, 4; Lutheran, 5.

Banks: National, 2; State, 2; Total Resources, $6,450,000. Savings Bank Deposits Total, $6,000,000.

Theatres: Legitimate, 1; Moving Pictures, 3. Total number of seats, 2,355.

Location: On deep water harbor on Green Bay opening off Lake Michigan. Served by Chicago & Northwestern, Chicago, Milwaukee & St. Paul and Ann Arbor and Wisconsin & Michigan R. R. in conjunction with the Soo Line. Nearest larger city is 1¾ hours by auto and 1½ hours by railroad.

Principal Industries: Paper, lumber, and lumber products, pianos, cutlery, specialties, gloves, excelsior, knitted goods, granite monuments, matches.

Manufacturing Establishments, 25. Leading firms: Sawyers Goodman Co., Marinette & Menominee Paper Co., Victory Bag & Paper Co., Marinette Knitting Mills, Boreal Mfg. Co., Pike River Granite Co., Kreiter Piano Co., Aerial Cutlery Co., Marinette Green Bay Mfg. Co. Total value of yearly output of factories estimated at $7,000,000.

Special Information: Leading lumber manufacturing center in the state. Some of the greatest hardwood forests left standing in the Northwest are to be found within 50 miles of the city.

Residential Features: Mainly one and two-family houses. A few flats, but no tenements. Many beautiful residences are to be found throughout the city, principally on Riverside Ave., Marinette Ave. and State St.

Retail Shopping Section: Centers on Dunlap Square and extends up Main St. four blocks and down Hall Ave. for 5 to 8 blocks. Small neighborhood stores distributed liberally throughout the city.

Trading Area: Extends approximately 20 miles south, 40 to 50 miles north and northwest and 25 to 30 miles west.

Wholesale Houses: Groceries, 1; dry goods, 1; butter, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 5; automobile accessories, 4; automobile tire agencies, 2; bakers, 4; cigar stores and stands (including hotels), 8 (chain, 1); confectioners (including hotel stands), 19; dressmakers, 35; druggists, 7; dry goods, 3; department stores, 2; electrical supplies, 3; florists, 1; fruits, 7; furniture, 2; furriers, 2; garages (public), 11; grocers, 43 (chain, 1); hardware, 3; jewelry, 6; meat markets, 16; men's furnishing, 6; men's clothing, 3; merchant tailors, 9; milliners, 6; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 10; shoes, 6; sporting goods, 3; stationers, 2; women's apparel, 4.

Miscellaneous Data: Average temperature, 44.4 degrees; average number of rainy days per twelve months, 105; most pleasant months, June, Oct., Nov.; doctors (medical, 10), (dentists, 12), (osteopaths, 1); number of wired houses, 3,657; street car service; gas, artificial; electric current, alternating; water, hard.

MARSHFIELD, WIS.

(Wood County)

1920 Population, 7,394.

City and Suburban Estimate, 20,000.

Native Whites, 95%; Foreign Born, 5%; Industrial Workers, 10%; English Reading, 99%; Families, 2,700.

Schools: Public Grade, 5; High, 2; Junior High, 1; Parochial, 3; Number of Pupils, 2,200.

WISCONSIN

Has The Ability To Buy— And The Willingness To Spend

Constant Wisconsin! The state that knows no "ups and downs" of depression and inflation that are common to others of the forty-nine. Peopled largely by dairy farmers of the highest type who always make money, and industrial workers of the finest class who are home-builders and splendid citizens!

Facts About Wisconsin—

—Gained 3,853 farms from 1920 to 1925. Only state east of the Mississippi in North Central Group to show a gain.
—In October, 1925, the U. S. Census Dept. of Agriculture reported Wisconsin Crops best of any state from the Atlantic to the Rockies.
—Potato Crop value for 1925 will exceed $20,000,000.
—Bumper Tobacco Crop will go well over $6,000,000 this year.
—An authoritative estimate of Corn Crop puts it over $66,000,000.
—Wisconsin has more dairy cows that are worth more money and that produce more milk—than any other of the United States.
—The 1925 Milk Production Aggregate Value will exceed $200,000,000.
—Tremendous versatility in manufacture makes a depressed period, generally, hardly possible.
—Wisconsin increased its ownership of automobiles 60,649 in the year 1925 over 1924. Has a total of 534,662 motor vehicles.

The Milwaukee Leader

has a greater unduplicated circulation than any other Milwaukee newspaper.

For concentrated attention The Leader advertising columns have no equal.

Merchandising assistance and Market analysis are a part of service tendered foreign advertisers.

Foreign Representatives:

FRALICK & BATES, Inc.

605 North Michigan Ave., Chicago, Ill.
270 Madison Ave., New York City, N. Y.

In Milwaukee you can delete the "S" in newspaper "Rates"

Only One Low Rate for Full Coverage

The Milwaukee Journal so thoroughly covers the rich Milwaukee - Wisconsin market that practically all successful advertisers here concentrate in this *one* newspaper.

More than four out of five Greater Milwaukee families read The Journal. It is preferred in the better class home in every Wisconsin community. Since 1914 The Journal net paid daily circulation has doubled; The Sunday Journal circulation has practically tripled in this period.

Milwaukee Journal circulation is all "solid." Never in the 43 years of The Journal's existence have premiums been offered either to attract new readers or to retain old subscribers. The Journal is the *only* Milwaukee newspaper which does not offer premiums to readers. The Journal is sold on its merits alone.

Assuring advertisers the maximum volume of business obtainable, at a single low advertising cost, The Journal holds the "key" to Milwaukee. The Journal is the only newspaper necessary to sell the rich Milwaukee-Wisconsin market.

Read by more Milwaukee and Wisconsin people than any other publication in the world!

The Milwaukee JOURNAL
FIRST - by Merit

WISCONSIN (Cont'd)

MONROE, WIS.

(Green County)

1920 Population, 4,788.

City and Suburban Estimate, 6,000.

Native Whites, 75%; **Foreign Born,** 25%; **English Reading,** 95%; **Families,** 1,100.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 1; Number of Pupils, 1,280. One Normal School.

Churches: Christian Science, 1; Methodist, 2; Roman Catholic, 1; Miscellaneous, Universalist, Union, Lutheran, United Brethren in Christ.

Banks: National, 1; State, 2; Total Resources, $5,030,498.55, June 31, 1925. Savings Bank Deposits Total, $1,427,084.98, June 31, 1925.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,100.

CHEYENNE, WYO.

(Laramie County)

1920 Population, 13,829.

City and Suburban Estimate, Laramie County, 18,948.

Native Whites, 70%; **Negroes,** 3%; **Foreign Born,** 27%; **Industrial Workers,** 50%; **English Reading,** 85%; **Families,** approximate, 3,500.

Schools: Public Grade, 7; High, 1; Junior High, 1; Parochial, 1; Number of pupils, 2,967.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 7.

Banks: National, 2; Total Resources, $8,055,372; Savings Bank Deposits Total, $1,539,480.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 3,660.

Location: Southeast portion of state and is served by the main line of the Union Pacific Railroad, by the C. B. & Q. and the Colorado & Southern.

Principal Industries: Railroad shops, cattle and sheep.

Manufacturing Establishments: Creamery, ice cream and like establishments: International Harvester Co. branch; M. A. Disbrow, manufacturer of doors and sash. Largest shops on the Union Pacific system furnish the industrial employment of the city.

Residential Features: Mostly one- and two-family houses with the south side composed of small semi-modern dwellings housing shop workers. The better residential districts have several apartment houses, but private homes predominate. Most of residences owned by occupants. Very little rented property.

Retail Shopping Section: Extends north from Union Pacific depot on Capitol, Caray and Pioneer avenues for four blocks and intersecting streets (Fifteenth, Sixteenth, Seventeenth and Eighteenth), being business streets. South Cheyenne (reached by viaduct over the Union Pacific yards) has a small business district. There are the usual scattered "neighborhood" groceries and markets.

Trading Area: Territory surrounding Cheyenne very thinly populated and devoted chiefly to cattle and sheep raising. Business dependent almost entirely on city population.

Wholesale Houses: Groceries, 3; meats, 1; fruits, 2; hardware, 1; miscellaneous lines, farm implements, 2; drug, 1; cigar and confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 24; commercial auto agencies, 5; automobile accessories, 6; automobile tire agencies, 8; bakers, 7; cigar stores and stands (including hotels), 86; confectioners (including hotel stands), 20; delicatessen, 2; dressmakers, 3; druggists, 8; dry goods, 4; electrical supplies, 3; florists, 6; fruits, 2; furniture, 4; garages (public), 13; grocers, 46 (chain, 4); hardware, 4; jewelry, 6; meat markets, 14; men's clothing, 16; merchant tailors, 12; milliners, 3; opticians, 5; photographers, 5; pianos (and miscellaneous musical instruments), 4; radio supplies, 4; restaurants (including hotels), 25; shoes, 11; sporting goods, 4; stationers, 3; women's apparel, 12.

Miscellaneous Data: Average number of rainy days per 12 months, 60; most pleasant months, June, July, Aug., Nov., Jan., Feb., March; doctors (medical, 21), (dentists, 11), (osteopaths, 1); number of wired houses, 4,000; no street car service; gas, artificial; electric current, alternating; water, hard.

WYOMING and CANADA Markets in Standard Survey

WYOMING (Cont'd)

LARAMIE, WYO.

(Albany County)

1920 Population, 6,301.

City and Suburban Estimate, 10,000.

Native Whites, all; English Reading, 98%; **Families,** 2,200.

Schools: Public Grade, 4; High, 1; Junior High, 1; Parochial, 2; Number of Pupils, 1,800.

Waters Clothes Pin Factory, Western Box & Shingle Co., Kootenay Wire Works & Mattress Factory. Total value of yearly output of factories estimated at $18,000,000.

Special Information: Largest city in interior of B. C. Has own hydro-electric power plant, street railway, gas works, water works, etc. Nelson is center of big agricultural, mining and working district. Is chiefly wholesale and retail center.

Residential Features: There are a few rooming houses and residential hotels, but practically whole population live in private homes, mostly owned by occupants. Homes average in value $3,500.

Retail Shopping Section: Extends 6 blocks on Baker St., 2 blocks on Ward St., 2 blocks on Josephine St., 3 blocks on Vernon St., and a number of small neighborhood stores.

Trading Area: 26 miles west, 54 miles south, 25 miles east and about 40 miles north. This is for ordinary everyday trading. For some classes of goods, such as high grade ladies' wear, pianos, men's wear, shoes, etc., this is the trading center of area averaging 148 miles in radius.

Wholesale Houses: Groceries, 4; meats, 3; fruits, 2; hardware, 2; dry goods, 2; Miscellaneous lines, confectioner, 1; tobacco, 5.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 4; commercial auto. agencies, 4; automobiles accessories, 8; automobile tire agencies, 7; bakers, 4; cigar stores and stands (including hotels), 6; confectioners, (including hotel stands), 8; dressmakers, 6; druggists, 5; dry goods, 6; department stores, 1; electrical supplies, 5; florists, 2; fruits, 2; furniture, 3; furriers, 1; garages (public), 4; grocers, 18 (chain, 1); hardware, 3; jewelry, 3; meat markets, 4; men's furnishings, 4; men's clothing, 4; merchant tailors, 7; milliners, 5; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 3; radio supplies, 5; restaurants (including hotels), 7; shoes, 4; sporting goods, 3; stationers, 7; women's apparel, 6.

Miscellaneous Data: Average temperature, 60 degrees; average number of rainy days per twelve months, 86; most pleasant months, June, July, Aug., Sept., Oct.; doctors (medical 6); (dentists, 7); osteopaths, 2); number of wired houses, all; street car service; gas, artificial; electric current, alternating; water, soft, (mountain water).

NEW WESTMINSTER, BRITISH COLUMBIA

1921 Population, 14,495 .

City and Suburban Estimate, 25,000.

Native Whites, 90%; **Foreign Born,** 10%; **Industrial Workers,** 33%; **English Reading,** 93%; **Families,** 4,500.

Schools: Public Grade, 6; High, 2; Parochial, 2; Number of pupils, 3,661.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 4; Methodist, 3; Presbyterian, 5; Roman Catholic, 3; Miscellaneous, 3.

Banks: National, 5; Total Resources, $1,988,732; Savings Banks Deposits Total, $848,497.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 10. Total number of seats, 7,500.

Location: On the north bank of the Fraser River, 18 miles above its mouth at the Gulf of Georgia. Served by four transcontinental railroads: C. P. Ry., C. N. Ry., G. N. Ry., and N. P. Ry., and the B. C. electric interurban line. Local fresh-water harbor is freely used by a fast increasing number of ocean going freighters in export trade Ample deep water, 2 miles of improved harbor area dockage, many miles of unimproved trackage and water front, marine ways, shipyards and many sites suitable for elevators.

Principal Industries: Lumbering, all branches, shipyards, mills, salmon and fruit canning, electric car shops, distillery.

Manufacturing Establishments: 27. Leading firms: Canada Western Lumber Co., Ltd. (one of the largest saw mills in Canada), Brunette Lumber Co., Timberland Lumber Co., Mohawk Lumber Co., Iowa Shingle Mill; Westminster Iron Works, Heaps Engineering Works, Leckie's Tannery, B. C. Distillery, Laminated Materials Co., Border Fruit & Vegetable Cannery, B. C. Electric Ry. Shops, Westminster Brewery, Swift-Canadian, Ltd., (packing house and abattoir). B. C. Box Factory, Western Marine Railway, Triangle Chemical Co.

Special Information: Location of city very favorable, as a manufacturing and distributing center. Four railway lines meet ocean-going ships using fresh water harbor, open all the year. The city owns its own electric light, power and gravity waterworks system and the valuable water frontage property of the improved harbor area, which is available on long term leases. Central point for motor trucks and stages serving the valley from Huntingdon, Haney, White Rock and Vancouver. City operates its own weekly market. Suburban areas offer many miles of trackage and water frontage beyond the improved harbor area. The greater part of the area in city limits is residential. The considerable monthly pay-roll is stabilized by the large staffs and numerous inmates of Gov't institutions, such as B. C. Penitentiary and hospitals located here.

Residential Features: Mostly one family houses, standard residence and business lots 66x132 ft. Most main streets are hard surfaced with storm sewers and cement walks. Private homes predominate, even the landlords in the small Chinatown are, many of them Chinese. The topography favors the city as a residential city, with a generally south and western aspect, but magnificent view all around, a picturesque setting in a county famed for its natural beauties.

Retail Shopping Section: Extends along the streets paralleling the river (Fraser) and for several blocks back along the intersecting streets which lead to residential sections. North, east and west, small retail centers cater to suburban residents. The city being about 14 blocks north and south and 2 miles east and west.

Trading Area: Extends 30 to 40 miles east, 22 miles south, 20 miles west and 5 miles north. This area is chiefly agricultural and dotted with small towns and villages which are supplied from here, via B. C. Ry. and motor truck and bus lines.

Wholesale Houses: Groceries, 1; meats, 2; fruits, 1; hardware, 3; Miscellaneous lines, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 5; automobile accessories, 15; automobile tire agencies, 1; bakers, 4; cigar stores and stands (including hotels), 40; confectioners (including hotel stands), 40; delicatessen, 10; dressmakers, 15; druggists, 8; dry goods, 6; department stores, 1; electrical supplies, 10; florists, 4; fruits, 30; furniture, 6; garages (public), 6; grocers, 40; hardware, 5; jewelry, 6; meat markets, 10; men's furnishing, 6; men's clothing, 6; merchant tailors, 7; milliners, 8; opticians, 3; photographers, 3; pianos (and miscellaneous musical instruments), 4; radio supplies, 5; restaurants (including hotels), 17; shoes, 6; sporting goods, 8; stationers, 2; women's apparel, 8.

PRINCE RUPERT, BRITISH COLUMBIA, CAN.

1921 Population, 6,393 (last census).

City and Suburban Estimate, 10,000.

Native Whites, 85%; **Indians,** 10%; **Foreign Born,** 5%; **Industrial Workers,** 50%; **English Reading,** 95%; **Families,** 2,200.

Schools: Public Grade, 5; High, 1; Number of pupils, 800.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 1.

Banks: National, 3.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 2,000.

Location: Pacific coast terminus of Canadian National Ry., situated 550 miles north of Vancouver and 40 miles south of the Alaskan boundary. It is 500 miles nearer the Orient than any other port on the Pacific Coast. Having a daily service of fast through passenger trains from the Atlantic coast with fast through freight service it is the controlling factor in the Canadian Yukon and Canadian Alaska trade.

Principal Industries: Fishing, lumbering and mining, cold storage and fish curing, shipbuilding and machinery shops, Canadian National dry dock. The district, for which Prince Rupert is the distributing point, produces 70% of the total gold, silver and copper mined in the Province of British Columbia.

Manufacturing Establishments: 15. Leading firms: Canadian Fish & Cold Storage Co., Rupert Marine Products, Laminated Wood Products (in course of building), Booth Fisheries Canada Co., Atlin Fisheries, Ltd., Royal Fish Co., Pacific Fisheries, Big Bay Lumber Co., Georgetown Sawmill, Albert McCaffery, Imperial Oil, Canadian National Dry Dock, Skeena River Salmon Canneries, and Massett Timber Co., Massett Q. C. L. tributary to the city, Swift Canadian Co.

Special Information: Prince Rupert is the northern center for the fishing, lumber and mining industries. Fish curing plants, cold storage plant, ice making works, boat building, etc. The fishing industry has had a remarkable growth, due to the strategic position of Prince Rupert. It is the natural port of entry for fish products to the eastern markes. Industrial sites are available at fair rentals on the waterfront with cheap power, light, water, etc.

Residential Features: Mostly one-family residences and apartment blocks. Private homes predominate.

Retail Shopping Section: Extends from Fairview (a fine residential district) for 5 blocks on Third Ave. to McBride St., and on Second Ave. from the Post Office to McBride St., paralleling Third Ave. In addition, there are the usual neighborhoods with confectionery, meat, fruit stores, etc.

Trading Area: Extends about 80 miles north, south, west and 100 miles east, north to Stewart and Anyoc, south to Ocean Falls, east to Prince George, and west to Queen Charlotte Islands.

Wholesale Houses: Groceries, 3; meats, 3; fruits, 2; hardware, 2; dry goods, 1; Miscellaneous lines, shoes, 2; confectionery, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 3; commercial auto. agencies, 3; automobile accessories, 4; automobile tire agencies, 2; bakers, 3; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 6; delicatessen, 3; dressmakers, 10; druggists, 2; dry goods, 4; department stores, 1; electrical supplies, 4; florists, 3; fruits, 6; furniture, 2; furriers, 2; garages (public), 5; grocers, 8; hardware, 4; jewelry, 2; meat markets, 3; men's furnishings, 5; men's clothing, 5; merchant tailors, 5; milliners, 3; opticians, 2; photographers, 3; pianos (and miscellaneous musical instruments), 2; radio supplies, 3; restaurants (including hotels), 15; shoes, 5; sporting goods, 2; stationers, 2; women's apparel, 7.

Miscellaneous Data: Average temperature, 52 degrees; average number of rainy days per twelve months, 200; most pleasant months, June, July, Aug., (sometimes December); doctors (medical, 6); (dentists, 3); (ostepoaths, 1); number of wired houses, 2,150; no street car service; no gas; electric current, alternating; water, soft.

VANCOUVER, BRITISH COLUMBIA, CAN.

1921 Population, 117,217. (1925 est. 126,747).

City and Suburban Estimate, 250,544.

Native Whites, 50%; **Orientals,** 8%; **British Born,** 42%; **Industrial Workers,** 17%; **English Reading,** 92%; **Families,** 43,486.

Racial Origin: British, 80%; European, 9%; Asiatic, 8%; Others, 3%.

Schools: Public Grade, 87 (including suburbs); High, 15 (including suburbs); Parochial, 25; Number of Pupils: City, 21,746; Suburbs, 21,263.

Churches: Baptist, 8; Christian Science, 1; Congregational, 2; Episcopal, 11; Hebrew, 2; Methodist, 15; Presbyterian, 13; Roman Catholic, 8; Miscellaneous, 35.

Banks: Dominion, 9, 56 branches in city.

Theatres: Legitimate, 2; Moving Pictures, 23; Vaudeville, 3; Burlesque, 2; Miscellaneous (Auditoriums, etc.), 2. Total number of seats, 32,000.

Location: On the shores of Burrard Inlet, 6 miles north of mouth of Fraser River, Gulf of Georgia, Pacific Ocean. Served by eight railroads and 40 deep sea regular S. S. lines giving 52 services. Western terminus of C. P. R., Canadian National, Great Northern, Northern Pacific, the C. M. & St. P. Ry., Union Pacific, Kettle Valley and P. G. E. Rys., also operate here. S. S. lines include C. P. R., Coastwise and Trans-Pacific, Can.-Aust. Royal Mail, Dollar S. S., Luckenbach S. S., C. S. A. Line, C. G. Trans-Atlantic, Gen'l S. S. Corp., Pac.-European Line, Moore & McCormick Line, Admiral Line, etc. Nearest larger city 6 hours by auto, and railroad.

Principal Industries: Lumber, including manufactured wood products and shingles, fish canning, fertilizer manufacturing, machinery supplies, sheet metal works, chemical laboratories, fruit canning plants, boat building, railroad shops, etc. Grain handling, sugar refining, oil refining, printing.

Manufacturing Establishments: 1,291. Leading firms: American Can Co., Vancouver Lumber Co., B. C. Mills Timber & Trading Co., Ltd., J. Hanbury Lumber Co., Dom. Canners, B. C. Sugar Refinery, Imperial Oil Co., Empress Mfg. Co.

Figures compiled by Workmen's Compensation Board, to which all industries contribute, show 1924 payroll was $160,000,000, an increase of 16% over 1923 total. Total value of yearly output of factories $100,000,000. Payroll over $24,000,000.

Special Information: Vancouver is distributing base for western Canada. Four years ago less than 1,000,000 bushels of western Canadian grain were shipped by this port. This year 60,000,000 bushels of grain are being exported. Where grain moves out, merchandise must move in, and Vancouver manufacturers, wholesale houses, and miscellaneous business are now experiencing the greatest era of development ever known here. Grain is a profitable cargo and Vancouver is converging point for the entire ocean tonnage on the Pacific. Low water rates to Vancouver have definitely established this point as the wholesale distributing base for the western coast of Canada.

Residential Features: Vancouver's equable climate, due to the warm Japan Current, has attracted a great many retired business men from the eastern and prairie provinces to make their homes here. Thust in the West-end, Kitsilano, Point Gray, Fairview and Shaughnessy Heights districts, homes are of a very high standard. Entirely one-family homes, although averaging from eight to ten rooms with 10 to 16-room residences in the Shaughnessy Heights district. Workingmen's district: South Vancouver, Grandview, Mt. Pleasant, contain substantial five and six-room homes—one family to a home. Residences' average value, $8,000 to $15,000. Workingmen's homes average $3,000.

Retail Shopping Section: Extends in the center of the city from Main Street in the east, along Hastings Street westward to Granville, approximately one mile; thence south on Granville one mile. Within this triangular area is the retail shopping district, covering an area of 25 blocks. There are six main outlying retail business sections, and a large number of "neighborhood" stores of general nature in all residential districts excepting Shaughnessy Heights, which is exclusively residential.

Trading Area: Extends over the lower mainland of British Columbia, eastward as far as Chilliwack, 60 miles up the Fraser River. In

Continued on page 278

BRITISH COLUMBIA (Cont'd)

Vancouver (con't)

the Fraser Valley, which extends from Vancouver to Chilliwack 60 miles, extensive mixed farming is carried on, practically half of the farmers visiting Vancouver at least once a week.

Wholesale Houses: Groceries, 15; meat, 8; fruits, 39; hardware, 9; dry goods, 24.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 36; automobile accessories, 43; automobile tire agencies, 4; bakers, 98; cigar stores and stands (including hotels), 69 (chain, 8); confectioners, (including hotel stands), 477; delicatessen, 29; dressmakers, 45; druggists, 78 (chain, 26); dry goods, 46; department stores, 4; electrical supplies, 31; florists, 45; fruits, see confectioner; furniture, 45; furriers, 20; garages (public), 152; grocers, 496 (chain, 27); hardware, 53; jewelry, 90; meat markets, 134 (chain 23); men's furnishing, 38; merchant tailors, 76; milliners, 49; opticians, 28; photographers, 51; pianos (and miscellaneous musical instruments), 32; radio supplies, 6; restaurants (including hotels), 298 (chain 4); shoes, 77; sporting goods, 11; stationers, 51; women's apparel, 29.

Miscellaneous Data: Average temperature, 61 degrees; average number of rainy days per twelve months, 90; most pleasant months, May to September inclusive; doctors (medical, 257); (dentists, 123); (osteopaths, 6); number of wired houses, 59,994; street car service; gas, artificial; electric current, alternating; water, soft.

VICTORIA, BRITISH COLUMBIA, CAN.

1920 Population, 38,727.

City and Suburban Estimate, 58,000.

Native Whites, 70%; **Foreign Born,** 30%; **Industrial Workers,** 7%; **English Reading,** 95%; **Families,** 10,073.

Schools: Public Grade, 4,795; High, 929; Number of pupils, 5,863.

Churches: Baptist, 7; Christian Science, 1; Congregational, 1; Episcopal, 1; Hebrew, 1; Methodist, 15; Presbyterian, 10; Roman Catholic, 6; Miscellaneous, 30.

Banks: Chartered Banks, 7, Total Number; Total Resources, $105,775,654.

Theatres: Legitimate, 2; Moving Pictures, 7; Vaudeville, 1. Total number of seats, 6,036.

Location: On the Straits of Juan de Fuca, at southern extremity of Vancouver Island. Served by the Can. Pac., Esquimalt & Nanaimo, and Canadian National Rys. Steamship lines: Union S. S. Co., C. P. O. S., Admiral Line, Blue Funnel Line, Harrison Line, Royal Mail, Nippon Yusen Kaisha, Osake Shosen Kaisha, Holt Line.

Miscellaneous Data: Doctors (medical, 8), (dentists, 4), (osteopaths, 1); no street car service; no gas; electric current, alternating; water, hard.

WINNIPEG, MANITOBA, CAN.

1920 Population, 179,987. With adjoining municipalities, 211,876.

City and Suburban Estimate, 240,000.

Native Born, 52.41%; **British Isles,** 27.90%; other **British Possessions,** 0.39%; **Europe,** 14.81%; **U. S.,** 3.94%; **Industrial Workers,** 12½%; **English Reading,** 95%; **Families,** 45,795.

Schools: Public Grade, 70; High, 4; Junior High, 3; Parochial, 20; Number of Pupils, 40,004 (Public Schools).

Churches: Baptist, 10; Christian Science, 2; Congregational, 2; Episcopal, 27; Hebrew, 15; Methodist, 26; Presbyterian, 23; Roman Catholic, 20; Miscellaneous 51.

Banks: Comparison not applicable in Canada. Average bank clearings Winnipeg $8,599,704 daily. Number of banking offices in city 56.

Theatres: Legitimate, 2; Moving Pictures, 34; Vaudeville, 3; Miscellaneous (Auditoriums, etc.), 2; Total number of seats, 36,200.

Location: 350 miles west of Lake Superior, at the eastern edge of the Western Canadian Prairie Belt. Focal point for the Western Canadian Railway System. The railway concentration and distribution point for Western Canada. Principal mid-continental terminal of the Canadian Pacific and Canadian National Railway Systems connecting via Soo Lines, Great Northern and Northern Pacific Railways with Minneapolis, St. Paul, Duluth and Chicago.

Principal Industries: Railway shops, flour milling, printing, iron, steel and machinery supplies, wholesale distribution and mail order merchandise.

Manufacturing Establishments, 960. Ogilvie Flour Mills Co., Ltd., Western Canada Flour Mills, Ltd., Canadian Pacific Railway Shops, Canadian National Railway Shops, G. F. Stephens & Co., Ltd. Total value of yearly output of factories estimated at $149,500,000.

Special Information: The location of Winnipeg makes it the business metropolis of Western Canada, occupying the same relative position with respect to the Dominion of Canada as the city of Chicago occupies in the United States. Center for Western Canada agricultural, live stock, implements publishing and fur trade. Winnipeg trading territory is enormous in area, large in population. Hydro-Electric energy (250,000 horse power available) used exclusively for industrial power, lighting, and traction, for nearly all domestic purposes and to a considerable and increasing extent for domestic heating.

Residential Features: Mostly single family detached cottages. Tendency of building in later years to houses of more permanent character. Unusually large number of apartment houses and large proportion of apartment dwellers.

Retail Shopping Section: High-class retail shopping section, extends along Portage avenue, westward from Main street for eight blocks. Older retail district (including two leading department stores, three leading furniture stores, and one leading hardware store on Main street in what has become since the city's financial district). Main street north of C. P. R. for four blocks and Selkirk avenue, running westward therefrom 1½ miles, retail stores, for foreign residential districts. Six principal outlying retail business sections. Several hundred small neighborhood corner groceries, throughout the whole city.

Trading Area: Immediate local retail area confined to city and contiguous urban municipalities of within ten miles radius. Suburban business within a twenty-five mile radius, secured by rapid transit trolley connection on four lines. Wholesale distribution area for groceries, hardware, fruit and other quick moving job lines, includes roughly the Province of Manitoba.

Wholesale Houses: Groceries, 22; meats, 12; fruits, 1; hardware, 19; dry goods, 19; millinery, 5; church goods, 2; toys, 2; Oriental, 1; miscellaneous, 10; miscellaneous lines: agricultural implements, 33; saddlery, 3; biscuits, 1; confectionery, 6; boots and shoes, 17; drugs, 11; china, 3.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 20; commercial auto agencies, 9; automobile accessories, 75; automobile tire agencies, 20; bakers, 59; cigar stores and stands (including hotel stands), 215; druggists, 95; dry goods, 95; department stores, 3; electrical supplies, 34; florists, 24; furniture, 24; furriers, 47; garages (public), 60; grocers, 736; hardware, 51; jewelry, 55; meat markets, 172; men's furnishings and men's clothing, 67; merchant tailors, 196; milliners, 49; opticians, 23; photographers, 31; pianos (and miscellaneous musical instruments), 16; radio supplies, 9; restaurants (including hotels), 117; (53 restaurants); shoes, 42; sporting goods, 19; stationers, 6; women's apparel, 24.

NEW BRUNSWICK

FREDERICTON, N. B., CAN.

1921 Population, 8,114.

City and Suburban Estimate, 20,000.

Native Whites, 98%; **Negroes,** 2%; **Foreign Born,** .01%; **Industrial Workers,** 25%; **English Reading,** 100%; **Families,** 2,704.

Schools: Public Grade, 3; High, 1; Technical, 1.

Churches: Baptist, 2; Episcopal, 2; United Church of Canada, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, Reformed Baptist, 1.

Banks: National, 4 (chartered).

Theatres: Legitimate, 1; Moving Pictures, 2; Total number of seats, 2,100.

BROCKVILLE, ONTARIO, CAN.

1921 Population, 10,040.

City and Suburban Estimate, 50,000.

Native Whites, 98%; Foreign Born, 2%; Industrial Workers, 68%; English Reading, 99%; Families, 2,400.

Schools: Public Grade, 5; Parochial, 1; Collegiate Institute, 1; Number of Pupils, 3,360.

Churches: Baptist, 1; Episcopal, 3; United Church of Canada, 2; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 3.

Banks: National, 5; Savings Bank Deposits Total, $2,500,000.

Theatres: Legitimate, 1; Moving Pictures. 1; Miscellaneous (Auditoriums, etc.), 3; Total number of seats, 3,000.

Location: The county seat of United Counties of Leeds and Grenville counties, situated on the St. Lawrence River, 208 miles east of Toronto and 125 miles west of Montreal. On main line of Canadian National Rys, with branch to Westport, and on Brockville-Ottawa line of the Canadian Pacific Ry. Bus lines to Ottawa, Gananoque, Prescott, Athens. Daily steamship service (in summer) to Montreal, Toronto and ferry to Morristown, N. Y., connecting there with N. Y. C. Lines. Nearest larger city is 3 hours by auto and railroad.

Principal Industries: Condensed milk, copper wire and cable, men's hats, hardware, forgings, fire extinguishers, milking machines, belting, gloves, office furniture, railroad shops, cheese, patent medicines, candy, biscuits, marine engines, grinding wheels, butter, dairying equipment, lumber.

Manufacturing Establishments: 25: Leading firms, Eugene F. Phillips Electrical Works, Wolthausen Hat Corp., Laing, Produce & Storage Co., National Mfg. Co., Canada Foundries & Forgings, Ltd., Machinery & Foundries, Ltd., McArthur Belting, Ltd., Lion Grinding Wheels, Ltd., St. Laurence Engine Co., Abbott, Grant Co. Burrell Mfg. Co.

Special Information: The town is the center of rich dairying section of Ontario and possesses excellent shipping facilities and a surplus of hydro electric power for manufacturing purposes.

Residential Features: Dwellings very largely detached and occupied by one family. The presence of the Thousand Islands in the near vicinity has created a large summer colony with attractive residences. The private residential section in the east is very generally admired. Attractive parks within the town limits and 29 islands in the St. Lawrence under lease by the town as camping places.

Retail Shopping Section: Extends east and west from Court House Avenue along King Street for a distance of ten blocks and also on Perth, Buell and Court House Avenue with isolated business houses in other parts of the town.

Trading Area: Extends about 25 miles north, east and west, embracing a well settled and prosperous agricultural community, specializing in dairying, and a number of small villages. There is also a large summer trade from the St. Lawrence River and lake resorts.

Wholesale Houses: Groceries, 1; fruits, 4; hardware, 1; miscellaneous lines, shoes, 1; confectioners, 2; ice cream, 1; paper bags, 1.

Number of Retail Outlets for Nationally Advertised products: Passenger automobile agencies, 5; commercial auto. agencies, 7; automobile accessories, 11; automobile tire agencies, 8; bakers, 6; cigar stores and stands (including hotels), 6; confectioners (including hotel stands), 7; dressmakers, 15; druggists, 7; dry goods, 3; department stores, 2; electrical supplies, 6; florists, 2; fruits, 4; furniture, 4; furriers, 3; garages (public), 10; grocers, 40 (chain, 2); hardware, 3; jewelry, 4; meat markets, 8 (chain, 1); men's furnishings, 11; men's clothing, 9; merchant tailors, 3; milliners, 5; opticians, 4; photographers, 4; pianos (and miscellaneous musical instruments), 2; radio supplies, 5; restaurants (including hotels), 8; shoes, 5; sporting goods, 2; stationers, 3; women's apparel, 5.

Miscellaneous Data: Most pleasant months, **July, August and September;** doctors (medical, 14), (dentists, 6); number of wired houses, 1,984; no street car service; gas, artificial; electric current, alternating; water, soft.

CHATHAM, ONTARIO, CAN.

1921 Population, 13,256.

City and Suburban Estimate, 59,428.

Native Whites, 98%; Negroes, .02%; Foreign Born, 1%.

Schools: Public Grade, 3; High, 1; Parochial, 2; Vocational School, Business College; Number of Pupils, 3,322.

Churches: Baptist, 1; Christian Science, 1; Episcopal, 2; Methodist, 2; Presbyterian, 2; Roman Catholic, 2; Miscellaneous, 13.

Banks: National, 6; Total Resources, $148,-959,212.09.

Theatres: Moving Pictures, 2; Vaudeville, 1.

Location: On Thames River in county of Ken in southwestern peninsula of Ontario, Can. National, Can. Pac., M. C., P. M. and bus service to surrounding towns, also steamship to Detroit, Wabash Ry. and Chatham Wallaceburg & Lake Erie Elec. Ry. Nearest large city 2 hours by auto and 1 hour and 20 minutes by railroad.

Principal Industries: Automobiles, sugar refinery, pickle factory, men's overalls, canning, flour and woolen mills, engine boiler and machine works, foundries, textile factories, wheel works, spring and large wagon factories, furnaces, concrete products, milk and cream products.

Manufacturing Establishments: Leading firms, Libby, McNeill & Libby, Dominion Sugar Co., International Harvester Co., Chatham Coach & Auto Works, Hayes Wheel Works of Canada, Dowsley Spring & Axle Works, Canadian Tobacco Products.

Special Information: Chatham forms the hub of the rich agriculture country that is known as South Western Ontario. It is the center of the Ontario tobacco, bean, and corn districts, while to the south of the city lies a fruit belt. Head of navigation on the Thames River. 8,500 autos registered in the county.

Residential Features: Mostly one and two family houses, private homes predominate.

Retail Shopping Section: King Street (main street), 6 blocks; Queen Street, 2 blocks, and St. Clair Street, 2 blocks.

Trading Area: 40 miles.

Wholesale Houses: Groceries, 1; meats, 1; fruits, 1; hardware, 1; miscellaneous lines, farm produce, 2; tobacco, 1; lumber, 1; confectionery, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 8; commercial auto. agencies, 4; automobile accessories, 7; automobile tire agencies, 5; bakers, 9; cigar stores and stands (including hotels), 22; confectioners (including hotel stands), 13; dressmakers, 10; druggists, 10 (chain, 1); dry goods, 6; department stores, 1; electrical supplies, 5; florists, 9; fruits, 3; furniture, 5; furriers, 2; garages (public), 26; grocers, 59 (chain, 4); hardware, 6; jewelry, 6; meat markets, 18; men's furnishings, 8; men's clothing, 11; merchant tailors, 9; milliners, 11; opticians, 5; photographers, 4; pianos (and miscellaneous instruments), 6; radio supplies, 3; restaurants (including hotels), 11; shoes, 8; sporting goods, 4; stationers, 11; women's appared, 5.

Miscellaneous Data: Most pleasant months, Summer and early Fall; doctors (medical, 16), (dentists, 7); suburban street car service; gas, natural; electric current, alternating; water, soft.

FORT WILLIAM, ONTARIO, CAN.

1921 Population, 20,541. (1925, est. 22,000.)

Native Whites, 70%; Foreign Born, 30%; Industrial Workers, 50%; English Reading, 86%; Families, 5,000.

Schools: Public Grade, 8; Technical Collegiate Institute.

Churches: Baptist, 3; Christian Science, 1; Episcopal, 3; Hebrew, 1; United Church of Canada, 5; Presbyterian, 1; Roman Catholic, 4; Miscellaneous, 4.

Banks: 7.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditorium, etc.), 3.

Location: At the head of Lake Superior. Lake Terminus of Canadian Pacific Railway and Canadian National Railways. 426 miles east of Winnipeg Headquarters of Dominion Grain Board. Large grain shipping terminal which combined with sister city of Port Arthur has storage of 65,000,000 bushels. Nearest large city 20 hours by auto, 12 hours by railroad.

Principal Industries: Grain elevator shipping and railway terminals. 350 miles of trackage. 26 miles of land enclosed harbor. Two large pulp and paper mills, in addition to other large industrial activities.

Manufacturing Establishments: 28. Leading firms: Pulp and paper mills, starch and glucose, flour mills, feed mills, car wheels and pipe foundry, car works, etc.

Special Information: The location of Fort William at the head of lake navigation makes it the national outlet for the western province of Manitoba, Saskatchewan and Alberta, and through this port is carried a large volume of package freight westbound while the product of the western provinces reach eastern market by the route. An abundance of pure water and cheap electrical power is available. Trunk auto road connects with Duluth—distance 204 miles.

Residential Features: Mostly one and two family houses. Private houses predominate.

Retail Shopping Section: Victoria Avenue, 5 blocks; May Street, 3 blocks; Simpson Street, 12 blocks. There is in addition a number of outlying business districts including "West Fort" besides "neighborhood" small grocery and other shops.

Trading Area: Owing to the isolated situation with respect to larger centers Fort William is the largest city between Toronto and Winnipeg, and enjoys a large district trade, villages scattered over a very large area looking to this city as the center of trade.

Wholesale Houses: Groceries, 3; meats, 9; fruits, 2; hardware, 2; miscellaneous lines, confectionery, 6; drugs, 1; tobacco, 1; flour and feed, 6.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 6; automobile accessories, 23; automobile tire agencies, 15; bakers, 8; cigar stores and stands (including hotels), 24; confectioners (including hotel stands), 20; delicatessen, 5; dressmakers, 15; druggists, 13; dry goods, 16; department stores, 2; electrical supplies, 4; florists, 4; fruits, 2; furniture, 6; furriers, 4; garages (public), 10; grocers, 85; hardware, 7; jewelry, 7; meat markets, 24; men's furnishings and men's clothing, 18; merchant tailors, 8; milliners, 4; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 9; radio supplies, 10; restaurants (including hotels), 26; shoes, 20; sporting goods, 9; stationers, 6; women's apparel, 21.

Miscellaneous Data: Most pleasant months, June, July, August, Sept.; doctors (medical, 12), (dentists, 9), (osteopaths, 1); number of wired houses, 4,000; street car service; electric current, alternating and direct; water, soft.

GALT, ONTARIO, CAN.

1921 Population, 13,216.

British Native Whites, 98%; Foreign Born, 2%; Industrial Workers, 44%; English Reading, 100%; Families, 3,200.

Schools: Public Grade, 5; Parochial, R. C.; Number of Pupils, 2,865. Collegiate Institute and Technical School, 750 Pupils.

Churches: Baptist, 2; Christian Science, 1; Anglican Episcopal, 2; United Church of Canada, 3; Presbyterian, 3; Roman Catholic, 1; Miscellaneous, Lutheran, 1.

Banks: National, 6; Trust Co., 1.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 4; Total number of seats, 3,150.

Location: On the Grand River and Mill Creek. Served by Canadian Pacific Ry., Canadian Nat. Ry. (two branches), and Grand River and Lake Erie and Northern Electric Ry., 13 miles southeast of Kitchener and 25 miles northwest of Hamilton. Nearest larger city is 1¼ hours by auto, 2 hours by trolley, 1 hour by railroad.

Principal Industries: Iron and brass foundries, iron and wood-working machinery works, engine, boiler sheet metal and safe works, shoes, underwear, stove and tack factories, flour, saw, account books and cash registers, planing, silk and textile mills.

Manufacturing Establishments: 70. Leading firms, Babcock-Wilcox and Goldie-McCulloch Co., Ltd., Canada Machinery Corporation, Getty and Scott, Ltd., Galt Brass Co., Ltd., R. McDougall Co., Ltd., Sheldons, Ltd., C. Turnbull Co., Galt Knitting Co., Riverside Silk Mills, Newlands & Co., Stauffer-Dobbie, Ltd., McCaskey Systems, Ltd.

Special Information: Galt is a recognized center of the iron and steel industries and has also large textile and boot and shoe factories. It is distinctive for its large beautiful parks and for its attractive residential features.

Residential Features: Mostly detached and semi-detached houses of brick and stone construction. Very few frame houses. Most of the streets are paved or macadamized and have curbs and gutters. On the west side is an extensive residential section with ornamental lighting and underground wiring.

Retail Shopping Section: The retail section comprises a compact area of three or four blocks each way, as contrasted with the usual one street shopping district of similar size. The compactness makes all stores readily accessible and is a great convenience to shoppers especially those from out of town. The chief business streets are Main, Water, Ainslie.

Trading Area: About 16 miles radius covering a thickly populated agricultural and industrial territory, well served by transportation facilities which make Galt the shopping center.

Wholesale Houses: Groceries, 1; fruits, 1; hardware, 1; miscellaneous lines, tobacco, 2; confectionery, 4.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 7; commercial auto. agencies, 6; automobile accessories, 13; automobile tire agencies, 9; bakers, 8; cigar stores and stands (including hotels), 11 (chain, 1); confectioners (including hotel stands), 18; delicatessen, 1; dressmkares, 10; druggists, 6; dry goods, 8; department stores, 3; electrical supplies, 8; florists, 4; fruits, 9; furniture, 4; furriers, 1; garages (public), 12; grocers, 44 (chain, 6); hardware, 5; jewelry, 4; meat markets, 12 (chain, 1); men's furnishings, 10; men's clothing, 11; merchant tailors, 4; milliners, 11; opticians, 3; photographers, 2; pianos (and miscellaneous musical instruments), 6; radio supplies, 4; restaurants (including hotels), 7 (chain, 1); shoes, 11; sporting goods, 2; stationers, 4; women's apparel, 9.

Miscellaneous Data; Average temperature, 45.5 degrees; average number of rainy days per twelve months, 50; most pleasant months, May to September; doctors (medical, 10), (dentists, 8), (osteopaths, 4); number of wired houses, 3,200; street car service; gas, natural; electric current, alternating; water, both hard and soft.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 4.

Location: Situated in the heart of southern Ontario, 49 miles west of Toronto, 28 miles from Hamilton, 78 miles from Niagara Falls, 182 miles from Detroit. Main line of Canadian National and C. P. R. Ry., 7 branch lines running out of Guelph. Also electric line between Guelph and Toronto. Excellent bus service. Nearest larger city is **2½ hours by** auto; 3 hours by trolley and 1¾ hours by railroad.

Principal Industries: Cast iron center of Ontario. Radiators, boilers, lawn mowers, etc. Automobile tires, rubber footwear, rubber surgical supplies. Iron and steel tubing, malleable and cast iron fittings, stoves and furnaces, gaso-

ONTARIO (Cont'd)

line engines, pianos, agricultural implements, woolen and cotton yarns, carpets, worsted yarns. Hats, sewing machines, linens, automobile bodies, buggies, malt products.

Manufacturing Establishments: 98. Leading firms, Taylor Forbes, Ltd., International Malleable Iron, Guelph Carpet Mills, Bell Piano Company, Gibson Mfg. Co., Northern Rubber Co., Guelph Stove Co., Griffin Foundry, Canada Diamalt Company, Limited, Biltmore Hat Co., Crowe Foundry Co., Partridge Tire Co.

Special Information: The Ontario Agricultural College, established by the Ontario Government, over 1,052 students attended in 1923. The MacDonald Institute attached to the college offers courses in domestic science to prepare professional housekeepers and teachers of domestic science for public and high schools' teaching. More than 171 girls attend this college every year.

Residential Features: No tenement houses, no large apartment houses, mostly one and two family houses.

Retail Shopping Section: About one mile on Wyndham, Quebec, Carden, MacDonnell and Wilson Streets, also Italian center about one mile from heart of city.

Trading Area: Extends 50 miles north, 16 miles west, 20 miles east, 15 miles south. There is excellent train and trolley service, also bus service.

Wholesale Houses: Groceries, 2; meats, 1; fruits, 2; hardware, 1; miscellaneous lines, boots and shoes, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 12; commercial auto. agencies, 8; automobile accessories, 15; automobile tire agencies, 20; bakers, 11; cigar stores and stands (including hotels), 24; confectioners (including hotel stands), 19; delicatessen, 3; dressmakers, 12; druggists, 9 (chain, 1); dry goods, 8; department stores, 5; electrical supplies, 7; florists, 3; fruits, 10; furniture, 3; furriers, 6; garages (public), 22; grocers, 67 (chain, 3); hardware, 5; jewelry, 8; meat markets, 20; men's furnishings, 8; men's clothing, 11; merchant tailors, 4; pianos (and miscellaneous musical instruments), 5; radio supplies, 6; restaurants (including hotels), 20; shoes, 6; sporting goods, 5; stationers, 5; women's apparel, 9.

Miscellaneous Data: Average temperature, 43.8 degrees; average number of rainy days per twelve months, 77; most pleasant months, May to October, inclusive; doctors (medical, 27), (dentists, 12), (osteopaths, 2); number of wired houses, 5,024; street car service; gas, artificial; electric current, both alternating and direct; water, hard.

HAMILTON, ONTARIO, CAN.

1921 Population, 114,151. (1925, Est. 122,995.)

City and Suburban Estimate: Tributory, 190,000.

Native Whites, 85; Negroes, 5%; Foreign Born, 10%; Industrial Workers, 26.68%; English Reading, Approx. 95%; Families, 30,870.

Schools: Public Grade, 14; 30 Public; Separate, 2; Technical, 1; Number of Pupils, 25,471; Private, 3; Business College, 2.

Churches: Baptist, 11; Christian Science, 2; Congregational, 3; Episcopal, 18 and 1 mission; Hebrew, 5; United Church of Canada, 15; Presbyterian, 15; Roman Catholic, 12; Miscellaneous, 38.

Banks: National, 10; Total Resources, assets of the banks with branches in Hamilton $2,515,781,872; 1 Provincial Savings; Savings Bank Deposits Total, not available. 2 loan companies' assets $8,530,706.

Theatres: Legitimate, 2; Moving Pictures, 15; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 3; Total number of seats, 15,089.

Location: At the west end of Lake Ontario on Hamilton Bay. Served by the Canadian National Railway, the Canadian Pacific Railway and Toronto, Hamilton and Buffalo Railway through which we obtain direct communication with the New York Central and the Michigan Central Lines. Canada Steamship Lines, Ltd., freight service between Hamilton and Montreal. Kirkwood Line an irregular service to same points. An ocean steamer for Vancouver via Panama Canal. Excellent bus service also to many of these places.

Principal Industries: Iron and steel, electrical equipment, textiles, including cotton, knitting and woolen mills, electric power.

Manufacturing Establishments: 790. Leading firms: Steel Company of Canada, Ltd., Canadian Westinghouse Co., Ltd., International Harvester Co., of Canada, Ltd., Dominion Foundries & Steel Co., Ltd., Hamilton Cotton Co., Imperial Cotton Co., J. R. Moodle & Sons, Ltd., Zimmerman Reliance Co., Ltd., Mercury Mills, Ltd., Imperial Oil, Ltd., Hamilton By-Product Coke Ovens, Firestone Tire and Rubber Co., Libbey Owens Sheet Glass Co., Ltd. Total yearly value of output of factories estimated at $100,280,151; Industrial workers, 25,476.

Special Information: The city being served by the Dominion Power and Transmission Co., as well as the Provincial Hydro Electric Power Commission, is the center for cheap power which has resulted in it being selected by a large number of American concerns wherein to establish branch factories. Approximately 80 American industries situated here. Its shipping facilities close to the American border and connecting with all parts of Canada is an important factor.

Residential Features: Most single family homes, 361 apartment houses—1,879 apartments. Private homes predominate—over 61% being owned by the occupants. Number of houses, 27,621. Best residences situated in southwest and southeast of city. Large workmen's sections in easy reach of factory section which is situated principally in the northeast.

Retail Shopping Section: Extends from Public Square (which forms heart of business section and terminal for suburban trolley and bus lines) for 23 blocks on King east, 6 blocks on King west, 8 blocks on James north, 3 blocks on James south and 3 blocks on John south. There are 6 outlying retail business sections as well as a sprinkling of grocery, confectionery, meat and small shops throughout most of the city except in certain restricted areas.

Trading Area: 20 miles northeast, 30 miles northwest, 21 miles west, 44 miles southeast.

Wholesale Houses: Groceries, 6; meats, 5; fruits, 10; hardware, 5; dry goods, 10.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 20; commercial auto. agencies, 12; automobile accessories, 46; automobile tire agencies, 12; bakers, 48; cigar stores and stands (including hotels), 35; confectioners (including hotel stands), 150; delicatessen, 4; dressmakers, 34; druggists, 59; dry goods, 107; department stores, 9; electrical supplies, 51; florists, 27; fruits, 49; furniture, 34; furriers, 12; garages (public), 71; grocers, 378; hardware, 47; jewelry, 36; meat markets, 166; men's furnishings, 51; men's clothing, 34; merchant tailors, 54; milliners, 42; opticians, 19; photographers, 13; pianos (and miscellaneous musical instruments), 12; radio supplies, 11; restaurants (including hotels), 113; shoes, 69; sporting goods, 8; stationers, 51; women's apparel, 35.

KINSTON, ONTARIO, CAN.

1921 Population, 21,753.

City and Suburban Estimate, 25,000.

Native Whites, 80%; Foreign Born, 20%; Industrial Workers, 20%; English Reading, 95%; Families, 5,600.

Schools: Public Grade, 12; High, 2; Parochial, 1; Number of Pupils, 4,200. Kingston is the home of Queen's University (registration 3,000), and the Royal Military College, the latter being the only military college in Canada.

Churches: Baptist, 1; Christian Science, 1; Congregational, 1; Episcopal, 4; Hebrew, 1; United Church of Canada, 7; Presbyterian, 7; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 7; Private, 1.

Theatres: Legitimate, 1; Moving Pictures, 3; Total Number of Seats, 3,458.

Location: Kingston is located at the foot of Lake Ontario with the Junction of the Rideau and St. Lawrence Rivers. Transhipping point from lake steamers to river barges and deep water terminus. Port of call for all package freighters, for all St. Lawrence River ports and the head of the lakes. On C. P. R. and Canadian National Rys. Nearest larger city is 6 hours by auto and railroad.

Principal Industries: Locomotives, pianos, ships, tannery, woolens, silverware, picture frames, tiling.

Manufacturing Establishments: 16. Leading firms: Canadian Locomotive Co., Davis Tannery, Weber Piano Co., Frontenac Floor & Wall Tile Co., K.-D. Manufacturing Co., Collingwood Shipbuilding Co. Total value yearly output of factories estimated at $10,819,000.

Special Information: Location of the city makes it the meeting place of traffic between United States ports, Oswego, Cape Vincent for coal and other trades. There were 300 auto trucks registered in 1923.

Residential Features: Most one family houses; over 60% owning their own homes.

Retail Shopping Section: Extends from public square for eight blocks on Princess Street, Brock Street and four blocks on King, Wellington and Bagot Streets.

Trading Area: Twenty miles east to Gananoque; 25 miles west to Napanee and a radius of from ten to twenty miles north; mostly done by truck and automobile service.

Wholesale Houses: Groceries, 4; meats, 4; fruits, 4; hardware, 3; dry goods, 3; miscellaneous lines, 2 shoes, 2 confectionery.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 10; commercial auto. agencies, 10; automobile accessories, 15; automobile tire agencies, 15; bakers, 1 wholesale, 1 retail; cigar stores and stands (including hotels), 15; confectioners (including hotel stands), 22; delicatessen, 4; dressmakers, 68; druggists, 15; dry goods, 8; department stores, 3; electrical supplies, 5; florists, 6; fruits, 11; furniture, 5; furriers, 4; garages (public), 10; grocers, 75 (chain, 2); hardware, 13; jewelry, 6; meat markets, 25; men's furnishings, 15; men's clothing, 15; merchant tailors, 13; milliners, 7; opticians, 8; photographers, 6; pianos (and miscellaneous musical instruments), 4; radio supplies, 3; restaurants (including hotels), 10; shoes, 7; sporting goods, 4; stationers, 4; women's apparel, 7.

ONTARIO (Cont'd)

Ottawa (con't)

River, close to its confluence with the Rideau and Gatineau Rivers. Served by the C. P. R., C. N. R. and N. Y. C. Rys., freight and passenger river service both below and above Chaudiere Falls. The Rideau Canal cuts off the unnavigable parts of the Rideau River and connects Ottawa with the St. Lawrence River at Kingston. Street car services stretching to points 10 miles distant. Excellent motor bus service in every direction. Nearest larger city is 4 hours by auto and 3 hours by railroad.

Principal Industries: Manufactured lumber, pulp, paper, electric trolley cars, paint, bank notes, awnings, cement, washing machines, pianos, motor trucks, iron foundries, clothing, furniture, hats and caps, railroad shops, fibre ware, matches.

Manufactured Establishments: 453. J. R. Booth, E. B. Eddy, Woods Mfg. Co., Ottawa Paint Works, Canadian Bank Note Co., Beach Foundry Co., Ltd.; Campbell Steel & Iron Works, J. H. Conner & Son, Ltd.; James Davidson Sons, Alexander Fleck, Ltd.; Grant Holden & Graham, Ltd.; Martin-Orme Piano Co., Ltd.; McAuliffe Davis Lumber Co., McFarland Douglas Ltd.; Mortimer Co., Ltd.; J. Oliver & Sons, Ltd., Ottawa Paper Box Co., Ltd. Total value of estimated yearly output of factories, $65,000,000.

Special Information: Location of the city makes it the logical shopping and distributing center for the territory lying between the Ottawa and St. Lawrence Rivers and stretching from the Pembroke-Peterboro-Belleville Line eastward to Sherbrooke and eastern townships. Total number of auto licenses, Ottawa and Hull, 1924, 11,277.

Residential Features: There are 8,681 owners of homes, 15,693 tenants and 2,335 apartment suites. The general standard of living is very high.

Retail Shopping Section: Extends from post office down Rideau Street to the Rideau River along Sparks Street; west to Bank Street, 4 blocks; and up Bank to Gladstone Avenue, 20 blocks. Also a section catering to the French Canadian trade east of Rideau Street along Dalhousie and St. Patrick Streets. The following suburban areas within the city limits have their own retail business sections; Sandy Hill, The Glebe, Hintonburg, Somerset Street, Ottawa south, Ottawa seat and New Edinburgh. The largest market in Ontario is held on the Market Square three times a week.

Trading Area: Extends 50 miles in each direction.

Wholesale Houses: Groceries, 12; meats, 5; fruits, 14; hardware, 8; dry goods, 12; miscellaneous lines, milliners, 8; electric supplies, 5; footwear, 8; druggists, 6; jewelry, 12.

Miscellaneous Data: Most pleasant months, May, June, Aug., Sept., Oct.; doctors (medical, 170), (dentists, 87), (osteopaths, 5); number of wired houses, 26,500; street car service; gas, artificial; electric current, both alternating and direct; water, soft.

OWEN SOUND, ONTARIO, CAN.

1921 Population, 12,190. (1925, est. 12,321.)

City and Suburban Estimate, 18,000.

Native Whites, 93%; Negroes, 4%; Foreign Born, 3%; English Reading, 100%; Families, 2,500 (1,700 own their own homes).

Schools: Public Grade, 6; High, 1; Number of Pupils, 3,500.

Churches: Baptist, 1; United Church of Canada, 5; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 5; Angelican, 2.

Banks: National, 3.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1.

Location: On south shore of Georgian Bay, an arm of Lake Huron. Terminus of Canadian Pacific and Canadian National branch lines serving western Ontario, connecting the city with points south including Toronto, etc. C. P. R. steamers, Dominion Transportation steamers and other small lines operate out of Owen Sound to Georgian Bay and Lake Huron ports and head of lakes.

Principal Industries: Furniture, including chairs, tables, phonographs, refrigerators, woodenware, including skewers, baskets, tooth picks; iron and steel, including stoves, marine supplies, machinery, cigars, printing, varnish, soft drinks, hosiery, leather, nails, wire, steel and malleable iron castings.

Manufacturing Establishments: 54. Leading firms: John Harrison & Sons Co., Ltd.; North American Bent Chair Co., Ltd.; North American Furniture Co., Ltd.; Keenan Woodenware Mfg. Co., Ltd.; Wm. Kennedy & Sons, Ltd.; Empire Stove & Furnace Co., Ltd.; Eureka Refrigerator Co., Ltd.; McQuay Tanning Co., Ltd.; National Table Co., Ltd.; Northern Bolt, Screw & Wire Co., Ltd. Total value of yearly output of factories estimated at $7,003,000.

Special Information: Location of city especially adapted for both lake and land commerce. Million bushel modern terminal grain elevator located on harbor for transhipment of grain from west. National deep-water harbor capable of handling any size steamer on the Great Lakes. Easily accessible by water to great forests of the North Shore, therefore woodmaking is naturally a great industry.

Residential Features: Splendid substantial homes, mostly of brick construction and housing one family only. Frame or other less substantial buildings practically a minus quantity. Working men's homes ideal. No separate tenement section.

Retail Shopping Section: Main retail business section situated on 2nd Avenue east and extends from middle of 6th and 7th Street block to middle of 10th-11th Street block, thus comprising four blocks all told. Other business streets of slightly less importance are 10th east from 1st Avenue to 3rd Avenue east and 9th Street from 1st Avenue to 3rd Avenue east and 8th Street from 1st Avenue to 4th Avenue east. Butcher and groceries scattered throughout city. Business section on east side of Sydenham River at mouth of which the city is situated.

Trading Area: Northern parts of counties of Grey and Bruce, 45 miles northwest, 35 miles west, 40 miles south and 35 miles east. Bus services and prevalence of motor cars makes intermittent trading district considerably greater.

Wholesale Houses: Groceries, 3; meats, 1; fruits, 1; hardware, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial auto. agencies, 4; automobile accessories, 15; automobile tire agencies, 10; bakers, 5; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 15; delicatessen, 1; dressmakers, 8; druggists, 9; dry goods, 5; departmeint stores, 1; electrical supplies, 3; fruits, 8; furniture, 4; furriers, 3; grocers, 85; hardware, 4; jewelry, 5; meat markets, 12; men's furnishings, 8; men's clothing, 8; merchant tailors, 6; milliners, 5; opticians, 5; photographers, 4; pianos (and miscellaneous musical instruments), 4; radio supplies, 4; restaurants (including hotels), 14; shoes, 6; stationers, 3; women's apparel, 7.

PETERBOROUGH, ONTARIO, CAN.

ST. THOMAS, ONTARIO, CAN.

1921 Population, 16,026.

City and Suburban Estimate, 20,327.

Native Whites, 99%; **Foreign Born,** 1%; **English Reading,** 99%; **Families,** 5,110.

Schools: Public Grade, 8; High, 1; Junior High, 1 Ladies' College; Parochial, 1; Number of Pupils, 3,606.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 2; Methodist, 3; Presbyterian, 2; Roman Catholic, 1; Miscellaneous, 3.

Banks: Chartered, 10; Loan Company Banks, 2; Savings Bank Deposits Total, $4,500,000.

Theatres: Moving Pictures, 3; Miscellaneous (Auditoriums, etc.), 1; Total number of seats, 2,500.

Location: Center of rich agricultural area on north shore Lake Erie, midway between Buffalo and Detroit. On main line of Michigan Central and in addition excellent transportation facilities provided by Wabash, Pere Marquette, Canadian Pacific, Canadian National and London & Port Stanley Electric Ry. Port Stanley eight miles south connected by electric line and good roads gives port of entry for coal, wheat, etc.

Principal Industries: Large railway building and repair shops, brass foundry, metal advertising signs, shoe factories, furnace and implement foundries, woodenware factories, flour and produce mills, brooms.

Manufacturing Establishments: Leading firms: St. Thomas Metal Signs, Nursery Shoe Co., Talbot Shoe Company, St. Thomas Brass Co., Norsworthy Foundry & Furnace Co., Empire Flour Mills.

Special Information: The exceptional transportation furnished by the six railways centering in St. Thomas whose lines radiate in all directions makes St. Thomas the natural shopping center of a wide area. The excellent roads of Elgin County are perhaps almost as important, there being 6,000 automobiles and trucks owned and operated in St. Thomas and the County of Elgin.

Residential Features: Houses are largely brick, all of good class and with many fine residences. No tenements and no slum section. 67% of workmen own their own homes.

Retail Shopping Section: Is located and consists of 13 blocks on Talbot Street, 3 on Rose Street and extensions on William, Elgin, Southwick, Hiawatha, Railway, St. Catharine.

Trading Area: Extends north indefinitely eight miles; east to Tillsonburg; west along north boundary of Elgin County to a point roughly in the neighborhood of Rodney; and includes all territory south between Tillsonburg and Rodney to the Lake Shore.

Wholesale Houses: Groceries, 2; fruits, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 15; commercial auto. agencies, 3; automobile accessories, 31; automobile tire agencies, 20; bakers, 8; cigar stores and stands (including hotels), 21; confectioners (including hotel stands), 19; delicatessen, 1; dressmakers, 21; druggists, 9; dry goods, 7; department stores, 2; electrical supplies, 8; florists, 8; fruits, 63; furniture, 9; furriers, 4; garages (public), 13; grocers, 56; hardware, 7; jewelry, 8; meat markets, 21; men's furnishings, 12; men's clothing, 12; merchant tailors, 2; milliners, 6; opticians, 7; photographers, 2; pianos (and miscellaneous musical instruments), 4; radio supplies, 6; restaurants (including hotels), 20; shoes, 10; sporting goods, 4; stationers, 7; women's apparel, 7.

SARNIA, ONTARIO, CAN.

1921 Population, 14,887. (1925, est. 17,500.)

City and Suburban Estimate, 18,500.

Native Whites, 90%; **Foreign Born,** 10%; **Families,** 3,963.

Schools: Public Grade, 10; High, 1; Parochial, 3; Number of Pupils, 3,700.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 2; Hebrew, 1; United Church of Canada, 5; Presbyterian, 1; Roman Catholic, 2; Miscellaneous, 5.

Banks: National, 6; State, 2; Total Resources, $2,163,517,818.

Theatres: Legitimate, 1; Moving Pictures, 2. Total number of seats, 3,500.

Location: At the mouth of St. Clair River. Served by Canadian National railroad, Pere Marquette, Sarnia, Fort Heron Ferry Co., bus lines to Petrolia, Forest and points along the river. Northern Navigation Co., steamers (passenger and freight) to Detroit, Sault Ste. Marie, Port Arthur, Fort William, and intermediate points, making connections for Buffalo, Cleveland and lower lake ports. White Star line operates three boats daily in these directions. Shipments may be made also direct to British and Continental ports. Low commodity rates make Sarnia a splendid shipping point. Facilities for handling package freight, both for all-water and for rail and water routing are especially good for shipment. To nearest larger city by railroad, 2 hours; by auto, 2½ hours.

Principal Industries: Manufacture of petroleum, including kerosene, gasolines, lubricating oils, fuel oils, grease, pitches, etc., stoves, auto castings, motor trucks, farm machinery, plumbing goods, salt. Dominion Alloy Steel Co. has large steel plant in Sarnia and shortly large grain elevators will be erected at Point Edward, a village some two miles from the city.

Manufacturing Establishments: 42. Leading firms: Dominion Alloy Steel Corp., Corporation Mueller Mfg. Co., Imperial Oil, Ltd., Cleveland Sarnia Saw Mills, Perfection Stove Co., Doherty Mfg. Co., Goodison Thresher Co., Sarnia Bridge Co., Laidlaw Belton Lumber Co., Ltd., Dominion Salt Co., Holmes Foundry, Cunningham Furnace Co.

Special Information: Situated on the chain of Great Lakes it is possible to make water shipments to both home and foreign ports at low rates. Coal is brought in from the Lake Erie ports by boat and distributed from this port. Iron ore is brought in from Lake Michigan and Superior ports and shipped to the smelter works of the Steel Co. of Canada, Hamilton. Sarnia has become the center of the petroleum industry.

Residential Features: Housing conditions are excellent. For 1922 the building permits totalled $880,260; for 1923, $791,470; for 1924, $840,803. A large majority of Sarnia homes owned by occupants. The London road is one of the fine residential sections of the city, the homes on it averaging about $10,000.

Retail Shopping Section: The heart of the retail shopping district is on Christiana and Front Streets. Practically all the stores of the city are situated on these streets, being bordered by George and Davis Streets. Front and Christian Streets parallel the Ste. Clair river. There are several other small business sections which claim a considerable local trade.

Trading Area: Extends about 30 miles east and the same south. Splendid ferry service, railroad and bus service enable the people from greater distances to shop to an advantage in Sarnia.

Wholesale Houses: Groceries, 1; fruits, 3; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 13; commercial auto. agencies, 2; automobile accessories, 12; automobile tire agencies, 12; bakers, 11; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 23; delicatessen, 1; dressmakers, 1; druggists, 10 (chain, 1); dry goods, 8; department stores, 5; electrical supplies, 5; florists, 3; fruits, 66; furniture, 8; garages (public), 14; grocers, 74 (chain, 4); hardware, 4; jewelry, 5; meat markets, 16; men's furnishings, 11; men's clothing, 11; merchant tailors, 10; milliners, 6; opticians, 4; photographers, 3; pianos (and miscellaneous musical instruments), 6; radio supplies, 2; restaurants (including hotels), 14; shoes, 13; sporting goods, 2; stationers, 13; women's apparel, 5.

Miscellaneous Data: Average temperature, 46 degrees; average number of rainy days per twelve months, 50; most pleasant months, June, July, August, September; doctors (medical, 21), (dentists, 14), (osteopaths, 1); number of wired houses, 4,400; street car service; gas, artificial; electric current, alternating; water, hard.

SAULT STE. MARIE, ONTARIO, CAN.

1920 Population, 21,092.

City and Suburban Estimate, 24,300.

Native Whites, 90%; **Foreign Born,** 10%; **Industrial Workers,** 100%; **English Reading,** 95%; **Families,** 5,000.

Schools: Public Grade, 16; High, 1; Number of Pupils, 5,493.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 4; United Church of Canada, 3; Presbyterian, 3; Roman Catholic, 4; Miscellaneous, 4.

Theatres: Moving Pictures, 6; Vaudeville, 2; Miscellaneous (Auditoriums, etc.), 6; Total number of seats, 8,650.

Location: Situated on St. Marys river between Lakes Superior and Huron. An important calling point for Canadian Pacific steamships and Northern Navigation boats. Nearly every day one of these huge liners lies at the docks for two hours or more, during which time passengers have time to visit the city. On Canadian Pacific and Algoma Central Railways. The end of the Gerat Northern Highway from Halifax. The gateway into Canada for the Dixie Highway from Miami, Fla. Nearest large city is 14 hours by railroad.

Principal Industries: Steel rails, structural steel, pig iron, foundry products, pulp, paper, lumber and mill products, sulphite, brick tile, brewery products, railway shops.

Manufacturing Establishments: Algoma Steel Co., Lake Superior Corp., Spanish River & Lake Superior Paper Co., Algoma Central Railway, Great Lakes Power Co., Northern Foundry Co.

Special Information: Industries in Sault Ste. Marie employ over 6,000 men with a yearly payroll of $8,100,000. Capital invested in Sault Ste. Marie is over $100,000,000.

Residential Features: Mostly one-family homes. No poor district.

Retail Shopping Section: Extends from Easterly and Queen Streets for 15 blocks. Several blocks of shopping district on Gore and Wellington Streets. Three outlying retail business sections; also several neighborhood sections.

Trading Area: Sixty miles radius.

Wholesale Houses: Groceries, 2; meats, 3; fruits, 3; hardware, 2; miscellaneous lines, dairy, 1; confectioners, 1; paper, 5; rubber footwear, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; commercial auto. agencies, 7; automobile accessories, 14; automobile tire agencies, 14; cigar stores and stands (including hotels), 20; confectioners (including hotel stands), 51; dressmakers, 9; druggists, 12; dry goods, 27; department stores, 7; electrical supplies, 9; florists, 7; fruits, 6; furniture, 8; furriers, 8; garages (public), 12; grocers, 59; hardware, 12; jewelry, 8; meat markets, 28; men's furnishings, 25; men's clothing, 21; merchant tailors, 8; milliners, 10; opticians, 6; photographers, 5; pianos (and miscellaneous musical instruments), 6; radio supplies, 6; restaurants (including hotels), 18; shoes, 10; sporting goods, 9; stationers, 5; women's apparel, 14.

Miscellaneous Data: Average temperature, 39.2 degrees; average number of rainy days per twelve months, 159; most pleasant months, May to October; doctors (medical, 26), (dentists, 11), (osteopaths, 1); street car service; gas, artificial; electric current, alternating; water, soft.

STRATFORD, ONTARIO, CAN.

1921 Population, 16,094.

Native Whites, 98¾%; **Negroes,** ¼%; **Foreign Born,** 1%; **Industrial Workers,** 25%; **English Reading,** 99%; **Families,** 4,200.

Schools: Public Grade, 7; High, 1; Parochial, 3; Number of Pupils, 3,400.

Churches: Baptist, 2; Congregational, 1; Episcopal, 2; Methodist, 2; Presbyterian, 2; Roman Catholic, 2; Miscellaneous, 8.

Theatres: Legitimate, 1; Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 3; Total number of seats, 9,000.

Location: Divisional center of Canadian National Railways. From Stratford railways radiate in seven directions; to Toronto, 88 miles; to Owen Sound, 108 miles; to Goderich, 45 miles; to Sarnia, 81 miles; to London, 32 miles; to Port Dover, 63 miles; to Buffalo, 115 miles. City is about half-way between Sarnia and Toronto, and midway between Goderich and Port Dover. Nearest larger city is 2 hours by auto and 1¼ hours by railroad.

Principal Industries: Canadian National Railways repair shops; furniture, textile.

Manufacturing Establishments: 47. Leading firms: McLagan Furniture Co., Kroehler Mfg. Co., Imperial Rattan Co., R. M. Ballantyne Co., General Electric Co.

Special Information: Chief furniture manufacturing city in the Dominion. Fairly in center of western Ontario peninsula.

Residential Features: Practically all one family houses. 85% of householders own their own homes. No slum section. Essentially a workingman's city.

Retail Shopping Section: Extends from city hall square which is in heart of city. Downie Street is in business section for four blocks; Wellington Street from Downie to St. Patrick Street. Ontario Street, from Court House to Waterloo Street.

Trading Area: Extends 45 miles west; 30 miles north; 14 miles east; 12 miles south. City easily accessible for automobiles by reason of being on the Sarnia-Toronto provincial highway and highway from Goderich.

Wholesale Houses: Groceries, 3; fruits, 2; miscellaneous lines, harness and leather goods, 1; candy, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 17; commercial auto. agencies, 4; automobile accessories, 11; automobile tire agencies, 12; bakers, 7; cigar stores and stands (including hotels), 7; confectioners (including hotel stands), 20; dressmakers, 14; druggists, 11 (chain, 3); dry goods, 11; department stores, 2; electrical supplies, 6; florists, 9; fruits, 5; furniture, 7; furriers, 4; garages (public), 14; grocers, 61 (chain, 2); hardware, 6; jewelry, 5; meat markets, 14; men's furnishings, 13; men's clothing, 12; merchant tailors, 14; milliners, 7; opticians, 5; photographers, 4; pianos (and miscellaneous musical instruments), 6; radio supplies, 4; restaurants (including hotels), 12; shoes, 11; sporting goods, 5; stationers, 4; women's apparel, 9.

Miscellaneous Data: Average temperature, 44.5 degrees; average number of rainy days per twelve months, 35; most pleasant months, August and September; doctors (medical, 19), (dentists, 11), (osteopaths, 1); number of wired houses, 4,120; gas, artificial; electric current, alternating; water, hard.

TORONTO, CAN.

1921 Population, 521,893. (1925, est. 641,780.)

City and Suburban Estimate, 730,809.

Native Whites, 92%; **Foreign Born,** 8%; **Industrial Workers,** 106,000; **English Reading,** 96%; **Families,** 127,000.

Schools: Public Grade, 102; Separate Schools, 37; High, 9; Technical, 2; Commercial, 2; Parochial, 37; Number of Pupils, 122,000.

Churches: Baptist, 59; Christian Science, 1; Congregational, 6; Episcopal, 63; Hebrew, 20; United Church of Canada, 12; Roman Catholic, 39; Miscellaneous, 131.

Banks: 249; Total Resources, $2,400,000,000.

Theatres: Legitimate, 7; Moving Pictures, 69; Vaudeville, 3; Burlesque, 1; Miscellaneous (Auditoriums, etc.), 22. Total number of seats, 150,000.

Location: On the north shore of the west end of Lake Ontario, served by the Canadian National and the Canadian Pacific Railways, and Canada Steamship Lines, connecting with all Lake ports, accessible to ocean-going freighters. To nearest large city by railroad, 55 minutes; by auto, 1½ hours.

Principal Industries: Agricultural implements, iron and steel work, machinery, motor cars, tires, auto accessories, men's and women's clothing, food stuffs, medical supplies and drugs, carpets and rugs, electrical supplies, pianos and organs, printing, photographic supplies, brick and building materials, packing houses.

Manufacturing Establishments: 3,383. Leading firms: Massey Harris, Canada Foundry Co., Canadian General Electric, Durant Motors, Ford, Dunlop Rubber & Tire Co., Goodyear Rubber Co., Fisk Rubber Co., W. R. Johnston Co., Leishman Co., Lowndes Co., Christie Biscuit Mfg. Co., National Drug, United Drug, Toronto Carpet Mfg. Co., Mason & Risch., Heintzman Co., Nordheimer Canadian Kodak, Warwick Bros. & Rutter, Gage Bros., Copp Clark, Don Valley Brick Works, Canadian Packing Co., Swift Canadian Co., Gunns, Ltd., Harris Abbatoir Co. Total value of yearly output of factories estimated at $588,969,742.

Special Information: Toronto has the largest English speaking population of any city in Canada. It is spending at the present time $35,000,000, on its waterfront to provide for ocean-going vessels. Is the home of Toronto University. An important financial center. Owns its own power plant at Niagara Falls, and owns and operates its own transportation system.

Residential Features: 64.8% of Toronto's houses are owned by present occupants. There are no frame dwellings. Detached residences prevail. Duplex houses come next; apartment houses last. There are 370 apartment houses. Average rentals are between $50 and $75 for houses. Average value of Toronto homes are between $6,000 and $9,000. The north and east sections of the city are better class residential sections, known as "The Hill" and "Rosedale," while "Parkdale" in the southwest is better middle class.

Retail Shopping Section: Downtown section—Yonge and Queen Streets extending 20 blocks north and 4 blocks south; four blocks east and west of Yonge Street on King Street, Queen Street, Adelaide Street, Richmond Street, Temperance Street, and Dundas Street. In addition are the following streets solidly retail: King Street, three and one-quarter miles; Queen Street, seven and one-quarter miles; Dundas Street, seven and one-half miles; Bloor Street, four and one-quarter miles; College Street, two and one-half miles; Wallace Avenue, three-quarter mile; St. Clair Avenue, two and one-half miles; Wallace Avenue, three-quarter mile; Gerrard Avenue, two miles; Danforth Avenue, three and one-quarter miles; Kingston Rd., one mile; Parliament Street, one mile; Yonge Street, five and one-half miles; Spadina Avenue, one mile; Bathurst Street, two and three-quarter miles; Ossington Avenue, one mile; Roncesvalles Avenue, one mile. There are also a large number of corner stores off the main streets.

Trading Area: Within approximately a radius of 25 miles including New Toronto, Mimico, Long Branch, Port Credit and Oakville to the west; northwest to Islington, Cooksville, Brampton, Guelph; north to Autoroa, Newmarket, Richmond Hill and King; east to Uxbridge, Unionville, Oshawa, Whitby, Bowmanville, Port Hope, etc. Four electric radials serve these districts.

Wholesale Houses: Groceries, 48; meats, 9; fruits, 47; hardware, 21; dry goods, 43; miscellaneous lines: 1,127 (wholesale houses and mfrs. agents).

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 77; commercial auto. agencies, 21; automobile accessories, 137; automobile tire agencies, 38; bakers, 172; cigar stores and stands (including hotels), 328 (chain, 68); confectioners (including hotel stands), 745; delicatessen, 34; dressmakers, 126 druggists, 285 (chain, 56); dry goods, 511; department stores, 3; electrical supplies, 208; florists, 146; fruits, 468; furniture, 128; furriers, 146; garages (public), 365; grocers, 1,965 (chain, 11); hardware, 354; jewelry, 191; meat markets, 623 (chain, 4); men's furnishings, 223; merchant tailors, 69; milliners, 245; opticians, 66; photographers, 95; pianos (and miscellaneous musical instruments), 99; radio supplies, 31; restaurants (including hotels), 241 (chain, 4); shoes, 344; sporting goods, 24; stationers, 245; women's apparel, 326.

Miscellaneous Data: Most pleasant months, April 1st to Nov. 1st; doctors (medical, 1,060), (dentists, 625), (osteopaths, 25); number of wired homes, 102,000; street car service; gas, artificial; electric current, alternating and direct; water, soft.

ONTARIO (Cont'd)

WATERLOO, ONTARIO, CAN.

1921 Population, 5,883.

City and Suburban Estimate, 52,000.

Native Whites, 80%; Foreign Born, 20%; Industrial Workers, 20%; English Reading, 95%; Families, 1,478.

Schools: Public Grade, 2; High, 1; Parochial, 1; Number of Pupils, 1,234.

Churches: Baptist, 1; Episcopal, 1; Methodist, 1; Presbyterian, 1; Roman Catholic, 1; Miscellaneous Lutheran, 1; others, 4.

Banks: 5; Banks are branches of national institutions.

Location: Inland city 62 miles west of Toronto, 110 miles east of Detroit. On main line of Canadian Nat'l Rys., Toronto-Sarnia division. C. P. R. branch (electric) freight and hourly passenger service connecting with main line of C. P. R. at Galt. Waterloo is connected with Kitchener by Canadian National branch line and by street railway.

Principal Industries: Rubber goods (tires and footwear), furniture, whiskey, beer and furniture are the chief products.

Manufacturing Establishments: 32. Leading firms: Seagrams Distillery, Kuntz Brewery, Snyder Furniture Co., Waterloo Mfg. Co. (farm machinery).

Special Information: Waterloo is known as the "Hartford of Canada." It is the birtt place and head office of four life insurance companies, two fire insurance companies, two trust and loan companies. Waterloo is to all intents and purposes except in name and corporation union an integral part of Kitchener. Many of the public institutions—hospital, collegiate and technical school, Y. M. C. A., street railway—are jointly owned and used and in social relations the two towns are as one people. So indefinite is the invisible boundary between the two that some of the residences are partly in Kitchener corporation limits and partly in Waterloo.

Residential Features: Mostly detached single family houses. There is no apartment or congested district. Over 80 per cent of the houses are owned by their occupants.

Retail Shopping Section: Waterloo has for its business section on King Street (continuation of King Street of Kitchener), running from the Post Office easterly for about four blocks.

Trading Area: Extends about twenty-five miles north, eight miles east and twenty miles west. In south it extends only about seven miles, as the city of Galt draws trade from more southerly points.

Wholesale Houses: Groceries, 3; meats, 3; fruits, 2; hardware, 1.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 9; automobile accessories, 2; automobile tire agencies, 2; bakers, 1; cigar stores and stands (including hotels), 10; confectioners (including hotel stands), 5; druggists, 2; dry goods, 6; electrical supplies, 2; florists, 1; fruits, 2; furniture, 1; furriers, 1; garages (public), 4; grocers, 10; hardware, 2; jewelry, 2; men's furnishings, 5; men's clothing, 5; milliners, 2; opticians, 1; photographers, 1; pianos (and miscellaneous musical instruments), 1; restaurants (including hotels), 4; shoes, 4; sporting goods, 2; stationers, 2.

WINDSOR, ONTARIO, CAN.

1921 Population, 38,591. (1925 est. 53,000.)

City and Suburban Estimate, 85,000.

Native Whites, 93%; Negroes, 2%; Foreign Born, 5%; Industrial Workers, 37%; English Reading, 98%; Families, 13,000.

Schools: Public Grade, 25; High, 2; Technical High, 1; Parochial, 4; Number of Pupils, 15,000.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 3; Hebrew, 2; Methodist, 4; Presbyterian, 4; Roman Catholic, 4; Miscellaneous, 13.

Banks: National, 27.

Theatres: Legitimate, 2; Moving Pictures, 6; Vaudeville, 4; Miscellaneous (Auditoriums, etc.), 18; Total number of seats, 28,000.

Location: In Essex County, Ontario, Canada. On Detroit River opposite American city of Detroit. Railways—Michigan Central, Canadian Pacific, Canadian National, Pere Marquette, Wabash. Steamship transportation to all Lake Erie and all upper Great Lake ports. Splendid bus service to all nearby towns in Essex County. Nearest larger city is Detroit, connected by ferry. Nearest larger city in Canada is 9 hours by auto and 6 hours by railroad.

Principal Industries: Automobiles, automobile parts and accessories, salt, pharmaceutical products, bed springs, fencing, paints, breakfast cereals, structural steel.

Manufacturing Establishments: 238. Leading firms: Ford Motor Co. of Canada, Ltd., General Motors, Gotfredson Truck Corp., Kelsey Wheel Co., Canadian Salt Co., Frederick Stearns Co., Parke Davis Co., Fisher Body Co., Studebaker Corp., Canadian Products Co., Canadian Bridge Co., Walkerville Bridge Co., Berry Bros. (paints), Canadian Postum Cereal Co., Standard Paint & Varnish Co., Dominion Plant Co., Bayer Co.

Special Information: Location of Windsor makes it natural gateway into Canada from the U. S., also the good location for American manufacturers' Canadian plants. Excellent transportation facilities to all parts of Canada by rail and boat.

Residential Features: Private homes predominate. Several two and four-family homes and a few apartment blocks.

Retail Shopping Section: Ouellette Avenue from Detroit River to Wyandotte Street, a distance of seven blocks; Sandwich Street, 4 blocks west of Quellette and six blocks east; Pitt Street, 2 blocks west and 4 blocks east; Chatham Street, 2 blocks west and 2 blocks east; London Street, 5 blocks west and one block east; Wyandotte Street, 20 blocks east of Ouellette; Ottawa Street, 5 blocks; Drouillard Road, 4 blocks.

Trading Area: 30 miles south, 40 miles southeast, 55 miles east.

Wholesale Houses: Groceries, 4; meats, 3; fruits, 2; hardware, 2.

Number of Retail Outlets for Nationally Advertised Products: Passenger automobile agencies, 16; commercial auto. agencies, 10; automobile accessories, 21; automobile tire agencies, 30; bakers, 21; cigar stores and stands (including hotels), 47; confectioners (including hotel stands), 46; delicatessen, 4; dressmakers, 17; druggists, 10 (chain, 2); dry goods, 27; department stores, 10; electrical supplies, 23; florists, 13; fruits, 34; furniture, 16; furriers, 5; garages (public), 39; grocers, 45 (chain, 4); hardware, 22; jewelry, 11; meat markets, 75; men's furnishings, 25; men's clothing, 25; merchant tailors, 28; milliners, 13; opticians, 14; photographers, 6; pianos (and miscellaneous musical instruments), 6; radio supplies, 21; restaurants (including hotels), 57 (chain, 5); shoes, 20; sporting goods, 7; stationers, 7; women's apparel, 9.

Miscellaneous Data: Most pleasant months, May, June, September; doctors (medical, 101), (dentists, 36); number of wired houses, 11,962; street car service; gas, natural; electric current alternating; water, soft.

WOODSTOCK, ONTARIO, CAN.

1921 Population, 9,935.

City and Suburban Estimate, 20,000.

Native Whites, 98%; Foreign Born, 2%; Industrial Workers, 50%; English Reading, 100%; Families, 2,500.

Schools: Public Grade, 5; High, 1; Parochial, 1; Number of Pupils, 2,200; Boy's College, 1.

Churches: Baptist, 2; Christian Science, 1; Episcopal, 3; United Church of Canada, 4; Presbyterian, 1; Roman Catholic, 1; Miscellaneous, 4.

Banks: National, 5 Branches; Total Resources of all chartered banks represented by these 5 branches over $80,000,000. Savings Bank Deposits Total, $4,000,000.

Theatres: Moving Pictures, 2; Miscellaneous (Auditoriums, etc.), 1. Total number of seats, 2,500.

Location: 79 miles southwest of Toronto, on the main lines of C. P. R. and C. N. R. systems. To nearest larger city by railroad, ¾ hour; by auto, 1 hour.

Banks: Number of chartered banks and branches, 202.

Theatres: Legitimate, 4; Moving Pictures, 51; Vaudeville, 4; Burlesque, 2; Miscellaneous (Auditoriums, etc.), 3.

Location: Located on the Island of Montreal, at a point approximately midways between the city of Kingston and the city of Quebec. Served by the Canadian Pacific Ry. and the Canadian National Ry. and the converging point of the two continental lines. The Canadian National Ry. comprises Canadian Northern, Grand Trunk Pacific, National Trans-Continental and other lines. The Canadian Pacific operates extensive steamship and ocean service. A number of American lines also reach the city. Montreal has direct trans-Atlantic service to all continental parts.

Principal Industries: Montreal is a great manufacturing center. Shipbuilding, automobiles, architectural iron and bronze, electrical apparatus, fixtures and supplies, refrigerating and agricultural machinery oil refining, cement, structural steel, furniture, printing, flour, steam engines and tractors, railroad rolling stock, dry goods supplies, street cars, shoes, sugar, stoves and furnaces, textiles.

Manufacturing Establishments: 2,823. Leading firms: Headquarters of the Canadian Pacific Railway and Canadian National Railway shops. Dominion Bridge Co., Ltd., Canadian Car & Foundry Co., Ltd., Dodge Mfg. Co., of Canada, Ltd., The Canadian Consolidated Rubber Co., Ltd. Total value of yearly output of factories estimated at $593,881,752.

Special Information: Montreal's location makes it the head of ocean navigation and the key to the interior of the Dominion. It has a waterfront of 32 miles and a harbor capacity for 100 ocean steamers. Head office of the Canada steamship lines, one of the largest owners of inland vessels in the world. Fifth largest city on the American continent. Assessed value of property $1,011,360,176.

Residential Features: Montreal has approximately 137,658 dwellings. North of St. Catherine St. and west of Park Ave. constitutes the better class shopping and residential section. Outremont, (13,249) and Westmount (17,593), two autonomous towns within Montreal, contains fine residential sections. The factory and industrial district lies to the southwest containing a large population of the working class people, while east of this lies a compact zone, 92,000 people to the square mile, within this area are the principal French residential and shopping districts.

Retail Shopping Section: St. Catherine St. constitutes the main retail shopping district running east and west. In the downtown district Craig and Notre Dame Sts., running parellel to St. Catherine, are shopping districts of secondary importance. North of St. Catherine St., Ontario and Mount Royal Sts., running from west to east, are growing shipping thoroughfares. Other streets cutting St. Catherine at right angles are Bluery and St. Denis, also shopping streets. The theatre district is on St. Catherine, while one or two blocks to the north and south are the principal hotels.

Trading Area: The suburban trade area of Montreal is within a radius of forty or more miles from the city. Car lines and railway facilities provide excellent transportation to the shopping center. The principal towns in the suburban center with estimated population are: Bedford, 1,669; Beauharnois, 2,250; Farnham, 3,343; Granby, 2,584; Iberville, 2,454; Joliette, 9,113; Lachute, 2,592; Longreuil, 4,682; St. Hyacinthe, 10,859; St. Lambert, 3,890; St. Jerome, 5,491; St. Johns, 7,734; St. Therese, 3,040; Sorel, 8,174; Terrehome, 2,056; Valleyfield, 9,215.

Wholesale Houses: Groceries, 46; meats, 19; druggists, 33; fruits, 67; hardware, 29; dry goods, 78; Miscellaneous lines, druggists, 39; furriers, 86; jewelers, 32.

ending Oct. 1, 1925 . 1,375,181
Decrease 47,537 . 3.3%

Total circulations of all New York EVENING newspapers, according to Government statements, for six months' period

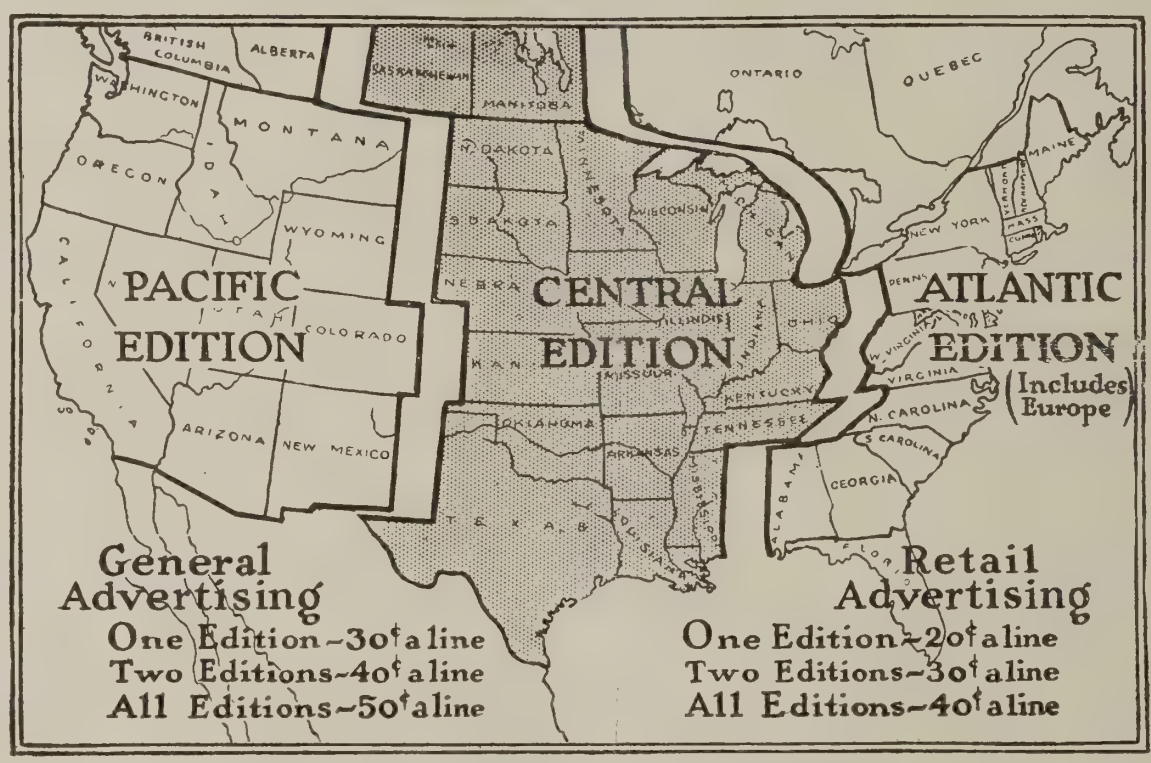
ending Oct. 1, 1915 . 1,932,440
ending Oct. 1, 1925 . 1,435,953
Decrease 496,487 . 25.6%

Total circulations of ALL standard size New York papers, morning and evening, according to Government statements, for six months' period

ending Oct. 1, 1915 . 3,355,158
ending Oct. 1, 1925 . 2,811,134
Decrease 544,024 . 16.2%

10 YEARS of New York newspaper circulation history told in 3 lines

CONSIDER the chart: in the last ten years in New York City the total volume of standard size MORNING newspaper circulation has decreased 3.3%—the total circulation of all standard size EVENING papers has shrunken 25.6% ❦ ❦ The total circulation of ALL standard size papers, morning and evening, has decreased 16.2% in ten years—despite the fact that New York's population has had an increase of about a million people in that time.



BUT the tabloid News, starting from nothing in 1919, has gained almost a million circulation in the past six years!

The national advertiser has a tremendous new vital growing force in The News. With the largest circulation in America, morning, evening or Sunday, it is the first medium available that covers the whole city market ❦ With the small page in the small paper, advertising is made more efficient, more easily seen and read, and suffers less from competition ❦ And the cost is much lower! ❦ ❦ Get the facts!

An International Daily Newspaper Publishing SELECTED ADVERTISING

Character, Substance, Courage, Quality.

That's the reason for The Sun's position in New York as a great newspaper—a home newspaper for home reading.

That's the reason why The Sun leads all other evening newspapers in New York, both in the quality and quantity of its advertising.

That's the reason why The Sun carried in November 1,541,154 lines of advertising, leading all other evening newspapers in New York by 58,664 lines.

That's the reason why The Sun for five months straight has carried more advertising than any other New York evening newspaper.

That's the reason why The Sun has made a larger gain in the last five months than all the other New York evening newspapers put together.

That's the reason why The Sun's gain in advertising for November this year is 334,424 lines over November last year.

That's the reason why in the last five months The Sun has gained more in advertising in the six working days of the week than any other newspaper in New York, morning or evening, has gained.

The Sun is building right, building with full appreciation of a newspaper's responsibility to the community

SELLING HARDWARE AND HOUSE FURNISHING GOODS IN

PHILADELPHIA

Philadelphia, having the third largest population in the United States, is a very important market for the manufacturer of Hardware, Tools and House Furnishing Goods.

Most people in Philadelphia, Camden and their vicinity live in their own homes, a large percentage of which are owned by their occupants.

There are more than 420,000 separate dwellings within the city limits and over 100,000 in the surrounding suburbs and towns. You can readily see that here indeed is a big market for you to cultivate.

Send for a free copy of THE BULLETIN ROUTE LIST OF HARDWARE AND HOUSEFURNISHING STORES IN PHILADELPHIA AND CAMDEN. It will be of great help to your salesman when calling on the trade.

DOMINATE PHILADELPHIA

Create maximum impression at one cost by concentrating in the newspaper "nearly everybody" reads—

The Evening Bulletin.

PHILADELPHIA'S NEWSPAPER

"In Philadelphia nearly everybody reads The Bulletin"

520,072 Copies a Day

Average daily net paid circulation for the six months ending September 30, 1925.

The circulation of the Philadelphia Bulletin is the largest in Philadelphia and is one of the largest in the United States.

Move For World Press Meet at Geneva To Plan Moral Disarmament

League of Nations Offers Auspices—Chile Takes Initiative and Resolution is Unanimously Adopted—Editors of All Nations Now Being Informally Consulted—Suggest Improved Communication Service

THROUGH the initiative of the Chilean Delegation to the League of Nations a movement is in progress at Geneva to form an international press conference to act co-operatively with the League for better and more sympathetic popular understanding of world questions as a means of effecting what has become widely known in Europe as "moral disarmament." Such conference may also act to improve international news communication service.

When the League of Nations Council meets again next Monday it will have on its agenda the question whether it is opportune to ask a limited number, say 12 to 20 journalists from various parts of the world to come together to consider the desirability of a technical press conference. A definite decision will probably not be reached before March.

"Co-operation of the press in the organization of peace," is the descriptive title of the League of Nations resolution presented by the Chilean delegation at the sixth assembly, on Sept. 26. This was put forth in an address by M. Yanez, delegate for Chile, in part as follows:

"We must stimulate among the people that new spirit which the war produced and which the League of Nations is trying to spread throughout the world. . . I can conceive no more effective method of forming this new spirit than by influencing the minds of peoples through the press and moulding the future generations in the schools.

"With regard to the press, I suggest for your consideration the idea of unifying its directive action on public opinion and its moral influence over governments.

"Journalism has in every country but one meaning in its spirit and in its essence, because it is and should be the reflection of the ideas of liberty, progress and morality.

"A universal bond of feeling unites all men and all peoples on the question of peace and the welfare of the working classes. The press is the vanguard of these ideas, and that is why I submit the following draft resolution to the Assembly:

"'The Assembly,

"'Being profoundly convinced of the necessity of creating a new sense of international concord in the world;

"'Considering that the press constitutes the surest and the most effective means of guiding public opinion towards that moral disarmament which is a concomitant condition of material disarmament:

"'Invites the Council to consider the desirability:

"'Of convening a committee of experts representing the press in the different continents with a view to determining by what means the press may contribute towards the work of disarmament and the organization of peace:

"'(*a*) By ensuring the more rapid and less costly transmission of press news with a view to reducing risks of international misunderstanding;

"'(*b*) By discussing all technical problems the settlement of which would in their opinion be conducive to the tranquillization of public opinion in the various countries.

"I wonder if this idea can be considered as coming within the scope of the action and mission of the League? Can the League call upon the press of the entire world to collaborate in the work of world fraternity, in that powerful intellectual movement which will be the best guarantee of security, disarmament and arbitration? I believe it can.

"If the League of Nations is not legally entitled to do so, it at least possesses the moral authority to take this step, and I think it should do so."

This proposal brought out an interesting debate of the subject. Viscount Cecil declared that the British Government heartily supported the resolution. Delegates from Belgium, Hungary, Uruguay, Roumania, France, Italy, Japan and China spoke in approval of the measure.

M. Paul Hymans, Belgian representative, presented to the League of Nations Assembly the Chilean resolution.

He said: "The press is a great power, which has already, if I may say so, a permanent seat on the League. But like all great powers, it is very jealous of its autonomy and independence. There is therefore no intention of destroying or restricting the freedom of discussion, the freedom to guide opinion, which is characteristic of the press and without which it cannot subsist or serve any useful purpose.

"It is therefore proposed that the assembly should simply invite the Council to call together, when it considers it opportune, a committee of experts to examine all the steps necessary to introduce improvements in regard to press information, to co-ordinate its action and to help it in its arrangements with the various governments for the despatch of news, telegrams etc.

"It is essential that the League should in no way seek to organize a semi-official press for its own propaganda. The press must remain independent; all we desire is to help it."

M. Marcel Plaisant, delegate from France, said: "I must first of all congratulate the author of this brilliant suggestion, the Chilean delegate, and M. Hymans, who gave it special prominence in his report.

"But there is one thought that at once ocurs to us. Is it possible that we, who have only existed for a few years as a League of Nations, should already be able to give advice to the press, with its age-long traditions? At this moment, when it has displayed every solicitude on our behalf, when it is ever striving under diverse circumstances to throw more and more light upon all our work, our first duty is to pay it a tribute of gratitude for the invaluable help it has already afforded on behalf of peace by guiding us and extending to us its warm sympathy.

"But the press today makes demands and has the right to demand even more.

"The press has not only stimulated our work, but is itself a creative force, and has more than once initiated those acts of intrepid daring which are omens of new promise and forerunners of progress.

"International in composition, diverse in character, varied in talent, the press may well be said to delineate the characteristic genius of each individual nation, as revealed in our discussions.

"But it must also reveal us in an atmosphere of impartiality and spiritual unity which should show that the League has but a single soul.

"The proposal submitted to us will greatly simplify the task of the press, abolish present difficulties, facilitate its methods of obtaining information and transmitting news, and lastly, ensure a wider dissemination of the thoughts and ideas which are broadcast here as from the world's most public platform.

"In our opinion, if the Chilean proposal leads to a meeting of experts open to all, it will have served a most useful purpose. But do not let us forget that freedom is the very lifeblood of the press. Our political history is as it were the outcome of all the vicissitudes which have followed upon the victory of the written word.

"There is, therefore, no question whatever of this committee being able to interfere in any way in the affairs of the press. The press lives in freedom and must develop in freedom.

"But we may hope to remain more faithful to its echo if we possess every means of giving purity and strength to its voice. We shall then be able to say that we have worked with it, just for as long as it has never ceased to work for us.

"We are here as delegates of our governments, and similarly the journalists, who represent public opinion, may be said to be the delegates of the outside world, and by their assiduity and their activity, extending as it does beyond the periods when we meet, they constitute a kind of permanent assembly of the League.

"Let us hope that the committee which is about to meet will give greater resonance to this echo, will extend the scope of its influence, and that the press through this vast concourse of minds, will also contribute its share of concord towards the work of peace."

Mr. Yanez, of Chile, said: "I am convinced that the unanimous acceptance of this resolution will mean the beginning of a new era for the conscience and ideas of the world."

The resolution was then adopted.

Since that time members of the Council have been consulting newspaper organizations and newspaper men of the various nations represented in the League as to the question of convening a technical committee of journalists at Geneva.

At Geneva, EDITOR & PUBLISHER is informed, the general opinion has been that a conference of journalists from all over the world to discuss how the press can best serve the cause of peace could have nothing but good effect. Nowhere else in the world is the power of the press better recognized than at Geneva. Also, its technical difficulties are there well understood.

Two features of the Chilean idea have been very closely studied by the members of the Council. First, an immediate general conference on such a vast subject runs counter to the general procedure of the League, in that experience has shown that the most hopeful method is to start with a small expert committee and then both widen the representation and deepen the technical study until the time is ripe for a general conference on a completely documented agenda. This long and careful technical preparation has been effectively employed by the League in connection with the various conferences on the Brussels Financial Conference, and such subjects as Transit, Communications, Opium and Disarmament.

Secondly there has also been discussed the matter of recognition, as stated in the Assembly, that the press is a "great Power." Governmental representatives at the Assembly had no desire, it is pointed out, to interfere or intervene in matters of the press unless they really could be of service. They recognized that a vast amount of work is now being done in connection with international press affairs

WANTED—A CHRISTMAS STORY

ACCORDING to custom, EDITOR & PUBLISHER desires to publish in its issue for Dec. 26, a Christmas story which concerns newspapers or newspaper people.

For the best story, in the judgment of the editors, a prize of $50.00 will be paid on acceptance.

The story must not be in excess of 1,500 words in length and all manuscripts must be in the hands of the judge on Saturday, Dec. 19. Any person employed by a daily or weekly newspaper is eligible to enter the contest. Please send manuscripts addressed, Editor, The Editor & Publisher, 1700 Times Building, 42nd Street and Broadway, New York.

by such organizations as the Association of Journalists accredited to the League of Nations, with which they were particularly familiar, the Press Congress of the World, the Imperial Press Conference, the Pan-American Press Congress, the Pan-Pacific Press Congress, the Congress of European Agencies which has just met in Rome and other agencies.

Therefore, the Assembly suggested, and the Chileans heartily agreed, that the most effective method of procedure would be to leave to the Council the final decision as to just what action, if any, should be taken, but to suggest, first, an ascertainment of the views of the journalists themselves as to whether it were worth discussing the question at all, and second, if so, to start with a small technical committee to decide what, if anything, should then be done as regards a general international conference.

Accordingly, the Council, which is to meet again on Monday, will have on its agenda the question as to whether or not it is opportune to ask a limited number, say 12 to 20 journalists from various parts of the world, to come together to consider the desirability of a technical press conference. In two or three months between the Assembly and the Council, the members of the Council are talking the matter over informally with some of the press interests in their various countries; the Secretary-General is receiving any information or suggestions which the press themselves care to make; and the Association of Journalists and other professional interests are studying the possible value of such a conference. Granted the great distance of Genvea from some of the most important centres of news transmission, especially the Latin-American and Pacific areas, it is obvious that only a partial report can be made at the next Council session and that the definite decision will have to go over until March.

Whether anything is done in this matter or not depends entirely on the journalists, Editor & Publisher is informed. If there is a general feeling that such a conference is unnecessary or duplicating, the Council would not call it together. A conference under those circumstances would not only be waste effort and expense but would engage the League of Nations in a useless endeavor which would do it more harm than good.

On the other hand, if the journalists themselves think that some results may be secured through such a conference, the Council would undoubtedly call it. It has the full authority to do so and the necessary facilities, such as finances and staff

If such a committee or conference were held it would be absolutely independent and autonomous, according to an Editor & Publisher informant. Its only connection with the official agency of the League would be that the League would provide headquarters, staff and the necessary finances. The Conference when it came together would have to arrange its own organization, order of business and resolutions.

There is one contribution that the League might be able to make such a Conference, that is, in connection with any of the relationships with governments or other official agencies. The League as an official organization has, of course, direct access to governments, and especially through its Organization on Communications and transit is coming increasingly into contact with discussions on international communications in which it would seem to be to the interest of the press itself to be heard.

Moreover, certain indications are given in the Assembly material of the general lines which such a conference might follow. The resolution, for instance, insists on the fact that the more rapid and the less expensive transmission of the press news might diminish the chances of misunderstanding between peoples. This would, of course, permit examination of the question of the reduction of press tarriffs of all sorts as well as free entry of newspapers.

The Assembly Resolution also mentions "any technical question a solution of which might aid in the appeasement of public opinion." This vague formula could cover such precise questions as that of property in news which has just been recently raised by an important British agency and which the Congress of Agencies at its meeting at Rome has just suggested that the League might examine. One could also include more technical questions as regards newsprint, travelling facilities, journalists' visits and many other subjects.

ESSARY GOING ABROAD FOR BALTIMORE SUN

Chief of Washington Bureau Will Head London Bureau for a Year—M. F. Murphy, N. Y. Bureau Succeeds Him

J. Fred Essary, noted Washington correspondent, is sailing on the Mauretania, Dec. 15, to take charge of the London bureau of the *Baltimore Sun* for one year.

J. Fred Essary

M. F. Murphy, New York correspondent for the Baltimore "Sun - papers," will take over their Washington bureau during Mr. Essary's absence.

The Gridiron Club, Washington's famous newspapermen's dining organization, of which Mr. Essary is president, gave him a farewell dinner Monday night. The singing of Grafton S. Wilcox, of the *New York Herald Tribune's* Washington staff, was a feature. Mr. Wilcox possesses an excellent voice, and his rendition of "Au Revoir But Not Goodbye, Fred," scored a hit.

A staff dinner of the "Sunpapers" was also given in Mr. Essary's honor on the preceding Saturday night. Theodore Tiller, humorist of the Washington corps of correspondents, was toastmaster.

CLEVELAND M. E. RESIGNS

Walter I. Robinson Leaves Cleveland Times to Enter Advertising Business

Walter I. Robinson, managing editor of the *Cleveland Times* resigned Dec. 1, to engage in the advertising business. Robinson has been in the newspaper business 24 years and is well known in the east. He spent most of his time with the *Springfield Republican,* the *Philadelphia Record* and the *Philadelphia Evening Public Ledger.*

When he went to the *Cleveland Plain Dealer* six years ago as editorial writer, he had for a long time been financial editor of the Evening Public Ledger. When the Cleveland Times began publication on Mar. 2, 1922, Mr. Robinson started with it as editorial writer in charge of the editorial page and since Aug. 1, 1922, has been managing editor as well as editorial writer.

Harold Place Succeeds Bourjaily

Harold C. Place, director of Scripps-Howard wire services in Ohio, has succeeded Monte Bourjaily as promotion manager of the Ohio Scripps-Howard group. Mr. Bourjaily expects to continue newspaper work in the east. Mr. Place will continue to direct the wire services. He will work from the office of E. E. Cook, editor-in-chief of the Ohio group, Cleveland. Mr. Place was editor of the *Des Moines News* prior to its sale and consolidation with the *Des Moines Tribune* in 1924.

NOURSE SUCCEEDS STANSBURY

Veteran Hearst Capital Writer Now Washington Herald M. E.

James R. Nourse, veteran editor and writer of the Hearst newspapers, has been appointed managing editor of the *Washington Herald,* succeeding H. H. Stansbury who becomes managing editor of the *New York American.*

Mr. Nourse, a native of Pennsylvania, was long identified with the Hearst newspapers at San Francisco and Los Angeles in an executive capacity before being transferred to Washington.

SONGS OF THE CRAFT

(*Written Exclusively for* Editor & Publisher)

By Henry Edward Warner

A QUESTION OF VIEWPOINT

(Suggested, for which thanks, by George D. Dean of the BEE in Sacramento, which is in California, where Hollywood is.)

The Managing Editor posted a notice
To the Staff, in a moment of ire,
Concerning the fate that awaited space grabbers—
A fate that was sudden and dire!
In words unmistakably fraught with excitement
He told us no junk was desired,
And anyone falling for press agent fiction
Would be swiftly and finally fired.

We fellows resented the dark implication,
With a feeling that we'd been bemired,
'Til one who protested reported, sub rosa,
That unpleasant things had transpired!
So we backed to our muttons, our side linens abandoned
And quit with the agent's consorting;
Yea, Bo! . . . we got back to the unvarnished story
And restricted ourselves to reporting.

Days passed, as they will, till one day came an offer
To invent fancy tales for the dollies;
And our Managing Editor bought a fur coat
And shipped to New York with the Follies.
We saw him eftsoons, when he drifted, a-homing,
To the shop of his early endeavor,
And he handed us junk that he swore by the Prophets
Was as straight and veracious as clever!

That unholy liar! . . . That scoundrel! . . . That grafter!
We fell on his form for a show-down!
We murdered that sucker! . . . We handed him plenty!
We gave him a taste of the throw-down!
And as he emerged with the yarn he'd invented
To ponder our views and deductions,
We smiled as we shouted: "We hate to report, Sir,
But we know how to follow instructions!"

SOVIET NEWS AGENC CHANGES NAME

"Tass" Replaces "Rosta" as Short T —Durant, Returning to U. S., R ports Prosperous Newspaper an Economic Conditions

Name of the Russian Telegraph Age has been changed to the Telegr Agency of the Soviet Union, Kenn Durant, American editor and mana announced this week. Mr. Durant turned Nov. 30, to his New York offic Associated Press headquarters, follow a two months' trip to Russia.

No change in policies accompan adoption of the new name for the n agency, Mr. Durant said. The abbr ated title of the association, and that n used, is now "Tass," instead of "Ros as formerly.

"The newspaper situation is ext ordinarily good," he said. "The adva in the last few years in newspaper m chanics in Russia and also in edito direction has been tremendous. The te nical advance in transmission of ne especially has gone beyond that of other European country.

"Use of wireless in news transmiss has met with great success in Rus More than 50 newspapers are at pres being served daily by wireless teleph within a radius of 1,000 miles from M cow. Girls are proving expert in th daily two-hour dictation of the news port to Tass clients.

"Little trouble has been experienced static, and the agency is now consid ing employing wireless on even a lar scale to operate printer-machines."

Mr. Durant said he traveled as south as Tiflis from Moscow, and v particularly impressed with the amo of foreign news being published in Soviet newspapers.

"Throughout the trip," he said, "I v able to keep in close touch with ne events in the United States by pick up the local newspapers in the vari cities and towns I visited. It is a co spicuous feature of the entire Russ press that more foreign news is prin than domestic. The Scopes trial, for stance, which started as I arrived abro was given considerable play in all Russ newspapers."

In regard to news from Russia, M Durant said that "from the point of vi of American news editors, the Sov Union was very well covered in a ne way."

"There has been a great improvem in the quality of news to America fr Russia in the last two years," he add

Mr. Durant also commented on t widespread use of airplanes in Russia the present time. Newspapers, he sa are employing many airplanes for d tribution purposes. It is now possib to fly from Moscow to Odessa over regular scheduled route, and eventua regular passenger service will be esta lished all the way across Siberia.

"The country is prosperous," he co cluded, "and the people are generally co fident of a bright future. This yea harvest was the best since 1913."

Weekly Organization Completed

Westchester County Weeklies, Asso ated, is the name adopted by the pu lishers of the weekly newspapers Westchester County, New York, as t official title of the organization, whi was formed recently. Officers ar Thomas M. Kennett, *Pelham Sun,* pre dent; Frederick Dromgoole, *Mt. Kis Recorder,* vice-president; Harry Sattl *Harrison Observer,* vice-president; Harris Danzberger, *Hartsdale Hera* secretary; Colin T. Naylor, Jr., *Peek kill Highland Democrat,* treasurer.

Ralph Bauer Now Mayor of Lynn

Ralph S. Bauer, recently elected may of Lynn, Mass., is a former newspap man. He began his career as a newsb on the streets of Boston. Later he b came circulation manager of the *Chica Mail.* In 1898 he went to the *St. Lo Star* as assistant business manager.

The Big Retail Merchant's Problem

What's Due to the Advertiser from the Newspaper—Good Advertising Described—Brains and Money Can Produce It—Second and Final Chapter.

By CHARLES W. MEARS

Copyright, 1925, by Charles W. Mears, Counselor-in-Marketing, Keith Building, Cleveland, O., and published by EDITOR & PUBLISHER *through special permission of the author.*

(CHAPTER II.)

IN all the world there is no shrewder buyer, no shrewder merchandiser, than Henry Ford. His car is practically out of competition. Being an automobile, it is a self-advertiser. Ford built up a tremendous business, the largest single business institution in the world, practically without paid advertising.

Yet even the unique Henry Ford and his mammoth organization reached the point where a sales resistance could not be overcome by shrewd buying, marvelously skilful manufacture, or any other merchandising stroke.

And with that sound good sense that has characterized Ford growth, Henry Ford began to advertise in paid space—to draw customers who could not be won by any other means. By advertising Ford developed practically a fresh market for himself—a market he had not hitherto captured.

* * *

Many a merchant thinks he has exhausted the possibilities of his local field when he has only taken the top dressing. Every merchant who has been in business for twenty years has seen new stores enter his particular field and succeed. Why did he not get and hold that trade which the newcomer so readily picked up?

* * *

Let us suppose now that an established store decides to take a new and larger lease on life and increase its business greatly. To do that will cost money. Can it be done? If new stores can find the trade, why cannot the old ones do so as well, even more readily? And will the increased volume of business pay for itself and be worth having?

Experts insist that profits do not increase proportionately with increase of sales volume. Of course not. A merchant, crazy to obtain volume, might make such inducements to the public that he gets the volume only to find that his profits have thinned out. But in a store whose management is intelligent enough to handle an increasingly big volume of business, volume does spell profits, increased profits.

Take an outstanding instance. One store with a $30,000,000 volume in 1923 (no figures available for 1924) reports expenses of 25.4 cents (4.7 cents under 1924 average) and profits of 9.1 cents (7.1 cents above 1924 average). And the rate of stock-turn was 6.8 times (nearly double the 1924 average).

National figures for 1924 show that a 2.6 stock turn produces a net profit of 0.8 cents, a 3.4 stock-turn produces a net profit of 2.0 cents, a 4.7 stock produces a net profit of 3.3 cents.

Moreover, "The principal increases in expenses of operation were experienced by those firms that exhibited the greatest decrease in sales volume."* (*Harvard Bulletin No. 53.)

You can't easily adjust expenses to declining volume, but when advertising increases volume and stock-turn, expenses decline and profits multiply.

* * *

Intelligent management plus increased volume gained by faster stock-turn does increase profit. Why then doesn't the live merchant increase his advertising appropriation and go vigorously after more business? Why doesn't he spread himself for new life just as he did when he first opened his big new store?

* * *

Henry Ford went after more volume and got it—by advertising. Ford isn't advertising just to see his name in print; he is advertising because he wants more and more volume and because he realizes that merchandising skill has its limitations and cannot accomplish everything.

Merchandising alone cannot reach out and win the public. But—couple good merchandising with good and adequate advertising and then you have hitched up a team whose pulling power multiplies your sales.

* * *

Merchants necessarily watch their expense figures. Unless the merchant wisely keeps down his costs of doing business, he gets into trouble. He simply must eliminate every unnecessary expense. But at the same time he must be very careful in determining what expense is actually unnecessary.

Certainly no real merchant would permanently close the curtains of his show windows—in order to save the expense of window dressing.

No merchant would stop running his elevators or discontinue his telephones—to save expense.

The merchant recognizes the necessity of show windows, of elevators, of telephones. When he looks askance at advertising costs, does he as fully recognize that advertising, the Long Arm of retailing, is his one and only means of reaching out (beyond the radius of merchandising influence) and drawing consumers' dollars into his store?

Since no store has ever had too many customers, isn't it reasonably certain that no store has ever over-advertised—and that the down-town retailer's greatest need today is not less but more advertising—and better advertising—than he ever published before?

A recognition of the values in the facts, figures and ideas, heretofore presented, naturally arouses a desire for methods to use in their profitable application to "the big store's problem."

To go, however, and make definite recommendations, is in the nature of telling the big store merchant how to run his business; a process he might rightfully resent as unwarranted intrusion.

His forbearance is asked, inasmuch as this treatise seeks a mutual benefit for merchant and newspaper, that of better results from newspaper advertising.

What recommendations may now be made are not to be taken as law or gospel, but are made from knowledge gained through years of successful experience in merchandising and marketing. If they serve only to arouse new thoughts, active comment and action, they will serve well.

* * *

To begin with, three principles must be recognized:

1. Do nothing the other merchant may do unless you know ALL the conditions that have prompted his action.
2. An ideal business is one with an equal business volume equally distributed for every business day in the year.
3. Advertising is the propulsive force that brings consumers' dollars up to and across the line of Purchase and Sale. Therefore: When business is good, advertise some to get more business. When business is bad, advertise more to get some business.

* * *

Let us discuss number 1: "Do nothing the other merchant may do unless you know ALL the conditions that have prompted his action."

Note, in connection with this rule, the great number of "follow-the-leader" stores that have started and made annual events of special sales because the other merchant did.

* * *

The original thought back of a special sale, its first prompting motive, was to get the customer into the store, where his additional purchase of articles "not on sale" would, supposedly, offset the mark-downs on sale merchandise.

The public is keen; consumers have been quick to recognize their advantage in the procession of sales and they now WAIT for such sales before buying their needs.

* * *

It has been a strong case of "follow the leader," until business is done on sale days and other days are very poor. Further: A steady procession of sales impairs the sales ability of sales people, since, on sales day, they become automatic "order takers."

The number of sales in the business calendar of the big store tend to concentrate the business on these days, rather than to distribute it equally.

* * *

So much for analysis. Now to a definite recommendation: Do not change over all at once, but take any given department, check over its bargain offerings for one year, total the number of those offerings in the given year, then, for the succeeding year; equally distribute them "EVERY BUSINESS DAY" in that year, or, better still, use more of them on what have been the light business days.

* * *

Number 2: "An ideal business is one with an equal business volume equally distributed every business day in the year." Few big stores realize such an

SEEING AMERICA AGAIN

Cyrus H. K. Curtis and the manager of two of his newspapers, *New York Evening Post* and *Philadelphia Public Ledger*, John C. Martin, in Los Angeles, on their way to Arizona. Mr. Curtis is traveling in quest of improved health.

ideal condition or even approximate it. Therefore, why not enlarge upon the idea expressed in the preceding paragraph?

The store's buyers are concerned with getting good values and better terms and discounts, often to a too great exclusion of the fact that their real job is to turn merchandise into cash, "AT A PROFIT."

* * *

Any given department must maintain an organization that is complete enough, or almost so, to care for business on a peak-load day. In this respect a department is somewhat like a manufacturing plant, in that it must produce dollars from merchandise by selling said merchandise to consumers. But stores do not fully recognize one principle that no manufacturer can ignore, and live: That department should function at capacity every business day, if it is to be maintained at capacity personnel every day, at a profit.

This recommendation, then, to realize the advantages of rule 2: Allot more of your advertising pressure and sales promotion effort to what are now light days; enough to maintain what are now heavy days; and keep back a reserve fund for use as a special stimulant for emergency conditions that will arise in any business.

* * *

Number 3: "Advertising is the propulsive force that brings the consumers' dollars up to and across the line of Purchase and Sale. Therefore: When business is good, advertise some to get more business. When business is bad, advertise more to get some business."

This sound principle has been recognized by the big store in theory, but not sufficiently in practice to get the utmost benefit from it.

Much of the retail business of today in the big store, is done on Wednesday, Friday and Saturday,—while Monday, Tuesday and Thursday are light days. This puts the burden of profit-making upon three days of the week, instead of six, which is too much of a strain upon the organization and too much to expect, since the average mark-down figure is 7.8% of total net sales and is much higher on special sale days, into which class Wednesday, Friday and Saturday have dropped in most big stores.

* * *

Let us, then, make this recommendation, simple but effective: Compile some real figures on your sales volume in relation to your business days, to see what days are heaviest and lightest. Get accurate figures to back up what you already know about this. Find also relation of your advertising expenditures to these light and heavy days.

Then, with actual figures upon which to build your foundation, apply rule number three to realize an adjustment of your volume to every sales day in the year. You may not realize it fully, but you most surely will approximate it.

The first and immediate benefit should be a reduction in your sales costs.

* * *

Out of these three principles comes this one conclusion: "Sales volume equals sales pressure minus sales resistance." With that thought in mind always, plus the proper application of pressure at strategic times, should come "an equal volume, equally distributed every business day in the year," which makes for profit.

* * *

There is one other thing that seems somewhat wrong in the preparation of big store-advertising copy. It is best explained by drawing a simple parallel.

Compare your newspaper space with your window display space on the sidewalk line. Which is the better dressed? Which represents the spirit of the season or the occasion to best advantage? Which receives the more attention as to setting for the merchandise offerings? The answer is so obvious it needs no further discourse except to recommend the more liberal use in advertising of art, in the form of borders, cuts and decorative effects.

* * *

Actually the big store should expect the newspaper to do just two things: Print the store's ad well, in the white space purchased, and deliver a healthy circulation at a fair price. These things are being done by the newspapers of today better than ever before in newspaper history. The cost has risen some, but NOT as much, in proportion to quality and quantity of circulation, as the merchant's own merchandise.

Both merchant and publisher are desirous of securing greater action from newspaper advertising. Each must do his part. The newspaper publisher is willing to accept his responsibility. He asks, therefore, that these suggestions be earnestly considered.

"And Better Advertising"

This is not a treatise on what is or is not good advertising. Any merchant who is open-minded on that subject can get authoritative information from advertising specialists.

Planning, writing, illustrating and laying out advertisements has become a highly specialized profession, and advertising as a whole is no longer just anybody's plaything or football—although it is so treated every day in most small town stores and in an alarming proportion of big city stores.

When any retail store's newspaper advertising shows diminishing returns, a main reason can be looked for in that store's failure to keep pace with the newest attainments in advertising practice. And this failure is not by any means always attributable to the store's advertising department, but very often to lack of vision higher up, and especially to an inadequate advertising appropriation.

Too many stores (even big ones), taking advertising as a routine and disagreeable grind, have employed in their advertising department too few people and at too low a wage. These overworked, disheartened and often underpaid people have produced only what might have been expected in these conditions—cheap, insincere and unconvincing hackwork, not good to look at, not easy to read, and often totally lacking in its power to create desire to buy in those who read the newspapers. By such stuff the public cannot be won.

When all advertising was low in grade, any advertiser had a fair chance to win. But in keener competition, when one advertiser steps out ahead and prints clean, readable, inviting, cheerful, persuasive advertising—when one advertiser shows faith in himself, sincerity in his words and joy in his work—when one advertiser can make the public feel that "Here's the store for me," the public responds; that advertiser wins, and his competitors lose proportionately.

Hence the purpose of this chapter is to advise the big merchant to lay aside his rule-of-thumb, hit-and-miss, trial-and-error advertising methods and notions, get an unprejudiced and authoritative survey of his advertising needs, and thereafter correct at least his gross shortcomings.

Let him realize, once for all, that unless he wins the public and holds its patronage against the inroads of competition and the swift and vital changes taking place in retailing, he approaches the mercantile discard.

* * *

Necessarily, his one paramount means of drawing the public to his store is newspaper advertising—since the real shopping place today is the paper that carries news to the people. That being so, let him make sure that the kind of advertising he prints in newspaper space is not hackwork, not inane, not a mere jumble of words, pictures and prices, but advertising that is inviting, straight-forward, friendly, sincere, and above all else persuasive, Desire Creating.

Stated another way, let the merchant put into his advertising department and into his advertising work the best trained and specialized brains his money can hire.

This, you may be sure, is not an impossible ideal; it is being done today; and those merchants who are doing it are not excessively worried about the future. They are on the right road and the public is for them. Their sales volume grows, their stock-turn increases, their expense percentage decreases, their retail prices please the public, and their profits are high above the average.

MERRY BREEZE BLOWS IN "SOUTHEAST CORNER" OF TORONTO GLOBE

Woodpecker Warms Feet By Pecking Sparks from Stones—Sparrow Leaves Nickel to Pay for Crumbs—Popular Column Started in Jest Continues by Request

By. A. D. CLARKE
Night Editor, *Toronto Globe*

THAT 82-year old youngster—the staid, dignified, truth-loving *Globe*, of Toronto—has the merriest news feature in Canada.

The "Southeast Corner" is the sensation of Ontario. It is widely quoted (and gibed at) in the press throughout the Dominion, and in the past few weeks has attained somewhat of an international reputation.

The "Southeast Corner" is a tag applied by readers of the Globe and Globe subscribers keep it alive.

There came a succession of queer happenings about four days in a row. A waggish news editor "played" them in the lower right hand corner of the front page under a two column box heading of catchy phraseology. Then there was a let up.

"What has happened to the Southeast Corner?" came a letter from a little back-woods hamlet, with the suggestion that "if nothing better is in sight this might keep the kettle boiling" and a hair-raiser was sprung about a volunteer corps of citizenry turning out with muskets, shot-guns and rifles to quell an invasion of jack-rabbits, so large and fierce that the faithful collies of the countryside had taken to cover.

The response was immediate. Stories of affectionate pigs; false teeth; pearl caches in oysters; perambulating and self-unloading, self-resetting mouse traps; cats that ring doorbells; super-intelligent dogs; hay-fever; freak clocks; nonagenarian bushmen; speedy 30-year old "colts," and an appreciative sparrow, came in a flood.

What is an appreciative sparrow?

This little bird tapped at a kitchen window in Ottawa one bleak day and was thrown some crumbs. Next day he returned with a nickle in his bill and deposited it on the window sill.

From stories of freaks to cold weather experiences the romancers carried on. Somebody in Elmira had picked pansies on the edge of a snowbank in February. Somebody in Milton hit back with a pear tree in bloom and lilacs budding.

A Hamiltonian challenged with a story of honey bees at work in the dead of winter and suggested that Elmira and Milton lapse now into hibernation—in other words, "go 'way back and sit down."

Elmira retaliated. It was cold and the stoker in a local factory had about broken his back shovelling coal with no results showing on the steam gauge. He thought the smoke stack must be plugged. He went outside for a look. Tongues of flame were standing three feet above the stack and "frozen solid"!

Milton followed suit. A party returning from church at night beheld a weird sight. The bravest man in town investigated and reported that a woodpecker was striking sparks from a boulder with his bill and holding up first one foot, then the other to get warm.

White River, Ontario, the coldest spo in North America, was not to lose it reputation. A brick hotel was in flames All the guests but one had escaped. H was silhouetted in the glare, franticall waving and shrieking on the roof. N ladder could reach him. A stream o water was shot aloft. It froze instantly and the pajamaed guest slid down on th icicle!

To give everyone a show, about 2 anecdotes were turned over to a brigh reporter to boil up into a pot-pourr and, as one or two Puritanical protest had been received, this article announce that, having got this unloaded, the South east Corner yarning competition woul be discontinued.

Discontinued! The flood started again Discontinued! Why this town and tha town surely was entitled to "A plac in the sun"! And they advanced reasons

And, by way of relief, came an eye opener on the development of transporta tion. Windsor (Detroit's popular neigh bor) reported a ship with a cargo o liquor for Cuba had cleared, sailed an returned for another load within thre days. This whetted the vigilance of cor respondents at many points along the un fortified boundary and a situation wa revealed that drew editorial fire on Can ada's Minister of Customs. It has ha its sequel and the end is not yet.

And so the Southeast Corner kep stepping. Not only did it reveal Ontari a fertile field for fiction; it recorded high percentage of odd realities. Through seeding time and summer ran stories o phenomenal growth, floral and fruit pro duction. The feature demonstrated re markable reader interest in the Globe Subscribers sought information through the Southeast Corner and received an swers in shoals. Challengers were made on production records and communities townships and counties accepted the gage Reputations shifted as on an active stock market and unheard of high marks were established. It cost one lady six baskets of peaches to make good one boast.

On a report that the Supreme Grand Master of the Masonic Order in Ontario had a field of corn averaging over 1 feet in height, the Southeast Corner opened a competition—"A corner on corn.' Entries had to be certified by responsible officials of townships. Starting with an entry of 14 feet the honors fluctuated east, west or north, with dizzy rapidity until 16 feet 4 inches was attained, and it seemed to be all over but the shouting. The Corner editor reminded the would-be contestants that the competition was "for corn, not timber" and recording officials were reminded of their responsibility. Then the jokesmiths got busy with "unofficial" submissions of corn so high the ears were gathered from a 40-foot ladder; corn so tall that high power rifles were required to snipe the corn-borers from the upper limbs; corn so lofty that it obscured barns and silos; corn so stout that raccoons were forsaking the basswood hollows to hibernate in cavernous stalks; cobs so large that a corn roast party of 16 people was sitting upon one left by a previous party, having mistaken it for a log.

Then came a duly attested entry from another county which tied the competition and Ontario's record for corn growth this year stands officially at 16 feet 4 inches.

The corn competition is over, but the fever still ranges. Local patriotism simply will not down. A farmer in the county of Leeds exhibited a 65-pound pumpkin, declared he had a field full of them, and challenged the world on this record. His glory shone for one day. Pumpkins kept getting bigger till one attained 91 pounds. Meanwhile came reports of a third crop of raspberries in Halton County, a 27-pound puffball in Oxford, a mushroom 15 inches across in Kent, a plethora of puffballs, culminating in a monster from Wellington 72 inches in circumference and weighing 40 pounds, an apple tree with a trunk 12 feet in circumference in Oxford—later to be eclipsed by York County with a tree 135 years old with an 18-foot trunk girth which yielded 30 bushels of apples this season.

NEW YORK OPENS SCHOOL FOR PRESSMEN

"Milestone in Printing History," Says Major George L. Berry, International Union President—175 Apprentices Enrolled for Course Furnished Free by School Board

By PHILIP SCHUYLER

A "MILESTONE in the history of the printing business" was set up in New ork this week, when the Newspaper Printing Press Apprentices' Trade School, first of its kind in the world, opened its doors Nov. 30.

Major Geo. L. Berry

The quoted phrase came from Major George L. Berry, president of the International Pressmen's Union, who spoke at a dinner celebrating the occasion on the opening day, and voiced a plea for rther co-operation between employers d employed.

The school is operated jointly by New ork Printing Pressmen's Union No. 2 d the New York City Publishers' Asciation, under the direction of the oard of Education, which supplies the ilding space and classroom equipment. echnical equipment, which includes a andard newspaper press weighing forty-ree tons, has been donated by manucturers of newspaper plant equipment. Tuition is free and compulsory for apentice members of the local pressmen's ion, an attendance of four hours a eek being required. The instructor is harles J. Walsh, formerly a pressman ith the *New York Times.* One hundred d seventy-five apprentices have been enlled for the five-year period of their prenticeship.

International President Berry hailed the ening of the school as one of the most portant developments in the New York wspaper industry. The school, he said, pressed an acceptance of a new comunity of interest on the part of both wners and pressmen. He predicted it ould prove to be an "experimental staon" for a new relationship between the o groups and said its further development "might well startle the newspaper lsiness in this city."

"We in America are not to be frightred by communism and sovietism," he clared. "There isn't a man with an nce of sense who will question the projety of private ownership of property. ake the most rabid communist in Amerd and offer him a home or 6½ per cent terest on his money and he will jump the chance to get it.

"The International Printing Pressmen's nion realizes that it cannot absorb all te profits of the newspaper industry. 'e prefer to settle our differences with r employers by conciliation rather than th the big stick—the strike, and I beve that the employers prefer conciliatn to their big stick—the lock-out."

Newspapers of the future depend large-l on the development of the printing ade, Major Berry said. If the pressom performs its duty fully, the proct is saleable; if the pressroom fails, e product is unsaleable.

The program of the school, classes of hich are held in a large room at 240 W. th street, New York, was drawn up a joint commission made up of pubhers and union officials. Members of e commission are Fred Walker, *New rk Sun,* Hugh O'Donnell, assistant siness manager, *New York Times;* E. Martin, *Brooklyn Eagle,* representing employers; and John J. Maloney, *w York World;* James M. Moore, *w York American;* and Mr. Walsh, w York Times, union representatives. went over to the school and watched classes in operation. Mr. Walsh otes part of each day to lecturing on of the 300 printing processes inved. The remainder of the session is len over to actual demonstration on the press which was donated to the school by R. H. Hoe & Co.

The school is adequately equipped to publish a 32-page tabloid. The class thread webs through the press, plate it up, and get everything in readiness as though a daily paper was to be issued. Later practice runs will be printed. The instructor, Mr. Walsh, has had 16 years experience in the Times press room.

First Lessons for New York Apprentices at the Pressroom School with Charles J. Walsh, instructor, outlining the process of "plating up."

"This is just the beginning of what we dream for the school," he declared. "In the future we hope to have many different types of presses, including color, rotogravure, and offset."

Rollers for the Hoe press, nucleus of future equipment, were donated by four different manufacturers, Bingham Brothers, the National Roller Company, the High Speed Roller Company, and the William C. Hart Company. Blankets for the press were furnished by Theodore T. Ellis, of Worcester, Mass., president of the New England Newspaper Supply Company. Ink is being given the school by the Ault & Wiborg Company, and, for the present, paper is being supplied by the *New York American.*

A school for job and commercial printers was opened at the same address last September, under an arrangement similar to that governing the administration of the newspaper pressmen's school.

At the opening ceremonies of the latter school, speakers, in addition to Major Berry, included Mr. Walker, Adolph S. Ochs, and Charles Hart, president and superintendent of production respectively of the New York Times; Andrew R. Armstrong, president of the Newspaper Printing Pressmen's Union No. 2; Oscar Brion, International Paper Company; and George Ryan, president of the Board of Education.

Mr. Walker said in part:

"Both personally and as the head of the New York Publishers' Association, I am deeply interested in the Printing School in which the Pressmen's Union is taking so active a part. I hope and expect to see this movement grow to be one of great mutual advantage alike to the craftsmen and to the publishing interests of the city.

"I congratulate the union on the selection of Mr. Walsh as the instructor.

"There is one feature of the school as it is at present which I cannot endorse or approve. Its benefits as at present planned, are confined to the apprentices at the trade. This is wrong. Every New York boy who shows an aptitude should enjoy the benefits of this school. Every graduate from the continuation schools should have an opportunity to follow through his preparation for his chosen vocation and it would be most regrettable if we who are responsible for the school, should shut the door in his face.

"The school now is reasonably well equipped for the teaching of press work. It is my hope and ambition to see it further equipped and equally well able to give complete instruction in typography, including machine operation, stereotyping in all its branches, and photo engraving in all its varieties. Only when such a school has been firmly established, shall I believe that we have done our full duty and to that end, I feel ready to commit the publishers of New York to do anyhting in reason for the fullest realization of these plans."

Others present were: Adolph S. Ochs, publisher of the New York Times; Louis Wiley, general manager of the New York Times; John W. Barnhart, business manager of the *Daily News;* Florence D. White, general manager of the Press Publishing Company; J. T. Bresnahan, business manager of the World; L. E. Owens, production manager of the World; Howard Davis, business manager of the *Herald Tribune;* Peter J. Brady, president of the Federation Bank of New York; A. L. Winger, W. H. Field, vice chairman of the Newspaper Owners' Association; Joseph Addison, J. J. Healy, production manager of the New York American; Arthur Sherin, president of the Art Gravure Company, and Lester Jones, executive representative of the Publishers' Association.

President Berry announced the international union's annual awards for 1924 and 1925 for distinguished services the organization had received, presenting honorary life membership in the union of Adolph S. Ochs, and Judge Moses Grossman of House, Grossman & Vorhaus.

Mr. Ochs in accepting the honorary life membership said nothing occuring in his life had given him more genuine pleasure. He said the opening of the school typified a movement in the right direction, and signalized appreciation on the part of all concerned of the value of working together. He paid tribute to President Berry as representing the type of labor leadership most needed by industry.

EMPIRE STATE ENGRAVING SCHOOL TO OPEN CLASSES DECEMBER 7

Organized by New York City Publishers to Meet Need for Photo-Engravers—Ross W. Kellogg Is Director and Arthur M. Montgomery Instructor

THE Empire State School of Engraving will be opened at Ithaca, N. Y., Monday, Dec. 7, to furnish instruction in photo-engraving. The school will be operated on the same general plan as the Empire State School of Printing which has provided instruction in hand composition and linotype-intertype operation and mechanism for nearly four years, according to an announcement made by Hugh A. O'Donnell, assistant business manager of the *New York Times,* chairman of the committee which will manage the school.

R. W. Kellogg

Although the Empire State School of Engraving will be housed in the same building with the older school, and will be under the direction of Ross W. Kellogg, director of the Empire State School of Printing, it will be a separate department. Equipment has been purchased from a fund of $10,000 subscribed by members of the Publishers' Association of New York City, who operate photo-engraving plants. The committee in charge of the school is as follows: Hugh A. O'Donnell, New York *Times,* chairman; H. M. Roberts, *American;* John W. Barnhart, *Daily News;* L. E. Owens, *World;* Victor Ridder, *Staats-Zeitung;* Edwin G. Martin, *Brooklyn Daily Eagle* and Lester L. Jones, executive representative.

On behalf of the committee Mr. O'Donnell issued the following statement regarding the reasons for the organization of the school:

"The Empire State School of Engraving has been organized to meet the same need in the field of photo-engraving that the Empire State School of Printing is meeting in such a splendid way, in the field of printing. The opportunity for young men to learn the trade of photo-engraving is even more restricted today than the opportunity to learn the trade of printing. It is significant that with thou- of printing plants in the villages of the country, newspaper publishers and commercial printers in a number of sections have considered it advisable to establish schools of printing and make available intensive courses of instruction.

"We have made a study of the printing schools and we find that in all cases they are bringing into the printing trade a type of young man who would never come through the apprenticeship system. This is highly desirable and the newspaper publishers and commercial printers who have been investing thousands of dollars in the equipment and operation of schools of printing believe that they are well repaid for the money expended.

"After a through investigation of the

OPENING OF CONGRESS WILL SEE MANY CHANGES IN WASHINGTON CORPS

Capital Writers Preparing to Cover "Biggest Show on Earth" After Busy Summer—Death Claims Two Veterans Since Last Session

By BART CAMPBELL

WASHINGTON, Dec. 3—With Congress, claimant for the title of "The Biggest Show on Earth," about to reassemble for another verbal and legislative siege, the Washington newspaper corps is engaged already in making the typewriter and telegraph keys hum.

Though Congress has been absent since March, Washington lost none of its attraction this year as a drawing card for newspaper writers. The World Series, the crowning event of the baseball season, summoned here more than a hundred "star" sports writers. The six day session of the Interparliamentary Union held in the hall of the House of Representatives proved a magnet for a number of out of town newspaper men, especially from the foreign language newspapers. The dedication of the new music chamber in the Library of Congress was participated in by more than a score of music critics from various cities. The Foreign Debt missions brought with them many representatives of the great newspapers of the Old World.

In November, the Radio conference was the medium that assembled here more than 40 writers, representative of both daily and weekly publications. But now that the great American newspaper show is once more to pitch its tent again in the Capital with its "side-shows" and "circus stunts," there is much joy in the ranks of the Washington correspondents whose number is now close to 280. The reassembling of Congress means that a new issue of the Congressional Directory will be forthcoming, with its list of correspondents prepared by James D. Preston, custodian of the Senate Press Gallery.

Several names will be missing that have been carried in the book for many years. Veteran N. O. Messenger, of the *Washington Star*, whose name first appeared in December, 1888, when he made his entry as representative of the old *Washington Critic*, will be absent. He died June 15. Edward E. Britton, first secretary to Josephus Daniels when he was Secretary of the Navy under the Wilson administration and later correspondent for Mr. Daniels' newspaper, the *Raleigh News and Observer*, died Nov. 9. The name of Charles C. Hart will also be out of the new directory as he forsook his association with newspapers of the Northwest to assume the role of United States Minister to Albania. Winder R. Harris, who made a host of friends, relinquished his position with the Universal Service bureau to take up the task of managing editor of the *Norfolk Virginian-Pilot*.

H. K. Reynolds, who was a member of the International News bureau, was transferred to the London office; Arthur J. Sinnott, of the *Newark News*, was drafted from the Washington office to fill a more responsible position in the home office. Dale Van Every of the United Press was transferred to the Pittsburgh office; Charles E. Morris who looked after the needs of the James M. Cox newspapers has assumed the position of editorial director for the same newspapers with headquarters at Dayton, O.; William D. Bishop, who represented the *New Haven Register*, branched out as a publisher by purchasing the *News*, published in Washington, N. C.; and John P. Coakley, who had the dual role of representing the *Newark Star-Eagle* and *Toledo Blade*, resigned to become associated with the Newark News.

While many new names will appear in the new directory this does not apply to the local heads of the press associations. For the Associated Press, L. C. Probert is rounding another year as chief of that organization's Washington office and George R. Holmes continues to direct the activities of the International News staff. William J. Losh, a member of the United Press bureau several years, this year will appear as chief and Raymond B. Clapper will continue as United News chief.

Than V. Ranck is in charge of the Universal Service, having been transferred to the Capital in October from the *Boston American*, but the work is not new to Mr. Ranck who is remembered for his service here four years ago with the same organization.

The Chicago Tribune Press Service, under the direction of Arthur S. Henning, has added to its staff William V. Lawson of the home office. The name of Demarest Lloyd heads the list of representatives of the *Christian Science Monitor;* William V. Hester, Jr., son of the late William V. Hester, has been added to the Washington staff of the *Brooklyn Eagle*.

Henry Cabot Lodge, grandson of the late Massachusetts Senator is a member of the *New York Herald Tribune* staff, and perpetuates in the Directory a name that has appeared continuously for many years. Henry E. Sargent, long identified as head of the *New York Journal of Commerce* bureau, is now associated with the bureau of the *Baltimore Sun;* Bertram F. Linz is accredited to the *Houston Post-Dispatch;* Horace H. Herr, from the home office, will serve the *Kansas City Journal-Post*.

Kyle D. Palmer, who has an acquaintance with many of the Washington representatives through attendance at national conventions, has come from Los Angeles to look after the *Times* of that city; Robert R. Lane is the successor for the *Newark News* of Arthur J. Sinnott; James P. Higgins succeeds John P. Coakley in charge of the Newark Star-Eagle work; James R. Nourse, a native Pennsylvanian who originally came from California as representative of the Hearst Pacific coast newspapers, and who has been associated with the Universal Service, succeeded recently H. H. Stansbury, as managing editor of the *Washington Herald*.

Wilfrid Fleisher, son of the publisher of the *Japan Advertiser*, is now a member of the *New York Times* staff; Wilbur Morse, who comes in as the representative of the *Philadelphia Daily News*, will compete in the Philadelphia field with his son, Wilbur, Jr., who is a member of the *Public Ledger* staff under Robert Barry.

Jonathan Daniels, a son of the Former Secretary of the Navy, comes from Raleigh to take up the work of the News and Observer, vacated by the death of Edward E. Britton; R. E. Powell returns as representative of the Raleigh *Times* and *Durham Herald;* Frank K. Boal appears as representing the *Pittsburgh Sun* and *Honolulu Advertiser* and J. A. O'Leary has been added to the Capital staff of the *Washington Star*.

Charles J. Babcock (right) vice-president of the George Batten Company, Inc., national advertising agents of New York, and Gail Murphy (left) have been spending a vacation at Hollywood-by-the-Sea, new Florida resort city between Palm Beach and Miami. These advertising experts say Florida and the future of Florida offers great opportunities in the advertising field.

BUY FINANCE PAPER

Morgan and Kneisel New Owners of Cleveland Business Organ

Victor H. Morgan and M. J. Kneisel, on Nov. 28, purchased *Finance & Industry*, a Cleveland business magazine.

Mr. Morgan was formerly editor-in-chief of the Scripps-Howard papers in Ohio. Mr. Kneisel has had experience on the business side of newspapers in Columbus, Toledo and Cleveland.

Since leaving the Scripps-Howard concern Mr. Morgan has been the head of The Victor H. Morgan Company, specialists in financial and public utility advertising. The business of the Morgan Company will be continued without change.

Dallas Libel Suits Dismissed

Libel suits of Z. E. Marvin against the *Dallas News* and *Dallas Journal* have been dismissed at Dallas. They grew out of the report of a speech made during a municipal campaign last March.

TO ADVERTISE IRISH LINENS IN U. S.

Fund of £70,000 to Be Spent in American Newspapers — Government Aiding Plan With Subsidy

A sum of £70,000 is to be spent in America in two years on an intensive advertising drive to popularize Irish and Scottish damask linen. Damask manufacturers and others have already guaranteed an annual contribution of £18,646, and the Government of Northern Ireland have decided to grant a subsidy of 10s. for every £1 contributed towards the campaign by linen interests in Ireland during 1925 and 1926, subject to a maximum contribution during either year of £10,000.

This announcement of interest to American newspapers was made by the Minister of Commerce of the Government of Northern Ireland. The prevailing depression in the linen industry affects wage-earners throughout the province, and the Government considers that the efforts being made to improve trade are worthy of support from public funds.

It is proposed to place the advertising plan in the hands of the New York representatives of Irish linen firms, and by this means it is believed that the demand for Irish and Scottish linens in the most important market will be revived and strengthened.

The Minister of Finance observed that the trade papers that had been used in the past were not read by the users of the linen, and it was desirable that the advertisements should be inserted in family newspapers.

RAIN STOPS MIAMI PRESSES

14 Inch Downpour Changes Morning Papers to Afternoon Field

(*By Telegraph to* EDITOR & PUBLISHER

MIAMI Fla., Dec. 1.—When a downpour of 14 inches of rain Nov. 30, seriously affected publication of Miami's four daily newspapers by cutting off their common supply of power from the local utility, equivalent of rain checks was given by one daily.

The publication "docked" itself five cents per subscriber and ran advertisements free next day to make up for appearing so late.

A tropical torrential downpour began at 10:30 p. m. Sunday. The *Herald*, morning, was all ready to go to press and so was the *Illustrated Daily Tab* when the power failed. The Herald appeared about 3 p. m. Monday using the Tab's press after that paper had run off its issue. The *Daily News*, afternoon, facing the situation, made arrangements with the Dade Press, job printers, to issue a four page edition. The News was all ready to go to press in this primitive style when word came that power was restored. It came out about 5 p. m. with a complete "home" edition.

The *Tribune* got its power four hours later and issued one edition. Tuesday both afternoon newspapers issued the usual six editions. Since its own plant was still out of the running, the Herald Tuesday morning was the "guest" of the Daily News. It appeared on time but much thinner than ordinary. Wednesday the Herald was back in its own plant.

Knowles Miami Tribune Editor

Vernon Knowles, former managing editor of the *Miami* (Fla.) *Tribune* has been made editor-in-chief to fill the vacancy left by the resignation of Clayton Sedwick Cooper. James E. Mills, former news editor succeeds Knowles as managing editor.

Entertain Rural Correspondents

C. P. and A. H. Sherwood, publishers of the *DeSmet* (S. D.) *News*, entertained their correspondents at their annual "family reunion" recently.

TRAIL BLAZERS OF ADVERTISING

The Indian Medicine Tent Show

by Chalmers L. Pancoast

COPYRIGHT 1925 BY EDITOR & PUBLISHER CO.

Well do I remember the silver orations f street fakers; the publicity that fol-owed the county fair rube; the easy noney of the laundry bill ad-taker; that reat benefactor to posterity, the county las compiler; the flowery, windy words f the special edition writer; the clever rize contest originator; those scheme-ers and rolling stones in the old game, ho lived by their wits, words and win-ing ways.

This was back in the days of Paine's ireworks, Magic Lantern Shows; when a-ra-ra-de-boom-de-ay was the tune of ne day, and when advertising was a cheme business. There was a lot of oaxing the public, which was considered gitimate because it got results. It al-ays seemed easier to sell some kind of contest, scheme or idea that had the uality of tricking people to read adver-sing, than it was to sell legitimate ad-ertising. Patent medicine readers, faked stimonials and all the old highly ex-ggerated copy was considered good ad-ertising.

Merchants and national advertisers de-anded schemes, rebus prize contests to ake the people bite; catch their atten-on, and force them to do something they ad no thought of doing. People were ffered prizes in money and merchandise solve a puzzle, offer some solution or nswer questions. This demand for ever schemes and tricks to lure the ublic made adventurers—and the greater e adventurous spirit the more pro-ounced the success.

It was an exciting, fascinating game which only those with brains, ideas, awn, cleverness, skill, colossal nerve, genuity, good nature, and a huge sense humor could play at and win.

In the advertising field which includes erature, art, invention, discovery, mar-ting and progressive salesmanship, the ought of adventure has not entered. et it is truly a world of activity in hich there is as much call for genius, igger-quick action, reckless daring as ay be found in your modern novels of lventure.

Chapter IX

ublicity in the Wild and Woolly West

THE greatest running advertisements of the West have been red blanket dians, and wild cowboys, those adven-rers, spurred and booted, wearing bright k shirts and big sombreros. The color-l Indian, the picturesque cowboy, the ld horse, the bronco-busting, steer rop-g, experts with the lasso, have all been sential to western advertising.

There was real adventure in the ad-rtising game out West in the olden ys. Ever since those early, thrilling periences with the Indian Medicine nt Show, I had craved an adventure th real Indians in the wild and woolly st. My dreams of this great adven-re came true in helping to advertise a ild West Carnival down in New exico.

In those days before the Wild West deo became a professional show, staged nually at Madison Square Garden, or e Yankee Stadium, the promoting and vertising of a genuine old-time event as an adventure with plenty of thrills.

The big publicity stunt was to crown King and Queen for the Carnival. His yal highness, King Montezuma; and r highness, Queen Tecalco, together th Montezuma's royal court, were the incipal actors in the gorgeous street rade which advertised the opening of e Wild West Show.

The extensive publicity of the specta-lar parade brought the crowds from r and wide. Out West, King Monte-zuma is quite a personage. He was one of America's oldest Kings, the first to hand out gold to the early Spanish dis-coverers. Montezuma advertises gold, mystery, romance and adventure, and his name stirred the imagination of the people.

Never was there a more elaborate ad-vertisement to exploit a carnival than the

The boss billposter's freight caboose shrieked advertising and not a town missed the announcement of the real wild west fair and carnival

ceremony in connection with the ascension of the King and Queen to the throne.

Some of the widely advertised stunts at this old frontier show were: weird Indian dances, wild bronco-busting, steer roping, and the parading of dust-covered frontiersmen. Other more sensational stunts were Indian horse racing and foot racing, in which the Indians on foot attempted to unseat the mounted Indians; sham battles by frontier cavalry; Indian roping contests on foot, and nude Indian fire dances which were savage, spectacular and thrilling.

One special feature of the carnival which was given wide publicity was "All Fools Carnival Night." This was an occasion when King Carnival ran riot, making a wide-open gambling town at its best and worst. Every one masked, wore clownish costumes and engaged in confetti battles, which raged throughout the night. Rubber balls and paper streamers entered into the hurricane. Black eyes, sore noses and smashed hats and street fights were all a part of the game.

On "All Fools" night everything went, even the dust and gravel from the streets found its way into ears and eyes. I have seen many wild carnival orgies, but never anything to equal this night at a New Mexico Wild West Show.

This great event was advertised in show windows and on billboards with screaming posters, somewhat in this fashion:

> "Keep everything wide open tonight—except your mouth. Bar-rooms and all places of gambling will be open to ladies. This is the one night of the year when the Fair Ones can try their luck. Everybody masks. This is the night everybody goes everywhere and sees the forbidden sights."

This advertisement appeared in those days when the bar-room and gambling houses were run wide open day and night. Even electric signs were used to advertise

"KENO AT THE ST. ELMO TONIGHT."

The great Yeibechi Navajo Dance was given a wide publicity. It was advertised as a dance chant to the devil Yeibechi. Huge bonfires were built in the streets to throw a bright light on the nude dancers; this presented a dashing, vivid picture of brazen, crashing colors.

All of these events were advertised throughout New Mexico and Arizona in many unique ways. The boss billposter traveled about in a freight caboose on the sides of which were paintings of cowboys roping steers. These paintings in brilliant colors, with backgrounds of towering mountains were the trade-marks of the Carnival. Big purses were offered for the dare-devil stunts, horse racing, baseball and exhibits.

This was long before either New Mexico or Arizona were given statehood. The romantic, adventurous West just had to advertise its daring, dangerous and devilish thrills, because that was all it had to advertise. Spirited advertising was required to tell the story and paint the picture of a Wild West Carnival which is now a thing of the past.

Chapter X

Rolling Stones

THERE has always been a peculiar lure in the advertising game, which attracts men with an adventuring, roaming instinct.

In one of my old scrap-books is this clipping on "Wanderlust" by Walt Mason:

> "The place he lived in never suited; he hankered to be gone; and so he packed his grip and scooted, a little further on. Some other place was always better than where he abode, and so, on snowshoes or in sweater, again he hit the road. And when this wanderer was dying, one cold winter dawn, 'I'll have some fun,' they heard him sighing, 'a little further on.'"

Back in the days when Paine's Fireworks and Balloon Ascensions made country fairs sensational events; back when brass bands and barkers were the attention-getters of the day, also flourished the rolling stone advertising stunt workers. Perhaps a better name would be "Skimmers of the Wide Publicity Seas."

The rolling stone advertising man and the tramp had the same disease; both were suffering from the same mental affliction. The difference seemed to be that one took a bath, the other did not. One talked too much and the other only to the judge.

I have met many of these drifting, rambling, skimming advertising schemers, and they were a mighty interesting lot.

One in particular claimed to be the World's Champion Rolling Stone. He was the Master of Versatility in newspaper and advertising schemes. His zig-zag career had been over a pathway of hard knocks leading to many disappointments and painful memories. But he was a gambler with his life, his time and his brains. He would wade into any stream of life, regardless of turbulent and dangerous waters.

He was an expert in picking up good jobs, but a failure in keeping them. He was at his best when selling a scheme or getting a job. It was so easy he decided he had a charmed life, which helped develop a spirit of wanderlust.

As a boy he jumped from one thing to another. He was forever possessed with the fear that he would get into the quick-sands of some business and never get out of it. He flitted from one jub to another with a rapidity that was amusing. No matter what he was doing, if some man came along and offered him a new job he would leave the old and fly to the new, just for experience.

Then he began adventuring on the highways and byways of the newspaper and advertising business. His one idea was to travel and see the country. He longed to be roving about and delving into the mysteries of advertising and business.

The "Great Unknown" was always calling, the unsolved mysteries of advertising beckoned him, and he moved on and on always into new lines of business.

He always wanted some new kind of a stunt to work, the chance to attempt something he had never done before. He always seemed to be fired with some new ambition, some new desire.

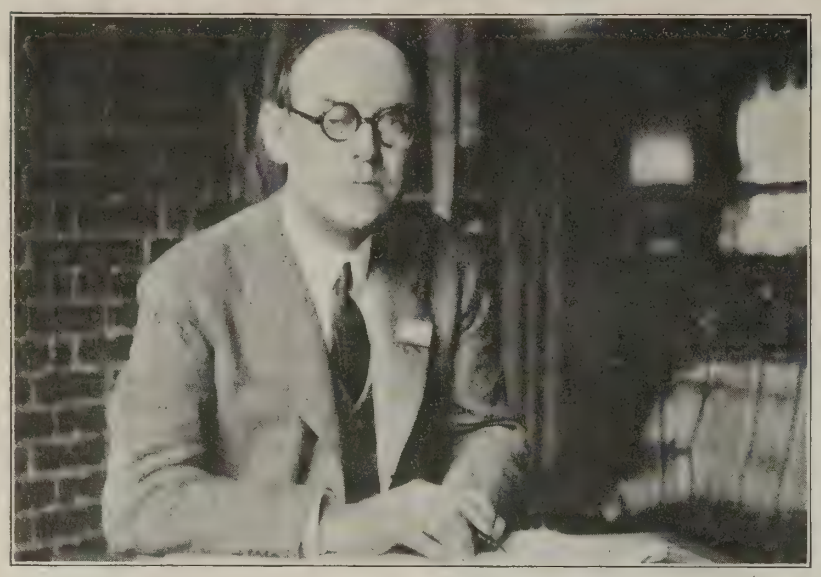
This rolling stone tendency was a mental disease, a restless sort of mania for accomplishing something no one else had ever put over.

Advertising is a business of changes, sudden and surprising chances, due no doubt, to changing conditions and changing minds, hence its great appeal to a wanderlust mind.

There are more rolling stones in the advertising business than any other. Many of these rolling stones have become great successes through the accumulation of experience and knowledge. Just so long as a man rolls along in the great advertising game he does not lose anything by the rolling proclivity.

Men who roll from one line of business to another waste energy and lose ground, but it seems that many rolling stones in advertising reach success because there is a purpose to their rolls—they roll upward—rolling up valuable experience and a knowledge of many important things.

If you consider a man's mission in life to be a one trip affair like that of a letter, then it may be a good thing to stick. Or if a man hits the right thing and knows it, the thing is to stick. I know of plenty of successful men in the advertising business who have never been with but one firm, but they did a lot of changing about in that one firm to reach the goal.



According to the theory that influenced my early life, you must be a rolling stone in advertising to get that much talked about "experience," which is advertised for and demanded.

I have met scores of rolling stone advertising men, and two qualities they possess in common are enthusiasm and nerve. They are fellows who often see greater possibilities in a proposition than really exist. They dream great dreams which come true because they make them come true.

NEWSPAPER MAKERS AT WORK

By PHILIP SCHUYLER

Defender of the Humble Personal—R. C. Kates

SOME editors may continue to scoff at the humble little personal briefs, but Roy C. Kates, managing editor of the *Rochester* (N. Y.) *Times-Union,* believes they play an important part in the newspaper scheme of things, even in a city the size of his own, of about 325,000 population.

"Yes," he said in a recent interview, "we value them very highly.

"Quite frequently we have almost decided we had outgrown the personals, considered so small townish by those who are wise. Then we have sent out our canvassers and our field representatives and we have mailed out questionnaires on the subject. Invariably conclusive proof came back to us that the personal briefs are popular and very widely read."

Thus shown, Mr. Kates and his Rochester Times-Union, which is one of the Gannett Newspapers, Inc., make special efforts to catch and print these chatty trivialities, believed by the managing editor to be strong threads to sew the newspaper to Rochester and suburban homes.

Of course, it is in the suburbs and the surrounding villages, where "calling" is still a popular indoor pastime that personals grow best.

In addition, therefore, to the usual county and suburban correspondents, Mr. Kates has originated a new editorial position on his newspaper—that, it might be called, of visiting writer. An able woman reporter has been specially trained to travel from one village to another, making friends for the Times-Union, and collecting news items. She has become well known to readers of the paper and is frequently called upon to address clubs and social groups in and around Rochester. In this way towns within a radius of 35 miles of the city are well covered, Mr. Kates said.

"On the Times-Union," Mr. Kates continued, "we try to play up educational, church, and industrial news. We cover an interesting murder or scandal completely and adequately, but we do not believe in going too deeply into details. We play local crime news down rather than up."

In the editorial department, Mr. Kates fosters a spirit of cooperation. No one reporter is allowed to think he has a beat exclusively to himself. If some colleague picks up a story on some other reporter's beat, he is instructed to write it and turn it in.

Recently, Mr. Kates was transferred temporarily from the editorial to the business side of the Times-Union, and said he relished the experience.

"In my opinion, an editorial man gains a better understanding of his job from contact with the business men of his city," he declared. "I would advocate that all managing editors spend some time of their career in their newspaper's business office."

A native of Rochester, Mr. Kates has never worked in any other city. For about 20 years he was connected with the *Rochester Democrat & Chronicle,* holding various editorial positions. Then he became associated with the *Rochester Evening Times,* and was manager of that newspaper until it was consolidated with the *Rochester Union.* In addition to being managing editor, Mr. Kates is now also secretary of the Times-Union Company, and treasurer of the *Utica Observer-Dispatch* another Gannett newspaper.

SHANKLIN JOINS DENVER POST

News and Times M. E. to Assist F. G. Bonfils—Holmes Succeeds Him

William Shanklin, managing editor of the *Rocky Mountain News and Denver Times,* this week left the organization, with which he has been affiliated since it became a Shaffer interest, to become assistant publisher of the *Denver Post,* it was announced monday by F. G. Bonfils, owner and publisher of the Post.

Since the death of a little more than a year ago of H. H. Tammen, joint owner of the Post, Mr. Bonfils has been sole publisher. His responsibilities, growing too heavy, will now be divided with Shanklin.

Beginning his newspaper career in St. Louis, where he worked on the reportorial staffs and copy desks of all St. Louis papers, Shanklin was brought to Denver 14 years ago by Thomas Patterson, publisher of the famous old *Denver Republican.* On this paper Shanklin rose from reporter to city editor, going over to the News and Times when it was purchased by John C. Shaffer. He filled virtually all capacities on the Shaffer papers and more than three years ago was made managing editor of the Rocky Mountain News, a year and a half later being given the managing editorship of both the News and Times.

George Sanford Holmes, former assistant managing editor under Shanklin, has been made managing editor of the Shaffer papers in Denver.

A. P. COMMITTEE MEETS

No Statement Issued Following Regular New York Gathering

Members of the Associated Press executive committee met in New York headquarters, Dec. 1. As usual the sessions were private, and no statement was issued. Those attending were: Frank B. Noyes, *Washington Star,* and A. P. president; E. H. Butler, *Buffalo News,* first vice-president; Adolph S. Ochs, *New York Times;* B. H. Anthony, *New Bedford Standard;* Robert McLean, *Philadelphia Bulletin;* E. Lansing Ray, *St. Louis Globe-Democrat;* Clark Howell, *Atlanta Constitution;* Charles Hopkins Clark, *Hartford Courant;* and Elbert H. Baker, *Cleveland Plain Dealer.*

Those unable to be present were: C. P. J. Mooney, *Memphis Commercial Appeal,* second vice-president; H. V. Jones *Minneapolis Journal;* W. H. Cowles, *Spokane Spokesman-Review;* Frank P. MacLennan, *Topeka State Journal;* Frederick I. Thompson, *Birmingham Age Herald;* Stuart H. Perry, *Adrian* (Mich.) *Telegram & Times;* and J. R. Knowland, *Oakland* (Cal.) *Tribune.*

PRAISES PUBLICITY FIGHT

Buffalo Ad Men Told Editor & Publisher Campaign Is Getting Results

EDITOR & PUBLISHER'S campaign against press agent grafting of space is having results, members of the Greater Buffalo Advertising Club were told at a round table discussion by P. D. Fahnestock, director of publicity of the Buffalo Chamber of Commerce, and former newspaper man.

It was said a legitimate news item needs no press agent to gain it place in the modern newspaper, while the endeavor to gain free advertising space, no matter how disguised, seldom succeeds. Examples of space grafting exposed by EDITOR & PUBLISHER were used to illustrate the talk.

Peking Rioters Fire Newspaper Plant

Rioters, said in cable dispatches to be students, attacked and set fire to the plant of the Peking, China, newspaper, *Chen Pao,* Nov. 29, declaring they deemed it anti-Communist.

A. P. SQUELCHED PROPAGANDA

McKernon Tells of German Tampering with South American News

Edward McKernon, superintendent of the Eastern division of the Associated Press and formerly Boston correspondent, in a recent talk before the Boston City Club revealed how during the World War the name of the news association was used fraudulently to palm off on the South American newspapers fake news dispatches designed to arouse hostility toward the United States and create a pro-German sentiment.

"In 1917 the Germans began operating in Latin America a fake news association which they labeled 'La Prensa Asociada' which is the Spanish equivalent for the Associated Press," he declared. "They delivered daily dispatches under this caption to newspapers in South America. The dispatches purported to reflect public sentiment in the United States, a strongly pro-German sentiment. At the same time they included fake news stories and fictitious interviews designed to offend South Americans and create a hostile attitude toward this country."

He told how Kent Cooper, now general manager of the Associated Press, was sent to South America to investigate and how Mr. Cooper was successful in squelching the propaganda.

Caspar Herald Chiefs Injured

M. M. Levand and Sam H. Day, publisher and managing editor of the *Caspar* (Wyo.) *Herald,* were injured in an automobile accident Nov. 20. Both men are in the hospital.

CANADIAN PAPERS PRAISE NEW FORM OF CENSORSHIP IN LABOR DISPUTE

Protests Against Exclusion of News Men from Royal Commission Hearing Leads to Naming Canadian Press Man Official Reporter

By DAVID B. ROGERS

A UNIQUE scheme of press censorship is being tried out in Canada at the present time in connection with the enquiry which a Royal Commission is now conducting into the relations existing between the British Empire Steel Corporation and its employes. Freedom of expression is the dominant feature of the publicity arrangements instead of the muzzling effects which customarily accompany press censorship.

When Sir Andrew Rae Duncan led his Royal Commission into Cape Breton to investigate the coal mining industry there at the request of the Nova Scotian government, he entered one of the most grossly misrepresented industrial fields in the world—a district which had in turn been described throughout the country as "bursting with Bolshevism," "seething with Communism," "festering with exploitation," "prostituted with suffering," etc.

He entered a territory which had been choked with industrial strife almost continuously since the war, a territory which had heard the clash of armed intervention; which had seen the shedding of human blood and to which perpetual labor troubles had brought want and famine and suffering of the worst sort.

Both operators and workers alike had been blamed for the situation of industrial unrest and stagnation which existed in the Besco holdings. Sir Andrew was sent into this district to get "the truth." But in addition to "getting the truth" he was also faced with the problem of "telling the truth." The proceedings of Royal Commissions are fundamentally public, although private sittings may be instituted. But he was afraid that if the sittings of the commission were thrown wide open to the press the result, through inefficiency and lack of understanding rather than through design, would be badly garbled and erroneous reports, and out of this would come general public miscomprehension and condemnation.

To overcome this danger, it was agreed by representatives of both the operators and the workers, as well as by the members of the commission, that the press be excluded from all sittings of the commission and that instead a daily summary of the proceedings be prepared by a member of the commission's staff and handed out to the press on the strict understanding that they accept these "handouts" and make no other comment on the evidence.

This arrangement had the approval of both parties to the dispute and of the commission, but it did not have the approval of the press, notably the newspapers in Nova Scotia. It was tried out for a period of one week. The reporters on the assignment carried out their end of the agreement explicitly as did all other interests concerned but still the press in Nova Scotia was dissatisfied. The Nova Scotian newspapers felt that they were not getting "all the news," even though the reports given to them were absolutely unbiased and fair.

The result of this feeling of dissatisfaction was a new arrangement. It was decided to hand over the reportorial functions of the commission to an official representative of the dominion's great news gathering organization, the Canadian Press, and in future to allow this representative to handle all news reports in place of the commission's own man.

The man entrusted to this responsible task was Andrew Merkle, Atlantic superintendent of the Canadian Press. He was constituted the official reporter of the commission's doings, and since that time not a single murmur or protest or dissatisfaction has arisen.

Under the present arrangement the Canadian Press reporter hears all evidence and in addition has access to the stenographic record of proceedings from both of which sources he writes his story in complete freedom from any official oversight after which his story is passed upon with the utmost promptitude by the commissioners and to date has met with their approval to such an extent that the most harmonious cooperation has resulted and bids fair to continue.

No attempt has so far been made by either party to the investigation to even suggest that any evidence offered should not be published.

Representatives of the various interests concerned have been unstinting in their endorsement of the new scheme.

Nova Scotian public opinion is well summarized by the following featured editorial of the *Halifax Herald*: "The decision of the commissioners to agree to reports of this character is one that recognizes, not only public right, but the deep interest the people of the province and the dominion have in the inquiry. We can understand that what Sir Andrew Rae Duncan and his colleagues wished to guard against was publicity of an indiscriminate and perhaps a provocative nature. They have taken the proper course in placing the responsibility upon the independent news service, the Canadian Press that is representative of practically all Canadian dailies, and we are sure that their confidence will not be abused."

GRANITE GROUP VOTES $150,000 AD FUND

Larger Sum to Be Raised During 5-Year Period for National Copy, Producers Agree at Annual Convention

(*By Telegraph to* Editor & Publisher)

WASHINGTON, D. C., Dec. 3.—An intensive national advertising campaign backed by a fund of $150,000 is to be launched at once by the American Granite Association. This was decided upon at the last session of the annual convention of the Association held here this week. The representatives of the granite industry attending voted unanimously to inaugurate for the first time a big national advertising program extending over a five year period for the purpose of directing public attention into the important uses of granite.

The officers of the Association were authorized to raise the advertising fund among the members, no limit being fixed upon the amount. Declining to seek an assessment of the members, the officers decided upon a plan of voluntary contribution.

The decision to raise the fund was reached after a three days discussion, the keynote of which was that to reject the plan of the five year campaign meant "death" to the industry.

"If we reject this program, it will throw a wet blanket on the entire granite industry and the marble producers will hold a banquet in high glee at our failure to meet their competition," Lucian Holman of Cherrydale, Va., secretary-treasurer of the Association declared in urging its adoption. "It must be agreed that the granite industry is going backward and there is but one thing to do—that is, national advertising; we must tell our story of granite to the public."

S. Hollister Jackson, president, pleaded for a united campaign by the granite producers, in cooperation with the 6,000 retailers over the country, and predicted that the officers would be able to sell the advertising campaign program to each member.

B. C. Patch of Boston moved adoption of the program and presented a resolution which was adopted giving the directors full power to raise and expend money for the advertising. Merle Thorpe, editor of the *Nation's Business,* in addressing the convention, upheld the system of American industry, declaring it to be an institution of integrity and one which has the public confidence.

Mr. Thorpe strongly urged the granite industry to launch into the projected national advertising campaign, pointing out that a number of the national industries increased their business by 300 per cent within five years, through national advertising.

POLLOCK SUCCEEDS STEWART

Becomes Vice-President and Business Manager of Toledo News-Bee

James F. Pollock, on Dec. 14, will become vice-president and business manager of the *Toledo News-Bee,* succeeding the late William K. Stewart.

James F. Pollock

Mr. Pollock has been with the Scripps-Howard newspaper organization for more than 17 years in various executive capacities.

His most recent connection was that of director of sales of Allied Newspapers, Inc., the company which functions as national advertising representatives for the Scripps-Howard list of 24 evening newspapers of which the News-Bee is one of the oldest.

Mr. Pollock aided in the establishment of the *Washington Daily News,* tabloid. Prior to that assignment he was advertising manager of the *Cleveland Press.*

N. Y. Graphic Adds School Page

Under the title "Your Child and Your School," the *New York Evening Graphic,* Macfadden tabloid, this week started publishing a daily school page. The feature is conducted by Dr. Henry E. Hein, New York city high school principal.

For The Six Months Ending Sept. 30, 1925

the average net paid daily circulation of The Baltimore Sun (morning and evening issues) was

239,198

The average net paid per Sunday circulation of THE SUNDAY SUN for that period was 183,814 —a gain of 1,783.

"Florida's Most Important Newspaper"

Frank B. Shutts, Publisher

Greatest Circulation Week Days or Sunday in Miami and Lower East Coast Territory

EDITORIAL PAGE OF THE **EVENING JOURNAL** NEW YORK DECEMBER 3, 1925

Evening Journal Net Paid Circulation 682,313

Circulation Means Power. The Evening Journal Has Much More Than Double the Circulation of Any Other Evening Newspaper in New York

The average daily, *net paid*, circulation of the Evening Journal throughout November was

682,313

This interests the great family of Evening Journal readers, constantly GROWING. The greater the number of readers, the greater the influence and power for good combined in one reading group.

■ ■ ■

The Evening Journal circulation, steadily GROWING, interests business men, whose announcements through the Evening Journal cover and blanket Greater New York and the nearby suburbs.

The Evening Journal, selling an average of

682,313

daily at three cents, has far more than double the circulation of any one of its competitors in New York's evening newspaper field.

■ ■ ■

It is CIRCULATION THAT COUNTS. The influence of a newspaper, the power of its group of readers, and the intensity of service that a newspaper can render to the business community, advertisers, and others, depend upon circulation. There is no substitute for it. *"Nothing succeeds like circulation."*

"Comparisons are odious," especially to those that supply the SMALL circulation figures in the comparisons.

In all kindness, and with due respect for the achievements of our contemporaries and competitors, we call attention to certain DIFFERENCES.

There are three evening newspapers in New York City that may be said to count in the field of substantial circulations. They are the Evening World, the Sun and the Telegram.

For purposes of comparison, we take the circulation figures most recently supplied by each of these newspapers to the Government, and assume that increase in Evening Journal circulation has not meant loss of circulation to any one of its competitors.

To get the circulation of the Evening Journal, multiply the circulation of the Evening World by two and add 58,447.

Or multiply the circulation of the Evening Sun by two and add 169,845—then you have the EVENING JOURNAL circulation.

Or multiply the circulation of the Evening Telegram by THREE, add 83,615, then you have the circulation of the Evening Journal.

In other words, the circulation of the Evening Journal is 100 per cent greater than that of the Evening World, plus 58,447. It is 100 per cent greater than that of the Sun, plus 169,845; three times greater than that of the Evening Telegram, plus 83,615.

THAT IS WHAT YOU MIGHT CALL CIRCULATION SUPREMACY IN THE EVENING NEWSPAPER FIELD OF NEW YORK CITY.

■ ■ ■

But mere circulation figures do not tell the story completely or give to merchants the fact that interests them most.

There is no DUPLICATE circulation in the Evening Journal's daily net paid average of

682,313

Each line of space in a copy of the Evening Journal, purchased by a merchant, goes TO A DIFFERENT BUYER and to a different FAMILY.

In dealing with the Evening Journal you know that you deal on a daily average with 682,313 SEPARATE BUYING UNITS.

Every business man knows that newspapers, specializing, for instance, in Wall Street information, rather than in general human interests, are bought two or three at a time. That is DUPLICATE circulation and means WASTE IN ADVERTISING.

■ ■ ■

Every intelligent merchant knows that it is not wise to send three messages to the same address, but rather to spend money sending the same message TO THREE DIFFERENT ADDRESSES.

Every advertiser can easily learn for himself that the Evening Journal GOES HOME.

Let a business man assign a few clerks to the task of picking up newspapers dropped in the subways, surface cars and elevated railroads.

The clerks will come back with a collection of newspapers that have been bought, two or three at a time, to read the financial news and then dropped. The clerks will not bring back ANY Evening Journals, BECAUSE THEY GO HOME.

■ ■ ■

What the TOTAL reading family of the Evening Journal may be can, of course, only be guessed, it cannot be proved.

It is certain that a paper taken into the homes is read on the average by four members of a family. But put the average as low as three, and the number of Evening Journal readers exceeds 2,000,000.

One thing is certain, and NOT a matter of guesswork. For every one hundred evening newspapers sold in New York, MORE THAN FORTY ARE EVENING JOURNALS.

And the Evening Journal is growing. The circulation for every day in November, *net paid*, averaged 682,313, the average net paid daily circulation for the week ending last Saturday was

702,624

■ ■ ■

But this circulation does not satisfy the Evening Journal, it does not intend to remain content with it.

Those in charge of the mechanical, circulation and editorial departments intend that the Evening Journal, now more than 100 per cent ahead of any competitor, shall be more than 200 and 300 per cent ahead.

New plants are being built, more than one million dollars worth of new presses have been ordered for the exclusive use of the Evening Journal.

Meanwhile, to beat all your evening newspaper competitors by more than 100 per cent, is at least a START in the right direction.

BUREAUCRATIC SILENCE AND SECRECY HAMPERING WASHINGTON NEWS MEN

Correspondent Protests "Air Tight" Control of Department of Justice and General Attempt to Censor Even Most Unimportant News

By A. H. KIRCHHOFER

Washington Correspondent, *Buffalo Evening News*

EVERY little while when Mussolini perpetrates a new outrage upon the Italian press there are loud shrieks of disapproval from American newspapers and champions who believe that "freedom of the press" really should mean what it says.

While some of these are too preoccupied to note what is going on at home, violence is being done to principles that move hand in hand with freedom of the press and freedom of speech. This does not mean that governmental officials who have succeeded in bottling up every kind of information because they are opposed to divulging details which have been entrusted to them as servants of the people are attempting to restrict the editorial expression of the press, but they are—without any protest against the practice—establishing precedents of excessive secrecy in even the most trivial, casual and routine affairs that result in almost complete lack of information on certain important policies, as well as matters of lesser importance on which none but a small minded man could argue the public interest might be affected adversely if the facts honestly were made known.

In bygone days it was possible in Washington for good reporters to keep in touch with responsible subordinates in the various departments and thus get "background" on important matters and information on others which were of real public interest and importance, without, however, in any way upsetting the operation of the department. To a limited degree this still is done, but in recent years there has been such a great tendency on the part of "higher ups" absolutely to control all news announcements of any consequence that this method of obtaining reliable information has all but passed from practice.

During the regime of Charles Evans Hughes as Secretary of State, he instituted a censorship that was all but 100 per cent effective in preventing any State department matters becoming known, unless he or some immediate subordinate passed upon them. To a large degree this still is true today; but the fierce energy of Hughes no longer is back of the order, and so conditions are not nearly what they once were. When Mr. Hughes elected to make something public, it is true, he did it in such a lucid way that all points he desired to discuss were covered, but frequently, of course, the information most wanted by the press was not forthcoming. Subordinates who, without prejudice to the government's interests, would have been glad to supply the details with which they most intimately were acquainted refused to talk for fear of consequences. This fear is not a chimerical thing, because the appearance of a newspaper statement bearing directly upon a matter receiving the attention of officials in a given department easily could be traced to the man having it in charge.

Today the Department of Justice, under the iron hand of John Garibaldi Sargent, Vermont country lawyer, is Washington's outstanding example of bureaucratic control. The Department of Justice to a very large extent, so far as important news is concerned, is almost airtight. The attorney general's press conferences are ludicrous and if not a loss of his time, certainly are a waste of the reporters' time.

Few are the officials, be they high or low, at the Department of Justice, who, in view of the stringent orders that have gone forth under the seal of Mr. Sargent, will assume the risk of divulging information. Employees in the department for 20 or more years, who, during successive administrations were privileged to use their own judgment in giving to the press such matters as their discretion dictated, have been gagged and dare divulge nothing without reference to the office of the attorney general. Questions received there almost invariably are answered with the statement, "There is nothing to say."

This is not an argument for indiscriminate publicity. It must be clearly evident to any reasonable person that if the government is planning to bring an important law suit, it will not do to show its hand before the necessary legal steps have been taken, but in bottling up everything even the most routine matters the head of the Department of Justice seems to have established a system, which, while not denying the freedom of the press, to a large extent is in derogation of it. On a larger or smaller scale this also is true of other departments in Washington, but nowhere is the autocratic attitude of the head of a department better illustrated than in the Department of Justice.

To offer duty and conscience as an excuse for this course of action is very well, but in almost the same breath to make statements that insult the intelligence of the youngest reporter and indulge in misleading discussions may be all right from the standpoint of legal ethics, but let us hope that journalism, with all its faults, won't touch that stage.

Just by way of cheerful contrast, however, it may be pointed out that exactly the opposite policy prevails in the Commerce Department. Secretary Hoover believes in publicity and in the vast organization under his control this principal literally is carried out. Reporters still have access to the men doing things, who are acquainted with the intimate details which a department head, except on rare occasion, never can acquire. They are available to the press, and information on the subjects dealt with by the department is freely and honestly at the disposal of the press.

One of the great fears of these bureaucratic officials who insist upon approving all news, information, publicity, or whatever they consider the announcements which they authorize from time to time, is that snooping reporters, in touch with subordinates, will get material to write stories about differences of opinion, internal friction, etc. Such incidents, of course, often make more interesting reading than do other kinds of information that might be obtained from the same sources, but when all is said and done, the extent of these differences is very small, and if they are of any consequence, they become known sooner or later anyway, so that it is a poor, if not ill-advised, policy which leads an official—if that be the motive—to establish a censorship almost as rigid as that which the Italian dictator imposes upon information.

It does seem that the time has arrived when the press and its representatives should cease to accept as a matter of course this constantly growing tendency to restrict the information about the public business which the press demands not only for the purpose of obtaining and printing news, but also in the public interest. Some officials who are unable to make the distincton between matters of vital moment in which the public interest would be adversely affected if premature publicity were given, and those cases in which there is a legitimate news interest and should be made public as a matter of right to the public, and because no possible harm to the public interest could result from such publication, should be sharply rebuked by the press.

This is a problem in which the newspaper profession has a profound interest. Claims frequently are made that one newspaper is almost wholly like another. One of the reasons for this fact is that bureaucratic governmental officials have standardized information which they permit to become known. It then is dished out in canned form, so that only those details which seem to be of interest to the too often mediocre press agents are offered. Questions relating to these handouts are not answered on account of various fears by these very timid souls and the result too often is that the story in A's paper is just about like that in B's.

Under these circumstances, individual initiative in Washington can be maintained only at the expense of super-investment in dynamic energy, because it requires so much effort to break down these artificial barriers to get matters in which localities or particular papers are interested under the secret methods of such officials as the attorney general, that the effort seems futile, too great, or too costly in time consumed, before it is undertaken.

SOCIETY HITS FOREIGN LANGUAGE PRESS

Allied Patriotic Societies Asks Law Forcing Newspapers to Teach Patriotism and Do It in English

The Allied Patriotic Societies, meeting in New York this week, launched plans, which, if successful, will force foreign language newspapers in this country to print in English a half column in each issue on the Constitution, the history, or the government of the United States.

"There are 2,000 papers published in this country in foreign languages," declared Dwight Braman, president. "The attack our government under cover. Their influence is insidious. They are restricted by present laws only from publishing their blasphemous statements on envelopes or mailing wrappers."

Frank H. Kinnicutt of the American Defense Society read a bill that had been drafted to submit to Congress. It provided that the Commissioner of Education furnish the foreign papers with suitable material, that the paper publish both English and foreign language versions and that publications failing so to do be barred from the mails.

Following the objection of Hugh Adams, also of the American Defense Society, that the bill was "not strong enough, because a publication might print the fact that the material was contributed by the Government," the report of the bill was recommitted to the committee with the recommendation that Mr. Adams collaborate on it and that the committee then "confer with the Commissioners of Education and with such members of the House of Representatives and the Senate as show their interest."

The Rev. Joseph P. McComus of St. Paul's Chapel then counseled the representatives not to "annoy foreigners on our shores too much. We of the old stock have our faults," he said.

THE ONLY REPUBLICAN DAILY IN NORTHEASTERN IOWA

ESTABLISHED 1856

DUBUQUE, IOWA

Nov. 11, 1925.

Mr. C. N. Landon, Art Director,
NEA Service, Inc.,
Cleveland, Ohio.

Dear Sir:

We are planning to drop the one feature on our daily page of comics that is not an NEA feature.

In its place we wish to start "Boots and Her Buddies".

We were struck very forcibly by the exceptionally good introductory strip for "Mom'n Pop" that you prepared for the La Crosse Tribune, and are hoping that something similar can be prepared for us for introducing "Boots and Her Buddies" to our readers.

NEA Service comics are going over big for the Times-Journal. This is true of the daily page, and very much so of the four-page section in colors that we issue with our Sunday edition.

Very truly yours,

DUBUQUE TIMES-JOURNAL

SHOPPERS NEWS STARTS IN NEW YORK CITY

Weekly Tabloid Carries Store News and Advertisements—Promises to Maintain "Free Service Bureaus"—Does Not Aspire to Daily Field

The *Shoppers News,* a weekly tabloid carrying store news and advertisements, has started publication in New York City. It is published by the Baudy Publishing Company, Inc., of which Royal A. Baudy is president and C. W. de Sambourg, secretary.

With its first issue the following policy was announced:

"The Shoppers News, making its first appearance with this issue, and to be published weekly hereafter, is published solely in the interests of the woman shopper. Its purpose is to acquaint its readers with the best values offered by the leading merchants, giving particular attention to all special offerings made by these merchants.

"Various merchants will set aside certain days each week when unusual price concessions wil be made, and the Shoppers News will endeavor to keep fully informed on all these offerings and place such information at the disposal of its readers.

"The Shoppers News will, in every way possible, protect its readers by accepting advertisements from reputable firms only, firms of standing whose reputations are unquestioned and who sell dependable merchandise that is actually underpriced when so advertised. It reserves the right to reject any advertisement found to be untruthful or misleading, and business is solicited only from representative merchants of established responsibility and integrity.

"The Shoppers News will maintain, without cost to its readers, free service bureaus, devoted to shopping, theatrical and general city information.

"The Shoppers News will at all times co-operate with both the shopper and the merchant for the mutual protection and best interests of both."

In an editorial captioned "To Our Friends, the Daily Press," the new weekly declares it does not aspire to enter the daily field.

"It fully appreciates that New York is well supplied with real newspapers and it fully realizes that if bigger or better newspapers are demanded, if such is possible, that the New York publishers will produce them," it states.

STRACHEY'S FAREWELL

Editor of London Spectator Returns Home Warm Admirer of U. S.

J. St. Loe Strachey, for 30 years editor of the *London Spectator,* returned to England this week, a warm admirer of the United States. He said as much in a farewell address from Station WRNY, New York, before he sailed Dec. 2.

Mr. Strachey sold the Spectator last summer to Evelyn Wrench. News of the deal became known this week.

"I cannot leave America," he said in his radio talk, "after my seven weeks' visit without a few words of thanks to the most courteous, most genial and most friendly of hosts."

NEW SUNDAY PAPER

Cumberland (Md.) Evening Times Adding Sunday Issue Dec. 6

Western Maryland will have its first Sunday newspaper Dec. 6, when the *Cumberland Evening Times* will begin the publication of a Sunday morning edition.

Joseph B. Finan, editor and publisher, was in New York this week completing arrangements for the Sunday issue, which will carry the leased wire report of the International News Service, eight pages of colored comics, a magazine section, special radio and automobile sections.

The Sunday Times will be delivered to subscribers without additional charge and will sell on the streets at 5 cents a copy.

The Times is represented nationally by the Devine-MacQuoid Company, Inc.

HARVARD AD AWARD JURY NAMED

H. J. Allen, Bruce Barton, Stanley Resor and C. K. Woodbridge Among Those Picked to Choose Year's Best Ads

The Jury of Award for the Harvard Advertising Awards, founded in 1923 by Edward W. Bok, was appointed on Monday of this week by Dean Wallace B. Donham of the Harvard Business School, to make the awards for the current year.

Those who will serve are: Henry J. Allen, owner and publisher of the *Wichita Beacon;* Bruce Barton, of Barton, Durstine & Osborn, advertising agency of New York; Neil H. Borden, assistant professor of advertising, Harvard Business School; M. T. Copeland, professor of marketing, Harvard Business School; Mac Martin, president, Mac Martin Advertising Agency, Minneapolis; Malcolm Muir, vice-president and chairman of the advertising board, McGraw-Hill Company, New York; Stanley Resor, president, J. Walter Thompson Company, New York; Tim Thrift, advertising manager, American Multigraph Sales Company, Cleveland; and C. K. Woodbridge, president, Associated Advertising Clubs of the World, and president, Dictaphone Corporation of New York. In accepting appointment to the Jury, these men and the firms which they represent are debarred from the competition.

The prizes to be awarded are as follows: a gold medal to the individual or organization meriting recognition for distinguished contemporary services to advertising; two prizes of two thousand dollars each, one for a national campaign, the other for a local campaign; two thousand dollars for the advertising research of the year conspicuous either for securing economy or efficiency in advertising, or for reducing or precluding unwise expenditure in a specific advertising program; three prizes of one thousand dollars each for the advertisement most effective in text, most effective in use of pictorial illustration, and most effective in combination of both text and illustration. The competition closes Dec. 31.

Japanese News Agency Celebrates

The Nippon Dempo Tsushin Sha, Japanese telegraph news agency, celebrated its 25th anniversary recently, with more than 1,000 attending informal ceremonies held at a Tokio hotel. The agency was established in 1901 by Mr. Mitsunaga, its present president. Relations were established with the United Press Associations of this country 18 years ago. The present network of communications spreads throughout Japan, its colonies, and all over China and Manchuria.

FLORIDA

Sunshine City's Largest Circulation

The DAILY NEWS, St. Petersburg's *Picture Paper,* has the largest circulation in the Sunshine City.

The DAILY NEWS was started on March sixteenth last. Its circulation is growing daily . . . On October tenth it reached fifteen thousand, without the aid of any circulation campaign.

It carries the flag of progressive newspaper achievement in Western Florida. *Everybody reads the NEWS.* Any bank reference.

HEARST ISSUES BONDS ON N. Y. JOURNAL

Proceeds of $15,000,000 Will Finance New Buildings and Repay Journal for Other Investments

A new Hearst bond issue was put on the market this week by S. W. Straus & Co., New York, consisting of $15,000,000 first mortgage and collateral 6½ per cent bonds of the *New York Evening Journal,* Inc.

The proceeds will be used to erect and equip buildings to house all the Hearst publications in New York City and also to reimburse the company for amounts expended in the purchase of the *Rochester Journal* and *Post-Express,* the *Rochester American* the *Syracuse Journal and Telegram* and the *Syracuse American.*

The total assets of the New York Evening Journal, Inc., are listed in the announcement of the bond offering at $29,000,000, of which real estate is reported at $14,000,000.

Four buildings are planned, with the largest a 7-story structure, at 54th and 55th streets, to house the New York American and magazines. A 4-story plant for the Journal will be erected between South and Water streets, Market street and Catharine Slip. A third unit for printing the Harlem and Bronx editions of the American and Journal will be built on East 149th street, two-stories high. Another two-story tax-payer is scheduled for Columbus Circle.

ADDRESS LIBRARIANS

Three Newspaper Men Speak at N. Y. Special Libraries Meeting

Three newspaper men spoke before the meeting of the New York Special Libraries Association held in New York Dec. 1.

Speakers were: Louis Wiley, business manager, *New York Times;* William Olcott, *Boston Globe;* and James Melvin Lee, director of the School of Journalism, New York University.

GEORGE AUTHIER RESIGNS

Leaves New York World to Head Foreign Affairs News Service

George Authier, has resigned as a member of the *New York World* staff at the National Capital to assume charge of the Foreign Affairs News Service of Washington. Authier, a former president of the National Press Club, started his newspaper career in Iowa where he was political writer for the *Des Moines Register and Leader.*

George Authier

He later became city editor, then political editor, of the *Minneapolis Tribune,* first coming to Washington as the Tribune's correspondent.

Ad Bureau Names Dinner Committee

Members of the committee to arrange for the annual dinner of the Bureau of Advertising of the American Newspaper Publishers' Association to be held in New York in April 1926, were announced this week, as follows: E. W. Parsons, this week as follows: E. W. Parsons, *Chicago Tribune,* chairman; David B. Plum, *Troy Record;* Howard Davis, *New York Herald Tribune;* Charles D. Atkinson, *Atlanta Journal;* E. P. Adler, *Davenport Times;* and J. F. Finley of the Six Point League of New York. J. J. E. Hessey, of the New York office of the Chicago Tribune, will be committee secretary.

ALBANY KNICKERBOCKER PRESS-NEWS TO BUILD NEW MODERN HOME

ALBANY, N. Y., Dec. 1—The Press Company, publisher of the *Albany Knickerbocker Press and Evening News,* today announced the purchase of a building site in Eagle street, between the state capitol and the executive mansion, and its plans for the erection of a modern, three-story home for its publications. The site is now occupied by the Albany Medical College building, a century old, and the oldest medical school in the country. The Press company will take over the property July 1 and begin the construction of the new building, covering the entire frontage of 150 feet in Eagle street and a depth of 100 feet in Jay and Lancaster streets. More than 50,000 feet of floor space will be provided in the initial unit of the structure, which is designed to admit of future expansion in additional stories.

Detailed suggestions by experts in the several branches of the modern newspaper have been synchronized and coordinated by Lynn J. Arnold, president of the Press company, and its executive heads and reduced to building requirements by Marcus T. Reynolds, architect, to conform with the present and future needs of the Press publications.

While full details have not yet been developed, the ground floor will house the press rooms, business offices and circulation department. A mezzanine mailing room will be connected with the press room on one side and an enclosed loading platform on the Jay street side. The second floor will be shared by the editorial and advertising departments and executive offices. The third floor will include the composing rooms, photo engraving plant, photographic studio and dark rooms. Sound proof construction is to mark the building throughout.

The latest proven devices in rapid movement of the component parts of the newspaper and the finished product are to be installed. In general the plan of the entire plant operation is what is known as a left to right movement. Raw product intake is to be on the Lancaster street side and the movement of the finished product from the Jay street side.

The Knickerbocker Press, morning, is 83 years old, but its predecessors go back to the colonial days of 150 years ago. Hugh Hastings, a protege of Thurlow Weed and William H. Stewart, was the founder of the *Knickerbocker* in 1842. In 1879 the *Daily Press* was consolidated with the Knickerbocker under the name of the *Press and Knickerbocker* and soon after the *Express* was joined to it under the name of *Press-Knickerbocker-Express.*

It was published in this form until 1910 when it was purchased by the late Judge Lynn J. Arnold of Cooperstown and the name changed to The Knickerbocker Press. In 1921, the *Argus,* an age-long competitor was purchased by the Press company and in 1922 the publication of the evening edition, *Albany Evening News,* was started.

Less than a year ago the *Albany Evening Journal* was purchased.

NEW FLORIDA SUNDAY PAPER

St. Augustine Record Dropping Saturday Issue—Buys New Press

The *St. Augustine* (Fla.) *Evening Record* on Sunday, Dec. 6, will begin publication of a Sunday edition using Associated Press Saturday night service, Herbert Felkel, vice-president and general manager, has announced. The Saturday edition will be discontinued.

Comics and features carried in the week-day edition will appear in the Sunday paper, and in addition there will be a Sunday magazine section, real estate section, and special church news. There will be no price increase.

Mr. Felkel also announced the purchase of a new Duplex tubular unit-type press, which is expected to be installed before the first of the year. A complete stereotype plant has also been purchased. An auxiliary color fountain will allow color printing.

If conditions demand it, a tabloid paper can be printed on the press with the adjustment of the automatic folders, Mr. Felkel said.

SHOW BUYS DISPLAY ADS

"Abie's Irish Rose" Starts Large Scale Campaign

"Abie's Irish Rose," Anne Nichols' play, has become an American product, as salable as Ford cars, Campbell's soups, or Shredded Wheat, and will henceforth be advertised accordingly.

Working on this supposition, William de Liguemare, general manager, has reduced the play's advertising in the New York amusement columns to a minimum, and this week started purchasing display space. The same course will be followed wherever the five companies now on the road play, the manager said.

Last Sunday in the *New York Herald Tribune* an "Abie" display ad appeared on page 3 of the first news section. The space was 195 lines (65 lines across three columns), with the cost for the single insertion $477.75. Last week the *Sunday Times* carried an "Abie" ad on page 2 of its news section with the space not quite as large.

National advertising for a single show has never before been tried, since the drama cannot be continuously sold.

NORTH CAROLINA PRESS GROUP REORGANIZED

Afternoon Dailies Resume Co-operation in News Gathering and in Advertising Efforts—Ridge, Greensboro Record, Named President

The North Carolina Association of Afternoon Newspapers was reorganized at a meeting held at Greensboro, N. C., Nov. 29, and Edney Ridge, publisher of the *Greensboro Daily Record* was elected president. W. C. Dowd, Jr., *Charlotte News,* was named secretary-treasurer.

Purposes of the organization are to cooperate in improving the State news service for afternoon newspapers and to promote closer co-operation among such papers; to establish and maintain at Raleigh an afternoon news bureau for gathering and dissemination of news among the members and to promote advertising arrangements through afternoon newspapers.

J. L. Horne, Jr., *Rocky Mount Telegram* and *Wilmington Dispatch;* Rufus Shore, *Twin City Sentinel,* W. C. Dowd, Jr., Charlotte News, and J. D. Gold, *Wilson Times,* were constituted a committee to further perfect the organization and base of operations.

Such an association existed in the State about 15 years ago, and the reorganization was in response to a widely disseminated demand for such an association.

Changes to Financial Field

The *Buffalo Evening Post* will change character on Dec. 7, according to an editorial announcement of the publisher, Richard Coley. After that date the paper will be a financial journal, patterned somewhat after the *Wall Street Journal.* The present news services will be continued and a United Press financial wire will be added.

You've Been Wanting a *Real* Newspaper in Florida

Where the Sun Shines Every Day

HERE IT IS:

A high-class Florida daily and Sunday newspaper property, old established, meeting every requirement in the way of large business, complete mechanical equipment, good will of its patrons and highly desirable field, on the market for a very short time, because of private, family conditions. In section of the Sunshine State having largest increase in business and population. City is most desirable in state to live in, and climate is not equalled in entire world. The choice spot of the country for residence and a highly profitable business that is ever growing and will continue to grow from year to year. Will require $200,000 cash to swing. Unless you have that amount or sufficient backing, save stamps.

This ad will appear but once and someone will buy a fine property about $100,000 below the market and its worth.

BAKING POWDER FIRMS TO END FIGHT TRADE BOARD OFFICIALS BELIEVE

Charges by Royal and Calumet Companies Have Vexed Newspapers for Years—Special Report Now Before Commission

By BART CAMPBELL

WASHINGTON, Dec. 2—The long-standing controversy between the Royal Baking Powder Company and the Calumet Baking Powder Company is believed to be on the verge of a settlement before the Federal Trade Commission.

The anticipated settlement is expected to be based upon a special examiner's report which has just been received by Millard F. Hudson, chief examiner for the Commission, and in turn submitted by him to William H. Fuller, chief counsel, and W. T. Kelley, assistant chief counsel, for the Commission.

Under the secrecy imposed by the non-publicity rules adopted by the Commission earlier in the year, a copy of the report was withheld from EDITOR & PUBLISHER, but it was ascertained definitely that the report is regarded by officials of the Commission who have read it as almost certain to terminate the Royal-Calumet dispute in the immediate future.

According to the procedure established by the Commission, its counsel and counsel for the rival baking powder companies will probably soon get together, and arrange for their joint appearance before the Commission. The report will then be submitted formally to the Commission and counsel for all sides will thresh the matter out.

If the expected submission of the case by counsel for all sides is satisfactory to the Commission, which is considered now probable, the controversy will end there, and pass from the jurisdiction of the Commission.

It is understood that counsel for both the Royal and Calumet companies have virtually agreed upon the report as a basis for amicable settlement.

In its answer to the Federal Trade Commission complaint charging it with "using unfair methods of competition in interstate commerce" the Calumet company denied specifically "each and every material allegation," filed against it and asserted that the Royal company "for many years last past and at the present time, by means of house-to-house demonstrators and by advertising circulars and cook books, has charged, alleged, and asserted, and does so charge, allege and assert numerous false, misleading and unfair statements in disparagement of respondent's (Calumet's) baking powder and the ingredients thereof.

"Among such false, misleading and unfair statements are substantially the following:

"1. That Calumet baking powder is poisonous.

"2. That Calumet baking powder contains alum which shrivels up the tissues of the stomach just as lump alum shrivels up the tongue.

"3. That Calumet baking powder contains alum which is poison.

"4. That the sale of Calumet baking powder is prohibited in many States.

"5. That Royal baking powder is made with cream of tartar, derived from grapes, and is pure, but that Calumet is made with alum, a mineral poison, and phosphate, made from burned bones."

The Calumet company on the other hand was charged in the complaint issued by the Commission with having caused "advertisements to be inserted in magazines, trade journals, newspapers and other publications of general circulation in the United States, in all of which literature and advertisements respondent has caused to set forth statements and innuendoes untruthfully and unfairly representing that said competitor, Royal Baking Powder Company, packs its said Royal Baking Powder in six and twelve ounce cans instead of one-half pound and pound cans for the purpose of cheating the public by passing off and causing the trade to pass off said six and twelve ounce cans as and for one-half pound and pound cans, respectively." . . . .

Newspapers have been besought for many years by the Calumet Company to refuse Royal copy which by implication disparaged the Calumet brand.

SEESTED VS. BONFILS

Three Year Old Libel Suit Goes on Trial Dec. 7

The case of Frank C. Seested, circulation manager of the *Kansas City Star* versus F. G. Bonfils, owner and publisher of the *Denver Post* and former owner and publisher of the *Kansas City Post*, will be brought to trial Monday, Dec. 7, in the United States District Court at Denver after more than three years delay.

Six hundred thousand dollars damages—$100,000 actual and $500,000 punitive—are asked.

Growing out of a complaint filed March 25, 1922, the suit is over an alleged libelous editorial published in the Kansas City Post in which Seested and his brother, August F. Seested, general manager of the Star, were in effect described, it is said, as traitors to this country during the World War.

The complaint contends that the article was printed "for the purpose of bringing the Seesteds into public hatred," and it is alleged connected them in the public mind with Von Papen, Von Bernstorff and Von Igel, all mentioned as enemies of the United States.

Plaintiff further contends that the Post account libelously stated that information had been uncovered of a $37,000 contribution to Imperial German war funds by the Seesteds.

The editorial on which the suit is based appeared in the Post in November, 1921. A trial in January, 1924, of one of the suits filed following the appearance of the editorial resulted in a hung jury.

EDITING PAPER FROM JAIL

Eureka, Cal., Editor Denied Release from Contempt Sentence

So far as the supreme court of California is concerned, Alfred Lindsley will continue to edit his newspaper, the *Eureka Humboldt News* from a cell at the Humboldt County jail.

Efforts to obtain his release, on a writ of habeas corpus, from the prison to which he was committed upon sentence of 1,000 days for contempt, failed when the supreme court denied his application.

In refusing the writ the court held that the right of free speech, upon which Lindsley based his claim for liberty, did not apply to criticism of matters before a court "which might tend to defeat the cause of justice."

The controversy began when Lindsley, through his paper attacked the action of two prohibition agents in a raid. The agents sued him for libel and during the course of the trial Lindsley published articles which the court held were contemptuous.

While serving his term in the county jail Lindsley continues to personally supervise the editing of his paper through a corps of messenger boys.

PLAY PRODUCER TRIES "PUBLIC CRITICS"

Dissatisfied with Newspaper Reviews, Kober Asks Audience to Discuss Play with Author—Hopes to Learn What Public Wants

Dissatisfied with reviews in New York newspapers, Arthur Kober, manager of "Me," new play at the Princess Theatre, New York, this week announced a theatrical innovation. He would, he said, invite audiences to remain after the show and discuss the play with the author in an attempt to find out what the public wants.

In a letter to New York dramatic critics, Mr. Kober said in part:

"The only criticism of a play of which a management becomes cognizant is that written by the professional newspaper reviewers. The opinion of the latter is to a great extent a specialized viewpoint, due partly to the fact that they see an exceptionally large number of plays, that they are frequently influenced at the same time by their own taste and by what they believe is the public's taste, and that they themselves are professional writers, possessed of an insight into literary technic that is owned by few.

"What the public itself thinks is always a matter of conjecture, as is evidenced by the number of plays that fail despite favorable newspaper reviews and that succeed in the face of adverse criticism.

"It is my opinion that direct constructive criticism from an audience would be welcomed and acted upon by any management, and I shall act upon this belief."

ONE OF A SERIES

Letters That Speak for Themselves!

THE WASHINGTON HERALD AND TIMES
Washington, D. C.

I believe The Washington Times is listed among the "charter members" of your Bureau; at any rate, if an ordinarily good memory serves me, I first ordered the service in 1920. We didn't "join-up" the first time we were asked and I know, frankly, that I was a bit—quite a bit skeptical—about whether it would function as promised.

We signed up for a probationary period and—never mind the details—have been on ever since. When we acquired The Washington Herald by purchase in 1922, the service was extended to include that paper also. If I had been receiving a commission from your Bureau for obtaining new subscribers I could scarcely have worked harder in trying to convince other publishers and advertising managers with whom I am acquainted of its advantages.

Most testimonials wind up by stating that it "wasn't solicited." This *was* but I am glad to give it. The Bureau has more than proved itself and if more publishers really knew of its efficiency and economy, there would be fewer gray hairs traceable to "the checking copy problem" which hasn't existed in this office at least since 1920.

Yours very truly,
A. R. R. ONYUN, Manager, Foreign Advertising.

SCHOLAR'S CULTURE CAN BE BROUGHT TO LOWLIEST NEWS STORY

So Glenn Frank Tells School Editors in Discussing Journalism As a Career—Says Headlines Form Public Opinion—Gives Four Rules for Good Journalists

"JOURNALISM is the highest form of literature because all the highest literature is journalism—journalism is not cheap and shoddy unless in the hands of cheap and shoddy journalists," said President Glenn Frank, of the University of Wisconsin, in addressing the Central Interscholastic Press Association, Friday, Nov. 27.

Dr. Frank lauded journalism, speaking from seven years experience in the field.

"I have had at least a limited experience in both the amateur journalism of college days and the professional journalism of after-college days," he said. "I want to talk to you for a few minutes out of both of these experiences.

"Out of my experience as an amateur journalist I can tell you that it is not wise to tamper with journalism in your youth unless you want it to haunt you for the rest of your days. The smell of printer's ink is seductive. There is a drug-like something about journalism. It is habit-forming. I know this from experience, so I venture to assume that many of you who are now high school editors will at least have a try at journalism as a career. The siren clatter of typewriter and printing press has sounded in your ears, and many of you will not be happy until you have discovered by experience either that you can or that you cannot make a satisfactory career in journalism.

"No words of mine can adequately describe the durable satisfactions that journalism brings to the man who is fitted for it by talent and by training. Journalism is a sort of secular priesthood in which a man may deal directly with the mind and spirit of his time. Journalism calls for the best a man may have of mind and of morals, of course, and of creativeness. And don't allow anyone to convince you that journalism must be a cheap and shoddy thing because it deals with the ephemeral happenings of the day; don't fall into the shallow snobbery that the man of letters sometimes displays toward the man of journalism. Bernard Shaw, after you have made due allowance for his well-known technique of exaggeration, was very near the truth when he said:

" 'Journalism is the highest form of literature; for all the highest literature is journalism. The writer who aims at producing the platitudes which are not for an age but for all time has his reward in being unreadable in all ages; whilst Plato and Aristophanes trying to knock some sense into the Athens of their day, Shakespeare peopling that same Athens with Elizabethan merchanics and Warwickshire hunts, Ibsen photographing the local doctors and vestrymen of a Norwegian parish, Carpaccio painting the life of St. Ursula exactly as if she were a lady living in the next street to him, are still alive and at home everywhere among the dust and ashes of thousands of academic, punctilious, archæologically correct men of letters and art who spent their lives haughtily avoiding the journalist's vulgar obsession with the ephemeral.'

"Journalism is not cheap and shoddy save in the hands of cheap and shoddy journalists. To the job of reporting, for the yellowest of the yellow press you can bring the scholar's culture, the scientist's accuracy, and the poet's beauty, provided only that you achieve a writing technique that makes what you write simple and clear and intelligible to the man in the street. And making things intelligible to the man in the street does not mean writing down to him; it means becoming a better writer. There is nothing shoddy about making intelligence intelligible. Much that passes for 'deep' thought is only 'muddy' writing. There is no reason why culture should speak a private language that none save the initiated can understand. There is no reason why accuracy should be unreadable. There is no reason why beauty should be walled about by an absurd vocabulary that ordinary mortals cannot penetrate. An idea that cannot be written out clearly has not been thought out clearly.

"I am saying this in the hope that if you enter journalism you will not enter

Glenn Frank

it thinking that you have to throw overboard the fine fruits of culture, the exalted ideal of accuracy, and a sensitiveness to the beautiful. The more you can bring to journalism the better, if you will meet journalism's challenge to simplicity and clearness.

"Any way you look at it, journalism is a great adventure. But don't enter journalism with too many illusions. At the very time when journalism is becoming more and more a profession in the class room, it is becoming more and more a business in the newspaper and magazine offices. I do not quarrel with this fact; I simply report it. The businesslike organization of journalism is inevitable. In this day of sky-rocketing costs it is next to impossible for a man to start a paper on a shoestring and become a great editor-publisher. It is the day of the newspaper and magazine magnate, and you will probably have to adjust your careers to that fact. It is only the occasional editor who can stand outside the shadow of the publisher. There are handsome prizes for handsome talents in modern journalism, but unless you have it in you to become one of the really great journalists, you must look forward to a career as the salaried servant of a vast and increasingly impersonal organization. It would be dishonest for me to say less than this. But this should not mean undue discouragement to you, because most of modern life is being shifted to the basis of vast and impersonal organization. You will not escape the thralldom of the machine by choosing another profession.

"If you rise above the ranks in journalism, you will find yourself in the most fascinating, the most challenging, the most varied, the most satisfying career that modern life has to offer; and even if you stay forever in the ranks of the routineers of journalism, you will have the satisfaction of knowing that you will exert a more effective influence upon the life of your time than any other routineer in any other profession. When you stop to think how few people read beyond the headlines and how much of public opinion is made by headlines, you begin to realize the enormous influence exerted by the journalist who sits at a desk and writes the headlines. When you stop to think how many people never read anything but the daily paper, you begin to realize the social importance of accurate reporting. I said in the beginning that journalism is a sort of secular priesthood, and I want to emphasize the fact that the reporter on assignment and the man at the copy desk belong to this priesthood no less than the super-brilliant writer who hurls his thunderbolts from the editorial page. In fact, the good reporter is a more important factor in the opinion of his time than the good editorial writer.

"With my eyes fully open to the hazards and the heartaches that go along with a journalistic career for those who do not rise greatly above the rank and file, I must still say that I do not know another profession in which a man can so nearly satisfy his thirst for adventure in an increasingly standardized world as he can in journalism. I suggest four propositions which I think will help to make you good for journalists.

"First, don't under-estimate the intelligence of your readers. Do not make the mistake of ironing the whole reading public out into a mythical 'average reader' who does not exist, never has existed, and never will exist. Spend less time speculating about writing over the heads of your readers or writing down to you readers, and spend more time finding o what is going on inside the heads of you readers. Do not begin with the assum tion that the American mind may tickled, but must not be challenged.

"Second, don't over-estimate the info mation of your readers. William Ha litt sugested that it is always safe to a sume anew each morning the world's i norance. The low-brow journalist ma often under-estimate the intelligence his readers; but the high-brow journa ist very often over-estimates the inform tion of his readers. Assume that yo readers are intelligent, but don't assun that they have very much detailed know edge about the thing your are discussir or reporting.

"Third, spend as much time thinkir about your readers' interests as you about interesting your readers. Th temptation of journalism is to think mo about capturing the reader's 'interest' tha about discovering and discussing th reader's 'interests.' The first makes jour alism primarily a psychological problem the second makes journalism a soci problem. The editor who is primari concerned with capturing the reader's i terest is likely to become a mere mercha of sensations; the editor who is reall concerned with his readers' interests ma become a social statesman.

"Fourth, write in the vernacular, don't mean; be low-brow. Sloppy slan is not vernacular. Foggy jargon is n vernacular. By and large, low-bro journalism is intelligible to more peop than high-brow journalism. But th rank and file of readers no more tal in the language of many popular articl than they talk in the language the self-conscious and over-sophisticate high-brow writers. Popular journalis could, I think, be just as popular if dispensed with the artificial chummine that so often characterized it, and ce tainly high-brow journalism would more popular if it were translated int English, into the simple and vigorou speech that the ordinary intelligent reade uses."

Selling Results to Advertisers

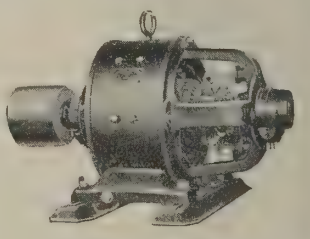
Because advertising space is only a means to an end, this paper maintains the closest possible contact with every sales campaign in the rich Dallas trade territory, doing all it can to help get MAXIMUM RESULTS.

Scores of appreciative national advertisers have praised the work of The News' Trade Survey and Merchandising Department. Let us tell you about it.

The Dallas Morning News

"Specializing in Printing Press Equipment for 25 Years"

Equipping printing and publishing plants with motor and control apparatus isn't just a part of our job. It's not a side line with us. Not an off-shoot from some other kind of manufacturing. *It's our whole job.* All we do.



CLINE

Twenty-five years of specialized experience in printing press control engineering

For 25 years we have done nothing else but design, manufacture, improve, and perfect equipment for the printing trades—with a corp of engineers specializing on this one thing, men who have devoted all these years to acquiring a complete understanding of theneedsofprinters and publishers.

Take advantage or this experience by standardizing on Cline-Westinghouse equipment.

Write for descriptive pamphlet and list of newspa er and printing plants which are Cline-Westinghouse equipped

OREGONIAN'S DIAMOND JUBILEE

Portland Daily Entertains Pioneers At Anniversary Banquet—Original Ramage Hand Presses On Exhibition

PORTLAND, Ore., Dec. 4.—The *Portland Oregonian,* oldest newspaper of metropolitan size west of the Rocky Mountains, celebrated its 75th anniversary on Dec. 4. The Oregonian was founded as a weekly on that date in 1850, and was changed to a daily on Feb. 4, 1861. It has been printed continuously without interruption since the first weekly issue was distributed in the pioneer village of Portland.

EDGAR B. PIPER

Not only is the Oregonian the oldest newspaper in the west but in the greater part of that area it is the oldest commercial institution of any character now active which was in existence in 1850, when the Oregonian was established. This has been ascertained by considerable research on the part of the Oregonian. Several educational institutions and two Masonic lodges alone antedate the newspaper in the original Oregon country which included all of the vast area now known as the Pacific northwest.

A special jubilee edition was issued from which all advertising was excluded, except in the regular news section.

As a novel feature of its celebration the Oregonian gathered together as many as possible of its subscribers of long standing. An invitation brought replies from some who had subscribed for the newspaper continuously for 50 years or more. All of these, as well as all members of the Oregon Pioneer Society and the Sons and Daughters of Oregon Pioneers, were invited by the Oregonian to be its guests at the Portland municipal Auditorium on Dec. 4. Several thousand accepted, probably the largest group of pioneers of the Pacific Northwest assembled in recent years.

The oldest subscriber proved to be Penumbra Kelly, a resident of Portland. He had read the newspaper continuously since the first issue was printed 75 years ago.

The birthday program included a dinner attended by these pioneer residents and a special showing of the film, "The Covered Wagon," selected as of particular interest because most of those who witnessed it on this occasion crossed from the East to the Pacific Coast by ox team. There was also a program open to the general public. Edgar B. Piper, editor, presided. The principal address was delivered by Dr. Edmond S. Meany, professor of history at the University of Washington. Song leaders also helped to bring back the days of long ago by conducting the audience in the singing of "Oh, Susannah" and other melodies popular in the fifties. The program was broadcast over KGW, the Oregonian's radio station.

The entire personnel of the Oregonian numbering about 500 attended the dinner. Many editors and publishers of other newspapers in Oregon and Washington were also present.

The first press used by the Oregonian also played a part in the anniversary celebration. It is an old Ramage hand press that has been preserved in the museum of the University of Washington. That institution lent it to the Oregonian and it was shipped to Portland. A replica of its first issue was printed and distributed.

The Oregonian was established in 1850 through the initiative of W. W. Chapman and Stephen Coffin, who made a trip to San Francisco to obtain a press and procured there also the services of Thomas J. Dryer, the first editor. In November, 1853, Henry L. Pittock started work on the Oregonian as a boy apprentice. In 1860 he acquired title to it from Dryer and owned a controlling interest in it up to the time of his death in 1919, one of the longest records of continuous ownership of one newspaper.

After Mr. Dryer came several editors, including Harvey W. Scott, who filled the position for 40 years, up to the time of his death in 1910. He was succeeded by Edgar B. Piper, who had been managing editor and before that city editor, and who is still the editorial head. The management of the paper is in the hands of C. A. Morden who had long been Mr. Pittock's chief assistant. Mr. Morden's position on the Oregonian, as well as Mr. Piper's was provided for in the will of Mr. Pittock who left the Oregonian and other extensive properties in a 20 year trust, with Mr. Morden and O. L. Price as the trustees.

MAYOR WINS $750 DAMAGES

C. L. Zoll Gets Libel Award Against Richmond Times-Dispatch

(By Telegraph to EDITOR & PUBLISHER*)*

RICHMOND, Va., Dec. 2.—The jury in the Fairfax County Circuit Court which heard the $100,000 libel damage suit of Charles L. Zoll against the Times Dispatch Publishing Company, Inc., of Richmond, returned a verdict for $750 in favor of the plaintiff this afternoon.

Hiram M. Smith, counsel for the defendant, moved that the verdict be set aside as contrary to the evidence. This was overruled. He then made the usual motion for the purpose of carrying the case to the Virginia Supreme Court of Appeals.

Zoll, mayor of the town of Fairfax and a justice of the peace, sued the newspaper company for libel and damages when the *Times-Dispatch* printed a news item to the effect that he had been arrested on a charge of violating the prohibition law. Evidence showed he had been summoned to appear to testify in a prohibition case.

The defendant was unable to get before the jury the report of a prohibition inspector, which said Zoll had been arrested, on which official report the news item was based.

Three other cases based on the same news item are pending.

DEPARTMENT STORE DEAL

Gimbel Brothers Purchases Pittsburgh Store Adding to Chain

Gimbel Brothers, New York department store, has purchased Kaufmann & Baer Company, one of the principal department stores of Pittsburgh, Pa., evidencing the current trend towards chain store ownerships and mass distribution.

Gimbel Brothers, in April, 1923, acquired the entire capital stock of Saks & Co., giving them title to the Saks-Herald Square store and the Saks Fifth Avenue store. The purchase of Kaufmann & Baer Co. now gives the corporation a chain of six large department stores, located here, in Philadelphia and Milwaukee. Increased economies in buying and selling for all concerned were expected by Gimbel Brothers to accrue from the latest extension of their mercantile front.

Dean Williams Honored

Former Governor Frederick D. Gardner of Missouri gave a dinner Nov. 28, in honor of Walter Williams, dean of the School of Journalism, University of Missouri. Former Judge Daniel G. Taylor of St. Louis was toastmaster, and talks were made by Dean Williams; H. J. Blanton, editor of the *Monroe County Appeal,* State Senator Dwight H. Brown, editor of the *Popular Bluff Daily American* and W. C. Van Cleve, publisher of the *Moberly Monitor-Index.*

We are inclined to believe that Leonard Kip Rhinelander wished he had "said it with flowers."—*Southbridge* (Mass.) *News.*

WOMAN WRITER SERVES 50 YEARS WITH DAILY

Miss Susan Contesse, Religious Editor, Paterson (N. J.) Press-Guardian Began in Composing Room at 16

Just 50 years ago a 16-year-old girl, Susan Contesse, joined the *Paterson* (N. J.) *Daily Guardian* to learn to be a compositor.

If you were to visit the office of the *Press-Guardian* at seven o'clock any week-day morning you would find Susan Contesse, now in her 66th year, there at her desk, the religious editor of the paper.

Miss Susan Contesse

"She is the life of the editorial office, the inspiration of much that is good in the paper, the first person on the job in the morning and as faithful as any employe," said W. B. Bryant, the publisher, to EDITOR & PUBLISHER this week.

When Miss Contesse took up her life's work the Guardian was hand-set by a group of young women. She became expert in setting advertising matter. When linotypes were installed she became proofreader, frequently contributing articles to the news columns. Later Miss Contesse became a copy reader and with a reorganization of the editorial staff became editor of general news. Serving in this capacity she also started a column "Seen and Heard," which is still a prominent feature of the paper.

When the Guardian was merged in the fall of 1915 with the *Paterson Press,* the lady was made religious editor of the Press-Guardian, however, continuing her column.

"Newspaper work is as pleasant and interesting to me today as it has ever been," said Miss Contesse. "For a long time I was a journalistic novelty in Paterson, as no other woman wrote for the press here until three years ago. In 50 years I cannot recall a single instance of a disagreeable nature with the men who have employed me, and, naturally, I have the highest respect for newspaper men. No editor has scolded me in 50 years, though I admit many mistakes in that time. No field of service equals that of the evening paper for interest and opportunity for doing good."

Miss Contesse for many years has been superintendent of the Primary Department of the Second Presbyterian Church, is president of the Woman's Missionary Society, president of the Paterson Business and Professional Woman's Club and a member of many other local welfare, social and religious organizations.

Newspaper Funds Stolen

An armed man held up A. W. Talbott, assistant cashier of the *Peoria* (Ill.) *Evening Star,* and Wike Lloyd, driver of an automobile, carrying Talbott from a bank, getting the newspaper's payroll of between $5,000 and $6,000, Nov. 28. The robbery occurred in the business district.

U. P. Man Interviews Mussolini

Thomas B. Morgan, United Press staff correspondent at Rome, obtained two exclusive interviews with Premier Mussolini during the past week. The Italian dictator told the American reporter it was his ambition to make Italy's government as stable as that of the United States.

Giving the Advertiser What He Wants

BOILED down to one word—the advertiser wants one thing—results! If you make your paper more attractive to your readers by giving it a new dress, they will be more inclined to read it and many potential customers will then be changed to actual buyers.

Does your paper forge a strong chain from your reader to the advertiser's door, or is there a weak link?

Second-hand type indicates second-hand quality. Battered, broken, worn faces cannot carry freshness and conviction to a dealer's message. Call it psychology if you want to, it still remains common horse-sense.

And here's where the Ludlow steps in. With every line new, cast for every job—with a wide variety of faces and as much as you want of every size—from 6 to 60 point—an inexhaustible supply—the Ludlow cuts the wastes that raise composing room costs and gives the finished paper that fresh, bright appearance that is possible only from new type faces.

Results count—the Ludlow brings them.

Some Questions and Answers

* * *

What do you consider the greatest menace to the present generation?

THE disposition which gives the center of the stage to things that do not matter, to the neglect of those which are vital for body and soul. It reduces life to lower terms in all circles. By lowering the morale of the individual and society, it resembles the physical degeneracy which doctors dread because the seeds of disease germinate in its conditions.

* * *

Do you believe hopeless cripples should be legally lethalized?

NO: if for this reason alone, that there are already too many facilities for killing human beings in this country without adding to their number. One can readily conceive of cases of affliction for which death would be an infinite relief to all concerned.

Moreover, some apparently hopeless cripples at birth have in later life contributed richly to our intellectual progress. Their very condition sometimes accentuates those spiritual elements which make for genius.

A well equipped body is the parents' best gift to their child. But those who have been deprived of this great gift to their child. But those who have been deprived of this great gift frequently receive valuable compensations of heart and mind.

There is therefore no reason for attempting to take supreme issue of life and death out of the hands of the Disposer of all human events.

* * *

My wife wants to bob her hair. How can I stop her?

IF I could answer that question I should be lord of my own domain. I advise my friends to beat a hasty retreat from realms in which he has no sort of jurisdiction. As a last faint effort to prevent this calamity, I suggest urging her to it. That's the only way I know. Meanwhile, may find aid and comfort in how much hair has got and the kind it is.

* * *

Admitted that a man who takes an offered cocktail commits a crime under our Constitution, is he also sinning?

NOT necessarily. There is a wide distinction between crime and sin. One is the transgression of the law of man, the other of the higher law ascribed to God. But if the man's conscience condemns him for drinking intoxicants, by so doing it is sin for him, and from his personal standpoint. The secrecy which often covers the act is symptomatic of its guilt.

* * *

I am doomed to die of cancer and I would like to know what comfort there is for me.

If any word of mine can cast a single ray of light upon this dark situation, I shall be profoundly thankful.

Think in the first place of the millions of earth's noblest and best souls who have passed through this same gate of suffering into the Beyond. The maintained strength and fortitude in the dreading ordeal in one way and one way alone. That way is the way of Faith. They believed without fear or doubt that everything which came to them was ordained for thei

EDITORIAL

HOW LONG, OH, LORD!

THE majority of advertising agencies in this country keep their hands off editorial subjects. They do not, either directly or by subtle suggestion, seek to influence press opinion for any client through advertising patronage. They deal in a legitimate commodity and employ legitimate means.

The *Oregon Farmer* recently exposed to its readers a letter which it declared it had received from a Chicago advertising agency, as follows:

"The western railroads are petitioning the interstate commerce commission for an advance in rates.

"There are many good reasons why this advance should be granted and which shall shortly be presented in a series of advertisements which shall be sent you to appear in *The Washington Farmer.* (sic).

"We believe that this petition and the reasons for it are of sufficient importance to justify some discussion among your readers editorially, and believing that you are agreeable to giving some co-operation we want to place in your hands all the information possible.

"We are enclosing a copy of the petition filed with the interstate commerce commission. Also an advance copy of the first advertisement. (Orders for insertions will be sent you later.) It is possible that you may already have a duplicate of this petition.

"What would please us a great deal would be to see some editorial discussion of this important subject in an early issue of your good paper, and we would be doubly pleased if you would kindly tell us the issue in which the article appears so that we may watch for it and advise the representatives of the western railway committee accordingly.

"Your co-operation in this would be much appreciated."

After this letter had been published, with an inquiry whether the western railroads were trying to corrupt the press, a representative of the railroads, in stilted legal terms, proceeded to rebuke the editor for assuming that the agency has had any notion of trading advertising for favorable press opinion. The agency, quoth he, asked only for "editorial discussion" without any intimation that it should be favorable to the railroads. We submit to our readers that no other meaning could be read into the letter by any experienced newspaper man.

There are, no doubt, two sides to the railroad rate question. It might be wholly right and proper to buy space in the press to speak the railroad's piece. But a stumbling and impudent agent wrote a letter which, it appears, has thrown the whole advertising plan in the air. Perhaps he foolishly acted under the instructions of his client. Perhaps he was greedy to make a great showing for himself at the expense of the press.

How long, Oh, Lord, must the press live under public suspicion of venality because of the stupidity or worse of a little sprinkling of advertising agents who presume to handle the dynamite of public opinion as if it were so many golf sticks?

What do the readers of Editor & Publisher *think of an international press conference, called by the League of Nations, to co-operate in the world-wide movement for peace? It is a Christmas subject and* Editor & Publisher *would enjoy letters from readers who are thinking in practical terms of how peace on earth may be promoted by the newspapers of the nations.*

UP TO ORGANIZED PRESS

WHEN a newspaper has established a clear-cut rule that it will publish no free industrial publicity, the press agents evil will have been abated. In doing this an individual newspaper may lose some business, but it will surely gain prestige. Certainly it will have the respect of those advertisers who regard the free publicity system as a cheap and indiscriminate form of rebating. For the business that is sacrificed, there would be compensating economy in production expense. The press agent evil runs on because newspaper managements fear temporary losses. It is the old story of cut-throat competition; rivals that should work in harmony slash each other while the press agent gleefully laughs.

What is needed, of course, is adoption of a clean-cut universal rule, based on journalistic ethics and common business sense, by the organized press.

Editor & Publisher confidently looks to the organized press to pass resolutions during the coming year pledging their membership to definite standards.

You know about where a man stands in relation to the newspaper profession when he calls it a "game."

Ye shall know the truth, and the truth shall make you free.—John, VIII; 32.

AN ADVERTISING CLINIC

HAVE you heard of the Advertising Clinic which is being conducted by the *South Bend* (Ind.) *News-Times,* J. M. Stephenson publisher?

It is the most novel and desirable plan for the betterment of local advertising conditions that has come to the notice of Editor & Publisher.

The newspaper is conducting an educational course for the direct benefit of the advertisers of the community, with indirect benefits naturally accruing to itself. A comprehensive lecture course in advertising, ranging through the mechanics of copywriting, composition and the finer arts involved in correlated merchandising and publicity, has been arranged. Experts have been engaged to visit South Bend and lecture on various phases of advertising. For instance, a skilled engraver came to explain his art and answer questions. A genius at layouts was brought from Chicago to give to South Bend advertising men the benefit of his experience. There are to be ten lectures, one each week, and the newspaper bears the expense. The meetings, free to all, have been held in the Chamber of Commerce rooms, and Editor & Publisher learns that the attendance has been remarkably large, many of the best-known merchants of the city being among those present. The News-Times has not used the meetings to promote its selfish aims, but has whole-heartedly offered an educational service to the merchants of the city.

The results of such clever enterprise are obvious. The newspaper puts itself into a very happy relationship to the advertisers of the city. Full opportunity is given for explanation of modern advertising system and there is an exchange of valuable experience. The merchant, to whom advertising is but one item of many interests, is given an opportunity to study his problem intensively and in the light of expert and wholly disinterested advice. The merchants of South Bend are certain to do better advertising, a result as desirable for the newspapers as for themselves. Nothing but good can possibly accrue.

CHAIN STORE DEVELOPMENT

OBSERVE in Editor & Publishers' Space Buyers' Guide, for the current year, the astonishing increase in the number of chain stores in the cities and towns listed.

We wonder if advertising interests are really awake to the rapid development of this revolutionary principle of retailing in this country. It is manifestly true that the chain store interests are not alive to their marvelous opportunity to employ and make the best use of local advertising facilities offered through the daily press. Editor & Publisher's statistics show opportunities in almost every city of the land for the most profitable relationship between chain store managements and newspapers. Perhaps some general chain store totals for the whole country would startle our readers into renewed action.

According to statistics recently gathered by E. T. Konsberg & Co., of Chicago, there are now in the United States some 6,000 chain store organizations, each operating from three to 9,300 stores, the latter being the present retail outlets of the Great Atlantic and Pacific Tea Company.

Since 1914 chain grocery stores have increased from 8,000 to nearly 50,000. Two-thirds of the retail food distribution in New York and Philadelphia is now through chain stores. For the whole country, it is estimated that the chain grocery stores are selling more than two billion dollars of merchandise this year. The A. & P. stores alone had sales last year of $350,000,000. Not only are chain stores multiplying everywhere but the business they do is increasing with leaps and bounds. The old-fashioned corner grocer is almost extinct in many cities.

We ordinarily think of chain stores as dealing in groceries, meats, cigars, drugs and dry-goods, but there are many other departments of trade organized for local retailing from centralized control. For instance, there are 290 chain bakery organizations; 21 cloak and suit chains; 205 five-and-ten store organizations; 158 restaurant chains; 120 chains of clothing millinery and men's furnishing stores; 108 confectionery chains; 99 hotel chains; 95 boot and shoe chains; 94 hat and cap chains; 32 hardware and sporting goods chains; 19 chains for jewelry; 15 cleaning and dyer chains, and 10 25-cent-store chains.

The grocery, drugs, dry-goods, meats and cigar chain organizations total 4,500. The grocery store has demonstrated itself as efficient and economical public service beyond all question. This may be said in varying degrees of other chains. There seems no doubt that the chain idea is a permanent factor in our economic life. The chain buys in large quantity and therefore advantageously. It retails for cash and by system. It can employ sales forces for less money than independent merchants would be satisfied with as profit. It can manufacture its own private brand names. With stores scattered over a city it can advertise in newspapers and make use of practically all of the circulation. These are but glimpses of the economic advantages. The chain store challenges the best talents of daily newspaper advertising brains. They must be "sold."

Scrap last year's bird's nest, a thrice patched inner tube, an empty Peruna bottle, one glove, a rusty razor blade, a Burleson pamphlet on postal profits and Lin(e)age!

PERHAPS IT'S HABIT

HERE is an eight-page supplement of a newspaper carrying 75 per cent radio display advertising and 25 per cent free publicity. Attached to each and every paid display is a puff for the instrument or for some dealer or some press agent's flabby idea of creating consumer demand.

Does the publisher of this newspaper believe he is getting his card rate for paid advertising? Does he regard the free publicity as "news," or as a rebate to the advertiser? If it is a rebate it is unfair, because the puffs are not of equal linage. If it is news we have lost our sense of values.

The publisher of this newspaper can scarcely contend that he is forced into this outlandish servility to advertisers by his competitors because he has the only newspaper in his city.

PERSONAL

ERALD C. NYE, of Cooperstown, N. D., editor of the *Griggs County Courier-Sentinel,* who has just been appointed United States senator from North Dakota is now in Washington preparing for the opening of congress.

Roy Howard, chairman of the board of the Scripps-Howard Newspapers, returned to New York headquarters this week from a trip to the Far East.

Karl A. Bickel, president of the United Press, will arrive back in New York about Dec. 13 from a South American tour.

Edwin S. Underhill, publisher of the *Elmira* (N. Y.) *Advocate* and the *Corning* (N. Y.) *Leader* has been elected president of the Farmers' and Mechanics' Investing Corporation, recently organized in Elmira.

Eugene C. Pulliam, publisher of the *Lebanon* (Ind.) *Reporter* and the *Frankfort Daily News* who recently was operated at St. Vincent's hospital in Indianapolis, is recovering at his home in Lebanon and expects to assume full management of his papers within a short time.

Mrs. W. H. Greenhow, president of the W. H. Greenhow Publishing Company, and Miss Mabel Wombough, editor of the *Tribune-Times* have returned to Hornell, N. Y., from a trip to New York City.

IN THE BUSINESS OFFICE

J. HENDERSON, formerly of the *New Orleans Times-Picayune* and *Omaha World-Herald,* is now ad solicitor for *San Antonio Express and News.* Miss Laurine Heard has joined the Express and News as copy-writer.

Lawrence Atkinson has been transferred from the circulation list room of the *St. Paul Dispatch-Pioneer Press* to the classified advertising department.

Miss Ethel Wilk, for five years advertising manager of the *Virginia* (Minn.) *Daily Enterprise,* has resigned to go to New York.

Herbert Foley, bookkeeper of the *St. Paul Dispatch-Pioneer Press,* has joined the classified advertising force.

IN THE EDITORIAL ROOMS

REGINALD COGGESHALL, of the Paris edition, *New York Herald Tribune* and Stanley Grammer, *Chicago Tribune,* Paris, have been elected to membership of the Anglo-American Press Association.

Robert B. Peck, of the night rewrite staff of the *New York Herald Tribune,* has returned from a week's trip to Florida.

Roy Kirk has returned to the copy desk of the *New York Herald Tribune,* after a few months with the *New Yorker.*

Endicott Rich, formerly of the *New York Times,* has joined the financial department staff of the *New York Herald Tribune.*

Robert L. Bennett, sports editor, *San Antonio News,* is improving from serious injuries received in an automobile collision.

Harold Myers, of the *Scranton Republican,* and Neil Whitney, of the *Scranton Times,* are in Bermuda on a two weeks' vacation.

Jerome R. McLeod, recently in public work, has returned to the *Tampa Tribune* as city editor.

R. W. Simpson, formerly managing editor of the *Norfolk Virginian-Pilot* and for years with the Associated Press, is now managing editor of the *Tampa Tribune.*

R. L. Bellan of Ohio State University has been named telegraph editor of the *Portsmouth* (O.) *Morning Sun,* succeeding John G. Green who has joined the *Canton Daily News* as telegraph editor.

Murray Robinson, formerly on the *New York Mail, Brooklyn Eagle* and *Daily Graphic,* has joined the *Long Island Daily Press* as sports editor.

James Maxwell, is now on the *Chicago Evening Post's* new staff. He has served with most of the Chicago papers.

J. Roy Stockton of the sport staff, *St. Louis Post-Dispatch* has been re-elected unanimously the representative of the St. Louis Chapter of the Baseball Writers' Association.

Leonard Cline has joined the reportorial staff of the *Chicago Daily News.*

George Wheeler has rejoined the copy desk of the *Minneapolis,* (Minn.) *Tribune.*

R. D. Murchie, fromerly *San Antonio Evening News* reporter, and F. L. Phipps, formerly on the *Fort Worth Record* copy desk, are now with the *Los Angeles Examiner.*

Calla Frances Flanagan, who graduated last June from the University of Missouri School of Journalism, is the editor of the woman's page of the *New Bedford,* (Mass.) *Times.*

Harry M. Resnick has returned to the editorial staff of the *New York Graphic.*

Michael M. Lake, of Trenton, has joined the reportorial staff of the *Trenton Times.*

Charles Divine, a former Binghamton, N. Y. newspaper man, now a resident of New York, recently published his third volume of verse, "The Road to Town." Mr. Divine has been on the staff of both the *Binghamton Press and Leader* and the *Binghamton Sun.*

T. Roy Kelly has been made news editor of the *St. Paul Dispatch* succeeding H. T. Hasselquist, resigned.

Charles J. McDonough, reporter for the *Buffalo Evening News,* who recently entered Georgetown university, suffered a fractured skull recently in an automobile accident.

John H. Sines, associate editor of the *Trenton Times,* has just returned from a two weeks' vacation in the Bermudas.

Miss Frances Townsend, society editor of the *Hornell* (N. Y.) *Tribune-Times* is visiting friends in New York City.

Howard Owen Erickson, recently of the copy desk, has become Sunday editor of the *Omaha World-Herald.* E. O. Mayfield, previously Sunday editor, has been made librarian.

Frank J. Genger of the *Elmira* (N. Y.) *Star-Gazette* and Mrs. Genger are parents of an eight and one-half pound daughter, Muriel Jane.

Richard Halliday has been appointed moving-picture editor of the *New York Daily News,* succeeding Mildred Spain.

HOLDING NEW POSTS

HARRY E. MOORE, from *Austin American,* to *San Antonio Evening News* reportorial staff.

Stuart Strobridge, from managing editor, *Fairmont* (Minn.) *Daily Independent* to telegraph editor of the *Fargo* (N. D.) *Forum.*

Charles W. Farnham, from reporter, *Lawrence* (Kan.) *Journal-World* to copy reader, *New Bedford* (Mass.) *Standard.*

Clifford McCoy from head pressman, *Hornell* (N. Y.) *Tribune-Times,* to a similar position with the *Daytona* (Florida) *News.* Hoke Smith, his assistant, succeeds him on the *Tribune-Times.*

PRESS ASSOCIATION NOTES

CARTER BROOKE JONES has been transferred from the San Francisco bureau to the Washington office of the Associated Press.

Harry Flory has been appointed head of the International News Service in Paris, where he succeeds Frank E. Mason, who has transferred to the Universal Service in Paris, replacing Basil D. Woon.

Clinton (Ia.) *Herald* has added the full day service of the International News Service. The Herald also has Associated Press service.

Octavio Mendez, of the United Press foreign department in New York, will sail Dec. 5, to join the U. P. staff in Rio de Janeiro, Brazil. He is succeeded in New York by Duke N. Parry, formerly Tokio correspondent of the International News Service.

G. W. McVey, manager of the United Press Dallas Bureau, has been transferred temporarily to Austin, covering the Gov. M. A. Ferguson story.

Jess O. Irvin, formerly city editor of the *Tampa Times,* has been placed in charge of the Tampa bureau of the Associated Press.

FOLKS WORTH KNOWING

ARTHUR E. PRICE, first president of the Danville (Ill.) Advertising Club and advertising manager of the Danville Commercial-News started in the newspaper business as a printer's "devil" on a Northern Illinois newspaper in 1909. He began selling advertising space in 1915.

ARTHUR E. PRICE

Arthur E. Price, advertising manager of the *Danville* (Ill.) *Commercial-News* started in the newspaper business as the "printer's devil" on a northern Illinois paper back in 1909.

Was initiated into the selling of advertising space in 1915. He made a comprehensive study of advertising and in 1919 left the newspaper business to become manager of the advertising service department of a large Minneapolis printing house. In 1922 he coupled this same position with the sales managership for a Milwaukee printer.

He came to Danville a little over two years ago and recently was elected the first president of the Advertising Club of Danville, which was organized largely through his efforts.

His hobby is organization in the local advertising department. His belief is that newspaper solicitors should be given the same training for the sale of advertising space and service, as that given salesmen for highly specialized industrial products.

MARRIED

MISS ARLINE McCELVEY, daughter of Hugh A. McCelvey, advertising manager of the *Houston Chronicle,* to Thomas Cartwright, Nov. 24, in Houston.

Miss Margaret Ascham, staff writer of the *Cincinnati Post* to David Sherman Green of Hartford, Conn., commercial attaché to the American embassy in Paris, at Constantinople, Nov. 17. They will reside in Paris.

Hugh Gavin, a Boston newspaper man to Miss Margaret Lorden of Jamaica Plains, Mass., in Boston last week.

Howard Heath, formerly with the advertising department of the *Trenton Times* to Miss Helen May Whitlock, of Trenton.

Robert Welch, for many years connected with the *New York Times,* to Mary A. Taft, for more than 25 years in the editorial department of that newspaper, Nov. 16, in Salem, Mass.

Joseph Butler of the news staff, *Scranton* (Pa.) *Times,* to Miss Odessa Phillips, also of Scranton, recently.

WITH THE SPECIALS

ALCORN & SEYMOUR COMPANY, newspaper representatives, New York, have been appointed to represent the *Owensboro* (Ky.) *Inquirer,* both east and west.

Ingraham-Powers, Inc., publishers' representatives, New York, have been appointed to represent the *Lockport* (N. Y.) *Union-Sun and Journal.*

Payne, Burns & Smith, Inc., publishers' representatives, New York, have been appointed to represent the *Sheridan* (Wyo.) *Post-Enterprise.*

John A. Toothill, formerly connected with the advertising department of a Brooklyn newspaper, has joined the New York soliciting staff of the Devine-MacQuoid Company, Inc., newspaper representatives.

Allen Klapp Company, representatives ofg the Middle West List of Newspapers in the western field for the past 22 years, have taken 1,000 sq. ft. of space in the new Tribune Tower, Chicago, for their offices.

SPECIAL EDITIONS

CHICAGO DAILY NEWS, 12-page rotogravure radio section in connection with opening of Chicago Radio Show, Nov. 17.

Klamath Falls (Ore.) *News,* first anniversary edition, Nov. 13.

Ypsilanti (Mich.) *Daily Ypsilantian-Press,* 28-page "Do Your Christmas Shopping Early" edition, Nov. 18.

Raleigh (N. C.) *Times,* Golden Anniversary edition, Nov. 30.

Caspar (Wyo.) *Herald,* 102-page State Publicity edition, Nov. 15.

Newark (N. Y.) *Union-Gazette* Thanksgiving number in six sections, Nov. 20.

CHANGES OF OWNERSHIP

T. G. THOMPSON, former editor and half owner of the *Shelby County* (Mo.) *Herald* has sold his interests to his partner, W. C. Jewitt. Mr. Thompson will publish a weekly newspaper at Englewood, Ill.

E. J. Maloney, publisher of the *Monticello* (Ia.) *Jones County Times,* has sold

Florida, Booming, Buys and Reads the BEST

NATURALLY, the most important newspapers in the new Eldorado state are Central Press clients.

The Jacksonville *Florida Times-Union* and The Miami *Herald,* which have the largest circulations and widest influence in the state use Central Press' full daily service and picture page.

In Tampa, the *Times* runs the full-page pictorial, and the new *Evening Globe* makes and holds readers with Central Press' complete and exclusive illustrated daily feature news service.

The St. Petersburg *Times* uses both the full daily service of the Central Press and the daily picture page, and so do the Orlando *Sentinel,* the West Palm Beach *Times,* the Key West *Morning Call,* and the Sarasota *Herald.*

Other Florida subscribers to the Central Press Association's daily service are the Lakeland *Star-Telegram,* Sebring *American,* Fort Myers *Tropical News,* Bradentown *Morning News,* Clearwater *Herald,* Plant City *Courier,* Winter Haven *Florida Chief,* Daytona *Journal.*

No other illustrated feature service is in so strong a position in Florida. No other illustrated feature service is growing as steadily as

The Central Press Association

V. V. McNitt, President — Central Press Bldg., Cleveland — H. A. McNitt, Manager

the paper to Thomas J.White of Jefferson, owner of a number of papers in Iowa and Missouri.

J. S. Randolph, publisher of the *Edgerton* (Minn.) *Enterprise,* has acquired the *Woodstock News* and the *Holland Independent* and plans to continue them as separate papers.

Ben G. Whitehead of Edinburg, Tex., has purchased the plant of the *Pharr* (Tex.) *Enterprise.* E. C. Hill continues to operate the paper as editor.

NEW PLANTS AND EQUIPMENT

A LINOTYPE has been installed on the H. F. Alexander, flagship of the Admiral Line, to compose news bulletins issued on board, as well as menus, programs and various other items of printing.

Gulfport (Miss.) *Daily Herald,* with plants in Biloxi and Gulfport, has begun the erection of another building at Biloxi. The Herald is issued from the Gulfport plant composed of matter set up at both offices.

ON THE MECHANICAL SIDE

FRANK MURRAY, for more than 20 years a linotype operator on the *Halifax* (N. S.) *Daily Herald and Evening Mail,* has been appointed deputy king's printer for the Province of Nova Scotia.

SCHOOLS

THIRD annual convention of the California Scholastic Press Association was held at Stanford University recently with delegates from 60 high schools present, including 76 faculty advisers, and 280 student representatives. Eight cups were awarded to the high schools entering the best feature stories, news stories, editorials and humor columns.

ASSOCIATIONS

EDITORS of the Third congressional district of Minnesota met at Minneapolis, Nov. 28, and organized the **Third Congressional District Editorial Association.** Carl Eastwood of the *LeSueur Herald* was elected president and Arthur J. Suel of the *New Prague Times* was named secretary. The association went on record opposing the practice of the postoffice department whereby envelopes with printed return notices are furnished to large users at figures admittedly far below actual cost.

Junior Advertising Club of St. Louis has elected these officers: President, D. J. O'Connell; vice-presidents, W. J. Lepp, C. J. Humburg and Meyer Sacks; treasurer, Lester Lange, and secretary, Martin Mullen. Mr. O'Connell is assistant to the advertising manager of the National Lead Company.

Old Newsboys' Association, which every year raises thousands of dollars for the needy children of Detroit through a one-day sale of special Goodfellow editions of the three Detroit newspapers, has this year set its Christmas Fund at $35,000. December 17 has been chosen as the day for the sale.

San Antonio Typographical Union recently held its 50th anniversary celebration. Walter Barrett, former vice-president, International Typographical Union, was among the speakers. Others included Herman Schueltze, only living charter member; D. S. Davenport, present president, and Ed. G. Koerps, secretary-treasurer of the union for 35 years.

Spain to Keep Up Press Gag

Citing instances of "indiscretions" in the press regarding the Moroccan campaign, the Military Directorate, governing body of Spain, this week issued a note declaring censorship of the press would be maintained without modification. The note said the necessity of maintaining the gag was "patent."

N. Y. Sun to Dine All-American Team

Members of the 1925 all-American football team picked by the sports staff of the *New York Sun,* will be guests of that newspaper at a dinner to be held at the Hotel Vanderbilt, New York, Dec. 5. The affair will be under the direction of William H. ("Big Bill") Edwards. Joe Vila is sports editor of the Sun.

COOLIDGE SECRETARY

F. STUART CRAWFORD, for many years a political correspondent for the *New York Sun* and for other newspapers, has been appointed one of the secretaries to President Coolidge, succeeding Judson C. Welliver, who has resigned to become associated with the American Petroleum Institute. Mr. Crawford assumes his new duties, largely of political and economic research, at once.

F. S. Crawford

Mr. Crawford is a graduate of Amherst. After being for many years on the staff of the *New York Tribune* he was made secretary to the Corporation Counsel of New York in 1915. In 1918 he resumed newspaper work as a corrsepondent for the Sun. Later he was attached to the *New York Herald.* In March, 1924, he worked for the Republican National Committee in the preparatory work for the national convention which in that year nominated Calvin Coolidge. More recently he has been connected with the New York County Republican Committee.

BARGAIN YELLS DULL ADVERTISING EDGE

Robert W. Pogue, Cincinnati Merchant, Hits Indiscriminate Price Cutting in Ad Club Talk—Fails to Create Desire to Buy

Advertising that shrieks and howls bargains at all times will get forced attention but will not create the desire to buy, according to the philosophy of Robert W. Pogue of Cincinnati, president of the Cincinnati Retail Merchants Association and a director of the National Retail Merchants Association in an address to the Advertisers Club last week.

President Pogue, who is also president of the H. & S. Pogue Company, one of the most consistent users of daily newspaper space in the Middle West, paid a tribute to steady and constructive advertising in the columns of the daily press. He said that indiscriminate price-cutting ads have a bad psychological effect upon the public, while simple advertising of stable prices, suggesting new uses for things, really helps the customer to buy to his advantage and makes of him or her a friend who relies upon the store for safe and reliable merchandise.

While Mr. Pogue decried indiscriminate price cutting ads he made it plain that he did not refer to sales which are conducted seasonally and are necessary to every legitimate business.

There are five essential points that induce buying, Mr. Pogue said.

They are: 1.—Money gain or money saving. The public either buys an article to sell it again at a profit, or buys because the article has value at the price paid.

2.—Utility, necessity, enjoyment. Again the public buys an article because it is useful; or for an actual need or for the pleasure of possession.

3.—Pride. A great class of buyers purchase style merchandise. They take pride in their appearance and this desire is the inducement to purchase.

4.—Caution and foresight. There are in this class the cautious or suspicious buyer as well as the shrewd trader. Their motives belong to this distinct class of buyers.

5.—Luxury buyers, the self-indulgent class, and the buyers of merchandise that appeals to their vanity as well.

"Cut price advertising is usually built on the theory that the louder you shriek the more weight your argument carrier. Constant use of black faced type and broad assertions, however, usually arrive at the same end as the boy who cried 'wolf' too often," Mr. Pogue stated.

CONTEST FOR GRANDMOTHERS

83-Year-Old Woman Wins "Sunpapers" Unusual Competition

Grandmothers entered a contest conducted by *The Baltimore Sun* and *Evening Sun* recently. The competition was for age, for grandmotherly appearance and grandmotherly bearing. It opened a celebration of Girls' Week in Baltimore.

Thirty elderly women entered. The prize was an Italian stone cameo brooch.

The judging and the award of the prize took place at a masquerade dance given at the Fifth Regiment Armory, the largest hall in the city, on Saturday night The girls taking part in Girls' Week, Mayor Howard W. Jackson and other public officials attended.

Taxicabs were sent to the homes of the grandmothers to take them to the armory There they were assembled in a small room and then escorted to a stage. A group of women picked from their number one on whom was bestowed the title of the most grandmotherly of those present.

Mrs. John G. Murray, the wife of Bishop Murray, the head of the Protestant Episcopal Church in Maryland and recently elected the presiding bishop of the whole church, made the presentation, with Mayor Jackson and others doing special honor to the winner.

The brooch was won by Mrs. Elizabeth J. Richmond, an old-fashioned little lady 83 years old. In spite of her age she was extremely sprightly in the manner in which she participated in the ceremonies.

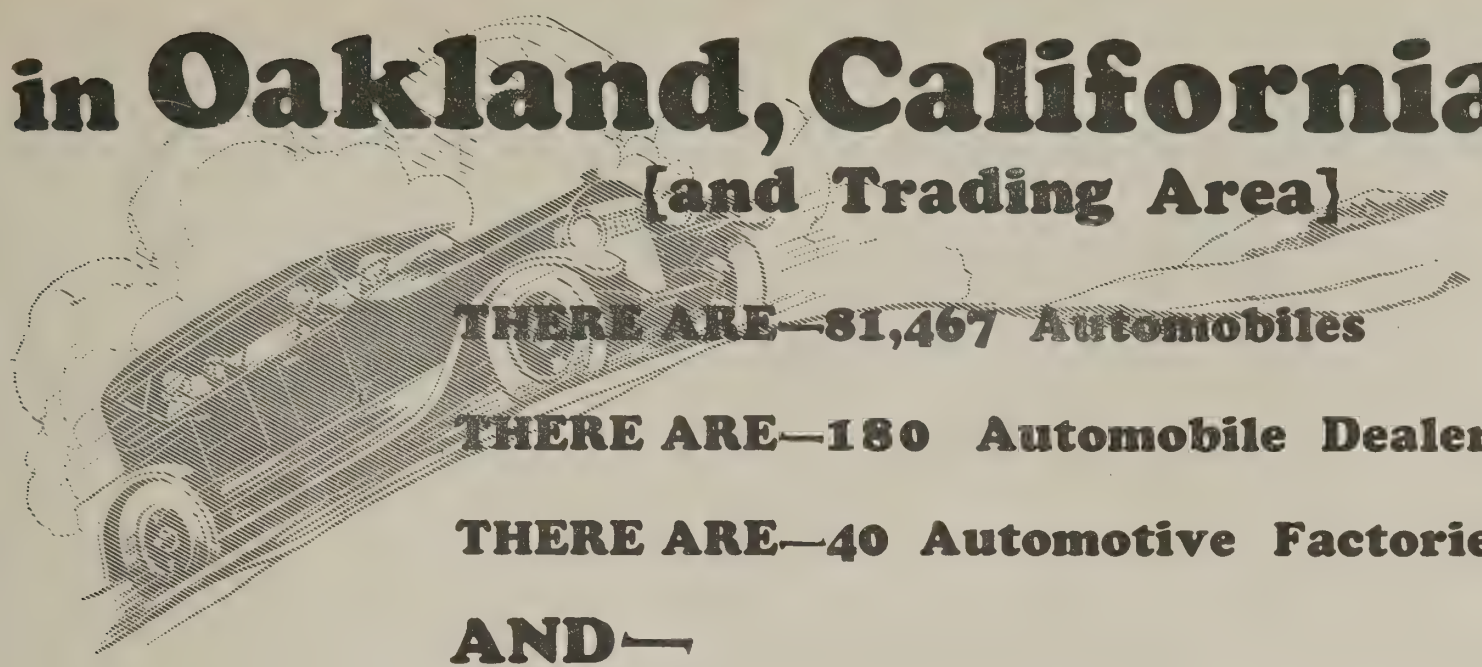
CHURCH ADVERTISING DOES PAY

—says *Frank T. Carroll, Advertising Manager, Indianapolis News*

"The Indianapolis News considers the Saturday church advertising page a distinct asset to the paper since it carries considerable prestige and gives The News preferred local standing, adding to its reputation as the high grade newspaper of Indiana."

The News believes that "churches can get the same results out of intelligent advertising that any purely commercial institution can secure" and bases its belief on actual demonstration,—that "churches that use larger announcements and put some salesmanship into their advertising are getting noticeably larger response from their copy."



What has been your experience with church advertising?

Let us help you with plans and copy that will pay.

Church Advertising Department
ASSOCIATED ADVERTISING CLUBS,

in Oakland, California

[and Trading Area]

THERE ARE—81,467 Automobiles

THERE ARE—180 Automobile Dealers

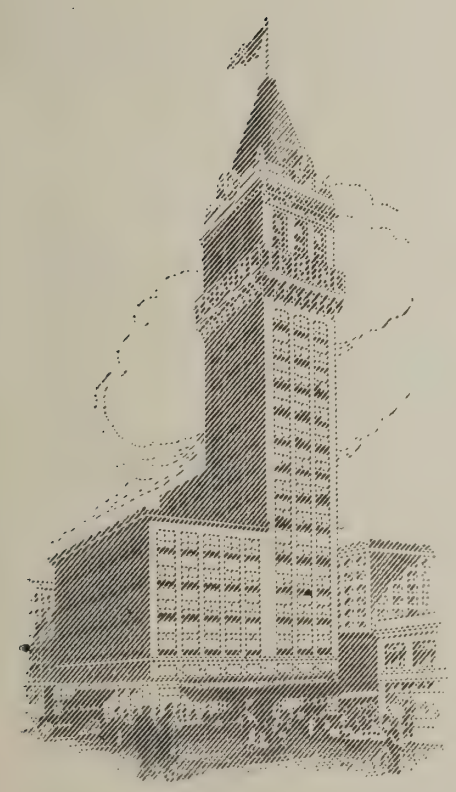
THERE ARE—40 Automotive Factories

AND—

9916 New Cars Were Sold and Registered During the First Six Months of 1925

Oakland, California (and trading area), is surely the automotive center of the Pacific Coast, and there are many reasons why this is so.

First, the roads are excellent. There are many and broad highways leading out into all the adjacent country, and to every part of the great State of California and neighboring states.



Climate is peculiarly adapted to all-year-round touring—no extreme heat in summer, no extreme cold in winter.

Population is composed of the thrifty, home owning, home-loving class of people who demand and are able to have recreation of the better sort.

Here is possible the widest automotive selling appeal—from the man or woman whose personal or business requirements call for lavishness of equipment to the man or woman who necessarily leans toward moderation in price, and still on to others who must have the sturdy low-priced car—it may be for delivery or business use, or it may be for personal enjoyment alone.

Whatever the need, the automotive and automotive accessory manufacturer enters a fruitful market rich with prospective consumers.

Oakland, California (and trading area), demands attention from these manufacturers, and manufacturers and dealers are responding to this demand by advertising through the columns of the OAKLAND TRIBUNE.

WHAT'S WHAT IN THE FEATURE FIELD

Conrado W. Massaguer, Caricaturist, Now on D. P. Syndicate Staff, Drawing New Daily Strip—Bell Syndicate Has New Children's Feature

CONRADO W. MASSAGUER, caricaturist, is now a member of the staff of the D. P. Syndicate, Garden City, N. Y. Mr. Massaguer came to this country from Cuba about a year ago. He owns two magazines in Havana, but has established a permanent home in New York.

For D. P., Mr. Massaguer is drawing a new daily comic strip entitled "Pay Day Pauline" and a series of weekly pictures entitled "The Girl I Dined With Last Night."

Mrs. M. S. Bourjaily is author of a new children's feature announced this week by Bell Syndicate to appear daily under the caption, "What Does a Young Child Want to Know?" The feature a four-line verse, illustrated with a one-column drawing, is designed to appeal to mothers bothered by children asking unending questions. It replaces a former feature written by Mrs. Bourjaily entitled, "Oh, Mother, What Can I Do?"

The same syndicate announces a new daily numerology feature by Neysa McMein, magazine illustrator, and a series called "This Marriage Business," signed by "Connie and Bert."

Burr Chapman Cook, recently of the North American Newspaper Alliance, has joined the sales staff of the Putnam Syndicate, New York.

Bruce Gould, of the *New York Evening Post* reportorial staff, is author of "High Kicking and Low Thinking," a full page Sunday feature being distributed by Current News Features, Inc., New York and Washington. Mr. Gould's article is described as "a personally conducted tour of the night clubs of New York."

A new series of 18 articles under the title "Soccer Science" written by a former coach in the British army, has been added to the list of features offered by the International Syndicate, Baltimore, Md.

A heroic bronze plaque, "The Long, Long, Trail," reproduced from a newspaper cartoon by J. N. "Ding" Darling in memory of Theodore Roosevelt will be unveiled in the main lobby of the Hotel Roosevelt, New York, Dec. 8. Mr. Darling, at present recovering from a serious illness, is the chief cartoonist of the New York Herald Tribune Syndicate.

Jack Barrett, cross-word puzzle expert of the *New York Evening Journal,* has created a variation on the cross-words, called "The Cross-Word Cipher," which is being distributed by the McClure Newspaper Syndicate, New York.

The following names have been added to those contributing to the American symposium on "My Religion," a McClure feature: Ida M. Tarbell; William Allen White, editor of the *Emporia* (Kan.) *Gazette;* Will Irwin; and Yusuke Tsurumi.

"Why Is Your Name ———?", a new daily feature explaining name origins, was announced this week by Continental Features, New York. The feature is illustrated with drawings by Leo Kober.

Promotion of "Spinsterhood," new serial by Virginia Swain, being distributed by NEA Service, Inc., is causing considerable comment in syndicate circles. The theme of the story is the choice between love and a career. The heroine is a newspaper woman. Many newspapers, publishing the serial, announced that Barbara Hawley, the name of the story's heroine, had broken her engagement and joined the staff as a reporter. Local stories appeared under her by-line. In some instances a girl was added to the staff as a reporter and she covered assignments as Barbara Hawley. NEA informs EDITOR & PUBLISHER that more full page advertisements of the story, and more space in the news columns have been used promoting this serial than ever before, according to a survey of client papers.

Clinton T. Brainerd, head of the McClure Newspaper Syndicate recently revisited Denver, his birthplace, for the first time in 15 years. Mr. Brainerd spent several hours in the editorial offices of the *Denver Times,* where back in the "nineties," he held his first newspaper job.

U. S. REPORTER SETS EGYPT GUESSING

John Balderston, New York World, Gets Three Day Beat on Opening of King "Tut's" Tomb—Officials Wonder How

A reporter from the United States has set all Egypt's officialdom guessing. They want to know how John Balderston, of the *New York World,* obtained a three-day beat on the discovery of the mummy of Pharaoh Tutankhamen; and, of course, he won't tell. Details of the scoop which was scored Nov. 11 reached New York for the first time this week, and were told EDITOR & PUBLISHER by Major Loring Pickering, general manager of the North American Newspaper Alliance.

Mr. Balderston, regularly assigned to the London office of the World, was sent to Luxor by the N.A.N.A. on Oct. 28. Secrecy was imposed by the Egyptian government at this the climax of the whole "Tut" tomb drama. Two years ago Howard Carter had set up a press monopoly of his archaeological excavations, but this had been broken.

The system of issuing news on the various discoveries, instituted by the Egyptians, provided that an official communique would be given to all press representatives at one time. Those in charge, however, had no sense of news values, and were slow in preparing the "hand-outs." The communique would be written first in Arabic, and then translated into French for the benefit of reporters. This usually required from two to three days.

Such was the situation Balderston found, when he arrived at Cairo.

"Every possible precaution was taken to prevent the news of Carter's opening the magnificent innermost coffin, where a Pharaoh lay wrapped in sheets of gold, from reaching the outside world," Balderston wrote in his first dispatch.

"Everyone present in the tomb was sworn in advance to secrecy as to what was found in the first disturbance of the unplundered royal burial."

Balderston decided to break through this wall of secrecy and beat the official communique. He did; but the task was not easy.

From the time of his first arrival, this American reporter was regarded with suspicion by Egyptian authorities. Wherever he went two armed guards sprang up at either side of him.

Other difficulties were imposed on him and other reporters. Transportation to the tomb was cut off. Balderston had to ride to the scene on donkey back. There the English and Americans concerned in the work told him their hands were tied by promises under which the work was allowed to be undertaken again.

The measures taken seemed to have proved effectual. No crowd was around the tomb. Few tourists were there and they were entirely unaware of the discoveries unique in the history of archaeology. Balderston was allowed scarcely a waking moment to himself.

But he must have found some way to elude his guards. On Nov. 11 his dispatches began coming to the New York office of the N.A.N.A. The first and those that followed gave all particulars.

On Nov. 12, the big day of the famous archæological research, found Balderston the only newspaper man near the tomb.

"So careful were the measures taken," he wrote, "that this morning I was still the only newspaper correspondent present in the valley. Later one befezzed Egyptian journalist turned up.

"I was met with scowls and black looks from the native guards on duty, who sprang out of Seti when I approached. My two soldiers carrying their rifles joined them.

"The excavators, working under Egyptian direction, are afraid to disobey the childish edicts of secrecy the Egyptian masters sought to enforce."

Monsieur Lacau, the French director of antiquities, told Balderston:

"There is to be no publication of any facts or photographs relating to these discoveries by any newspaper in the world. The newspapers have behaved so badly, that we decided not to permit them to print anything excepting those items which the lay public is fit to understand, and these items will be given out in official communiques from Cairo."

The Cairo "items" were duly issued, but not until three days after Balderston's detailed stories had been printed by all the newspaper members of the N.A.N.A.

Balderston's dispatches were telegraphed back to Egypt and published in the Arabic, English and French press there with very sharp editorial comments on the appearance in American newspapers of facts which the Egyptian government had been seeking to conceal.

As stated in the beginning of this story, all Egypt officialdom is now guessing. They point the finger of accusation against Howard Carter, believing it was he who told the American reporter. But Balderston denies emphatically that details were supplied him by Carter or any of his staff.

Balderston has, like a true reporter, kept the source of his information to himself.

Balderston is a Philadelphia man, and a former student of Columbia University, New York. From 1912 to 1914 he was New York correspondent for the *Philadelphia Record.* Then he went to Europe as a free lance war correspondent, later representing the McClure Newspaper Syndicate in that capacity. In 1923 he became chief correspondent of the World in London. Prior to that for three years he had been editor of the *London Outlook.*

N. Y. World Resumes X-Words

The *New York World* on Nov. 30, resumed publication of cross-word puzzles. The feature was discontinued several months ago, when J. F. Bresnahan, business manager, in a statement to EDITOR & PUBLISHER, declared it had been concluded that the game had lost its appeal to large numbers of newspaper readers. This week it was announced that the reappearance of the puzzle was in response to hundreds of letters from readers.

The press agent's touching story of the humble home of the Prince of Wales at St. James's Palace ought to make the occupant of a London tenement feel like a lucky man—but won't.—*New York Evening World.*

Up to the present the board of Duke University has not prohibited smoking on the campus.—*Little Rock Arkansas Gazette.*

Americanism:—Clamoring for an investigation: losing interest in it after the third day.—*New York Evening Telegram.*

A BEAUTIFUL AND USEFUL GIFT
FOR YOURSELF AND FRIENDS

MASTERS *of* ADVERTISING COPY

Principles and Practice of Copy Writing
ACCORDING TO ITS LEADING PRACTITIONERS

Edited by J. George Frederick, formerly editor of "Printer's Ink," "Advertising and Selling," etc.

Here is what James Melvine Lee says in the November 21st issue of EDITOR & PUBLISHER:

"If the 25 experts whose names are printed in the table of contents of 'Masters of Advertising Copy' were scheduled to speak at an advertising convention on the subjects which they discuss in this book, every advertising man would be asking himself the question, 'Can I afford to stay away?'—not 'Can I afford to go?' No such convention is possible, for some of the contributors have made their last speech and written their final copy."

Who are the contributors to this volume? They include:

Joseph H. Appel	A. Holmes
Bruce Barton	Claude C. Hopkins
Humphrey M. Bourne	Ruth Leigh
Harry E. Cleland	Theodore F. MacManus
George L. Dyer	John Lee Mahin
F. R. Feland	Ben Nash
Frank Irving Fletcher	Wilbur D. Nesbit
Richard A. Foley	O. A. Owen
J. K. Fraser	Charles Addison Parker
J. George Frederick	T. Harry Thompson
Mrs. Christine Frederick	Harry Tipper
Kenneth M. Goode	James Wallen
John Starr Hewitt	Helen Woodward.

The volume is a splendid sample of modern book-printing art. It is bound in boards; in octavo size; with correct, wide margins. The type is caslon, the format especially designed. The paper is antique wove, velvety to the touch. You will be proud to own such a book.

Give this Bible of Advertising to your friends and associates as a useful holiday gift.
The price is $5.00 postpaid.

To Publishers and Managing Editors

The Editors' Feature Service, Inc., has been organized to create and produce an exceptional feature service for newspapers of from five thousand to seventy-five thousand circulation.

It is not a by-product of any newspaper or newspaper chain. It is an organization of specialists whose business it will be to build a service to best fit the feature requirements of newspapers of the type referred to, at reasonable cost.

The service will be sold on a basis which will amply protect the purchaser as to its quality, assure him of satisfactory territorial rights, and protect him against usurious rate increases.

We believe an inspection of our proof sheets will show that we have adapted the best offerings from competitive services and to these added others that will provide our subscribers with features having individuality and quality.

We will release the service as of January 1st, 1926, but during the month of December will produce and submit a daily service, that publishers and editors may judge it for themselves.

Write now for territorial reservation and sample service.

COL. GEORGE H. SCRUTON

Sedalia (Mo.) Democrat Editor Dies November 29

Col. George H. Scruton, 63, owner and editor of the *Sedalia* (Mo.) *Democrat,* died there on Nov. 29, following a long illness.

Born at Rome, N. Y., Dec. 26, 1862, he was taken by his parents to Georgia, where he was educated and had his first newspaper experience. In 1892, he purchased the *Fort Smith* (Ark.) *Times.* In 1893, he went to Springfield, Mo., and became connected with the *Springfield Leader.* In 1902, he went to Sedalia, and after working on the *Sentinel* and *Democrat* for a number of years, he became editor of the two papers which were consolidated into the Democrat.

At one time he was president of the Missouri Press Association.

In 1917, he was commissioned a captain in the Officers' Reserve Corps and served overseas in the World War. He was made a major shortly after his enlistment and a colonel before the war ended.

ALEXANDER A. McCORMICK

Former Chicago Record Herald Publisher Dies at 62

Alexander A. McCormick, 62, former publisher of the *Record-Herald* and *Evening Post,* died Nov. 26, of heart disease. After retiring from the newspaper field he was an alderman for several terms and president of the County Board.

Alexander Agnew McCormick was born in Philadelphia, the son of Alexander Agnew and Katherine McQuiston McCormick. In 1895 he became general manager of the Evening Post and *Times-Herald.* Later he was general manager of the Record-Herald and then became editor and publisher of the Evening Post. He was editor and publisher of the *Indianapolis Star, Terre Haute Star* and the *Muncie Star,* from 1906 to 1909. He had been president of the American Publishers' Association and was chairman of the Labor Committee of that organization from 1900 to 1907. He was a trustee of Illinois College at Jacksonville, Ill.

R. G. Hiden Dies in Birmingham

Robert G. Hiden, formerly of Richmond and for years a well-known newspaper man, was buried Monday, in Birmingham, Ala., where he died Friday, Nov. 27. Mr. Hiden was for a long time managing editor of the *Richmond Times,* before its merger with the *Richmond Dispatch.* He published the *Birmingham Ledger* and at the time of his death was associate editor of the *Birmingham Age-Herald.*

H. C. Thompson Dies

H. C. Thompson, 84, editor and publisher of the *Delaware* (O.) *Gazette* died at his home in Delaware, Nov. 29, following three weeks' illness. He was one of the pioneer newspaper publishers of Ohio, and the Gazette had been owned by the Thompson family for nearly 100 years. W. D. Thompson will succeed his father as third generation editor of the publication.

Col. William H. White

Col. William H. White, veteran newspaper writer, and former city editor of the *Washington Post,* died Tuesday in the Casualty Hospital, Washington, as a result of injuries received when struck by an automobile truck near his home at Maryland Park on Sunday. He was 70 years old. Col. White was born at Dayton, Ohio. He came to Washington 35 years ago. He was 15 years city editor of the Washington Post, then Sunday editor. After leaving the Post he was connected with the Washington bureau of the Associated Press.

New York Racing Writer Dies

Willie Fitzpatrick, for many years the racing editor of the *New York Evening Journal,* died in Baltimore, Md., Nov. 30. The prominent turf writer was stricken with double pneumonia, while covering the annual fall meeting at the Bowie track.

Obituary

HENRY J. MOULTON, 78, former editor of the *Lowell* (Mass.) *Citizen,* the *Lowell* (Mass.) *Courier-Citizen* and former owner of the *Lowell Sunday Critic* died at his home in Boston last week. Mr. Moulton had retired from active newspaper work but was a steady contributor to the *Boston* (Mass.) *Globe* in the "Great Events Greatly Told" column in that paper.

HENRY C. CORAM, 82, for many years distributing agent for Boston newspapers at West Quincy, Mass., died at the Quincy hospital Nov. 25.

JOSEPH GAMAGE, 92, for many years pressman on Boston newspapers and at one time employed on the old *Boston Herald Magazine,* died at his home in Malden, Mass., Nov. 25. He was celebrated as a globe trotter, having crossed the Atlantic ocean 71 times.

JOHN G. LEETCH, for more than 40 years compositor on the *Boston Herald,* died Nov. 27 at his home in Arlington, Mass., after an illness of two years.

TOM CURRY, 69, for the last two years editor and publisher of the *Holt County* (Mo.) *Sentinel,* died at his home in Oregon, Mo., Nov. 18.

HARRY C. McCABE, 44, for many years one of Denver's most prominent newspaper men, died Nov. 23, after a long illness contracted while serving as military censor at Los Angeles during the World War. At various time McCabe had been a member of the staff of the *Denver Post* and the *Rocky Mountain News* and *Denver Times.*

MRS. MARY LEE RUGGLES, 62, who died last week at Austin, Tex., was the mother of D. G. Ruggles, night editor of the *Dallas News,* and of William B. Ruggles former sports editor.

GEORGE STUMM, 53, for many years engaged in the newspaper business at Painesville, O., died at his home there, Nov. 26. He was city editor of the *Painesville Telegraph* for 18 years.

J. A. LAMBERT, 71, owner of the *Somerset* (Pa.) *Standard* died suddenly at his home, Nov. 25.

MISS RUBY ETHEL MOORE, 25, employed in the business and circulation department of the *Seattle Times* for six years, died recently.

HENRY PEARSON, who had spent 35 of his 68 years in the service of the *Chicago Daily News,* died recently. During the past few years he had been manager of delivery.

JOHN MALLOW, an employe of the *Chicago Tribune* in its electrical department, died at his home at the age of 71.

MRS. LUELLA F. MELLEN, wife of John F. H. Mellen, of the *Boston Post* editorial department, and mother of James H. Mellen, connected with the financial department of the *Boston Herald,* died Nov. 25 at her home in Dorchester, Mass.

JOHN M. GEIGER, 76, for more than 40 years connected with the *Reading* (Pa.) *Eagle* died in the Reading hospital, Nov. 29, after an illness of several months. His widow survives.

C. L. ("UNCLE CHARLIE") MARTIN, 86, who died recently in Dallas, was believed to be the oldest newspaper reporter. Until he became ill a few weeks ago he was an active worker on the *Dallas News* staff. "Uncle Charlie" was a Civil War veteran and lived in Texas when it was a republic.

E. WILLARD BARNS, 60, editor and publisher of the *Wellsville* (N. Y.) *Daily Reporter,* died Nov. 25, after an illness of 3 years. For the last 40 years he had been with the editorial and publishing departments of the reporter.

LYMAN A. CHAPIN, 86, a retired news dealer for many years in business in Hartford, Conn., and Quincy Mass., died at his home in the latter city, Nov. 24.

MAURICE DOUGLAS FLATTERY, former publisher of the *Boston* (Mass.) *Record* died suddenly last week in Boston.

JUDGE H. M. EDWARDS, who died at Scranton, Pa., recently worked on the *New York Tribune* in the days when Horace Greeley was editorial writer for that paper. It was from Mr. Greeley that Judge Edwards obtained his first newspaper position. Later he contributed to other New York newspapers.

CAPT. WILLIAM GRIFFITH, 80, former State Treasurer of Maryland and for several years editor of the *Cumberland* (Md.) *Daily News,* died at his home in Cleveland recently. He was a veteran of the Civil War.

MISS ANNE M. D'ENTREMONT, 94, for more than 25 years an employe of the *Boston Herald* died recently in Yarmouth, Nova Scotia. Miss d'Entremont entered newspaper work as a young woman in Yarmouth. On removing to Boston she joined the personnel of the *Youth's Companion.* Later she became identified with the Boston Herald.

JOHN A. SEARS, for more than 40 years connected with newspapers in New Brunswick and Maine, died recently in Calais, Me. He was the first foreman of the *St. Stephen* (N. B.) *Courier* composing room.

MRS. HAROLD L. GRAY, whose husband is the creator of the comic strip, "Orphan Annie," died at her home at Lombard, Ill., recently, after an illness of six months.

Typographical Chiefs Entertained

James M. Lynch, president; Seth J. Brown, vice-president, and John W. Hays secretary-treasurer of the International Typographical Union, Indianapolis, were entertained Nov. 19, by the Royal City branch of the union in Westminster, B. C. The officials were taken on a tour of Vancouver, B. C., and suburbs as guests of the Vancouver union.

Buffalo Reporter a Fire Hero

James C. Trainor, city hall reporter for the *Buffalo Evening News,* carried three infants to safety when he discovered a fire in the home of Stanley Fibnik, Fillmore avenue, Buffalo, recently

Twenty-four newspapers have been added to the United News wire systems since September first.

These newspapers thus acquired the most distinctive, up-to-the-minute telegraph news and feature report now in the field for morning papers.

A majority of them depend solely on United News for world news coverage.

WITH THE GENERAL ADVERTISERS

Champion Spark Plug to Increase Advertising—Carl Laemmle Enters Chain Theatre Field on Large Scale—Charter Filed for $53,000,000 Baking Company

THE Champion Sparkplug Company will spend more money in advertising next year than ever before, and a large part of it is going into newspapers.

That is what President Robert B. Stranahan told a gathering of jobbers and salesmen handling the products of the Toledo Company in Boston, Nov. 27, at the annual convention for the New England teritory.

There will be 669 daily and Sunday newspapers used throughout the United States and in addition to that total there will be copy running in 4,000 weeklies.

"Our plans are so arranged that there will be three times the number of readers reached through the newspapers than there are registered automobiles," Mr. Stranahan said. "We have found that our advertising in the newspapers last year proved well worth the money expended. Treasurer Frank E. Stranahan and Sales Manager F. B. Caswell were also present and they spoke on merchandising. The meetings will be conducted also at St. Louis, Minneapolis and San Francisco in that order and later on working back east.

The Theodore MacManus agency handles the Champion account.

Carl Laemmle, organizer and largest stockholder of the Universal Pictures Corporation, is about to enter the chain theatre field on a large scale.

Announcement was made early this week of the formation of a new company which will acquire and operate a chain of more than 1,000 motion picture theatres located in the principal cities of the country. This new company will immediately take over more than 100 theatres owned or controlled by the Universal as a nucleus for further expansion to follow after introduction of new capital.

The project marks another step in the recent trend toward consolidating motion picture theatres into large combinations, thereby stabilizing the distribution end of the industry. One large company was organized along similar lines a short time ago, with capital of $20,000,000, and recently a large Chicago theatre operating company took over the management of 600 theatres and a large producing company.

The sponsors for the new company point out that the more stable and profitable operation of the modern motion picture house and assured distribution of the output of the producing companies are the principal reasons back of the plan to centralize the management of these theatres, which are recognized as the "retailers" of the industry. It is pointed out also that the statistics compiled by the trade show there are more than 20,000 theatres in the United States, with annual paid admissions exceeding $700,000,000. The weekly attendance at the movies is 55,000,000 people for the country as a whole and 4,500,000 for New York City alone.

A charter has been filed at Dover, Del., for a corporation to be known as the National Baking Company, with a capitalization of $53,000,000. Those active in the project, according to New York information, include: W. J. Coad, president of the Omaha Flour Mills Company and chairman of the Federal Reserve Bank of Omaha, Neb; John T. Smith, vice-president of General Motors, New York; Milton Petersen, vice-president of the Petersen Baking Company, Columbus, Sterling Donaldson, president of the Donaldson Baking Company, Columbus, O.; Russell White, vice-president and general manager of the City Baking Company, Indianapolis, Ind., and Chauncey Abbott Jr., vice-president and general manager of the Omaha Flour Mills Company, Omaha.

Servel Corporation is planning increased production of electric refrigerators, as a result of a merchandising campaign being conducted by a number of large public utility companies, officials announced this week. Contracts have been closed with seven utility concerns permitting the marketing of Servel machines exclusively on a free trial, guaranteed basis. Among the contracts closed were ones with the Illinois Power Company and the Malden Electric Company, of Massachusetts. The 1926 production is already being sold, officials say.

Redoubled force is being used to increase and stabilize sale of rayon lingerie, the American Rayon Products Corporation has announced. A longer list of rotogravure newspapers, additional millions of circulation, and larger space are being employed, the company states. The advertising program is now being placed in rotogravure sections in more than 20 cities.

M. Hohner, Inc., manufacturers of Hohner harmonicas, resumed its musical programs over the radio Nov. 27, as part of its regular advertising and sales campaign. As in the past, the broadcast advertising will be tied up with regular advertising in newspapers, magazines, billboards, trade papers, dealer helps, and window displays. The radio feature was inaugurated last year by Douglas Wakefield Coutlee, business manager of the Charles C. Green Advertising Agency, Inc., New York, which handles the account.

Oscar F. Ostby, former general sales mangaer of the Prest-o-lite Company has been appointed vice-president and advertising manager of the Burnoil Automatic Home Heating Company with main offices in New York City. Mr. Ostby plans an extensive sales drive throughout New England in the near future.

J. L. Kraft & Brothers Company, makers of Kraft cheese, are using approximately 500 daily newspapers in its advertising campaign this year. In a letter to the Bureau of Advertising of the American Newspaper Publishers Association made public this week, John H. Platt, advertising manager, says:

"The newspapers are important to us and will continue to be so because of the quick and traceable sales influence which they give us. We feel this response definitely through our dealers and trade contacts generally."

Alfred P. Sloan, Jr., president of General Motors, this week announced an extra dividend of $2 a share besides the regular dividends of $7 a year on preferred stock held by employes. The first extra payment of $2 will be paid on Feb. 15, 1927, and will continue for five years, provided the employe retains his stock and remains in the company's employ.

David R. Erwin, formerly automobile editor of the *Seattle Times*, and for the past two years in charge of the expansion division of the Burroughs Adding Machine Company, has resigned to enter the advertising department of the Cadillac Motor Car Company.

Stromberg Carburetor Company of America, Inc., reports for the quarter ended Sept. 30, 1925, a net profit of $240,027, after expenses and federal taxes.

Rolls-Royce of America, Inc., has acquired control of Brewster & Co., the automobile body building concern.

Paul S. Armstrong, advertising manager of the California Fruit Growers Exchange, was appointed assistant general manager of the organization at the meeting of the board of directors recently. Mr. Armstrong fills the position left vacant by E. G. Dezell in 1922, when he succeeded the late Howard Russell as general manager.

W. B. Geissinger, assistant advertising manager of the Exchange, succeeds Mr. Armstrong as advertising manager, and J. O. Cook, manager of the dealer service department, becomes assistant advertising manager.

Mr. Armstrong has been in charge of the Sunkist advertising and sales promotion work of the growers' organization for the past four and a half years. He joined the dealer service department as an eastern travelling representative in 1916. In April, 1917, he went to Los Angeles as manager of the dealer service division of the advertising department. In December of that year he was made assistant advertising manager, and in 1921 he was promoted to the management of the advertising department. He is a graduate of the Michigan Agricultural College.

Mr. Geissinger entered the Sunkist advertising department in April, 1921, and was made assistant advertising mana in November of that year. For seve years prior to that he was financial edi of the *Los Angeles Express* and *Tribu*

Mr. Cook, who becomes assistant vertising manager, joined the Boston di sion of the dealer service department 1915, and went to Los Angeles as mana of the department in 1921.

The California Fruit Growers E change is one of the oldest and m successful among co-operative grow organizations, and has more than 11,(members. It markets approximat three-fourths of the California citrus c and transacts an annual business of tween 50 and 75 million dollars. T Exchange was a pioneer in the adver ing of perishable fruits and has made Sunkist brand nationally famous. It gan advertising California oranges years ago.

ADVERTISING AGENCY AFFAIRS

Two of a fleet of 22 White Trucks in the service of The Brooklyn Daily Eagle

Increasing Newspaper Sales for the Brooklyn Eagle

IN all the field of motor transportation there probably is no phase of service that is more exacting in its demands than the service required by newspaper publishers and allied business enterprises.

Speed, dependability, the stamina to withstand the severe demands of emergencies, the durability to last for years—these must be constituents in the make-up of trucks that are to serve successfully the publishing field.

The Brooklyn Daily Eagle's fleet of 22 White Trucks delivers in a year over 28,700,000 newspapers. With clock-like regularity 79,500 papers of the Eagle's main edition are delivered daily in 90 minutes to 2,600 dealers and agents. This delivery service must be unfailing. Only the most reliable trucks, with speed and ability to rough it, can be utilized.

Says the circulation department of the Eagle:—"The Eagle has solved the problem of distribution with White Trucks. Speedy, certain delivery at a nominal cost with a minimum of mechanical trouble are the White contributions to the efficient Eagle delivery service which is daily increasing the sales of the Brooklyn Daily Eagle."

Write for booklet giving the complete story of White Trucks in the service of the Brooklyn Daily Eagle

REGULATIONS APPROVED FOR FIRST MEET OF PAN-AMERICAN JOURNALISTS

Secretary Kellogg Will Welcome Delegates to Congress Scheduled for Washington Next April—Other Plans Discussed at New York Conference

THE governing board of the Pan-American Union, at a meeting held in Washington Dec. 3, approved the regulations of the First Pan-American Congress of Journalists to meet at Washington from April 7 to 13, 1926.

The Congress, it is provided, shall open on Wednesday, April 7, in the Hall of the Americas of the Pan-American Union, at 8:30 P. M. At that time addresses of welcome will be made by the chairman of the governing board, the Hon. Frank B. Kellogg, Secretary of State, and by the vice-chairman of the board, the Hon. Francisco Sanchez Latour, Minister of Guatemala.

The forthcoming congress will be the first of its kind in the history of the American Continent, and will be held under the auspices of the Pan-American Union. Participation in the congress will be limited to members of the newspaper profession in the American Republics. The congress will not be official in the sense that delegates will be appointed by governments; delegates to the congress will participate in their capacity as representatives of the newspapers with which they are connected.

At the same time the governing board authorized the chairman of the board to appoint a special committee to study the organization plan of the Pan-American Union.

This special committee will be charged with the formulation of a draft of resolution or convention on the Pan-American Union, which will be submitted to the Sixth International Conference of American States to meet at Havana, Cuba, in January, 1928.

Plans for the congress were discussed in New York, Dec. 2, at a special conference called by L. S. Rowe, director general of the Pan-American Union.

The foundations of the program were laid, with the following subjects assigned for the various days of the meet:

April 8—The Press and International Relations.

April 9—Newspaper Ethics.

April 10—Gathering and Dissemination of News.

April 12—Advertising and Newspaper Organization.

April 13—Schools of Journalism and Newspaper Societies and Associations.

Speakers for the various sessions were proposed, but their names were not made public pending definite acceptance of invitations.

Dr. Rowe reported that response to invitations to attend the congress was very gratifying, especially from the nearer Latin countries.

Those attending the New York conference, in addition to Dr. Rowe, included: Frank B. Noyes, *Washington Star*, and president of the Associated Press; J. H. Furay, United Press; M. Koenigsberg, International News Service; Wallace Odell, representing the National Editorial Association.

Regulations as approved are:

Art. 1. In accordance with the resolution of the Fifth International Conference of American States and the action of the governing board of the Pan-American Union, the first Pan-American Congress of Journalists will meet at Washington in April, 1926, under the auspices of the Pan-American Union.

Art. 2 The opening session of the congress will be held at 8:30 o'clock on the evening of Wednesday, April 7, in the Hall of the Americas of the Pan-American Union, and the closing session on Tuesday, April 13, 1926.

Art. 3. The members of the congress shall be the executive officers of daily newspapers of the American Republics and journalists of these Republics actively associated with such daily newspapers, invited to participate in the congress by the governing board of the Pan-American Union.

Art. 4. The delegates to the congress will participate in their capacity as representatives of the newspapers with which they are connected.

Art. 5. The committees of the congress shall be as follows: an executive committee; a committee on resolutions; and such other committees as the congress may deem necessary.

Art. 6. The executive comittee, appointed by the chairman of the governing board of the Pan-American Union, in accordance with the resolution approved by the board on May 7, 1924, shall continue to function during the period of the congress and for such time thereafter as may be deemed necessary.

Art. 7. The executive committee shall have charge of the organization of the congress; shall appoint the secretary, assistant secretaries, interpreters, clerks, stenographers and such other assistants as may be necessary; and shall determine all quetionss of procedure not otherwise provided for in these regulations.

Art. 8. The committee on resolutions shall be appointed by the executive committee and shall consist of at least one journalist from each nation represented at the congress.

Art. 9. Motions shall be submitted in writing and will be referred to the committee on resolutions for consideration and report to the congress.

Art. 10. Resolutions shall be approved by a majority vote of the delegates present at the meeting.

Art. 11. The executive committee of the congress shall designate a temporary president.

Art. 12. The permanent president shall be elected by majority vote at the first regular meeting of the congress.

Art. 13. The official languages of the congress shall be in English, Spanish, Portuguese and French.

Art. 14. The deliberations shall be confined to such topics as are contained in the program, unless the congress shall decide to take under consideration new matters that may be submitted by the delegates.

New Owners Take Over Daily

The first issue of the *Trenton* (N. J.) *State Gazette* under its new ownership appeared Tuesday, Dec. 1. The new officers of the State Gazette Publishing Company are: Edward C. Rose, president; Ferdinand W. Roebling, Jr., vice-president; Frank D. Schroth, treasurer and publisher. All of the old company retire from the organization. The newspaper staff remains unchanged, temporarily.

TO INVITE PRESS CONGRESS

World Body Asked to Gather in Peking in 1927

Invitation to hold its 1927 meeting in Peking, China, will be extended the Press Congress of the World, when that body holds its forthcoming convention in Geneva in 1926.

Au Young, director of the Chinese Government Bureau of Economic Information in Peking, now in this country, has been in communication with Dean Walter Williams, of the School of Journalism, University of Missouri, and president of the congress on this subject. The Chinese executive visited Honolulu recently where the last Congress was held, and was favorably impressed with a survey he conducted in regard to what was accomplished there.

"We wish editors of all the leading newspapers in the world to have what we call in pidgin English a 'look-see' at China," he said in a recent Chicago interview. "China has been very much misunderstood."

TO OPEN NEW HOME

Poor Richards Plan a Week of Ceremonies Nov. 30 to Dec. 5

The Poor Richard Club, advertising society of Philadelphia, formally opened its new home with ceremonies held from Nov. 30 to Dec. 5.

Speakers throughout the week of festivity included Senator George Wharton Pepper; Hon. W. Freeland Kendrick, Mayor of Philadelphia; C. King Woodbridge, president of the Associated Advertising Clubs of the World; and Dr. Josiah H. Penniman, provost of the University of Pennsylvania.

The ceremonies included placing of registration cards, together with local newspapers, coins and other data, in an iron box to be sealed in one of the columns of the building and opened in 2026 A. D. This was the opening feature of the week on Nov. 30, which will close Dec. 5 with a "Radio Dance." At the latter function, there will be no orchestra present, all music by radio, which will be broadcast from a local station.

Howard C. Story, of Story, Brooks & Finley, Inc., special representatives, is president of the club.

College Daily Turns Press Critic

The *Harvard Crimson*, daily University publication, turned press critic this week, editorially deploring the preponderance of space devoted to college football in newspapers. The custom of picking all-American teams was characterized as "the last stage of that cheap aggrandizement through newspaper publicity, which tends to create in students' minds a false sense of values."

Assisting Ad Club Organization

Reginald Colley, special representative of the Associated Advertising Clubs of the World, returned to New York headquarters this week from a trip throughout the Northwest, where he assisted in organization of many new clubs.

Man Wanted!

In the office of every Newspaper, Agency or Advertiser there frequently arises the demand for another man.

In the Newspaper office the need may be for a business executive, an editorial, advertising, circulation or mechanical man.

The Agency may need to fill an executive or clerical position, and the National Advertiser may have an opening for sales manager, advertising expert, copy writer or artist.

Whatever the position open, it is essential that a list of applicants be studied in order to choose intelligently. One applicant might do, but the next may have had a little additional or more varied experience that accentuates his fitness for the particular job.

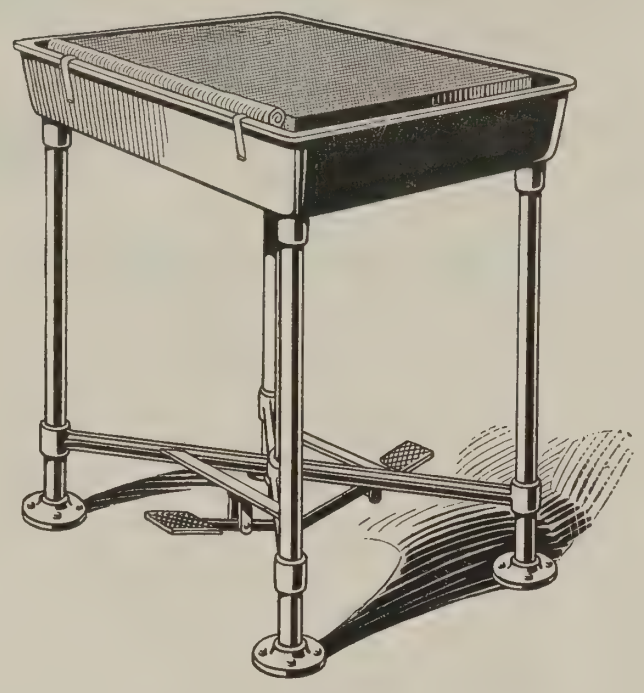
A Classified advertisement, stating your needs and asking applicants to state qualifications in detail, will give you a list that will permit you to choose intelligently.

EDITOR & PUBLISHER

POWERS PERFECTION COOLER

Every Newspaper Photo Engraving Plant should have at least one

The Powers Perfection Cooler requires no water connection of any kind.



It can be moved at will by simply picking it up and placing it where it is wanted.

It has no mechanical parts to get out of order.

It applies cold water evenly and simultaneously to all parts of the plate—ON THE BACK OF THE PLATE only.

It cools the plate instantaneously to the exact temperature required and saves wiping, mopping and reheating.

The price of the Powers Perfection Cooler is $350

The *Powers Perfection Cooler* met with the instantaneous approval of both the workers and the owners wherever it was installed and tried. The men in the shops like it because it helps them in their work. They save time and effort, turn out more work and better work, and do it with very little physical labor. It is a clean, workmanlike way of doing what is otherwise a messy, sloppy task.

Proprietors like it because it saves gas, water, time and makeovers. These savings mean money and profits and that is what we all want. To satisfy yourself, go into your etching rooms and see what happens when the etcher tries to cool a large plate by dragging it over a roller wrapped in old towels and rags or a piece of burlap. Watch the plate buckle and then see him try to straighten it out. You know what that means in color work.

The use of the Powers Perfection Cooler does away with buckled and twisted plates, the splashing of water on the face of the plate and the constant work and worry connected with etching. A zinc etching is heated from 13 to 16 times by the etcher. That tells the story.

WHAT THEY ARE SAYING

NEWSPAPERS AS CURRENT HISTORIES

"THE newspapers of today are more worth the librarian's serious attention than ever before. They are a more practical source of reliable current information than at any time in the history of the press. The publishers of newspapers which appeal to the intelligent and thoughtful do not regard their labors as merely the assembling and printing of casual, accidental news, which the sensation of the next day of the superseding edition will efface. Such publishers gather the news of permanent value; and they regard themselves as the day to day historians of our world."—Louis Wiley, Business Manager, *New York Times*.

* * *

BACK UP YOUR ADVERTISING

"BACK up your advertising. Have your sales force know what their store is advertising. Large or small, a successful store can be built only on courtesy, service and co-operation."—A. L. Shuman, Vice-President and Advertising Manager, *Fort Worth* (Tex) *Star-Telegram*.

* * *

EDITORS AND POLITICAL JOBS

"THE California Press Association meets in convention and it is disclosed that Gov. Richardson has given 30 editors and other newspaper men soft political jobs, some honorary and some remunerative. Press associations of other states would, likely enough, be able to make similar exhibits, and it is yet to be recorded that any press association paid very particular attention to the matter.

"It means rottenness in an 'influence' which should be wholly independent and honest in service of the public, exclusively, untainted by personal obligation. There is no avoiding such obligation. The editor who bites the hand that feeds him with public office is a mean creature.

"A politically 'kept' press is a scandal upon the whole profession, and a press association which closes its eyes to it is blind, senile and worthless."—Robert F. Paine.

* * *

ASSOCIATION OF IDEAS LAW

"IN advertising the association of ideas must be direct, natural, easy and pleasing and there should be as many starting points for 'association trains of thought' as possible to lead to or connect with the one idea the advertiser desires to etch in the public mind."—Colden Lore, in *The Advertising World* of London.

URGES CLEAN SPORTS NEWS

Fullerton Makes Plea for Honest Reporting at W. Va. Meet

Plea for clean sports news was made last week by Hugh Fullerton, veteran sporting writer, addressing the fourth annual West Virginia State Journalism Conference at Morgantown, W. Va., Nov. 23-25.

Mr. Fullerton said there was need of honesty in reporting and a generally higher type of writing on sports pages.

H. C. Greer, president of the *Morgantown Post*, entertained visiting editors at a banquet Nov. 25. More than 100 guests were present.

The guests were welcomed by J. Monroe Boyer, general manager of the Post. Gilbert B. Miller, former editor of the Post, acted as toastmaster. Before calling for any remarks from the speakers on the program, Toastmaster Miller briefly introduced a number of those present, including President Greer, Dr. P. I. Reed, director of Courses in Journalism of West Virginia University, President Frank B. Trotter, Dr. A. W. Porterfield and H. A. Stansbury, of the University, A. W. Poling, outgoing president of the Journalism Conference and R. H. Pritchard, the new president, Miss Maud A. Patterson of the *Morgantown New Dominion;* Brooks Cottle, sports editor, Joe W. Savage, editor of the Looking Glass Column and James C. Herbert, managing editor of the Post.

The first speaker introduced by Toastmaster Miller was Col. Andrew Price, the sage of Pocahontas county, editor of the *Pocahontas Times* at Marlinton and far-famed poet and humorist.

Permanent roads are a good investment—not an expense

One Horse Town, Good-Bye!

Any community whose streets are not durably paved is going to be known as a "one horse town."

When that time arrives, Prosperity says, "Good-bye, old friend, Good-bye!"

People start moving away. Bank deposits fall off. Business in general begins to take a slump, and the place is no longer "on the map."

Contrast all this with the city that is well paved.

It steadily forges ahead over its hard, even streets. Automobiles, busses and delivery trucks, operate efficiently and economically, regardless of season or weather.

Business is good, and keeps getting better. Modern, fire-safe buildings spring up. New industries are attracted to town. Plants and factories are working full time. Trade at the stores is brisk, and everybody's busy.

In short, permanently paved streets and roads are one of the very best investments any community can make. You can enjoy the tonic effect of well paved streets by helping your local authorities to find ways and means to build more of them.

NEW HIGH RECORD IN
New York State
FOR CHRISTMAS FUND

For fifty weeks past the Christmas clubs of the nation have been accumulating funds for holiday shopping that will increase the expenditures for the next few weeks by $314,154,800.

The distribution of this money will bring to the members of the club in New York State alone, $66,-186,400. This is more than 21 per cent of the Christmas savings of the entire country, and in exact proportion to income tax payments and other financial measures of the purchasing power of the Empire State.

Voluntary saving for the purpose of distributing money in large volume through retail channels reveals to the manufacturer an opportunity for sales promotion that is positively a gift.

Here, in New York, the most populous state in the country, extremely rich in agriculture and industry, financially supreme, already a trading area of great purchasing power, the people have saved $66,186,400 to spend—they want to buy your goods.

There is only one direct and positive way to meet this consumer demand. Tell these folks the news —that their local dealer is supplied with your merchandise—tell them through their newspapers.

Newspaper advertising covers a given territory more thoroughly, and costs less, than any other method of national sales promotion.

MANY FISH FIRMS STIMULATING SALES WITH NEWSPAPER ADVERTISING

Success of Individual Companies Points Way for U. S. Fisheries Co-operative Campaign—Consumption in U. S. Far Below Other Countries

By HAMMOND EDWARD FRANKLIN

THE suggestion by a New York advertising agency that the United States Fisheries Association for its proposed co-operative campaign invest $67,163.47 in paid magazine space and a modest sum a month in press agents who would try to get free material into the reading columns of newspapers has received ridicule in some quarters of the fish industry.

No plan of any sort has yet been adopted. At present, the association is attempting the job of raising the money to pay for a co-operative campaign to increase the consumption of fish. As many factors in the fish business have

How one company is promoting the sale of fish through newspaper space.

no conception of what advertising can do, it is said that getting the funds together will take time. Once before the association tried to do, and had to give it up.

After 300 years of somnolence in marketing, but splendid progress in producing methods, this great industry finds itself face to face with this fact:

People in the United States eat an average of only 16 pounds of fish per capita when they should consume at least twice that amount. Lack of consumption of a healthful, varied and meritorious food has made the fish business far less profitable than it should be for the men who risk their lives at sea down to the fish dealer who has to do a week's business on Friday.

The inhabitants of the United Kingdom eat 65 pounds of fish per capita, 44 pounds in Norway and 30 pounds in Canada. The supply of finny food is practically unlimited.

Boston, the largest fresh fish port in this hemisphere, lands approximately 125,000,000 pounds of fish a year. This sounds like considerable until you know that of this total, 56 per cent is consumed in Massachusetts alone. Connecticut, New York, Pennsylvania and Rhode Island manage to digest 33 per cent. The 11 per cent remaining goes to the rest of the country. These illuminating figures were discovered in a research made by the government.

Los Angeles is handling, inclusive of sardines, a heavy volume of fish, but only a fraction of what it might. The total which goes through the port of New York is picayune contrasted with the possible consumption.

Health authorities advise the eating of fish. Haddock, for instance, is nourishing, abundant and reasonable in cost.

Most of the wholesalers of fish are busy as beavers trying to take away business from other wholesalers, and very little constructive work has been engineered by them to broaden the total market. There is much to be done in getting fish to the interior states in first class condition. Definite standards of quality and refrigeration are important. There has been some talk of swapping refrigerator cars which come from the West loaded with fruits with the fish distributors who would send the same refrigerator cars back loaded with fish. Traffic study and favorable freight rates are factors.

The bulk of retail sales fall on Friday, whereas there is no sound reason why fish should not be an every-day food. Very little progress has been made by retail fish stores in merchandising fish, and much missionary work could be done with them, as every newspaper advertising manager can testify.

Several year's ago the Chamber of Commerce of Gloucester, Mass., the world's largest salt fish port, mailed a questionnaire to leading club women all over the country. The answers received showed what's wrong with the fish industry: lack of education of the consumer.

Nearly half the women admitted they do not use fresh fish at all, although most of their families like fish. What is equally significant or should be to the United States Fisheries Association is:

Approximately half of the women stated that fish is not readily obtainable in their towns.

Where there is distribution, the women said the variety often is limited. Most of the club members confessed they do not try to vary their method of serving salt fish and claimed the average modern women has little conception of how to cook fish in the scores of appetizing ways possible. The need of furnishing recipes to the public was brought out by many.

The Gloucester salt fish wholesalers chipped together and mailed recipe books to women in ten cities, but of course this was pitifully inadequate to meet the real selling problem.

The officials and members of the Fishermen's Union of the North Atlantic, representing over 5,000 seamen who belong to the American Federation of Labor, have gone on record as favoring advertising, but did not succeed in putting into effect the Aaron Sapiro plan of co-operative marketing used in agricultural industries.

There are many kinds of fish which are worth utilizing but which aren't known to the public.

Before the United States Fisheries Association adopts any one method of advertising, many think it should consider how some individual companies, with a problem involving fish, are advertising.

The Gorton-Pew Fisheries place virtually all their advertising in local newspapers, releasing it only after a reasonable distribution has been obtained in advance, with missionary salesmen and brokers cooperating.

When the Booth Fisheries Company wanted to interest the public in the securities of its enterprise (which operates 1,115 fishing vessels), it published large space advertising on the financial pages of the newspapers.

Underwood's "Simplifry" Codfish Cakes have been promoted considerably by local newspapers.

Burnham & Morrill Fish Flakes and other canned sea food products have been advertised in New Orleans in the newspapers.

An extensive newspaper campaign was conducted for J. W. Beardsley's shredded codfish.

The Neptune Sea Food Company, San Diego, Cal., which cans 400,000 sardines daily, uses newspaper space.

For years Olympia Oysters have been featured in big and small copy in newspapers with educational work of a high type.

The Biloxi (Miss.) canners have given publicity to canned oysters with copy and recipes in local newspapers.

The Chicago Wholesale Fish and Oyster Dealers' Association turned to newspaper advertising to counteract a curtailment brought about by a ban after a typhoid epidemic during which use of oysters had been cut off.

The most recent and most hopeful development for stabilizing the fish industry is what is called "filleted haddock." The fish are dressed, heads and tails cut off upon arrival, and bones removed. The fish then are wrapped in trademark parchment paper (something like butter) and shipped in iced containers to fish markets, meat markets and grocery stores. Within the last several years sales of this form of trademarked fish have grown by leaps and bounds. One company markets nearly $500,000 worth a year.

Newspaper advertising in a test campaign for this form of fish produced satisfactory results and it is probable this commodity will be advertised more in the future.

W. A. Cochel Succeeds Waters

W. A. Cochel of Kansas City, Mo., field representative of the American Shorthorn Breeders' Association, has been appointed managing editor of the *Weekly Kansas City Star*, succeeding Dr. Henry J. Waters, who died three weeks ago. Mr. Cochel is widely known in agricultural activities and taught animal husbandry at the Kansas State Agricultural college while Dr. Waters was dean.

Silph Medical Co.

To-Day

And Not So Long Ago

"To chew or eschew" . . . so meditated Mrs. Fair, Fat & Forty and Miss Displeasingly Plump Sixteen Back in the Corset Age. But today they chew and chew! This sounds like a railroad train. . . .but it isn't. . . . it's chewing gum!

For nowadays after the second or third helping of fudge and French pastry madame doesn't return home to roll on the floor, or go for a ten mile trip on the stationary bicycle in a steam vapor cabinet. . . . no, indeed! She chews gum!

An amazing new discovery, product of the Silph Medical Co. of N. Y., is the latest, most practical and harmless way of reducing superfluous flesh.

Soon, with this new gum coming into vogue the old "drug store complexion" gag will be superseded by something to the effect. . . "Why, her figure. . . . she got it at the drug store!"

Can anyone imagine any editor running this piece of free advertising as "news" or "feature"?

It was broadcast to certain newspapers last week by the Tuthill Advertising Agency, Inc., 1133 Broadway, New York, with a letter which reminded editors that Silph Gum had recently been advertised in paid space and now, would the editor kindly insert the cute picture and its oh! so humorous story "in your reading columns."

Why? A thousand times—why?

MIAMI, OKLA., DEAL

E. P. Martin Sells His Interest in News-Record

E. P. Martin has sold his interest in the *Miami* (Okla.) *News-Record* to the other owners of that publication. J. F. Robinson is the present Associated Press member, and H. B. Hutchinson is editor of the paper.

Mr. Martin has been engaged in the newspaper and job printing business in Ottawa county, Oklahoma, since August, 1908, at which time he founded the *American* at Afton. This was sold to E. D. Mitts of Okeman in 1914, Mr. Martin at the same time purchasing the *Record-Herald* from M. C. Faulkenbury and taking charge in March, 1914.

In May, 1917, he established the *Daily Record-Herald* which publication was continued until late in 1923, when it was consolidated with the *Miami News*, appearing as the News-Record January 1, 1924, with Mr. Martin as publisher.

Community Ad Fund Over-subscribed

The drive put on last week by the Bristol, Va-Tenn, chamber of commerce for the raising of a fund of $25,000 for community advertising next year was oversubscribed in one day by $225. Out-of-town subscriptions to come in probably will bring the total nearer $30,000 than $25,000. About 60 business men of the city spent the day interviewing prospects.

Mobile (Ala.) man tried to kidnap a girl and marry her. Movies do educate people.—*Columbia Record.*

We Deliver the Goods in ILLINOIS

Nation wide distribution is developed from territorial units—*That is self evident.*

Territories for merchandising and sales promotion are decided upon after careful survey—*That is business judgment.*

A factor in merchandise distribution is transportation facilities—*That is important.*

Transportation experts point out that freight can be shipped cheaper, quicker, more direct and by shorter route from all Illinois cities, as a group, to all other cities in the United States, than from any other state group.

Illinois has more concrete highway than any other state in the union and more miles of concrete roadway to the square mile.

To create consumer demand, advertise in the Illinois daily newspapers.

These papers have a state wide dominance

AD RATE DIFFERENTIAL LIKE "SANTA CLAUS"

"maginary," Says Groom, Aurora Beacon, Explaining Viewpoint of Small Daily Publishers—Based on Quantity Discount Theory

Aurora, Ill., Dec. 3.—"Why all this ntroversy about the imaginary differ- tial between local and national rates?" questions J. K. Groom, director of national advertising of the Northern Illinois Group of Newspapers, who, in an interview explained the viewpoint of the publishers of small dailies on the question brought up at the recent convention of the Association of National Advertisers.

J. K. Groom

The A. N. A. passed a resolution call- g for "a more logical and equitable ad- rtising rate structure," complaining ere was too wide a differential between es for foreign and local advertisers newspapers of the country.

The differential is logical, Mr. Groom ntained. It is based on the theory "quantity discounts," he said.

'The man who uses a large amount linage gets a lower rate than the one o uses only a small amount. If that 't fair, why do manufacturers sell to bers at a lower price than they do retailers?"

Mr. Groom began by pointing out that small daily newspaper is never repre- ted at meetings of the A. N. A., and American Association of Advertising encies.

'The men invited to discuss this thing th agents and A. N. A. members are big men in the newspaper publishing d, seldom the advertising managers o are closer to the proposition than the publishers," he said.

'Also, all the discussions I read are men on large papers, in metropolitan semi-metropolitan cities. The 100,000 y group are about as small as ever get to the program. These men do not w much about the conditions in smaller ies, with papers of from 10,000 to 25,- 00 circulation and which are the great jority of worthwhile papers of the ntry and are the ones that a vast ma- ity of the people read.

'I never have read of the merits of this s of papers being discussed before her the A. A. A. A. or the A. N. A. hy doesn't this class ever have a chance tell the buyers of space the facts upon ich they base their claim for inter- ed attention.

'Not any of the newspaper men re- ted in EDITOR & PUBLISHER'S account the A. N. A. convention, when dis- sing rates and differential, mentioned at seems to me to need stressing.

'The man who said "There is actually differential between local and foreign es" told the truth, but he only half plained why.

'The other half is that no national ad- tiser in newspapers is a large adver- er in any individual newspaper.

'Get that—for there is the place where differential seems to come in, but as anatter of fact does not.

'National advertisers on a foreign 'flat' e are being treated better than local vertisers who use small space, because they were on the local card instead of s 'flat' rate, most of them would have pay more than they do, because they so small.

'Local cards are built on the theory of antity discounts. The man who uses large amount of linage gets a lower e than the one who only uses a small ount. If that isn't fair, why do man- facturers sell to jobbers at a lower price n they do to retailers.

'Who among the national advertisers l contract for 100,000 lines; or if he d, would fulfill his contract?

"It was that very thing that brought the 'flat' rate into existence. Agents and advertisers contracted for the maximum linage to get the minimum price, then did not fulfill the contract and refused to pay 'short' rates. The only way to get that 'short' rate was to sue, and few papers had the nerve to do it. So publishers cut out the 'short' rate controversy by going to a 'flat' foreign rate. It's a blessing for national advertisers who do not use about 25,000 lines and up.

"Or who among national advertisers would contract to use 210 lines every other day on specified days and 420 lines on Sunday, and pay for them whether used or not? Not one.

"So why all this controversy about the imaginary differential between local and national rates?

"I don't think there is any paper that would refuse the minimum local rate to a national advertiser who would use the maximum linage required of local advertisers to get it.

"So we have the answer in full to the complaint against the so-called differential between national and local rates in the two facts; that national advertising costs more to get and to hold. And the national advertiser is a small advertiser so far as any individual paper is concerned; and by the established custom of business, should pay a higher rate than the large advertiser."

MAY SELL PAPER STOCK

St. Maurice Holders to Vote on Deal with Belgo-Canadian

A special meeting of the stockholders of the St. Maurice Paper Company, Ltd. has been called for Dec. 8, to approve the proposed sale of the company's stock to the Belgo-Canadian Paper Company, Ltd., on the same terms as Union Bag and Paper Company will sell its 64 per cent. interest in St. Maurice Paper Company stock to the Belgo-Canadian Company,. Such approval, it is said, would permit the merger of the St. Maurice Paper Company with the Belgo-Canadian Paper Company, Ltd.

Under the proposal St. Maurice Paper Company stockholders will receive $100 a share in cash and a pro rata participation in a holding company to be organized to operate the merged properties. An interest of 31¼ per cent. of the stock of this new holding company will be transferred to the St. Maurice Company. Under the arrangement, stockholders of the latter company, in addition to the cash, will receive one share of the new holding company stock for each five shares of St. Maurice Paper stock now held.

Table Shows Circulation Density

The *St. Joseph* (Mo.) *News-Press* has compiled a table showing the density of paid city circulation of 320 newspapers in cities of 60,000 or over. It shows the city circulation, estimated population, and units of population per copy. The circulation figures used are taken from reports to the Audit Bureau of Circulations of the date of March 31, 1925.

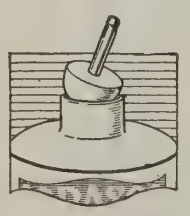
QUICK STICK PASTE POWDER

For
Single and Bundle Wrapping



For the mailing room of a newspaper Quick-Stick has no equal. It is mixed in a minute—possesses greater strength than the paper itself and when once applied it will not let go. Use Quick-Stick for single and bundle wrapping. Mixed thin and strained it forms a highly efficient paste for facing and backing matrices.

No. 705
A Superior Paste
for the
Mailing Machine

A smooth, easy flowing white paste that permits the fastest labeling possible. It will not sour or mould regardless of weather conditions and will not clog or gum up the fountain. It will pay you to give No. 705 a trial in your mailing machine.

COPASCO

Let the boys use it

Copasco is a convenient desk paste —economical —never dries out— never needs water—won't cake— spreads smoothly and evenly at all times. Let the men at the desks give Copasco a trial.

NO SHORT CUT TO LOWER MARKETING COSTS DISTRIBUTION REPORT STATES

Elimination of Middlemen Would Merely Shift Burden to Another Agency—Opportunities for Chain Store Growth Seen

WASHINGTON, D. C., Dec. 3.—Significant changes in the field of distribution, the integration of marketing, co-operative marketing, chain store development and installment buying, are disclosed in the report of the Committee on Methods of Distribution which will be submitted to the National Distribution Conference to be held here on Dec. 16 and 17 under the auspices of the United States Chamber of Commerce and the United States Department of Commerce.

After an extensive survey of the various channels through which goods are transferred from producer to consumer the committee finds that there are no short cuts by which the costs of marketing may be materially reduced, it is revealed by the copy of the report furnished EDITOR & PUBLISHER this week.

The middleman or wholesaler who is often blamed for taking too large a proportion of the consumers' dollar is performing, the report states, a necessary function which is performed by some other agency even if he is eliminated, so that the expense of wholesaling is *certain* to be present.

Charles R. Wiers, president, Direct Mail Advertising Association, Boston, is a member of the committee. The survey is one of six covering as many phases of the distribution field which will form the basis of discussion at the forthcoming conference.

"Channels of distribution," the committee states, "have developed as they exist now because in general they furnish the most economical and expeditious methods of getting goods from producers into the hands of the consumers. Market channels and methods are not cut and dried and methods have been and are being improved through the competitive attempts on the part of manufacturers and distributors. These channels cross, merge and separate again into diverse ways, in different industries, to meet the particular needs as they are being discovered. It is not practicable or desirable that there shall be any distinct aggregation of distributive functions along uniform or precise lines. It is desirable, however, that the functions shall be simplified where possible and adapted to changing conditions, for these conditions are the outgrowths of fundamental economic changes.

"Weaknesses exist in marketing organizations just as they exist in factory organizations and management and changes and improvements are coming gradually as the weaknesses are sought and identified, one by one through the force of competition.

"Location of retail outlets is directly responsible for much waste through the starting up of businesses in locations which do not warrant the location of an additional store. Some chain store companies are seeking to reduce the locating of stores to a science and some jobbers and trade associations are aiding in the work; others, however, encourage the starting of stores irrespective of their chances of success.

"The middleman system of marketing," the report continues, "has developed for the simple reason that middlemen are able to perform the marketing functions in the most economical and effective manner. Middlemen achieve economies in two principal ways: they acquire skill in performing marketing functions through specialization and achieve economies by combining products made by different producers or manufacturers.

"The term, elimination of middlemen, is slightly misleading, because when one so-called middleman is eliminated, the producer, or someone else, has to undertake the functions previously performed by the eliminated middleman."

The committee finds that there is a trend in the direction of integration of marketing, the bringing of the several processes of distribution under single ownership, although it is not so marked as is commonly supposed.

Manufacturers themselves assume the functions of "manufacturers' agents" and of jobbers by selling directly to retailers and sometimes to consumers. Retail organizations, especially chain store companies and department stores, are reaching back and performing wholesale and sometimes manufacturing functions. Wholesalers are reaching out in both directions, undertaking manufacturing functions and sometimes organizing or becoming interested in chain stores.

This change is ascribed principally to the increasing size of manufacturing companies, the increasing size of retail units, the increase in the private brands of jobbers and the increase in national advertising.

Chain stores are characterized as one of the most important developments taking place in the field of marketing.

"They are an important influence," the committee concludes, "in reducing marketing costs and in changing methods of distribution."

"In some trades," the report continues, "and in some sections of the country, the chain store movement has probably nearly reached the point of saturation. Well-managed unit stores, handling a carefully selected line of products, and giving service, are always going to hold a large proportion of the total business. There is still a great opportunity for the growth of chain stores, however, in the Middle West and West and in country towns."

Installment selling is one of the latter-day developments in marketing at which the committee points a warning finger.

"Development of installment selling," it says, "was not pronounced until the advent of the automobile. Today, however, installment selling is employed in the sale of multitudes of articles.

"There are evident dangers which may be incurred by such a system, although there are also some advantages."

ADVERTISER PRAISES NEWSPAPER AID

Co-operation from Dailies in Selling Space to Local Dealers Lauded by Conybears of Armstrong Cork Co.

Co-operation by newspapers in selling space to local dealers won the praise this week of S. E. Conybeare, assistant sales manager in charge of advertising of the linoleum division, Armstrong Cork Company. Mr. Conybeare was addressing the national advertisers group of the Advertising Club of New York, Dec. 3, and he told them he had had great success in special advertising drives sold by the dailies themselves twice a year.

His company, he said, advertised regularly in a list of 187 newspapers. Then twice a year an "Armstrong Week" was held, once in the spring and in the Fall.

At these times special portfolios containing advertising mats were sent out to newspapers to be sold to local linoleum dealers. The portfolios contained three different types of advertising copy to suit the needs of the different dealers. The newspapers, he said, apparently found the campaign easy to sell.

U. S. SURVEYING INDUSTRIES

Questionnaires for Biennial Census of Manufactures to Go Out Soon

The Bureau of the Census is making plans for the next biennial census of manufacturers, which will cover the year 1925.

In deciding upon the items to be covered the bureau has consulted with the representatives of various manufacturers' associations with a view to obtaining, as far as practicable and without making the schedule too elaborate, information which will be of value to the representatives of the several industries concerned, and at the same time furnish a record of the progress of manufactures generally throughout the United States.

The blank forms upon which reports should be made will be mailed by the bureau to all manufacturers about Jan. 1, and a report will be required from each manufacturer whose gross products are valued at $5,000 or more for the year 1925. The Census Bureau hopes every manufacturer concerned will have his records in such shape that he can fill out the schedule within a few days.

Formally Opens New Home

Newspaper publishers in Western New York, advertisers and subscribers of the *Hornell* (N. Y.) *Tribune-Times*, were the guests at the Tribune-Times new home at a formal opening Nov. 28. Employes acted as guides and explained the various phases of the plant's operation. The new plant represents a cost of approximately $150,000.

BETTER ROTOGRAVURE RESULTS FROM INTELLIGENT PICTURE SELECTION

Reproducing Quality of Photograph, Not Timeliness, Is Prime Requisite—Layout Should Provide Balance and Proportion

By E. LESLIE WATHEN

Rotogravure Editor, *Buffalo Courier*

MANY newspaper men know rotogravure as a pictorial supplement, but few know or realize the amount of work that enters into the production of a rotogravure section.

It is not surprising to a gravure editor to have one of the staff ask if he may borrow a cut that was published last Sunday. If the editor has a sense of humor he'll say, "All right Bill, you can have it if you'll send a motor truck over to get it." Of course this reply is over Bill's head because he does not know the first thing about the intaglio process of reproduction. If he did, he would know that all the pictures in the rotogravure section were etched on a cylinder that weighs about a ton, also that gravure is a process quite apart from ordinary methods of printing.

Because of the general lack of knowledge regarding the requirements of rotogravure it is not surprising to hear, from time to time, that so-and-so of the city room staff or someone who knows nothing about the job has been appointed to the important position of rotogravure editor. The powers that be, think that the main qualifications for a gravure editor is some one to write good captions. Whereas caption writing is a necessary qualification it is not the most important. About 50 per cent of the gravure sections published today are a sort of hodge-podge of pictures thrown together without rhyme or reason. To prove this statement, select 20 gravure sections from various cities and lay them alongside of one another. At a glance you will be able to select five or six that stand out from the rest because of their superior appearance.

What is it that makes rotogravure so attractive? First: The beauty and richness of the pictures reproduced. Second: The layout and balance of the pictures.

In order to achieve beauty and richness of reproduction the editor cannot select a batch of pictures at random. He must know what constitutes good rotogravure copy. Quite often he will be obliged to sacrifice a picture of real news value because it will not reproduce well. The paramount object is to select interesting photographs, are clear in detail and tone value. A careful selection of pictures will result in good reproduction. Much could be said on the topic of pictorial copy, but space will not permit at this time.

When the selection of photographs has been made the next step is to group them together in a layout which will be pleasing to the eye. No matter how good the selection of pictures, if they are not properly arranged the finished product will tend to irritate the reader and make it an effort, rather than a pleasure to look at the supplement. In laying out a page one picture should be selected to be played up. If it does not lend itself to a run across the top half (if a right hand page) it should occupy the upper right hand portion of the page, in other words the balance should be away from the fold.

Simplicity of design is the best rule, too much ornamentation detracts from the pictures. A qualified rotogravure editor should know how to scale pictures and make a full size pencil dummy of each page for the artist to work from. By so doing the editor allows the proper amount of room under each picture for captions and is able to obtain the display of pictures exactly the way he has planned. There are a few editors who go to the extent of penciling their own layouts on bristol board ready to be inked in by the artist, this is a distinct advantage of the editor is talented to that extent. In addition to selecting pictures, assigning staff photographers, writing captions, making layouts and having a strong appreciation for the artistic, the editor must be an executive who is systematic since there are many details that must be watched and a schedule to be kept.

The successful rotogravure department should function as a separate unit, consisting of an editor, artist, one or two photographers, and an advertising man who specializes on local rotogravure accounts.

The rotogravure section is a costly supplement to the publisher and one of the greatest circulation features of the Sunday paper. It behooves him to put a capable man in charge of this department. Rotogravure is no longer an experiment, national advertisers recognize its value as an advertising medium and are glad to pay the high rate for space because of its reader attention.

The latest development in this field is the color-roto and tinto-gravure. The day will come when rotogravure sections will be a daily feature.

SEITZ DISCUSSES PRESS TREND

Pictures Replacing Printed Word in Power Says New York World Veteran

Don C. Seitz, of the *New York Evening World,* expressed the opinion this week that the power of the printed page is waning. He was addressing a luncheon meeting of the American Tract Society in New York, Dec. 1, and advised members to make themselves aware of the changing times.

Just why he reached his opinion, he said, was no mystery.

"I got the key from Japan," he said. "The Japanese visualize everything; they don't read, they want to see; they don't want to be told, they want to observe.

"Thus in America to catch the indifferent multitude we have now the moving picture and the radio, which have had a curious effect on reading in this country. It is becoming increasingly difficult for writers and publishers to maintain a standard of excellence. People want their speeches and instruction turned on with the twist of a dial, as they turn on their gas or water. They want ideas conveyed to them in picture form, instead of through the medium of words."

Reading has become laborious to vast numbers in this country, he said.

"This fact," he concluded, "dates back to the American system of teaching. We teach our young students too much."

FORESHADOWED EVENTS

Dec. 28-31—American Association of Teachers of Journalism, and the Association of American Schools and Departments of Journalism, joint convention, Columbia University, New York.

Jan. 23-24—Kansas Press Assn., annual winter meeting, Salina, Kan.

Oregon Daily Celebrates 60th Year

The *Albany* (Ore.) *Democrat-Herald* on Nov. 24 published an 80-page edition celebrating its 60th anniversary. An unusual feature was that in nine sections of the issue no advertising was carried, ad copy being restricted to the main news section. The expenses of publishing were covered by a charge of 25 cents for each paper. W. L. Jackson is president of the publication, and R. R. Cronise secretary and treasurer. The issue is claimed to be the largest published in Oregon outside of Portland.

King Woodbridge a Globe-Trotter

C. King Woodbridge, president of the Associated Advertising Clubs of the World, returned to New York this week from an official tour of western and southwestern cities. The trip brings his total mileage in the interest of organized advertising since May, when he was elected well past the 20,000 mark. Among the cities where Mr. Woodbridge spoke before local advertising groups were San Francisco, Palo Alto, Petaluma, Long Beach, Hollywood, Los Angeles, Fort Worth and Oklahoma City.

Our Own World of Letters

By JAMES MELVIN LEE

THE following amusing burlesque of the method of *The Literary Digest* in handling editorial opinions from week to week was thus given recently by H. I. Phillips in his Sun Dial column in the *New York Sun.*

She—"Wilbur, don't hold the baby that way. You're hurting it."

He—"Holding a baby this way, according to the *Philadelphia Public Ledger,* is perfectly proper. On the other hand, says the *New Orleans Picayune,* it is perhaps not entirely as comfortable for the child as a more orthodox position. But—and this is the view of the *Norfolk Virginian-Pilot*—it probably will not seriously affect the child's future whether I hold it this way or not."

She—"Don't be silly, Wilbur. Never hold an infant with one arm around its middle and its head pointing due south. This is on the authority of the *Ohio State Journal,* and a similar attitude is taken, though not so emphatically, by the *Schenectady Union-Star.*"

He—"If you know more about holding a baby than I do, go ahead and hold it. The difficulty in a situation such as this, declares the *Cleveland Plain Dealer* and the *Troy Record,* is that a mere man is practically helpless. In this position the *Washington Star* and the *New York Daily News* concur."

* * *

THE Service Department of the Associated Advertising Clubs of the World, New York, has just issued a hand book of "Advertising Club Management and General Information Useful to Advertising Club Officers." Advertising managers of newspapers who are interested in forming an advertising club will do well to get a copy of this booklet which gives practical advice on how to organize an advertising club, how to sell the club, how to handle club meetings, and how to edit and make a club paper.

In answer to the following question, "What Kind of News Will the Papers Print," this booklet says:

They will print all the real facts; they will print considerable details (if furnished them). They will eagerly print unusual things that the club may do. They will print reports, and speeches (if not too long); they will not print "bunk" and they always want the facts whether they print them or not; they will not print opinions. One may say that "Mr. So and So made a wonderful speech at the Advertising Club today," but the adjective will likely not be used. The word "wonderful" expresses an opinion.

Members of advertising clubs will be interested in the résumé of what some of the advertising clubs are doing and especially in the constructive piece of work outlined on page 33 of the booklet.

The last page is a sort of appendix which lists some of the books helpful to members of advertising clubs. I may add that all the recent volumes in this list have been mentioned in "Our Own World of Letters."

* * *

UNDER the alliterative title "The Press and the President" Oswald Garrison Villard attempts to answer in the *Century Magazine* for December "Should the President Be Quoted Directly or Indirectly?" Mr. Villard begins his discussion with another question, "When is the President of the United States not the President?" The answer given is, "When he receives the Washington correspondents of the daily newspapers and press associations."

Among newspaper men, opinions differ about Mr. Villard. But no member of the working press has ever questioned the truth of the assertion that Villard has a piquant pen. Every newspaper man knows that the Speaker of the White House always talks to newspaper correspondents under the *protective* slogan, "The President of the United States can never be quoted."

The pivotal point around which the discussion of Mr. Villard revolves is the incident when Arthur J. Sinnott of the *Newark Evening News* and Henry Suydam of the *Brooklyn Eagle* let the cat out of the bag. This incident had detailed publication in the EDITOR & PUBLISHER, as Mr. Villard points out in the article. Incidentally, Mr. Villard speaks of EDITOR & PUBLISHER as "the leading trade-journal of journalists."

Mr. Villard makes a great deal of the comment of the *New York World* that recently the President "took a stand upon no less than ten public questions without once 'speaking for quotation' or permitting the correspondents to reveal the true source of these statements." Attention is then called to how the reports of these Presidential utterances differed in the various New York dailies printing the stories.

The last sentence of the concluding paragraph illustrates the point which Mr. Villard evidently wants to emphasize the most:

Most important of all remains the fact that it is entirely unethical procedure for any President to endeavor to circulate his personal ideas and at times engage in personal propaganda without assuming full and frank responsibility for every act and word.

* * *

THE latest issue of *E. W. Howe's Monthly*—devoted to indignation and information—has an abundant supply of both.

One item that especially appeals to me is the following:

In a certain town there was a paper called the *News,* and another called the *Herald.*

The editor of the News was a go-getter, and just about owned the town, as everyone was afraid of him. He had a big programme of Justice, Fairness, Progress, etc., and, in carrying it out, was often unfair and mean; frequently he made bad mistakes in his Progress.

The editor of the Herald tried to represent the saner and better element in the community, and was called a Clog on Progress, a Tool, by the News.

Finally, the Herald began a critical examination of the course of the News, and day after day proved by the record that the News was actually a pest, having suggested and forced through many measures which proved very expensive mistakes.

The Herald's figures were unmistakable. The editor of the News was too much of a boss, and would not accept advice from others, unless they represented his special prejudices.

The result of the Herald's campaign was that the editor of the News sold out. The Herald is still the leading paper of the town, and there has been no change in its ownership or management.

There are hundreds of papers in the country that need the analysis the Herald gave the News.

In nearly every town there is an editor who believes he is a public blessing when he is actually a curse.

His trouble usually is he demands too much, and keeps at it, to make a record as a go-getter.

This story immediately follows an advertisement of the *Advertiser* of Norway, Me.,—an advertisement that is truly different. This advertisement boldly asserts that it is the only paper in the world that has made money doing exactly the opposite of what Don C. Seitz told it to do, and planned out the doing. It offers to send sample copies free on request with "no charge, not even for the usurious postage exacted by our benevolent government."

The story immediately following the one first mentioned is headed "A Monday Morning Paper." It, too, is worth reading.

One tendency which I notice on the part of the Sage of Potato Hill Farm is that he is becoming less indignant and more informative. But I must confess that I like Ed best when he is indignant—the way he used to be when he ran *The Atchison Globe.*

* * *

EDWARD PRICE BELL reviews the life and work of Victor Fremont Lawson of the *Chicago Daily News* in the November issue of *The Journalism Bulletin.* Mr. Bell had the great privilege to propose and execute the last great world assignment sanctioned by Mr. Lawson. This assignment was to interview 14 of the most notable and responsible public men of the world. It began with Marx in Germany and ended with Tang Shao-yi of China. Mr. Lawson lived to read all the interviews but two.

In the same issue Oswald Garrison Villard under the heading "The Newspaper and the Government" makes a plea for greater independence of the press.

Helen Ogden Mahin of the Department of Journalism at the University of Kansas publish a chat about "Newspaper Headlines."

John W. Cunliffe, director of the Pulitzer School of Journalism, discusses "Th Case for Publicity."

Allan Nevins of the *New York Wor* continues his series of articles on "Lite ary Criticism in America."

Ferdina Reinbolt writes on "Women Journalism."

* * *

Don C. Seitz of the *New York Wor* has almost become contributing edito of *McNaught's Monthly.* In the Decem ber issue he prints a personality sketc of "Andrew Carnegie, Amateur Author He tells how Mr. Carnegie requested hi when business manager of the *World,* t correct the misquotation: "To die ric is to die disgraced." Seitz prints th correct version furnished by Carnegie.

Before putting down this issue o ought to take a second glance at the ne department "Intelligentsiana."

FINANCING FOR PRESS CLUB HOME COMPLETED

New Building to Cost More Than $9,000,000 President Sweinhart Reports—Work Expected to Start Jan. 1

Arrangements have been completed in full for the financing and construction of the National Press Building in the heart of Washington's Central Executive Area, it was announced this week by Henry L. Sweinhart, president of the National Press Club upon his return to Washington from New York with James William Bryan, a member of the Club's Building Committee, and Harvey D. Jacob, General Counsel.

In New York final negotiations were completed with bankers and builders. The new structure will be the largest office building in Washington.

It will represent a total value of over $9,250,000, including the site, and will consolidate under one roof the Washington correspondents of practically every important publication in the United States.

Its location will be an added asset from the standpoint of newspaper craftsmen, being directly opposite the New Willard Hotel and within a half-block of Pennsylvania Avenue. A few minutes walking distance away are the White House, United States Treasury, the State, War and Navy Departments, and a number of other government buildings.

The structure will be built in accordance with the views of the Fine Arts Commission and is intended as a landmark "which will endure as a monument to the power and dignity of the Press." It also will provide a home for the National Press Club in Washington and will contain a large theatre.

The edifice will cover 42,500 square feet and will contain over 200,000 square feet of rentable area, exclusive of the theatre. Mr. Sweinhart's statement follows:

"All arrangements have been completed for financing and constructing the new National Press Building on which, it is expected, work will be started soon after Jan. 1, and will be completed 12 months later," Mr. Sweinhart said. "The property has been appraised at over $9,250,000, upon completion, against which about $6,500,000 of bonds will be issued. Based upon leases already signed and applied for, it is estimated that earnings of the building will show upwards of $250,000 per annum after all fixed charges. An equity will be held in the property by the National Press Club from the income of which money will be made available for prizes and annuities to the members of the press who, through upholding the highest ethics of the craft, have best served the profession."

Mr. Sweinhart said that 750 offices would be provided in the building and already leases have been accepted and space allotted for 600 offices. In addition, the Fox Theatres Corporation has signed a thirty-five year lease for the theatre which is to occupy the lower interior and rear portion of the building. Hearty support has been given to the project by the country's newspapers, by Government officials and by the bankers who have underwritten the cost of construction. Architects for the structure are C. W. & George L. Rapp of Chicago. The George A. Fuller Company of New York, which has given a bond guaranteeing completion at a fixed price and within time limits, will be the builders.

ENGRAVING SCHOOL OPEN AT ITHACA, N. Y.

(*Continued from page 7*)

results of schools of printing and a survey of conditions in the photo-engraving industry, the committee of which I am chairman, did not hesitate to recommend to the Publishers' Association the establishment of a school of photo-engraving. The trade of photo-engraving is much more thoroughly unionized than printing. Therefore, the records of the photo-engraver's union present a more complete picture of conditions in the trade than the figures of the Typographical Union do with the printing trade. The rapid expansion of the industry in New York City is shown by the figures of the New York City Union which has increased its membership from 1249 in 1914 to 2183 in 1925. The advent of the illustrated tabloid newspaper has been followed by a great increase in the number of halftone illustrations used in other newspapers. A page of news pictures is now found in most of the daily newspapers and other papers are greatly increasing the number of illustrations used in each issue. This condition means increased employment of photo-engravers.

"Today it is almost impossible to obtain additional photo-engravers in the newspaper plants in New York City by paying the wage-scale of $60 for day work and $65 for night work, which is a part of the contract which the publishers have with the photo-engravers union. Men have been brought into New York City in large numbers to meet the demand. A similar shortage of photo-engravers is now being felt throughout the country.

"We believe that there are a great many young men who would gladly enter the trade of photo-engraving if the opportunity is open for them to enter it through a school instead of a 5-year apprentice course such as the union now requires. The school is to be operated to furnish that opportunity.

"Under the apprentice system now in vogue, the apprentice is employed at general floor work during the first two years. While this might mean that he would have an opportunity to secure a general knowledge of the trade, in actual practice it means that the apprentice is doing office boy or porter work. Our contract with the union provides that the apprentice during the third year of his apprenticeship shall work two hours a day in the branch of the trade to which he is indentured. The time is increased to four hours in the fourth year and six hours in the fifth year. Under this arrangement, an apprentice is assured of 624 hours of training in his five years of apprenticeship. The Empire State School of Engraving will operate 44 hours a week and exclusive of vacations, each student will receive 24 weeks of instruction during the six months he spends at school or a total of 1056 hours, nearly twice as much instruction in six months of school as is provided in five years of apprenticeship.

"With the same careful selection of applicants that has been practiced by Mr. Kellogg, as director of the Empire State School of Printing, the New York City committee feels that graduates of the Empire State School of Engraving will be at least as competent at the completion of their courses as an apprentice entering the last year of his training. In general knowledge of the trade of photo-engraving graduates of the school will be much superior to the average young man who completes an apprenticeship course in a plant where the trade is divided into departments."

Ross W. Kellogg, director of the Empire State School of Engraving, announced that instruction in the new school will be in charge of Arthur M. Montgomery, former owner of the Montgomery Engraving Company, Buffalo. Mr. Montgomery learned his trade nearly 35 years ago with the Manz Engraving Company of Chicago. He worked as an engraver in Indianapolis, St. Louis, Chicago, Milwaukee, Memphis and New York City before he organized the Montgomery Engraving Company in 1911. The instruction which Mr. Montgomery will give will be suplemented by courses in art work and chemistry, given by other instructors.

Candidates for admission must be at least 18 years of age. They are required to present satisfactory evidence of having completed two years of high school training in the public schools of New York State, or an equivalent amount of preparatory training in other secondary institutions. Special consideration will be given to applicants over 21 years of age who are unable to meet the educational requirements.

A tuition fee of $30 a month, or $180 for the six months' course of instruction will be charged. It is estimated that the cost of the instruction will be more than twice the amount of tuition fees. The New York City newspaper publishers will make up the operating deficit.

The event of the newspaper year—EDITOR & PUBLISHER's International Year Book—now making.

BUSINESS TICKLERS

THE *Los Angeles Illustrated Daily News* has obtained a page of display advertising from real estate brokers, ranging from one inch single column ads to four inch double column, grouped around this statement: "This is a page of exceptional offerings in Real Estate. Read each one carefully for profitable buying." —Harold J. Ashe, Long Beach, Cal.

As editor of a northern Indiana newspaper, I didn't feel that we could afford to have cuts made of local events so when the news warranted it I obtained the photographs and sold them to an Indianapolis newspaper. Then I bought mats of the pictures from the newspaper for a trifling sum and we were able to use them in our newspaper.—Thora Eigenmann, Bloomington, Ind.

To obtain increased reader interest in its classified advertising department, the *San Antonio Light* is paying one dollar for each "quip" found in the classified advertising and mailed to the paper provided the "quip" is of sufficient interest to be reproduced. One of these reads, "For sale—a beautiful evening gown, half off." The Light is making an interesting daily column of this feature.—W. H. M., Austin.

Just a few days before Christmas start a last minute suggestion page. Under the heading of Jewelry put jewelers' names and addresses, and the same plan for other types of stores. This will prove a great help to the last minute shoppers, and should not be difficult to sell.—C. E. Pellissier, Boston.

Dozens of columns of good newspaper space is taken daily by doctors, health specialists and others to tell the people to eat more vegetables, fruits and "roughage" to keep the body in good condition. Is the business department taking advantage of this propaganda to get fruit and vegetables stores to push their products to the fore. Some of these quotations would make good copy for an advertisement of a grocery store pushing its green vegetable line, etc.—E. H. Jones, *Muskogee* (Okla.) *Times-Democrat.*

A sixteen-page special section, heavy with advertising, was put out by the *Denver Post* on the 66 Piggly-Wiggly stores of Colorado. Piggly-Wiggly officials contributed signed articles and news stories on personnel, policy, methods and colorful facts of their organization. Produce market news, Thanksgiving menus and recipes filled the remaining news space. Advertising was obtained not only from the Piggly-Wiggly stores themselves—the Denver stores taking a double truck for cooperative advertising —but also from meat markets run in connection with Piggly-Wiggly stores and from virtually all wholesalers supplying the stores. A most profitable edition, which might be worked out elsewhere the Sunday before Christmas.—M. S. M., Denver.

About twice a year a Muncie, Ind., merchant varies his advertisements for a special sale or special day and runs a full page of classified. At the top is a comic strip which advertises the store and in the different columns are the usual headings, Lost and Found, Wanted, For Sale, etc., and each little ad is an ad for some one thing in itself and in each case the full store name is given so that if only a few of the classifieds are read the reader knows who is advertising.—Thora Eigenmann.

REYNOLDS HEADS AD CLUB

Player Board Owner Named President of New Bedford Group

George H. Reynolds, controlling owner of the Magnetic Player Board Company, has been elected president of the New Bedford (Mass.) Advertising Club, recently organized.

Mr. Reynolds was for many years circulation manger of the *New Bedford Standard,* and is a former president of the International Circulation Managers' Association. About four years ago he purchased and consolidated the printing plants of the Standard and the *New Bedford Mercury.* His organization now specializes in publication work.

Joseph W. Mechaber was chosen club secretary.

New Virginia Political Weekly

A weekly political paper, to be called *The Virginia Democrat,* was scheduled to make its appearance in Richmond, Dec. 5. It will be devoted wholly to the interest of the Democratic Party in the state. Names of those backing the paper have not been announced.

HUNCHES

ONE DOLLAR WILL BEPAID FOR EACH "HUNCH" PUBLISHED

HAVE someone visit your best known business men and ask them what they were doing when they were 21 years old. The *Wooster* (O.) *Daily Record* prints such a feature every evening and it is meeting with much approval. It is published under the line "When I was 21."—Arthur Murray.

Why not some humor on the automobile page? A column of "Flivver Fun" would attract no end of motoring wisecracks. A contest of "Gasoline Limericks" would also prove interesting. The scheme so successfully used by the humorous magazines in printing several "tin can labels"—humorous inscriptions on the back of small cars—could be well adapted by the dailies.—W. M. W.

The *New Yorker* has a fine feature newspapers can adapt—"Why I Like New York." Work up several interviews ahead and use one a day on a local page—the "inquiring reporter" scheme—under a box head "Why I Like—." Get interviews from clerks, bankers, motormen, professional men, housewives, etc.—De A.

Let one of your reporters search the records and ascertain what was the first case ever tried in a local court. It will result in an excellent story, especially if names of attorneys, witnesses, etc., are used. The *Spartanburg Herald* recently carried a splendid story of this kind that caused much comment. The first defendant was fined $2.80 for "cussing" officers.—A. G. Keeney.

A good Christmas feature story can be written up by collecting some of the many letters sent out by the little tots to Santa Claus and received by the post office and the numerous department stores. The letters make very interesting reading and will help to boost that Christmas fund your paper might be sponsoring in your district.—C. E. Pellissier, Boston.

A series of Sunday articles on old-fashioned dancing, old-fashioned household articles, etc., which appeared recently in a small Ohio daily, proved interesting to the readers and caused county wide comment. The coffee-grinder, apple-peeler, straw tick, rock candy, and the boot jack were a few articles mentioned. —M. H. S., Middletown, O.

The *Denver Post* has inaugurated a weekly people's editorial page under the heading, "The Open Range," paying cash prizes for the best editorials. Contributions are limited to 250 words and controversies are invited, only religious sectarian discussions being barred. The Post thus expects to get closer to the minds of its readers in addition to putting out an interesting page.—M. S. M., Denver.

THE DEMAND IS BIG IN THE SOUTH FOR COMMODITIES

The growth of the South has been remarkable in recent years, due to a combination of influences. The principal factors in urban expansion are industrial. Industrial forces are different in separate localities, but as any activities which govern the production and distribution of goods and materials can be grouped under one heading, it may be said that industry has supplied the greatest single impetus to the South. And as thousands of casual visitors have become permanent citizens, and will continue to do so under the appeal of commercial and agricultural opportunities offered by the South, it is seen that increases of population are cumulative as the years pass.

This industrial market, already great in purchasing power, will become steadily a richer territory for the distribution of commodities that embrace all the necessities and luxuries demanded by the inhabitants, as well as equipment and machinery for their industrial plants.

The newspapers of the South are in step with its territorial growth. They are a habit with the old resident and an absolute necessity to the newcomer. No greater opportunity is offered for sales promotion in the South than you will find in the advertising pages of the newspapers listed here.

A Real "All-America" Eleven

FOR the first time in football history, the All-America players will be selected by an expert *who saw the men* he judges *in action* in the big games from Coast to Coast and from the Lakes to the Gulf.

Lawrence Perry,

acknowledged heir to the mantle of Walter Camp, after blazing the Gridiron Trail through every football state in the Union and with the assistance of an

Advisory Council of Leading Coaches

from the seven regional groups of the country, will name the All-America Eleven.

Here is an achievement in thoroughness! A nation-wide tour of investigation, an enlistment of expert opinion in every section of the country, resulting in a *truly national* selection, typical of the distinctive service furnished exclusively to member-papers of

READERS— AND BUYING READERS

The home reader is the buying reader, as a rule, and that is why The Chicago Daily News is the most productive advertising medium among all the Chicago daily newspapers.*

The Daily News is Chicago's home newspaper—more than 90 per cent of its 400,000 daily average circulation is printed after 1:30 p. m., and it goes into the hands of the homeward bound and into the home. More than 94 per cent of The Daily News circulation is concentrated in Chicago and its suburbs.

Here is a combination of powerful appeal to the advertiser who looks upon advertising as an investment—one of the richest, most compact markets in the world, reached through a single medium—

THE CHICAGO DAILY NEWS

First in Chicago

* In the first eleven months of 1925 The Daily News published 14,280,705 agate lines of display advertising—a greater volume than was ever before published in any Chicago daily paper in the same period. The next highest daily lineage record in Chicago for this period of 1925 was 11,780,804 agate lines.

A cross-section of your market—

¶ The Apex of Normalcy!

¶ So Mr. H. L. Mencken, the most vociferous of Baltimoreans, once described the State of Maryland—

¶ And he was right—as a few, just a very few figures will show.

¶ Read carefully and note how evenly Maryland maintains her average as typical of the whole United States—

> ¶ 1.37% of the entire population; 1.24% of the native white population; 1.33% of America's families; owning 1.22% of the automobiles; receiving 2.05% of the national income; doing 2.33% of America's building.

¶ Except that we have more money and do more than our share of the building, what is true of Baltimore is proportionately true of America at large.

¶ And this explains why so many "test campaigns" are tried out first in Baltimore in the Sunpapers—for the Sunpapers are read by the average, up-and-coming, typical American.

¶ And they are read at home—delivered to the home by exclusive Sun carriers—and this, in part, explains the success of those same "test campaigns."

¶ The Sunpapers are read.

Selling through the Drug Stores of PHILADELPHIA

Philadelphia, having the third largest population in the United States, is naturally an important market for the manufacturer whose articles have to be sold over the drug store counter.

The average druggist is a very busy man, and trade investigations show that the quickest and easiest sales made by him are those of goods which the customer asks for by name.

Educating the consumers of Philadelphia, Camden and their vicinity as to the name and merits of your article is easy if you will concentrate your advertising in THE EVENING BULLETIN through which you can reach "nearly everybody."

Send for a free copy of THE BULLETIN ROUTE LIST OF PHILADELPHIA AND CAMDEN. It will be of great help to your salesmen when calling on the trade.

DOMINATE PHILADELPHIA

Create maximum impression at one cost by concentrating in the newspaper "nearly everybody" reads—

League of Nations' Press Meeting Call Interests American Editors

ee Value in Proposed Geneva Conference of Journalists From All Nations—Must Conserve Spirit of Free Press—Crying Need for Adequate, Cheap Communication Service and Abolition of Censorship

MPORTANT factors in the American press look with favor upon the pro- sal of the League of Nations that rep- sentatives of the press of all nations tend a technical convention at Geneva, der the auspices of the League, for scussion of and action upon press ques- ns related to improved communica- ns, service and all problems the settle- ent of which would promote better rld understanding and the concomitant peace among nations.

In presenting the news from Geneva at the League of Nations Assembly had unanimously approved a resolution offered Senor Yanez of the Chilean delega- n, suggesting an international press nference under the auspices of the ague, EDITOR & PUBLISHER last week quested expressions of opinion. Replies s week indicated approval of the gen- al idea, with specified qualifications in gard to details.

There is apparent agreement that a nference at Geneva could accomplish luable results in obtaining more rapid d less costly transmission of news. It also generally recognized that the con- ence might succeed in breaking down rtional censorships which interfere with free flow of public information. That uch might be done to facilitate re- rting of international events, ensuring eater accuracy, is the apparent general w here. No apprehension is expressed t the conference would take on a po- ical complexion, which might embarrass mplete independence of the press or hper free editorial expression. Indeed, League of Nations' proposal is ac- ted in good faith by representative erican journalists who have so far mmunicated their views.

oseph Pierson, chairman of the Amer- n Publishers' Committee on Cable and dio Communications, said:

I certainly approve of any movement ich seeks to improve our present crude, appointing machinery for gathering in- national news and information. We e no confidence nor sympathy for any on which undertakes to set up an or- ization of newspapers for the publica- n or emphasis of any certain kinds of s. The address of Senor Yanez is ner hazy on the object of this proposed on, and I am sure we would want to mine the definitely stated objects of promoters before endorsing the plan in full.

We are very glad to see one specific nt, however, of widespread interest— t is, 'ensuring the more rapid and less ly transmission of press news with a w to reducing risks of international misunderstanding.' We would have been ch more pleased if Senor Yanez had luded in this item the abolishment of sorships throughout the world, in- ding his native country of Chile. re are a few other fields which occur one as proper for the operation of such international press organization.

t certainly is desirable, in fact im- tive, for the necessary concentration of effort and influence for twelve to twenty newspaper executives to agree on an agenda on which the newspapers of the world would unite without suspicion or indifference. These twelve to twenty men, I think, should be executives, and not correspondents. It seems necessary for success that the program of action be drawn up on the general needs of newspapers and not on immature suggestions for reforms based on individual experiences."

Mr. Pierson's organization has been working for nearly five years to improve international news transmission and has accomplished some results of far-reaching effect. The committee is composed of the following cable-using newspapers, press association and services: *New York Times, New York World, New York Herald Tribune, Chicago Tribune, Philadelphia Public Ledger,* United Press Associations of America, International News Service and Universal Service.

Frank B. Noyes, president of the Associated Press, this week furnished to EDITOR & PUBLISHER copy of a letter which he addressed to Arthur Sweetser, former American newspaper man, now in charge of press relations for the League of Nations. This letter explained the established policy of the Associated Press and its attitude toward the suggested conference, in the following terms:

"I am sure that you understand the limitations placed upon the Associated Press, but will do no harm to restate them.

"It would not be possible for the representatives of the Associated Press to participate in any conference that includes in its program a possibility of engaging in an advocacy of any cause, however worthy.

"In the very nature of its organization this is denied.

"The Associated Press is a cooperative non-profit making association of 1,200 newspapers of every possible shade of political opinion, religious belief and economic theory, having for its object solely to provide for the collection of a thoroughly unbiased, impartial news report and no officer or employe of the organization has the slightest authority to commit these 1,200 individual newspapers to the advocacy of any movement whatever and indeed any one so doing would betray the trust imposed upon him.

"The object of the organization being, however, to collect expeditiously a truthful, unbiased and comprehensive news report of world happenings the Associated Press has a lively interest in all technical subjects that aid in the accomplishment of that object and these subjects would include the consideration of such subjects as the establishment throughout the world of a property right in news such as exists in the United States; the recognition of the principle that the general interest requires the lowest possible rates for press matter and the most rapid possible transmission of such matter; the abolition of censorships in time of peace and their limitations in time of war to the most vital necessities.

"All such subjects are fairly within our scope and I think a representative or representatives of the Associated Press could with propriety take part in a conference for their consideration."

Fred S. Ferguson, vice-president of the United Press Associations, in an interview with EDITOR & PUBLISHER, said: "Diplomats have considered one of the roads to peace wiping out of artificial barriers. The one big barrier that has been overlooked by many to date, however, is the news barrier. Enormous strides have been made in recent years in news distribution that half of the world which, according to the old saying, does not know how the other half lives, is now better informed than ever before. But, nevertheless, censorships continue to prevail at times and the flow of news to the Far East, for instance, is hampered by excessive transmission rates. While I believe the journalists of the world understand the diplomats better, perhaps, than the diplomats understand the journalists, such a meeting as is proposed for Geneva might certainly lead to good results. The press of the world need not surrender any of its rights to publish the truth in entering such a conference and the diplomats of the world would surely be taking a big step toward preservation of peace by guaranteeing this independence through proper understanding and elimination of artificial barriers."

Eric C. Hopwood, editor, *Cleveland Plain Dealer,* and secretary of the American Society of Newspaper Editors, in a letter to EDITOR & PUBLISHER said:

"After some consideration of your story concerning the suggestion for the formation of an International Technical Press Committee, it is my opinion that such an organization ought to be put through, if one or two safeguards are always borne in mind.

"The process of reasoning which brings one to that conclusion is quite simple. Peace is desirable. Newspapers and editors working for peace are on the whole considerably less effective than in association. Hence, if peace is an end to be sought, let the press concentrate its effort through organization and association to put peace over.

"As a matter of fact there is altogether too much individualism among editors. As a class they always want to play lone hands. The only more confirmed individualist that I know of is the American farmer. I have discussed matters of cooperation with editors sometimes and have had the old, threadbare argument hurled at me that an editor cannot afford to sacrifice his independence. Of course he cannot, and nobody wants him to, but there are dozens of things constantly before the public about which there is no very great controversy or difference of opinion and which would be infinitely more effectively supported if editors would get together.

"In this particular scheme I do not know just what the plan would be, except as it is outlined in Mr. Yanez's remarks. Matters of detail, however, are easy enough to work out.

"In any such set up a couple of things ought to be remembered. First, I would be completely opposed to any direct affiliation of any such organization with the League of Nations, if such affiliation were to subject newspaper men to any possible dictation or pressure from the League. It seems to me the very association would in itself be bad, because such an association would almost certainly imply some kind of obligation and responsibility to the League itself. Under such circumstances the press organization would run the danger of becoming a publicity agent for the League and would possibly forfeit something of its independence and freedom. That ought to be avoided at any cost.

"The second thing I would oppose as entirely unnecessary and beside the point is the remark by the assembly that 'the press is a great power.' That, I take it, is no very great secret, and such an

LEAGUE OF NATION'S PROPOSAL

THE Yanez resolution, unanimously adopted by the League of Nations, proposed a convention of experts representing the press of the various nations to determine by what means the press may contribute towards the work of disarmament and the organization of peace: (A) By ensuring the more rapid and less costly transmission of press news with a view to reducing risks of international misunderstanding; (B) By discussing all technical problems the settlement of which would in their opinion be conducive to the tranquillization of public opinion in the various countries.

One of the questions left undecided is whether the conference should be a large body, or a small committee to take preliminary steps leading to a large conference for broad consideration of world press questions.

announcement by the assembly would not blaze across the firmament as some brand-new discovery. Both sides ought to be willing to take this fact for granted. The press has a right to ask of the League fullest news information consistent with the safety of the world. The League has a right to ask of the press proper and intelligent dissemination of this news. The arrangement is a strictly practical one and, as I see it, the press desires neither admission into the councils of the League or specific recognition by it.

"In other words, let such an association be formed, if it can be helpful by way of advice, suggestion or cooperation within or without its own circles in promoting the great purpose for which the League was formed. But let it maintain absolute independence and freedom from all alliances of any sort whatsoever with the League or any of its works."

"I should certainly feel that a preliminary conference of journalists was desirable because I feel that there are m ways in which the agencies of the League could facilitate the impartial reporting of international events," said Walter Lippmann, editor of the editorial page of the New York World. "It is apparent, from statements of the sponsors of the idea in the League that they have no notion that would like to, or could, make the press an agency of propaganda for the League. So, as a first comment, I should say that I am favorable to the idea."

Walter Williams, President of the Press Congress of the World, wiring from Columbia, Mo., said:

"The press congress of the world plans to hold its next session in Europe in 1926. To this session are invited representatives from the forty odd countries in which the congress has members. This should not, however, conflict with the proposed calling together of the journalists by the League of Nations. Such a conference, if representative in character, held at Geneva upon the League's call, could be of great service to the press and I cordially favor it. Of course, it should be made clear that there is to be no censorship of the proceedings of the conference and no affiliation with the League of Nations or other organization. Every effort to bring closer together the world's journalists should be welcomed, but the freedom of the press from outside control should at all times be most jealously guarded."

J. H. Furay, foreign editor of United Press Associations, said:

"The independence and freedom of action of the press being guaranteed, such a conference as that proposed by Senor Yanez should have a strong influence, providing it is really representative of the press of the world. It can contribute materially to the so-called 'moral disarmament' by pointing the way and suggesting means based on daily contacts of the press with the world's intelligent thought.

"The diplomats of the League of Nations will, doubtless, be among the first to recognize the fact that, without the moral support of the press, the ideal of greater popular understanding of world questions cannot be achieved.

"There can be no question that a clearer understanding by the peoples of the world of their neighbors will follow more rapid and less costly transmission of news and a more free interchange of intelligence among the nations. Whatever contributes to that desired result will be helpful."

MAGEE TRIAL POSTPONED

Lack of Funds in Judicial District Cause for Delay

Because of lack of funds in the fourth judicial district of New Mexico, Carl C. Magee, editor of the *Albuquerque* (N.M.) *State Tribune*, charged with murder in connection with the shooting Aug. 21 last of John B. Lassetter, will not be brought to trial this month, according to announcement made by the district attorney's office in Albuquerque this week.

The district has not enough funds in hand to call either a grand or petit jury for the December term.

A. P. SPECIAL MEETING TO BE REPEATED

Extra Day Will Be Added to 1926 Convention as in 1925—News Agency's Growth Assigned as Reason —Honors for Lawson

A special meeting of the Associated Press members will be held April 19, in New York, preceding the regular annual A. P. convention, April 20, it was announced this week. This custom was started first last year.

An hour at the opening of this extra-session will be devoted to eulogies of the late Victor F. Lawson, publisher of the *Chicago Daily News*, according to present plans, to be followed by thorough discussion of membership problems.

Because of what is said to have been the mushroom growth of the news distributing agency during the past few years, a general reorganization is now under way, and there are many matters to be taken up by convention delegates. One day is no longer thought to provide sufficient time for the annual gathering at the Waldorf-Astoria.

Newspapers formerly served by single wires now are connected by double circuits. Thousands of miles of wire have been added to the A. P. system through resumption of the racing news service alone, and the Florida boom has necessitated considerable expansion in the traffic department. Member newspapers have asked for and received added news facilities. This year has seen installed new printer circuits in Connecticut and New Jersey. The A. P. membership now totals 1,215 daily newspapers, an increase of more than a dozen papers over last year.

This week the order went out from Edward McKernon, superintendent of the eastern division, placing bureaus in Boston, Philadelphia and Pittsburgh on a 24-hour basis. While these offices have been previously kept open around the clock, manned usually by telegraph operators during one shift, the present order will add a new editor to the staffs of each of these bureaus.

A new state bureau is to be opened in Rochester, N. Y., Dec. 14, the latest addition to the eastern division. Victor H. Scales, for the last few years on the Albany staff, will be in charge.

RECORD FILE AT K. C. SHOW

750,000 Words Wired on Twenty-Sixth Annual Livestock Exposition

A new record for coverage of an International Livestock Exposition was set here last week when the twenty-sixth annual show was held at the Dexter Park Pavilion of the Union Stock Yards.

Approximately 750,000 words were filed during the eight days of the show by the newspaper men present.

Newspaper men present were: Walter A. Bermingham, *Chicago Evening Post;* Frank Ridgway, *Chicago Tribune;* Willis O'Rourke and Antone Behrendt, *Chicago American;* Capt. E. E. Morgan, *Chicago Daily News;* John McFall, *Chicago Herald and Examiner;* Thomas Johnson, Purdue University; Fred James and George Barclay, Canadian Government; William Hallberg, United Press; Eugene Sneck, Associated Press; Marian Green Ellis and Cora Hinds, Winnipeg; A. F. Henshaw, *Detroit News;* and Charles E. Calkins, A. B. Donegan, Bruce Gordon, Donald K. Herrick, the Kent Press Service.

"Drafted" Not a Libel

The published statement that an ex-soldier of the World War did not enter the service until he was drafted is not libelous in itself, the Oklahoma Supreme Court held, reversing a lower court decision growing out of a controversy between two newspaper editors in Okeene. George Dushabek, editor of the *Okeene Leader*, was sued by Andrew C. Markz, editor of the *Okeene Record* and won a damage judgment.

FORESHADOWED EVENTS

Dec. 28-31—American Assn. of Teachers of Journalism and the Assn. of American Schools and Departments of Journalism, joint convention, Columbia University, New York.

Dec. 28—Kansas Democratic Editorial Assn., annual convention, Wichita, Kan.

Jan. 14—North Carolina Press Assn., annual newspaper institute, Chapel Hill, N. C.

Jan. 15-16—Virginia Press Assn., mid-winter meeting, Farmville, Va.

Jan. 23-24—Kansas Press Assn., annual winter meeting, Salina, Kan.

SAYS NEWSPAPER PAY "NOT SO BAD"

Editorial Chief Declares Newspaper Pay Compares Favorably with Other "White Collar" Jobs

As white collar callings go newspaper work is nowadays not paid badly, according to Tom Wallace, chief of the editorial staff of the *Louisville Times*, speaking before the Journalism Club of the University of Louisville recently.

"Those who remain in the 'editorial end,' and who do not, as many have done, launch themselves as authors, after having had the benefit of the training newspaper work provides, are not, nowadays, starvelings," he declared. "There are correspondents, syndicating their letters, whose annual earnings are several times the pay of a United States Senator.

"I could cite the case of a man who began syndicate writing using his three-room flat as his place of business and who now has a large suite of offices and a large staff of salaried employes, in Washington, and owns the building in which his work is done.

"The syndicate writer is more often 'handled' by a manager, like an actor, a pugilist. Only a few become the heads of their own syndicates.

"Ordinary work-folk of newspaperdom are paid, nowadays, quite as well as ordinary work-folk in other white-collar callings.

"I think it is high time for somebody to be frank enough to say so.

"Opportunity for able journalists is not limited to daily papers. There are many other publications, and there are many allied callings to which they are called. And the newspaper business has no 'golden past that is comparable to its future.

"If I were in college today I should hope to be in journalism tomorrow.

"Those who would be in journalism tomorrow should be in college today."

NEW JAPANESE PAPER

Seiji Tachibana Starts 4-Page Daily in Chicago

The *Dai-Nippon*, a four-page daily paper published in Japanese, has been launched in Chicago by Seiji Tachibana. It carries a daily leader in Roman type and another in English.

Editor Tachibana was formerly undersecretary of the imperial department of education.

For the present, Mr. Tachibana is not only editor and publisher but compositor, reporter, make-up man and advertising solicitor as well.

The use of the Roman type for the leader in Japanese is designed, Editor Tachibana explains, to accustom his people to a method by which it will be easier to convey to them information in their own language through the press. The article in English will encourage familiarity with the language of this country.

N. Y. GRAPHIC SUED FOR $4,000,000

Damages Asked Because of Tabloid's Exposure of Alledged Fraud in 1925 Atlantic City Beauty Contest

Two more libel suits of $2,000,000 and $1,000,000 have been filed against the *New York Evening Graphic*, Macfadden tabloid, because of that paper's exposé of alleged fraud in the conduct of the 1925 Atlantic City Beauty contest. Service has already been accepted in another $1,000,000 libel suit brought against the tabloid by Earl Carroll, New York theatrical producer, making the total $4,000,000.

The Atlantic City Chamber of Commerce filed suit in New York Supreme Court for $2,000,000, claiming its reputation as a resort had been damaged to that extent because of the newspaper's exposé which ran for two weeks recently in daily serial form. Samuel P. Leeds, former president of the Chamber of Commerce asks $1,000,000 in a suit filed in the same court.

Complaint of the Chamber of Commerce covers about 250 pages of closely typewritten foolscap, considerable space being consumed in telling of the attractions of Atlantic City as a resort for the tired business man.

In the resort city this week steps were taken to have the evidence of alleged fraud collected by the Graphic placed before a grand jury. This move was welcomed by the newspaper.

The Graphic, in a full page advertisement published in the *New York Times* Dec. 7, announced its stand as follows:

"Four million dollar suits against us and we're proud of it. That is the price the *New York Evening Graphic* pays for being a crusading newspaper. We are guilty of libel (our opponents charge) libel—because we tore the mask of fraud and hypocrisy from the Great American Hoax—the Atlantic City beauty contest because we proved that America's beautiful girls had no chance of being named 'Miss America'; because our evidence showed that this fair prize was sold to exploit a motion picture actress and promote a motion picture; because we named Names and placed Blames. If that is libel, it's time the libel was published.

"We welcome the opportunity to produce our evidence in court.

"We want the facts brought out. How this youngest of newspapers has set as its ideal service to the public at any cost. How we dared to break through the hush-hush ring that had hitherto muffled the fraud of the beauty pageant."

Articles in the Graphic series alleged that Fay Lanphier chosen "Miss America," was "ridden rough shod over the hundreds of unsuspecting entrants to a manufactured victory." The series was written by Woodman Morrison, under the penname of K. C. West. The entire expose was directed by E. H. Gauvreau the Graphic's managing editor, who, when he was managing editor of the *Hartford Courant*, exposed quack doctors practicing in Connecticut.

Lord Rothermere Ends U. S. Visit

Viscount Rothermere, who owns the controlling interest in the *London Daily Mail, Daily Mirror, Evening News Weekly Dispatch, Daily Sketch* and numerous other English publications, returned home on the White Star liner Majestic, sailing from New York Dec. 5. He had spent three weeks in the United States and Canada, attending to business affairs. His name was kept off the Majestic's passenger list at his request. Lord Rotherwere was accompanied by Ward Price, staff correspondent of the *London Daily Mail*, who recently returned from a tour to South Africa and South America.

Leaf-Chronicle Quits Sunday Field

The *Clarksville* (Tenn.) *Leaf-Chronicle* has ceased publication of its Sunday edition, M. S. Foster is publisher.

CLINCHING THE LOCAL DEALER TIE-UP

Nothing Can Take the Place of the Newspapers, Says McQueen, Goodrich Advertising Manager—100 Dailies Furnish 400 Salesmen to Put Over Zipper Campaign

By PHILIP SCHUYLER

THE newspapers have laid another golden egg, this time on the doorstep of the B. F. Goodrich Rubber Company of Akron, Ohio.

L. A. McQueen

Goodrich Zippers, rubber footwear for the winter season, made their debut last year. Production was not very large, and only one medium was then used, the *Saturday Evening Post.*

This year, however, found large scale production. When there's a big selling job on hand, nothing can take the place of the daily newspapers, reasoned L. A. McQueen, the Goodrich advertising manager. He wanted the local dealers to tie-up with his campaign. It is all very well to let people know about your product through the magazines, he said, but these same people want to know where to buy it. He came to his advertising agency in New York, the William H. Rankin Company. A list of 100 daily newspapers was drawn up. H. R. Schaeffer of the agency staff called a meeting of the New York special representatives. He told them of the Zipper campaign and asked:

"Well, what help can your newspapers give us?"

"Wait and see," came the unanimous reply.

The campaign is now under way, with the newspapers as its backbone. It is to continue until February with large papers getting full page space and 90 inches going into the dailies on a secondary list. The advertisements run three times from Nov. 29 to Jan. 1 and another three times from Jan. 1 to Feb. 16, a total of six insertions for every newspapers scheduled. Copy is also being placed in the magazines and trade publications. Radio and billboards are likewise being used.

"But," said Mr. McQueen to me this week, "the help we have received from the newspapers has proved as important as the campaign itself. It has given me the surprise of my life.

"Four hundred additional salesmen were thrown back of this campaign by the 100 newspapers we have used. It has given the drive a momentum nothing short of marvelous.

"Dealers get fed up with a manufacturer's tale of advertising plans. Electros and mats are sent out to them and never used. Send these mats and electros to the newspapers, however, and the results are entirely different. Dealers buy space and sales increase.

"In addition to sending out extra solicitors to local shoe dealers and department stores, the newspapers helped decorate dealers' windows; they sent out special letters to dealers under their own letterheads; they issued their own broadsides and circularized the dealers, telling them of the campaign; and some newspapers, which have their own display windows, used them to promote our product. Newspapers clinched our dealer tie-up."

Newspapers on the Goodrich list were furnished with portfolios by the advertising agency to be used by solicitors. Made up in 14 pages, they contained copies of a letter from the Goodrich company addressed to dealers telling them about the drive; a letter signed by the newspaper publisher acknowledging the space contract; a letter from the agency, confirming the contract instructions; specimens of the advertising copy being paid for by the manufacturer; proofs of smaller copy to be used by the dealers; a sample of the magazine copy; and a summary of the entire campaign.

The letter signed by the B. F. Goodrich Rubber Company follows in full:

'To All Zipper Dealers:

This Is a Quick-Turnover Advertising Campaign

"Precisely that—a high-powered, quick-acting concentrated sales force that is sure to create a bigger demand for Zippers.

"Three smashing full page newspaper advertisements. Ten smaller but still forceful newspaper advertisements. Not to mention two full-color pages in the *Saturday Evening Post, Literary Digest* and *Cosmopolitan.*

"All time to appear with the coming of bad weather—all to run in quick succession within a month.

"A tremendous boost to sales of Zippers and Goodrich Rubber Footwear in general.

"And all bearing on an already public-approved product. The demand for Zippers is here—all you need do is cultivate it.

"Here's the *big* point. This campaign, built for you, planned to bring business to your store, is as much yours as you make it—no more. Capitalize it to the fullest—display Zippers—advertise them in your own way—tie-up with our major effort anr your sales will mount.

"Yours for a big Zipper year,
(Signed)
"The B. F. Goodrich Rubber Company."

Dealers responded to the newspaper solicitors in "surprising fashion," Mr. McQueen said. Considerable extra space, the extent of which it is not now possible to estimate, was purchased by local stores as supplemental to the big Goodrich drive.

As an example of newspaper aid, Mr. McQueen offered the following letter, written by one daily to footwear dealers in its city:

"Dear Sir:

"One of the most carefully planned and efficiently executed advertising campaigns that has ever been waged in the interest of rubber footwear is now in full swing on the Goodrich Zipper.

"The demand for this smart little gaiter with the Hookless Fastener is already countrywide, but its growing popularity, stimulated by the big fall and winter campaign, bids fair to be tremendous.

"Full page advertisements in the newspapers, reinforced with other nwspaper space, is running during the intensive buying season between now and Christmas. There are also full pages in the *Saturday Evening Post* in color, *Literary Digest* and *Cosmopolitan.*

"An interesting phase of the campaign is the forceful appeal being made in a large and carefully selected list of college papers. These cover, in most part, co-educational institutions, as Zippers will be popular with both sexes.

"In addition to all this there will be a number of smaller size advertisements on light rubbers which, of course, are an important part of the big Goodrich footwear production, not to mention the usual national campaign on the famous Hi-Press line of heavy boots, all-rubber gaiters, arctics, etc., which runs in the papers and magazines reaching the farmer, hunter, fisherman, miner, etc.

"All in all it is the biggest, most striking, and most effectively planned footwear campaign Goodrich ever inaugurated. It has, of course, one common object—to bring added business to the Goodrich dealer. But the amount of this new business depends largely on the attitude of the dealer himself. If the dealer identifies his stores as a source of supply for Goodrich footwear he automatically ties up with the buying thought already implanted in the user's mind.

"Dealers are urged to display Goodrich rubber footwear prominently; to put signs in their windows and on their counters; to use Goodrich display matter intelligently; and advertise Goodrich in their own local newspapers. For this purpose a number of small advertisements with a distinctly local flavor have been prepared, and plates will be supplied at Goodrich's expense, the dealer's only cost being the space itself.

"Extreme care has been taken to get every possible ounce of value from this unusual Goodrich effort and the dealer who intelligently ties up with it can logically expect the biggest footwear business he has ever enjoyed."

The copy of the advertisements has been written to appeal to women, stressing the fashion motif, and incidentally suggesting that Zippers are made for men, "smartly designed on masculine lines," and for "kiddies, too! a neater, lighter, more snug and protective boot for bustling active feet." Half-tone illustrations are used.

Text of one advertisement asserts that "the best dressed women have definitely proclaimed Zippers the correct footwear for wet and slushy underfooting."

Another advertisement, written to attract the attention of the Christmas shopper, is headlined: "Stir Some Woman's Heart," and suggests giving "Her"—"footwear loveliness for the wet and slushy day."

The copy drawn up for dealer usage is announced as follows in the portfolio:

"These ads are for you, Mr. Dealer. Use them in your own advertising. Tie-up with the big Goodrich campaign. All plates are supplied at Goodrich expense. You merely pay for the space itself."

Because of the keen competition in the winter footwear field, Mr. McQueen, when interviewed in New York, did not care to divulge for publication, figures on the results of this campaign, which, although it has just started, have already been remarkable. He was, however, very willing to praise the newspapers for what they have done to help, and thank them through Editor & Publisher.

"Big department stores and other dealers have told us," he said, "that they prefer newspaper advertising, and we are catering to them. The newspapers are timely. Through them, it is possible to focus your advertising campaign with an eye to weather conditions. The newspapers give an advertiser his best chance to make a dealer tie-up."

Typical copy sold by newspapers to local dealers to tie up Zipper Campaign

AD FINDS MISSING WITNESS

"Man In The Green Car" Appears in Court and Wins Case

Newspaper advertising in the *Billings* (Mont.) *Gazette* was used to win a court case recently when Mrs. Lydia Durland was acquitted of a charge of attacking Mrs. Martha Shaffer with a penknife.

The defendant in newspaper space asked "the man in the green car" who had passed when the two women were engaged in an altercation to appear as a witness.

The advertisement was not taken seriously, but it reached the man for whom it was intended, Walter Bender of Newton Grove. He appeared in court and on his testimony Mrs. Durland was acquitted.

Lawson Country Estate Sold

More than $500,000 was said to have been paid for the Green Lake, Wis., estate of the late Victor F. Lawson, publisher of the *Chicago Daily News,* purchased last week by a Chicago syndicate. It will be broken up for a summer home development for syndicate members and their friends. The Lawson country estate, of more than 1,000 acres on Green Lake, was notable for its landscape beauties and its 16 miles or more of roads built since Mr. Lawson acquired it several years ago.

Employes Divide Christmas Savings

The *Harrisburg Telegraph* employes cut their annual Christmas melon on Dec. 8, when Christmas checks were delivered. The Christmas savings of the Telegraph Employes' Association amounted to $15,964.59, and members received from $35 to $350, according to the amounts of their weekly payments. Officers are: Reuel Sides, president; Jacob Hartmire, vice-president; G. M. Steinmetz, treasurer; J. R. Sheffer, financial secretary.

Police Chief Curbs Noisy Newsboys

Complaints to police concerning noisy newsboys, led Chief of Police Thomas M. Burkes of Lynn, Mass., last week, to order the arrest of newsboys who "hawk" their wares on the street in a manner tending to annoy or disturb the peace and comfort of residents. The residents complained of the noise made by newsboys sent into the city to sell extra editions of certain Boston evening newspapers.

ELLIS SELLS HIS WORCESTER DAILIES TO G. F. BOOTH AND H. G. STODDARD

Telegram and Evening Gazette Change Hands in Surprise Sale at Reported Price of $2,000,000—Booth Is Former Gazette Publisher

WORCESTER, Mass., Dec. 11.—The *Worcester Telegram and Evening Gazette* was sold last Friday, Dec. 4, by Theodore T. Ellis to Harry G. Stoddard and George F. Booth, both of Worcester. The new owners have formed a company known as Worcester Telegram Publishing Company, Inc., which will operate the enterprises. Mr. Stoddard is president and Mr. Booth, vice-president and treasurer, while Frank C. Smith, Jr., a Worcester attorney, is clerk. These men also comprise the board of directors.

G. F. Booth

T. T. Ellis

The sale of the paper by Mr. Ellis came as a surprise not only to the employes of the plant but to the entire reading public of the city for there had not been the slightest inkling of Mr. Ellis' intention to dispose of his newspapers. Mr. Booth, one of the new owners, and who will be directing head of the two newspapers, is well known, however, both in the city and in New England newspaper circles because of his activities as publisher of the *Worcester Gazette* for 20 years prior to the time it was merged with the *Telegram* in 1921. The return of Mr. Booth to the newspaper field brought him an avalanche of congratulations. The first news of the sale to the reading public was in a brief announcement published on Saturday, Dec. 5 in both papers, when there was printed also an editorial lauding Mr. Ellis' accomplishments as publisher.

Mr. Ellis has been publisher and owner of the Telegram for six years and of the Gazette since 1921. His retirement from the newspaper field caused general regret among his employes who have arranged for a testimonial in his honor at the Bancroft hotel, Dec. 13. Mr. Ellis found other business enterprises in which he is interested demanded so much of his time that it was advisable to relinquish control of the newspapers although he did so with regret. As an appreciation of the faithful service given him by his employes he presented each with an extra week's pay and a letter of appreciation. Before leaving the plant he personally took leave of each employe, virtually all of whom were known to him intimately. His extra week's pay distribution is said to have cost him more than $10,000.

The new owners have announced that they do not plan any changes in personnel or policy. Their plans for the future were set forth in an announcement published in this last Monday's issues.

"In the conduct of the newspapers, Mr. Booth will be the publisher and directing head," it stated.

"We are pleased to announce that Roland F. Andrews will continue as editor, Charles H. Morse as business manager and assistant treasurer, Walter L. Thomas as assistant publisher and B. LeRoy Woodbury as advertising manager.

"The other executives and the personnel will remain as at present.

"We have acquired the newspapers in the spirit in which Mr. Ellis has run them and has disposed of them and we shall continue them in that policy.

"They will be conducted as we believe newspapers should be in order to render the best service—with vigor and decision, but we trust in a spirit of tolerance, of helpfulness and of kindliness."

The statement was signed by Mr. Stoddard and Mr. Booth.

Mr. Booth as previously stated was for 20 years publisher and editor of the Evening Gazette which paper enjoyed marked success under his direction. He has been active in the civic life of Worcester and is chairman of the parks and recreations committee and a member of the state commission appointed to investigate the future water supply. He is interested in several business enterprises, being president of the Bankers' Mortgage Corporation.

Mr. Stoddard is treasurer and general manager of the Wyman-Gordon Company, an extensive manufacturing concern n this city. He is also prominent in the civic life of Worcester and a leader in many of the philanthropic activities. He will not be active in the management of the newspapers it is said. He is a director of the executive committee of the Boston & Maine Railroad, director of Worcester Bank & Trust Company and other enterprises.

Mr. Ellis is head of the New England Fibre Blanket Company which supplies its product to about 90 per cent of the newspapers of the world. This business has grown to such an extent that he plans to devote most of his time to its management.

"Our business," said Mr. Ellis after the sale, "has grown so rapidly and to such volume that I plan to give it my undivided attention. We are headquarters for the newspapers of the world for information in a mechanical line. This has to pass through my hands as I have given much study to the mechanical needs of newspapers and it is a big tax on my time. I have decided to give it all my attention and I have retired from all active newspaper management."

Mr. Ellis as head of the Worcester Telegram Publishing Company bought the Worcester Daily and Sunday Telegram from Austin P. Cristy the founder in November, 1919, and soon after the editorship was assumed by Capt. Roland F. Andrews who came here from the *Hartford Times*. The Sunday Telegram was established in 1884 and the daily issue two years later.

In January, 1921, the Telegram Publishing Company bought the Gazette from Mr. Booth and John Day Jackson, publisher of the *New Haven Register*. The two papers were merged, the Gazette plant being moved to the Telegram building on Franklin street. Virtually no change was made in the editorial personnel of the Gazette. The Gazette was founded as a weekly in 1801 and as a daily in 1851. It is one of the oldest newspapers in the country.

The price paid for the two newspapers was not made public but was said to involve more than $2,000,000. It was generally reported at the time Mr. Ellis bought the Telegram that he paid from $1,500,000 to $1,750,000. When he acquired the Gazette it was reported the sale price was more than a half million. The purchase by the new concren included the radio broadcasting station WTAG which Mr. Ellis recently bought from the C. T. Sherer Company, a department store, for a price said to be about $75,000.

Papers filed at the registry of deeds include a deed of the real estate of the Telegram-Gazette bearing revenue stamps that indicate the equity of the new owners in the real estate is $769,000. There was also filed a mortgage taken by the Old Colony Trust Co. of Boston for $800,000.

The papers have full Associated Press service supplemented with International News and Universal Service and special financial services. Paul Block, Inc., is special advertising representative.

SUBSCRIBER PAYS FORTY-SIX YEAR OLD BILL

AN old-time subscriber to the old *Monmouth* (Ill.) *Atlas* walked into the office of the now *Monmouth* (Ill.) *Review-Atlas* the other day and demanded the right to pay a bill he had owed the newspaper for 46 years.

"Why," gasped the startled bookkeeper. "We've lost the records of 46 years ago. You don't owe us anything today."

The old subscriber scratched his head.

"If it's all the same to you," he finally rejoined, "I think I do."

His recollection was that his bill amounted to $3 and he insisted on paying $5 to cover interest also.

The *Atlas Review* turned the sum over to a Christmas charity and in a box story claimed the incident to be unique in newspaper experience.

CASPER (WYO.) TRIBUNE BUYS OUT HERALD

J. E. and E. E. Hanway Purchase Morning Paper from M. M. Levand and Continue Its Publication—Merge Sunday Editions

J. E. Hanway and his son E. E. Hanway, owners of the *Casper* (Wyo.) *Evening Tribune*, have purchased the *Casper Herald*, a morning newspaper, from Max M. Levand, representing one of the largest newspaper transactions on record in Wyoming.

J. E. Hanway

Publication of the Herald is being continued from the Tribune plant. The Saturday evening editions of the Tribune and the Monday morning Herald have been suspended. On Sunday morning the two papers have been merged and appear as the Casper Tribune-Herald. Both newspapers retain memberships in the Associated Press and the Sunday paper is also being supplied by the United Press.

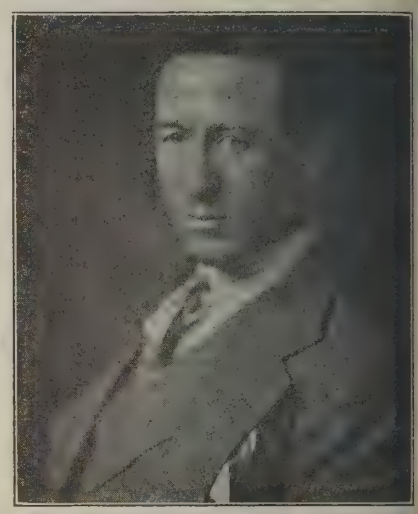
J. E. Hanway, Tribune-Herald publisher, entered newspaper work years ago on the *Kansas City Star* and was later connected with the *Topeka State Journal* and other papers of the west. Twelve years ago he acquired with his son, Earl E. Hanway, now business manager, the *Natrona County Tribune*, then a small weekly publication in Casper. Two years later the Casper Daily Tribune was issued and gained the supremacy of the evening field. The Sunday Morning Tribune marked the next expansion some three years ago and now the same publishers enter the morning field with a separate publication that will be continued under the name of the Casper Herald.

The deal for the transfer of the Herald was negotiated by Harry Free.

McCanna Directing Broadcasting

Ben McCanna, former promotion manager of *Liberty Magazine*, has been placed in charge of the radio stations WGN and WLIB, operated by the *Chicago Tribune* and *Liberty*. His title is "manager of radio."

Headphones for Reporters



Microphones have been placed in the British House of Lords so that the utterances of the peers will now be clearly audible in the headphones which are worn by reporters in the press gallery.

REUTERS, LTD., UNITES WITH BRITISH P. A.

Sir Roderick Jones Describes Move As Step Towards Establishment of Co-operative Body Similar to Associated Press

The Press Association of the United Kingdom last week became a joint owner of Reuters Limited, world news gathering association, headed by Sir Roderick Jones, who described the move as the first step towards establishment, in England, of a co-operative membership organization like the Associated Press.

Sir Roderick, through Kent Cooper, general manager of The Associated Press, this week, sent a cable greeting to the members of the A. P., pointing out what his intimate association with the Associated Press meant in approaching a similar system in the British Isles.

Sir Roderick Jones

"The first step in the present transaction was taken in 1916 when with a few friends I bought out the old stockholders of Reuters Telegram Company for $2,750,000, and myself became chief and controlling proprietor. This enabled me without interference to pave the way for the attainment of my ideal, namely, to bring newspapers of the United Kingdom into the proprietorship of Reuters and place the control beyond the life limitations of one individual ownership, also beyond the objections arising from ownership by an ordinary public stock company.

"My pursuit of this ideal was profoundly influenced by the by-laws and striking success of the Associated Press, and was stimulated by my being permitted to attend as a privileged observer the meetings of your Board of Directors on different occasions.

"As I watched the Board's proceedings day by day under the wise chairmanship of President Noyes I was impressed by the efficiency, equity and democratic character of the Associated Press organization and management, and I was encouraged to persevere in my endeavor to create something similar in this country. The Press Association of the United Kingdom is a cooperative body composed of nearly 90 per cent of the daily newspapers of the United Kingdom. It is the British analogy of the Associated Press of America, and arrangements now come to bring for the first time a majority of British newspapermen to the board and into the ownership of Reuters.

"At the same time it brings together the comprehensive home news system of the Press Association and world wide foreign news system of Reuters in much the same way as the home and foreign system of the Associated Press are combined in one powerful and wonderfully competent machine."

Stoughton Examiner Bankrupt

A voluntary petition in bankruptcy was filed in United States district court, Boston, Dec. 8 by David P. Walker, of Brockton, Mass., publisher of the *Stoughton* (Mass.) *Examiner*, a weekly.

P. O. DEFICIT SURE DESPITE RATE INCREASE

$49,000,000 Loss for Last Year to Be Followed by $40,000,000 Deficit This Year, Postmaster General New Reports to Congress—Senator Moses Asks Further Time for Investigation.

POSTAL COMMITTEE CONTINUED

WASHINGTON, D. C., Dec. 10.—The Moses resolution continuing the life of Congressional Postal Commission passed the Senate late this afternoon and gives the Commission until the next session of Congress to prepare its report or change law. No new legislation is anticipated at this session.

By BART CAMPBELL

WASHINGTON, Dec. 10.—Financial distress promises to pursue the Postoffice Department indefinitely.

On top of the deficit of $49,453,000 for the fiscal year ending June 30 last, Postmaster General Harry S. New reported to the new 69th Congress when it assembled Monday, the report of the Budget Bureau submitted subsequeptly by President Coolidge forecast a deficit of $37,000,000 at least for the fiscal year beginning July 1 next.

It was estimated that the deficit for the current fiscal year ending June 30 next would be not less than $40,000,000.

The Budget Report figured the expenditures of the Department for the next fiscal year would run as high as $740,000,000.

Reflecting the Administration's opposition to the postal wage increase, the Budget Report estimated that if the last Congress had not boosted the pay of postal employes the Department would have found itself with a surplus of $10,000,000 at the end of the next fiscal year. The estimate was also advanced from other quarters that but for the pay problem the Department would have "broken even" at the end of the present fiscal year instead of being confronted with another deficit.

It was plain this week that the Postmaster General and other Administration spokesmen are still seeking to justify their original opposition to the postal pay increase, as well as to uphold the Costs Ascertainment Report repudiated by the last Congress.

The general tenor of the Postmaster General's and the Budget reports was to the effect that there is little prospect of the Department getting an "even break," or avoiding a deficit as long as the law carries the present postal pay schedules under existing conditions. And yet further postal wage increases were recommended by the Postmaster General in his report.

Another authority pointed out that if there had been no increase in postal salaries and no change in postage rates there would have been an operating deficit of $17,155,400 for the last fiscal year. The same authority declared the report of the Postmaster General to be significant in that it showed that had business continued to grow during the last fiscal year as it did during the preceding one the deficit would have been approximately $5,000,000.

The familiar "If" running through the situation reflected the obvious intention of the Postoffice Department to place the burden for any deficit squarely upon the last Congress which refused to heed the recommendations of the Postmaster General when the present law was in the making.

The report cannot be regarded, however, as revealing much about the workings of the present law as it only became operative on April 15, or two and a half months before the end of the last fiscal year on June 30 last.

Senator Moses ran into obstacles in the Senate Chamber on Tuesday when he sought unanimous consent for the immediate passage of a resolution to extend the life of the commission until not later than the second week of the second regular session of the new 69th Congress. This in itself was notice that Senator Moses and other members of the commission do not anticipate much change in the postal legislative situation at this, the first regular session of the present Congress.

Senator Claude Swanson, of Virginia, refused to concur in Senator Moses' request for unanimous consent, and the resolution went to the calendar, to remain there until the commission chairman can secure favorable consideration for it.

Senator George W. Norris, of Nebraska, said, while Senator Moses was vainly trying to prevent his resolution from going to the calendar, that he did not care to say, "I told you so," but that when the original resolution was passed toward the close of the last Congress it was quite apparent to him then that the commission was not going to make an investigation of postal conditions that "was of any value and have it ready for the convening of this Congress."

"The bill which provided for the increase of postage was really a bill to relieve the President of a veto message regarding increased salaries for postal employees," declared Senator Norris. "Now we are getting complaints—or at least I have been getting complaints for a good while—from business men all over the country who are just beginning to find out that the postage rates have been increased upon various kinds of mail matter, and they do not understand why it was done, or what was the necessity for it, or whether it was done in a scientific way.

"I believed when the bill was passed, and I think it has been demonstrated since it became a law, that the postage increase was placed upon business men without any consideration worthy of the name. We were jumping blindly in the dark in order to avoid a postal deficiency, if we could, when we permitted the enactment of this law.

"We knew when we passed the law that we had not properly considered the various aspects of the questions involved, and yet without any such investigation as was necessary we increased postal rates, and now, after doing it, we are going to make a further investigation, which I think myself is absolutely necessary as a basis for scientific legislation. The only difficulty is that we have already legislated, and now we are going to investigate and see whether we ought to have fixed the increases as we needed them."

"Without admitting any of the allegations or imputations put forward by the Senator," said Senator Moses in reply, "I do want to compliment him upon his foresight and it is with chagrin I admit that we have come to Congress to ask for an extension of time. We find we require more time to deal with this subject, although we probably have taken substantially all of the testimony which we wish to take. We find, however, that there is not sufficient time to make our report because certain statistical information which can be had only from the Postoffice Department is not in our hands and cannot be brought into our hands before Feb. 1."

The statistical information referred to by Senator Moses is that regarding the operation of the present law during the impending Christmas holiday rush, especially as it concerns parcel post matter, which it is generally agreed must be in the hands of the commission before it can make either report or recommendations to Congress.

"If Senators would realize that every year since 1918 some portion of postal rates has been tinkered with, they would appreciate that it is time now for us to give some degree of assurance of permanency to such rates, so the business interests which have to make use of the mails as an essential element of their business may know the conditions under which they shall transact their business," added Senator Moses.

"An interesting document but it doesn't say anything as far as the second class rate problem is concerned," was the comment of A. C. Pearson, chairman of the postal committee of the National Publishers' Association, regarding Postmaster General Harry S. New's report to the new 69th Congress of an estimated postal deficit of not less than $40,000,000.

"The report evidently includes the retroactive phase of the increased pay bill, and brings about an unfair comparison. I agree with the recommendation of the Joint-Congressional Postal Committee that a full year will be required before a just estimate can be made."

L. B. Palmer, manager of the American Newspaper Publishers Association, declined to comment on the estimated postal deficit and the effect it might have on efforts the A.N.P.A. is making towards a reduction of second class rates.

Postmaster General New in his report said:

"In case of publications, the advertising portions of which are subject to the zone rates, the difference between the postage thereon at the new rates and that chargeable at the old rates is comparatively small in the aggregate, there being an increase for fourth zone matter and reduction for sixth and eighth zone matter. While the difference in case of publications enjoying the special flat rate of 1½ cents a pound represents an increase of 20 per cent over the former rate of 1¼ cents a pound, it should be remembered that this rate is still a flate rate applying alike to both the advertising portion as well as that devoted to other than advertising and therefore continues to be an advantageous rate."

Mr. New, in expressing solicitude for the public, recommends the law be amended "by prescribing a more equitable rate for transient second-class matter by reducing the rate on publications sent by others than the publisher or news agent to 1 cent for each 2 ounces or fraction thereof." He says:

"The increased rate on what is known as transient second-class matter, consisting of newspapers and periodicals mailed by the general public, is quite radical and has aroused widespread criticism. Formerly, the flat rate of 1 cent for each 4 ounces or fraction thereof, or, in effect, approximately 4 cents a pound, was applicable regardless of distance or zone, while under the new law the rate is 2 cents for each 2 ounces or fraction thereof up to 8 ounces for all distances, and the fourth-class or parcel-post rates for weights exceeding 8 ounces. This makes an increase of more than 400 per cent in some instances, which is excessive, and as a result there has been a great falling off in the volume of the mailings of this character, and also, despite the higher rate, in the postage collected on such matter. Therefore this increase in rate on transient matter has not only resulted in a greatly curtailed use of the facility by the public but in defeating the end for which the legislation was intended by actually reducing the revenues on this particular subclass of mail. I therefore recommend that legislation be secured fixing this rate at 1 cent for each 2 ounces regardless of distance.

NEW YORK NEWSPAPERS GAIN 2,072,062 LINES DURING NOVEMBER

ADVERTISING linage in New York City newspapers showed a net gain of 2,072,062 lines in November over November of last year, according to figures just issued by the Statistical Department of the *New York Evening Post.*

Total linage for the month was 16,760,414, as compared with 14,688,352 in 1924. The figure was a record for the month.

The table follows:

TRAIL BLAZERS OF ADVERTISING

Special Edition Blowhards

by Chalmers L. Pancoast

COPYRIGHT 1925 BY EDITOR & PUBLISHER CO.

CHAPTER XI

Special Edition Blowhards

LONGFELLOW said that in this world a man must be either an anvil or a hammer. The special edition promoter was a hammer and also a bellows. He had to use sledge hammer methods, to go at it hammer and tongs. He was a blowhard—there with the big talk—the big noise for the quick, easy cash.

He was as great a character as ever played the fascinating game of advertising, the chap who was half-writer and half-salesman, and whose stunt was to put out special editions for newspapers.

He was always a clever, reckless fellow. Here was a game of sudden changes, of uncertainty. It was just the game for a lot of reckless energy and wild ideas.

The special edition man was the true bohemian. He spent the little that he had, first for what was necessary, and next for what really gave him pleasure; but he spent hardly anything in deference to the usages of society. He usually had but one suit. He traveled in cheap ways but he saw much of art and nature and humanity.

Back in the special edition days it was not the idea to try and convince an advertiser that it paid to advertise. The scheme was to write a clever story about a man or his business, a story of soft soap, palaver, praise.

In this period of soft-hearted and soft-headed advertising, merchants fell hard for the flowery write-ups and paid good money to have nice things said about themselves and their business.

The first advertising special edition man I ever met was a clever chap whose name has escaped me. He put a special edition on the *Albuquerque* (N. M.) *Daily Citizen* to celebrate the Twenty-second New Mexico Territorial Fair. That was back in 1902 when McKinley was president.

It was called a "Memorial Number" written to exploit mining, smelting, stock raising, agriculture, timber, commerce, shipping, manufacturing and climate. Everything in and around Albuquerque got in on the write-up, and good money was paid for it.

I was a reporter on the Citizen and I was let in on the writing up of the local firms. We would get all the "dope" about a business, write a nice line of stuff and take it around and sell it. The first thing I ever wrote for a Special Edition was about the Hotel Alvarado, which I termed the "City's Greatest Ornament" and elaborated on its Museum and Indian collection. I think we collected about $25 for this story.

We praised everything, and complimented everybody, so a good time was had by all, and we were mighty proud of our "Memorial Number."

It was printed in bright red and black, with a decorative border of a Navajo Indian blanket design. I have never seen a more attractive newspaper put out in a small town on an old flat-bed press.

From that time on I became a great admirer of special edition men. I met a great many in the Southwest at that time because there seemed to be an epidemic for Special Mining Editions. The stunt was to write up all the mines in New Mexico and Arizona and sell large quantities of the papers to the mining promoters, who sent them back East to help sell mining stock.

I got in on some of these editions and it was great sport, knocking about from mining camp to camp, digging up data about strikes and ores and all kinds of news to get people excited about investing in the mines. Every mining camp I wrote up, for these Specials, was in a most prosperous condition, and the output of refined copper or iron or silver was enormous, and a big future for the camp was predicted.

It was true adventuring, visiting these mines in the Southwest for the purpose of getting write-up advertisements. It all came under the head of news, and while it was never marked advertising, as the law compels today, it was advertising in every sense of the word.

Our credentials were always letters from the publisher, or editor, addressed to the retail merchants of the town. These letters were to the effect that the special edition would show the wonderful development and growth of the retail interests, and asked for their co-operation.

The success of the special editions depended on generous support of the local business interests. Solicitations were not made on the basis that the advertising would pay. The appeal for funds was was on the talk that a business man should donate for a good cause. It was a begging proposition, with a lot of salve to make the transaction run along smoothly.

Rolling stone advertising solicitors in New Mexico in the early days, photographed at the Pueblo village of Islet. At the left is Chalmers L. Pancoast, writer of this series. The Indian at the right, Pasqual Adeita, later became governor of the village.

Real Estate editions were also a popular means of making money. Stories of reclaiming land for the benefit of the farmer, fruit grower, stock raiser and others interested in pioneering were paid for at high rates.

The old-time special edition worker had to be able to sling a rosy-future pen. His ability to make money depended on his knack of painting pictures of great things to come; he had to quote startling figures of the marvelous development of the section being promoted.

Some of the most clever advertising men I have ever met were special edition drifters, who were able to write glowing stories about the "dawn of a new era," "the high road to progress," the big jump forward to a "golden age in business."

Selling Western homesteads to immigrants meant tall talk about irrigation, railroads, town building and timber, and all of those natural wealth producers in which pioneers and settlers were interested.

I have worked with many special edition men who have been hustlers and had plenty of nerve. It took grit and pluck to go out and get a lot of advertising in a short space of time to swing an edition into profit and put it to bed on time.

The West has reaped the benefit of the advertising of special edition writers. The stories they wrote were based on facts, startling figures that told the truth. Of course some writers of development publicity had more imagination than others, and could dream greater dreams, but their exaggerations helped build up the West.

Predictions in growth were rampant. One guess was as good as another. The biggest guess made the most interesting publicity story.

The millions of acres of unappropriated public lands of the West were settled as a direct result of the clever writers, whose versatile pens wrote big words.

CHAPTER XII

Mexican Thieves' Market

THE old "Thieves' Market" in the city of Mexico has been given a lot of publicity by word of mouth and through personal letters and newspaper stories. A friend of mine went to Mexico City and his letters were filled with strange stories of this favorite haunt of tourists and resident Americans.

Before Mexico became a hot-bed of revolutionists, and tourists were scared out, wide publicity was given to this unique market where the sale of stolen goods was carried on publicly.

Those early tourists who had a hankering for antiques and typical Mexican merchandise pawed over piles of junk to unearth the rare finds which were so much talked about.

The old "Thieves' Market" was nothing more than a licensed, advertised "fence" for stolen goods. It was patronized by all who were looking for bargains, rare antiques; and especially by those who had lost something by theft. They were almost certain to find it on display in one of the booths.

The "Thieves' Market" always made good publicity material because there was plenty of romance and adventure connected with it.

When a tourist was told that a certain antique had been stolen from the church or temple it added a lot of romance to its history.

This strange market, accepted as a legitimate part of a city's business, dates back to the time of Montezuma, when dishonest servants sat in the shadows of the fig trees and called out their stolen wares.

The market really has a legendary origin. The story is that a servant of one of the Princes of Montezuma's empire stole some of his master's costly bric-a-brac. Another servant was sent out to capture the thief and the goods. The second servant overtook the first, where he was resting under a great fig tree. Not content with capturing the thief, he killed him, planted him under the fig tree and took possession of the spoils. Then, instead of returning them to his master, he sat down under the tree and sold them to the passers-by.

This tradition fails to reveal what became of the second thief. No doubt the goods were stolen by another thief, and so on, until one may have become a thrifty merchant. From that time on the fig tree became the market place for goods whose ownership could not be traced.

When the early Spaniards rebuilt the city the famous fig tree was cut down. However, this spot continued to be used as a clearing house for dishonest and thieving servants.

Some of these thieves were luckier than others in regard to being caught or suspected, but they all seemed to regard their masters' movable property as merely loaned to the masters for temporary use.

In time the market came to be recognized as a regular institution, and took the Spanish name "Volador" meaning "The Flyer," possibly referring to the wings taken by the articles on sale. The appropriate name of "Thieves' Market" was handed to the place when the Americans first started advertising it by word of mouth.

To the visitor who had never heard of this place it would be readily taken for a junk heap. The square which it occupied was divided by a large number of narrow lanes. These alley-ways were lined with booths of the "merchants" rudely constructed of old boards, tin or sheet iron, canvas or any other material that could easily be acquired without investing money. In front of the booths were rickety counters on which were spread great heaps of old and apparently worthless merchandise. The ground about was strewn with piles of the same stuff.

(*Continued Next Week*)

CONDEMN FREE PUBLICITY METHODS

Leading Automobile Advertising Executives Agree That Paid Space Must Be on Merits of Media—"Canned" Rot Does No Good to Advertiser, But Real Automobile News Interests Readers

FOLLOWING the publication in these columns of the denunciation of the "free publicity" system, as it now operates in the American press, by Albert R. Erskine, President of the Studebaker Corporation, EDITOR & PUBLISHER presented the matter to the advertising managers of leading automobile manufacturing concerns for expressions of opinion. Replying for Dodge Brothers, Inc., Harry J. Koch, Manager of Advertising, voices almost the same views as those which Mr. Erskine expressed on November 21. In fact, Mr. Koch brings the matter much closer to the doorstep of the newspapers, where it belongs, than did the president of the Studebaker Corporation. "It is my opinion," says he, "that the automobile section has become more or less of a necessity, at least in the larger papers, but that the rubbish with which it is filled is a disgrace to the newspaper profession." Mr. Koch says that Dodge Brothers have always bought advertising space on the sound basis of volume or quality of circulation. "canned" publicity should be eliminated, he asserts.

A. Brown Batterson, Director of Advertising of the Buick Motor Company, advises EDITOR & PUBLISHER that Buick publicity is no longer sent to newspapers direct, but is sent to branches, distributors and dealers.

Mr. Batterson says that the "editor is the judge of the news" and that a newspaper will receive as much advertising from Buick whether the editor finds the publicity usable or not.

W. E. Fellows, Director of Advertising of the Oakland Motor Car Company, declares that his company is making a conscientious effort to restrict publicity to real news.

E. LeRoy Pelletier, Advertising and Sales Promotion Manager of Rickenbacker Motor Company, takes President Erskine's statements as of doubtful sincerity.

Following are the statements:

By HENRY J. KOCH

Manager, Advertising Division, Dodge Brothers, Inc.

Our contention always has been that the ordinary variety of "canned" publicity should be eliminated from the newspapers, but that, as long as everybody else was doing it, we had to continue the practice as a matter or self defense. Nor have we timid about telling a newspaper what we think when we see that other advertisers are being favored with a proportionately greater amount than we are in the matter of free space.

Mr. Erskine's pronunciamento regarding so-called free publicity is interesting but not new. We have never bought advertising space on any basis other than the basis of volume or quality circulation. In fact we have repeatedly cautioned dealers against the advisability of favoring newspapers which were unusually liberal in the amount of space allotted to free publicity, as this practice had a decided tendency to detract from the major value of circulation.

The most unfortunate phase of the whole situation is the absurd judgment exercised by some automobile editors in the selection of publicity. For a number of years I kept a rather close check on Dodge Brothers publicity that appeared in print. No preference whatever was shown for really good material. Straight advertising, in story form, got just as much space as the article that really said and meant something to the newspaper reader.

It is my opinion that the automobile section has become more or less a necessity, at least in the larger papers, but that the rubbish with which it is ordinarily filled is a disgrace to the newspaper profession.

WHAT PRESIDENT ERSKINE SAID

To Avoid Confusion EDITOR & PUBLISHER Herewith Reproduces the More Significant Remarks on "Free Publicity" Made by President Erskine in This Journal on November 21

"FREE PUBLICITY" is the material which newspapers print about automobiles, accessories, dealers, factory officials, only because it is sent to them by the advertising department of an automotive advertiser. It is designed merely to get the name of an automobile, a man, or an accessory in the news columns.

"We are as much opposed to 'free publicity' as any editor. We consider it an evil and would be glad to see it eliminated. There is no more reason why you should print pictures of automobiles than of pianos and washing machines. Gossip of the automotive trade is no more entitled to space than gossip of the department stores.

"The practice of giving free publicity along with automobile advertising has been instrumental in increasing the rates for automobile advertising without proportionate return. It seems to us wasteful from the standpoint of advertiser as well as publisher.

"Therefore, we assure you that we shall not discriminate against any newspaper which eliminates free publicity entirely, but we do intend to insist more strictly than ever on receiving our full share of free publicity in those newspapers which give it.

"We do not believe that any automotive advertiser places such a large proportion of his total appropriation in newspapers as does Studebaker—last year exceeding 90 per cent. We are surely entitled to a square deal from newspapers. We are not receiving a square deal if competitors who buy a similar amount of advertising space are given a larger volume of space in the news columns.

"We, therefore, intend in the future to check this matter carefully and to discriminate against those papers which are discriminating against us.

"In other words, we are quite content to receive no free publicity whatever, if all competitors are treated in the same manner; but if publicity is being used we believe that no competitor should receive a line more than Studebaker, except as he uses more advertising space."

With a little discretion on the part of editors, the automobile section might be exceedingly interesting and of real value to publisher, advertiser and reader alike.

By W. E. FELLOWS

Director of Advertising, Oakland Motor Car Company

Frankly I believe that most of the larger companies recognized the evil of boiler plate publicity some time ago and so far as we are concerned, we are making a conscientious effort to restrict our publicity to articles which have real news value. I do feel, however, that any industry of the magnitude of the automobile industry, serving such a universal need, is of interest to newspaper readers and I notice that Mr. Erskine reserves the right to make use of publicity when it has undoubted value. In other words, he still feels that he should be the judge as to whether an item has real news or is just "gossip" of the automobile trade. Most newspapers seem to agree that real estate transactions, for instance, are of interest to local buyers, and all we ask is that our news be treated on the same basis and used when it has some genuine local interest.

By E. LE ROY PELLETIER

Advertising and Sales Promotion, Rickenbacker Motor Co.

It does not appear from Mr. Erskine's own words that he is at all opposed to publicity nor that he considers it valueless.

On the contrary, he merely takes an adroit method of using a club on publishers.

Instead of trying to elevate the quality of publicity matter sent to newspapers, he frankly states that matter sent from his Publicity Bureau must be used in exact proportion to the amount of space he buys and without regard to the news value of the article.

Many manufacturers have done this in the past but never has one dared to come out bluntly and say he is going to measure the publicity he gets with a yard stick.

The writer's own attitude has always been, to send out only such material as he believed had a genuine news value, and was, on that basis alone, entitled to the space it occupied.

He has never been guilty of using a club either directly or indirectly on any publisher to force the publication of his material.

If the "stuff" goes into the waste basket I assume that that was where it belonged. If in the columns, then it must have been worth its space on the basis of news value.

Insisting on the publication of matter which is not news is futile. Getting it in print is not the main idea—getting it read is what counts. If it isn't news—if it does not interest the reader—then it will not be read, and so is a total loss both to advertiser and publisher.

It is because so many publicity men are in the position where the boss holds a club not only over publishers but over them and estimates their value by the number of lines rather than by the effectiveness of what is published that so much drivel and bunk comes into the editorial office.

Mr. Erskine—or whoever wrote the article which he fathered—is clever enough to know that his method is not calculated to reduce but to increase the volume of "free publicity" and to decrease the quality of the matter which appears in the "Automobile Section."

Mr. Erskine proves his own insincerity when he contends that "free publicity is worthless" and at the end of his letter insists that he get every last line that is coming to him—on the yard stick.

By A. BROWN BATTERSON

Director of Advertising, Buick Motor Company

We believe that real news of an automobile factory is as likely to be of value to the automobile editor as to the city or financial editor. Else the automobile editor is that only in name, and is in fact a man hired for the purpose of reconciling a certain number of "news" columns with a certain number of automobile advertisements, in order to insure the reappearance of these ads by giving a bonus of "free publicity." We do not believe this is the sole function of the automobile editor or of the automobile section. Interesting items of news from various manufacturers are sought by readers in the automobile pages. The Buick Company attempts to furnish them from the Buick plant, but the editor is the judge of their value. We are not. He will receive as much advertising from us whether or not he finds news in our stories.

The Buick Motor Co. definitely announced its policy in regard to free newspaper publicity in a circular letter, written over a year ago and mailed to all Buick advertising managers, and to newspapers. It assumed that newspapers employed automobile editors for the purpose of editing and making up one or more pages of automobile news in certain editions each week, because such news was of interest to their readers. On that assumption, it expected as much "free" space in these automobile sections as the stories sent out from the Buick factory warranted from a standpoint of news value.

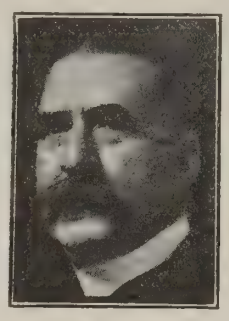
It realized that no automobile section could be complete or authoritative without news concerning the leaders of the industry.

But the Buick Motor Co. went so far as to make news value the final criterion by which its press dispatches should be judged and published. Advertising space used in a certain paper did not mean that that paper must publish the Buick news stories. It was announced in this letter that all advertising was placed where it would do the most good, and that no newspaper need feel that it must print Buick news stories in order to retain the Buick advertising business.

If an editor happens to give half a column of space in the news section to one manufacturer, and fails to use a Buick story in that edition even though a Buick advertisement appears in the same issue, the Buick Motor Co. will not withdraw its advertising from that paper. Rather, the Buick Motor Co. will assume that the editor saw no news value in the story or stories he had on hand, and will strive to make its stories even more interesting and valuable as news of the industry. If the editor continues to ignore the Buick stories, the Buick Motor Co. will stop sending them to him on the assumption that he does not care to give space to publicity. But the Buick advertisements will continue to appear in that paper as before.

While it makes no attempt to force news of the Buick factory into the automobile section, the company believes that the common practice of publishing publicity according to the amount of advertising space bought is wrong. A newspaper should fill its news columns with material selected solely on the basis of news value.

The following extract from the letter sent to Branch Managers, District Sales Managers, Distributors and newspapers on August 9, 1924, succinctly expresses the attitude of the Buick Motor Co. on the subject of publicity:



"Do not attempt to force a paper into accepting or using our service under penalty of losing Buick advertising as we want this Buick automobile editor service to stand on its own legs.

"We, personally, in buying advertising in a newspaper, consider only the advertising value of the newspaper and if in our opinion it should be used for advertising, we use it regardless of whether it uses our news service or not. So, in handling this service try to show the newspaper the value to it of our service and we think it will be used or at least you will be told why not."

PERCIVAL S. HILL, AMERICAN TOBACCO PRESIDENT, DIES AT 63

Began As Sales Manager in 1899 and Saw Company Become One of Nation's Largest Advertisers Spending More Than $2,000,000 Yearly

PERCIVAL S. HILL, 63, president of the American Tobacco Company, died suddenly Dec. 7, at his New York home.

PERCIVAL S. HILL

The connection of Mr. Hill with the old American Tobacco Company, which preceded the present corporation of the same name, began with his appointment in 1899 as sales manager for the Philadelphia district. The following year he was elected vice-president and moved to New York, and from then on his relationship with the late James B. Duke, then president of the company, was an intimate one.

Following the dissolution of the old American Tobacco Company, the so-called "Tobacco Trust," the organization was split into four companies, the & Myers Tobacco Company, the Lorillard Tobacco Company, and the present American Tobacco Company. Of this last corporation Mr. Hill was elected president in 1912 and continued to hold that office until his death.

Last July Mr. Hill was made an officer of the Legion of Honor for his services to the American Red Cross during the World War.

Mr. Hill, during his entire association with the American Tobacco Company, one of the largest newspaper advertisers in the world, was always keenly interested in the advertising problems of the corporation. His hand was behind the policy inaugurated in 1916 of splitting up the various advertising accounts of the American Tobacco Company among different agencies.

It was his idea that the men of one agency might become saturated with the selling arguments of a certain brand, and unconsciously and with the best intention, use these arguments in pushing other leaders.

"Advertising," Mr. Hill explained, in an interview with EDITOR & PUBLISHER at the time, "is specific, not general. Where one agency handles all of our accounts, it is more likely to be general than otherwise.

"An advertising man is much like a painter, or an artist. He does fine work. He is talented to an unusual degree, but there is something about this picture that one notices in the other. There is a mode of expression, a sameness, as it were, that identifies the work of the man in each of his efforts.

"An advertising man in many respects is constituted the same as an artist. He studies and makes a specialty of a certain line—a brand of cigarettes—Sweet Caporal, we will say. He thinks in terms of Sweet Caporal, assembles and masses all of his arguments for that brand, and then, later, when he writes advertising copy for Mecca, he is likely to use Sweet Caporal arguments and selling ideas. Not only is one man liable to do that, but a set of men, working along a given line, are likely, taken as a unit, to average up pretty much the same. Thus, if one agency handles all of our advertising, we feel for this very reason, that we are working against ourselves."

Mr. Hill's idea was considered very radical in those days. There was a feeling then that an entire account should be handled exclusively by one agency. But the policy soon met with general approval on the part of the agency men.

In his advertising philosophy Mr. Hill believed that it was the idea back of the campaign or in the copy that counted most. This point was emphasized in a speech which he delivered in New York several years ago. He said:

"It is the easiest thing in the world to buy space—anybody can do that—but the hardest thing is to advertise profitably. The proper filling of space requires marked ability. Efficient advertising brings about an immediate response. The degree of the response is not so noticeable in the case of an old, well-established article as in the case of a new article. We cannot produce the same thrill, and if we fail to get the thrill we have to cancel the advertising. It is no fault of yours that we are obliged to take this course. Then we have to get busy to find the idea, which, put into proper form in the copy will produce the desired results. Let me impress upon you the fact that you can do nothing better to help us than furnish us with helpful, practical ideas."

The American Tobacco Company today invests something like $2,000,000 in newspaper advertising and $250,000 in magazines. This belief in the power of advertising, fostered by Mr. Hill, encouraged and expanded by him, dates back to Civil War days, when the young and hustling James B. Duke saw the advertising possibilities behind Bull Durham tobacco. It was under him that the famous bull began to glower from barn walls, fences, and bill boards from one end of the country to another.

Under Mr. Hill's administration a persistent advertising policy was maintained. As new media came into existence and old methods were improved, he saw to it that the American Tobacco Company was at the forefront in the advance.

MAJOR MELONEY DEAD

Veteran New York Newspaper Man Began Career in 'Frisco

Major William Brown Meloney, for the past 25 years a conspicuous figure in New York newspaper circles, most recently connected with the *New York World,* died Dec. 7, at Pawling, N. Y. The end was hastened by exposure suffered by Major Meloney in the Meuse-Argonne offensive in October, 1918. He is survived by his wife, Marie Mattingly Meloney, editor of the Butterick publications, and a son, William, Jr.

Mr. Meloney was born in San Francisco June 6, 1878, and after attending public and private schools was driven by a spirit of adventure to the sea in sailing ships, and as a seaman and petty officer he saw much of the world while still a youth. Returning to San Francisco, he joined the staff of the *Chronicle* in 1896, and after working on the *Examiner* and *Bulletin* came to New York in 1901 and joined the staff of the *World.* He served the World as reporter and day city editor until 1910, when he accepted the position of executive secretary to Mayor William J. Gaynor.

During all his newspaper career he contributed to magazines, and he was the author of several books and two plays, which were produced. His short stories of the sea were considered particularly vivid and fine.

CAPT. JAMES T. SMITH

Veteran Denver Mining Editor Dies of Pneumonia at 79

Capt. James T. Smith, 79, dean of western mining editors and one of the picturesque figures of the old West, died in Denver, Dec. 1, of pneumonia. He was on the staff of the *Rocky Mountain News.*

Despite his advanced age, Smith was also a featured sport writer, his last article on sport appearing a week before his death.

The veteran editor joined the editorial staff of the *News* nearly 60 years ago, since that time serving variously as chief editorial writer, sports editor, city editor, special writer and mining editor.

He was a member of the Denver Press Club and the Grand Army of the Republic.

DR. RUSSELL H. CONWELL

Founder of Minneapolis Tribune Became Noted Minister

The Rev. Dr. Russell H. Conwell, Baptist clergyman, founder and president of Temple University, Philadelphia, and former newspaper man, died in Philadelphia Dec. 6. He was renowned as a lecturer, author, and philanthropist. He wrote the famous lecture, "Acres of Diamonds."

At 19 Mr. Conwell left Yale University when the Civil War started. He was twice wounded and at the end of the war came out a lieutenant colonel.

The young ex-soldier finished college and became a lawyer, but turned for a time to newspaper work. He founded and owned the *Minneapolis Tribune,* was a traveling correspondent for the *New York Tribune,* and later a reporter for it and editor of the *Boston Traveler.* In Boston he took up law again, and began preaching, while he still practiced, at the age of 35.

His son Leon Conwell is editor of the *Somerville* (Mass.) *Journal.*

Obituary

L. W. HENLEY, 50, one of the best known newspaper men of Indiana, died suddenly in New York recently. Several years ago he was financial and commercial editor of the *Indianapolis Star,* a post now held by his brother Bert Henley. Later he went to Terre Haute as managing editor of the *Star.*

COL. JAMES HAMILTON DAVIDSON, 86, former city editor of the *St. Paul* (Minn.) *Pioneer Press,* died Dec. 1 in Chicago.

MRS. MARY S. SPRAGUE, wife of Walter Sprague, a printer on the *Boston Globe* and mother of George E. Sprague, a member of the *Lynn* (Mass.) *Telegram-News* editorial staff, died Nov. 2 at Lynn. During her early life she was associated with Mark Twain (Samuel Clemens) in the preparation of his books.

THOMAS CURRY, 69, publisher of the *Oregon* (Mo.) *Holt County Sentinel* died following a short illness.

GEORGE H. ASHLEY, 62, night advertising man for the *Rochester* (N. Y.) *Democrat and Chronicle* for the past ten years, died at his home in that city.

EDGAR S. ENNIS, publisher of the *Kiester* (Minn.) *Courier* died recently.

CHARLES J. GIBBONS, 58, head of the St. Paul advertising agency bearing his name, died Nov. 30.

FREDERICK MACKEY, advertising man on the *New Kensington* (Pa.) *Dispatch* was killed recently and his chauffeur George J. Vates, badly injured when his car ran over a forty foot embankment.

the Florida Caravan
PIONEERS of 1925

Mud splattered, weary and worn. They come from snow capped peaks in North and East and sunny climes in South and West.

Daily, nightly, the Caravan moves. Roadsides and inns, streets and pikes, can scarcely hold this stream of life.

New homes, new wealth, they seek. Untold numbers invest their money and build to stay.

To reach them in every corner of the state, on every news stand, The Florida Times-Union is the leading paper of the state.

O'SHAUGHNESSY URGES ADVERTISING AS AID TO AGRICULTURE

Recommends It to Farmers as Efficient Method of Increasing and Solidifying Their Organizations, in Chicago Farm Bureau Speech

Excerpts from an address by James O'Shaughnessy, Executive Secretary, American Association of Advertising Agencies, before the Seventh Annual Meeting of the American Farm Bureau Federation, Chicago, Dec. 7.

ADVERTISING, which is working so tremendously for industry, is to some extent doing about the same thing in the way for agriculture. In comparison, however, agriculture is a small advertiser.

In the national field, agriculture spends for advertising about one cent for each dollar spent by manufacturers.

It has been estimated that the farmers of this country could use to advantage about a quarter of a billion dollars' worth of national advertising annually.

That fantastic figure is arrived at by using the ratio of advertising cost to industry computed on the assumption that sufficient advertising properly employed would save to the farmer about 25 per cent of his present selling cost. In other words, with such an investment the farmers' income on the same production could be increased many billions of dollars a year.

These figures are too remote, however, for any other purposes than to bring to the attention of agriculture some of the wider problems that might be studied out in connection with advertising. To ask the farmer individually or to ask the farm organizations to plunge into national advertising of all farm produce would be indefensible. What I would suggest in that connection is a study, which in turn may lead to preparation for further study of what advertising is and how it may be more extensively applied to farming interests.

There are already enough examples of advertising of agricultural products to justify an exploration of the subject by agriculture in general. The first step toward any advertising is organization, whether it be in agriculture or industry.

The advertising you see in agriculture today is done by intensified organizations of groups which have grown out of the larger organizations. Organization is the beginning and continuation of any proper advertising activity.

Advertising itself is purely an organic expression. It is the organization of knowledge and skill into specific service.

There is no mystery about advertising and there is no magic in it. In effect it is using the multiplication table in the markets.

Advertising is usually most desirable and effective where there is a wide stretch between the price the producer gets and the price the consumer pays.

There is such a big difference between the price the farmer gets and the price the consumer pays that it looks as if there were a crying need for that organized effort which would give the farmer more and require the consumer to pay less.

If it costs 66 cents to sell 33 cents worth of farm products then marketing skill might well be brought to bear on that transaction.

It is the application of marketing study in advertising of which I speak. Mere advertising for advertising's sake may be a commercial crime. But advertising properly harnessed to a worthwhile task is a public blessing.

There is much praise of advertising but it should not be praised. Always it should be regarded as a thing to be used only where it can produce the proper economies.

An examination of the figures will show that the average cost of advertising to the manufacturer is 3 per cent of the value of his products sold at the factory. He is spending 3 per cent in that way for various reasons. First, because it gives him a wider market and in quicker time and at the least cost. Second, because it enables him to produce on a large scale and lessens the cost of production. Third, because selling is always an expense in every process and selling with the aid of proper advertising reduces that selling expense on every item sold.

If the manufacturer's advertising costs him only 3 per cent in the average it looks as if advertising should in proper circumstances be interesting to the farmer who has a 66 per cent selling cost now. If that cost could be reduced to 60 per cent through advertising the profit on the advertising investment would be just 100 per cent.

But how can the farmer generally use this commercial inuence to cut down his impoverished cost of selling?

The first part of the answer is that advertising cannot now be practically applied to all farm products. The mere fact that one group of agriculturists is listed among the very largest advertisers in America provides no answer to the question as to agricultural products in general. That particular group is organized and thoroughly equipped for advertising. Agriculture as a whole is not.

The first step, therefore, toward general advertising would be in the way of further organization. All farmers should be brought into your organizations. And they should be brought in on proper working terms. In other words, your members should be enlisted for the work to be done.

You might use advertising as an aid in building your organizations to the size and strength you desire.

That would be, in its first blush, advertising for members. And, of course, that would be true. Such advertising if properly designed and spread out to all the farmers could cause them to want to join.

It is entirely within the range of practical possibility that your advertising undertaking could do the following things:

Bring in members exactly as you want them.

Make the farmer fully understood in the cities.

Break down resistance to farmers' demands on the Government.

Strengthen your hands for the solution of your marketing problems.

Find a way to get more groups of growers into successful advertising.

Develop better facilities of transportation of all salable farm produce.

Promote a fuller use of parcel post, including by air for perishable produce.

More dealing direct with the city consumer.

Better knowledge of all your markets leading to your own control of them.

Better working conditions on the farm.

More machinery in the fields and about the barns.

More step-savers in every farmhouse.

Running water in every farmhouse.

Less drudgery for the farmer and the farmer's wife.

A shorter day's work for both of them, giving more time to think of the farmer's wider problems and social betterment.

Make the farm home so attractive that the farmer's boy will want to stay and be rewarded for staying.

You have the example of industry before you. You have the experience of substantial groups of agriculture to guide you.

You already have the organization and equipment necessary to consider this suggestion. All that remains is to get a detailed working plan for it and proceed.

You can with audacious but cautious persistance become the biggest advertising interest in America, with all the rewards and all the dignities that come to big service intelligently delivered.

The Toys of Grown-Up Childre

Women are only little girls grown bigger. The same natural instinct that makes a little girl rejoice in "dressing up" herself and her dollies makes the big girl delight in the same things.

And men—consistent to the "slugs and snails and puppy dogs' tails" of their origin, are happiest when they have the "grown-up toys" of boyhood to work with and to play with.

To make herself and her children attractive, her home livable as well as lovely—this is the primary motive of woman. Hence her interest in the household and personal sections of the family newspaper. Also in the advertisements that tell what is modish, where it may be purchased and at what price.

Where is the man who does not love the hardware store or the electric shop? A saw, a hammer, a brace and bit —the last word in masculine delight!

Merchants are practical psychologists. Their prosperity is in direct proportion to the success with which they link up their stores with these elementary human desires. Look over the entire field of retail trade and you will find that the really successful dealers are the advertisers.

In Cincinnati the leading dealers in women's merchandise, gift goods, toilet articles and the like, as well as the merchants who sell hardware, electrical appliances, automobiles, tires and accessories and men's wear place more of their advertising in the Times-Star than in any other medium.

Expend to economize—R. E. Lent

SPEND money to be economical is a newspaper paradox, for which I am indebted to R. E. Lent, business manager and part owner of the *Passaic* (N. J.) *Evening News.*

The most expensive newspaper department, Mr. Lent pointed out, is the mechanical department, and one of the best places to curb waste from this source, he said, is upstairs in the editorial rooms.

"After all," he declared, "it is economical in the long run to pay for intelligence in the city rooms. Higher paid reporters produce cleaner, better copy and cause fewer mistakes in the composing room. It costs money and time downstairs to pay for the mistakes of underpaid staff men who do not know how to write a good story and whose output can scarcely be read after the necessary slaughter of the copy desk. It is cheaper all around to have a news story well written in the first place than to allow poor copy to play its part in causing composing room waste.

"I know the type of men who generally are hired in the small newspaper office. Many of them have not even had a high school education. These newspapers are paying much more to train these men, than if they started in the first place with college and journalism school graduates, despite the fact the payroll would necessarily have to be much higher.

"One of the most discussed newspaper problems today is the need of greater efficiency in newspaper production, and, in discussing that problem editorial room efficiency is too often slighted.

"I belive firmly in engaging college and journalism graduates. Pay them more, and economize.

"The same idea, I think, applies to the business office as well as the editorial department. Publishers have the habit of trying to get men cheap. They succeed, and, in hiring cheap help they increase their costs, and wonder vaguely how it happened."

One proof that Mr. Lent practices what he preaches may be seen in the interest he took in the establishment of the course in journalism at Rutgers University, New Brunswick, N. J. This course, which started this year with an enrollment of 26 students under the direction of Prof. Allen S. Will of the Pulitzer School of Journalism, Columbia University, New York, was brought about by the action of the New Jersey Press Association last year, when Mr. Lent was president of the group. To make the course possible it was necessary to have a special bill passed by the New Jersey legislature.

The New Jersey publishers, according to Mr. Lent, also hope to establish some time an advertising course at Rutgers.

Mr. Lent himself is a graduate of Princeton, Class of 1912. Immediately after college he went to Passaic to become secretary of the Chamber of Commerce there. This work was interrupted by the war.

It was only seven years ago that Mr. Lent, returning from service in the war, had his first experience in newspaper work. Then, in 1918, he became secretary and assistant publisher of the Passaic News. The paper at that time was owned in partnership by George M. Hartt and James T. Barker. Subsequently Mr. Barker sold out his interest to Mr. Lent, who now is publisher of the evening daily, with Mr. Hartt, editor.

SAY POLITICAL STORY FALSE

Enwright, Dalton, and Taffe of Boston Telegram Indicted

Frederick W. Enwright, publisher of the *Boston Telegram* and *Lynn Telegram-News,* Stephen Dalton and Leo Taffe, managing and city editors of the Boston Telegram respectively, and the Boston Telegram Corporation were indicted by a Suffolk county grand jury last week as a result of an article which appeared in the issue of Nov. 3, election day. It is charged that they published a false statement, which, it is claimed, was intended to defeat Fire Commissioner Theodore A. Glynn, candidate for mayor of Boston.

Enwright, Dalton and Taffe appeared before Judge Bishop in Suffolk superior criminal court to answer to the indictments. They pleaded not guilty and at the court's order were released in $500 on personal recognizance. No one representing the corporation appeared at the time to answer to the indictment which charged it with being responsible for the publication of a false statement.

It is alleged that the Boston Telegram on election day, published statements purporting to have been made by Mayor James M. Curley and Commissioner Glynn conceding the latter's defeat and the election of Daniel H. Coakley, the candidate backed by the Boston Telegram, out of a field of 10.

Under Chapter 269 of the Acts of 1922, of the Commonwealth of Massachusetts punishment is provided for the above offense as follows: "No person shall make or publish, or cause to have made or published, any false statement in relation to any candidate for nomination or election to public office, which is designed or tends to injure or defeat such candidate.

Still Breaking Records!

The Miami Herald

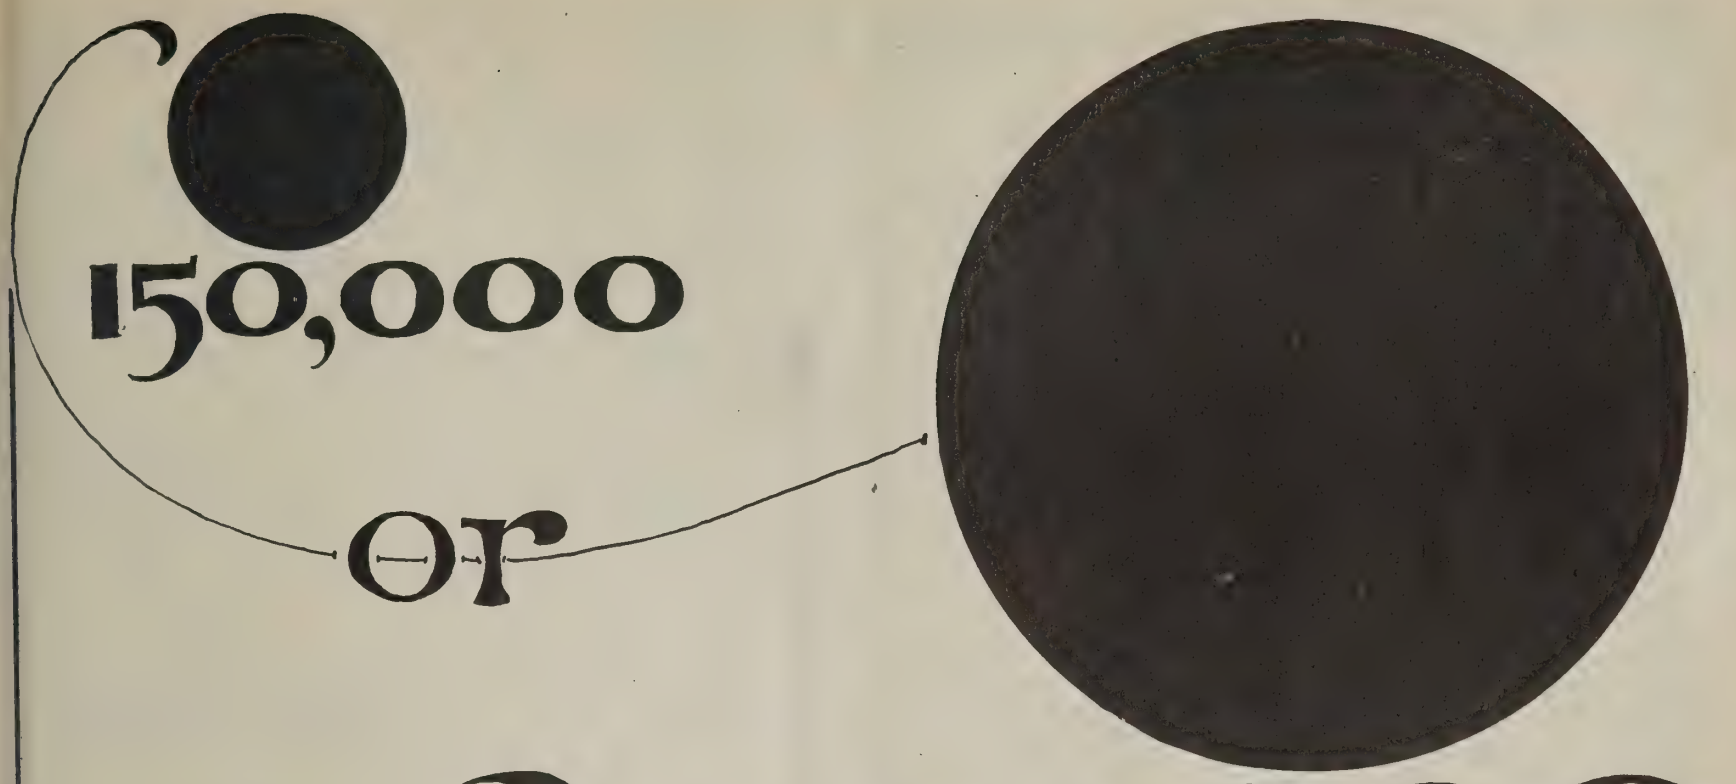
Established a record never before approached by any newspaper published anywhere in any language in

Average Number Pages Printed Daily and Sunday from August 1st to November 30th, 1925.

The Herald adds new laurels to its already long list of records by publishing the largest number of strictly commercial pages, daily and Sunday and the greatest total advertising lineage ever carried by any newspaper, at any time, in any language.

Bear in mind that figures shown are without comics and news feature stories and are taken from "regular" editions—no special effort being made to increase any day's business with the exception of a few issues we have been compelled to omit from 60 to 100 columns of advertising because of mechanical limitations.

Following are the figures—they tell a story of progress and territorial prosperity:



Daily Average Pages ..... 63 Plus
Sunday Average Pages .....151 Plus

Largest Daily Run 80 pages, October 14th
Largest Sunday Run 168 pages, November 15th

Daily Average Advertising 388½ columns
Sunday Average Advertising 612 columns

When You Think

of Des Moines do you think of it merely as a city of 150,000, or as the key to a market of 2,500,000 population—the state of Iowa.

Des Moines is strategically located in the center of the state. It is 150 to 350 miles distant from other cities of the same commercial importance.

The Des Moines Register and Tribune

has 170,000 daily circulation and circulates throughout Iowa. It is read in practically every home in Des Moines, one out of every two homes within 100 miles and one out of every four in the entire state. The Register and Tribune is the backbone of a successful advertising campaign in Iowa.

Write for folder showing circulation of The Des Moines Register and Tribune by cities, towns and counties in Iowa.

SLOVENLY REPORTING MADE GRANGE'S FAME

So Marvin Creager, Milwaukee Journal M. E., Tells High School Writers—Hero-Worship Was Easiest to Write

Slovenly newspaper reporting boosted "Red" Grange's fame far beyond its true proportion, Marvin H. Creager, managing editor of the *Milwaukee Journal* told delegates attending the annual convention of the Wisconsin Intercollegiate Press Association at Marquette University, Milwaukee, Dec. 10.

It was easy to pin a glittering story on a "star," but hard to write a complete and comprehensive story of each game, he said. The reporters wrote the easy story.

Mr. Creager declared that there seemed to be a tendency in journalism "somewhat akin to that in football."

"The old fashioned, hard persistent plugging for facts has rather given way to short cuts and highly specialized work in much the same fashion that the old line smashing—slow but sure football machine has given way to forward passes and wide formations. And while the new style may have its advantages, I question whether it is as sure to put the ball over as the old style.

"Red" Grange is the product of the new school of football and journalism. Back in the old days there were some pretty fair football men too. I am old fashioned enough to think Mr. Grange may have found the going rather heavy in their company. Yet none of them found it necessary to have a personal manager to protect him from frenzied bidders. In fact, I believe they all had to go to work for a living after graduation.

"But what has that to do with newspaper work? Just this. It was newspaper stories that made Grange. For three years the scores of hard working, faithful pluggers on the Illinois squad have been used simply as foils for the Wheaton ice man. The stories of games in which Grange played were merely recitals of his personal doings. One would get the impression from reading of the Illinois games this year that there was just one man on the field worth mentioning and he was a combination of Hercules, Mercury and Aladdin. Subsequent developments indicate that he also has in him strains of the Croesus and Rockefeller stock.

"Certainly this has not made for team work and college spirit. And the blame belongs primarily to the newspapers which have played him out of all proportion to his importance.

"They have done this mainly because of slovenly, inaccurate, untruthful reporting. It has been easier to write a column or two of hero worship than to dig in and get real facts and array them in interesting form.

"It would be difficult to find a better example of the dangers of exaggerated, superficial, newspaper reporting, but it is by no means an unique situation. The tendency of reporting is far too often toward playing to the public weakness for hero worship and superlatives in general. Writers yield to the temptation to make their stuff 'go over' by building up some spectacular feature far beyond its true value and the result is an unbalanced and untrue picture.

"What I want to emphasize here is the importance of writing things as they are. The objection may be raised that a story so written is dull and lacks punch—that it needs to be 'jazzed up' to make it attractive. That is the excuse of the incompetent and lazy writer. It is more difficult, perhaps, to make a story true and attractive at the same time, but real writing is not easy. If you are looking for something easy, don't take up newspaper work.

"If you do take it up, start on the firm foundation of facts and build your story on that. There is jazz enough to suit the greatest of jazz gluttons without putting it into supposedly true newspaper reports. It is like a shoddy piece of woolen—it looks fine at first glance, but it does not stand up and is not honest."

PRESS CLUB ELECTS WILLIAMS

Baltimore Judge Named President of Local Newspaper Group

Judge Thomas J. C. Williams of the Juvenile Court and a veteran newspaper man was unanimously elected president of the Baltimore Press Club at the annual meeting of the active members held Dec. 5, at the club rooms.

Other officers re-elected were: Vice-presidents, Folger McKinsey and W. Dwight Burroughs; recording and corresponding secretary, John J. Ely; financial secretary, J. Ferd. Hayward; treasurer, Edward H. Pfund. Board of governors: Frank F. Patterson, George Garner, Harold D. Jacobs, George T. Jenkins, Vincent de P. Fitzpatrick, Judge Williams, Mr. McKinsey, Mr. Borroughs, Mr. Ely, Mr. Hayward and Mr. Pfund.

Four hundred and fifty new members were elected to membership during the year and eight educational, social and historical functions given.

The club now has 972 members, including, in addition to active newspaper men, leading financial, commercial and professional men, Government, State and city officials.

WOMAN WRITERS ENTERTAIN

New York Newspaper Women's Club Holds Open House

The New York Newspaper Women's Club held open house in their new headquarters at the Hotel Iroquois on Sunday, Dec. 6.

Miss Martha Coman, founder, and Miss Jane Dixon, former presidents, received with Miss Theodora Bean, acting president during the absence of Miss Louella Parsons in California. Decorations of chrysanthemums and hot house plants were the gift of Mrs. Ogden Reid, of the *New York Herald Tribune*, a member of the club.

The committee in charge consisted of Miss Elsie McCormick, Mrs. Josephine Ober, Miss Charlotte McLevidge, Miss Marjorie Paterson, and Miss Emma Bugbee.

BEST PROSE IN DAILIES

Dr. Canby Says Reporters' Copy Better Than Magazine Writing

Not in our leading magazines, but in our newspapers is to be found the best prose written in America today, according to Dr. Henry Seidel Canby, of Yale University faculty and editor of the *Saturday Review of Literature*. Dr. Canby spoke at the convention of New England teachers of English in Springfield, Mass., last Saturday.

He said that a knowledge of rhetoric is not enough to produce good English but that there must be motivating thoughts and emotions demanding expression. The language of the press serves as an example of writing with a swift compelling purpose, he declared.

Dr. Rollo W. Lyman, professor of methods of teaching English at the University of Chicago, urged teachers of English to cull the newspapers, saving up for use in the class room the best that the daily press has to offer. English instruction, he said, must be in line with the everyday experiences of children of all nationalities and of intelligence.

In part, Dr. Canby said: "The fact of the matter is that the best prose today is not found in the best magazines; it is not the product of those writers who write for these high class magazines. Rather, our best examples of prose are being turned out in the columns of the American newspapers by certain 'low-brow' reporters with no reputation whatever as writers.

"The reporter's writings are full of meat of the sort which America needs. He achieves his needs because he has to, and that is the answer to our problem. We must reach a point where we are less teachers and more critics, to assist the writers who have to write in obtaining the equipment they will need, then to assist them in its proper use."

Prohibitionist Prohibits Publicity

Capt. George Parker, New England prohibition officer, refused to address a meeting in Boston last week on Law Enforcement if any newspaper reporters were allowed to be present. Capt. Parker declared he did not want any newspaper headlines screaming at him.

Texas Veterans Elect Mrs. Rountree

Mrs. Lee J. Rountree, head of the *Bryan* (Tex.) *Eagle* was elected president of the Texas Editorial Association, an organization of veteran newspaper men and women at their annual convention in Brownsville.

NOVEMBER

Shatters All Lineage Records for

The Birmingham News

THE SOUTH'S GREATEST NEWSPAPER

For five years, October, 1920, stood as the banner month of the Birmingham News. That October was passed by October, 1925, and October, 1925, held the record for just one short month as November was the biggest month in the paper's entire history. There are two basic reasons for this: First, Birmingham is enjoying a phenomenal era of prosperity; second, the Birmingham public, that receives a weekly payroll of more than $4,000,000, responds to advertising in The News.

OCTOBER, 1925	NOVEMBER, 1925
1,649,172 Lines	1,665,496 Lines

The News alone in Birmingham carried more advertising lineage in November than October. Advertisers, both local and national, know that The News produces most results per dollar, and, after all, results are what they want.

NOVEMBER, 1925 COMPARED WITH NOVEMBER, 1924

	NEWS Lines	AGE-HERALD Lines	POST Lines
1924	1,429,890	821,828	326,438
1925	1,665,496	704,200	506,380
	Gain—235,606 Lines	Loss—117,628 Lines	Gain—179,942 Lines

EASTERN WRITERS SEEK FOUR-GALLON HATS IN AUSTIN, TEXAS

"Ma" Ferguson Impeachment Threat Draws Out-of-Town Corps—Favored With Exclusive Interview as Local Men Wait Outside

By S. RAYMOND BROOKS

AUSTIN, Tex., Dec. 10.—"Where can I get one of those fo' gallon hats?" Joseph A. Brady, *New York Herald Tribune* staff correspondent asked a native newspaper man.

"Have you tried Dalhart, Tex?"

"Dalhart? Why don't they handle them here?"

"Oh, you might get one at a souvenir shop."

"Lead me to it. They won't believe I've been to Texas if I don't romp into the city room sporting one of those high lids. And I want to get one of those trick whips that Doug Fairbanks used in his picture. My little boy's last words were: 'Daddy, when you get to Texas, send me a cowboy whip'."

Newspaper men from all points east have been camping in Austin for the past two weeks, padding the wires with all sorts of stories, news, feature, freaks and statistical reports all based upon the general theory that Miriam Amanda ("Ma") Ferguson's position as first woman governor of Texas was being menaced through impeachment threats by the legislature.

Among the correspondents present during the 10 or 20 days that the story was "hot" were John E. Mitchell, *New York World;* Russell N. Porter, *New York Times;* Joseph A. Brady, *New York Herald Tribune;* C. B. Douglas, *Baltimore Sun;* George W. McVey, United Press; M. F. Dacy, International News Service; Charles N. Wheeler, Universal Service; Ray Baumgardner, Dallas, Texas manager for the Associated Press; Gordon Shearer, Newspaper Enterprise Association and the Scripps-Howard papers.

The Ferguson story threatened for a time to give the local Associated Press correspondents, C. B. Dickson and Lloyd Gregory some trouble. These men appeared for a time to be the innocent victims of a serious situation, all of which grew out of former Governor James E. Ferguson's refusal to talk for publication. The local A. P. men, in common with William Thornton, *Dallas News,* Eddie Newton, *San Antonio Express,* S. Raymond Brooks, *Austin American,* and Jack Fernandez, *Ft. Worth Star-Telegram,* had been persistent in their efforts to interview the governor or her spokesman, Jim Ferguson. But for a period of five weeks, neither the governor nor her husband would give the local men an audience. Texas papers were "romping" on the governor's policy in page one editorials and but these tactics did not seem to make the Fergusons easier for newspaper men to see.

When the eastern quartette, composed of Mitchell of the World, Brady of the Herald Tribune, Porter of the Times and Douglas of the Sun reached Austin they sailed forth to the capitol, announced themselves as New York correspondents and "would the governor see them?" Word came back that the governor was indisposed, but her husband, "Jim" would be glad to receive them.

So the boys from the metropolis entered the governor's office and there they were received by James E. Ferguson, sitting at the governor's desk. Mr. Ferguson quite patiently told his story, going back to the palmy days of 1914 and carrying the men through his impeachment trial and his wife's election.

The story went out. And local correspondents almost suffered a similar fate. It was several days before Austin writers could apprise their papers of the situation.

Finally, E. T. Cutter, central division superintendent of the Associated Press, dispatched his Texas manager, Ray Baumgardner to Austin and it is said that Mr. Baumgardner carried to James E. Ferguson a personal telegram from Mr. Cutter, inviting the Fergusons to tell their story through the Associated Press. Former Governor Ferguson thanked Mr. Baumgardner and asked him how many columns would the A. P., give him. Mr. Baumgardner told him three thousand words.

"That's about three columns, isn't it?" Mr. Ferguson, who is also editor and publisher of the *Ferguson Forum* asked.

"Yes," Mr. Baumgardner replied.

"Well, I may have something tomorrow."

He did. He handed to the A. P. and all other services a three-column statement, defending the governor's acts and criticizing the policy of the red-headed young attorney general, Dan Moody.

Circulation managers should be interested in one fact developed rather thoroughly to the satisfaction of the writer that they do not follow the news as played by their papers. All three of the New York papers, for instance, and the Baltimore Sun, carried page one display heads, two and three column stories and frequent editorials on the Ferguson story. Their stuff, in this particular case, was absolutely exclusive. But only one paper, the Times, could be purchased on local news-stands. Correspondents haunted offices of the Austin American which happened to be subscribing for the New York papers, in order to see the manner in which their stuff was being handled. These stories gave the New York papers a splendid opportunity to "break into" Texas, not only for Austin sales, but in all other important towns with splendid news-stand representation.

New York newspaper men, forecasting the collapse of the impeachment movement against the woman governor have returned to the east. But they probably will be back in a few days. The Travis county grand jury is scheduled to indict in the present state highway investigation, so rumor says, and these indictments may lead to a strengthening of a demand for an impeachment session.

PUBLISHERS BUILD RAILCAR

H. B. and J. R. Snyder of Gary Post-Tribune in Transportation Field

Newspaper men have been successful in various other lines of business but it remained for H. B. and J. R. Snyder, editor and publisher, respectively, of the *Gary* (Ind.) *Post-Tribune,* to enter the field of transportation in answer to the railroad demand for a power passenger car for use in branch line and short haul service.

This week they delivered the first Smalley railcar, a coach 60 feet long and carrying 57 passengers, to the Susquehanna and New York Railroad at Williamsport, Pa., taking car from shops at Davenport, Ia., to Chicago for exhibit in the Union station and thence over Pennsylvania lines via Pittsburgh on express train schedule.

The railcar, equipped with twin 75 horsepower motors and the new Campbell transmission, averaged 51 miles per hour. On the grade east of Johnstown Pa., the Smalley car made the 26 miles in 42 minutes.

The car costs but 35 cents per mile to operate compared with $1.20 per mile, the cost of operating small trains, it is said.

Railroad officials and engineering experts made the trip on the car.

The car was designed by J. S. Smalley of Muscatine, Ia. The company building car is headed by H. B. Snyder, president and treasurer, and J. R. Snyder, secretary, owners of the Gary Post-Tribune J. U. Thompson, Chicago, vice-president and C. H. VandeerVoort, Moline, Ill. sales manager.

CASPER, WYOMING NEWSPAPERS CONSOLIDATED

On December 1st, The Casper Evening Tribune assumed control of The Casper Morning Herald. The Herald will be published mornings except Monday, and The Tribune, evenings except Saturday.

ADVERTISING A FACTOR IN ECONOMY OF MARKETING, SURVEY SHOWS

Decreases Selling Costs, Increases Production and Lowers Prices, Committee Will Report at National Distribution Conference Next Week

WASHINGTON, Dec. 10.—Advertising is given a prominent place in the economy of marketing in a survey of Market Analysis, Advertising and Advertising Mediums which will be used as a basis of discussion at the general meeting of the National Distribution Conference to be held in Washington next week under the auspices of the Chamber of Commerce of the United States.

The special committee which made the survey, consisting of business men, economists and advertising experts, finds that national advertising is a contributing factor in the reduction of marketing costs and, indirectly, in the reduction of prices.

This conclusion is based on first hand testimony from a large number of distributors as to the economic effects of advertising. The committee lists the advantageous effects of proper advertising as

1. Decreasing the cost of selling;
2. Lowering the cost of production on account of increased volume;
3. Lowering prices to consumers and thereby raising the standard of living;
4. As a by-product, aiding in the education of the general public.

The committee finds, however, as a result of its investigations, that there are large wastes in advertising "due to the inadequate or uniformed study of markets and to the imperfect coordination of advertising with other activities." Various steps, among them the establishment of a Market Research Planning Body, designed to place advertising upon a more scientific basis are proposed in its report.

The special committee will submit to the Distribution Conference these recommendations:

"A Market Research Planning Body should be established coordinating certain lines of fundamental marketing research, to be supported by organizations interested in the results of such work. This body should lay out and possibly underwrite market research projects with the purpose of reducing duplication of effort to its lowest terms and of establishing and maintaining high standards.

"Advertisers, both present and prospective, in order to avoid unnecessary marketing waste, should base all advertising expenditures upon the results of careful studies of their merchandise, markets, media, copy and all other phases of their advertising. There should be careful coordination among their advertising, manufacturing and selling policies."

The committee also urges that a census of distribution be taken as soon as possible and that prices and quantities of merchandise produced and in suspense be published periodically.

"Broadly speaking," the committee says in its report, "it would seem that where the advertising creates an increased demand for products of a certain class, a wider distribution of such products—in other words, makes a new business, bringing about lessened distribution costs and lessened production costs owing to increased demands—there can be no doubt as to the value of such advertising, not merely to the concerns that pay for it but also to the public that consumes the goods."

"As a result of its studies," the report concludes, "your committee reports that there is a decided value to advertising in economic distribution. Careful research reveals, however, that there is no greater fallacy than that brought out in the Broadway skit, 'It Pays to Advertise.' Such a statement needs a great deal of qualification. It does pay to advertise the right goods in the right media in the right way. Advertising, unfortunately is not an exact science. A merchant who is about to sign a lease for $25,000 a year for a store will not sign such lease until he is sure that the store is on a street which will bring by its door the very class of people who are likely customers for the goods he has to sell. Yet the same man is oftentimes careless in the selection of his advertising media in which he is spending an amount of money in excess of his total rent. He does not make sure that the papers he uses or the other advertising methods that he employs reach the people who belong to his particular clientele.

"The superficial talk to the effect that advertising pays has made advertising too haphazard, while the lack of exact data has been a matter of distinct disadvantage to those who desired to study the problem before making their advertising appropriations or deciding upon how those appropriations should be spent.

"The advertising successes are such as to encourage greatly its further use. There are large wastes in advertising, but at present it seems beyond the power of this committee to get any extact data regarding such waste. Such information as is available, however, would indicate that properly planned and placed advertising has genuine economic value, not only for the user of such advertising by reason of its aid to him in distribution, but it is of genuine value to the public itself because the public, to a large extent, shares in the economies which it brings about.

The members of the committee which made the survey of market analysis, advertising and advertising mediums are:

Stanley Resor, chairman, President, J. Walter Thompson Company, New York.

Homer J. Buckley, president, Buckley, Dement & Co., Chicago.

A. U. Chaney, general manager, American Cranberry Exchange, New York.

Elmer L. Cline, vice-president, Continental Baking Corporation, New York.

E. E. Day, Professor, School of Business Administration, University of Michigan, Ann Arbor.

John H. Fahey, publisher, Boston.

K. H. Fulton, president, General Outdoor Advertising Company, New York.

T. O. Grisell, director of marketing, George Batten Company, New York.

J. W. Hayes, Crowell Publishing Company, New York.

L. E. Holland, Holland Engraving Company, Kansas City.

S. N. Holliday, General Outdoor Advertising Company, New York.

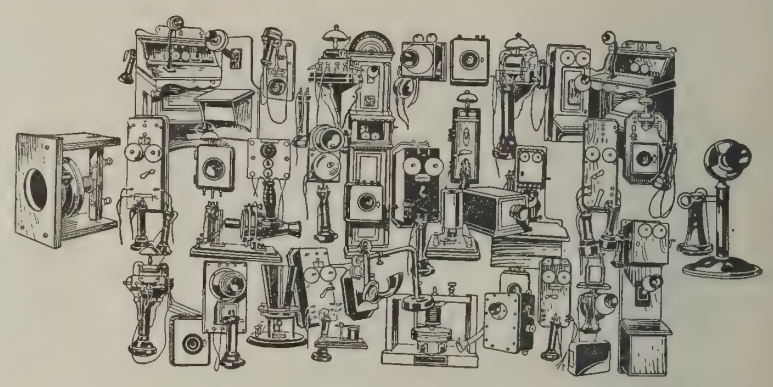
DISCUSS ADVERTISING COSTS

Views of Advertisers, Agencies, and Publishers Presented in Pittsburgh



A round table discussion on "Are Advertising Costs Rising?" brought out some sharp controversy at the weekly luncheon of the Pittsburgh Advertising Club in the Chamber of Commerce auditorium this week. Three arguments were advanced.

1. By the representatives of big advertisers, who claim that the cost per inquiry of late has greatly increased.

2. By the agency group who maintained that advertisers are actually getting a much better bargain line cost per 1,000 of circulation than a few years ago.

3. By the publishers who contended that the tendency to restricted circulation among trade papers gives better quality value at a lower loss to advertisers.

The meeting was arranged by Thomas B. Harman, Jr., of the National Stockman and Farmer Publishing Company. The speakers included Edward M. Power, Jr. president of the club, for the agencies group; Joseph Vigneau and Harman for the publishers' group, and J. A. Cullison of the National Fireproofing Company Elmer T. Wible, of the Pittsburgh Steel Company, H. B. Jamison, of the American Sheet and Tin Plate Company and R. L. Twitchell of the Carnegie Steel Company.

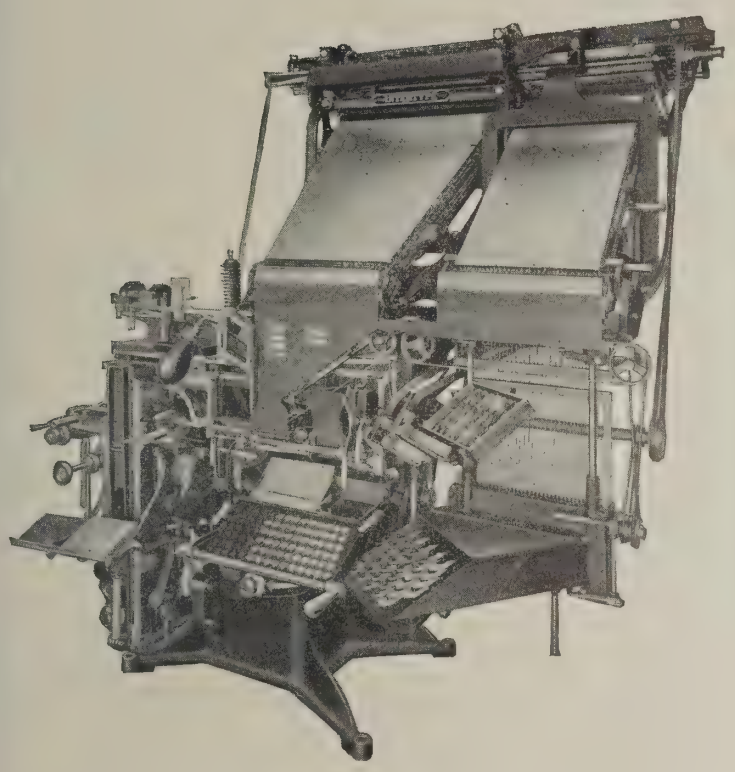
An Account of Stewardship

Fifty years ago Dr. Alexander Graham Bell was busy upon a new invention—the telephone. The first sentence had not been heard; the patent had not been filed; the demonstration of the telephone at the Centennial Exposition had not been made. All these noteworthy events were to occur later in the year 1876. But already, at the beginning of the year, the principle of the new art had been discovered and Bell's experiments were approaching a successful issue.

The inventor of the telephone lived to see the telephone in daily use by millions all over the world and to see thousands of inventions and developments from his original discovery.

If he had lived to this semi-centennial year, he would have seen over 16,000,000 telephones linked by 40,000,000 miles of wire spanning the American continent and bringing the whole nation within intimate talking distance. He would have seen in the Bell System, which bears his name, perhaps the largest industrial organization in the world with nearly $3,000,000,000 worth of public-serving property, owned chiefly by its customers and employees.

He would have seen developed from the product of his brain a new art, binding together the thoughts and actions of a nation for the welfare of all the people.



AMERICAN TELEPHONE AND TELEGRAPH COMPANY

IN ITS SEMI-CENTENNIAL YEAR THE BELL SYSTEM LOOKS FORWARD TO CONTINUED PROGRESS IN TELEPHONE COMMUNICATION

Intertype hit upon an idea that will save you money

—a *single* distributor box with a *double* purpose

Look to the future before investing your money in a slug-casting machine. Not only "what it will do" but *how well it will do it* is of special importance.

The Intertype Mixer is NEW—*entirely different*—unlike any other machine ever built!

It is the only *simplified* Mixer—the only Mixer built for dependable service without expert care—the only Mixer with but one distributor box.

It is the only *standardized* Mixer—the only freely interchangeable Mixer—the only Mixer with a simple assembling mechanism—without restrictions as to speed or size of matrices.

You will be surprised when you see the Intertype Mixer at work. You will see the operator touch a convenient lever (if you watch closely) but you can hardly realize that he has changed from one magazine to another. You will see a single distributor box sorting the matrices with quiet precision—without fuss or complications. You will see line after line drop down upon the galley—display lines up to full-width 36-point bold—text type as small as 5-point. No waiting for the distributor—no trouble—no delays.

The Intertype Mixer performs heretofore difficult functions so simply that they no longer seem difficult.

A Word about Delivery

Production for December and January is sold out. We urge prospective buyers to act without delay. We cannot accommodate one friend at the expense of another.

See this new machine at the first opportunity! Meanwhile send for our new brochure about it, including detail illustrations, typical magazine layouts, and specimens of composition.

Investigate! Do it NOW!

EDITORIAL

BETTER MAIL SERVICE—HURRAH!

THE feature of Postmaster General New's annual report that interests the American people, particularly business, is that there is increased efficiency in the postal service.

That is what the American people pay for and are delighted to pay for.

But, as usual, the feature of the report that is stressed by the politicians at Washington, and echoed along the press line, is that there was an operating "deficit" for the year.

Well, what of it? The Postal Department did not make any money for Uncle Sam. Neither did the Army, Navy, or the departments of Commerce, Agriculture, Justice, Labor, State or any other service to the people show "operating profits!" Shall we weep or rejoice? Would Secretary Kellogg be a success if he should contrive means to make the State Department show a profit? How would it be to put a few battleships to hauling coal that the Navy might wipe out its "red"? This is nonsense, of course, and it is equally nonsensical to hold the Postmaster General responsible, as a business executive is held responsible by a board of directors and stockholders, for a profitable showing for a public service over which there is, and can be, none of the arbitrary controls that decide the factors of profit or loss.

General New declares there is increased postal efficiency, but seems only mildly enthusiastic about it. The wages of postal employees were increased, in response to a crying need, and the postal employes have taken the new grip that comes to men from satisfaction of material needs. They are making a showing. It is a highly desirable end, very well worth paying for by the tax-payers of the United States, who last year got the biggest return from their postal investment of any single investment in all the departments of the Federal government.

But that is not the "big idea" in the minds of the politicians. General New's report is taken as a sort of vindication of his position that postal rates should have been increased to meet the increased pay of postal employees. He suffers from the old Burleson complex that a post-office that isn't making direct profits is to be classed with an insolvent business venture. General New would like to be a hero like Burleson was until the war hit the post-office "business" and made it go to work as a public service, efficient whatever the cost.

Of course, the politicians will say that EDITOR & PUBLISHER takes this view because it wishes to aid the publishers to evade added postal expense. The truth is that increased second class rates would not cost the publishers of the United States a single dollar, for they would pass the added cost to their subscribers and increased advertising rates would take care of added costs on paid publicity going through the mails. But if postal rates, already much too high, are increased, the great function of the press will be interfered with. It is to communicate, by the most economical means, the facts of life and individual interest to the rank and file of citizenship. Our people are habituated to cheap current literature and will balk at increased subscription rates. We are opposed to anything which will discourage Americans from reading newspapers.

The sky's the limit for enactment and enforcement of blue sky laws.

ONE HAPPY RESULT

THE other day a Western publisher sent us copy of a letter he had addressed to an advertiser whose press agent had offered a hand-out, incidentally remarking that the product was being advertised in a group of magazines. The newspaper publisher took the advertiser to task in polite terms and suggested that he buy space at card rates.

This week brings another letter from the publisher, saying: "I am happy to inform you that we have just received an order to run the same copy that is appearing in the magazines. The concern sent a gracious letter acknowledging our rightful claims. You will be pleased to know the outcome."

Cause me to hear thy loving kindness in the morning; for in thee do I trust; cause me to know the way wherein I should walk; for I lift up my soul unto thee.—Psalm, CXLIII; 8.

QUEER BRITISH ADVERTISING

ALL mail from England, now distributed by the United States postal service, bears a cancellation stamp reading "British Goods Are Best," which is doubtful advertising and not up to English sporting standards. Uncle Sam's carriers handle at least 25,000,000 such letters annually. If our postal department should use a cancellation stamp on the millions of United States letters that are distributed in British mails bearing the slogan "United States Goods Are Better Than English," we will wager a bright farthing that Fleet Street would have something pointed to say of American methods.

Editor who holds his newspaper aloof from controversies and would stop presses to cut an editorial expression from a news story, regularly prints "racing selections."

EDITORIAL PAGE INTEREST

"THE editorial pages of the great majority of newspapers might very well be filled with comic strips or radio wiring diagrams as far as reader interest is concerned," asserts Marshall D. Beuick in *Social Forces.*

If we were sure that the general public is even half as much interested in political, social, economic discussions on editorial pages as it is in comic strips and radio our opinions concerning the state of civilization would undergo radical alterations.

"Red" Grange, a non-smoker, sells for $1,000 *an advertising endorsement of a cigaret, on condition that the copy shall not put the cigaret in his lips, conscientiously refusing* $5,000 *for an unqualified endorsement. Breathlessly we await the copy that will make a non-smoker boost a smoke.*

VALUE OF COST FINDING

A MAN who sells a commodity without consideration or knowledge of its cost is a blind staggerer on the highway of business. We believe that hundreds of newspapers are selling space without any true appreciation of production cost. A magnificent reform is taking place through the efforts of newspaper organizations, particularly Inland Daily Press Association, Southern Newspaper Publishers' Association and others.

There is a practical result: The management of a department store recently advised a newspaper publisher that it proposed next year to increase its volume from 420,000 lines to one million and asked for a rate which would undercut the minimum rate fifty per cent.

"In former days, when we had not found our costs, we might have been interested," said the publisher to EDITOR & PUBLISHER, this week, "but we were able to lay before the merchant a clear statement which foretold inevitable loss if we were to accept his proposal. He is a good business man and naturally did not expect us to do business at a loss. The incident was quickly and pleasantly closed."

Obviously, the advertising that is carried by that newspaper for that department store will give a margin of profit to the newspaper. All the old stock arguments that one big space user begets another, that advertising increases circulation, etc., are discounted and sound business supplants sophistry when managers deal in the terms of actual figures. Publishers, establish cost finding systems!

F. P. A. appropriately gives genius medal to New York Times reporter who noticed that President Coolidge didn't smile when his lost overcoat was returned.

FREE POSITIONS

FREE radio advertising now equals free automobile advertising, in point of volume. Many press agents are routing their stuff to local dealers.

One of the most audacious of the space grafters is Atwater Kent Manufacturing Company, of Philadelphia. Kindly observe, dear editors, a bulletin which was broadcast to the retail agents of that concern recently:

"The Atwater Kent Mfg. Company now have established a policy to send to all dealers, at various times, interesting radio news stories and publicity articles that can readily be inserted in your local newspaper. * * *

"As soon as you receive the articles take them to your newspaper, who (sic) will be glad to have these written as they are in true newspaper style. Be sure every one goes to the newspaper—make every story count! The more of our newspaper publicity stories published, the more people will talk about radio in general and Atwater Kent and you in particular.

"The ideal arrangement and the greatest benefit can be obtained from the publicity by having the articles printed on the same page as your Atwater Kent radio advertising, directly under or along side the article, if possible.

"All that we ask in return is that you send us the full page of the newspaper showing the insertion of the article, whenever possible.

There's a press agent for you! Forgets no detail, including position for his stuff and a free checking copy. Cuss him out as a gally moocher, but such monumental nerve really deserves admiration. The boy has a fine touch!

First prize for the year's exhibits of silly suggestions is hereby awarded to the flag-waving patriots who proposed that the foreign language press be compelled, by law, to devote a section of their space to the publication of American history; if this prevails, we hope that nothing so incongruous as the first amendment to the constitution be thrust down the throats of foreign language editors.

MUSSOLINI OVERREACHES

DISCUSSING the final Mussolini muzzling of *Milan Corriere della Sera,* one great free voice in post-war Italy, *New York World* truly remarks: "Facismo was not satisfied with a fair newspaper. It sought an obsequious one. * * * No tyrant can stifle thought in his subjects. Tyrants never learn the lesson."

The incident strengthens opinion that the Witch Chasing dictator is desperate as he nears the end of his wild spree. The Italian people love truth and freedom and will not long be denied.

PERSONAL

WILLIAM O. TAYLOR of the *Boston* (Mass.) *Globe* and Mrs. Taylor, sailed on the S. S. Empress of Scotland from New York last week on an extended tour of Europe.

John F. D. Aue, publisher of the *Burlington* (Ia.) *Hawk-Eye,* has been elected president of the Iowa Good Roads Association.

James E. Chappell, assistant to the publisher of the *Birmingham News,* has been unanimously elected president of the Kiwanis Club of Birmingham.

Stuart W. Smyth, editor of the *Oswego* (N. Y.) *Times,* has returned from an extended trip through the Middle West.

John G. Kelley, publisher of the *Walla Walla* (Wash.) *Daily Bulletin,* returned recently from a European tour of several months.

Harris M. Dolbeare, publisher of the *Wakefield* (Mass.) *Daily Item,* this month is celebrating the 25th anniversary of his ownership of that newspaper. On Dec. 1 he was presented a diamond-studded Rotary pin by the Wakefield Rotary Club.

E. D. Coblentz, publisher of the *San Francisco Examiner,* who has been directing the handling of the news on the *New York American* for the past few weeks, returned to San Francisco, leaving New York, Dec. 9.

IN THE BUSINESS OFFICE

TODD BARTON, until recently with the business office of the *New York Times* has been appointed business manager of the *Bridgeport* (Conn.) *Herald* and the *Waterbury* (Conn.) *Herald.*

Neil Vanzant of the *Dallas* (Tex.) *Times-Herald* sailed for Tokyo Dec. 9, to join the advertising staff of the *Japan Advertiser.*

Miss Lorn T. Pinel, for the past five years in the business office of the *Quincy* (Mass.) *Patriot Ledger,* has resigned.

Arthur E. Crane, formerly with the *Brooklyn Daily Eagle's* religious department, has been placed in charge of church advertising by the *New York Herald Tribune.*

IN THE EDITORIAL ROOMS

CARLISLE MACDONALD has been transferred from the London to the Paris bureau of the *New York Times.*

B. O. McAnney, for nine years a member of the *New York Herald Tribune* staff, and for the past two and a half, its night city editor, resigned last week to take up feature selling for a syndicate. A wrist inscribed gold watch was presented to Mr. McAnney at a farewell party tendered by the staff.

Gene Fowler, former managing editor of the *New York American,* and Mrs. Fowler sailed from New York Dec. 5, for a three months' trip to Egypt.

J. E. Watson, city editor of the *New York American,* is ill at his home with influenza.

Louis D. Kornfield is taking a year's leave of absence from the Paris bureau of the *New York Times.*

Milton V. O'Connell, formerly of the *New York Times* and *New York Herald Tribune,* has opened a publicity bureau in the Fisk Building, New York.

Herman Gastrell Seeley is now the financial editor of the *Chicago Evening Post,* succeeding the late Charles Hays. Other changes in the staff of the Post include the promotion of Loren Carroll to railroad editor and George Kercher to assistant editor and director of the radio department.

Anthony J. Philpot, art and dramatic critic of the *Boston Globe,* has been appointed by Mayor James M. Curley as a member of the committee of 100 to make plans for the celebration in 1930 of the tercentenary anniversary of the settlement of Boston.

Wyatt B. Brummitt, former managing editor of the *Epworth Herald* and the *Northwestern Christian Advocate,* has joined the *Chicago Daily Journal* staff.

Paul Shannon, sport writer on the *Boston Post,* gave a talk on "Sports as a Sport Writer Sees Them" before the Quincy Council, Knights of Columbus, Dec. 3.

McCready Huston, associate editor of the *South Bend Tribune,* has a short story in the December *Scribners',* "Mrs. Arnold's Smile."

George M. Hinshaw, managing editor of the *Muscatine* (Ia.) *Journal,* addressed the Iowa High School Press Association at its annual meeting at Grinnell, Dec. 5.

Karleton Hackett, music critic of the *Chicago Evening Post,* addressed the Medill School of Journalism of Northwestern University, Dec. 3.

Earl R. Leach, managing editor of the *Lima* (O.) *News,* has been appointed a member of the State Library Board.

Thomas Dawson, reporter, *New York Herald Tribune,* and Mrs. Dawson are the parents of a daughter born Dec. 6.

Ralph Dyer, former Parsons, Kan., newspaper man, is now editor of the *Rockville* (Mo.) *Leader.* He is said to be the youngest newspaper editor in Missouri.

F. Lauriston Bullard of the *Boston Herald* staff recently addressed the Worcester (Mass.) Woman's club on current events.

Miss Jennie S. Owens, of the *Eldorado* (Kan.) *Daily Times,* has just published a new book, "Fodder." William Allen White wrote the introduction.

Barnet Nover, writer of the *Buffalo Evening News* column, "In the Background of Events," spoke recently before the Buffalo League of Advertising Women.

Joseph P. Hicks, Jr., of the *Oklahoma City Times* copy desk, has been appointed editor of a house organ to be published soon by the H. M. Byllesby public utility interests, Chicago.

Franklin K. Sprague, financial editor, *New York Herald Tribune,* is at St. Petersburg, Fla., attending the annual convention of the Investment Bankers' Association.

Albert S. Crockett, formerly a reporter for the old *New York Herald* and for ten years close to its editor, has written a book, "When James Gordon Bennett was Caliph of Bagdad."

Russell W. Whitney, formerly of the *Philadelphia Evening Ledger* and *Morning Inquirer* rewrite desks, has returned to the Pacific Coast and joined the *San Jose Mercury Herald* staff.

MARRIED

EARL H. EMMONS, editor of the *American Printer,* to Miss Ruth Ordway, proofreader for the Federal Printing Company, New York, in the private office of Public Printer George H. Carter, Washington, D. C., Dec. 5.

Clarence A. Kingsbury, attorney and publisher of the *Ponca* (Neb.) *Journal-Leader,* to Mrs. Stella Caulfield, of Newcastle, Neb., Nov. 27.

William Hawkins, former cartoonist of the *Sioux City* (Ia.) *Journal,* now a student at the Chicago Art School, to Miss Tena Agastine of Sioux City, in Chicago, Nov. 26.

Miss Rita Elizabeth Wrenn of the *New York Herald Tribune,* Washington bureau, to Mr. William A. Hixson, Dec. 3.

T. G. A. Goldsmith, of the *New York Herald Tribune* staff, to Miss Mari Durring, Nov. 30.

WITH THE SPECIALS

C. A. JOHNSON has succeeded D. A. Sikes in the Los Angeles office of the Kimball-Mogensen Company, special representatives.

Thomas F. Clark Company, Inc., has been appointed the Eastern representatives of the following papers effective Dec. 1: *Riverside* (Cal.) *Morning Enterprise; Ventura* (Cal.) *Evening Star; Hawthorne* (Cal.) *Evening Leader; Oxnard* (Cal.) *Morning Tribune.*

The C. L. Houser Company has now opened its own office in Chicago, in the Tribune Tower, with D. J. Hilman of New York City in charge as Western manager.

Andrew Foster George has been appointed Eastern representative of *Radio Digest* at its New York offices, 247 Park Avenue.

Kimball-Mogensen Company have been appointed to represent the following newspapers in the national field: *Eureka* (Cal.) *Humboldt Standard; Baker* (Ore.) *Democrat; La Grande* (Ore.) *Observer; The Dallas* (Ore.) *Chronicle.*

FOLKS WORTH KNOWING

WILLIAM D. W. BISHOP, who recently succeeded J. A. Osborne as owner and publisher of the *Washington* (N. C.) *Daily News* has had much experience as a political and editorial writer, having served the *New Haven* (Conn.) *Register* both as legislative and Washington, D. C., correspondent for a number of years. Mr. Bishop is also acting as editor of his new paper. He is a graduate of Yale college, class of 1911 and has also studied at Sheffield Scientific School of Yale University and at the Romance Language School of Middlebury College, Vt..

W. D. W. Bishop

Mr. Bishop has been engaged in his present business since being released from the naval reserve in 1919 and served the entire intervening period of six years with the New Haven Register. In 1922-23 he made an extensive trip through Southern and Eastern Europe, Palestine and Egypt studying and writing on the domestic and foreign affairs of the two last-named countries also France, Italy and Greece.

He is the grandson of the late Elihu B. Washburne, former U. S. Secretary of State and Minister to France during the Franco-Prussian war, who was for many years an Augusta, Me., newspaper editor. His paternal grandfather was William D. Bishop, president of the New York, New Haven & Hartford R. R. Co., U. S. Commissioner of Patents and member of Congress from Connecticut. He is a cousin of Stanley Washburne, noted war correspondent and of Beatrice Washburne, feature writer.

Mr. Bishop married Miss Ellice H. Kirkby of Ottawa, Ontario at St. Augustine, Fla., in February, 1924. They are the parents of a two months old daughter.

PRESS ASSOCIATION NOTES

H. P. HOWARD has joined the state bureau of the Associated Press at Pierre, S. D. He succeeds M. B. Ronald who will be associated with his father, W. R. Ronald, in the publication of the *Mitchell* (S. D.) *Evening Republican.*

Robert Bender, news manager of the United Press, went to Washington from New York headquarters this week to attend the opening of the new 69th Congress.

SPECIAL EDITIONS

CHATHAM (Ont.) Daily News, Peninsular Winter Fair edition, Dec. 4.

Fergus Falls (Minn.) *Daily Journal,* 8-page Christmas section, Dec. 1.

Hornell (N. Y.) *Tribune-Times,* 18-page edition in connection with the formal opening of its new home, Nov. 28.

CHANGES OF OWNERSHIP

MACHINERY and equipment of the North Central Publishing Company, publishers of the *Wenatchee* (Wash.) *Sun,* has passed to the ownership of Edwin J. Brown of Seattle, under foreclosure proceedings instituted by him. Hugo Kelley, also of Seattle, has assumed the editorship and management of the publishing plant.

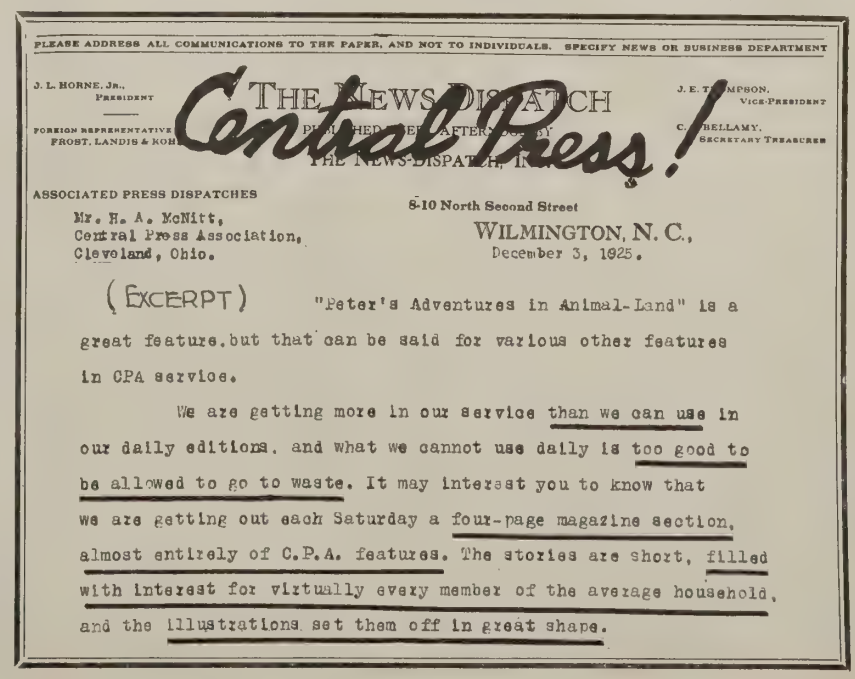
Bonners Ferry (Idaho) *Hustler* was sold recently by Don H. Phillips to Edgar L. Beard.

Robert S. Tromley, owner of the *Stone County* (Mo.) *News-Oracle,* has sold the paper to J. Ray King, of Forsyth.

Brandon (Minn.) *Times* has been sold by Clarence A. Forbes to Gordon Hamly.

Dwight L. Miller, until recently publisher of the *Lathrop* (Mo.) *Optimist,* has purchased the *Caney Chronicle,* daily and weekly, from J. L. Papes. Mr. Miller was formerly with the *Neodesha* (Kan.) *Sun* and the *Belleville Telescope.*

Wallace W. Casey, formerly of the *Kansas City* (Mo.) *Star,* and Mrs. Casey, former feature writer on the *Kansas City Kansan,* have purchased the *Elkhart* (Kan.) *Morton County Progress.*



W. R. Vanhoozer, editor and publisher of the *Orrick* (Mo.) *Times,* has sold the paper to Frank Sanderson.

O. A. Brice, owner of the *Lincoln* (Kan.) *Republican,* has sold the paper to W. C. Cipra, owner of the *Sentinel.* The papers have been merged.

Thomas E. Frank, editor and owner of the *Fauquier* (Va.) *Democrat,* weekly, published at Warrenton, has purchased from former Governor Westmoreland Davis, of Leesburg, the *Warrenton Times.* The two papers will be consolidated.

John E. Richards, for some time editor and half owner of the *Alpena* (Mich.) *News,* has purchased the share owned by his partner, Thomas J. Ferguson, who will retire from the business. Richards will become editor and manager. The change of ownership becomes effective Jan. 2, 1926.

E. P. Martin has sold his interest in the *Miami* (Okla.) *News-Record* to J. F. Robinson and G. L. Coleman who

ASSOCIATED PRESS DISPATCHES

8-10 North Second Street

Mr. H. A. McNitt,
Central Press Association,
Cleveland, Ohio.

WILMINGTON, N. C.,
December 3, 1925.

(EXCERPT) "Peter's Adventures in Animal-Land" is a great feature, but that can be said for various other features in CPA service.

We are getting more in our service than we can use in our daily editions, and what we cannot use daily is too good to be allowed to go to waste. It may interest you to know that we are getting out each Saturday a four-page magazine section, almost entirely of C.P.A. features. The stories are short, filled with interest for virtually every member of the average household, and the illustrations set them off in great shape.

have been co-owners with him since 1923. Martin has been editor of the News-Record.

Sam H. Rogers, for 14 years owner and editor of the *Republican County Democrat,* has sold the Democrat to Gene Charles.

Roy Irvine has sold the *Yakima Valley Optimist,* published at Selah, Wash., and will return to Lacrosse, Wash., to resume the publication of the *Lacrosse Clipper,* which he formerly owned.

ASSOCIATIONS

INDIANA State Weekly Press Association was formed at a meeting in Indianapolis recently. Officers were elected and a committee named to prepare a program. John B. Stotts of Odon was named president; G. G. Campbell, Brownsburg, vice-president; R. A. Brodhecker, Brownstown, secretary, and Lon Thatcher of Greenwood, treasurer.

Northeast Missouri Press Association has set Jan. 29, 1926, as date for its winter session in Macon, Mo. Twenty-five counties will be represented in the session, with an attendance of 75 members. F. H. Sosey, *Palmyra Spectator,* is president and W. M. Nolen, *Monroe City Semi-Weekly News,* secretary.

Kansas Democratic Press Association recently elected Robert F. Goode of the *Cawker City Ledger* president. A. F. Hatten Jr. of the *Westphalia Times* was named secretary.

Massachusetts Press Association will hold its annual meeting and banquet at Hotel Lenox, Boston, Dec. 14.

Women's Advertising Club of Boston held its annual dance at the Hotel Vendome last week. Among the guests were William Rogers of the *Boston Transcript* and Carol Swan, publisher's representative, Boston.

Chicago Press Club is making plans for a big entertainment immediately after the holidays. Harry Fisher is president and Jack Tarrant, secretary. The club plans to move within a few months to larger and better quarters.

In a sharply contested election, Eugene E. Morgan of the public relations department of Swift & Company was chosen commander of **Advertising Men's Post, No. 38, American Legion,** Chicago, Dec. 4. Robert McKnight, publicity manager of the Central Manufacturing District of Chicago, was elected first vice-commander; Robert S. Huffnagle of the Excelsior Printing Company, second vice-commander; Forrest Lowell of the Travelers' Insurance Company, third vice-commander; Stanley R. Clague, Jr., of The Modern Hospital, adjutant; and Theodore T. Weldon, advertising manager, Northern Trust Company, treasurer.

New York League of Advertising Women will feature "Home Economics In Advertising" at the regular dinner meeting Dec. 15. Speakers on the program are: Miss Katherine A. Fisher, director, Good Housekeeping Institute; Miss Marie Sellers, Home economics editor, Pictorial Review; Miss Emma F. Holloway, Pratt Institute, Brooklyn; Joseph W. Gannon, J. W. Gannon & Co.; Miss Rosamond Cooke, former instructor Iowa State College; Mrs. C. T. Radnor-Lewis, director of publicity, H. R. Mallison & Co.

NEW PLANTS AND EQUIPMENT

LANSING (Mich.) State Journal has purchased the printing plant of the Lawrence & Van Buren Company, adjacent to the Journal building, and will utilize the newly acquired property for enlargement of its plant. For the present the publishing building will be utilized for the printing of the Journal Radio Magazine.

Intertype purchases have been made recently by the following newspapers: *Elkton* (Mich.) *Review; Columbus* (O.) *Ohio State Journal; Campbellsville* (Ky.) *Star; Lorain* (O.) *Journal* (5); *Norwalk* (O.) *Reflector Herald; St. Louis Times; St. Louis Globe-Democrat* (8).

Schenectady (N. Y.) *Union-Star* has purchased a new standard pattern unit type sextuple press of R. Hoe & Co., Inc.

A new Miehle press for the *St. Charles* (Ill.) *Chronicle* has arrived and will be installed in the Arcade building, which will be the new home of the Chronicle when the building is completed.

Clyde H. Knox, owner of the *Independence* (Kan.) *Daily Reporter,* has purchased a building at Sixth and Maple formerly owned by the Kansas Natural Gas Company. Mr. Knox contemplates moving the Reporter in the spring.

Diario de La Marino of Havana, Cuba, has purchased an 8-page single-width intaglio press of R. Hoe & Co., Inc.

A new 16-page heavy design press unit has been purchased from R. Hoe & Co., by the *Baltimore Sun.*

Tampa Tribune has bought an eight-unit Goss press, which is to be installed in the next two or three months. The Tribune is arranging to add two stories to the two-story press room annex to its building, to accommodate additional equipment, including engraving plant.

BOSTON VETERANS PLAN BENEFIT FUND

Committee of Eight Appointed to Draw Up Plans at 18th Annual Meeting in Boston, Dec. 5

Establishment of a benefit fund for indigent newspaper men was outlined at the 18th annual meeting of the Veteran Boston Journalists held in that city Dec. 5. Linn Boyd Porter, the organization's first president, was the originator of the plan. The following committee was appointed to draw up plans of organization and incorporation for a a benefit association: William Taylor, William E. Brigham, James T. Reardon, Thomas F. Anderson, J. C. Morse, Weston F. Hutchins, George Ryan and President Anthony J. Philpott.

To the $100 presented by General Charles H. Taylor as a basis for the fund, Mrs. Harriet L. Husted Lynch and Robert Lincoln O'Brien, the latter editor of the *Boston Herald,* each gave $100.

A. J. Philpott was re-elected president; William U. Swan, secretary, and Everett W. Shumway, treasurer. It was voted to reduce the service limit for membership from 25 to 20 years and any person connected with a Boston newspaper on Jan. 1, 1906, is now eligible to membership. Dues will be assessed at $1 per annum. There are more than 30 members in the organization who were employed in newspaper work 25 or more years ago. Many of these are now in other callings but still are members of the Veteran Journalists. The bulk of the membership, however, consists of active newspaper men, employed on Boston papers or in other cities of the state.

Remarks were made by William E. Brigham, Arthur A. Fowle, Thomas F. Anderson, Jacob C. Morse, William Walsh, Robert Lincoln O'Brien, Frank C. Bowker, Richard T. Howard, Daniel T. and James E. O'Connell.

A silent tribute was paid the following members who died during the past year: Edwin W. Ingalls, Frederick E. Goodrich, Annie N. Darling, Arthur M. and Raymond L. Bridgman, William B. Welch, Manley M. Gillam, Robert J. Nugent, Thomas H. Hall, John Henry St. John, Elmer E. Hill, Louis A. Coolidge, Arthur T. Lovell, George R. Sargent and Henry J. Moulton.

Among the 40 members present was Weston Freeman Hutchins, long secretary of the organization and the oldest member.

H. H. Hudson

D. H. LAWSON JOINS COAST DAILY

Succeeds C. F. Adelsperger as General Manager, Long Beach (Cal.) Sun

Following the resignation of C. F. Adelsperger as editor and general manager, the directors of the *Long Beach* (Cal.) *Morning Sun,* have appointed D. H. Lawson as general manager and director of advertising, and Walter H. Case as editor.

Lawson, who joined the staff several weeks ago, was for many years in charge of the Chicago office of the *Kansas City Star.* He was later business manager of the *Manila Daily Bulletin.* Until recently was employed in the same capacity on the *China Press,* Shanghai.

Case had been city editor since Dec. 1, 1924. Ruskin L. Dunfee, sports editor and police reporter, becomes city editor. R. D. Davis continues as circulation manager.

Paterson Daily Buys Property

The *Paterson* (N. J.) *Press-Guardian* this week announced it had obtained a contract for sale of a corner property adjoining the present plant for purposes of expansion. A new press will be purchased and other improvements made in the plant.

Lorenz Refused Rehearing

Arthur Lorenz, German language newspaper writer, who was convicted on a charge of libeling the American Legion, has been refused a rehearing by the Illinois Supreme Court.

YOUR
CHRISTMAS
CHURCH PAGE

An Indianapolis pastor says:

"If printers' ink could break down prejudice against oleomargarine and sell Florida sand lots, it could also be used effectively to fill churches and help spread the gospel news. . . . The public press is God's means of spreading His word. . . . Church advertising increases attendance, increases the offerings, and spreads the 'Good News'."

Christmas affords a fine opportunity for you to go after the churches in your locality and sell them on the idea that they can get results by advertising "good news."

Start a real church advertising campaign in your newspaper and let us help.

Write for plans and church advertising copy to the

LETTERS FROM OUR READERS

Justice to Urbana, Ill.

To EDITOR & PUBLISHER:

My attention has been called to the fact that in your Space Buyer's Guide, Urbana, Illinois has been consolidated with Champaign. Urbana is a separate city with a separate form of government and in no way connected with Champaign. Practically everyone that has been in Champaign or Urbana knows that they are Twin Cities, but people who are unacquainted with the condition would never be able to find Urbana.

Very truly yours,
J. Ellis Mann,
Urbana Association of Commerce.

Note—The "twin-cities" are listed in the Space Buyers' Guide, page 53, as "Champaign-Urbana, Ills."

Telling Cubs How

To EDITOR & PUBLISHER: Advice on what the young reporter should be taught before he goes out into the newspaper field, still seems to be the favorite indoor sport of a galaxy of wise critics occupying the orchestra rows. The favorite picture painted by these savants is one in which the young homo stultus, having completed his college course in journalism, is depicted as being hurled headlong into a den of roaring "hard-boiled city editors," and other fur bearing animals.

What is especially lacking, these men say, in the college training of the reporter is the "hard-boiled city editor" to teach the practical side of the "game." Other suggestions, equally as pertinent, are made. These gentlemen are evidently overlooking the fact that journalism is coming to be more and more a profession where intelligence, not bluff, rules.

In your columns not long ago, one of your readers suggested that journalism departments should include in their curricula a complete course in how to telephone stories to the rewrite man. Any college instructor in journalism could teach an intelligent reporter in 20 minutes all the fine points of telephoning stories—including how to influence the operator to give him the right number.

As additions to the excellent suggestions which have already been made for the curriculum of an ideal college course in journalism, may I suggest the following embellishments:

1. A semester course, with laboratory practice, in "Soft-Soaping the City Editor."
2. A seminar course in "How to Keep the Paste Pot Full."
3. A two-semester course in "When to Ask for a Raise in Salary."
4. A graduate seminar, with thesis, on "How to Swear at the Society Editor."

IVAN BENSON.

Errors in Newspapers

To EDITOR & PUBLISHER: In a recent issue EDITOR & PUBLISHER discussed editorially the great need for accuracy in journalism. The editorial went on to tell of lamentable errors on the part of compositors, errors that caused the papers concerned considerable grief.

This editorial reminded me of a strange error in the setting up of some copy which I wrote in England about 12 years ago whilst acting as local correspondent for a paper published in the ancient city of Norwich. The style sheet required that the word "interment" be used in connection with funerals, and in the "copy" I had to write an obituary of a rather ne'er-do-well son of a well-to-do family. In telling of the place of burial I observed, "The interment took place in the churchyard. * * *" A day or two later indignant relatives of the deceased wanted to know why I had not shown the usual respect for the dead. To my horror the compositor had changed a word, making me say "entertainment," instead of interment.

A staff reporter on the same paper told me of a typographical error in some copy of his own that caused a greater commotion than the error in mine—although mine attracted not a little attention. The error in this case, however, was one easily accounted for, but in spite of that the bride received more than 200 anonymous postal cards and letters, some of them abusive.

It is, or was, the custom in the provinces over there to print a complete list of presents in a report of a wedding, especially when the parties are prominent and the affair is an elaborate one. The reporter in this instance had told of the gold brooches which the bridegroom, a well-to-do man, and widely known in the city, had presented to the four or five bridesmaids. When the report appeared, however, it was found that the compositor had substituted "ee's" for "oo's."

FRED L. W. BENNETT,
Salt Lake City.

Bradford vs. Zenger

To EDITOR & PUBLISHER: Taking in good part Prof. Fred J. Lazell's criticism of one phase of my recent article on William Bradford, it behooves me to offer a qualifying viewpoint in extenuation of the praise accorded Bradford for his accomplishments toward the advancement of American journalism.

The occasion for the article in question—the bi-centennary of New York's first newspaper, of which William Bradford was actually the founder, editor and publisher, was per se sufficient reason for concentrating on Bradford, it would seem, rather than on John Peter Zenger for whom Prof. Lazell appears as champion.

That Bradford was accorded fitting praise—in no way fulsome—for the stimulus he gave to American printing—in journalistic and other development, should have in no way detracted from whatever good Zenger also, in his own way, contributed. The fact remains that Bradford did start the first New York newspaper and did train many apprentices to go out upon journalistic careers, among whom was Zenger himself. Also the fact remains that the Bradford article was written for the celebration which recognized the anniversary date of New York's first newspaper.

Were the occasion a Zenger celebration or an anniversary of Zenger's paper's birth, I should be glad to concentrate on the facts concerning Zenger's contribution to American journalism and pay tribute to him for his stand for the freedom of the press, in which, incidently, he may not have been as important as Andrew Hamilton, the Philadelphia lawyer who presented his case under the support of the influential Van Dam.

That Bradford was eulogized for his part in early American journalism should in no way have been construed as, to quote Prof. Lazell, "the slighting of Zenger," of whom I wrote in my article, " . . . and in his historic fight against the tyranny of the government over the so-called seditious printed matter, he became famous as one of the early champions of the freedom of the press."

It may also be in order to note that I referred to the Cosby trouble, not only by mentioning it as "local bickerings" but also as "agitations caused by Cosby's high-handed demands."

Prof. Lazell regrets that "the good that men do is often interred with their bones," etc., and mentions wealth as one of the factors too often causing remembrance. He insinuates, I take it, that Bradford is remembered because he is in the class of those who "become almost rich enough 'to stand before kings'." This is not strictly according to the facts we have to draw upon, for although Bradford was not poverty-stricken nor as poor as Zenger, still we cannot class him among the wealthy if we accept what his one-time apprentice, James Parker, wrote in his obituary notice.

". . . but acquiring of an estate happened not to be his faculty, notwithstanding his being here at a time when others of not half his good qualifications amassed considerable ones."

I should like nothing better than to write of the picturesque and significant facts concerning Zenger and his paper and shall eagerly accept the first opportunity to do so—but I think Prof. Lazell will agree that a New York Gazette anniversary should throw the spot-light on William Bradford and leave Zenger enthusiasts satisfied with the "honorable mention" that accrues on the side.

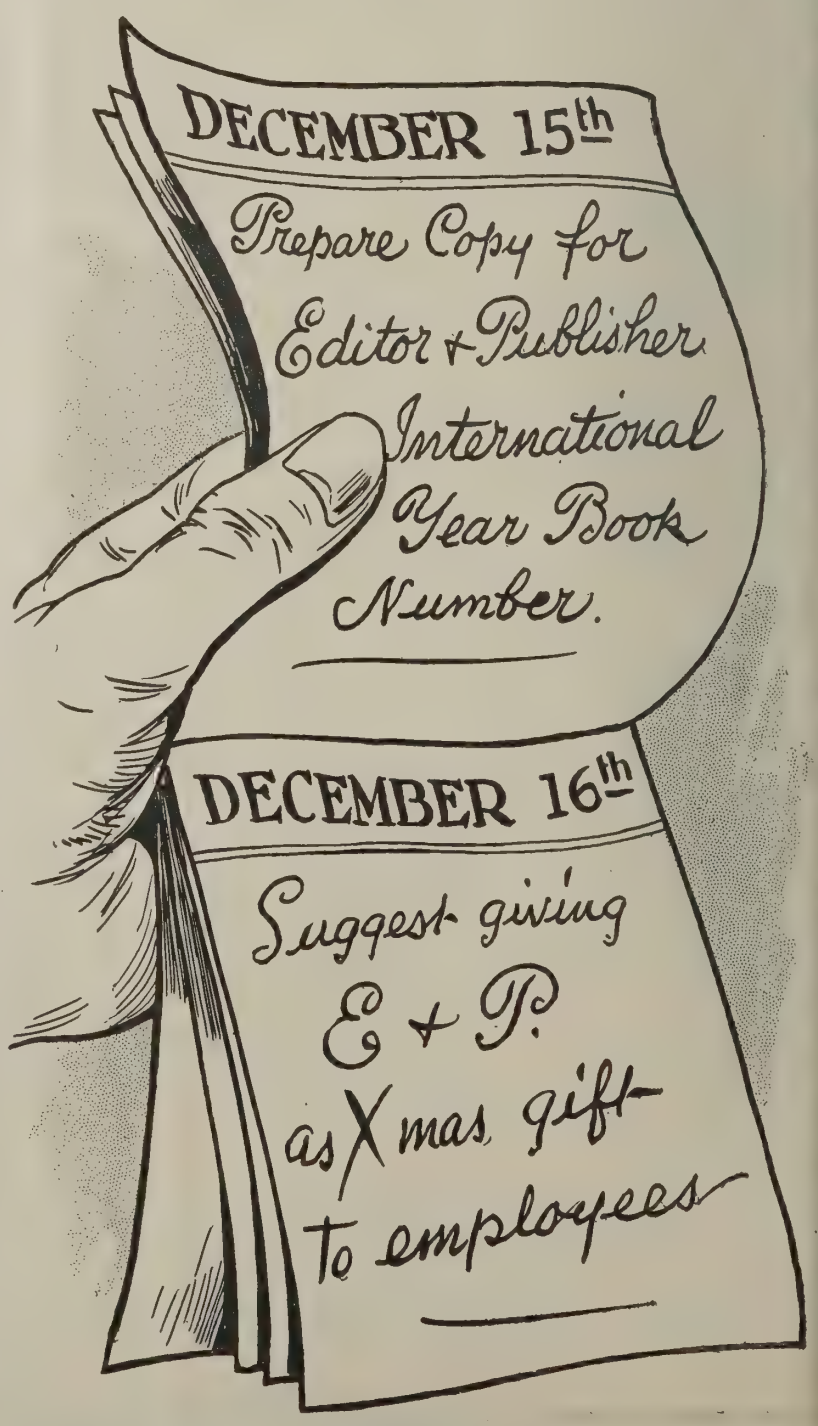
MARION R. LELAND.

Special Editions

To EDITOR & PUBLISHER: Your most valuable journal has been a very important factor in exposing the free space grabber and the press agent grafter. As one who is vitally interested in the success of advertising in general and who is heartily in accord with your principles and ethics in regard to this matter, we take off our hat to you. While you are so capably exposing this free space theft, may we suggest another line of action which, in indirect ratio, is just as serious a menace to the value of genuine merchandising and advertising?

At least ten times each week, I receive a letter somewhat like the following:

"Dear Sir: On the steenth of August, we will celebrate our seventh birthday anniversary grand opening and what-not sale. This, the greatest merchandising plan ever seen in the north, south, east, west, (check the one you prefer) will be heralded throughout the entire seven counties of our trading area and will bring no less than 14,392 out of town buyers to our celebration.



"Our local newspaper, the Daily Disgrace, is back of us in promoting the success of this venture and will run a complete sectio of advertising commemorating this even We have spent thousands of dollars on t purchase of your products (by actual coun $12.98); now we want just a little operation on your part. We want you take a full page or a half page in th special section, which will be charged special rates that we have secured. We a gratified at the manner in which all firm with which we do business have responde to this appeal. We are counting on you f a full page. What space shall we reserv for you? Send us copy. You can send t a check or credit our account, etc., etc., etc.

Each of these letters is as if poured fro the same mould. All are written in the sam style and the majority of them bear the e marks of the local newspaper which has su ceeded in obtaining the iron club of the loc merchant to wage war with the manufacture with this form of blackmail advertising. W have seen one newspaper in Ohio release thre such special sections in one Sunday editio We have fallen for the proposition where th good will of our dealer and the insistenc of the paper through the dealer made it nece sary that we stand the gaff and pay the black mail, but in the great majority of cases, w have had the temerity to refuse to stand for it for such incidental and spasmodic advertisin does not fit in the sane, sensible, well grounde and carefully planned advertising and mer chandising program of any manufacturer.

When Henry Ford builds a new design ca or if Super-Heterodyne make a new kind o radio tube, that is press agenting, but if Josep Litz Company, Main street, Podunk, Missour cut their growing teeth on their seventh anni versary, they get special sections in the loca newspaper as "news" with non-productive black mail advertising at the manufacturer's expense

The influence of your paper can be as grea in stopping this advertising leak as it has bee in stopping press agent graft.

W. A. SHEAFFER PEN COMPANY.

Letters That Speak for Themselves!

THE EVANSVILLE COURIER, Inc.
Evansville, Indiana

"We have been subscribers to your service for several years. When your proposition was first broached to us we had some hesitancy about it. The factor which decided the matter in our mind was that the burden of the missing copy evil had become well nigh intolerable. It seemed that the larger percentage of checking copies we forwarded went astray in the mails. Payment of our accounts was held up pending the receipt of duplicate copies. In many instances the duplicate copies also went astray.

We decided to try your service for one month. At the end of the month we were so well satisfied that we sent in our order for its continuance. We have been relieved of the vast amount of detail and annoyance incident to the missing copy evil.

We would not think of going back to the old method of supplying checking copies. The Advertising Checking Bureau's system is vastly superior. We seldom have requests for missing copies. And, when we do, it usually turns out that the original proofs had been delivered.

We wish to commend you for the prompt and courteous attention given to our every request.

Very truly yours,
THE EVANSVILLE COURIER, Ed J. Fehn, General Manager."

WHAT'S WHAT IN THE FEATURE FIELD

Clifford McBride Drawing Tabloid Page for McNaught —Western Circulation Bureau Organized— "Why Christmas Is Merry"

Clifford McBride draws comics without words

CLIFFORD McBRIDE, artist, is now drawing a series of Sunday tabloid comic pages for the McNaught Syndicate, Inc., New York. A feature of the new comic is the absence of the usual balloons.

Mr. McBride was born in Minneapolis and moved to California, where he attended college and art schools. After a short time as illustrator for California magazines, he joined the art staff of the *Los Angeles Times*. Later he went to the *Chicago Tribune*, but left that newspaper to return to the Pacific Coast where he is now located.

The Western Circulation Bureau has been organized with offices at 1448 Webster street, Oakland, Cal. New and original plans on circulation promotion will be offered, it is announced, and the latest in premiums, prizes and contests will be submitted. W. G. Weaver is director of the bureau.

William Allen White, editor of the *Emporia* (Kan.) *Gazette*, is author of a Christmas editorial called "Why Christmast is Merry," which is being offered by the United Features Syndicate, New York. The feature is illustrated by Harry Townsend.

"The Two-Way Pulpit" is the title of a new religious feature announced this week by the McNaught Syndicate, Inc., New York. The syndicate has engaged the Rev. John Roach Straton, D. D., pastor of Calvary Baptist Church, New York, and a Fundamentalist, and Rev. Hubert C. Herring, Congregationalist Minister of Boston, and a modernist, to write weekly parallel columns. Every week a text or subject is assigned to these two clergymen. Each writes his thoughts without seeing the other's work.

The McClure Newspaper Syndicate, New York, is offering a new fashion feature called "Molly Monologues." It is a short daily talk in the first person of a girl's adventures with a sketch of Molly's new clothes. In addition to the fashion interest, the syndicate claims it carries the serial interest of Molly's life and parties.

Dr. Harvey J. Howard, held captive ten weeks last summer by Chinese bandits in Manchuria, tells his story for the first time in a series of daily articles being distributed by the United Features Syndicate, New York.

"An Heir at Large" a serial cartoon by John T. McCutcheon of the Chicago Tribune Newspapers Syndicate, has been dramatized by Mary Aldis, for a premier at the Goodman Memorial Theatre at the Art Institute, Chicago.

The Metropolitan Newspaper Service, New York, announces for Jan. 11,- the first of the Mildred Barbour "Love and Marriage" serials to carry daily illustrations. The feature is entitled "The Thoughtless Wife," or "Playing With Fire." The drawings are being done by Paul Brown. Miss Barbour is at present in Switzerland for the winter sports.

"Call for Mr. Bingle" is the name of the latest daily comic from the pen of Al Posen, creator of "Them Days Are Gone Forever," and "Jingle Belles." United Features Syndicate is distributor.

At a recent meeting of the executive committee of Science Service, Inc., Dr. J. McKeen Cattell of New York was elected chairman of the executive committee and vice-president; Dr. Vernon Kellogg, permanent secretary of the National Research Council, Washington, was elected treasurer and James Stokley was elected assistant treasurer.

A novelization of Channing Pollock's play, "The Enemy," is being offered newspapers by Continental Features, Inc., New York.

HIGH OFFICIALS ON GRIDIRON AT CAPITAL

Annual Dinner of Gridiron Club Being Held Dec. 12 — World Court, War Debts and Congress Burlesqued

WASHINGTON, D. C., Dec. 12.—Wit and raillery in an atmosphere strictly congressional is to mark the annual winter dinner of the Gridiron Club here this evening.

An international touch is to be given the event when the World Court, the war debt controversies, and world figures are put on the sizzling gridiron by the Washington correspondents comprising the membership of the club.

President Coolidge, Vice-President Dawes, cabinet officers, diplomatic officials and business and industrial leaders are among the invited guests.

Following are some of the events scheduled for the evening:

Opening song by the music committee, "What Do I Care?" with the refrain:
"Statesmen come and statesmen go,
What do we care, what do we care;
Beneath the Gridiron light,
We got no friend, got no foe,
What do we care, what do we care
The Gridiron's shining bright.
We will take you back of the scenes,
Show you just what politics means. So—
Nothing hid, lift the lid,
What do we care, what do we care,
The Gridiron's hot tonight."

Song, "All Alone," picturing Vice-President Dawes leading the fight against unlimited debate in the Senate.

"Revolt of the Marionettes," a burlesque on Col. William Mitchell, Senator Borah and Senator Reed Smoot.

"Nothing New Under the Sun," a skit in which John Quincy Adams is interviewed by Anne Rayoll.

"The World War Debt," portraying "Little Joe" Caillaux as the magician.

Secretary of the Navy Wilbur's bedtime stories are to be discussed in song os well as the foibles of Congress. Another subject scheduled for the gridiron is Col. Mitchell's trial.

Early in the dinner the hall will be darkened while the club pays tribute to the four members who have died since the last dinner, L. White Busbey, Louis A. Coolidge, N. O. Messenger and James Rankin Young.

WILCOX IS CHAIRMAN

Heads Standing Committee of Senate Press Galleries

Grafton S. Wilcox, member of the Washington Bureau of the *New York Herald Tribune*, is the new chairman of the Standing Committee of the press galleries of the United States Senate and House.

Mr. Wilcox, a former Associated Press and *Chicago Tribune* man, and a leading member of the Gridiron Club, polled the highest number of votes when the members of the press galleries met last Saturday to select the governing body of newspaper correspondents which will cooperate with James D. Preston, custodian of the Senate Press Gallery, and William J. Donaldson, Jr., custodian of the House Press Gallery.

The others chosen to serve with Mr. Wilcox were Mark Thistlethwaite, of the *Indianapolis News;* Robert B. Smith *Philadelphia Public Ledger;* Jay G Hayden, *Detroit News,* and James L West, of the Associated Press.

A resolution was adopted commending the services of James L. Wright, of the *Cleveland Plain-Dealer,* the retiring chairman.

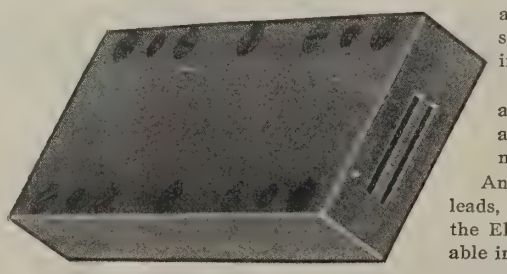
N. Y. Sun Dines All-American Team

Members of the 1925 All-American football team, picked by sports writers of the *New York Sun,* were guests of honor at a banquet given them by that newspaper in New York, Dec. 5. The players carried away with them gold watches presented by the *Sun* as All-America emblems. Ceremonies were opened by a brief speech by Fred A. Walker, of the *Sun,* who turned the gavel over to William H. ("Big Bill") Edwards.

"Best equipment we ever put in" says Woodring

In writing of his experience with his Ludlow recently Mr. J. J. Woodring, General Manager of the Advocate Publishing Co., Sterling, Colorado, writes:

"WE have always been boosters for the Ludlow. It is the best piece of equipment that we ever put in. It has served the Advocate well and is the cheapest machine to operate that we ever had, in fact the supplies used for the Ludlow in five years hardly amount to anything. We wouldn't think of taking it out.



"We have issued papers up to seventy-five pages, never have any trouble, and never run out of sorts. The printers here all like the Ludlow and are boosting this machine."

LUDLOW QUALITY COMPOSITION

Twin-Lead Mold Gives Double Production

TO the rapid production of slugs possible from an Elrod with a single, two-point mold, a twin-lead mold adds double production, because every stroke of the plunger drives two leads thru the mold instead of one. The Elrod is so simple that no machinist is required for its successful operation and so automatic that it needs but little supervision.

The Elrod Slug Caster produces leads, slugs and plain rules in any quantity, in a wide variety of sizes, cut to any length desired. Elrod material is solid and stands up under the most severe press and stereotyping conditions.

There are no intricate adjustments on the Elrod and changes of mold can be made quickly and easily.

Any shop using a quantity of leads, slugs and rules will find the Elrod Slug Caster a profitable investment.

WITH THE GENERAL ADVERTISERS

Jell-O and Postum Cereal Companies to Be Combined—Great Northern Railway Executive Praises Newspaper Space—Olds Motor Works Names New Ad Manager

OFFICERS of the Jell-O Company and the Postum Cereal Company are developing plans to combine the two companies by an exchange of stock, Ernest L. Woodward, chairman of the board of the Jell-O Company, announced this week. The plans, he said, would be submitted to the stockholders in the near future for their approval.

The plant of the Jell-O Company is at Leroy, N. Y., while the largest factories of the Postum Company are at Battle Creek, Mich.

Newspaper advertising received high tribute from A. J. Dickinson, passenger traffic agent of the Great Northern railway, who spoke at the annual passenger agents' convention in Chicago recently.

"The Great Northern," he said, "has been a consistent user of newspaper space. Our passenger business has increased in direct ratio to our us of this medium.

"For a long time we marked the increased interest in California travel, either going or returing via the Pacific Northwest. I believe this expansion may be reasonably credited to the information we furnished to the public through our newspaper advertising from coast to coast."

Olds Motor Works announces the appointment of R. M. Wimot Shaw as advertising manager of that company. Mr. Shaw takes the place of E. J. Shassberger who was recently appointed territory analyzation manager.

Ross Wilson, advertising manager for the Schaeffer Pen Company, Ft. Madison, Ia., has resigned to become European advertising manager of General Motors. He is succeeded by Carl K. Hart, formerly assistant advertising manager of the Miller Rubber Company, Akron, O. Mr. Wilson will spend six months in the General Motors plants in this country outlining a campaign for overseas sales. He will open an office in Paris, June 1.

Newspapers in Massachusetts will be used to advertise the Boston Morris Plan Corporation, it was announced this week by the New York office of the Charles W. Hoyt Company, Inc., which has just obtained the account. The same agency is also planning a newspaper campaign for the Orange Screen Company of Maplewood, N. J., also a new account.

William M. Zintl of the Curtis Publishing Company, Philadelphia, has been appointed director of sales of the paint and varnish division of E. I. duPont de Nemours & Co., of Wilmington, Del.

Henry Schott, assistant publisher of the *Nation's Business,* and before that for many years night editor of the *Kansas City Star,* has been made advertising counsel for the West Coast Lumbermen's Association, with headquarters at Seattle. He will begin his new duties Jan. 1, 1926.

Edward I. Pratt has resigned as advertising manager of the Kellogg Switchboard and Supply Company, Chicago, to go with the Bryant Electric Company, Bridgeport, Conn. A. D. Boal succeeds Mr. Pratt as advertising manager of the Kellogg Company.

A new November record was established by the automobile industry during the past month when 379,300 cars and trucks were manufactured, this being the total estimated from shipping reports filed at the directors' meeting of the National Automobile Chamber of Commerce, New York.

The total for the eleven months is 3,997,954 exceeding the record total of 11 months in 1923 by 5.6 percent.

ADVERTISING AGENCY AFFAIRS

New Space Buyer for Campbell-Ewald Company—Peaceman Joins Miami Agency's Staff—Woolf and Gurwit Open Chicago Office

H. T. EWALD, president of the Campbell-Ewald Company, has announced the appointment of J. J. Hartigan as space-buyer. Mr. Hartigan formerly was with Critchfield & Co., Chicago, having been with that organization for nearly 12 years and was space buyer for the last five.

Mr. Hartigan was born in Chicago and educated in the grade and high schools of that city. While still attending grade school he obtained special work in the business office of the *Chicago Tribune,* continuing there until his graduation from high school early in 1914 when he joined the Critchfield organization. Previous to being appointed space buyer, he had worked in every department in the Chicago agency.

The staff of the Robinson-Clary Agency, Miami, Fla., has been augmented by the addition of Morris Peaceman of New York as copy chief. Mr. Peaceman, for the past five years, has been in charge of direct advertising for A. Proper and Staff.

The Woolf-Gurwit Advertising Agency has opened up offices in Chicago. S. Gordon Gurwit and Saul R. Woolf are the owners. Mr. Gurwit was for eight years advertising manager and sales promotion director of the Hartman Furniture & Carpet Company, Chicago. Mr. Woolf was manager of the same concern's mail order organization for 15 years.

Maj. Patrick J. O'Keefe, of the Patrick J. O'Keefe Advertising Agency, Boston, has been appointed a member of the committee to make plans for the tercentenary celebration to be held in 1930 to be held in observance of the anniversary of the settlement of Boston.

The Coolidge Advertising Company, Des Moines, has increased its quarters in the Insurance Exchange building 50 per cent. New fixtures and equipment were installed last week and the company opened its new offices Dec. 1.

M. G. Enabnit, egaged in commercial art work in Des Moines, Ia., has joined the Fairall & Co., advertising agency of Des Monies, as art director. The company also announced plans to expand its office space after the first of the year.

NEWSPAPER SPACE AIDED CITY

Annual 15% Increase in Municipal Electric Business Due to Advertising

An increase of 10 to 15 per cent annually in the business of the municipal electric light plant at Richmond, Ind., has been due to newspaper advertising, members of the city board of works stated upon being questioned by the city council regarding the inclusion of an item for this purpose in the annual budget. Richmond is a small city and advertising rates are not high, and so the budget only calls for $2,000 for the year for newspaper space.

Dan Hess, superintendent of the plant, said the sale of 166 electric ranges, following a newspaper campaign, demonstrated fully the value of the money spent for that purpose alone. Walker Land, president of the board of works, said the expansion of the plant could be traced to the newspaper space which had been purchased. Members of the city council let the advertising item stand.

ADVERTISING COMICS

Something Like Strip Adopted by Happiness Candy Stores

Advertising in comic strip form appeared in New York this week when the Happiness Candy Stores purchased a full single column in newspapers and filled it with cartoons and jingles promoting their Evangeline Chocolates.

Happiness Candy Stores, like Ovington's and Brokaw Brothers, use the single perpendicular column.

HOW AD CLUBS SERVE

Advertising Becomes Believable and More Productive, Says Hunter

Advertising is believable, and therefore more productive in communities where advertising clubs have been organized, Ed Hunter, director of the club service department of the Associated Advertising Clubs of the World, declared in a recent address before the Advertising Club of Johnstown, Pa.

"In towns where an advertising club is functioning as it should," he said, "copy writers have learned the value of truthful statements and the public has been educated to accept and act upon the advertisements published."

Mr. Colley also explained the advantages of the advertising study classes maintained by the best clubs.

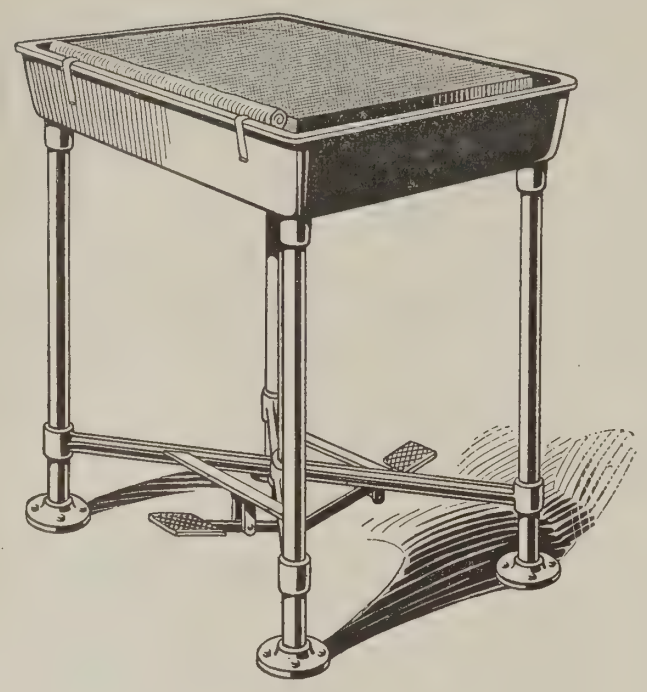
POWERS PERFECTION COOLER

Every Newspaper Photo Engraving Plant should have at least one



The Powers Perfection Cooler requires no water connection of any kind.

It can be moved at will by simply picking it up and placing it where it is wanted.

It has no mechanical parts to get out of order.

It applies cold water evenly and simultaneously to all parts of the plate—ON THE BACK OF THE PLATE only.

It cools the plate instantaneously to the exact temperature required and saves wiping, mopping and reheating.

The price of the Powers Perfection Cooler is $350

The *Powers Perfection Cooler* met with the instantaneous approval of both the workers and the owners wherever it was installed and tried. The men in the shops like it because it helps them in their work. They save time and effort, turn out more work and better work, and do it with very little physical labor. It is a clean, workmanlike way of doing what is otherwise a messy, sloppy task.

Proprietors like it because it saves gas, water, time and makeovers. These savings mean money and profits and that is what we all want. To satisfy yourself, go into your etching rooms and see what happens when the etcher tries to cool a large plate by dragging it over a roller wrapped in old towels and rags or a piece of burlap. Watch the plate buckle and then see him try to straighten it out. You know what that means in color work.

The use of the Powers Perfection Cooler does away with buckled and twisted plates, the splashing of water on the face of the plate and the constant work and worry connected with etching. A zinc etching is heated from 13 to 16 times by the etcher. That tells the story.

AGENCY MAN SEES NEWSPAPERS AS TAIL TO MAGAZINE KITE

J. Walter Thompson Executive Tells Ad Class Dailies "Too Costly" and to Be Used as Supplemental to "National Drive in Magazines"

PROPAGANDA decidedly unfavorable to daily newspaper advertising was given out this week by Dr. J. W. Watson, a vice-president of the J. Walter Thompson Company, New York advertising agency, addressing nearly 200 students in the advertising course of the Advertising Club of New York, Dec. 8.

Newspaper space, he maintained, was only supplemental to a "national drive in the magazines."

Assigned to speak on "Newspapers, and How to Use Them," Dr. Watson was frank enough before he finished to admit he didn't know as much as he wished about newspaper advertising, and was "willing to learn more."

There is room for newspapers in almost every campaign, he conceded, but he would limit use to the metropolitan dailies, which, he said, "deserve to be classed as national media, along with magazines, except in the matter of manufacture."

Conclusions he reached regarding his subject were that newspaper space was far too expensive to form the backbone of a campaign; that the proper function of newspaper advertising was as a support to a magazine drive or for the purpose of research such as trying out a new product or testing an old product in representative markets.

In an effort to prove his opinion that newspaper advertising was "too costly," he read EDITOR & PUBLISHER figures, without credit, giving the aggregate expense of a 20,000 line campaign using 1610 evening newspapers with a total average circulation of 19,978,632 per day and compared it with the cost of 12 full pages throughout the year in a list of 11 magazines with a total circulation of 19,450,000 per issue. The two costs, he estimated, were $1,333,400 for the newspapers, compared to $793,200 for magazines.

Dr. Watson, while stressing the closeness of the two total circulations, made no attempt to analyze the vast differences in distribution of the circulations. He made no comparisons of results, with the exception of coupon copy, nor did he try to explain away the much discussed duplication in the magazine field.

No mention was made by the speaker of any big advertisers who make newspapers the backbone of their campaigns, although many are available to prove the effectiveness of newspaper copy, and its cheapness when intelligently employed.

Questions at the close of the lecture drew replies from the agency man displaying a decided magazine complex.

"Are the merchandising service departments set up by newspapers helpful to advertisers?" was asked.

"The very fact that magazines are adopting similar departments is proof of their value," came the reply. "There is no question that these service departments help out. But the fact that newspapers have them does not sway us in the least from our opinion that it is cheaper to use magazines, when we can do it. Did you know that the magazines were co-operating with advertisers with merchandising departments, furnishing window displays and other aids on a large scale?"

"Does dealer influence enter into the selection of media? Isn't it a fact that dealers ask manufacturers to employ newspaper space?"

"Ah," said Dr. Watson, "I wish I knew what dealer influence is. In some cases, automobile accounts for example, it is helpful to be able to print dealers' names and addresses with the advertisement to tell where the product may be purchased; but I think dealers are satisfied when customers come in and ask for the product by name, proving a magazine campaign has had some weight."

Dr. Watson imagined an advertising problem with a client to illustrate his opinion of how to use newspapers for advertising purposes.

"Let us say we have a new product we will call 'A'," he imagined for the class. "We get out and work with our client for two years. We study his competitor's product, find its defects, and improve our client's product accordingly. In fine, we do all in our power to make his product ideal.

"Then do we go into the magazines? Not on your life.

"We pick three or four cities, after we have sent men out to investigate the market, and religiously over-advertise in the newspapers of those cities.

"To our client we say, 'You aren't going to get returns to justify this expense immediately.' And they don't. It is simply a test. We continue this for three months using about a 15,000 line campaign.

"At the end of a month we go to the cities and take a taxi and drive around to the retail outlets to find out how our product is going. Perhaps it proves to be going very well. There are repeat orders. The product has good shelf-value. There is good turnover. The volume of sales is satisfactory, and, because we have checked results in two or three cities, we can judge pretty well what the volume will be when the effort is multiplied throughout the country.

"Then, all right. Let's nationalize. Let's go into the magazines.

"We have given our client three months time to get distribution. We estimate he can get distribution into 19 states or 70 per cent of the country in this length of time. The newspapers have been used thus to try the product out."

DAILY PRAISED BY NEW

Postmaster General Thanks New York Sun for Co-operation

Edwin S. Friendly, business manager of the *New York Sun*, this week received a letter from Postmaster-General Harry S. New, who thanked the *Sun* for the full page advertisements it inserted in New York papers in encouragement of early Christmas mailing.

"This is co-operation to some purpose," Mr. New wrote, "and I find it difficult to express the appreciation of this Department of the liberal generosity of the Sun in its effort to aid the Department and the public in this way. Believe me, sir, we do appreciate this enterprise."

A facsimile of the letter was reproduced by the *Sun* on its first page, Dec. 7.

There's Money for You in Good Roads Week

National recognition of the necessity for more and wider good roads will be given much needed stimulus during the first annual *Good Roads Week*, January 11 to 17, 1926.

The tremendous growth in use of the automobile, motor truck and bus in recent years has created an urgent need for more good roads—roads that will resist successfully the pounding of millions upon millions of heavy vehicles.

Only permanent roads can do this job—and these can surely be secured if highway users are made to realize that makeshift roads at best are far more costly than permanent roads over a period of years.

Newspapers, better than anyone, can present these vital facts to those who pay for roads—and everyone pays.

Perhaps your newspaper has plans to recognize *Good Roads Week* in its news columns—even publish an entire section.

If so, Advertising Managers can receive copy suggestions from the Portland Cement Association which will help them to increase their advertising revenue during that week and at the same time assist a worthy cause. The material we offer is similar to that of Fire Prevention Week, from which hundreds of newspapers reaped ideas that resulted in greatly increased advertising space.

Whatever your plans, we are ready to help you. Photographs of permanent roads in your state and data for news stories will be supplied upon request. If you prefer, complete articles with suitable illustrations will be prepared for your use.

Tell us about your plans. Ask for the assistance you need. There is no cost or obligation.

WRITERS PICK PRIZE BASEBALL STORIES

Margowitz New York Telegram and Collins Springfield Republican, Win Watches—Debate Player-Writer Problem

The Baseball Writers' Association of America, meeting at the Hotel Roosevelt, New York, Dec. 10, made its awards for the best baseball stories written during the year. Dan Margowitz of the *New York Telegram* won the major league prize while F. J. Collins of the *Springfield* (Mass.) *Republican* was the minor league winner. Both were presented gold watches.

Ford Frick of the *New York Evening Journal* was the runner-up to Margowitz, while Joe Williams, *Cleveland Press,* and Regis M. Welch, *Pittsburgh Post,* were tied for third honors. Blaine Patton of the *Indianapolis Star* and Robert Harper of the *Richmond Times-Dispatch* received honorable mention.

Forty-eight stories were submitted by major leaguers and 21 by minor leaguers. Most of the stories dealt with the World Series, particularly with either the final game or the fourth in which Walter Johnson whitewashed Pittsburgh.

James M. Gould, of the *St. Louis Star,* and association president, presided at the meeting, which is the annual adjourned convention, annual sessions being held at the time of the World Series. The chief subject under discussion regarded whether or not the association would appeal to Commissioner Landis to stop the present practice of baseball players writing for newspapers.

The 11 chapters of the association had been asked by Henry B. Edwards of the *Cleveland Plain Dealer* secretary, to vote on this so-called "player-writer evil." Of the 11, seven chapters voted, six demanding that the practice be discontinued and one that it be allowed to stand.

It was decided at this week's meeting to draw up a new resolution on the subject, which is expected to be a compromise, that is, that players who actually write their own articles be allowed to continue and those who merely lend their names to some press agent or syndicate be stopped. Members of the committee appointed to frame the new resolutions are:

William Brandt, *Philadelphia Public Ledger,* chairman; T. S. Rice, *Brooklyn Eagle;* George W. Daley, *New York World;* Irving Vaughn, *Chicago Tribune;* J. Roy Stock, *St. Louis Post-Dispatch;* and H. G. Salsinger, *Detroit News.*

The baseball writers believe that professional baseball rules are at present ambiguous and contradictory, and a committee, appointed by the membership, presented this contention before the joint session of the major league managers' meeting in New York this week and offered the association's aid in clarifying them. The offer was accepted and the rules will be changed at the next league session to be held in Washington in February. Members of the playing rules committee of the association are John B. Foster, *New York Sun;* James R. Harrison, *New York Times;* and Harry Buillon, *Detroit Free Press.*

Fred Van Ness, New York Times, and William Piet, *Honolulu Advertiser,* former active members of the association, who are no longer writing baseball, were elected to honorary membership.

By vote of 29 to 7, the association decided to discontinue the practice of awarding annual prizes for the best baseball stories.

A. S. THOMPSON IN INK FIELD

Leaves A. P. to Become Manager of Roosen News Ink Dep't

Arthur S. Thompson this week terminated 12 years' service in the headquarters of the Associated Press and became manager of the news ink department of the H. D. Roosen Company, 16 West 43rd street, New York. Mr. Thompson had attended every annual meeting, board meeting and executive committee session of the A. P. since March, 1913, when he became secretary to the general manager, then Melville E. Stone. He made the acquaintance of hundreds of members by handling arrangements for the annual meetings and luncheons, and in recent months as executive assistant under General Manager Cooper, he has visited many members in their offices telling the story of the new A. P. "progressivism."

"It is with a feeling of keen regret that I leave the service of the Associated Press," Mr. Thompson said this week. "I have consolation, however, in the belief that I still have in the ink business an opportunity to serve the newspapers. It has always been a delight and an inspiration to be associated with those who compose and direct the affairs of the A. P., and with the rank and file of the men. To have been as closely associated with Melville E. Stone as I have been for 13 years has been an opportunity worth any man's time. I shall try to carry into my new business the high standards and ideals he so deeply rooted in me.

"I see an opportunity to supply the newspapers with a high-grade news ink, made from the best ink oil and carbon, of guaranteed quality and reasonably priced, and my association with the Roosen company has followed several months of close investigation of the industry and its relations to the newspapers."

Mr. Thompson, who was born in New York in 1886, went to the Philippines in 1905 and was associated with the War Department's efforts to promote the shipping industry in the islands for seven years. He returned to the United States in 1912 as secretary to John Skelton Williams, then Assistant Secretary of the Treasury, and joined the A. P. the following year. He has been a member of the A. P. reporting staff at every national party convention since that time.

Color Roto Section in Philadelphia

The *Philadelphia Inquirer* on Dec. 13 will begin publication of a color rotogravure section as a regular feature of its Sunday edition.

Four pages will be in sepia and four in color. George G. Steele is advertising manager of the Inquirer, in charge of this new section.

SPHINX CLUB SEASON TO OPEN DEC. 15

"Christmas Night" at Waldorf, with H. V. Kaltenborn, Brooklyn Eagle, and Irvin Cobb Speakers—Rankin to Preside

Sphinx Club, famous New York advertising society, will open its 1925-26 season with a dinner at the Waldorf-Astoria Hotel, Dec. 15. Plans for the evening, which will be called "Christmas Night," were announced this week by William H. Rankin, of the William H. Rankin Advertising Agency, and the club's vice-president.

Speakers will be H. V. Kaltenborn, associate editor of the *Brooklyn Eagle,* and Irvin S. Cobb. Mr. Kaltenborn will give his impressions on advertising abroad, while Mr. Cobb, who is now writing advertising copy for Sweet Caporal Cigarettes, will talk on "Advertising as I Think It Should be Written."

Music and entertainment will be provided by the Silvertown Orchestra, and the "Silver Masked" tenor.

Preston P. Lynn, general manager of Wanamaker's, New York department store, who has been president of the society for the past four years, is recovering from an illness. He will attend the dinner, but Mr. Rankin will preside. Mr. Rankin said decorations at the banquet will be in keeping with the holiday season, and said plans were being made for a club donation to some Christmas charity.

R. F. R. Huntsman, publisher of the *Brooklyn Standard Union,* is chairman of the executive committee.

Chicago Journal Now 8 Columns

The *Chicago Daily Journal* recently changed from seven to eight column width.

ENDOWS SCHOLARSHIP

E. S. Paret Gift Goes to Honor Graduate of Price School

Edward S. Paret of the Biddle-Paret Press, Philadelphia, this week established a scholarship at the University of Pennsylvania for the graduate of the Charles Morris Price School of Advertising receiving the highest honors. It will be known as the Edward S. Paret Scholarship.

It provides a three year night course in advertising, merchandising and salesmanship. Mr. Paret has been engaged in the printing business 30 years.

The Charles Morris Price school is directed by the Poor Richard Club of Philadelphia.

The Original Keystone PENNSYLVANIA Still Holds Keystone Position

As a commonwealth, Pennsylvania originally was known as the Keystone of the nation because of its geographical position and historical importance in the original thirteen states.

Today Pennsylvania is the Keystone State of the country in industry and manufacturing, and holds an important place among the agricultural states. The iron and steel industries as well as the great farms of Pennsylvania have made this commonwealth a great market for the merchandising and sales promotion of products for the national advertiser.

Merchandise of all kinds is in demand and the great earning capacity of the inhabitants is an indication of purchasing power. Ideal steam and electric railroad transportation facilities, excellent state highways and a well divided urban and suburban population offer distribution advantages that have placed Pennsylvania in the Keystone position for national distribution.

Permitted proper distribution, merchandise must be advertised. To be properly advertised, your product must be brought directly to the attention of the consumer. The retail merchants of Pennsylvania will stock up on your product when a demand is created for it through the local newspapers. The local newspapers will create the demand because they are home papers.

N. Y. CLUB TO DISCUSS A. A. C. W. AID

Plans for Giving Greater Support to Educational Work Will Be Topic at Council Meeting Dec. 15—Harwood Issues Call

Plans for giving greater support to the educational work of the Associated Advertising Clubs of the World will be discussed at an important meeting of the general council of the Advertising Club of New York, to be held Dec. 15th, at the club. W. Frank McClure, chairman of the National Advertising Commission, will be present.

Frank Harwood, advertising manager of the American Tobacco Company, and chairman of the general council, this week addressed the following letter to council members, explaining the purposes of the meeting:

"The occasion will be to receive and confer with the President of the National Advertising Commission of the Associated Advertising Clubs of the World, W. Frank McClure of Chicago.

"This is the first visit of the kind in the history of our activities of recent years. As you know, the Members' General Council of our Club is largely patterned after the National Advertising Commission of the Associated Advertising Clubs of the World. The activity of our Club in this direction has been of tangible support and benefit in furthering the emphasis of the economics of advertising of the Associated Advertising Clubs of the World.

"The ethics of advertising have and are being well supervised through the work of the Vigilance Committee now known as the National Better Business Bureau. Many of us believe that the positive phases of advertising should be more emphasized under the general designation of the economics of advertising, if you please, and to that end the work of the National Advertising Commission and its specific application in our Club of the Members' General Council is of important value, as you thus see."

BROWN HEADS FLORIDA DAILIES

Group Votes to Establish Office in Jacksonville

Maj. Lew B. Brown, of the *St. Petersburg Independent,* was elected president of the Associated Dailies of Florida at the fifth annual meeting held at Jacksonville, Dec. 5, at which it was decided to continue the co-operative advertising campaign and establish a business office at Jacksonville, with an experienced newspaper man in charge.

Establishment of the business office was made possible through a new membership assessment plan, which the convention approved. Through the office, problems of labor, supply of materials and other matters of common membership interest will be cleared.

A fund of $10,000 was voted to continue the advertising campaign, which is handled by the Lesan-Carr Advertising Agency.

W. A. Elliott, manager of the *Jacksonville Florida Times-Union,* retiring president, was presented a cup as a token of esteem for his work for the association. Clayton Codrington, *De Land News,* secretary, was likewise honored.

In addition to Maj. Brown, other officers named were: Mr. Codrington, vice-president, and Frank P. Beddow, *Jacksonville Journal,* secretary-treasurer.

The board of directors now includes: Mr. Elliott; D. H. Conkling, *Palm Beach Post;* Ross Reeder, *Miami Daily News;* Herbert Felkel, *St. Augustine Record;* Harry Brown, *Lakeland Star-Telegram;* Charles G. Mullen, *Tampa Times;* William Glenn, *Orlando Sentinel;* T. E. Fitzgerald, *Daytona Beach News,* and George E. Hosmer, *Fort Myers Press.*

N. E. ALLIANCE MEETS

Biddeford and Portland Publishers Admitted to Membership

The New England Newspaper Alliance held its monthly meeting at Copley Square Hotel, Boston, Dec. 8, at which time editors of the various member papers were the guests of their publishers.

John A. Lawrence, prominent Boston business man and a member of the recently formed New England council of business men, gave a talk on "Industrial Conditions of New England." Two new members of the Alliance were elected, Julius Mathews, special advertising representative and publisher of the *Biddeford* (Me.) *Journal,* and Guy Gannett, publisher of the *Portland* (Me.) *Press-Herald and Express.*

George Booth, publisher of the *Worcester Telegram and Gazette,* was transferred from honorary to active membership, and Theodore Ellis, former publisher of those papers, was transferred from active to honorary membership.

Frank S. Phillips, manager of the New England Daily Newspaper Association, was a guest at the meeting. Publishers present were Charles H. Hastings, *Lynn Item,* president of the Alliance; Charles L. Fuller, *Brockton Enterprise,* secretary; Albert H. Fuller, *Brockton Enterprise;* Robert Wright, *Haverhill Gazette;* Harry Flint, *Salem News;* Major Frank Knox, *Manchester* (N. H.) *Union and Leader;* William H. Reed, *Taunton Gazette;* A. W. Hardman, *North Adams Transcript,* and Timothy F. Dwyer, *Providence Tribune.*

San Jose Printers Win Wage Rise

Printers in San Jose, Cal., will receive an increase in wages from $46 to $48 a week, retroactive to Jan. 1, 1925, under the terms of an arbitration award just announced by C. S. Heart of Middle West
INDIANA
Throbs with Prosperity

Merchants throughout the middle west report an unusually good business in staples and holiday goods of the better class. November sales are considerably ahead of the corresponding month a year ago. Current wholesale distribution of dry goods likewise is higher than heretofore; road sales are at approximately about the same level as a year ago, but there are many more new customers in the market for all lines.

Unemployment appears to have reached the dwindling point. Railroads say their reservations and inquiries indicate that this winter will break all records for tourist business. This shows that the people have money and are spending it freely.

This report of extremely favorable trading conditions should be cheerful news to the National Advertiser.

Cultivate this ideal market through the Indiana newspapers. They cooperate with you in merchandising this territory.

These daily Newspapers reach the Indiana homes.

HOUSE BILL PROTECTS TRADE-MARKS

Kelly Measure Prohibits Cut Prices for Established Brands as Aid to Preservation of Hard-Won Good Will

WASHINGTON, D. C., Dec. 9.—"One of the greatest needs in American business today is protection of good-will," said Representative Clyde Kelly of Pennsylvania in introducing a new bill, which is said to have the solid backing of substantially all trade associations throughout the country, and is expected to unify support by taking the place of four separate measures on the same subject pending in the last congress.

Although shorter and simpler than any of its predecessors, and differing in some respects, the new bill, through the courtesy of the House organization, was given the same number, at Mr. Kelly's request, as his bill in the last two congresses, and will be known as H. R. 11, reading as follows:

A BILL

To clarify the law, to promote equality therein, to encourage competition in production and quality, to prevent injury to good will, and to protect trademark owners, distributors and the public against injurious and uneconomic practices in the distribution of articles of standard quality under a distinguishing trademark, name or brand.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in contracts relating to the sale or resale of an article of commerce, the genuineness of which is attested by the trade-mark or special brand of any grower, producer, manufacturer or other trade-mark proprietor, who is in fair and open competition, actual or potential, with other growers, producers, manufacturers or owners of similar or competing articles, hereinafter referred to as the vendor, with wholesale or retail dealers, hereinafter referred to as vendees, whenever such contracts constitute transactions of commerce among the several states, or with foreign nations, or with or in any district or territory subject to the jurisdiction of the United States, it shall be lawful for such vendees to agree to resell such articles at the prices prescribed by such vendor and such agreements shall not be construed as against public policy or in restraint of trade or in violation of the Act of Congress of July 2, 1890, or of any of the Acts supplemental thereto. *Provided*:

a) That any such article may be sold by the vendee at a price other than that prescribed by the vendor: (1) if such vendee shall in good faith discontinue dealing in such article, or (2) if such vendee shall cease to do business or shall propose to sell such article in the course of discontinuance of such business, or (3) if such vendee shall have become bankrupt or a receiver shall have been appointed for his business: Provided, That such article shall have first been offered to such vendor by such vendee or his trustee in bankruptcy or receiver at the price paid therefor by such vendee, and if such vendor, after reasonable opportunity to inspect such article, shall have refused or neglected to accept such offer.

b) That any such article which shall have become damaged or deteriorated in quality, may be sold by such vendee at a price other than that prescribed by such vendor: Provided, (1) That such article shall have been offered to the vendor either in exchange for a new article of the same kind, or at the price paid therefor by such vendee, and (2) That such vendor after reasonable opportunity to inspect such article, shall have refused or neglected to accept such offer, and (3) That such article shall be sold to such vendee only with prominent notice to the public that the price of such article has been reduced because it is damaged or deteriorated in quality, as the fact may be.

Mr. Kelly, who has been a vigorous advocate for several years of the principle that public policy of such legislation, in an explanatory statement, said:

'The form of the new measure, as introduced by myself in the House and by Senator Capper in the Senate, is the result of many months' deliberation and conferences with committees of the American Fair Trade League, the National Chamber of Commerce, and many other national organizations, and I am assured it will have the undivided support of all friends of this reform.

'Since 1911, the courts, through their interpretation of the so-called anti-trust laws, have gradually created a situation which is increasingly obstructing and preventing the economic and orderly distribution of identified merchandise by business men of the country who have neither purpose nor ability to constitute a monopoly.

'As a result of such interpretations,' Mr. Kelly continued, "merchants and manufacturers have, against their will, been driven to a state of ruthless, uneconomic and wasteful methods of distribution, which have resulted in vast damage and loss to all branches of our trade and commerce, enhancing costs of distribution and creating a situation not paralleled in any other civilized country.

"The purpose of this legislation is to permit any producer of identified merchandise—that is, trade-marked or branded merchandise—who is in fair and open competition with other producers of similar or competing merchandise, to enter into enforceable contracts which shall protect the public against the use of his advertising good-will and reputation as cut-price bait, and also to assure a living profit to his distributors.

"The purpose of this legislation is to restore freedom of contract, which was the unchallenged right in this country prior to the so-called Dr. Miles' decision of the Supreme Court in 1911, and is today recognized in every other civilized country on earth.

"This legislation will simply restore to the individual manufacturer of advertised, identified, guaranteed goods, the right to protect his reputation and good-will, which depends upon public approval of the price and quality of his product. It will assure a square deal for business and the public."

BILL WOULD ABOLISH U. S. ENVELOPE PRINTING

Rep. Kendall Sponsors Measure on Behalf of National Editorial Association—Called Unfair Competition

WASHINGTON, D. C., Dec. 10.—The National Editorial Association, representative of 15,000 small weekly and daily newspapers, is sponsor for a bill introduced today in the House by Representative Samuel A. Kendall, of Pennsylvania which would modify the Stamped Envelope Law by limiting the printing of return addresses by the postoffice department to a skeleton corner card.

The publishers identified with the Association complain that the Department competes unfairly with them in printing and selling envelopes.

According to statements made here by the publishers, the Kendall bill is based upon the principle that the government has no right to compete with its citizens in business.

The majority of publishers interested in this legislation have job printing plants, and the claim is advanced that the government is in direct competition with them in the printing of return addresses on envelopes. The latest report of the postmaster general says that approximately three billion envelopes were manufactured at the government factory during the last fiscal year.

Kendall says that the bill will restrict unfair competition of the Federal government and is in accordance with the principles advocated by the two major political parties in their respective platforms.

WALSH DINES COACHES

Syndicate Head Host at All-American Dinner in New York

About 50 newspaper men, mostly football writers, attended the All-American dinner given last week at the Hotel Commodore by Christy Walsh, of the Christy Walsh Syndicate. The guests of honor were Knute Rockne of Notre Dame, Tad Jones of Yale, Glenn Warner of Stanford and "Hurry Up" Yost of Michigan, all of whom write for the syndicate. Babe Ruth also attended.

The principal object of the meeting was to select the All-American Football Team for 1925, for which "Pop" Warner made a special trip from San Francisco to New York, and Coach Rockne also made a special trip for that purpose.

The principal program of the evening was a football questionnaire in which the coaches replied to queries from the newspaper writers. Each coach supplied several films taken at his principal games this season, which were shown on a screen.

New Italian Paper at Hazleton, Pa.

The *Flame of America,* an eight-page newspaper edited by E. Arbib-Hauser, has been established at Hazleton, Pa., "for the Americanization and Betterment of Italians." The paper is printed half in English and half in Italian.

The only net paid circulation combination in Baltimore that covers two fields once and whose readers cannot be reached through any other medium, and can be bought either separately or in combination.

THE BALTIMORE NEWS

and

Baltimore American

The other combination sells only in combination and admits an 80% duplication, which means less readers for more money.

Imperial
Serves These Four Newspaper Towers

IMPERIAL congratulates the four great newspapers that call these towers home. These palatial plants of The Miami News, Philadelphia Enquirer, New York Evening Post and Detroit Free Press certainly indicate unusual forethought from the standpoint of both architectural design and provision for future growth.

It is significant that the same wisdom that inspired these magnificent buildings selected the Imperial Plus Metal Plan to take care of their type metal. Such wisdom is ever ready to take advantage of plans that look forward to the future—and that's the backbone of the Plus Plan.

The Imperial Plus Plan provides for the future by taking care of the present. By keeping today's type metal in an efficient condition it prevents tomorrow's troubles and adds years of actual working life to type metal. That's why it is the choice of thousands of publishers large and small. That's why it should be your choice.

Be sure to have the Imperial Representative tell you about the Plus Plan when next he calls.

SILVER FOX SWINDLE ROUSES FRENCH IRE

Newspapers Criticized for Printing Advertisements Which Cost Public Huge Sum

By G. Langelaan

Paris, Nov. 28.—The recent Silver Fox swindle in Paris, where extensive advertising in the press enabled a crook to rake in some hundreds of thousands of francs in a few days, while a remarkable testimony to the power of well-organized advertising, has brought the question of "Truth in Advertising" very much to the fore.

A writer in *Vendre,* a publication devoted to advertising, does some very plain speaking in "An Open Letter to Directors of Newspapers." He says that there is no excuse for them when they try to seek shelter in the assertion that the page of a newspaper is a wall on which anyone can come and stick advertisements. There is a great moral responsibility, the critic poitns out, and the good-will of readers is far too valuable to be lost by the insertion of doubtful advertising.

"Ask yourself, Mr. Manager," he says, "what honest advertisers think of such advertisements, honest advertisers who do not fear to be arrested and who can pass you along good contracts and honor their signature.

"Do you not fear that some day such advertisers will no longer wish to have their wares advertised side by side with the doubtful notices? Do you not fear, too, that, realizing the discredit thrown on all advertising by fraudulent advertisements, these honest advertisers will leave your papers for good and turn towards other means of advertising?"

The article goes on to state that only one paper took the trouble to make inquiry into the *bona fides* of the Silver Fox scheme, and as soon as that paper discovered the nature of the business it at once stopped the advertisements and exposed the whole swindle. The contracts, it is declared, were so big and so tempting that the advertising services accepted them with alacrity, and burned their fingers.

The remedy, the critic points out, is simple, and he holds up as examples America and England.

"You have only to follow the lead of your American and—since recently—certain English colleagues. I mean by this to call attention to the fact that there is in America and in England an organization, the National Better Business Bureaus, Inc., of the Associated Advertising Clubs of the World, which centralizes all information and data about dishonest advertising and advertisers, which undertakes inquiries and warns papers of shady concerns run by crooks.

"A similar organization could be rapidly founded in France, and it is up to newspaper owners and directors to found it."

"THE GREAT GOD RELEVANCY"

Is Needed by Trial Lawyers, Says Heywood Broun, Columnist

Copyreaders for lawyers were advocated by Heywood Broun, *New York World* columnist, in his "It Seems to Me," written last week prior to the close of the Rhinelander trial. Mr. Broun said he once wanted to become a lawyer, but was glad he went into the newspaper business instead. He explained:

"The ethics of journalism seem to me far higher than the ethics of law. And we newspaper men have a god, jealously served, who is scorned by the lawyers. I am referring to the great god relevancy.

"Complaint is made at times that some case or other is being 'tried in the newspapers.' Of course, the phrase is not precise, for if we actually did try cases according to the standards and practices of our craft, they would certainly move faster, and I do not think anything of fairness would be sacrificed in the acceleration."

Missourian Faces Second Suit

A suit for $30,000 has been filed against the *Columbia* (Mo.) *Missourian,* owned by the Missourian Publishing Company and written and edited by University of Missouri journalism students, by Ira L. Davis, city councilman and contractor. It follows a suit for a similar amount filed Nov. 19 by J. E. Hathman, another councilman and contractor. Both actions are based on a news item regarding expenditures in the water and light department.

WEEK'S AD TIPS

Alexander Advertising Agency, 327 South LaSalle street, Chicago. Are putting out general schedules for the Mantle Lamp Company of America, address, Chicago, Ill.

Charles W. Hoyt Company, 116 West 32nd street, New York. Has secured the accounts of the Boston Morris Plan Corporation and the Orange Screen Company, Maplewood, N. J.

Klau-Van Pietersom-Dunlap-Younggreen, Inc., 421 Sycamore street, Milwaukee. Now handling account of the Moline Mfg. Company, auto radiators, Racine, Wisconsin.

Lord & Thomas, 400 North Michigan avenue, Chicago. Making 5000-line contracts with newspapers in various sections for the Cellucotton Products Company, "Kotex," Chicago. Sending out orders and contracts in southwestern territory, for the Jell-Well Desert Company of San Francisco.

C. F. W. Nichols Company, 14 East Jackson boulevard, Chicago. Have sent out contracts and orders in to southwestern territory for the Canadian Pacific Railway.

Picard, Bradner & Brown, Inc., 16 West 46th street, New York. Placing orders with newspapers that have rotogravure sections for the Smokers' Products, Inc., "One-Up" tobacco case, Newark, N. J.

Frank Presbrey Company, 247 Park avenue, New York. Now handling account of the Standard Pneumatic Action Company, makers of Player Piano Actions.

Wm. H. Rankin Co., 435 North Michigan avenue, Chicago. Have orders and contracts going out for three pages of advertising for the Goodrich Rubber Co., Akron, O.

E. P. Remington Agency, 1280 Main street, Buffalo. Reported to have secured the account of the Woods Mfg. Company "Arctic" eiderdown sleeping robes, Ottawa, Canada. Now handling account of the Blackstone Mfg. Company, "Blackstone-Arrow" washing machine, Jamestown, N. Y.

Frank Seaman, Inc., 470 4th avenue, New York. Now handling account of the Economy Textile Company, children's dresses, New York.

Spafford Company, 10 Arlington street, Boston. Reported to have secured the account of Estabrook & Easton, "Rockefeller" cigars, Boston.

Sweeney & James Company, 1632 Euclid avenue, Cleveland. Now handling account of the Pennzoil Company, Oil City, Pennsylvania.

Thresher Service, Inc., 136 Liberty street, New York. Placing page holiday copy for Colgate & Company, Jersey City, N. J.

Frank B. White Company, 76 West Monroe street, Chicago. Has secured the accounts of the Wisconsin Fishing Company, Green Bay, Wisconsin, and the Bickford Baby Chick Hatchery, Oswego, Wisconsin.

Whitman Advertisers Service, 1182 Broadway, New York. Now handling account of the Cereal Soaps Company, soap-derbac, New York.

P. O. DEFICIT SURE DESPITE RATE INCREASE

(*Continued from page 7*)

"The total weight of the mailings of newspapers and periodicals as second-class matter at the pound rates of postage and free in the county of publication during the fiscal year was 1,417,491,573 pounds, an increase of 20,974,728 pounds or 1.5 per cent over the mailings for the previous year. The postage collected on the mailings at the pound rates amounted to $29,617,728.19. This was an increase of $359,473.24 or 1.23 per cent as compared with the previous year. Of this amount $259,506.10 is due to the increase in the weight of the mailings while the remainder, $99,967.14, represents the additional postage resulting from the new rates which were in force during the last two and one-half months of the fiscal year.

"The advertising portions of publications subject to the zone rates mailed during the year weighed in the aggregate 511,946,595 pounds, on which $17,635,046.58 was collected, making the average rate for these portions 3.44 cents a pound. The weight of the reading portions of such publications was 614,620,182 pounds and the postage collected thereon amounted to $9,225,069.63.

"There were 10,006 post offices on June 30, 1925, at which publications were entered as second-class matter. Of the total postage paid at the pound rates 79.04 per cent was collected at the 50 offices having the largest mailings.

"There were received during the year 4,642 applications for the admission of publications to the second class of mail matter or for change in title, frequency of issue, or office of publication, 4,029 being favorably acted upon and 613 denied. During the same period 3,769 publications were discontinued, leaving 28,525 having a second-class status at the close of the year, an increase of 260 as compared with the previous year. News agents' permits to mail second-class matter at pound rates outstanding at the close of the year numbered 1,090.

"A provision of the third deficiency act of 1920 requires the Postmaster General to submit in his annual report information as to the cost to the postal establishment of matter mailed free under the penalty privilege by each department or independent establishment of the Government and the revenue which would be derived therefrom if carried at the usual rates of postage. Pursuant to this provision a count was made during the seven-day period from February 25 to March 3, 1925, both dates inclusive, of the matter so mailed at representative post offices of each class. From the information obtained as a result of this count it is estimated that 492,543,550 pieces of matter weighing 102,999,350 pounds were mailed free under the penalty privilege, the postage on which at the ordinary rates would amount to $14,385,441. The classification of the estimated number of pieces and weight of the mailings together with the estimated revenue by departments and independent establishments which would have been derived from such matter if carried at the usual rates of postage will be found in the financial tables.

"The Postal Service handled during the year, in addition to the foregoing, a large amount of matter from which no revenue was derived. This additional matter consisted of the free-in-county mailings of second-class publications aggregating 69,195,041 pounds."

LIBEL VERDICT GIVEN SPRINGFIELD UNION

Editorial Criticising Court Clerk for Issuing Warrant Too Hastily Is Held Privileged by Jury

For editorially criticising a clerk of courts for issuing "too hastily," a warrant for the arrest of a 72 year old clergyman accused of being the father of a young girl's unborn child, the *Springfield* (Mass.) *Union* was the defendant in a $10,000 libel suit tried in Superior Court at Pittsfield, Mass., on Dec. 6 and 7.

A verdict for the defendant was returned by the jury Dec. 10. It was said in the court house that the jury deliberated less than an hour and a half on the case. The editorial on which the suit was based was held to be privileged.

In the editorial, captioned "Issuing Warrants Too Hastily," The Union, without mentioning the name of the clerk, said that the warrant was issued "apparently on the bare statement of the father of the girl."

Suit was filed in 1922 by Edwin K. McPeck of Adams, clerk of courts in the Fourth Berkshire District, but due to a series of delays the case did not come to trial until the present sitting of the court.

In his complaint, the clerk characterized the editorial as "false, malicious and defamatory." He said he would show that the aged clergyman was accused by the girl, not by her father, that she went to Adams to have a complaint sworn out for his arrest and that he issued the warrant after impressing the girl with the seriousness of her charge. When, in a subsequent accusation, the girl named a young man as the father of her child and The Union editorially criticized him, he said that he was "hurt, bothered and worried."

Witnesses for the complainant were Attorney McPeck, Miss Laura Klippel of Pittsfield, agent for the Berkshire branch of the New England Home for Little Wanderers, and Sheriff Thompson, who was a witness to the complaint against the pastor.

Witnesses for the Union were Maurice S. Sherman, editor-in-chief, Charles G. Kellheur, editorial writer, and Judge Robert Chapin Parker of Westfield, who inspired the editorial by a letter to the editor.

Answering the charge, counsel for the Union contended that the editorial was a document of privilege and that a newspaper is performing public duty in criticism of hasty and ill considered action by court officials.

"We claim that the editorial is not libelous," said Attorney Charles G. Wright in his summary. "Mr. McPeck acted in haste and as a public official is rightly subject to criticism, provided the essential facts are true.

"The editor of the paper considered the issuance of the warrant a mistake and thinks so now. He has no malice toward the complainant. The editorial was a clear cut criticism of the arrest of the clergyman and it had for its purpose the discouragement of any such future action."

"The freedom of the press is a splendid principle," said Attorney Thomas F. Cassidy in his summary for the complainant, "but this is not a government of newspapers, by newspapers and for newspapers. There is such a thing written in the constitution as the right of a man to his own sovereignity, the right of a man to be protected.

"In this case, no telephone was used for information, but the word was taken from Tom, Dick and Harry. The very fact that the Union is a good newspaper makes this editorial all the more damageable. No writer has the right to lie. He must be sure of his facts."

W. J. HENDERSON HONORED

Dean of New York Music Critics Tendered Banquet

William J. Henderson, *New York Sun*, dean of New York music critics, was guest of honor at a banquet held Dec. 7, at the Town Hall Club, celebrating his 70th birthday and 45 years' service as a New York newspaper man. About 50 friends attended.

Addresses of esteem were made by Leonard Liebling, *New York American*; Olin Downes, *New York Times;* William J. Guard, Metropolitan Opera Company; Harold M. Anderson, of the *Sun*; Charles Sawyer, *New York Evening Post*, and Harry Osgood, *Musical Courier*.

"Linotype" Now French Word

"Linotype" has been made a part of the French language. The committee of the French Academy intrusted with the admittance and the rejection of words in the French dictionary it is compiling has admitted the word.

Community Paper Now Tabloid

The *North-West Ledger*, a Chicago community newspaper, has changed to tabloid form. The *North Side Citizen*, another community paper, has changed to Sunday publication.

Florida Paper Now Semi-Weekly

Beginning Dec. 15, the *Titusville* (Fla.) *Star Advocate*, weekly, will be issued semi-weekly, H. H. Hudson, publisher, announced this week. The *Brevard Daily Record*, a tabloid carrying legal news, has been launched by Mr. Hudson and P. R. Porter.

Compiling Publicity Laws

E. L. Skeel, attorney for the Washington State Press Association, is preparing a book of 300 pages of laws pertaining to the publishing and printing business in the state. It is planned to have this book ready for distrbution at the annual Newspaper Institute in March, 1926.

French Edits N. D. Nonpartisan

J. B. French, editor of the *Bowman* (N. D.) *Leader* has been named editor of the *North Dakota Nonpartisan*. He succeeds Gerald P. Nye who has been appointed United States senator from North Dakota.

McLAUGHLIN JOINS CHEW PAPERS

Advertising Manager, Lorain Journal, Now with Xenia Gazette & Republican

J. F. McLaughlin, recently advertising manager of the *Lorain* (O.) *Journal*, has resigned to become business manager of the *Xenia* (O.) *Evening Gazette and Morning Republican*.

The Xenia papers are published by The Chew Publishing Company of which J. A. Chew is president and are affiliated with the *Middletown Journal* and the *Piqua Daily Call*.

Mr. McLaughlin began his newspaper career with the *Erie* (Pa.) *Dispatch-Herald*, serving in the circulation, editorial and advertising departments during a long connection with that paper. He went to the Lorain Journal as advertising manager a year ago after brief connections with Cleveland newspapers. As business manager of the Chew publications he will relieve the duties of Mr. Chew, president and general manager.

New Home for Iola Register

Charles F. Scott, owner and editor of the *Iola* (Kan.) *Daily Register*, has just let a contract for the construction of a new 2-story brick and concrete building to house the Register. The contract calls for the completion of the building by June 1, 1926. The building will be 50 by 100 feet, without basement, and two stories high. Latest improvements for both mechanical and news departments have been provided for in the plans.

Texas Paper in New Home

The *San Angelo* (Tex.) *Standard* has moved from the building which it has occupied for nearly a quarter of a century, to a handsome new structure, just completed. One of the features of the plant, a two-story brick structure, is a balcony, 18 feet wide, across the front of the building from which bulletins can be given out.

Wenige Buys Two Papers

H. A. Wenige, who on Oct. 15, established the *Jeffersonville* (Ind.) *Clark County Tribune*, in conjunction with Walter S. Montgomery, has purchased the *Evening News*, daily, and *Clark County Journal*, weekly, from George H. Voigt. Mr. Wenige has also taken over Mr. Montgomery's interest in the Tribune and is now sole owner of the three papers. He will continue the Evening News as a daily and will merge the Tribune with the Journal as a weekly.

Chambers Succeeds H. H. Howland

D. L. Chambers, vice-president of the Bobbs-Merrill Company, Indianapolis book publishers, has been named editor-in-chief of the company, responsible for the acceptance of manuscripts for publication, W. C. Bobbs, president, announced Dec. 3. He succeeds Hewitt H. Howland, who recently became editor of the *Century Magazine*.

MUSKOGEE, OKLA.

Is known as the Capital of Eastern Oklahoma. It has a population in "round figures" of 40,000, and the Trading Territory of 550,000. It also has 60 diversified industries and large oil and agricultural interests.

SAYS A. P. "100% WRONG ON WORLD AFFAIRS"

Prof. William Orton of Smith College Charges Stories Colored by "Selected Facts" — Kent Cooper Replies

Charging that the Associated Press has been 100 per cent wrong in its selection and coloring of the news in every international crisis since 1919, Prof. William Orton, of Smith College, cited specific instances to support his claims in an address in Springfield, Mass., this week. He termed the Associated Press one of the most autocratically ruled institutions in all the world. About 1,000 newspapers are enrolled among its subscribers, he said, but a group of perhaps 40 control its policies, arbitrarily strangling competition in many cities by refusing its service to would-be rivals.

Discussing the press as the guide and moulder of public opinion, Prof. Orton said that it seldom deliberately misstates facts. "But it is possible," he said, "to select only those facts favorable to some specific policy or purpose, thus coloring the news and creating a false impression in the minds of readers."

"At such times," he said, "you cannot convict the papers of falsehoods; yet the presentation of admitted facts can in itself be made to serve any purpose intended."

This has been specifically illustrated according to Prof. Orton, in recent Associated Press dispatches from the Near East. "The Arabs," he said, "have been described as rebels, and the impression given has been of an irresponsible group in arms against established government. In actual truth, no people were ever more justified in protest and rebellion. They have suffered cruelty at the hands of Western Powers, every promise made them has been disregarded, they were forced to suffer beneath the tyrannical administration of France, but—they are merely rebels in the eyes of the A. P."

"Now, I do not accuse the correspondents in that section of deliberate falsehood. The average good newspaper man does not misstate facts and those in so important a work of reporting would perhaps be above the average in standing and ability. But the success of every reporter largely depends upon his access to the circles where news is in the making and upon his knowing the right kind of people. And because the correspondents know the right kind of people and those they serve cater to the conservative and established elements, the Arabs are merely irersponsible rebels instead of an oppressed people in revolt against long continued wrongs."

"Since 1919," continued Prof. Orton, "the Associated Press has been 100 per cent wrong in its selection and coloring of the news. The most glaring example, probably, was the style in which it handled the Russian situation. Bolshevists, as the Associated Press saw them, were children of the devil, and total destruction of the new system was imminent. This coloring, this interpretation, this 'slant,' surely was 100 per cent wrong, as developments have made plain. But although three years have passed, the A. P. has not changed its attitude, and their destruction is still imminent."

"This false coloring, so obvious in the Russian reports, is being repeated, at least in some degree, in today's dispatches from China. The A. P., ultra conservative, has always the tendency to see things in terms of law and order."

Although ascribing to both American and English press a frequent coloring in their selection of news, Prof. Orton was equally emphatic in decrying any policy of state control. A state information service he also thought would work badly, in that the various branches of government would be inclined to use their publicity departments in furthering their own particular fortunes.

The only present remedy, he thought, is to leave plenty of room for conflict of opinion, in the hope that some way, not definitely defined, there will come an upbuilding and a greater accuracy.

Decisions involving the happiness and future of whole peoples, he said, often come from popular emotion moulded by a press that sometimes misuses its great power of selection.

The Associated Press reported Prof. Orton's address on its wire system, without comment. Kent Cooper, general manager, said to EDITOR & PUBLISHER: "It is news when a student of affairs attacks an institution and we reported Prof. Orton's remarks for what they were worth for the wires. He is badly mistaken in his views of course."

TO HONOR FRANKLIN

A. A. C. W. Asking Member Clubs to Hold Anniversary Meetings

A move to have every advertising club in the country affiliated with the Associated Advertising Clubs of the World pay tribute to the memory of Benjamin Franklin on his birthday, Jan. 17, or during the week in which it falls, is being sponsored by national headquarters of the A. A. C. W. in New York.

Special programs are recommended in a bulletin just issued based on Franklin as patron saint of printing and advertising.

"Franklin the Patriot" is to be the keynote of the A.A.C.W. convention in Philadelphia next June, the bulletin states.

The following topics are among those upon which anniversary meetings can be based: Franklin, Printer; Franklin, Editor, Publisher and Book-Seller; Franklin, "First Advertising Man"; Franklin, "the Edison of the 18th Century;" Franklin, the Scientist; Franklin, the inventor; and Franklin, "Patron Saint of Thrift."

Ochs Named in "Ten Best" List

Adolph S. Ochs, publisher of the *New York Times,* was named in a list of the ten American Jews who have done the most for America, published last week in the *New York Jewish Tribune.* The list was drawn up following a ten weeks' contest conducted by the Tribune. Among the names of the next 20 in popular favor was that of Sophie Irene Loeb, noted newspaper woman on the staff of the *New York Evening World.*

Amen Corner Celebrates 25th Year

The Amen Corner celebrated its 25th anniversary at a dinner Dec. 5, at the Waldorf-Astoria Hotel, New York. Former Gov. Benjamin B. Odell of New York, who was a guest at the first dinner, was present. Forty-four members who attended the first dinner answered the roll called by Thomas W. McGill, secretary of the organization of active and former newspaper men and politicians.

Prints 12-Page Classified Section

The *Rockford* (Ill.) *Register-Gazette* carried a 12-page classified section Tuesday, Dec. 8. The bulk of the section was made up of Christmas Gift Suggestion ads, and the section was issued in tabloid form. Each standard size page made two of the tabloid pages, the size of the small pages being five columns wide by sixteen inches deep. More than a thousand different gift suggestion ads were carried in the edition.

Changes to Financial Field

Following a two-day suspension, the *Buffalo Evening Post* reappeared on Dec. 7, as the *Buffalo Post,* devoting its first page almost exclusively to financial news although Associated Press dispatches were carried in condensed form. The suspension permitted a changing over of style and permitted installation of new wire service, it was said. The paper will hereafter feature financial and investment news.

Staff Back in Rebuilt Plant

Staff of the *Santa Barbara* (Cal.) *Morning Press,* for the first time since the earthquake, is back in its working quarters, following completion of remodeling and repairing of the partially wrecked plant.

Editor's Assailant Gets 30 Days

Bunker F. Ryan is serving 30 days in the Des Moines county jail for his assault upon Tracy Garrett, editor of the *Burlington Hawkeye,* a few weeks ago.

Quincy Patriot Ledger Sued

Suit for $25,000 damages this we was filed against the George W. Pre cott Publishing Company, Inc., publishe of the *Quincy* (Mass.) *Patriot Ledg* by ex-Mayor Gustave B. Bates of th city who charges libel following public tion of a pre-election story Dec. 4, which it was stated that Bates was exer ing his influence on the choice of cand dates for the city council. Bates, wh was mayor of Quincy two years and w defeated for re-election last year, twi before has sued the Patriot Ledger c the same charge, the newspaper havir been victorious in each case.

New Florida Daily

The *Hollywood* (Fla.) *News,* a weekl newspaper, will enter the daily field Ja 1, according to present plans. The Unite Press service will be used. Joseph W Young, the city's mayor, is publisher c the *News.* The city now claims a popu lation of 10,000. The paper is repre sented by the George B. David Compan

NTELLIGENT BUDGETING WILL CURB WASTE

urvey of Marketing Completed by Committee and Will Be Discussed at Hoover's Distribution Conference

WASHINGTON, Dec. 9.—Secretary of ommerce Herbert Hoover, a formidable e of business and commercial waste, ld EDITOR & PUBLISHER this week that considers of "vast importance" the actical steps to be undertaken at the proaching National Distribution Conrence here to check the wastes in marting.

The conference, to be held Dec. 15 and , is expected to draw to Washington e leaders of business and commerce, as ell as of the advertising world.

The results of a survey of marketing astes have just been made public by a mmittee of the conference representave of all classes of distributors which nstitutes the first concerted effort on e part of business "to trace all of the ms of marketing expenses that go to ake up the consumer's dollar ranging om 24 cents in the case of meats to 52 nts in the case of furniture."

The report of the committee, it was so announced by the United States hamber of Commerce, under whose aufices the conference will be held, disoses in sharp outline the difficulties hich are held accountable in the public nd for huge losses and consequent high rices. These are due, the committee ids, mainly to the lack of uniformity d adequate cost records. Robert R. llis, president of the Hessig-Ellis Drug mpany, of Memphis, Tenn., is the comttee chairman.

'Adequate records," the committee says its report, "intelligent budgeting and nning and the adoption of other recogred policies of efficient merchandising nstitute important means of lowering t cost of distribution."

Progress in this direction has been made some of the retail trades, the survey discloses, and to some extent in wholese trades, but information on manufacers' distribution expenses is meager. his the committee attributes to some ext to government restrictions in the past on the interchange of information beteen those engaged in the same kind of biness.

Unprofitable competition is characterial as a burden upon distribution. The tdency of some manufacturers and olesalers to reduce expenses by eliminating unprofitable customers and by reslecting their sales effort to territory ich can be served economically is regarded as one of particular significance.

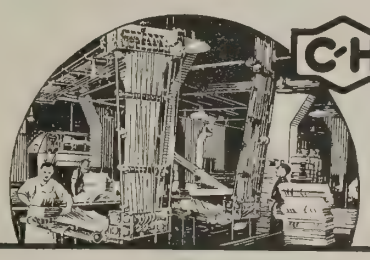
he retailer is absolved of a large part the costs of marketing usually classi- as retailer's expense.

By classifying retail expenses accordg to the extent to which they are under control of the merchant, it is disclosed th in many instances the retailer is reponsible directly for less than 75 per cent the cost of retailing," the report states. hich of the so-called 'services and conences' may be classed as contributory success depends upon the conditions der which a business is conducted. retail furniture stores this expense nore than 11 per cent of the total of doing business; in retail grocery es and hardware stores it amounts to bit 9 per cent ;and in automobile tire accessory stores, 7 per cent. While e costs are confined usually to certain ail establishments, the practice differs egree in different stores and the Comee has found it impossible to approximate even roughly the proportionate cost ese services and conveniences as rel to the total cost of distribution."

tention is also called to the enormous ge due to failures, amounting in the egate to more than $500,000,000.

Canadian Timber Tract Sold

e Bayless Pulp and Paper Company inghamton, N. Y., has sold its Cana- timber tract, consisting of 350 acres e St. Anne's water shed, for a price in excess of $2,000,000. The names of the purchasers, will not be made public until all details of the deal have been perfected. The Bayless company will retain an interest as stockholders in the new company.



Promoting Individual Architecture

The *Santa Barbara* (Cal.) *Morning Press* in furtherance of its platform of "An Individualistic Architecture for Santa Barbara," is giving away $200 in prizes for the best photos of buildings.

New Publishing Group Formed

The Macedonian Tribune Company has been incorporated at Indianapolis, Ind., with a capital stock of $10,000 to do a publishing and commercial printing business.

BUSINESS TICKLERS

IF it's a special edition you want, now is the time to get started on one based principally on the achievements and changes during the first quarter of the Twentieth Century. A thousand and one stories can be written around various comparisons of conditions and other interesting features, and such stories will provide good background for advertising, largely of a similar character.—J. H. A. Kelly, *Times Herald*, Norristown, Pa.

Confectionery stores and restaurants have been closed for substantial accounts by contracting to place them adjacent to the advertising of the theatre which is nearest their place of business. You'll find this is sometimes a clincher when other methods fail.—B. A. T.

The movement towards apartment house construction is at its height and builders are including every novel convenience they can think of. The money invested in this construction in your city compared with the number of two family and single houses they replace make an interesting story. Description of their appointments is good copy. The brokers who handled the bond issue, the general contractor, the sub-contractors, the interior decorators, the furniture store which furnishes the sample apartment, the real estate firm which handled the property, all should advertise at the opening of each apartment house of any size, and in connection with any general apartment house article. Also the architect can be sold on advertising if he can be shown that his copy can be handled with decency to avoid the bugaboo of being "unethical."—G. H. K. Jr.

A barber shop in Pennsylvania recently inserted an ad in the local paper announcing that in the future all shaves and haircuts would be made by appointment only. He explained that this was due to the women invading the shop and keeping the men waiting long periods. The proprietor later reported that this plan worked perfectly and that now no one had to wait and that he was kept busy all the time. Here is a good plan to use in your city, interest your barbers and get some new advertising.—C. E. Pellissier.

The Sunday rural circulation of one newspaper was increased through a plan of "door delivery" to rural subscribers on routes between towns and on main highways. The delivery is made while the bundles are being taken to suburban towns and involves little added time and expense.—B. A. T.

Advertising solicitors—especially those who work on small city dailies—are frequently asked by merchants about the appearance of store windows. Such solicitors can spend a profitable half hour in perusing "Talks on Window Display" (Window Display Advertising Association). Briefly, the book consists of two parts. The first contains talks of general interest on the subject of window display. In the second part may be found a digest of the convention of The Window Display Advertising Association held in Cleveland about a year ago.

B. B. B. CHIEFS MEET

Five Managers Discuss Co-operation Against Fraud in Kansas City

KANSAS CITY, Mo., Dec. 8.—Managers of five Better Business Bureaus met here Monday and Tuesday to discuss closer cooperation and a better working policy between the 45 Bureaus scattered over the United States. Lou E. Holland, president of the National Better Business Bureaus, Inc., met with the managers.

The capacity of the bureaus has been taxed by the growth of investigation work in fraud cases.

State and Federal cooperation is needed and the conference discussed plans to bring about a cooperation between the Bureaus and Federal and state governments.

Managers present included, H. J. Kenney, New York City; Dale Brown, Cleveland; Kenneth Barnard, Detroit; and Ferris R. Miller, Los Angeles. George M. Husser, Kansas City was the fifth manager attending.

HUNCHES

ONE DOLLAR WILL BE PAID FOR EACH "HUNCH" PUBLISHED

MEN are camera-shy, notoriously so, and because of that, a novel feature article can be had from almost any commercial photographer. What men do to delay picture taking and excuses they give to get out of it are often funny. Women and their makeup, children and their antics and some of the tricks photographers play to catch their subjects unprepared in a stiff pose give plenty of material for the article.—A. C. Regli.

At the close of December you may run an interesting story on whether June is really the best month for Dan Cupid. Some statistics show that December furnishes a richer harvest of brides. This may be true in your city. It will be interesting to find out.—C. M. L.

Take the lists of the ten best sellers in the fiction and in the non-fiction field from the *Bookman* or from publishers' bulletins and compare them with the relative standing of the ten best sellers in each class in the principal bookstores of your city. Are your people more or less highbrow? Do they feel more or less need of books on etiquette than the people of the country at large?—G. H. K., Jr.

Christmas will find many strangers within your city no matter how large or small it might be. Being strangers they are likely to find the day a very lonesome one. Any newspaper would be showing a true Christmas spirit if they printed a welcome to these strangers and a list of events going on in your town that might help them to better enjoy the day.—C. E. Pellissier, Boston, Mass.

Present interest in religion makes particularly timely a feature story on unusual and exotic religions in your town. Denver, for example, has a Buddhist church, a peculiar House of David congregation and a small sect living now, according to its belief, in the "last year of this world." What are your colorful sects?—M. S. M., Denver.

A theatre page idea which will give your showhouse notes a bit of local color is one in which the readers are asked what plays they enjoyed best during the past year. Managers will be pleased to give tickets for prize letters.—A. C. Regli.

A special writer for the *Santa Ana* (Cal.) *Register* found material in the city dump for a two column story that attracted much attention. Main heading: "Much Wealth Represented in City Dump." Sub-heads: "Articles Found Among Discarded 'Junk' Proof of Disregard for Thrift"—"Tons of Empty Tin Cans Dumped Daily"—"Percentage of Preserved Foods Eaten by Population Steadily Growing." Practically new articles of clothing and household utensils were mentioned, with suggestion that some agency should exist for getting such articles to people who could use them.—Fremont Kutnewsky.

There's a story and a picture or two in the "automobile potter's field" of your city. Thousands of stripped bodies, tens of thousands of tires, hundreds of piles of other parts in morgue-like orderliness are all that's left of the seven thousand cars a year junked in every big city. The process of junking a car and what becomes of the junk make an interesting story when told by an imaginative reporter.—M. S. M., Denver.

INDUSTRIAL NEW ENGLAND

AN EXCELLENT FOOD MARKET

IN early Colonial days New England was a land of towns. For many years all houses were built within two miles of the meeting house, in order that there might be a centralization of forces to resist Indian attacks. This fact was largely accountable for the rapid growth of industrial centres when the Indian danger passed.

Thirty years after Plymouth was settled trade and manufacture began. The shoemaking business goes back to 1630, when Thomas Beard, an English shoemaker, landed at Plymouth with a small stock of leather and his cobbler tools. Pride in their craft led the bootmakers of Boston in 1646 to ask permission of the General Court to form a large company "so that all boots might be alike made well," pointing out that bad work was done by some shoemakers.

In Colonial days New England fed itself, but agriculture declined as industry grew, and today most of the food consumed is brought in from other parts of the country.

Why not send foodstuffs directly to this market of great food consumers by sales promotion through the daily newspapers of New England?

This List of newspapers thoroughly covers the six states

Selling Musical Instruments in New York

To sell their products in New York, the following advertisers of Musical Instruments used THE SUN during the first eleven months of 1925:

Aeolian Company
*Anguera Piano Co.
*Brunswick - Balke - Collender Co.
*Chickering & Sons
*Columbia Phonograph Co.
Chas. H. Ditson & Co.
Greeley Music Shop
*Hardman Peck & Co.
Hohner Harmonicas
*Wm. Knabe & Co.
Kranich & Bach
Landay Bros.
Mathushek Piano Co.
*Pathe Records
Sohmer & Co.
*Sonora Phonograph Co.
Sterling Piano Co.
Story & Clark Piano Co.
Victor Talking Machine Co.
*Horace Waters & Co.

**Indicates concerns using more space in The Sun than in any other New York evening newspaper.*

THERE are more music loving people in New York than in any other city in the country — more students of music, more teachers of music, more people who can play musical instruments and who are likely buyers of musical instruments.

A very large portion of these people are readers of The New York Sun and for this reason The Sun has proved itself to be a most effective advertising medium for those who want to sell musical instruments in New York.

The most productive market for the advertiser of Musical Instruments of good quality is among people of more than average means and better than average taste and intelligence. Among these people The Sun has a larger circulation than any other New York evening newspaper.

To get full value from their advertising, Musical Instrument houses must see to it that their messages are presented to all members of the family. They must reach the home—for it is there that the question of what instrument to buy and where to buy is usually discussed and determined.

The Sun goes into the homes six days a week—into homes that are receptive and responsive to Musical Instrument advertising.

The Sun's ability to produce results for advertisers of Musical Instruments is indicated by the large number of well-known concerns in this classification that use its columns. It is further evidenced by the fact that The Sun leads all New York newspapers, seven-day morning as well as six-day evening, in Radio Advertising and in Manhattan Department Store Advertising.

GREATEST STORY *of* WOODROW WILSON

DAVID F. HOUSTON'S MEMOIRS

The Memoirs of David F. Houston, ex-Secretary of the Treasury, will be ready for serial publication early in 1926. They are a monumental work of history, biography, and fascinating anecdote, written by a statesman of broad viewpoint and uncommon literary skill.

Among the many notable aspects of the narrative, the most striking is the review of Woodrow Wilson's conduct of the Nation's affairs while he lay desperately ill in the White House.

Nothing comparable to these reminiscences, including the intimate details of the whole Wilson regime until its end, has been available heretofore.

Just a few of the highlights: Bryan's behavior in the Cabinet, Col. House's part, Colby's appointment, activities of Garrison and McAdoo, Lodge's attitude, Mrs. Wilson's task, and the role of Admiral Grayson.

Among the subjects of anecdotes and memories: Roosevelt, Taft, Lane, Hughes, Lodge, Balfour, Harding, Bernstorff, Joffre, Cox, and nearly everybody else who figured in the great events of the decade.

David F. Houston knows more about Woodrow Wilson and the Wilson Administration than any other living man.

He was President Wilson's closest friend in the Cabinet. He saw the President oftener and talked with him more intimately than any other man in the Administration. Others consulted the Chief about their own departments; Houston conversed with him on every subject that occupied public attention.

D. P. SYNDICATE, GARDEN CITY, N. Y.

Colonel Edward M. House Breaks His Long Silence

THE NEW YORK HERALD TRIBUNE has secured the world rights for newspaper serial publication of "The Intimate Memoirs of Colonel House," and will publish them in its columns in the opening months of 1926.

Colonel Edward M. House, confidential adviser of President Wilson, has decided to break his long silence on the events of this historic period. His memoirs will be based on a diary which he kept daily from his first acquaintance with Mr. Wilson, together with letters from statesmen all over the world.

In his memoirs, Colonel House speaks without reservation on many matters of the utmost importance which up to now have remained veiled history.

The actual date of publication in the New York Herald Tribune will be announced later.

Professor Charles Seymour, of Yale University, to which Colonel House has presented all his original documents, is the editor of the memoirs.

AMERICA'S COMPLETE NEWSPAPER

Selling Groceries and Foods in PHILADELPHIA

Philadelphia, having the third largest population in the United States, is an important market for the maker of groceries and food products.

With more than three million people to be fed daily, it offers particularly attractive possibilities to those who seek a concentrated outlet—a market where most of the families live in separate homes and where the food they buy and eat is served on their own tables.

Imagine, if you can, the daily table needs of more than 520,000 separate dwellings, and you will get some idea of the possibilities in store for you if you go after the Philadelphia market.

Send for a free copy of THE BULLETIN ROUTE LIST OF GROCERS AND FOOD DEALERS IN PHILADELPHIA AND CAMDEN. It will be of great help to your salesmen when calling on the trade in this market.

DOMINATE PHILADELPHIA

Create maximum impression at one cost by concentrating in the newspaper "nearly everybody" reads—

The Evening Bulletin.

PHILADELPHIA'S NEWSPAPER

"In Philadelphia nearly everybody reads The Bulletin"

520,072 Copies a Day

Average daily net paid circulation for the six months ending September 30, 1925.

The circulation of the Philadelphia Bulletin is the largest in Philadelphia and is one of largest in the United States.

Vol. 58 NEW YORK, DECEMBER 19, 1925 No. 30

Distributors Find Advertising Cuts Costs, Stabilizes Industry, Aids Production

Distribution Conference Adopts Report of Research Committee Although List of Wastes Is Stressed in Dissenting Remarks of Prof. Wellman—Hoover Emphasizes Broad Economic Research

By J. BART CAMPBELL

WASHINGTON, D. C., Dec. 16.—The economic importance of advertising was given notable recognition at the National Distribution Conference held here yesterday and today under the auspices of the United States Chamber of Commerce.

There has probably never been a greater tribute paid to the integral part that advertising plays in the economic life of the people than that which this representative gathering of business leaders and economists accorded to it as a marketing medium of paramount value to the producer and consumer alike.

The Conference went on record as endorsing the first hand testimony of a large number of leading advertisers as "demonstrating the economic effects of advertising in decreasing the cost of selling of production, lowering prices to consumers, and raising the standard of living."

The following resolution was adopted:

"Resolved, that it is the consensus of this Conference

"(a) That the only safe basis for advertising and marketing plans is an accurate and adequate knowledge of where and what the market is and the means by which it can be reached most economically and effectively.

"(b) That existing wastes in advertising result in large part from lack of marketing information, from unintelligent direction and from poor correlation of advertising with the sale of the product."

The report of the Committee on Market Analysis, Advertising and Advertising Mediums, a summary of which was published in EDITOR & PUBLISHER last week, was adopted.

Theodore F. Whitmarsh, chairman of the Conference, and for the past five years of the Advisory Committee on Distribution of the United States Chamber of Commerce, in referring to this report in his opening address, said:

"A frequently mistaken attitude toward advertising is corrected in the report on that subject which, by numerous examples, points clearly to the economic value to the public of advertising effectively conducted, but the report enlarges also upon the wastes in advertising and suggests in an authoritative manner the methods by which these wastes may be anticipated and nullified."

Six committees were appointed at the first National Distribution Conference held a year ago. Each committee was made up of about thirty business leaders and experts with special reference to their knowledge and experience regarding the subject to which they were assigned. The Conference adopted without change the recommendations of the committees, one to five, but those of the sixth, involving price maintenance and the possible necessity for amending the Sherman anti-trust act encountered divided opinion.

Prof. Harry R. Wellman, of Dartmouth College, provoked considerable comment by taking exception to the report of the Committee on Market Analysis, Advertising and Advertising Mediums by enumerating "wastes in advertising" he contended the report ignored.

Prof. Wellman sought to demonstrate that the report made no reference to "many obvious wastes in advertising" which he cited as follows:

I. Inherent waste due to extreme youth of the advertising business when compared to other departments such as production and finance. No great body of data available.

II. Wastes arising from failure to coordinate sales and advertisng activities arising from lack of understanding.

III. Waste due to lack of adequate records on the part of the advertiser by which he or his agent can rightly fix the approximate places of the various kinds of advertising in the economics of his business.

IV. Wastes arising from failure to follow an established plan of procedure based upon facts, namely, that an analysis of the product, a study of the market and the trade channels used to reach the market must precede sales and advertising planning, and that such plans must realize their dependence upon finance, production, and wise administration.

V. Waste due to a certain type of agency incompetent to act as market advisers, either in advertising or selling.

VI. Specific waste in mediums as follows:

Including costs for forced, high-pressure selling, which may well have developed waste in method and use;

Mediums

1. Waste in magazine advertising arising from increased costs made up of buying circulation upon which to base increase in rates which results in increased pages in the magazine and decreased advertising value per page. (Advertising-Advertising.)

2. Waste in newspaper advertising arising from using materials common to the magazine field and resulting in greater bulk and lesser per page value. (Buying Circulation.)

3. Waste in Direct-by-mail already recognized by the association and an attempt to correct condition already under way, e. g., standardization of size, weight and color.

4. Waste in window display material arising from wrong sizes, weights and methods of distribution, now recognized and being corrected by the current association.

5. Increased value of electric signs, posters and boards if figured in terms of circulation, since the country is now more on the move.

6. Waste in lack of circulation for car cards appearing in rural car lines.

7. Waste in the distribution of cuts, slides and folders because of the failure to appropriate the amount of money annually invested in this material.

8. Waste in the distribution of souvenirs and novelties for the reasons outlined above.

9. Waste now beginning to appear in trade journals in their effort to secure greater circulation, without regard to the field they are serving.

"The elimination of waste and the improvement of methods of production is an infinitely more simple problem than it is in distribution," was the keynote of a masterly address delivered by Secretary of Commerce Herbert Hoover before the Conference.

Mr. Hoover said that in reading the reports submitted to the Conference he had formed the "constant, repeated impression of the lack of fundamental information upon which constructive action can be based."

"In practically every paragraph of the reports, as I read them, there is an almost reiteration of the fact that we need more fundamental information before constructive policies of a far-reaching character can be determined upon," Mr. Hoover added.

He declared what is needed "is more systematic information, better organized information, not of a statistical order, but of a broader economic character in the shape of research." He also urged that "some form, therefore, of continuing action ought to flow from this Conference," and that "if the Conference is to come to real fruition, we do need a definite organization, not particularly to go out and get information, but to make research, and to see that the research facilities of the country are properly developed."

The Committee on the Collection of Business figures was continued by the Conference until the United States Chamber of Commerce can appoint a committee on the same general subject, as this ties in so closely with the work being promoted by the Department of Commerce in the collection of business statistics that it was deemed necessary to have no lapse in this work.

It was unanimously agreed that the functions of wholesaling and retailing both are necessary and cannot be avoided even though these functions might both be filled by someone selling direct to the consumer. The function of the wholesaler is primarily to select merchandise suitable to the retailer's wants in his section of the country, it was emphasized, so as to promote a quick turn-over. If the manufacturer gives the same service to the retailer he must have branch warehouses and really fill the function of the wholesaler.

The middleman, who is often blamed for the high costs of marketing, was declared by L. H. D. Weld, of the Commercial Research Department of Swift & Co. to be "an essential cog in the machinery of marketing."

A resolution was adopted urging com-

WHAT ARE THE GIFTS OF THE PRESS TO THE NATION?

Cold Truth About Public Affairs and Honest Opinions, Says Brisbane, Congratulating the People

EDITORIAL

(*Written Exclusively for* EDITOR & PUBLISHER)

By ARTHUR BRISBANE

THE gift of newspapers to the nation in 1925, 1926 and every other year ought to be the cold truth about public affairs, the news of the day, not colored or adulterated, and honest opinions.

But nineteen or twenty thousand American editors will probably ask, like Pilate, "What is truth?" and, like Pilate, ninety per cent of them will not wait for an answer. Newspapers and their editors do the best that they can, influenced like others by heredity, environment and especially by prosperity.

Ninety-nine per cent, fortunately, are honest and do not listen to the urge or pleadings of any man's money (EXCEPT THEIR OWN). A good many of them, although they don't know it, listen to what their own pocket says most attentively. On the whole the nation is to be congratulated upon its newspapers, for a newspaper is only a mirror reflecting its day. It is, as Schopenhauer says, to history "what the second hand is to a watch," making much of little things. The American press is a good press because it reflects in its columns a good and a powerful nation—with a great deal to learn.

NEWSPAPERS DRESSING UP IN SANTA'S TOGS TO BRING GOOD CHEER

Gift Packs Bulging With Toys to Be Distributed to Sick and Poor—What a Few Newspapers Are Doing

NEWSPAPERS of the United States are "dressing up" these days in the fur-trimmed togs of Santa Claus. Gift packs are bulging with toys to be distributed Christmas day by the generous hands of the daily press. Money collected by newspapers is flowing into tenement houses, rickety and bleak, to care for the crippled and forlorn. Children in every city are shouting with happiness, saying:

"Is there a Santa Claus?—Yes, Sir!"

More than one—there are more than 2,000 dailies in the land.

Here's what just a few of them are doing to make Christmas merry:

In New York, the *Times* Dec. 16, announced that $93,015.23 had been raised for the Hundred Neediest Cases, passing last year's total at the same date, which was $91,601.66. The *World*, at its own expense, is supplying some 1,000 radio sets to crippled and invalid persons of the city. The *Herald Tribune* is sending boys and girls to Christmas trees in the country. The *Evening World* is arranging Christmas parties for children, as is also the *American*, while the *Evening Post* is raising a fund for old couples, the *Mirror* and *News* are giving away large Christmas checks to lucky name winners, and the *Evening Graphic* is planning to have Santa come winging to town in an airplane, bringing gifts to needy children.

The *Evening Journal* has arranged benefit performances of Broadway stage stars to swell its Christmas fund.

A show which dramatizes "The Night Before Christmas" has been put on by the *News* and the *American*, the Hearst papers in Baltimore. Running for several weeks before Christmas, it has drawn large crowds, visitors often being lined up for the distance of a city block waiting their turn to see it.

The whole of the second floor of the Hearst Tower Building in the center of the city where the Hearst organization has its offices has been turned over to the show. Some weeks ago, after considerable heralding in the news columns of the papers, eight reindeers, alive and kicking, arrived in Baltimore and were placed in an enclosure prepared for them on the floor. The names of the deer in Clement C. Moore's famous poem were placed above their enclosure: "Dasher," "Dancer", "Prancer," "Vixen," "Comet," "Cupid," "Donner," "Blitzen."

The deer are the first things seen when the visitor to the show, climbing the one flight of stairs from the street, gets into the "Santa Claus Land". A man dressed as an Eskimo meets the column mounting the stairs and on the right the eight deer move about rolling eyes at the children. Just beyond them is a huge white sleigh, filled with toys. Piles of toys of all sorts and of all the gay colors imaginable are on the floor beside it.

In a workshop eight dwarfs toil over the making of toys, which obviously may be loaded into the sleigh at any moment and carted off to good children. (If the modern child is not too sophisticated to believe that.)

Elsewhere on the floor is a tiny house in and out of which dwarfs move constantly, a fireplace with two small beds near it in which children are asleep. Santa Claus makes many trips down the chimney each day.

As visitors pass over the floor from right to left they come presently to a bridge which lifts them up several feet and gives them a survey of a huge Christmas garden, which includes a lake, a wide sweep of the country in miniature with houses and churches alight, railroad trains and automobiles moving about. There is a big tree gayly decorated.

Under the auspices of the *Kansas City Star*, Mr. S. Claus with his reindeers and trappings was presented to thousands in Kansas City, Dec. 11.

For the night the child population moved to the Star building and streets within a radius of ten blocks. A crowd estimated at 100,000 witnessed Santa's merry procession from the downtown district to the Star building.

The *Kansas City Journal-Post*, in its Saturday morning issue, gave a page one spirited narrative of the big reception for Santa. The Journal also carried pictures.

"The event was so big it bordered on a public event instead of one engineered by an opposition newspaper. It was incumbent upon us in behalf of the children of the city to let them know we also welcomed Santa Claus," Ralph Ellis, general managing editor of the Journal-Post, said.

For two weeks previous to the visit by Santa Claus, the Star provided a department each issue in which letters from children to Santa Claus were published; there were telegrams, radiograms and cable grams from Santa recounting his experiences during his dash southward from the Arctic Circle.

Reindeer provided for the occasion were kept on a farm near Kansas City and were put through their paces by Eskimos. The Eskimos handled the reindeer during the parade while jovial Santa gave his attention to the children.

Following his conquering parade, Santa appeared on a stage on the front yard of the Star's building. There he was presented the "key to the city's chimneys" by the mayor. Santa then addressed the crowd, the Star's microphone also carrying the talk.

The *Corsicana* (Tex.) *Daily Sun* and *Corsicana Semi-Weekly Morning Light* have closed a contract to bring to Corsicana John Philip Sousa and his band of 100 musicians for two performances for Dec. 28.

As a Christmas gift to the poor of the city these papers will give the entire net profits from both performances to the United Charities, the profits from the band promising to be quite a nice sum.

The *Akron* (O.) *Times-Press* has added a new department conducted by Santa Claus, who keeps a "Gift Book," in which are written the names of children asking for toys.

"If any of you boys and girls should forget," Santa writes for the Times-Press, "your name in the Gift Book means that Santa has read your very own letter to him, and is going to try just as hard as he can to bring you pretty toys."

The *Beacon Journal* of the same city asks: "Don't you want to see everybody happy in Akron on Christmas day?" and is raising a fund to supply 100 families with a Christmas basket.

The *Cleveland* (O.) *News* has a "Toyshop" plan, to collect toys and clothing for hometown children, while the *Cleveland Plain Dealer* is giving Clevelandites a chance to play Santa Claus to those who otherwise would have no Christmas. The Plain Dealer prints each day stories about the city's poor, collecting funds to aid them.

The Alias Santa Club has been started by the *Cleveland Press*, to cheer the down-hearted.

Holly Berry, special correspondent of the *Washington Star*, is sending special wireless dispatches daily to that newspaper from North Poleville, Eskimoland. This is a feature prepared for members by the North American Newspaper Alliance. The *Herald* in the Capital City has organized a Kettle Club to aid the Salvation Army raise $4,000, which in former years was realized through kettles placed on busy street corners by the "Sallies."

"Just write us what you would like for Christmas, little reader," advises the *Passaic* (N. J.) *Daily News*, "and we will see that Santa hears about it." The appealing childish letters are published every day.

Buffalo is opening its purse to the fund being collected for the Fifty Neediest Families by the *Evening News* of that city. On Dec. 14, contributions totaled $3,500, or $70 for each family.

Santa will not pass New England by. For the past 18 years the *Boston Post* has played the role, spreading happiness to thousands. A Post Santa Claus Workshop has been opened, where presents are collected, wrapped, and shipped, in answer to specific letters written in childish faith to "Dear Santa."

The jolly St. Nick impersonated by the *Lowell* (Mass.) *Courier-Citizen* was up to his ears in work this week. He wants to raise $3,000 to fulfill promises made to boys and girls nearby. He has one hard task on his hands. A little girl wrote in the other day asking Santa to "please bring something to get the gas out of my aunt's stomach."

"The Empty Stocking Fund" is the creation of the *Providence* (R.I.) *News*, and that newspaper is doing much to fill those of the destitute in its territory. The *Providence Bulletin* is receiving mail from children, and plans to "drop in" on those who write on Christmas Eve, with presents requested.

Other cities than Kansas City and Baltimore are receiving visits from Santa and his reindeer team. Way out on the Pacific Coast the *Los Angeles Times* arranged to have him come to their city, for a tour of local schools. Another team is parading San Francisco streets, brought there by the *Bulletin*. Further towards the north on the same coast, the *Portland Oregonian* is standing behind a "Sunshine Drive" to raise Christmas provender for nearly 1,000 families.

The *Evansville* (Ind.) *Courier and Journal* has a Christmas tree fund, to which, the other day, Prisoner Number 9638 of the Indiana State Prison contributed $2. The fund runs under the slogan "Every Dollar an Invitation," and Dec. 12 had reached nearly $500.

Working in co-operation with the boy scouts, the *Toledo* (O.) *Blade* is collecting castoff clothes and discarded toys to help the unfortunate.

In Toledo also the *News-Bee* is featuring a "bright saying" contest, giving away a dozen Christmas dolls daily.

Sickness, widows struggling to keep their families together, husbands out of work and small children without proper winter clothing are but few of the troubles being alleviated by the "Christmas Cheer Project" of the *Dayton* (O.) *Daily News*.

The *Denver Post* is packing kits for children containing two new sets of underwear, two pairs of new stockings, a fine toy, and the "fixin's," each pack costing $3.50.

The money "will be wisely used," says the *Utica* (N. Y.) *Daily Press*, collecting funds to help Utica's 10 Neediest Families.

The *Albany* (N. Y.) *Evening News*, the *Knickerbocker Press*, and the *Syracuse Herald* have arranged with the General Electric Company's broadcasting station to have Santa talk into the microphone Christmas night. The same newspapers are co-operating on an airplane stunt.

The *Lancaster* (Pa.) *News-Journal* is publishing a true story daily dealing with the need for charity in Lancaster at this season. Money has come in abundance as a result.

Publisher to Dine Newsboys

Willis Sharpe Kilmer, president of the *Binghamton* (N. Y.) *Press*, will be the host to 500 newsboys from Endicott, Johnson City, and Binghamton at a Christmas feast in the latter city on Christmas day. The guests are to include sales and carrier boys of all papers published and circulated in Binghamton.

WHAT ARE THE GIFTS OF THE PRESS TO THE NATION?

Dr. Crane Tells of Newspapers That Are Paving the Way for Real Unity of Thought and Action

EDITORIAL

(Written Exclusively for EDITOR & PUBLISHER*)*

By DR. FRANK CRANE

THE contribution of the press of 1926 to the nation would be difficult to compute.

It disseminates news of course, and news is something that everybody wants to know and the supplying of which is meeting a real want. It has been the most potent factor of democracy, since the foundation of a democratic government is in keeping the people well informed.

By means of the press the slightest thing of interest to the nation or to other nations is recounted for the benefit of the inhabitant.

The press has also of late shown a disposition to realize that people want moral and ethical instruction and to supply this demand.

It has commandeered the best talent and the most expert writers of the world.

It has made itself a medium of communication between the gifted and the multitude.

It has done its share in creating an intelligent public opinion.

It is the fashion to call most of the people morons and subnormal. The press indulges in no such theory. It assumes that the people are wise enough to know their own business and undertakes to give them what they want. This is the truest kind of leadership and is far better than giving the people what they do not want, but what you think they ought to want.

The press is paving the way for real unity of religious belief, of political opinion, and of national obligation.

AMERICAN TOBACCO TO EXPAND AD PROGRAM

Already Heavy User of Newspaper Space Will Increase $2,000,000 Appropriation to that Medium—George W. Hill, New President, Tells Why In Exclusive Interview—"Most Efficient," He Says

BY PHILIP SCHUYLER

MORE money than ever before will be invested in advertising during 1926 by the American Tobacco Company, George W. Hill, the new president, informed EDITOR & PUBLISHER this week.

"According to present plans, the newspaper appropriation will be considerably increased over 1925," he said, in an exclusive interview.

[The Bureau of Advertising of the American Newspaper Publishers' Association has estimated that the American Tobacco Company's 1925 newspaper appropriation was in excess of $2,000,000.]

Mr. Hill was elected president of the huge tobacco concern Dec. 16, succeeding his father the late Percival S. Hill. Junius Parker was named chairman of the board of directors, a newly created office.

Mr. Hill declined to be more specific in regard to the 1926 advertising program, other than to say it was "the most ambitious" in his company's history.

"The advertising appropriation is arrived at by determining the needs of our different brands," he explained. "We decide upon the amount of money to be set aside for advertising investment by a system of careful surveys. Some brands may need a higher percentage devoted to advertising than others."

During the interview with EDITOR & PUBLISHER, Mr. Hill expressed appreciation of the "co-operation and fairness" of newspaper publishers, upheld newspaper advertising as the "backbone" of successful campaigns, dispelled the bugaboo of expense in the use of this medium, and outlined, in general, his own advertising philosophy.

"Every successful brand, which our company manufactures," he said, "has been built up by advertising.

"We believe in concentrating our advertising efforts. Thus it is that of more than 200 brands we control, we only advertise 10 or 12. The 200 unadvertised brands we have acquired through mergers, and continue to manufacture, but do nothing to promote them.

"Our big volume of business is done in about 10 of our brands.

"To obtain the big volume, we depend on newspapers as the backbone of our advertising programs, supplementing them with magazines, billboards, and other media.

"We believe that the newspapers are the most efficient media, whether they are used in localized promotion, or as the basis of a national campaign.

"During each year, we purchase space in some 2,000 newspapers, counting country weeklies. Use of this medium, we have found, is not expensive, when results are considered, and when intelligent use is made of it. We have no complaint to make on the score of newspaper rates.

"To overcome the bugaboo of expense, we admit, careful selection of newspapers to be used in a campaign is necessary. For one thing, it is necessary to follow the simple rule of alternation. For instance, in a city where a morning and an evening newspaper are of equal strength, we do not believe in relying only on one paper, nor do we believe in going to the expense of buying space in both at the same time. We use first one and then the other.

"We have always found newspaper publishers very fair, very willing to cooperate, and always on the alert to make every ethical effort possible to satisfy all advertisers equally, and to deliver value."

Mr. Hill, in speaking of advertising in general, stressed the need of persistency and the value of honesty.

"We realize fully," he said, "that an advertiser cannot start a campaign, run a few months, and expect phenomenal returns. Advertising to be worth while must be done consistently.

"The building of brands is a slow process in our competitive field today. We insist above everything else that our advertising be constantly before the public eye, not only to increase the volume of business, but also as an insurance for the volume already assured."

To explain his point, Mr. Hill cited the campaign for Lucky Strike cigarettes, which is now appearing in newspapers, and which is to continue all through 1926.

"Honesty in copy, we believe, counts even more heavily than volume," he continued. "We try always to tell our story honestly. We do not care for superlatives.

"We instruct our agencies that they are not to say that the brand they are promoting is 'the best in the world.' Rather that the sentiment of the copy should be that the brand is the best we have been able to evolve, but that we are striving always to better it."

Mr. Hill declared that the advertising agency policy adopted by his father in 1919 had proved very satisfactory and would be maintained. This policy provides that the various brands produced by the American Tobacco Company be divided among several agencies, rather than that one agency control the entire account.

From Frank Harwood, advertising manager of the American Tobacco Company, EDITOR & PUBLISHER obtained this week the present agency alignment, as follows:

H. W. Kastor & Son, 52 Vanderbilt ave., New York, handling Bull Durham and Melachrino.

Dorrance, Sullivan & Co., 130 W. 42d st., New York, handling Herbert Tareyton, and Half and Half.

L. S. Goldsmith, 9 E. 41st st., New York, handling Tuxedo Smoking Tobacco.

Lord & Thomas, 247 Park ave., New York, Lucky Strike cigarettes and Blue Board, smoking tobacco.

William H. Rankin Company, 342 Madison ave., New York, Pall Mall cigarettes, Buckingham smoking tobacco, and Sweet Caporal cigarettes.

Harvey & Zoeller, 104 Fifth ave., New York, handling Omar cigarettes.

Regarding the death of Percival Hill, and the election of his son to the presidency, Charles F. Neiley, secretary, issued the following statement to EDITOR & PUBLISHER on Dec. 16:

"At the first meeting of the Board of Directors of the American Tobacco Company following the recent sudden death of Percival S. Hill, its president, the directors unanimously passed the following resolution:

"Without our premonition our president, Percival Smith Hill, was stricken and passed away from earth on December seventh, Nineteen Hundred Twenty-five. The loss comes to us as a stunning and dazing blow. He was the head—by title, and, whatsoever his title, would have been the head in fact, of our organization. He was personally beloved by every member of this board. The shock is too great and too recent for us to realize, much less express, adequately and with precision, our real sense of loss. But we feel that we should extend, without delay, to his bereaved family our respectful and sincere condolence and sympathy:

"RESOLVED:

"That the loss of Percival Smith Hill is a catastrophe to the American Tobacco Company, and to each of us, his friends. That we owe it to the company, to ourselves, and to his memory to minimize, and finally to overcome, the catastrophe to the company but to us, his personal friends, the catastrophe is irreparable. He was able to the point of genius. He was energetic, courageous and resourceful in the conduct of business. He was ever intent on the success of the company and the maintenance of its good name. He was the dynamic—not merely the static or quiescent—friend of every man in his organization.

"We tender, as a body and individually, our heartfelt sympathy to his sorely bereaved wife and family.

"Today, Dec. 16, at the first meeting of the board of directors of the American Tobacco Company following the sudden death of Percival S. Hill, its president, the office of chairman of the board of directors was created and Junius Parker was elected to fill that office; George W. Hill was elected president of the company to succeed Percival S. Hill; James H. Perkins and Donald Geddes were elected members of the board to fill a vacancy already existing and to take the place of F. M. daCosta who resigned.

"Mr. Parker, elected chairman of the board, has been general counsel of the company since 1912 and was for several years theretofore assistant general counsel. Mr. Perkins is president of the Farmers' Loan and Trust Company of New York, and Mr. Geddes is a member of the banking firm of Clark, Dodge & Co.

"George W. Hill is a Williams man and is 41 years old. He has been vice-president of the company since 1912.

"For eight years prior to that he was active in the sales promotion department of the company. After leaving college in 1904 he entered the services of the American Tobacco Company. His first services were in the tobacco fields and manufacturing departments, two years later going into the sales and advertising end of the business.

"In 1912 he was elected vice-president and has been in charge of all sales and general promotion of the company.

"Mr. Parker, the new chairman of the board, is a member of the law firm of O'Brien, Boardman, Parker & Fox. He was several times president of the Bar Association of New York and is recognized as one of the leading lawyers of the country."

WHAT ARE THE GIFTS OF THE PRESS TO THE NATION?

Dr. Cadman Calls Press Leadership in Behalf of a Common National Mind for Peace and Justice

EDITORIAL

(Written Exclusively for EDITOR & PUBLISHER)

By S. PARKES CADMAN

THE outstanding 1925 contribution of the press to the American people has been its generous and timely emphasis upon the essentials of religion. Not in our generation has so much space been devoted to moral and spiritual issues. The things by which men and nations live were widely and correctly reported and editorial comments upon them have been, in the main, helpful and illuminating. The practical effects of this policy are fourfold. It has increased the scale of community efforts of every kind, decreased the bitterness of theological controversy, diffused the intelligence which allays futile conflicts between science and religion and created a fresh sense of news value by the integrity of its information upon disputed matters.

The press can do nothing better for 1926 than promote the growing movement for good will between Roman Catholics, Protestants and Jews. Group strife is the rock on which every great civilization has hitherto split. No such fate need be ours. The struggle between inherited prejudices aided by ignorance and fraternity fostered by the press as the principal medium of appeal should end in one way alone—the way of brotherhood realized in co-operative service.

I send this message after addressing 9,000 citizens of all creeds at Indianapolis. Dignitaries of the Roman Catholic, Jewish and Protestant communions were on the platform. A distinguished Methodist bishop declared the gathering was the most significant he had seen in that city. Its unanimous desire is for the lead of the American press in behalf of a common national mind for peace with justice to all mankind.

Store Takes 19 Pages

The J. Hirshberg Company, McKeesport, Pa., took 19 pages in the *McKeesport Daily News* Dec. 9, to announce the opening of its new store. It was the largest advertisement of one firm ever appearing in one issue of a McKeesport paper, it is claimed. During the week the News printed 168 pages, a local record, it states.

CHARGE MISUSE OF FUNDS

K. C. Journal-Post and Topeka State Journal Accuse State Officials

Acting on evidence they began assembling last September, the *Kansas City Journal-Post* and the *Topeka State Journal* on Thursday, Dec. 10, printed an exclusive story alleging that Fred C. Crabbe, former superintendent of the Kansas Anti-Saloon League, Charles B. Griffith, attorney-general, and Richard J. Hopkins, chief justice of the Kansas supreme court, participated in irregular expenditures of league funds.

The story further charged that Dr. John G. Schaibly, who succeeded Crabbe as superintendent, was removed at a closed door meeting of the league's executive committee because he insisted on making public the alleged irregular affairs.

W. G. Clugston, head of the Journal-Post Topeka bureau, engineered the story from Topeka.

COOLIDGE, DAWES, SUBJECTS OF SATIRE AT ANNUAL GRIDIRON DINNER

Clifford K. Berryman, Washington Star Cartoonist, Named Club President—Brilliant Assemblage of Guests Attends

IN the presence of President Coolidge, Vice-President Dawes, Speaker Longworth, cabinet members and the country's leading professional men, the Gridiron Club composed of Washington correspondents parodied national figures and national, international affairs at its annual dinner at the New Willard Hotel, Washington, Saturday night, Dec. 12.

Clifford K. Berryman

President Coolidge did not escape the good-natured satire, nor did his teammate Vice-President Dawes. The World Court, the French debt, the Mitchell court-martial and economy, all figured in the entertainment. J. Fred Essary, President of the club, who is the chief Washington correspondent of *The Baltimore Sun,* presided.

A club member impersonating Vice-President Dawes in "The Great Cloture Scene from Macbeth," likened him to Shakespeare's Scottish King, with the counterfeit Dawes declaring that once he was "free and roamed through proud Chicago," but now is cabined, cribb'd, confined and bound in 'by' saucy rules and fiendish precedents."

Those senators who opposed his revision of the Senate rules "would squeak and gibber in their leathern seats" before he was done breaking the present rules "with admired disorder." There was a song, too, to the Vice-President which served as an introduction to the speech he made. To the air of a popular song he was warned that "All Alone on the Senate Throne," trying to reform the rules:

"Pretty soon he'll know he had no show,
We told you so, Charley Dawes."

A skit with an alleged historical setting served to make sly digs at President Coolidge under cover of his Massachusetts predecessor of 100 years ago, John Quincy Adams.

This sought to depict a traditional incident in which Anne Royal, publisher of a spicy Washington sheet, was represented as having commandeered President Adams's clothing while he was in bathing in the Potomac and refused to go away and let him come out of the chilly water until he had given her the interview which she had previously vainly sought with him. The opportunity was afforded through this bit of acting to poke fun at the present practice of newspaper interviews with the President.

All the questions asked of the counterfeit Adams, as he stood behind a high rock with only his head visible, were present-day applications of matters of a century ago. When Mr. Adams said he bathed in the river because the White House was dry, the enterprising lady news writer made a note of "no water used in the White House," which produced a protest from the hampered President on the ground that it woud bring the Governor of Pennsylvania down on him again. Exasperated over the course of his interviewer, President Adams uttered the fervent wish that Vice-President Calhoun was in his place, whereupon Mistress Royal noted down: "Wants Vice-President to succeed him." The vehement, "No, no, no!" of the Massachusetts President was obviously meant to apply to Vice-President Dawes.

Unable to control his temper, Adams swore a lusty "By Godfrey," which brought from Mistress Royal the shocked exclamation that she thought the President was a Calvinist, and obtained the admission that Massachusetts and, indeed, the country generally, appeared to be irrevocably devoted to Calvin's doctrines.

Four club members dressed as marionettes, with cords tied to them, gave information as to how the political strings are pulled in Washington. In a discussion as to what a ventriloquist was, it was brought out that Colonel William Mitchell was not a ventriloquist because he could not control his voice, and that Senator Borah was a ventriloquist because he could speak with many voices and make himself say anything he wanted to say.

Early in the dinner the hall was darkened while the club paid impressive tribute to the four members who have died since the last dinner. They were L. White Busbey, Louis A. Coolidge, North Overton Messenger and James Rankin Young.

Clifford K. Berryman, whose cartoons have been a front page feature of the *Washington Star* since 1907, was elected president of the Gridiron Club succeeding J. Fred Essary, of the *Baltimore Sun.*

Other officers chosen were: vice-president, Ashmun N. Brown, of the *Providence Journal;* treasurer, J. Harry Brown, of the *Salt Lake Tribune;* secretary, J. Harry Cunningham; executive committee, Richard V. Oulahan, of the *New York Times;* Arthur S. Henning, of the *Chicago Tribune;* and Robert Barry of the *Philadelphia Public Ledger.*

MAX ANNENBERG HONORED

Liberty's General Manager Leaving Chicago Soon for New York

Max Annenberg, recently named general manager of *Liberty Magazine,* and previously circulation director of the *Chicago Tribune, Liberty* and the *New York Daily News,* was given a dinner by a hundred of his friends at the Belden-Stratford hotel, Chicago, Dec. 10.

For 29 years Mr. Annenberg has been connected with the Tribune Company and to suggest these relations, the dining room entrance was decorated to illustrate his climb from newsboy to the latest position.

Mr. Annenberg will remove shortly to New York where he will establish permanent headquarters.

Speakers at the dinner included Richard Henry Little, conductor of the Tribune's Line O' Type, State's Attorney Robert E. Crowe, and Judge Harry M. Fisher of the circuit court. The toastmaster was S. E. Thomason, business manager of the Tribune.

WHAT ARE THE GIFTS OF THE PRESS TO THE NATION?

Falstaff Sees a Renaissance of Good Printing and Bespeaks Editorial Tolerance

EDITORIAL

(Written Exclusively for Editor & Publisher*)*

By JAKE FALSTAFF

THE newspaper is by inherent nature a gregarious institution. It should represent in its physical and abstract qualities the good things which the human community has evolved and those things which make such a community a pleasant condition of life. A good newspaper thus should possess those qualities which make a man a social being of the best order. This is to say that a newspaper should be well-mannered, gentle, honest, sportsmanlike, brave, well educated, witty, honorable, well-groomed, careful of good taste, solid without being smug, just and above all bland and urbane. Urbanity implies tolerance.

The best gift which American newspapers could give their nation in 1926 would be an advocacy of forbearance by example as well as by preachment. This would entail throwing the light of fearless reason upon pseudo-sacred institutions, by which I do not mean the matters of religion, but the meddlesome and fanatical efforts of paternalists to mingle the insoluble ingredients of society and government.

I am inclined to believe that none of the numerous benefits which the newspapers have initiated in the year which is closing was more important than the realization of the importance of typography. There is a renaissance of good printing, and in this last year the newspapers have most generally taken their part. There will be further advances in this direction. Indeed, there is much room for them, but 1925 was the year of the first general awakening. The value of this gift is greater than ever the most ardent enthusiast of typography can claim.

MUNSEY SERIOUSLY ILL IN N. Y. HOSPITAL

Newspaper and Magazine Publisher, 71 Years Old, Operated on for Acute Appendicitis and Peritonitis Dec. 13

Frank A. Munsey, millionaire publisher and owner of the *New York Sun,* the *New York Telegram,* and a group of magazines, is seriously ill in Lenox Hospital, New York. He was operated on for acute appendicitis and peritonitis, Dec. 13. His doctors hope for his recovery.

On Dec. 16 Editor & Publisher was informed that the noted publisher and business man had spent a very poor night, but had rallied during the afternoon. He was then not yet considered out of danger, although the rally gave cause for considerable encouragement.

Mr. Munsey was taken ill Saturday afternoon and was removed on Sunday to the hospital from his apartment in the Ritz-Carlton Hotel. The operation was performed by Dr. Frank R. Oastler, with Dr. Samuel Lambert present.

Following the operation it was announced that Mr. Munsey stood it well and was resting comfortably. This, combined with the progress he showed throughout yesterday, gives hope of his ultimate recovery.

Mr. Munsey, who is seventy-one years old, was in good health Saturday morning, it was said at his office at 280 Broadway, and was stricken suddenly a few hours after his return to his hotel from a business conference.

Although the nature of his illness makes his condition serious, it was declared that his strong physique, combined with the determination he is showing in his battle for life, are factors which should help him win.

His normal temperature, in the face of the seriousness of the operation, is taken as a particular indication of the satisfactory progress he is making.

CURTIS CUTS A MELON

Seventy-Million Dollar Preferred Stock Approved

Stockholders of the Curtis Publishing Company voted a Christmas present of $70,000,000 this week, by approving the company's plan to increase the preferred stock from 200,000 to 900,000 shares and to distribute these extra shares, worth $70,000,000 among the holders of the 900,000 shares of common stock.

This is one of the largest stock dividends on record, surpassed by the famous 2,900 per cent stock dividend of the Standard Oil Company of Indiana and a few others of the Standard Oil group.

Under the proposed distribution each holder of nine shares of common will get seven shares of the additional preferred.

The company never has reported its earnings, but on the basis of current dividend payments of $16 annually these are estimated in excess of $16,000,000 a year. About three-quarters of the 900,000 shares of common stock is owned by officers, directors and employees.

Former News Man Ordained

The Rev. G. Warfield Hobbs was ordained to the priesthood of the Episcopal Church by Bishop John Gardner Murray of Maryland. The Rev. Mr. Hobbs was formerly editor of the *Baltimore Sunday Sun,* and is now editor of the *Spirit of Missions,* a publication of the Episcopal Church.

New A. P. Members Elected

Newspapers announced this week as elected to membership in the Associated Press include: *Homestead* (Fla.) *Leader; Haines City* (Fla.) *Herald; Dayton Beach* (Fla.) *News; Tallahassee* (Fla.) *Daily State; Bartow* (Fla.) *Polk County Record;* and *Sanford* (Fla.) *Signal.*

IRVIN COBB RAISES PAEAN TO ADVERTISING

Former Newspaper Man—Fictionist, Now "Ad" Writer, Pats Sphinx Club on Back—"American Business Most Honest in World," He Says, While Band Plays "He's a Jolly Good Fellow"

Conrad Massaguer, caricaturist, catches Irvin Cobb being initiated into the Advertising Fraternity

IRVIN S. COBB, Paducah (Ky.) humorist, became serious, or said he was, for a brief moment this week, to raise a paean of praise to "America's advertising honesty."

The former newspaper man, cynic, humorist, and fictionist, who now writes sweet Caporal "ads" was greeted by band strains of "He's a Jolly Good Fellow," when he took the floor, Dec. 15, at the Waldorf-Astoria Hotel, New York, to address the Sphinx Club, oldest advertising society in the world. It was in effect his initiation into the advertising fraternity. He proved the tune appropriate by declaring himself "proud to be a humble novitiate in the noble ranks of advertising men" and recited a fervent advertising credo to a hushed and receptive crowd.

The Sphinx members were holding their 10th annual Christmas dinner with William H. Rankin, head of the advertising agency bearing his name, and Sphinx vice-president, presiding. Other speakers were I. V. Kaltenborn, associate editor of the *Brooklyn Eagle,* and W. S. Crawford, British advertising agent, and member of the British Imperial Economic Commission, created to invest $5,000,000 to advertise Empire goods in England. A surprise was injected into the affair when Charles W. Hoyt, president of the Charles W. Hoyt Company, Inc., New York advertising agency, appeared disguised as Will Rogers and teased those present with good natured gibes in the correct cowboy manner.

Mr. Cobb flashed over the banquet table his usual expert buffoonery with more than usual success, then, suddenly serious, closed with a glowing, and he emphasized a sincere, tribute to business." honesty in America, and the honesty of advertising, the "mouthpiece of business."

"I believe sincerely," he declared, "that the most honest people living today are the business men of the English speaking world.

"I believe further that much of the commercial code of ethics and honor prevalent today in the English speaking world is due to the attitude taken years ago by advertising agencies and journals of this country against false and misleading advertising.

"I believe it is an absolute fact that no reputable business firm will today countenance false or misleading advertising; no reputable agency will handle such advertising; and no reputable newspaper or periodical will print it.

"I believe that a large measure of the prosperity of America today is due to the fact that the public believes in the printed word and is therefore more willing than ever before to purchase the goods that are being advertised."

Mr. Cobb preceded this peroration with specific mention of the American Tobacco Company, by which he is now employed, through the W. H. Rankin Agency, and with a eulogy of Percival S. Hill, the tobacco company's late president. He told how his instructions in regard to writing advertising received from Mr. Hill and Frank W. Harwood, advertising manager, had been to be "simply on the level."

"They say," he continued, "that the greatest successes in business may be measured by the length of an individual's shadow. I think the American Tobacco Company is the elongated shadow of one who has just passed over into the realm of shadows—Percival S. Hill, who, when he lived, was a splendid example of business and advertising honesty."

The Paducah, Ky., sage had commenced his after-dinner-speech in a far different mood.

"I used to read the ads," he began, "and believe them; but now I write them. I salute you, not as a former victim, but as a fellow-conspirator.

"It seems to me that when I read the Arabian Nights, and the tale of Ali Baba, the reference was to 40 thieves. The 40 thieves I see, have spawned and procreated."

The humorist presented Sphinx members with an excellent lesson in after-dinner oratory. He told one after another of his favorite stories, insisting that the fact he had been assigned a definite subject was the fault of the dinner committee, while "branching off from it, is entirely my own idea.

"If I were offering advice to advertising men," he said, "as an amateur, I'd say the chief essence, the first objective to be arrived at, is a convincing candor, honesty, and sincerity.

"I would like to see all advertisements as candid as the one I once read in the personal columns of an Australian newspaper. This advertisement, signed 'Mrs. John Mahaffey' read: 'If John Mahaffey, who 18 years ago cruelly and wilfully deserted me and his baby son, Michael, will return, Michael will take pleasure in knocking Hell out of him.' "

But, he added, that if he were to attempt to stand before these advertising men and tell them how to run their business, he would feel "like a man who had stolen one ride on a Staten Island ferry trying to tell Capt. Kidd how to run a pirate ship."

Mr. Kaltenborn, the next speaker, described America as "a brief epitome of the world, reaching out to all the world, encompassing every land, everywhere. But, he said, Americans have not grown up enough to realize their influence and power.

"America is today being called upon to play a great role," he said. "Our country is today the land of destiny, and upon it much depends. It must be a generous America that goes off into the other nations of the world.

"Our prosperity is known everywhere. Elsewhere there is bitter struggle and need, breeding a feeling of jealousy, of envy, and of wonder. It behooves us to do what we can to allay that envy.

"We must go forward, not in isolation, but hand in hand with other lands, realizing our obligations."

The third speaker, Mr. Crawford, had been in this country for about a week on a secret visit, and his name was not on the program. He declared that statistics telling of England's deplorable condition at the present time were true, but insisted that statistics did not count as much as the spirit of the men of Britain.

"The plight of England is serious," he said. "That much is certain. The statistics given by George Harvey are true, every one of them. But statistics do not mean everything. They do not prove the spirit of men. In that the English are young, not old. They have vision and determination and they learned that from you. We are a little bit oppressed, a little bit anxious, but the spirit of Englishmen is rising every day."

Mr. Crawford said that the British Government was mindful of the situation and was working hand in hand with trade to restore commercial prosperity. The formation of the Imperial Economic Committee, he pointed out, with the object of promoting the sale of British made articles, was in line with this policy.

Even members of the press table were fooled by Charles Hoyt and his impersonation of Will Rogers. He joshed advertising generally and some advertising men present by name, and then closed with the following original bit a verse, a Kipling parody:

When earth's last picture is painted
And the type is all twisted and pied,
When Crisco and Kodak and Nujol
Are names that long since have died;
When Yuban and Biflex and Lysol
Are dead in the grave with Old Dutch;
When Aunt Jemima's skin's "like a school girl's"
A skin that you all love to touch;
When Smith Brothers' coughdrops are flavored
Like something you taste in a soup;
When Victrola makes love to Nabisco
And Prince Albert knocks Muriel for a loop;
When Packard and Hudson and Jordan,
And all other cars drop out of sight,
And Texaco, Socony, and Veedol
Bid Goodrich and Goodyear goodnight—
We shall rest, and God knows, we shall need it,
And forget who invented a name;
And though ad-men will long since have perished,
The Sphinx Club will go on—just the same.

At the speakers table were: A. S. Bullock, *London Daily Mail;* Hewit H. Howland new editor of the *Century Magazine;* W. Frank McClure, chairman of the National Advertising Commission of the Associated Advertising Clubs of the World; G. T. Hodges, of the Munsey Company; Charles C. Green, president of the Advertising Club of New York; C. A. Penn, vice-president, of the American Tobacco Company; Howard Davis, business manager of the *New York Herald Tribune;* and Conrad W. Massaguer, caricaturist, now drawing for the D. P. Syndicate.

W. H. Rankin, who presided at Sphinx Club feast

WHAT ARE THE GIFTS OF THE PRESS TO THE NATION?

Baer Makes Brief Yet Classic Appeal for the Truth—Now and Forever

EDITORIAL

(*Written Exclusively for* EDITOR & PUBLISHER)

By ARTHUR "BUGS" BAER

THEY say that only a hair divides the false from the truth. The best gift that the press could give to the nation would be to allow that hair to grow until it is a full beard.

GENEVA PRESS CONFERENCE IDEA GAINS ADDED SUPPORT IN U. S.

Roy Howard, Chairman of Scripps-Howard Newspaper, "100 Per Cent in Favor"—Magee and Harrison Approve Plan

EDITOR & PUBLISHER *received during the week the following letters approving the general idea of an international press conference under the auspices of the League of Nations:*

By Roy W. Howard

Chairman, Scripps-Howard Newspapers

I am one hundred per cent in favor of the idea of an International Press Conference at Geneva under the auspices of the League of Nations. No country should be more interested in this proposal than our own. No country is so well hated abroad—unjustly. No country is so much in need of having its case *honestly* stated to the people of other nations or has more to gain by a freer transmission of news nationally.

My faith in the strength and the power of journalism is too great to permit of any fear that the proposed conference might result in any curtailment of or the weakening of the power of the printed word.

The first step necessary to the creating of a truer and a better understanding of America and her objectives in the mind of foreign peoples must come through opening the minds of foreign journalists. These minds are closed now against us—against the facts about us.

A Geneva conference properly handled so as to attract the interest of the right type of men could accomplish results otherwise unattainable.

But endorsement of the idea should be predicated upon assurances that the selection of men for the first conference will be wisely made.

Certainly those chosen should be active journalists of demonstrated vision and proven interest in world problems. The selection should not be based on social position, financial standing or reputations as after-dinner speakers or chronic committee men.

Doubt must exist as to the wisdom of limiting the original conference to so small a committee as ten or twenty. Four or five men would be needed to adequately represent the views of the divergent interests of the American Press. Fully as many will be required from Great Britain, and France and Germany would probably want at least two or three. But I do not think that a committee of even as many as forty would be unwieldy, and I believe that its agenda would be more acceptable and would arouse wider interest than a program prepared by a committee so small as to create a suspicion that it might have been hand picked.

By Walter M. Harrison

Managing Editor, *Oklahoma City* (Okla.) *Daily Oklahoman*

I am in favor of every contact conceivable in the development of international relations.

Consequently, I believe that the creation of an international technical press committee to cooperate with the League of Nations in the organization of peace would be a forward step.

Get the editors of the world to work ing on common problems and you have opened another door toward International cooperation, which is coming, surely.

By Carl C. Magee

Editor, *Albuquerque* (N. M.) *State Tribune*

On the broad question involved it is safe to say that the press of the world can keep the peace of the world if it, with any unanimity, wishes to do so. The problems are, (1) to make it desire to do so and (2) to establish conditions which will entitle it to desire to do so. "Peace at any price" as a slogan will awaken small response from men actuated by principle rather than sentiment. However, I will go so far as to say that the newspapers of the world can compel conditions which will entitle them to desire to preserve the peace of the world.

What is needed is an international consciousness among the editors of the world. While their consciousness is nationalistic they never will lead the people toward permanent peace. A beginning of the development of that international consciousness can be made by the route suggested. International editorial contacts and familiarity with the other fellow's problems will breed sympathy, toleration and understanding. This ought to be a communicable contagion back home.

Of course anything smacking of a League of Nations domination of the press is unthinkable. But it also is impossible and therefore not to be feared.

Propaganda in news wouldn't do and an effort to do it wouldn't work. But facilitating fair League news, backed by an editorial desire to make the reading public internationally-minded and therefore internationally interested, would do the work in ten years in my judgment.

I strongly favor making the try. I believe the world's leading editors have the brains and the conscience to make it work in spite of the difficulties in the way. It is the greatest challenge to the world's newspapers which the mind of man has ever formulated.

BEAZELL RE-ELECTED

Continues As President, Newspaper Men's Benevolent League of N. Y.

William P. Beazell, assistant managing editor of the *New York World* was re-elected president of the Newspapermen's Benevolent League of New York, at a meeting held recently at the Newspaper Club.

Others re-elected to office were First vice-president, Charles E. Seelig, *New York Herald Tribune;* second vice-president, Joseph Endler, *Herald Tribune;* Secretary-Treasurer, Miles Bath, City News Association; Board of Directors, Joseph A. Butler, World; Peter L. Campbell, *American;* Arthur F. Corrigan, City News Association; James A. Slear, *Times;* John H. Gavin, World; Harry D. Kingsbury, Herald Tribune; Francis J. O'Connor, Times; Robert H. McNamara, World, and James A. Doherty, Times. James E. Lewis, World, was elected to the office of third vice-president; Henry Kurtz, Times was elected assistant secretary-treasurer, and Forrest R. Trafford, *New York Commercial,* and Meyer H. Shapiro, *The Billboard,* were appointed to the Board of Directors.

Plans were discussed for an annual celebration at some time in the near future.

A. P. Opens New Printer Circuit

A new printer circuit from Atlanta, Ga., to Miami, Fla., serving ten newspapers in the morning and evening fields, was opened this week by the Associated Press. The A. P. now has 15 printer circuits. A recent addition was between Louisville and New Orleans.

MOORE HEADS AD CLUB

Agency President Victor for "Reds" in Fort Worth Election

Following an almost "heated" campaign between the "Reds" and "Blues," Carroll S. Moore was elected president of the Fort Worth Advertising Club at the regular meeting Dec. 9. Mr. Moore succeeds Fred M. Garrett.

The club in an effort to stir up more interest in elections, has two nominating committees, one called Reds and the other, Blues. Each has a full set of nominees for each office. Campaigns are conducted for each nominee and by election time, the campaign has assumed almost political battles. All is in fun, but it creates more interest, larger attendance, and as a member must have his dues paid up prior to voting, it helps the club get the money.

Mr. Moore is head of the Moore Advertising Company. He was a delegate to the London and Houston conventions, and will attend the Philadelphia convention in June. He believes Texas advertising people will have a big All-Texas Special train to the next convention.

For a number of years, Mr. Moore was associated with the *Oklahoma City Daily Oklahoman and Times* holding various positions from reporter to assistant managing editor.

News Men on Ambushed Train

Tiffany Blake, editorial writer for the *Chicago Tribune,* is now on the list of Tribune men including Robert Lee and Floyd Gibbons, who were on the spot when the "big story" broke. Travelling in China Mr. Blake and his wife happened to be on an international train Dec. 12, going from Pekin to Tientsin, which was fired on by one of the armies participating in China's Civil War.

WHAT ARE THE GIFTS OF THE PRESS TO THE NATION?

Ted Robinson Would Have Editors Arouse Public From Indifference to Affairs of Government

EDITORIAL

(*Written Exclusively for* EDITOR & PUBLISHER)

By TED ROBINSON

THE greatest gift of the American newspaper to the public during the year just ending has been, I think, its one increasing purpose to give the truth unbiased by partisanship. A really distinct advance has been made in this fashion of letting the unedited news speak for itself; and the editorial deductions are more fair-minded than ever before, no matter what the political complexion of the paper may be.

The best gift the papers can make to the public in 1926 will be to make people understand the grave and immediate necessity of acting on the information they receive. The growing indifference of the electorate to questions of the greatest national importance is the real danger that confronts the nation. When a city of 300,000 voters casts but 50,000 votes in an election where questions of vital importance are being decided, there are breakers ahead. We grow fat and lazy. If we do not awaken to this condition, we are doomed.

It is up to the newspaper editors of America. Take concerted action on the most effective means of keeping this thing before the people. Find out how to make the alarm do its work. If you succeed in awakening a radio- and automobile-absorbed people to their immediate responsibilities in government, you will have made the greatest gift to the public that can possibly be made.

FINANCING COMPLETED FOR CLUB BUILDING

Underwriting of Issue Will Enable Construction to Start Soon for National Press Building in Washington, D. C.

With the sale of $5,000,000 first mortgage 6 per cent sinking fund gold bonds, financing was completed in New York, Dec. 14 for the National Press Building in Washington, D. C. Purchasers were P. W. Chapman & Co., Inc., Blyth, Witter & Co., and White, Weld & Co. The underwriting of this issue will enable the National Press Club, which will own and operate the building through the National Press Club Corporation, to start construction work soon. The bankers plan to offer the bonds for public subscription this week.

An issue of $1,600,000 general mortgage 7 per cent. bonds of the Press Club was sold by another banking syndicate last week.

The first mortgage bonds, which will be secured by a first lien on the land and buildings owned in fee, will, it is expected, be priced at 99½ and interest, to yield over 6 per cent. The bonds mature in 1959, but through sinking fund provisions the entire loan will be paid off prior to maturity. For sinking fund purposes the bonds are callable on thirty days' notice at 103 and interest to and including Dec. 1, 1936, and thereafter at 102 and interest.

The value of the land upon which the building will be erected, at Fourteenth and F streets, N. W., has been appraised by John B. Larner, President of the Washington Loan and Trust Company. Mr. Larner placed a combined value of $9,276,747 on the land and building. Net earnings are estimated at $830,000 a year. Applications for space for publishers, news services and correspondents' offices are already more than sufficient to fill the building, it is said.

In connection with the completion of the financing, the personnel of the National Press Club Corporation was made public. John Hayes Hammond is President and John Joy Edson, Treasurer of the National Geographic Society and of the Chamber of Commerce of the United States, is Treasurer. The directors include: Edward B. McLean, president and publisher of the *Washington Post;* Henry L. Sweinhart, President of the National Press Club; James William Bryan, Washington publisher; Arthur S. Henning of the *Chicago Tribune;* Robert V. Fleming, president of the Riggs National Bank of Washington; L. C. Probert, superintendent of the Washington Bureau of the Associated Press, and other publishers, financiers and executives.

HAL R. YOCKEY DEAD

New Orleans Executive Well Known In Newspaper Promotion Field

Hal R. Yockey, 44, head of the promotion department of the *New Orleans Times-Picayune,* died Dec. 12. He had been associated with the Times-Picayune for 14 years as reporter, city editor, director of national advertising and promotional publicity.

Newspaper merchandising of national advertising was elevated to a high standard by Mr. Yockey and in 1921 his merchandising work was recognized by the National Association of Newspaper Executives by special mention following a study of this subject.

Mr. Yockey was the author of "First Market of the Prosperous South," the most comprehensive book ever compiled on this subject for the use of market analysts and space buyers, published by the Times-Picayune last year.

The deceased was at his desk on the day before his death. He was born in Harrisville, Ind., and engaged in newspaper work in Indianapolis, Oklahoma and Memphis before coming to New Orleans. Mr. Yockey is survived by his mother, Mrs. Frank Price, of Richmond, Ind., his widow, who was Miss Jeanne Gareia, of New Orleans, and two sons.

TRAIL BLAZERS OF ADVERTISING

Advertising a Mexican Bullfight

Chapter XII

Mexican Thieves' Market

(Continued from last week)

IN the olden days among these piles of junk could be found fine old brass and silver candlesticks; quaint, massive Spanish locks with keys a foot long; beautifully wrought bronze knockers, daggers and swords with handles inlaid with gold and set with brilliant stones; picture frames of beaten gold; fine paintings on ivory copper or canvas; rare editions of old books and other treasures to set the collector's blood on fire.

Then there were such things as jade idols, old copper bells, rare old china, beautiful fans, exquisite Spanish lace mantillas, embroidered shawls and scraps of Church vestments and relics of all the wars of old Mexico.

These treasures as a rule were to be found only by digging around in heaps of junk. It was a great adventure to uncover some of these treasures and then to spend hours dickering for the possession of it.

But strange as it may seem the old "Thieves' Market" of Mexico was ruined by too much advertising. Through the wide publicity given its treasures by American tourists, the prices shot skyward. Twenty years ago it was possible to buy there treasures worth hundreds for two or three dollars. The market became so generally patronized by American tourists that the "merchants" soon learned to charge high prices for the treasures he discovered covered with dirt and cobwebs.

Sunday morning was the time when the "gringos" crowded into the market and the Mexicans swarmed after them to see what the "suckers" bought. The pickpockets were always there in full force getting what the thieving merchants failed to get.

One widely advertised fact was, that if you lost anything in the city of Mexico you would surely find it in the "Thieves' Market." The servants around the hotels and boarding houses did a thriving business stealing from tourists, who were then directed to the "Thieves' Market" to buy back their lost articles. It was a very foolish thing to have the thief arrested because the tourist would be obliged to spend about 30 mornings in a court room filled with unwashed, unfragrant peons, and to drag all his friends there a dozen or more times to prove ownership of the article.

The best plan was to make whatever bargain he could with the "merchant" to buy back his own property. Thus did the "Thieves' Market" thrive through this kind of advertising, and thievery went unpunished. Petty stealing was so common in Mexico that it was looked upon as a necessary evil.

The "Thieves' Market" was destroyed by fire about 20 years ago, no doubt an advertising stunt previously arranged by the "merchants." The newspapers were filled with stories of the "treasures" damaged by the fire, and the "merchants" did a thriving business as a result of this advertising. Immediately after the fire the heaps of junk were again piled in the alley-ways, and the "merchants" were doing business as if nothing had happened.

Chapter XIII

Advertising a Mexican Bull Fight

IN the days when El Paso was the Monte Carlo of America; when the whirring roulette wheels openly clicked to the tune of thirty millions or more a year; when New Mexico and Arizona toted guns and considered gambling a legitimate business, the bull-rings in Ciudad Juarez, Chihuahua and Mexico City were advertised colorfully and loudly.

Pictures of the bull-ring, with a matador killing a bull were used in highly colored circulars to insure the right visual result.

These old bull-fighting circulars were advertising masterpieces in picturizing those bloody events.

In that quaint old city of Juarez, Mexico, just across the Rio Grande from El Paso, the bull-fights, in all their exciting splendor were shoutingly, screamingly advertised in connection with the fiestas celebrated by the natives.

The large bull-ring was advertised as an attraction more important than the old church of Guadaloupe erected in 1549. There were a thousand and one sights advertised to the hosts of tourists who visited the old city, but the bull-ring stood first in the attractions of the old town. also true of Mexico City and Chilhuahua.

In my scrap book of interesting old advertisements I find pasted this clipping over one of these shouting, yelling screaming "Bull-Fight" ads:—

"BULL-FIGHTER GORED BEFORE THOUSANDS

El Paso, Texas, Jan. 12.—Before more than 5,000 people yesterday afternoon Francisco Matilero, famous Spanish bullfighter, was pinned against the wall of the pit at Juarez by a ferocious bull, both legs broken and horribly torn.

When rescued he was dying."

The next day the crowd was larger.

Advertising added to the inherent lure of bullfighting in Old Mexico—brutal spectacles of blood and courage.

Here was where advertising a tragedy paid. The kind of people who responded to bull-fight advertising, were the kind who stood in their seats and gave expression of their wild delight by savage yells and howls. The cry of the crowd was for blood. Either that of the man or the brute. It did not matter which.

This element of danger, tragedy, death, made bull-fighting advertising the most spectacular, and the most dramatic, ever known on this continent.

I have in my collection a striking bull-fight poster, printed in green with the Mexican national color emblem of red and yellow. It is illustrated with the pictures of five matadors, dressed in all their gold and lace embroidered costumes. It reads:—

THE MEXICAN BULL-RING

Company of Ramon Lopez.
Great Extraordinary fight in honor of the Spanish Sailors of the Nautilus.
For the afternoon of Sunday,
March 8, 1903.

If the weather and the permission of the authority do not hinder, there should fight

8 MAGNIFICENT BULLS
4 SPANISH BULLS
from the ranch of
MR. JOHN MANUEL SANCHEZ
near Carreros, Salamanaca
Colored varying black and white
and
4 BULLS FROM SANTIN
property of
MR. JOSE JULIUS BARBABOSA
near Toluca
Colored varying blue, white and red.

PROGRAM

1—One Spanish bull which will be speared in the Spanish manner by the skillful rider and popular picador, Jose Bayard "Badila," and if it should not die by the spear, it will be stabbed by the matador, Antonio—Haro—"Malagueno"—

2—One bull from Santin, which will be pricked and then banderillas will be stuck in its neck by the brave picador, Mecicano Arcadio Reyes, on horseback, and will be killed by being stabbed by the aforesaid matador.

3—6 Bulls, 3 Spanish and 3 from Santin in ordinary combat which will be fought by the following:

Fighters

Picadors—Jose Bayard "Badila," Pedro Navarrete "Cantarito," Fernando Martinez, Jose Vega "Arriero." Jose Calleja, and Arcadio Reyes.

Swordsmen

Charles Borrego "Zocato," Antonio Reverte Jimenez, Manual Jimenez "Chicuelo."

The throwers of the banderillas—Jose "Blanquita," Enrique Merino "El Sordo," Galea, Manuel Blanco, Candido Munoz, "Pulga de Triana," Enrique Perez "Perdigon," Jose Antolin. Puntillero—Enrique Tovar. Director of the change of luck—Fernando Gutierrez "The Child."

The fight will begin at 3:30 sharp. The doors of the ring will be open two hours before.

This company, in order to give greater prestige to this fight has not omitted sacrifice to organize it with the best elements as much in the case of the men as in the bulls, and it is sure that the public will know how to appreciate it.

Important notice—If through misfortune any skillful rider should be severely injured during the fight you will not be able to demand another. If the fight should be stopped after the death of the first bull, there will be returned half of the amount of the ticket; after the death of the second, nothing will be returned. If the fight should be stopped through some unpreventable force, there will be returned the entire amount of the tickets at the places where they were sold. It is strictly prohibited to be between the barriers, as it is so to go into the ring. There will be put out of the plaza and given to the proper authorities anyone who draws any banderilla or other things from the bull. The doors of the plaza will be open at 1:30 in the afternoon. Tickets which are not stamped by the Municipal Administration and by the Company will be worthless. It is prohibited to throw into the ring any kind of objects which can injure the fighters. All of the crowd ought to keep the coupon which is attached to the ticket in order to have the right to claim the amount of their entrance money in case the fight is stopped. The entrance of all persons in a state of drunkenness is prohibited, as is also the introduction of intoxicating drinks. If, after the bulls in reserve have been brought in, they will not fight, they will not be returned to the corral; but after the banderillas of fire have been put in them they will be stabbed by the swordsman to whom they correspond. The persons who have private seats will please go to return them to the office of the Company, 22 Independence street, where they will have them reserved until the Saturday before each fight and until five in the afternoon from the day on which they are put on sale. No one can leave and reenter the plaza.

After the bull has taken in all regularity three spears, he can't be required to leave the ring. If any bull should be killed in the fight, he will not be replaced by another one. Article 32 of the Regulations:

The public should notice that it can't demand more bulls than those announced.

Two bulls will be held in reserve.

(Continued next week)

SOUTH AMERICAN NEWSPAPERS PROSPERING

Karl Bickel, U. P. President, Back from Three Months' Tour Reports Many New Buildings Completed or in Process of Construction, and Much New Equipment Arriving—Tacna-Arica Dispute Is "Big Story" of the Day

THE "big story" in the South American press today is the news of the Tacna-Arica plebiscite commission hearings, now being held at Arica with General Pershing as chairman, declared Karl A. Bickel, president of the United Press Associations upon his return from a three month tour of that continent this week.

Feeling is very tense in both Chile and Peru, he stated and General Pershing, who is representing President Coolidge as the arbitrator, and whose work is to supervise the plebiscite is facing a task that is calling upon all his reserves of diplomacy and tact. Pershing arrived in Arica in August and it is not expected that the plebiscite will be held until some time in April.

The two provinces of Tacna and Arica, owned by Peru until 1880, were captured by Chile during the war between Peru, Bolivia and Chile in 1879-1880. The peace treaty provided that a plebiscite should be held in ten years to determine what the ultimate nationality of the provinces should be. For various reasons the plebiscite was never held. As a result a bitter issue grew up between Peru and Chile and apparently war was inevitable when the matter was submitted to President Harding for arbitration. Following his death, President Coolidge, as arbitrator, ruled that a plebiscite should be held under the auspices of a commission made up of Chileans, Peruvians and under the chairmanship of General Pershing. About 7,000 inhabitants are entitled to vote. A great deal of bitterness has been aroused of late in both countries in regard to the difficulties facing the commission in agreeing upon a modus operandi for holding the plebiscite.

Regarding general newspaper conditions in South America and United Press activities in that country, Mr. Bickel made the following statement:

"The past year has been one of unexampled progress and expansion for the United Press in South America. The United Press is now serving over 90 per cent of the important daily newspapers of the large cities of South America.

"Primarily I went to South America to visit our bureaus on that continent in company with James I. Miller, our South American general manager, to attend the 56th anniversary banquet of *La Prensa* of Buenos Aires and to discuss with Mr. Paz, publisher, plans for the development and improvement of our service to La Prensa.

"Starting, Jan. 1, the U. P. will inaugurate service to the three important Chilean newspapers owned by Dr. Agustin Edwards, until recently Chilean Ambassador to London and now chairman of the Chilean commission at Arica. These papers are located at Santiago, Valparaiso and Antofagasta. They constitute one of the most important groups of newspapers under a single ownership in South America. The United Press is now serving *La Nacion* of Santiago, which is under the forceful leadership of Dr. Carlos Davila; *El Diario Illustrado*, another important Santiago newspaper and *La Union* of Valparaiso and the *Mercurio* of that city. Thus after Jan. 1 all of the daily newspapers of Santiago and Valparaiso will receive only U. P. service.

"Including our service to La Prensa, the United Press is now serving 12 newspapers in Buenos Aires as well as flourishing newspapers at Rosario, Mendoza, Junin.

"We have a very large clientele in Rio Janeiro and Sao Paulo. In fact, our business in Sao Paulo and southern Brazil has now reached a point necessitating the opening of a second bureau in Brazil and our Sao Paulo bureau will be established immediately after the first of the year.

Mr. and Mrs. Karl A. Bickel

"United Press is received by both of the two principal papers of Peru, *La Prensa* and *El Comercio*, of Lima. In Colombia we serve the five newspapers of Bogota, one at Cartagena, and two at Cali. We have also established a bureau at La Paz where we serve the principal papers of the Bolivian capital. In Ecuador we serve newspapers in Guayaquil and Quito.

"The United Press now has a staff of more than 25 editors, reporters and translators in the Buenos Aires office alone to handle the work of that office and staffs almost as large in Rio Janeiro and Santiago. The entire South American organization is under the direct charge of James I. Miller, whose headquarters are in Buenos Aires.

"Throughout the entire continent of South America, newspaper conditions are showing a very marked improvement. Everywhere publishers were discussing improvements in their editorial and production departments and in some offices very extensive programs for expansion have been marked out.

"Despite the fact that the imposing La Prensa building of Buenos Aires has been one of the outstanding newspaper structures in the world ever since its completion, the development and the growth of La Prensa has been such that Mr. Paz has been forced to begin extensive work remodeling and rebuilding one portion of the building, which, when completed, will enlarge the La Prensa building 25 per cent.

"Within the last year, La Prensa began publishing a rotogravure section with its Sunday edition which was enthusiastically received in Buenos Aires. So great was the increase in the circulation of this edition in consequence, that a second rotogravure press was ordered for immediate installation while I was in Buenos Aires. The United Press is now delivering La Prensa from seven to ten thousand cable words per day.

"Another evidence of the growth of the newspapers of Buenos Aires was demonstrated in the opening of the new *La Razon* building. La Razon is the leading afternoon newspaper of the Argentine and is under the administration of Dr. Alejandro Sojo. La Razon's building, which is erected on the Avenida de Mayo, not far from the La Prensa building, is modern down to the last detail. In order to take care of the increasing circulation of La Razon, Dr. Sojo has also recently ordered the installation of a new press, making the fifth for that paper. La Razon is one of the few South American newspapers using a French type of press having the entire battery standardized by this concern. Most South American newspapers use American presses, although the German press manufacturers are making very real progress of late, chiefly through the medium of quick deliveries and long credits.

"La Razon publishes seven days in the week five editions daily but, contrary to the custom in the United States, publishes its Sunday edition in the afternoon at the same hours as on other days of the week. The Sunday afternoon newspaper is a fixture throughout most of South America, as these papers meet the large demand for the results of the Sunday race meetings and other big sporting events, as well as the always keen interest in national and international news events.

"Senator Lagos, publisher of *La Capital* at Rosario, is erecting a new modern building with new equipment which will give it the finest newspaper home outside of Buenos Aires in Argentine. Another important Argentine newspaper published outside of Buenos Aires, Los Andes of Mendoza, is also planning anew building and extensively adding to its equipment.

"All business in Brazil is distinctly on the up-grade at present and this is reflected in the newspaper business. All the leading Rio Janeiro and Sao Paulo newspapers are showing increases in circulation and advertising and many are making extensions in their plant equipment to take care of the increased business. The well known evening newspaper *O Globo* has recently moved into an entirely new structure while both *O Jornal Do Brasil* and *O Jornal* are planning improvement to meet the new demands placed upon their facilities.

"It is hard for a North American to appreciate the tenseness of the feeling that exists in Chile and Peru at present due to the pending sessions of the plebiscite commission at Arica which are presided over by General Pershing. Agustin Edwards, owner of the Mercurio newspaper group, as chairman of the Chilean delegation is spending all of his time at Arica and has turned the entire operation of his newspaper properties over to Augustin Edwards, Jr. The Valparaiso Mercurio is the oldest newspaper in South America, having been established in 1828 by a Chilean and, rather strangely, an American newspaper man.

"There have been no diplomatic relations between Chile and Peru for some years due to their differences over the final disposition of the two disputed provinces and popular feeling has now reached a point that is but slightly less than if actual war existed. The economic value of the two provinces is very small but the sentimental importance of the provinces to both nations is enormous.

"All of our South American newspapers are taking extensive reports from Arica, although it it natural that the papers of Chile, Peru and the Argentine require the most. Harry W. Frantz of the United Press Washington bureau, who accompanied General Pershing to Arica on the cruiser 'Rochester,' broke all west coast records during the month of November in filing over 40,000 cable words to our South American clients.

"For two years preceding the actual meeting of the plebiscite commission, Frantz, at Washington, made a detailed study of the Tacna-Arica negotiations. As a result, he is recognized throughout South America as being an authority on the situation.

"It was my good fortune while on the west coast not only to meet acting President Barros Borgono and President-elect Figueroya, of Chile, but likewise President Leguia, of Peru, Agustin Edwards and General Pershing, and was thus able to obtain a most interesting and intimate picture of the situation.

"El Mercurio, of Valparaiso, has recently moved into a new and architecturally most interesting structure, with an entirely new plant. El Comercio at Lima has also just moved into its new building.

"At Panama, I called on the new tabloid morning paper that has been established there recently by Nelson Rounsevel, also general manager of the *Panama Times*, and which is making marked progress. *El Tiempo*, which for many years was a strictly Spanish-language afternoon newspaper, is now devoting its front page to news in the English language.

"While the newspapers in Havana are naturally feeling some reaction from the soft sugar market, yet there is no evidence of any curtailment in plans for expansion. *Diario de la Marina* is installing a rotogravure press within the next 60 days and is planning enlargements and readjustments in their new building to meet the demands upon them for new facilities to take care of their business."

Merchants Adopt Ad Standards

Thirteen Scranton furniture companies took co-operative newspaper space in that city recently to print the furniture advertising and selling standards suggested by the Better Business Bureau.

Havre, Mont., Dailies Merged

The *Havre* (Mont.) *Promoter*, morning daily, and the *Havre Evening News*, both under the same ownership, have consolidated into one evening newspaper with a Sunday edition. R. G. Linebarger is publisher.

"The Big Leader in Lineage"

Reprinted from Advertisers' Weekly of Recent Date

"FIGURES covering the total volume of advertising in the daily newspapers of the 10 largest cities in the United States for the first nine months of 1925 show The Detroit News with 24,031,714 lines to be the leader.

"The performance is the more notable for the reason that among all of the newspapers in the larger cities none more completely covers its community and none is more productive of results.

"Out of this heavy volume of advertising the people of Detroit daily hunt out the offerings that appeal to them. It constitutes the key to the fastest growing and most prosperous city in the United States.

"Results indicate the folly of all theory that crowded pages and bulky newspapers are a handicap for results in newspaper advertising. People do not go on spending real money for space continuously unless it pays them.

"The record of The Detroit News shows steady growth in volume for a number of years. It is distinctly the representative newspaper in its field—now a newspaper field, with The News it."

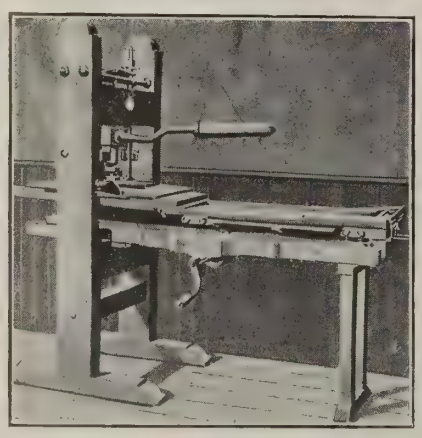
READERS FOR HALF CENTURY ATTEND OREGONIAN'S JUBILEE PARTY



Remarkable group of old subscribers of the *Portland* (Ore.) *Oregonian* attending its 75th birthday anniversary party. Everyone in the picture, except one or two escorts and the singer in the foreground, have taken the *Oregonian* for 50 years or more and were among those assembled at the jubilee. The *Oregonian's* birthday cake is also shown in the foreground.

1500 PIONEERS HELP DAILY CELEBRATE

Veteran Oregon Residents Attend Portland Oregonian's 75th Anniversary—Old Hand Press on Exhibit

Many noteworthy features marked the recent celebration by the *Oregonian* of its 75th birthday anniversary. In the first place it was attended by more than 1500 pioneers and their immediate descendents, the largest group of the kind that has gathered together in recent years. All were real pioneers of the Oregon country, qualifying by membership in the Oregon Pioneer Association which limits its enrollment to those who came to the Oregon country in 1849 or before, and to the sons and daughters of pioneers.

The occasion was of interest from a newspaper standpoint, too, because the Oregonian was the first newspaper founded west of the Rocky Mountains. The only paper that might be considered an exception to this is the *Deseret News* of Salt Lake City, which was founded prior to the Oregonian but is located in the Rockies rather than west of them.

Old Ramage press which printed the first issue of the *Oregonian* December 4, 1850, and also printed the first newspapers in Monterey, Calif., San Francisco, probably Sacramento, the first newspaper in Washington, at Olympia, and the first newspaper in Seattle.

At the dinner and formal program, which the Oregonian held to mark its jubilee on December 4, a great many interesting sidelights on the progress of Pacific Coast journalism were developed. Edgar B. Piper, editor, who presided at the celebration, called attention to the fact the Portland was a mere handful of people when the Oregonian was founded in 1850. He said he believed that this newspaper had the distinction of being the only metropolitan paper anywhere that was founded at the very beginning of the city in which it is located and has continued until the present day. In the 75 years that the Oregonian has been printed Portland has grown from a few hundred people to a city of more than 300,000.

The old Ramage hand press, on which the Oregonian was first printed, was on display at the jubilee and is doubtless one of the most interesting newspaper relics in the United States. Including its connection with the Oregonian, it is closely associated with the founding of journalism throughout the entire West. Sent from New York to the City of Mexico at an early date in the 19th century, it probably had a greater part in the initiation of newspapers in a vast empire than any other printing device ever made. Little is known as to what purpose it served in the City of Mexico but after a few years it was moved to Monterey, Cal., being transported on the backs of mules. It arrived in Monterey in 1834 and was used there for the publication of official orders. On August 15, 1846, the first issue of the *Californian*, the first paper in Monterey, was slowly issued from the old Ramage.

Soon after that it was moved to the newer and more promising town of Yerba Buena and became the first paper there. It was taken by boat to Portland where the first issue of the Oregonian was printed on it on December 4, 1850, and again by boat to Olympia, where the *Columbian*, the first newspaper in the present state of Washington, was issued from it in September, 1852. After it had been used 11 years at Olympia it was purchased by J. R. Watson who on Dec. 10, 1863, printed on it the *Seattle Gazette*, the first newspaper to be printed in the Puget Sound metropolis. Some of the early history of the press is rather vague but it is likely that it was also used in 1848 to print the *Placer Times*, the first newspaper to be published in Sacramento.

HOMES
by thousands

From Bangor to Key West, and San Francisco to Halifax building figures mount in volume. The wave of prosperity is everywhere.

But—

Florida heads the list—
For homes
For hotels
For business

The figures are almost too staggering to believe. All over the state, new building outlines are almost equal to the number of palm trees seen.

Such investments are not a fad, but are due to investigation and proof of value. Here are signs irrefutable.

The Florida Times-Union has the largest circulation in the state. It is found on every news stand as the leading state paper.

The Florida Times-Union
JACKSONVILLE

Daily 55,775
Sunday 70,000

Gentlemen of the advertising world, you may write your own moral to this little story . . .

THE Los Angeles Examiner, a morning and Sunday newspaper with the greatest morning city circulation in its home-town and with the greatest morning and Sunday circulation West of St. Louis, all achieved in some short 22 years, is adding to its laurels a few more leaves—these from the book of experience as written by Los Angeles advertisers.

It is gaining in Local Display Advertising at an almost unprecedented rate; gaining, too, when all the other newspapers in Los Angeles are losing. For example, in the first 11 months of this year The Examiner increased its volume of Local Display Advertising over the same period of last year by considerably better than 500,000 lines, which is no small endeavor!

No other newspaper in Los Angeles has shown a Local Gain in that same period.

For the greater circulation they get in The Examiner and the greater responsiveness, advertisers are paying more, naturally, per inch, but advertising has this quality about it which determines them in their choice! At $1 a page it is *costly* if it doesn't produce; at $1000 a page it is *cheap* if it does!

With advertisers on the ground floor, in a position to know better than anyone else which paper pulls the strongest in Los Angeles, putting their advertising more and more into The Examiner, there is a moral for advertising men who place space from a distance; and for manufacturers who desire to actually create consumer-demand when they enter this market.

We'll let them write it!

More Than 165,000 Daily; More Than 385,000 Sunday

THREE PHANTOM GOTHAM NEWSPAPERS RIVALS FOR GHOSTLY CIRCULATIONS

Hot Fights for Beats and Best News Play Precedes Production on "Blackboard Presses"—Pulitzer Students Work Hard for No Pay

By PHILIP SCHUYLER

To acquaint editors of the country with the manner in which their future staff men and women are being trained, EDITOR & PUBLISHER *herewith presents first of a series of articles to appear from time to time on the journalism courses in the various schools throughout the country. Below is described "Journalism 43," a Senior Class at the Pulitzer School, Columbia University, New York, conducted by Prof. Charles Phillips Cooper. Prof. Cooper is president of the Association of American Schools and Departments of Journalism.*

THREE phantom New York newspapers are rivals for ghostly circulations. Unknown to the public of the great metropolis, their news staff, totaling 60 men and women, cover the news sources, keep in touch with the city, nation and world by the most modern telegraph machines, re-write, copy read, edit, make-up and publish papers that are never seen. The *Globe,* the *Press,* and the *News,* all standard size, "go to press" on the blackboards of a school.

"They work hard, these boys and girls —and for no pay," said Charles Phillips Cooper, professor of journalism, Pulitzer School, Columbia University, New York, and publisher of the enterprising chalk mark chain.

And they are enterprising newspapers, albeit their front pages are just sketched in with chalk, and the inside sections are left to the imagination and the mercy of the "Prof."

Thursday is press day for this journalism class. Workers on the three phantom papers report at none in the morning and stay until a four o'clock deadline. During that time they produce front pages that compare favorably with those of any daily in Manhattan's evening field. Hot fights for city beats and best news play ensue, and the day speeds by with an enthusiasm, only possible among those to whom the newspaper business is still a "game."

The 60 members of the class are divided equally among the three papers, each of which has a managing editor, appointed because of aptitude and ability, who directs separate copy desks and makes up the front pages. Dorothy E. Ducas, a New York girl, heads the news force of the Globe; James G. Harrison, Charleston, S. C., the Press; and Jacques E. Ozanne, a native of France, now living in New York, the News.

One news room serves the press trio, and one city editor is in charge of a staff of some 30 reporters, who make three copies of their stories, one for each paper. At present the city editor is Lief Eid of Seattle, Wash. These executive positions are filled for a term of about three weeks by rotation until held by every member of the class considered capable.

The complete Associated Press and City News Association reports come clicking into the news room over Morkrum telegraph machines. The class is also furnished copies of the day's report by International News Service and United Press. Type dress for headline purposes alternate between that of the *New York Times* and the *New York World.*

The city editor assigns men to New York stories as they break. Reporters from the school work side by side with representatives of New York dailies covering fires, disasters, political events, trials and the like. The day the writer chanced to visit the school a local story made lead columns—a pronunciamento from Mayor-elect Walker that he would insist on civility at City Hall.

A reporter from the class went to the Hotel Commodore, Walker's headquarters until he takes office, on a tip from the City News Association, and interviewed the Mayor-elect along with regular staff men of the New York papers. His story compared favorably with theirs.

One paper on the same day put through a re-make to include the late news of "Red" Grange's injury in Pittsburgh.

At the end of the day, the three papers make-up their show windows. The work must be entirely individual. No spying is allowed between the different staffs, and no comparisons with the evening papers of the city. On the following day comes the comparisons, with Prof. Cooper leading in discussion on the various front pages.

Prof. Cooper is a veteran of 30 years' experience on New York newspapers. Commencing his career on the old *Hartford Evening Post* he came to the *New York Evening Sun* in 1889. He remained with the Sun until 1913, filling every editorial position and ending as managing editor. In 1913 he went to the telegraph desk of the New York Times, and has been assistant city editor and night city editor of that newspaper.

"One advantage of these blackboard newspapers," Prof. Cooper said, "is that they are not hamstrung by policies. All stories are handled from the standpoint of news judgment. There is no sham, no play, in the class; it is real work for the students."

Members of the class are:

Sophie T. Andrassy, Curtiss Edmund Avery (M. S.), J. Vance Babb, Anne Beasley, Edmond Lurton Blassingame (M. S.), Esther Lou Boulton, Evelyn Sarah Brown, William R. PUBLISHER SANS PRESS

Haines City Daily Herald Printing in Plant 12 Miles Away

Publishing under difficulties, the *Haines City* (Fla.) *Herald* was launched as a morning daily Dec. 10. M. J. Lee is publisher and E. G. Denham editor.

A freight permit to bring in a new Duplex press over the Atlantic Coast Line railroad was unacted on for 30 days, holding up the start of the paper. The permit was then transferred to the Seaboard Air Line, which is bringing the press from Battle Creek, Mich.

In the meantime the daily was launched, the forms being made up at Haines City and taken 12 miles by truck to Winter Haven for printing in the plant of the *Winter Haven Chief,* evening daily, published by Mr. Lee's father.

It was originally planned to start the paper in the evening field but the lack of a press forced morning publication until proper facilities are obtained. The A. P. is furnishing the Herald with a special night pony service.

Bruce Angle is advertising manager and Lecta Denham, city editor.

NEWS MAN WAS HERO OF LUSITANIA

$6,000 Award to Ernest Cowper, Seattle Post-Intelligencer, Revea Him As Saver of Little Girl's Life in 1915

Ernest Cowper, assistant dramatic cr of the *Seattle Post-Intelligencer,* v awarded $6,000 by the German reparati committee, Dec. 12, for damage suffe when a German submarine sank the Lu tania in 1915, and with the award story of his heroism during the disas became public for the first time.

Cowper was sailing on the Lusitania France to become a correspondent fo Canadian newspaper syndicate. In confusion, after the ship was struck b torpedo, a six-year-old girl came to h and offered:

"If you'll take care of me, I'll be y little girl."

"I picked her up in my arms jumped overboard," Cowper said. "A three hours floating in the icy cold wat an Irish fishing boat sighted us. hands were frozen fast to a deck chai had grasped.

"Hundreds of people offered to ad the girl, Helen Smith, whose parents, t sisters, brother, cousin and aunt w drowned. She was finally placed by Prince of Wales Fund in a Welsh fam in Cardiff. Two years ago she wo Bransby Williams scholarship and tracted the attention of Williams, E land's foremost actor of Dickens' roles think she plans to be an actress."

Cowper was given the award for health attributed to shock and exposu

Akron Now Reads "Two Papers in One"

Akron's Auto Show

Akron's Automobile Show will be held January 30 to February 6, 1926

The Akron newspaper situation has materially changed since last year's Show.

All of the circulation of The Akron Times and The Akron Press was combined in the consolidation of the two papers and The Times - Press, with 43,275 net paid circulation for the six months ending September 30, is steadily adding new readers.

The *Sunday* Times-Press is the *Only* Sunday Paper in Akron

The Times-Press rate card carries a *daily-and-Sunday combination rate* for automotive advertising, optional with the advertiser.

Akron now reads "Two Papers in One." The Times-Press is first choice in the Akron field.

SEESTED WINS $7,500 IN DENVER POST SUIT

Circulation Manager, K. C. Star, Victor When Court Rules War Article Libelous Per Se—Jury Fixes Damages

A jury in the Federal court at Denver, Dec. 11, awarded a verdict for $7,500 damages to Frank C. Seested, circulation manager of the *Kansas City Star,* against the Post Printing and Pubishing Company of Denver.

The award was for an article published by the *Denver Post,* March 19, 1922, charging that records were on file in Washington showing Mr. Seested had contributed $11,000 to the Imperial German Government.

In his charge to the jury the Judge instructed the members that the article was libelous per se, that there was no evidence showing justification for the publication. The province of the jury, under the court's instructions, was to fix the amount of damages.

Bearing on the amount of damages was an instruction by the court to the effect evidence was lacking showing a pecuniary loss to Mr. Seested. Also an instruction to the effect the evidence was that only 30 or 35 copies of the Denver Post circulated in Kansas City, and that the jury must take that into consideration in determining the amount of compensatory damages. In the suit $100,000 damages was asked.

A part of the evidence in the Denver suit in Mr. Seested's behalf was a deposition by an official in the Department of Investiation, Washington, denying any such record was there.

The Denver suit in which the award was made to Mr. Seested was one of five filed by him against the Denver Post and *Kansas City Post* and its publishers.

In November, 1924, Mr. Seested was awarded a verdict and damages of $1 against F. G. Bonfils by a jury in the Federal court in Kansas City. This was the second trial of this case, a jury failing to agree at a previous trial.

The verdict giving one dollar was set aside by the trial Judge and motions for a new trial granted on the grounds the award was inadequate. This suit is now pending and is expected to be reached for trial within the next three months. This suit is based on an article published by the Kansas City Post, November 2, 1921.

Frank Seested is a brother of A. F. Seested, general manager of the Kansas City Star.

New Alabama Daily

The *Gadsden* (Ala) *Evening Star* made its appearance Tuesday, launched by Wiley S. Smith, manager of the Western bureau of the Universal News Service at Chicago, W. I. Martintsden, J. O. Powell and W. B. Greene, experienced newspaper men of North Alabama. Mr. Smith will not be actively connected with the Gadsden Star.

BRUNDAGE QUIZZED IN TRIAL

St. Louis Star Reporter Witness in Washington Case

Harry Brundage, reporter of the *St. Louis Star,* author of the exposé of alleged medical "diploma mills" in Connecticut and Missouri, was a witness this week in Washington, D. C., at the trial of "Bishop" Helmuth P. Holler, president of Oriental University, and Dr. Ralph A. Voight of Kansas City, Mo., charged with using the mails to defraud in connection with the issuance of degrees at small prices and after little or no instruction, according to claims of the prosecution.

Brundage testified for the Government and told how he obtained a degree of "mastery of surgery" in 57 days, after mailing his application to Dr. Voight. He said he had been detailed to expose a national organization supposed to be conducting "diploma mills," of which the Oriental University is said to have been a part.

Under cross-examination Brundage was unable to identify literature of the Oriental University as that displayed to him by Voight, and claimed to be unable to give the details of certain conversations with Voight and with two other physicians, who were jointly indicted and who pleaded guilty to the indictment. The witness was shown copies of the newspaper by which he is employed and the articles which he admitted writing and was asked why he could not remember when the matter had been fresh in his mind for sometime.

Suits Against Yuma Editor Dropped

Criminal libel charges that remained against George W. Lynn, editor of the *Yuma* (Ariz.) *Herald* since his sensational trial on one charge last spring, have been dismissed. Lynn was alleged to have libeled E. F. Sanguinetti, Yuma millionaire rancher and merchant. Change of the Herald from an afternoon daily back to a weekly was announced recently.

BAYNE SUCCEEDS ADAMS

Buys Latter's Share in Duluth News Tribune and Becomes M. E.

Reed Taft Bayne, who has been acting as managing editor of the *Duluth News Tribune* since Nov. 1, has purchased the interest in the News Tribune Company formerly owned by Charles R. Adams and last Friday was elected to succeed Mr. Adams as vice-president and managing editor.

In August, Mr. Bayne resigned the pastorate of the Pilgrim Congregational Church in Superior to reenter active newspaper work in which he had a wide experience prior to entering the ministry.

Mr. Adams, who has been associated with the News Tribune for two years, has returned to his former home in Minneapolis and is planning a vacation.

FAIRNESS SHOULD BE FIRST NEWSPAPER RULE

Both in News and Editorial Columns Says P. D. Ross, Ottawa Journal Publisher on Daily's 40th Anniversary

The *Ottawa* (Ont.) *Journal* recently selebrated its fortieth anniversary, at which time P. D. Ross, publisher was host to the entire staff at the Chateau Laurier.

In response to the toast "The Chief" proposed by Lt. Col. R. F. Parkinson, managing director of the Journal, Mr. Ross said:

"The thing I have been most anxious about in my life—the thing I have been and am most anxious for the Journal to do—is to play fair. A newspaper has a great power to hurt. Unless it is very anxious not to hurt, and is very careful about it, a newspaper can do pitiful damage.

"We newspaper people ought to be mighty sure when we hit anybody that he completely deserves it. A newspaper should give everybody an equal chance to speak even if it does not agree with the opinions expressed.

"This fairness should be as scrupulously observed in the news columns as in the editorial columns, and by every reporter as well as by every editor. A newspaper ought to do as little hurt to anybody at any time as fair play and fair fighting and a generous spirit will allow.

"I have always tried to follow the principle in my newspaper that I would not say, nor allow my newspaper to say anything about a man that I would not be ready to say to his face if I met him on the street. And if my newspaper did say what it shouldn't, and found itself wrong, it should apologize just as I would myself apologize as a gentleman, with no thought but to give complete and honorable satisfaction."

In the course of the evening, messages of congratulation were received and read from many former employes and other admirers of Mr. Ross. A miniature paper, "The Fortieth," was published for the occasion, without benefit of censor.

MAGEE PLEADS NOT GUILTY

Arizona Publisher Will Stand Trial for Manslaughter in June

Carl C. Magee, editor of the *Albuquerque* (N. M.) *State Tribune,* pleaded not guilty when arraigned in District Court at East Las Vegas, N. M., Dec. 14, on a charge of manslaughter in connection with the killing of John B. Lasseter during an altercation between Magee and former District Judge David J. Leahy, his political enemy, Aug. 21.

Magee's counsel asked that the trial be expedited. Judge L. E. Armijo set the trial for June, 1926.

International year Book for 1926 will appear Jan. 30.

For The Six Months Ending Sept. 30, 1925

the average net paid daily circulation of The Baltimore Sun (morning and evening issues) was

239,198

The average net paid per Sunday circulation of THE SUNDAY SUN for that period was 183,814 —a gain of 1,783.

PASSAIC DAILY NEWS
Passaic, N. J.

"We have been using your checking service for about a year.

We want to take this occasion to compliment you on the efficiency of this service. Requests for checking copies from agencies and advertisers have been practically eliminated.

We thought we had a good system for handling checking copies before we subscribed to your service. It was our custom to file the tear sheet, and at the end of the month to send the complete set of sheets to the agency with our invoice.

The weakness of this system was, however, that it did not supply the checking proof promptly enough and when an error occurred in a schedule, it would often go undetected for thirty days.

Your service has eliminated all the undesirable features of our own, and does the work far more efficiently and satisfactorily.

Very truly yours,
THE PASSAIC DAILY NEWS, Inc., R. E. Lent, General Manager."

Our Hardest Problem

is to get trials of

CERTIFIED DRY MATS

In a comparatively short time CERTIFIEDS have won their way into SEVERAL HUNDRED newspaper plants.

WHY? The answer is quite simple. Publishers and stereotypers know QUALITY when they see it and do not hesitate to act accordingly.

That is why the hardest part of our sales problem is over when CERTIFIEDS have been given a trial.

All we ask is, that you COMPARE, for to compare CERTIFIEDS is to know their relative value.

Now is a good time to get acquainted—there is no obligation on your part.

COAST CITIES PLANNING JOINT AD CAMPAIGN

Million Dollar Fund Expected to Be Available Through Pooling of Funds—Whole Coast to Be Advertised

The principal cities on the Pacific Coast, from San Diego to Seattle, Dec. 8 pledged their support to a far reaching plan of mutual helpfulness when several west coast cities sent their representatives to a meeting in Seattle.

As the immediate outcome of plans approved in that meeting, but which will be worked out in detail later, an advertising fund of more than $1,000,000 will be devoted to urging tourists and others to visit "all of the Pacific coast."

David Whitcomb of the Seattle chamber of commerce presided over the meeting. Others present were: Paul Shoup, representing Californians' Inc.; and Southern Pacific; C. B. Milham, All Year Club of California; Arthur S. Bent, president-elect of Los Angeles Chamber of Commerce; Robert Newton Lynch, general manager of the San Francisco chamber; Harlan I. Peyton, president Spokane chamber; O. W. Meilke, Portland; W. L. Miller, Oakland; Don Francisco, Los Angeles, Pacific Coast manager of Lord and Thomas, advertisers; A. B. C. Dohrmann, San Francisco; and C. A. Parmelee, San Francisco. In addition there were also railroads, steamship companies, resorts and metropolitan newspaper representatives.

Another meeting will be held not later than Jan. 15, probably in San Francisco, where an organization to be known as the "All Pacific Coast Advertising Committee" will be perfected. The working board will comprise a member from every community doing national advertising in the East. All communities joining the organization will agree to devote not less than 15 per cent of the text of its national advertising to pointing out the advantages of seeing the whole Pacific Coast as well as their own particular section. In this way national magazines will carry continuous Pacific Coast advertising instead of intermittent splurges.

Ice Cream Makers to Advertise

A campaign of national advertising in behalf of ice cream was adopted at the meeting of the Kansas Association of Ice Cream Manufacturers in Kansas City, Mo., last week. Many pledges of participation were received. J. M. Harding of Omaha, presented the proposal.

U. P. Announces New Clients

The following newspapers were announced this week as new United Press Clients: *West Palm Beach* (Fla.) *Times; Woodland* (Cal.) *Democrat; Warrensburg* (Mo.) *Journal; Burlingame* (Cal.) *Star;* and *Buffalo* (N. Y.) *Post.*

The Post recently changed over to the financial from the regular news field.

New York Has New Drama Critic

J. Brooks Atkinson was this week definitely named dramatic critic of the *New York Times.* He has been acting critic throughout the season, but the Times theatrical criticisms up until Dec. 16 appeared unsigned. Mr. Atkinson was formerly editor of the Sunday book section of the Times. He is a Harvard graduate Class of 1917. J. Donald Adams, formerly assistant book editor, has succeeded Atkinson in that department. John Carter, of the Times' news staff is assistant.

BELL NEW NATIONAL PRESS CLUB CHIEF

Louisville Courier-Journal Correspondent Named President—Kirchhofer V. P.—Sweinhart to Board of Governors

WASHINGTON, Dec. 15.—Facing a year of hard work on its new $9,000,000 building enterprise, the National Press Club, at its annual election today, retained practically its present personnel of officers and governors, thereby assuring completion of the project along the lines laid out during the past year.

Ulric Bell, vice-president, and Washington correspondent of the *Louisville Courier-Journal,* was moved up without opposition to the post of president. Henry L. Sweinhart, of the Havas Agency, retiring president, was placed on the Board of Governors for a three-year term.

A. H. Kirchhofer, *Buffalo Evening News,* was elected vice-president; W. H. (Tommy) Atkins, special writer, secretary; Edgar Markham, *St. Paul Pioneer-Press,* treasurer; Raymond Clapper, United News, financial secretary; and Emmet Dougherty, *New York Herald Tribune,* and George E. Durno, International News Service, with Mr. Sweinhart, to the Board of Governors.

Hold-over Governors are George Authier, Foreign Affairs News Service; Franklin L. Fisher, *National Geographic Society Magazine;* Daniel O'Connell, *Washington Times,* and Francis Stephenson, Associated Press.

Mr. Bell, who is 34 years old, came to Washington to represent the Courier-Journal in 1921. He has been on the staff of that paper for nearly 15 years, except during the World War, from which he emerged as a captain of infantry. He was formerly city editor of the Courier-Journal. He has served three years on the Board of Governors of the Press Club.

Mr. Kirchhofer, also one of the younger correspondents, has been in Washington as the Buffalo News representative for about five years and during most of that time has been active in press club affairs. He and Mr. Bell, with the other club officials, have been associated with Mr. Sweinhart from the beginning in the big building undertaking, which was launched last June.

COAST GROUP NAMES J. F. YOUNG PRESIDENT

Pacific Northwest Newspaper Association Holds One Day Meeting In Tacoma, December 7

The Pacific Northwest Newspaper Association held its annual meeting Dec. 7, at Tacoma where vital matters of newspaper publishing in the Pacific Northwest were discussed. Resolutions were passed aimed to bring about higher standards in the profession.

Officers elected for the following year are: president, J. F. Young, business manager, *Spokane Spokesman Review;* vice-president, Frank J. Burd, business manager, *Vancouver* (B. C.) *Province;* secretary, William G. Hooker, formerly of the *Spokane Chronicle,* and treasurer, S. R. Winch, business manager, *Portland Oregon Journal.*

Frank S. Baker, publisher of the *Tacoma Ledger,* and James A. Sage, business manager of the *Missoula* (Mont.) *Missoulan,* together with the officers, compose the executive board.

Those present at the all-day session included.

D. W. Ifft, publisher of *Walla Walla Daily Union;* H. H. Hoffman, general manager *Seattle Post-Intelligencer;* Frank F. Fitts, assistant treasurer, Seattle Post Intelligencer; Calvin Cobb, manager *Boise Statesman;* Rufus Woods, editor *Wenatchee Daily World;* F. E. Mayol, general manager *Olympia Recorder;* J. F. CONFER ON AD SYMBOL

N. E. Group to Give Prize for Best Quality Product Mark

Prominent business men, newspaper editors and advertising managers met in Boston last week for the purpose of selecting a symbol which will characterize the quality of New England products and to arouse interest in the sale of these products nationally and internationally.

It was decided to conduct a contest to arouse public interest in the finding of a slogan, token or idea which would symbolize New England goods. The prize for the winner will be awarded in May.

Among those taking part in the discussion of the subject were Edgar D. Shaw, publisher of the *Boston American and Advertiser;* Willis J. Abbott of the *Christian Science Monitor;* F. Lauriston Bullard, of the *Boston Herald;* and A. H. Merchant, of the *Boston Post.*

A Man with a Magnifying Glass—C. R. Butler

TO look at the newspaper publishing business through expert accountant eyes is to look with a magnifying glass, which enlarges defects and specks of waste and lost profits, making their eradication easy.

Charles R. Butler, secretary and treasurer of the *Mankato* (Minn.) *Free Press,* holds such a glass to his eye, and would loan it to other publishers who believe in foresight rather than haphazard and stumbling shortsight.

Mr. Butler is a member of the cost finding committee of the Inland Daily Press Association, prosperous and firmly established membership body of newspapers of the 14 middle western states and Canada. He was in New York the other day on Inland business. Plans for an enlarged cost finding newspaper survey were discussed with Clifford Yewdall, New York accountant, who is to compile and analyze figures on the newspaper business to be submitted, it is hoped, by a large majority of the Inland members and also members of the Southern Newspaper Publishers. From these figures comparative facts will be obtained, helpful in putting newspaper publishing on even a more stable and efficient basis than it now enjoys. The Inland has been improving on its cost finding system for the past five years.

A call is now going out to the Inland membership, asking them to fill out carefully the required questionnaires. Mr. Butler is passing around his magnifying glass.

"In other years," Mr. Butler said, "we have received about 80 reports from a membership of 250 in the Inland, but we are hoping for a much greater response this year.

"We are planning to elaborate on the cost finding form in an attempt to gain added information. This year we want to receive for compilation and comparison figures in dollars and cents instead of in percentages as heretofore. We want our circulation figures exact, and our advertising data measured in inches.

"From these answered forms, we hope to arrive at comparative figures on the cost of producing an inch of advertising composition, and the cost per thousand of eight-page newspapers. A joint compilation with the S. N. P. A. ought to be ready by about March 1."

Mr. Butler thinks this Inland magnifying glass is getting clearer as it grows old. It was smoky at first with the hot air of those who didn't know what it was all about.

"The program as now mapped out," he vouchsafed, "is rapidly approaching Inland's ultimate aim."

Back in Mankato in the Free Press home, Mr. Butler has a highly developed newspaper accounting system. It is one he has talked of frequently at Inland meetings and written about for EDITOR & PUBLISHER.

For a quarter of a century, Mr. Butler has been asociated with the Free Press and its large job printng establishment operated separately from the daily paper. Starting at a salary of $15 a week as a "handy-man" for the *Stillwater* (Minn.) *Gazette* he went to the Free Press in 1902 as bookkeeper. Today he owns an interest in the Free Press Company and has been its secretary and treasurer since 1918. The company operates a publishing plant in Minneapolis as well as in Mankato.

From his career it is easy to see Mr. Butler likes figures. When talking about Mankato and its market he has statistics on his tongue tip.

"One interesting fact," he said, "is that 50 per cent more building material, wire fencing, and paint was purchased in our territory last year than during the last five years. The farmers are generally improving their properties because of their prosperity."

ALLEN HEADS PRESS GROUP

Brookline Chronicle Publisher Named President of Massachusetts Assn.

The Massachusetts Press Association at its annual meeting last week in Boston at the Hotel Lenox, elected Walter D. Allen of the *Brookline Chronicle,* president; James Wingate, *Medford Mercury,* Charles T. Hall, *Everett Herald,* and Frank F. Prescott, *Weymouth Gazette-Transcript,* vice-presidents; Robert Osterhaut, *Hudson Enterprise,* treasurer; Carl Prescott, East Weymouth, secretary; Ralph Metcalf, *Belmont Citizen,* auditor; and J. M. Marshall, *Manchester Cricket,* historian.

The association went on record for the return of the 1920 postal rates. More than 200 members were present.

Among the speakers were Gov. A. T. Fuller and Mayor-elect Leon Conwell of Somerville, son of the late Russell Conwell of Philadelphia.

Davies Host to Press

William W. Davies, general representative in the United States for *La Nacion* of Buenos Aires, was host to representatives of domestic and foreign press associations and to New York newspapers at a banquet at the Hotel Roosevelt, Wednesday, which featured the annual 4-day session of the Pan-American Commercial Congress.

ST. LOUIS TIMES WINS

Awarded Verdist in Libel Suit Brough by Lorenz G. Shubert

A verdict in favor of the America Press, publishers of the *St. Louis Time* was rendered by a jury in the Circu Court in St. Louis, in a suit for libe brought against it by Lorenz G. Schu bert, former president of a motor com pany.

The suit was based on an article re porting the filing of a suit in the Unite States District Court against a suret company. The action stated the suit wa brought by the motor company to er force payment of a $10,000 surety bon which the motor company had given o Schubert. The article stated that th suit grew out of the alleged defalcatior of Schubert. He contended the allega tions in the suit were untrue.

The newspapers introduced witnesse including Schubert's former associate in an effort to substantiate the charge The defense was represented by G. A Buder, president of the American Pres and O. E. Buder.

Curtis Stock on Sale This Week

Hallgarten & Co. and J. A. Sisto Co., New York, this week offered 5,00 common shares of the Curtis Publishin Company, publishers of the *Saturda Evening Post, Ladies' Home Journa* and *Country Gentleman,* and Philadelphi and New York newspapers, at $310 share. 15 WILLIAM STREET NEW YORK CITY

STATE OF NEW YORK
OFFICE OF THE ATTORNEY GENERAL
ALBANY

The New York Times:

I recently received a complaint from _____ of _____, that The New York Times had refused to accept their advertising matter. I replied to the letter by stating that the question of acceptance of advertising was a matter for the newspaper to decide, but that, observing the character of their business, I would suggest that they direct their attention to the provisions of the Martin Act, a copy of which I enclosed to them, and also suggesting that their operations were a matter for the consideration of the Superintendent of Banks. In reply thereto they wrote indicating that they found plenty of newspapers to accept their advertising.

I am writing to you, however, more to congratulate you on the stand taken by you, than for any other purpose. They sent me a copy of the advertisement which they offered to you, and I can in no way blame you for refusing to run it. If all the newspapers of the State would give this office such hearty cooperation as your newspaper is giving it, we would soon drive all the get-rich-quick schemes out of the State.

Again assuring you of my gratification at the position taken by you, I remain,

ALBERT OTTINGER,
Attorney General.
By BORDEN H. MILLS,
Deputy

Advertisements offered to The New York Times are subject to its censorship and must conform to The Times standards and its ideals of a newspaper's obligations to the public.

GAINS!!!

THE BALTIMORE NEWS

gained 11,809 net paid circulation since June. Average net paid circulation for November, 1925—112,558.

The News is gaining over 1924 substantially in national advertising. The News is gaining further prestige in Baltimore through its service to advertisers.

Baltimore American

CHARACTER QUALITY AMERICA FIRST ACCURACY ENTERPRISE
AN AMERICAN PAPER FOR THE AMERICAN PEOPLE

gained 14,497 net paid circulation over November, 1924. The American also shows gains in national advertising.

The combination of The News 112,558 net paid and the American 56,827, with their small factor of duplication, serves a greater number of readers than the other morning and evening combination. Our Service Department is always ready to assist the manufacturer to link this biggest half of Baltimore's market with his product, thereby creating an eager retail market acceptance.

Our Own World of Letters

By JAMES MELVIN LEE

AN advertising volume that is out of the ordinary is "The Language of Advertising" (Isaac Pitman & Sons) by John B. Opdycke. It has three purposes—to inform, to interpret, and to inspire. It is primarily for students regardless of whether they are matriculated in some university or employed in the copy department of some agency.

But "The Language of Advertising" is no ordinary text book. It is far from being academic or pedantic. But on the other hand, it is intensely practical for those who can lift their eyes above the immediate problems of specific advertisements and see advertising as something of an art.

Briefly, the volume consists of four parts. Part I considers "Background and Inspiration"; Part II, "The Copy in Literature"; Part III, "Foreground and Inspiration"; and Part IV, "The Literature in Copy." An appendix contains brief outlines for three courses in advertising of thirty lessons each. Special mention should be made of a very appropriate introduction contributed by Percy S. Straus, vice-president of R. H. Macy & Company. It will be remembered that R. H. Macy & Company won one of those famous advertising awards established at Harvard University by Edward W. Bok of Philadelphia. Consequently this introduction by Mr. Straus has an added interest for the professional worker.

Possibly Part IV prints the more distinctive contributions made by Mr. Opdycke. Certainly this section will appeal to those who want to make themselves masters of advertising copy. It lists the various blue-prints employed by the masters. Both in style and subject matter it shows Mr. Opdycke at his best. The delightful humor which creeps out here and there makes the perusal of this section more enjoyable.

As a sort of summary for Part I, "Background and Inspiration," Mr. Opdycke gives twelve rules which are printed on pages 24 and 25. By way of illustration the following may be quoted:

> Form your own reading judgments and evaluations; be neither the tool of reviewers nor the victim of best-seller advertisements.
>
> Cultivate a nose for good books; that is, build your very own bookshelf; let its length and breadth and depth be measured by your capacity, and fear not to stand or fall by the books upon it, even though they be haunted by silver eels and sealed with cobwebs.
>
> Aim to relate one book to another and all the books you read to life in general and your own experience in particular, for it is only by thus reading in *relation* that the most genuine joy is to be got out of it and the soul saved from the corroding rust of irresponsibility and dilettanteism.
>
> Be a specialist in some one line of reading, preferably in some line that is closely connected with your life work; make it your aim then to be well read along broad and general lines of education and culture.

Part II represents research on the part of Mr. Opdycke among the writings of famous men of letters to see what they have to suggest about advertising. Here are three from Shakespeare's pen:

> To things of sale a seller's praise belongs.
> —*Love's Labor's Lost.*
>
> We'll commend what we intend to sell.
> —*Troilus and Cressida.*
>
> As I was then
> Advertising and holy to your business,
> Not changing heart with habit, I am still
> Attorneyed at your service.
> —*Measure for Measure.*

Mr. Opdycke in calling attention to the comment of the commentators that Shakespeare used advertising in the sense of informing or giving intelligence remarks that modern advertising has precisely the same purpose.

A page that might well be torn from the volume and framed for the wall is sixty-four which succinctly sets forth the copyman's creed. Two or three articles from this creed are sufficient to indicate its contents:

> I believe that the advertiser is at once a pilot and a professor, a pioneer and a priest, a plenipotentiary and a prime minister.
>
> I believe more in brains than in boodle, more in men than in money, more in culture than in coin, more in service than in spondulix.
>
> I believe that the fault is entirely my own every time that I turn out a piece of copy that does not attract attention wholesomely, that does not get itself read and believed, and that is not remembered.
>
> I believe that every great literary worker, from Shakespeare to Shaw, would admit at once that his work is in no wise different in purpose and importance from the work of the writer of advertising copy.

In Part III Mr. Opdycke charts the map of the copy writer and then considers the latter as economist, philosopher co-ordinator, psychologist, sociologist, strategist, interpreter, artist, and scientist. In this section ample space is found for the discussion of trade marks and pictures in advertising copy. In the term picture Mr. Opdycke includes any kind of an illustration exclusive of mere expository graph or diagram. The comments about advertisements used for illustrative purposes in this section are especially illuminating. The advertising managers on newspapers should pay special attention to the ads a column long to see how bottom and top are linked to give unity, and to see how the optical center brings out the pivotal point of the copy.

But in all sections of the book the author has certain ideas to sell. In marketing these ideas through the printed page he has employed the same language of advertising which he discusses in the book itself. In short, he sells both his ideas and himself to the reader.

* * *

A BOOK announced for early publication is "When James Gordon Bennett Was Caliph of Bagdad" (Funk & Wagnalls Company) by Albert S. Crockett. The author was for years on the staff of the *New York Herald* and worked directly under the personal instruction of Mr. Bennett. After he left the Herald he went to the old *New York Sun* and still later was with the *New York Times.*

AN editorial for editors may be found in *The NEA Service Paper* for December 11. Its head is "By-Lines."

Attention is called to the fact that the most valuable reporter is the one who is best known or the one who has the most friends. From these friends come tips on news and feature stories. To make more friends the reporter needs the co-operation of his paper.

Often a person benefited by some story thinks of the reporter when another story breaks. But when the name of this reporter is unknown no tip can be given and the paper misses what might have been a beat.

The concluding thought of this editorial is that a by-line does not do a paper any harm but does make a reporter—no matter how long he has been in the game—pleased to see his name on a good story.

This editorial presents a strong case for the by-line.

* * *

THE editorial "Editorial Page Interest" in EDITOR & PUBLISHER for Dec. 12, has brought several requests for more detailed information. Marshall D. Beuick is publishing in *Social Forces* a series of academic and pedantic essays under the general head "The Social Tendency in Newspaper Editorials." His series began in the September issue and the first installment had as its subtitle "The Decline of the Political Editorials."

The following paragraph is typical of the general trend of the series:

> The editorial article is evolving. Some newspapers whose hands are tied with a *sanctum sanctorium* tradition try to continue to do a thing with type and respectable appearance that was formerly accomplished through vibrating words. In fact, it is hard to believe that many newspapers take their editorial pages seriously or else they would so change them that readers would find them as irresistible as a streamer headline or a back-page article by Dr. Crane.

* * *

IN his younger days Don C. Seitz once wrote some leaders for the New York *Evening World.* They were extremely critical of certain persons prominent in the public eye and were stopped by Mr. Pulitzer, the owner of the paper, on the ground that they were set in the wrong kind of type." From that time on Mr. Seitz gave all his attention to the business office.

This anecdote along with others are told by Harold T. Pulsifer, managing editor of *The Outlook,* as a sort of preface to the contribution which Mr. Seitz makes to the issue of Nov. 25—a contribution that touches a lot of live wires usually avoided by editorial writers.

Mr. Pulsifer also announces a series of articles from Mr. Seitz's pen on the American press. Mr. Pulsifer believes that the publication of this series by Mr. Seitz will be one of the outstanding events in the publishing world in 1926.

* * *

OF all German books relating to journalism possibly the most interesting to American readers is "Handbuch der Auslandpresse" (Ernst Siegfried Mittler and Sohn, Berlin). This book was printed during the war and is a directory of the leading journals published in the countries opposing Germany. The most interesting part of the volume is the section under each paper which describes the attitude of that paper towards Germany.

The Ludlow in Florida

WITH the surprising growth of Florida has come an equally surprising growth of Florida's newspapers. Almost without warning the few newspapers of struggling circulation were called upon to furnish Florida's new millions with news of the outside world and these papers responded nobly to the task. Double—treble—quadruple circulation—page after page of advertising—put a strain on old methods that for a time looked serious. But the solution was in sight. Florida papers installed Ludlows.

Now single type worries are ended for the many Florida papers that have installed Ludlows and most of the display composition is set this easy, rapid way.

Florida, of course, appreciates Ludlow economy, but it was in every case the major features of Ludlow quality and Ludlow speed that sold this system to Florida papers.

We Announce a Revolution in the

'The Wood Bee-Line N

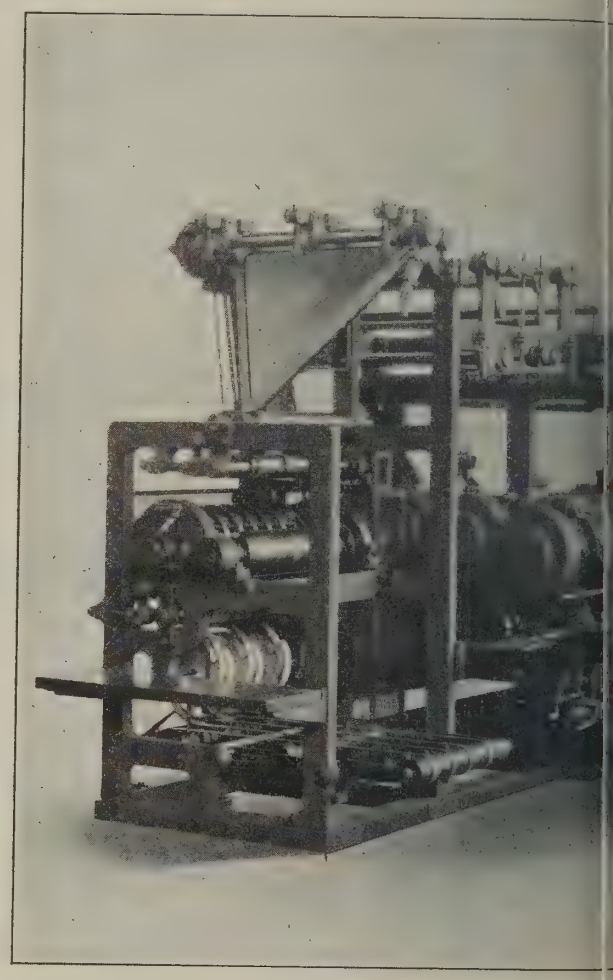
WE beg to announce the completion of a remarkable printing press that will place the pressroom of the smaller-city newspaper upon an even footing with that of the largest metropolitan daily.

This will enable the publisher who is installing for the first time a rotary press to conform at once to the standard manufacturing practice in use everywhere by the metropolitan newspaper.

That is to say:

First, his forms will be made up and molded in metropolitan fashion;

Second, his printing plates will be identical with those used by the metropolitan daily and will be cast and finished swiftly by an Autoplate machine without the need of hand tooling:



Third, his press will be plated exactly like and as quickly as a metropolitan press;

Fourth, he will have the same variety of pages and sections that is enjoyed by the metropolitan publisher;

Fifth, his speed of production will be as great; and

Sixth, he may freely make and use double-truck printing plates, containing double-page advertisements.

The Simplest and Swiftest S

Bee-Line L

This machine is designed after the latest fashion of unit construction, which permits of its easy and cheap expansion into a machine having any desired number of units. This insures its becoming a growing, permanent investment.

We are enabled to offer such a machine only because of inventions recently made by Mr. Henry A. Wise Wood. These have resulted in a press of such extraordinary simplicity that it can be bought, installed, and operated at a cost far below that of any metropolitan press in use, and is within the means of every smaller-city publisher.

This machine may be seen in daily operation at our shops in Plainfield, New Jersey, where preparations are under way for its manufacture in large numbers.

Deliveries will be made in the order of purchase.

EDITORIAL

I went by the field of the slothful, and by the vineyard of the man void of understanding:

And lo, it was all grown over with thorns, and nettles had covered the face thereof, and the stone wall thereof was broken down.

Then I saw, and considered it well: I looked upon it, and received instruction.

Yet a little sleep, a little slumber, a little folding of the hands to sleep:

So shall thy poverty come as one that travelleth; and thy want as an armed man. —Proverbs, XXIV, 30-34.

SELLING OUT CHEAP

WHAT do editors think of such incidents as the following, occurring almost daily in many offices: A managing editor receives from his own business office a serialized version of a screen play soon to be shown in the community, with instructions to publish it, good, bad, indifferent or rotten, as free publicity in part consideration of an advertising contract?

Editor & Publisher calls this a cheap sell out of the whole great principle of editing and also the whole great principle of ethical advertising.

Advertising salesmen all over the country, but not all of them, are returning to their offices with their pockets bulging with publicity, commitments upon editorial space fit to drive conscientious editors mad. The free advertising impositions that some publishers permit their advertising forces to unload upon news desks has, we submit as a cold fact, become a groaning outrage.

What does it mean? It means palsied salesmanship which permits space buyers to receive premiums of incalculable value for the mere asking; violation of laws calling for the labelling of advertising and the payment of extra postal rates on advertising sections; demoralization of editorial morale; a regimen of deceit upon the faithful readers of newspapers; a cynical popular conception that the whole American press has completely yielded to advertising influence and is both venal and irresponsible.

Doubtless, our readers can supply a dozen added counts to this indictment. Our own general view is that if advertising space in newspapers, with its marvelous power to sell merchandise and make men rich, cannot be sold upon its merits the whole press scheme falls. It can be sold, indeed is sold in ever increasing volume, on sound merit for a large section of the press which has never yielded to the easy way.

We can suggest no more important topic than this for the next meeting of the Society of Newspaper Editors. Everywhere conscientious newspaper men should take up this subject with bare hands and make the indignity, injustice and danger of it an issue in the open.

Responding to the sound policy of catering to local civic pride Indianapolis (Ind.) Star is offering prizes for the best suggestions to make the city a finer place in which to live.

HOLD ON TIGHT

PREPARE for a shock! Steady, now, you newspaper editors who believe that the last word has been said in press agentry! Are you holding on tight? Well, here goes: *The Saturday Evening Post* has employed a press agent who is asking the newspapers to give free publicity to that interesting publication's great public enterprise in offering to loan cash to boys who want to go to college and will pay off the debt by "delivering the Curtis publications."

The press agent, of course, presents this material to the daily press as "news for your readers." Oh, there's no compulsion—editors are told they are quite at liberty to judge the value of the material and give it such space as they may deem fit. And—yes—the simple request is added that if mention of the matter is made the press agent would greatly appreciate a free copy of the paper containing it.

That's that, and no comment of ours shall gild so fair a lily.

Study the amazing development of American export trade to find rich new opportunities for advertising service.

GRABBING FIRST PAGES

THE press agent triumphs of the week were listed by *Concord* (N. H.) *Daily Monitor* as follows: "Red" Grange in professional football; Henry Ford, the well-known manufacturer of automobiles, listening to the fiddling of Mellie Dunham; Mary Garden saying that she never changes her lingerie all the year 'round (I mean the weight) on first pages to the exclusion of all other things on this great, revolving globe.

Florida realtors by attempting suppression of news pictures of the big rain storm succeeded in giving to a very large section of the population of the country the impression that Florida has something sinister to conceal . . . they never learn.

OREGONIAN'S 75TH BIRTHDAY

THREE quarters of a century have rolled around in the history of the *Portland* (Ore.) *Oregonian,* and on December 4 that newspaper appropriately reprinted in facsimile, as a supplement to the regular issue, its first number, dated 1850.

The first paper was printed in a dingy log cabin. The first editor, T. J. Dryer, brought together, in four excellently composed page forms, a creditable layout of news and solid feature material. He worked by candle light. He ran off his paper on a Ramage hand-press, constructed of wood. His population was a few hundred homespun-clad pioneers that had crossed the plains in covered wagons. The town subscribers came to the newspaper office for their copies and circulation to the homesteaders in the valley was carried in the saddlebags of a single horseman.

The news story the first numbers of the paper told concerned the settlement of five western states, Indian uprisings, the discovery of gold, fears of civil war and the rivalry of various coast settlements for supremacy. Editor Dryer brought out his paper in a day when there was no railroad, no telegraph, no pony express, no stage coach, no regular schedule of communication by land or water. The first issue of the paper must have been a marvel of local interest. It contained a Governor's message, four columns in length. Its ringing editorials reflected the editor's firm faith in his slogan: "Equal rights, equal law and equal justice to all men."

A startling contrast to this humble beginning was offered by the issue of the Oregonian that contained the historic supplement. There were fifty-two pages of assorted news, feature material and business announcements gathered from all quarters of the globe. The little pioneer village has become a community of nearly a half-million folk.

In 75 years the Oregonian has known but two ownerships, that of Editor Dryer, whose tenure was short, and that of Henry L. Pittock and Harvey W. Scott, whose estates own the paper to this day. On the diamond jubilee occasion we find the present editor, Edgar B. Piper, saying in his editorial column: "The Oregonian has held fast to the old traditions, to every worthy concept, but it has modernized itself as well. One cannot forecast the development that must occur within the next three-quarters of a century. In all probability it will be as marked as that of the past. Yet here is a promise and a prophecy—the Oregonian will keep pace."

English advertising men are fighting "press agent puffs to advertisers" on the ethical ground that editorial pages must be fair to readers; a writer in The Advertising World for November "points with horror" to press agent corruption in America.

A STRANGE CASE

RECENTLY we chanced to see a copy of the *Ladies' Home Journal* for October, which the J. Walter Thompson Company had marked to show the business placed by the agency in that number. The following rather astonishing legend was typewritten on the fly-leaf of the exhibition copy:

"In this issue of the Ladies' Home Journal the J. Walter Thompson Company placed $225,645 worth of advertising, breaking for the fourth time in two years its own world record for the largest amount of space placed by an agency in any single issue of any magazine."

With this in mind we were not unprepared to learn that Dr. J. W. Watson, vice-president of the J. Walter Thompson Company, had disparaged newspaper advertising and declared that its function in national campaigning was merely "supplemental" to magazine coverage, in an address before 200 earnest students at the Advertising Club of New York last week.

Dr. Watson exhibited the most violent case of magazinitis, complicated by severe pretty picture lesions, that has come to our clinic in some years. Indeed, the patient manifested some symptoms that were wholly strange to modern science. For instance, he was quoted as saying that 'the proper way to use the newspaper in a national campaign was as a test medium. That is, if you were to successfully market Alaska prunes, you would buy some "experimental space" in local newspapers here and there and sing your song for a few days. Indeed, you would "over-advertise," meanwhile telling your prune-growing friends that they needn't expect any returns. Then, when you had thus stocked the local dealers, you would open in other towns, occasionally taxying in to look 'em over. After a while, when you were sure the goods were better than all rivals, you would open with big-gun magazine space and reap where you had so intelligently sown. You would use newspapers sparingly, because they are "too costly."

That is the story we got out of Dr. Watson's speech to the 200 earnest students of advertising, as it was reported, and we submit it to our veteran campaigning friends as a new symptom which defies diagnosis, except on the hypothesis that Dr. Watson is the same gentleman who imagined that there is a "world" race among advertising agents to put all of their client's eggs in a single basket.

Space saving suggestion: All long, wearisome handouts from advertisers, puffing persons or goods, may be handed to a staff man who can write snappy paragraphs and run under a column title: "With Our Advertisers."

PERSONAL

WALTER STRONG, business manager of the *Chicago Daily News* was in New York this week on business.

William R. Hearst has bought a herd of 175 fine Hereford cattle from John Beall of Portland, owner of the Diamond B ranch near Lowell, Ore.

Walter S. Dickey, owner and editor of the *Kansas City Journal-Post,* returned this week from Washington. Mr. Dickey was a guest of President and Mrs. Coolidge during part of his stay there.

L. L. Hough, editor and publisher of the *Canisteo* (N. Y.) *Chronicle,* has completely recovered from injuries received in a recent automobile accident and has resumed his duties in the Chronicle office.

Lafayette Young, Jr., general manager of the *Des Moines Capital,* who has just retired after two years' service as president of the Greater Des Moines Committee, was presented with a gold watch, chain, and knife at the annual dinner of the committee on Friday, Dec. 11.

Wallace Odell, publisher of the *Tarrytown* (N. Y.) *Daily News,* and Mrs. Odell left this week for a vacation at Macon, Ga. Mr. Odell is recovering from a recent breakdown.

Lawrence Hills, director of the Paris edition of the *New York Herald Tribune,* who has been in this country for several weeks on a business mission sailed for Paris, Dec. 19.

IN THE BUSINESS OFFICE

BERNARD R. CUNNINGHAM, formerly with the H. K. McCann Advertising Agency in San Francisco, has joined the *San Francisco Illustrated Daily Herald* as assistant advertising manager.

Morgan Teeple has succeeded A. J. Ripple as advertising manager of the *Hollywood* (Cal.) *News.*

W. H. Grubbs, formerly on the *Santa Rosa* (Cal.) *Press Democrat,* has become advertising manager of the *Klamath Falls* (Ore.) *News,* of which George P. Hunt has recently become the editor.

K. T. Boardman, formerly on the *Santa Barbara* (Cal.) *Morning Press,* has become circulation manager of the *Palo Alto* (Cal.) *Times.*

Bertram L. Orde has joined the *National Financial News* as advertising manager. Mr. Orde was formerly advertising manager of the *Savings Bank Journal,* and has been associated with the *Wall Street Journal, Barron's Weekly* and the *New York Commercial.*

Vincent C. Kelly, formerly conducting an advertising agency in Boise, Idaho, has become assistant promotion manager of the *Seattle* (Wash.) *Post-Intelligencer.*

Mr. and Mrs. Matthew Staley, formerly of Frederick, Md., are visiting relatives there. Mr. Staley who was formerly in the advertising department of the *Frederick Post* is now advertising manager of the *Tucson* (Ariz.) *Citizen.*

IN THE EDITORIAL ROOMS

JOHN EDWIN NEVIN, well known newspaper man and correspondent, has been named Washington correspondent of the *Minneapolis* (Minn.) *Daily Star.*

Earl R. Leach, newspaper man of Lima, O. has been appointed a member of the Board of Trustees of the Ohio State Library, for a term of 8 years.

Olin W. Archer, news editor of the *San Antonio Express,* and Mrs. Archer, are parents of a daughter.

Robert M. Zeller has been appointed assistant managing editor of the *Reading* (Pa.) *Eagle.* Albert N. Burkholder, is managing editor.

John T. Bourke, political editor of the *Cleveland News,* has recovered from an illness and returned to his desk.

William U. Swan, yachting editor, *Boston Transcript,* was the speaker at the annual dinner of the Hingham (Mass.) Yacht Club held recently.

Frank J. Barnard, political reporter, *Lynn* (Mass.) *Telegram-News,* was re-elected councillor in his home city of Brockton last week.

James E. Burke, city hall reporter, *Quincy* (Mass.) *Patriot Ledger,* has been ill at his home the past week.

George Hahn, editorial writer of the *New Britain Herald,* figured as a composer at the Rotary Club of that city recently. Mr. Hahn's piece was entitled "Mignon's Lament," and was played by a trio composed of violin, 'cello and piano.

Vaughn Washburn, formerly of Silver Creek, N. Y., has been appointed editor of the *Oakfield* (N. Y.) *Independent,* to succeed P. S. Tower of Utica who has gone to the *Brookfield* (N. Y.) *Courier.*

L. S. McKenna, sports editor of the *St. Paul Dispatch,* has returned to his desk after a period of illness.

William Ichabod Nichols of Wilton, Conn. and a senior at Harvard University, has been selected as one of the Rhodes scholars from Massachusetts. Mr. Nichols is president of the *Harvard Crimson,* the undergraduate daily and Harvard correspondent for the *Boston* (Mass.) *Globe.*

A. G. Winnie, recently chosen mayor of Port Clinton, O., is a former newspaper man. He was for 35 years editor of the *Ottawa County Republican.* Before that he published a paper at Clyde, O.

Miss Josephine E. Root has resigned as society editor of the *San Diego* (Cal.) *Morning Independent,* and announcement is made of her coming marriage to Lt. Robert S. Viall, U. S. M. C. Dorothy King has taken over the editing of the society page.

Nunnally Johnson, formerly of the *Brooklyn Eagle,* has joined the staff of the *New York Herald Tribune.*

Mercer S. Maloney, formerly of Philadelphia, has joined the reportorial staff of the *Trenton Times.*

W. G. Bowdoin, conductor of an art column for the *Newark Evening News* delivered a radio address on "Current Exhibitions in New York" from WRNY, Dec. 19.

FOLKS WORTH KNOWING

ARTHUR O. FULLER, who on Nov. 1 became general manager of the *Muskogee* (Okla.) *News* is one of the youngest executives in charge of an Oklahoma daily paper. He is just past 30 years of age.

ARTHUR O. FULLER

He began newspaper work on the *Enid Eagle* in the circulation department. His interest in his job was high and he shortly became circulation manager and later advertising manager of the Eagle.

Eight years ago he joined the advertising staff of the *Oklahoma News* as advertising solicitor, advancing to advertising manager and later to business manager.

For the past year he has been wth the Travis Printing Company of Oklahoma City.

Mr. Fuller has been an active member and an officer of the Oklahoma City Advertising Club, for many years. He was president of the club during 1924 and a director at the time of leaving for his new position. He was also an active member of the Chamber of Commerce, the Kiwanis Club and the Pirates Club.

MARRIED

MISS SADIE ELLA MAE LOWERY, of the accounting department, *Hagerstown* (Md.) *Herald-Mail,* to Ernest Calvin Rowe, of Hagerstown, in Washington, D. C.

Reginald Walker, of the *Fayette* (Mo.) *Democrat Leader,* to Evelyn Hotman of Callao, Mo., recently. Both are students of Central College at Fayette.

SPECIAL EDITIONS

STAMFORD (Conn.) ADVOCATE, 52-page Special Christmas Shoppers' Number, Dec. 3.

Natchez (Miss.) *Democrat,* Prosperity edition, Nov. 26.

Appleton (Minn.) *Press,* 12-page, Christmas Shoppers' edition, Dec. 4.

Springfield (Ill.) *State Register,* 26-page section Dec. 6 dedicated to the new Hotel Abraham Lincoln.

Boston Sunday Herald, 124-page Winter Resort Edition, Dec. 13.

PRESS ASSOCIATION NOTES

L. F. CURTIS, superintendent of markets of the Associated Press, is touring the Southern States, conferring with members on the A. P. financial service.

T. H. Walker, for the past 10 years Associated Press correspondent in Denver, Col., has been temporarily assigned to the New York office.

NEW PUBLICATIONS

ALTADENA (Cal.) HERALD is a new publication with Charles E. Decker as editor and William E. Perry as business manager.

Blaine Green and R. E. Winslow are publishers of the *Hoisington* (Kan.) *News,* a new weekly paper.

W. E. Settle, formerly with the *Ogden* (Utah) *Standard-Examiner,* has established the *Bear River Valley Leader,* at Tremonton, Utah.

CHANGES OF OWNERSHIP

KENNERLY WOODY and J. M. Larkin have bought the *Centralia* (Mo.) *Courier.* Woody was formerly with the *Kansas City Journal-Post* and the St. Louis bureau of the United Press. Larkin has been employed in the St. Louis office of the Western Newspaper Union. Both were formerly on the staff of the *Fayette* (Mo.) *Democrat Leader.*

J. S. Randolph, publisher of the *Edgerton* (Minn.) *Enterprise* has purchased the *Woodstock* (Minn.) *News* and *Holland* (Minn.) *Independent* and will operate all plants.

L. B. Hammock, former editor of the *Knox City* (Tex.) *Southwestern Journal,* has purchased the *Knox City Journal* printing plant and on Dec. 23 will launch the *Knox County Herald.*

R. R. Allison, a printer in Hartington, Nebr., has leased the *Laurel* (Nebr.)

LEADERSHIP
In the Empire State

In New York state, there are 58 cities which have newspapers employing a daily news-mat service. Central Press has 30 client-papers in the state. In the first 10 cities, Central Press has nine clients. In seven New York cities having only one newspaper, that newspaper employs the Central Press Association's complete and exclusive daily illustrated feature news service.

Consider this remarkable standing in light of the fact that New York City has an array of news feature syndicates. Central Press' position in the Empire State is impressive proof of the high merit of its service.

Among the Central Press clients in New York for the full general service, the daily full-page pictorial, or both, are: The Gannett Group, in Rochester, Utica and Elmira; Brooklyn *Standard-Union,* Buffalo *Courier,* Buffalo *Times,* Rochester *Herald,* Schenectady *Gazette,* Troy *Times,* Albany *Telegram,* New York *Jewish Daily Forward,* the latter the great leader in its field.

The Central Press Association

V. V. McNITT, President — Central Press Bldg., Cleveland — H. A. McNITT, Manager

P. S. We Produce the World's Best Picture Page.

Advocate from its publisher, C. E. Nevin, who is taking a vacation after 26 years' editorial work.

Sonoma (Cal.) *Expositor-Forum* has been purchased by W. L. Gaston, of Reedley, Cal., and John O. Strain, a retired Kansas merchant, from the estate of the late Orville Hose. Mr. Gaston will be the business manager, and Mrs. Gaston, an experienced writer, will have charge of the editorial department.

Paul Hubbard, for three years editor and publisher of the *Holland* (Minn.) *Independent*, has sold his paper to J. S. Randolph, publisher of the *Edgerton Enterprise*. The Independent will be published in conjunction with the Enterprise and *Woodstock News*.

NEW PLANTS AND EQUIPMENT

MICHAEL ANDERSON, editor of the *Tulare* (S. D.) *Reporter*, has bought a building formerly occupied by the defunct Citizens bank and has moved his printing plant into it.

Dow, Jones & Co. have purchased from R. Hoe & Co., Inc., a standard pattern unit-type Sextuple Press for the *Wall Street Journal*.

Recent Ludlow installations include the *Winnipeg* (Ont.) *Tribune, Clearwater* (Fla.) *Sun, Huntington* (W. Va.) *Dispatch, Stuart* (Fla.) *Daily News, Findlay* (O.) *Morning Republican,* and the *Crookston* (Minn.) *Times*.

Bakersfield (Cal.) *Californian* is to have a new $100,000.00 plant, for which a San Francisco architect is preparing plans.

New Ludlows are reported in the plants of the *Brooklyn Daily Times, Ft. Lauderdale* (Fla.) *Daily News, Richmond* (Cal.) *Independent* and the *Key West* (Fla.) *Herald News*. This last paper has also added an Elrod.

Sidney (Australia) *News* has prepared the pressroom of its recently built new home for the Superspeed Sextuple shipped on the S. S. Trevorian by R. Hoe & Co., Inc., recently.

Winona (Minn.) *Daily Republican-Herald* is enlarging its press facilities by adding a unit.

Three more "Superspeed" 16-page printing press units and folder were shipped to the *Philadelphia Bulletin* last week by R. Hoe & Co., Inc.

Ogden (Utah) *Standard-Examiner*, has obtained a 20-year lease on a good sized portion of the Kiesel Building on Kiesel avenue, a few steps from its present location, and will move into its new quarters about Jan 1. Considerable new equipment is being purchased and the composing room will be all-metal equipped.

SCHOOLS

SPONSORED by the Southern California Editorial Association, students in "The History of American Journalism" class at the University of Southern California, have commenced the compilation and arrangement of all California laws which refer to legal publications and legal news in the press. The data gathered will be published in book form, and copies later distributed to every member of the association. The work is being done under the supervision of Marc N. Goodnow, of the U. S. C. School of Journalism.

Ring Lardner has been invited to be the principal speaker at the first annual gridiron dinner Jan. 22, to be held at the University of South Dakota at Vermillion. The dinner is one of the features of Journalism Day at the university.

"Criscrosses," this year's annual musical comedy, which was written and presented Dec. 9 and 19 by students of the Missouri University School of Journalism, was the first costume play ever presented by journalism students of that school.

Prof. Izil Long, pioneer woman instructor in journalism, has resigned as assistant professor in journalism at the Kansas State Agricultural College department of journalism. Prof. Long has been connected with the department since 1918, and has been in charge of the news writing, magazine feature and history of journalism classes.

Several prominent American women journalists will be guests at the first annual Matrix Table banquet of Theta Sigma Phi, honorary journalistic sorority, at the University of Wisconsin, on Jan. 9. Sophie Kerr Underwood, New York, Zona Gale and Genevieve Forbes Herrick, Chicago, will be special guests of honor.

Matsuji Muneo, former student in the Missouri School of Journalism and now a member of the staff of the *Tokyo* (Japan) *Asahi*, has written in Japanese a book, "A Study of Journalism." The frontispiece is a Japanese translation of "The Journalist's Creed," used in the Missouri School of Journalism.

Wayne Blott of Carroll College, Waukesha, was elected president of the Wisconsin Intercollegiate Press Association for the year at its convention in Milwaukee last week. Doris Tucker, Ripon College, was named vice-president; Raymond Strubbling, Carroll College, secretary, and R. P. Winch, Milton College, treasurer. The 1925 meeting will be at Carroll College.

More than 500 high school delegates were entertained at Eugene, Ore., by the University of Oregon at the sixth annual state high school conference.. One of the largest units at the conference was the State High School Press Association, made up of high school newspaper correspondents and editors of student publications. Robert L. Thomas, editor of the *Washington High School Lens* of Portland, was elected president; Bruce Davis of Union, vice-president, and Frances McGilora of Franklin High School, Portland, secretary.

Thirty students in the school of journalism of the Harrisonburg (Va.) State Teachers' College, under Prof. Conrad T. Logan, visited the office of the *Harrisonburg Daily News-Record* recently and were given an opportunity to observe the complete process of newspaper making.

ASSOCIATIONS

L. B. SKEFFINGTON, gravure editor, Rochester Democrat & Chronicle, was elected president of the **Rochester (N. Y.) Press Club** at the annual meeting Dec. 9. Other officers are: Vice-president, Herman Ferno, Abendpost; secretary, Arthur H. Crapsey, Times-Union; financial secretary, William J. Kirby, Herald; treasurer, Theron Knapp, Herald; Bartley Brown, Journal and Post-Express and Ernest A. Weiss, Herald, were elected to the Board of Governors to fill vacancies. Other members of the Board are William H. Marks, Times-Union, and Paul McFarland, Democrat & Chronicle. Preparations for the annual Press Club Show to be staged at the Lyceum Theater, Feb. 9 and 10 rapidly are nearing completion.

Boston Photo Engravers Union No. 3 held their annual election of officers at the American House last week. J. B. Fennessy was elected president; D. A. Driscol, vice-president; J. E. Riley, recording secretary; G. H. Dodge, financial secretary; R. G. Kelly, treasurer; and J. B. Fennessy as delegate to the Allied Printing Trades Council.

Officers of the **Arkansas Interscholastic Press Association** recently formed at the invitation of the University of Arkansas Men's Press Club and sponsored by that club are: President Dorothy Bogy of Pine Bluff; vice-president, La Fayette Sammons, editor of the Jonesboro High Times; corresponding secretary, Lura Hudson of Hot Springs.

Boston Proofreaders' Association enjoyed a social evening Dec. 10 when a play, "The Goose Herd and Goslins" was presented. An original poem, "Thirty," was read by Mrs. Elizabeth Robbins Berry. It was voted to send a Christmas donation to the Society for the Prevention of Cruelty to Children.

William A. Alcott, librarian of the Boston Globe, was elected president of the **Special Librarians Association** of Massachusetts, at its recent meetings. Much interest has been awakened among librarians and library work since the big convention held in Boston by librarians last Summer.

Lockport (N. Y.) Advertising Club has elected these officers for 1926: president, Douglas R. Patterson; vice-president, Joseph Levy; secretary, James F. Barclay; treasurer, Karl W. Strauss; directors, Homer M. Alberty; Harry H. Conway, Harold F. Stonson and G. Oscar Wilson.

Newspaper Club of Boston is making plans to celebrate its 40th anniversary at the University Club on Thursday evening, Jan. 7.

New England Women's Press Association held its monthly meeting in Boston Dec. 14. An entertainment was given under the direction of Mrs. Charles H. Bond. Mrs. Norah J. Barbour and Mrs. Inez M. Southworth comprised the committee in charge of the meeting.

New York Press Association will hold its 74th annual convention in Syracuse, Feb. 5 and 6. Headquarters will be at the Onondagao Hotel. John W. Baker of the Ithaca Journal-News is president, and J. W. Shaw, secretary.

Haverhill (Mass.) Typographical Union Local No. 38, held its annual election of officers last week. William B. Lewis, dean of Haverhill printers was re-elected president for the seventh consecutive time.

Pennsylvania Good Fellowship Club of the Associated Press held its annual meeting and dinner at the Penn Harris Hotel, Harrisburg, on Dec. 12. William S. Meck and B. L. Theurer, of Harrisburg, were hosts. E. B. Murphy, of Reading, was re-elected president, and Robert Petrie, of Reading, secretary.

WITH THE GENERAL ADVERTISERS

$10,000,000 Merger of Ice Machine Companies—Southern Syndicate Purchases Huylers, Inc.—Graham Now General Sales Manager for Dodge Brothers, Inc.

FORMATION of the Electric Refrigeration Corporation was announced this week by banking interests which have completed a $10,000,000 merger of electric refrigerator companies.

The Kelvinator Corporation, largest manufacturer of household refrigerating equipment, and the Nizer Corporation, largest manufacturer of commercial electric refrigerating units, will combine with the Grand Rapids Refrigerator Company. Kelvinator and Nizer will exchange share for share into the stock of the new company and Grand Rapids will be taken over for a cash consideration of approximately $6,000,000. Part of this money will be raised by an issue of Electric Refrigeration debentures and the balance will be taken from the treasury of the combination.

Details of the capitalization of the Electric Refrigeration Corporation are not yet ready for announcement. The purpose of the consolidation, bankers said, was to enable the Kelvinator and Nizer corporations to obtain control of the company making the cabinet in which the electric refrigeration units are installed.

Plans have also been under way for some time for an expansion in output to meet increasing demand and with the new box-making company the production of complete units will be simplified.

A Southern syndicate, representing $7,500,000, has purchased Huylers, Inc., New York candy manufacturers and large scale advertisers, it was announced this week in New Orleans.

Heading the syndicate are Rudolf S. Hecht, president of the Hibernia Bank and Trust Company; Fred W. Evans, president and general manager of D. H. Holmes Company; Irvin Fuerst, former head of Fuerst & Kraemer of this city, and now of New York; Percy H. Johnston, president of the Chemical National Bank of New York, and H. B. Baruch of Henry Hentz & Co., New York.

The syndicate subscription, it is announced, is sufficient to cover the purchase price and to provide ample capital for expansion, which is planned on a large scale. The program includes the construction of branch factories, of which the first will probably be in New Orleans; the opening of new Huyler retail stores all over the country.

Mr. Hecht, who led the syndicate that reorganized the Southern Cotton Oil Company recently, will be chairman of the board. Mr. Fuerst will be president in complete charge of operations and management, and Mr. Evans will be one of the vice-presidents.

Associated with the new company as directors will be A. D. Geogahan, president of the Wesson Oil and Snowdrift Company, which succeeds the Southern Cotton Oil Company, and Meier Eisemann, New Orleans realtor, who, with H. Clifford Bangs of Washington, was instrumental in bringing together the principals in the recent negotiations.

Robert C. Graham, vice-president of Graham Brothers, has been appointed vice-president and general sales manager of Dodge Brothers, Inc. Dodge Brothers this week announced a price reduction on its automobiles. Expansions have been completed which will nearly double the capacity of the factories in 1926.

Interests connected with John N. Willys, president of the Willys-Overland Company, have acquired control of the F. B. Stearns Motor Car Company, through the purchase of the majority stock interest. The Stearns company has manufactured Stearns-Knight cars since 1911.

Ovington & Co., which operates a New York gift store and a mail order business, is planning to open a new store in Chicago. The company's mail order business has recently become very large because of the fact that an international advertising campaign has been pursued.

The Continental First Mortgage Bond Company, Chicago, is conducting an extensive newspaper advertising campaign to acquaint people with the city's rapid growth and development.

H. F. Jones, advertising manager, of the Campbell Soup Company, that newspapers are being used in an experimental campaign. Of late years this big advertiser has concentrated its advertising program in the magazines.

Arthur Sullivan will resign as vice-president of the Joseph Richards Company, Inc., New York advertising agency, Jan. 1 to become sales development and advertising manager of the Tide Water Oil Company, New York.

Collier Joins Boston American

Franklin P. Collier, prominent *Boston Herald* cartoonist for the past 11 years and creator of the daily comic, "Otto Grow," this week joined the art staff of the *Boston American*. Mr. Collier began his career as an artist on the *Boston Globe* in 1904, remaining there 10 years. From the Globe he went to the old *Boston Journal*, leaving in 1916, to do free lance work. In April, 1918, he joined the Boston Herald continuing there until this week.

New Spanish Language Daily

El Pueblo, a Spanish language daily newspaper was launched recently in El Paso, Tex., by a group of Mexican citizens. P. V. Cisneros is editor and part owner. The paper is circulated in Juarez, just across the border, as well as in El Paso. Armando Canales is foreign advertising manager.

Prints Booklet for Subscribers

The Enid Publishing Company, publishers of the *Enid* (Okla.) *Daily Eagle* and the *Morning News* have printed a booklet containing pictures and brief biographies of each member of the staffs and a short history of the papers. M. C. Garber is editor and W. M. Taylor, manager.

ADVERTISING AGENCY AFFAIRS

Cogswell Joins William H. Rankin Staff—Buffalo Agency Advances Comstock—Buy Interest in Rochester Agency—Son Joins Father's Firm

A. J. COGSWELL, for 17 years in advertising agency work, has been appointed art director of the William H. Rankin Agency, Inc., New York, it was announced this week.

Other additions to the staff of the same agency include S. F. Melcher, copy and contact executive; and S. L. Gould, copy writer.

Mr. Cogswell, prior to joining the Rankin organization was connected with the M. P. Gould Company of New York. From 1909 until 1914, he was with the Howard-Ireland Agency, Philadelphia. At one time he was also associated with the Advertising Art Service of Philadelphia.

Mr. Melcher began his career with the *Hartford Courant*. He has also been connected with the Hanser-Churchill Agency, the Hulscher-Rothenburg Agency, and the George Batten Company.

Charles Bankert and Radford Beck have been added to the service department of the same agency. Mr. Beck was formerly with the *Indianapolis News*.

H. W. Comstock, formerly production manager, has been made assistant to the president of the E. P. Remington Advertising Agency, Buffalo. N. Y.

Albert R. Dwyer has joined the staff of the John C. Powers Company, Inc., New York, printing and lithographing. He was formerly account executive of William T. Mullally, Inc., New York

E. G. Countryman and E. R. Lapp have purchased an interest in the business of H. C. Goodwin, Inc., Rochester advertising agency.

Miss Elma Olin has left the Blackman Company, Inc., New York advertising agency, to join the copy department of the Morse International Agency, New York.

Ketchum, MacLeod & Grove, Inc., Pittsburgh, announces the addition to its staff of Harry Stanley, associate editor and advertising manager of the *Scholastic*, Pittsburgh.

C. S. Redfield, president of the Redfield Advertising Agency, New York, has appointed LeGrand L. Redfield, his son, his assistant. L. L. Redfield has been with the *Talking Machine Journal*, New York, and was at one time with the *New York Evening Journal*.

W. M. Rose, formerly vice-president and account executive of Walter B. Snow & Staff, Inc., Boston advertising agency, has taken over control of the Millington Company, Boston.

George F. Weber has left the *Milwaukee Sentinel* to join the Milwaukee branch of Barron G. Collier, Inc.

Frank E. Breyfogle, formerly an account executive with the George L. Dyer Company, New York, is now on the executive staff of Doyle, Kitchen & McCormick, Inc., also a New York advertising agency.

Mrs. Gaines of the Thelma Gaines Advertising Agency, San Antonio, has announced a reorganization which brings into the firm Miss Jane Wood, advertising manager of Joske's, San Antonio, as production manager, and Alexander McCullen Shephard, graduate of the Cleveland School of Fine Arts, as artist. Both will join the Gaines organization Jan. 1.

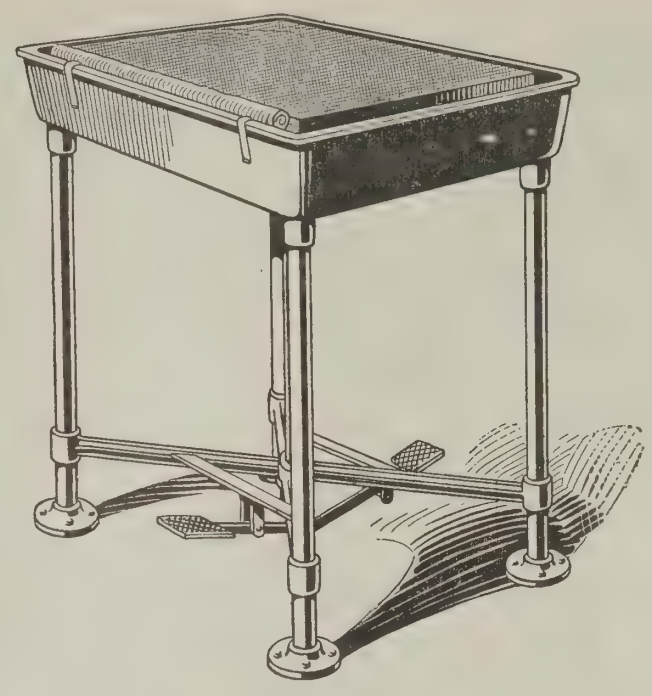
Care of

EDITOR & PUBLISHER

POWERS PERFECTION COOLER

Every Newspaper Photo Engraving Plant should have at least one

The Powers Perfection Cooler requires no water connection of any kind.



It can be moved at will by simply picking it up and placing it where it is wanted.

It has no mechanical parts to get out of order.

It applies cold water evenly and simultaneously to all parts of the plate—ON THE BACK OF THE PLATE only.

It cools the plate instantaneously to the exact temperature required and saves wiping, mopping and reheating.

The price of the Powers Perfection Cooler is $350

The *Powers Perfection Cooler* met with the instantaneous approval of both the workers and the owners wherever it was installed and tried. The men in the shops like it because it helps them in their work. They save time and effort, turn out more work and better work, and do it with very little physical labor. It is a clean, workmanlike way of doing what is otherwise a messy, sloppy task.

Proprietors like it because it saves gas, water, time and makeovers. These savings mean money and profits and that is what we all want. To satisfy yourself, go into your etching rooms and see what happens when the etcher tries to cool a large plate by dragging it over a roller wrapped in old towels and rags or a piece of burlap. Watch the plate buckle and then see him try to straighten it out. You know what that means in color work.

The use of the Powers Perfection Cooler does away with buckled and twisted plates, the splashing of water on the face of the plate and the constant work and worry connected with etching. A zinc etching is heated from 13 to 16 times by the etcher. That tells the story.

WHAT'S WHAT IN THE FEATURE FIELD

Swan Writing New York Letter for NEA—D. P. Syndicate Announces Houston Memoirs—Miss O'Dell and Howard Wheeler Resign from McClure

GILBERT SWAN, newspaper man and feature writer, has joined the staff of NEA Service to write the column "In New York," previously conducted by James W. Dean, transferred to the Cleveland office of the same syndicate.

GILBERT SWAN

Starting on the Pacific Coast nearly 20 years ago, Swan has been in newspaper work in many different cities of the country. He has been in New York for the last four years as a news writer.

For some time he collaborated with Mr. Dean in writing the column, and also has written features for NEA, but heretofore his name has not appeared with his stories.

The D. P. Syndicate will release early in 1926 a new series of memoirs. David F. Houston, ex-Secretary of the Treasury and one of Woodrow Wilson's intimate friends, has compiled his extensive memoranda of the eight years between 1913 and 1919. A portion of the manuscript concerns the period when Wilson, though critically ill, continued to direct the affairs of the Government from his bed in the White House. More than any other Cabinet member, Houston enjoyed Wilson's confidences. Both of them had been educators, and their tastes met on many subjects. Houston is famous as a raconteur and also a historian.

H. A. McNitt, general manager of the Central Press Association, Cleveland, is on a combined business and pleasure trip to Florida.

Bozeman Bulger, of the *New York Evening World,* has collaborated with Mrs. Mathewson in writing a biography of Christy Mathewson, which is being offered by Bell Syndicate, Inc., New York, as a daily serial to run six weeks. Bulger was an intimate friend of the dead baseball star, and the biography covers Mathewson's life from childhood until his death. The serial is illustrated with new photographs.

Jo Archibald, free-lance artist, has joined the staff of the Wheeler-Nicholson Syndicate, Inc., New York, Maj. Malcolm Wheeler-Nicholson announced this week. At present he is illustrating the feature, "Champions Past and Present."

King Features Syndicate, Inc., New York, is now offering for national distribution, "Tommy Tucker," a new comic strip drawn by Herman Thomas, which has been appearing in the *New York Mirror* for several weeks.

Mrs. Florence Smith Vincent of the *New York Evening Telegram,* is writing "Peter's Adventures in Animal-land" for the Central Press Association, Cleveland, continuing the series of bedtime stores she began some years ago.

"How to Play Basketball," a series of 30 articles, written by an unnamed Army captain, is a new feature announced this week by the International Syndicate, Baltimore, Md.

Edward Verdier, is drawing a new two-column daily panel called "Go-Getters," for the Premier Syndicate, New York.

T. Crawford Hill of the art staff of the Central Press Association, Cleveland, is convalescent from a recent illness.

"Lost Leaves of History," by P. E. Sumner, a daily two or three column drawing, has been added to the list of King Features Syndicate, Inc.

Announcement was made this week that that Miss Edith O'Dell, vice-president and editor-in-chief and Howard Wheeler, secretary and general manager of the McClure Newspaper Syndicate have tendered their resignations. They gave notice on Nov. 7, their resignations to become effective at the expiration of their present contracts, Dec. 31.

TESTIMONIAL TO ELLIS

Former Worcester Publisher Honored by Staff at Banquet

More than 375 staff members of the *Worcester* (Mass.) *Telegram-Gazette,* together with representatives of Paul Block, Inc., national advertising agency, which serves the publications, united Dec. 13 in a testimonial dinner to Theodore T. Ellis, the retiring publisher. George F. Booth and Harry G. Stoddard, present owners of the papers, were the principal speakers.

A testimonial etched on copper and signed by every employe of the papers, was presented to Mr. Ellis in behalf of the staff by Victor M. Friar. The dinner was served in the ballroom of the Bancroft at 2 o'clock in the afternoon.

The testimonial gift was in three sections, each in a rosewood frame, size 9½ by 13½ inches, and hinged together. In the center was a large gold portrait of Mr. Ellis in relief on a copper plate, with reproductions in miniature of the three newspapers, the Telegram, the Sunday Telegram and the Gazette, as backgrounds. The centerpiece was flanked on either side with the signatures of all the employes of the institution.

Roland F. Andrews, editor of the Telegram-Gazette, was toastmaster. Paul Block, president of Paul Block, Inc., was among the speakers.

Midyette Buys Missouri Daily

The *Mt. Washington* (Mo.) *News* a daily as been bought by W. B. Midyette, former student in the Missouri School of Journalism, and his wife, a graduate. Midyette this summer was editor of the *Columbia* (Mo.) *Herald-Statesman*

BEAVERBROOK DEFENDS INDEPENDENT PRESS

Proprietor of London Daily Express in New Book Published This Week Says Newspapers Have Right to Choose Own Public Policies

Independent journalism is favored as against the old partisan press by Lord Beaverbrook, proprietor of the *London Daily Express,* who in "Politicians and the Press," a book by him published this week in England, expresses his views on this and other newspaper subjects.

Referring to continual quarrels between politicians and the press in these days when newspapers tend more and more to break partisan shackles and take whatever attitude they please, Lord Beaverbrook writes:

"The newspaper has an equal right with statesmen to choose its own public policy and subordinate its relations with individuals in accordance with how far they agree or disagree with it on national issues. But this at least politicians will not allow. The independent newspaper, pursuing a national course uninfluenced by and often cutting across party interests, is a new factor and one extremely inconvenient to the dominant executive of the day. It is, therefore, resented like all fresh influences."

Lord Beaverbrook greatly favors independent journalism as against the old partisan press which, he writes, "produces a wrong relation between the newspaper and its public," but the politician, he adds, "sighs for the good old days when any party error would be defended by a hundred able pens." Their resentment, he says, finds vent in the constant recreation that any newspaper opponent is animated solely by personal spite on the part of its editors.

What he considers the fallacy of such arguments in general is illustrated by Lord Beaverbrook by the following experience in his own career:

"I am told, for instance, that the Daily Express has a vendetta against Mr. Baldwin when it opposes his Mesopotamian policy. Yet the Daily Express began its campaign for the evacuation of Mesopotamia when Mr. Lloyd George was Prime Minister, strongly urged Mr. Bonar Law to take the step he did in limiting our occupation to 1928, held the same view when Ramsay MacDonald was in power and merely continues to maintain a consistent policy now that Mr. Baldwin is in office.

"It is incredible that any one with any pretension to logic or even sanity can propound the view that the unvaried policy of the newspaper, dating from 1919, when Mr. Baldwin was in a position of no political importance, was invented to annoy Mr. Baldwin as Premier six years later. Yet I constantly see this theory advanced."

Lord Beaverbrook declares that the future of Great Britain lies in the British Empire, not Europe, and that "the British Empire is the greatest instrument for good that the world has ever seen." He remarks in conclusion that if his action is to be so limited by party exigencies that he is barred from expressing his real views "I would at once quit public life altogether and return to the Canadian village whence I came."

Named Official State Paper

The *Albany Knickerbocker Press,* published by the Press Company of Albany, on Dec. 12 was designated the official state newspaper for 1926. The *Albany Evening Journal,* which was purchased by the Press Company during the past year, had been the official state paper. The law authorizing the designation of a state paper requires it to publish all appointment of terms of the Supreme Court, the rules of practice adopted by the Court of Appeals, notices and advertisements required to be published by state offices, departments, boards, bureaus and commissions, and notices of actions by the state against foreign corporations.

Ad Conventions Set for Toledo

Two advertising conventions will be held in Toledo, O., the latter part of next month, according to programs announced this week at headquarters of the Associated Advertising Clubs of the World, New York. The National Advertising Commission will meet at the Hotel Secor, Jan. 26-27, and the Fifth District, A. A. C. W., will hold its annual convention Jan. 27-28. Thomas H. Sewell, president of the Toledo Advertising Club, is chairman of the Fifth District, while W. Frank McClure, vice-president of the Albert Frank & Co. Chicago advertising agency, heads the National Commission. The financial program of the A. A. C. W. is the main topic of the latter meeting.

Tennessee Daily Adding Roto

Eastern Tennessee will have its first rotogravure section when this feature will appear as a regular addition to the Sunday edition of the *Kingsport* (Tenn.) *Times* on Dec. 20. The Times, which began publication as a daily in 1924 after eight years as a semi-weekly. No foreign advertising will be accepted for the new section, it was stated.

Hendricks Leaving Asheville Times

W. C. Hendricks, managing editor of the *Asheville* (N. C.) *Times* has resigned, effective Jan. 1, and will be succeeded by Robert M. Johnston, recently of the *Chicago Tribune* staff. Mr. Hendricks will enter the real estate business. Mr. Johnston has served on the *Oklahoma City Oklahoman* and *Chicago Daily News,* in addition to his connection with the Chicago Tribune. He also served as an instructor in journalism at Northwestern University, Chicago.

Read EDITOR & PUBLISHER every week.

For Seven Years Meyer Both Company Has Used GOSS EQUIPMENT exclusively

"Our production at the present time is around 2400 mats per day. Our equipment is all Goss and from our past good experience we have every reason to believe we will never use anything else but Goss", advises Mr. M. B. Conhaim, Director Services & Sales, Meyer Both Co., Chicago.

Their Matrix room was opened January 1, 1919 with four Goss steam tables and two Goss mat rollers.

"We have added to our equipment to the point where we now have eight steam tables and four rollers, operated both day and night, with a force of eleven men, and we turn out more mats today than any job shop in the United States. We imagine this probably goes for the world."

GOSS

STEREOTYPING MACHINERY

Carried in Stock: Flat Casting Boxes, Friction-Driven Curved Routers, Automatic Gas Fired Steam Generators, Combination Jig Saws and Drills, Radial Arm Flat Routers Ball Bearing Form Tables, Combination Wet and Dry Mat Rollers, Motor-Driven Steam Tables. Fully descriptive literature, prices and terms on request.

REPORT CITES HEARST TAX PAYMENTS

Publication at Washington of Committee's Secret Proceedings Last May —Hearst Organization's Defense Based on Tax Law

WASHINGTON, Dec. 15.—The report of the Couzens Treasury income tax investigation committee was made public this week. The committee's hearing occurred last May and was secret.

In presenting to the committee the need for an amendment of the law, L. C. Manson, the committee's counsel, used among others the case of William R. Hearst as an illustration. Mr. Manson, according to the official report, summarized the matter thus:

"Mr. Hearst controls several newspapers. He made a contract with these newspapers that if they would put in a rotogravure section and would give him the proceeds of the advertising from the rotogravure section, he would pay the cost of the rotogravure section. The rotogravure section will carry about so much advertising. If they put enough advertising in the rotogravure section to make that section a paying proposition, without so loading it up with advertising that it loses its attractive qualities as one of the features of the newspaper—

The Chairman—"Newspaper men tell me that generally that is a losing feature of the business."

Mr. Manson—"That has been found by the bureau in another department that the rotogravure is always a losing venture. In other words, he might just as well have made a contract to pay the cost of the first page. It would not be quite as disastrous a loss; but the rotogravure section is one of the incidents of the newspaper. As long as newspapers will carry that section, which is the section that contains all of the attractive pictures in the Sunday papers—as long as newspapers will carry that section and offer that service to their subscribers and purchasers, other newspapers must carry it. It is one of the features of a newspaper; it is incidental to it, just exactly as the front page is.

"By charging off the loss incident to this rotogravure section, the following results in Mr. Hearst's taxes are arrived at:

"Under date Apr. 18, 1923, Revenue Agent Harry Herskowitz made a report of his investigation of the income of this taxpayer and recommended the assessment of an additional tax for the year 1918 of $204,615.68, 1919 of $47,964.66, and of 1920 of $21,009.55.

"Under date of Aug. 15, 1923, the bureau forwarded an A-2 letter to the taxpayer notifying him of a proposed assessment of $272,978.38, representing additional taxes for the years in question, as follows: 1918, $204,004.17; 1919, $47,964.66, and for 1920, $21,009.55.

"The taxpayer filed a protest against the proposed assessment of the bureau. As a result of this protest a re-audit of the taxpayer's income was made and on Feb. 9, 1924, a second A-2 letter was mailed to the taxpayer notifying him of a proposed assessment on account of additional taxes of $17,033.19, and $47,964.66 for the years 1918 and 1919 respectively, and an overassessment of $8,626.39 for the year 1920.

Senator King—"It shows that recommendation of the agent of approximately $278,000 was not followed.

Mr. Manson—"If the committee will bear with me for just a minute, I will try to ascertain how much of that is due to the charging off of these manifestly corporate losses against his individual income.

"The taxpayer set up as a loss, due to this transaction, the sum of $301,232.95 for the year 1918. If this loss had been deducted from the income of the corporation under which they were incurred, their taxes would have been reduced approximately $36,000, at the rate of 12 per cent. However, by allowing the loss from the individual return of this taxpayer, a saving of $187,582.49 was made by him, with a resultant loss to the government, by allowing the deduction to be made from the individual return instead of the corporation return, of approximately $151,000 in income tax."

It was brought out at this point that the Star Company, then the principal corporation of a group of over 30 affiliated corporations owned by Mr. Hearst in their entirety, showed a net income for 1919 of $1,171,332.14, not subject to war taxes or excess profits taxes, but only to a normal tax of 12 per cent.

The report of Revenue Agent Herskowitz, which is the basis for the committee's criticism of the bureau's action in allowing Mr. Hearst's claim for $301,323.95 lost in the rotogravure venture, gives this information upon the latter:

"Mr. Hearst made a contract in 1918 with the Boston, Chicago, and New York papers to purchase all materials and defray all expenses necessary in the production of the photogravure section of the above publications, provided he received all advertising receipts of these particular sections.

"The feature was in its experimental state. It was quite evident to any man that the advertising receipts of the photogravure section would not by far be sufficient to offset the disbursements. As a matter of fact, that section was a losing proposition to all newspapers. Here we have a shrewd, successful, far-visioned newspaper man of vast experience entering into a contract which in advance he must have known to be a losing venture. The inference is simple. Mr. Hearst had a large income from dividends. The corporations were his. Why not experiment with his personal income, of which the government would get 56 per cent, and develop his newspaper enterprise. At best this money was a loan, an advance, a capital outlay.

"It is strange that this contract obtained in a high-rate year. Why was it not continued in 1919 and the following year? On the theory that this venture was not entered into with a view to investment and profit, but solely to relieve himself of the high rate of taxation, the loss has been disallowed. The contract would certainly not have been entered into if the corporations were under control of outsiders. This fact alone spells out his intention."

Against the agent's inferences, theories, and adverse decision, the Hearst organization stated the reasons behind Mr. Hearst's assumption of the gravure section's profits and losses, as follows

"Early in 1918 the taxpayer conceived the idea of increasing the revenues of certain newspapers by adding to the Sunday editions a rotogravure section. The rotogravure section had proved successful and remunerative prior to this time with other newspapers.

"The managers of Mr. Hearst's newspapers were not in accord with the taxpayer's view because of the difficulty of financing a rotogravure section during the war years. After much consideration the taxpayer agreed to finance the venture and to pay all expenses in connection with the publication of a rotogravure section, provided all revenues derived from the advertising placed with this section of the newspapers were credited and paid to the taxpayer. Pursuant to this agreement, the rotogravure sections were published in three newspapers for a period of several months. At the end of the period the venture was abandoned because it proved a financial loss.

"The taxpayer has annexed hereto the affidavits of Messrs. Julian M. Gerard, Bradford Merrill, and A. J. Kobler in support of his contention.

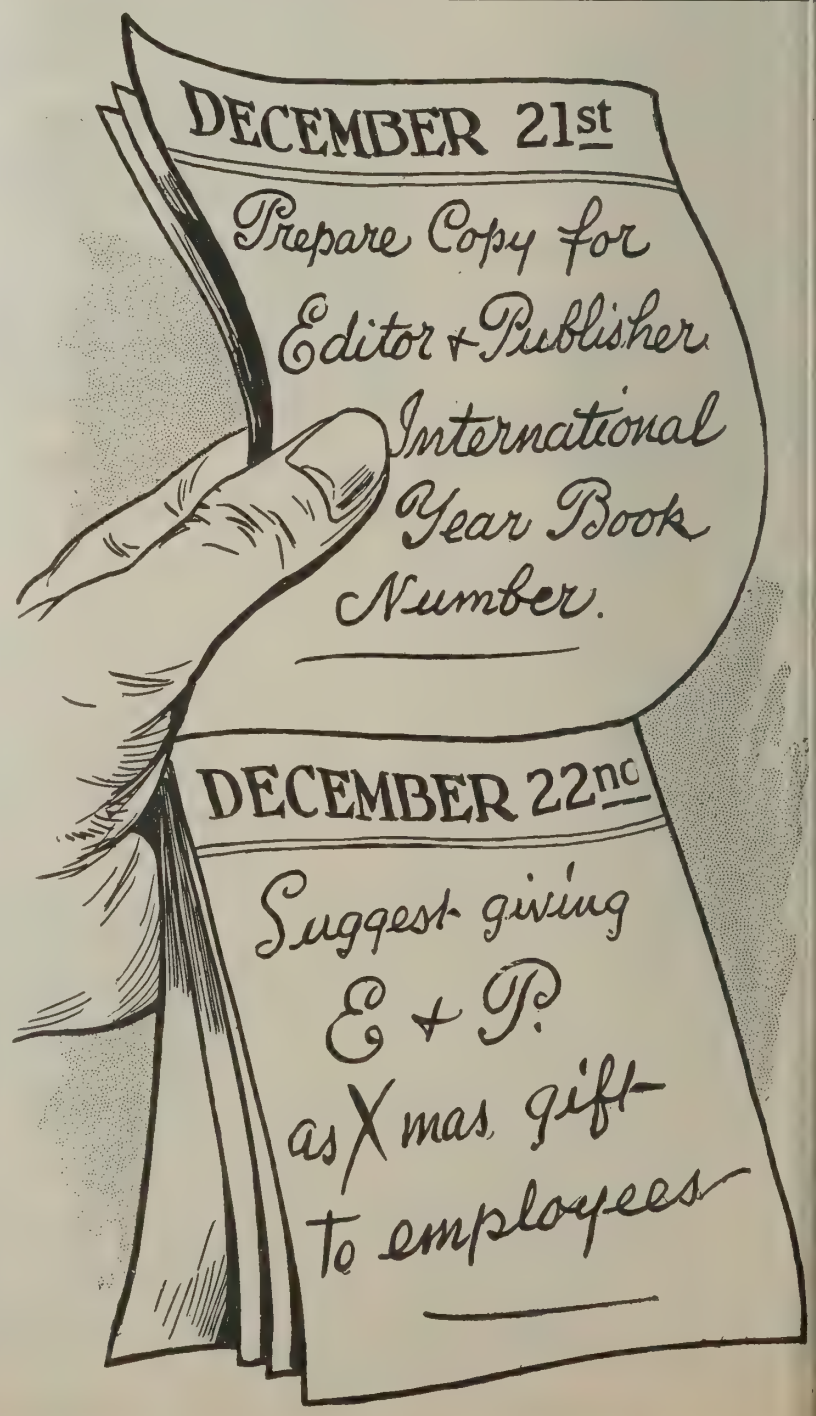
"The taxpayer, as a result of this agreement, suffered a loss of $301,232.95 in the year 1918 and deducted it from his net income when the tax return was filed.

"Article 141, regulations 45, states in part as follows:

"'Losses sustained during the taxable year and not compensated for by insurance, or otherwise, are fully deductible (except by nonresident aliens) if (*a*) incurred in the taxpayer's trade or business, or (*b*) incurred in any transaction entered into for profit, or arising from fires, storms, shipwreck, or other casualty, or from theft. * * *'

"The taxpayer respectfully submits that this loss of $301,232.95 was incurred in a transaction entered into for profit and under the provisions of article 141 regulations 45, is an allowable deduction from income for the year 1918."

No additional taxes were assessed against Mr. Hearst for 1917.



For 1918, he reported a net personal income of $78,090.75, after deducting $310,232.95 for the gravure venture and $50,000 as interest on his Los Angeles property.

The bureau refused to allow the Los Angeles interest claim in full, stating that only $12,500 appeared to have been paid as interest instead of the amount reported. The $50,000 claim was finally disallowed for 1919 and 1920 also. The deduction in 1919 of $32,473.33 claimed on account of litigation was also disallowed. This claim was based upon expenses incurred for suits by persons injured in an explosion of fireworks in 1909 during a celebration of Mr. Hearst's election to Congress.

CHRISTMAS, 1925

(The following was written by George F. Cochran, Sunday editor of the Lakeland (Fla.) Ledger when asked by Earl Mullen, publisher, to write something for Christmas expressing the newsboys' position on the paper.)

IT takes a million,
More or less,
And a lot of men and women—
More'n you'd guess—
And ever thought of aid to get a newspaper made
And ready for the folks to read the news;
But it 'ud all be in vain,
Just about,
If one little link in the chain
Dropped out—
The carrier boy—
That's me—
Don't you see
And it's Christmas time—
Don't you see ?

BRITISH ADVERTISERS FORM NEW BODY

"The Advertising Association," Headed by Col. Lawson, New Title of "District 14"—Remains With A. A. C. W.

(*By Cable to* EDITOR & PUBLISHER)

LONDON, England, Dec. 17.—Advertising interests of Great Britain, hitherto organized under the title of "District Fourteen, Associated Advertising Clubs of the World," have changed the group designation to "The Advertising Association." Col. E. F. Lawson, *London Telegraph*, is president; C. Harold Vernon is vice-president; Arthur Chadwick is honorary treasurer and Andrew Milne is honorary secretary. The association remains affiliated with the A. A. C. W. as District 14.

N. Y. VANDERBILT TABLOID?

Rumored, But Coast Publisher Does Not Confirm Report in Statement

A rumor was current this week that Cornelius Vanderbilt, Jr., was contemplating starting a tabloid in New York City. "I am not in a position to make any statements pertaining to any future activities at this time," Mr. Vanderbilt advised EDITOR & PUBLISHER through H. S. Granlee, of Vanderbilt Newspapers, Inc.

Daily's Art Exhibit Opened

The fifth quarterly exhibt of the *Milwaukee Journal's* Gallery of Wisconsin Art opened in the lounge of the new Journal building, Dec. 1.

WEEK'S AD TIPS

THE POST-DISPATCH

Overwhelmingly First in St. Louis

Leading the Second and Third Newspapers COMBINED

2,338,000

Lines of Paid Advertising carried by the Post-Dispatch, alone, during November, 1925.

The November advertising measurements of all St. Louis newspapers show the Post-Dispatch *leading* the *second* and *third* newspapers *combined* by an overwhelming margin—214,300 lines of Paid Advertising.

In Home Merchants' Advertising, the Post-Dispatch carried 1,494,640 lines—the *second* and *third* newspapers *combined* failed by 238,240 lines to reach the volume carried by the Post-Dispatch, alone.

Local Lead Far Greater this Year than Last

In November, 1924, the Post-Dispatch led the *second* and *third* newspapers *combined* by 191,440 lines of Local Display Advertising. In 1925, the Post-Dispatch lead over both was 238,240 lines—an *increase* of more than 24% in the supremacy of the Post-Dispatch over the two COMBINED.

Always FIRST in St. Louis

DISTRIBUTORS PROCLAIM ADVERTISING LOWERS COST OF LIVING

(*Continue from page 3*)

mendation of editorial discussion by business journals "of the need for basic statistics" as in the public interest. The same resolution stressed the value of the Monthly Survey of Current Business published by the Department of Commerce.

Another resolution provided for the appointment by the president of the United States Chamber of Commerce of a Joint Trade Relations Committee formed of manufacturers, wholesalers, retailers and the consuming public, "to act as a clearing house for complaints of objectionable and destructive practice and to promote such co-ordination as will effect economies and improve mutual relations." It was also resolved that trade associations, chambers of commerce and other organizations affiliated with business should "adopt means to uphold and make more effective their principles of business conduct."

This statement of "convictions" was made by the Conference because "misunderstandings about distribution are so general and lead to such unwarranted assumptions:"

(a) The present methods of distribution have been developed by economic forces and fundamentally are sound;

(b) The essential distribution functions now performed by various agencies are fundamental and none may be eliminated but must be assumed and continued by others if present agencies are replaced by new methods.

(c) Wasteful practices as they exist are not inherent in the present machinery of distribution, but arise through human failings such as lack of definite organized information and the imperfection of performance which characterizes alike producer, manufacturer and distributor.

(d) Market prices must include cost of production and of essential services with reasonable profits if reductions are not merely to be temporary.

(e) Necessary distribution services are entitled to their just pay.

(f) Efforts must be initiated and encouraged to promote collection of specific information revealing duplication of services and the rendering of unwarranted services, to the end that necessary or desirable services may be provided increasingly at lower costs.

(g) Costs of various services should be ascertained and published; consumers then may judge of their necessity in relation to their costs, that they may be continued or discontinued.

(h) That producers, manufacturers, distributors and consumers require fuller understanding of the processes of distribution making it possible to avoid unnecessary exactions and to facilitate the flow of goods which alone can reduce costs materially.

(i) Responsibility for inflation of present prices by waste centers no less on producer and manufacturer than on distributor.

No little part of this waste is attributable to unreasonable demands by consumers for unnecessary distribution services. The effects are passed through all the steps of distribution and embarrass and retard facile functioning.

(j) These problems are possible of solution only with the fullest information, hearty co-operation and recognition of complete mutuality of interest, particularly between consumer and producer and these distributive agencies operating to assist both.

The committee report on advertising and advertising mediums contained a striking feature regarding the results of advertising. It was based upon the experience of some thirty national advertisers. These experiences gave specific data regarding benefits accruing to both the advertiser and the buying public. The report was a testimonial of the power of advertising to decrease the cost of selling, to stimulate mass production and distribution and to lower production costs and reduce the costs of living among the people.

The following are typical instances of such beneficial results, picked at random from the committee's report:

One tobacco concern was shown to have had, in 1916, sales and advertising expense of 5.44 per cent, at which time the company manufactured a multiplicity of brands and sizes of cigars. In 1917, the business was standardized to practically five national brands, and as a result of advertising and sales concentration on these few numbers, the sales and advertising percentage for that particular year went down to 3.41 per cent, with a continued downward trend to 1918 to 2.91 per cent; in 1919 to 2.22 per cent; and in 1920 to 1.80 per cent.

The continued recession in advertising and sales expense from 1916 to 1920 was effected in the face of increased advertising appropriations during this illustrative period of years, which, in the estimation of the tobacco company, is the "soundest proof of the great economical benefit of advertising to producers and consumers alike, when properly planned and executed."

A battery company reported as follows:

Percentage of advertising to sales in 1925 was double the 1916 percentage. Sales have doubled since 1916, but selling expense in 1925 was only 33 per cent above 1916. The cost of the principal raw materials was 27 per cent higher in 1925 than in 1916; 1925 wages were well above 1916 wages; yet the price to the consumer was only 2 per cent higher in 1925 than in 1916.

Here is the testimony of a company manufacturing and distributing floor covering:

"Until five years ago our entire output was sold through a selling agent in New York. Comparatively little advertising was done, profits were almost nil because cut-throat competition developed every time there was the slightest business depression. We have increased our advertising expenditures and our sales expenditure materially in the time that has since elapsed, but the fact of the matter is that we are selling our product today for less than we sold it then, giving better value for the money, better service to our customers, and last but not least, earning a reasonable manufacturing profit."

A grocery specialty company brought about a reduction in price to the consumer of one-third:

"When we entered the field in 1899 the three leading manufacturers of this grocery specialty were marketing their product unbacked by advertising at 15 cents a package. We entered the market at 10 cents a package and through liberal advertising created a volume that permitted this price at a profit. The older competing firms were unable to keep their volume or yield a profit even at their old price. Subsequently they reduced their price, but without publicity were unable to maintain their ground."

An evaporated milk company, through advertising, gives the consumer a product for the same price in face of large increases in the cost of basic raw materials, supplies, and labor costs:

"In the development of the evaporated milk industry, advertising has proven an economic factor beyond dispute. When the consumption of evaporated milk in this country was approximately a third of what it is today, the price of fresh milk was much less and all supplies such as cans, tin plate, solder, boxes, etc., were probably 75 per cent less than they are today, and labor cost was approximately one-half of what it is today. Yet the consumer paid as much for a can of evaporated milk then as he does today. In other words, without the well directed use of advertising, evaporated milk today would be in the luxury class, but instead the business has been enabled to go forward without penalizing the producer of raw materials and the labor employed in the production of evaporated milk and still give the consumer evaporated milk at a price which makes it a household economy.

"Then, again, increased production in nearly all cases leads to a more uniform and better product because it is possible to spend more money in total, but less per unit of manufacture for supervision."

A company manufacturing overalls reported:

"During twelve years when there was no advertising, the overhead and selling cost was $4.00 per dozen, with a production of 1,000 dozen per month. Two years after advertising, the overhead and selling cost was reduced to $1.60 per dozen, with a production of 5,000 dozen per month. The selling price was reduced and the company also made a higher profit per dozen."

A hat concern which showed reduction in selling expense on account of advertising testified:

"Since starting to advertise in 1906 we have made a saving of 17 per cent in the total cost of selling. This saving, which amounts to 7 cents on every hat we manufacture, more than pays our advertising appropriation. The saving in selling expenses has largely been brought about through the increasing demand for our hats which our advertising has created enabling our salesmen in many cases to sell double the amount of goods, with little or no increased traveling expenses."

A company producing and selling mint candies which shows marked decreases in production and selling costs on account of the volume built up through advertising reported:

"Advertising has tended to reduce production costs by making possible large scale operation and concentration upon a few grades and sizes. The decrease in production cost is more than 50 per cent in the past five years. During this same period selling costs have decreased slightly more than 50 per cent per unit. There has been no appreciable change in the ratio between our advertising expense and the standard retail selling price. The selling costs of jobbers and retailers have decreased."

A packing company gave the following testimonial:

"Advertising has tended to reduce our production costs by making possible large scale production. It has reduced selling costs per unit. It has benefited the consumer through reduced prices. It has benefited retailers and jobbers through increased turnover. We have made a larger total profit through increased sales at reduced costs."

A tooth paste company which shows lower production and selling costs stated:

"Advertising has tended to reduce our production costs through large scale production. It has also lowered our selling costs. The retail price of our product remains the same. Advertising is the major portion of our selling expense. It has sometimes been as high as 90 per cent of our total selling expense and is now about 80 per cent."

A company distributing canned soup told of a great reduction in selling cost:

"In 1898 the total sales of all the canned soup in the United States and Canada were 500,000 cans. The sales costs of one company which was a big factor in the business was about 21½ per cent. Advertising was regularly adopted as a part of the business policy. In 1922 the consumption of canned soup had increased to 300,000,000 cans. The sales costs of this company had decreased to 5 per cent."

At the request of the advertisers their names were not revealed by the committee, but the experiences themselves will serve to identify many.

The committee summed up these and other testimonials as proof that advertising accomplishes the following results:

Decreases the cost of selling.

Lowers the cost of production on account of increased volume.

Lowers prices to the consumer and thereby raises the standard of living.

As a by-product, aids in the education of the general public.

Advertising aids in stabilizing production.

Advertising aids in standardization and quality.

Advertising aids in the simplification of products. (Elimination of unnecessary items in the line.)

Advertising helps to prevent fluctuation in prices.

Following are the committee's general conclusions in regard to waste in advertising:

The sources of waste are: (1) Chiefly, the lack of co-ordination between advertising and the other phases of the business—production, distribution, finance; (2) Inefficient use of space. Too much or too little. Failure to study space requirements and repetition requirements; (3) Poor and ineffective copy; (4) Use of wrong media; (5) Excessive use of advertising in extremely keen competition.

Missouri U. Honors Farm Editor

In memory of the late Dr. H. J. Waters, editor of the *Weekly Kansas City Star*, the East Agriculture Building of the University of Missouri has been named Waters Hall by the university executive board.

THE PROBLEM OF THE PRESS

as to Church Advertising—

"When the churches of the country realize that church advertising is the 20th Century form of preaching their gospel, they will all advertise. That is the problem of the American press—*to bring that realization.*"

This statement comes from a newspaper man who is developing church advertising in his columns.

Take advantage of the Christmas Season—a big one in the churches—and get the news. We will help you start a church page with plans and copy.

CANADIAN PRESS SUED FOR $110,000 ON CHARGE OF REFUSING SERVICE

C. E. Campbell, Publisher of Revived Edmonton Bulletin Claims He Purchased Franchise With Assets of Old Morning Bulletin—Livesay Replies

TORONTO, Ont., Dec. 15.—The Canadian Press was today served with a writ issued by Charles E. Campbell, publisher of the *Edmonton Bulletin*, evening newspaper, claiming damages totalling $110,000, service being made in Calgary on its president, J. H. Woods.

The basis of the claim purports to be that the Canadian Press became party to a conspiracy whereby Mr. Campbell, having purchased the Edmonton Bulletin on Oct. 10, last, had been wrongfully refused a membership in the Canadian Press and refused also its news service.

Mr. Campbell claims that owing to these alleged illegal acts he was unable to commence publication of the Bulletin on Oct. 15, last, that he thus lost large revenues he would otherwise have received, and was put to heavy expense in wages, salaries and rent, for which he had contracted.

Mr. Campbell further claims that on Nov. 23, last, the Canadian Press illegally cancelled the Edmonton morning paper membership to which he claims he was entitled. Joined with the Canadian Press as defendants are J. H. Woods, president, and John Imrie, managing director of the *Edmonton Journal*, who are both alleged to be parties to the conspiracy. Mr. Campbell further claims that Mr. Woods, acting as president of the Canadian Press, discussed with him the question of an interim morning paper news service, and presented to him terms which were unreasonable and which were presented with the hope and in the expectation that he, Mr. Campbell, would refuse to accept them.

Mr. Campbell further alleges that Mr. Woods and Mr. Imrie conspired with each other and with the Canadian Press to prevent him receiving from the news service the membership and service to which he claims he was entitled.

In a front-page black-face statement in the first issue of the Bulletin under its new ownership Mr. Campbell who is former publisher of the *Vancouver Daily World* and *Star*, set forth in detail what he considers the grounds for his charge of unfair treatment.

He states that when he was induced to open negotiations for the purchase of the Bulletin a year ago, he was given to understand definitely that the assets of the paper included a Canadian Press franchise in good standing for the morning field. He took over the assets on Oct. 10, advancing at the time the necessary funds to pay the Canadian Press drafts for service up to Oct. 17, and proceeding at the same time to engage the necessary staff, news features and other things necessary to commence publication of a morning newspaper on Oct. 15.

The first intimation that there was to be any hitch in his Canadian Press franchise came the next day, he says when he paid a formal call on Mr. John Imrie, a managing director of the Edmonton Journal, an evening newspaper which he enjoyed the Edmonton field by itself since the demise of the Bulletin. He was informed by Mr. Imrie at that time that the Journal was using the morning franchise by a special arrangement. On making inquiries he was given a flat refusal of wire service by the Canadian Press management in Toronto on the grounds that the Bulletin franchise was null and void, he says. He was told that he would have to wait until the regular meeting of the board of directors of the Canadian Press on Nov. 23, "a most extraordinary course for the Canadian Press to take, under the circumstances," Mr. Campbell writes, "to deny news service to Alberta's oldest newspaper."

There was nothing for him to do but comply so he accordingly appeared before a special committee of the directors on the date named and in answer to enquiries assured them that "it was his own money, that was going into the Edmonton field absolutely free of political ties or corporation influence and with only the intention to publish a free and independent newspaper to serve the people of the City of Edmonton and Alberta generally."

He states that he agreed to limit himself absolutely to the morning field and to maintain the same subscription rates as charged by the Edmonton Journal, not to employ any members of the Journal staff and not to sign any agreement with the mechanical unions without first consulting with Mr. Imrie of the Journal. Mr. Imrie at that time said that he would support the application. That ended the conference.

Mr. Campbell goes on to tell of his difficulty in securing an interview with Mr. J. H. Woods, president of the Canadian Press Association and vice-president of the Edmonton Journal and the *Calgary Herald*, in order that he might learn the decision of the general meeting of the directors that afternoon.

He says that after several "rebuffs" he met Mr. Woods the next day and was informed that the directors had decided to leave the matter "entirely in his (Mr. Woods) hands and that he was to use his own discretion in granting me a news service."

Mr. Woods then read him the following conditions for an interim wire service:

"Application for membership accompanied by cheque for $15,000.

"Agreement on Charles E. Campbell's part that he recognize the right of the Canadian Press with respect to the cancellation of the franchise of the Edmonton Bulletin and that he undertake in case he should cease publication or in any way render himself incapable of implementing his application to forfeiture of the $15,000;

"That he must not publish an outlaw evening newspaper;

"That service is from day to day in my (J. H. Woods') discretion.

"That he be granted not a franchise but a contract;

"That service be confined to the edition for which furnished;

"And that the plant be not used for any other daily"

Mr. Campbell states that he protested vigorously against having to sign these further restrictions and conditions and was straightway informed "in the most arrogant manner that these were not all the conditions but that he might think of further ones to impose."

He was told that there was another directors' meeting in April 1926, and that he could take the matter up again then if he was not satisfied.

"Having received this ultimatum," Mr. Campbell concludes his statement, "I was forced to do one of three things: (1) Either to abandon the proposition entirely and take the matter up with the vendors for loss and damages, (2) sign the additional terms and unreasonable conditions imposed, or (3) publish an afternoon newspaper with my own special wire and cable service, as no other adequate news service was available for a morning newspaper except the Canadian Press.

"The latter, I decided to do."

Mr. Campbell's first issue was a 16-page paper in two sections selling for two cents. Its yearly subscription rate is $3.00 as compared with the $8.00 of its chief competitor, the Edmonton Journal. Its slogan is, "If it will help Alberta, the Bulletin is for it."

J. F. B. Livesay, general manager of the Canadian Press stated that a reply to Mr. Campbell's suit would be filed with the solicitor of the corporation in due course. With reference to the contents of Mr. Campbell's statement of claim, as published by him in his paper, Mr. Livesay said that the former membership of the Edmonton Bulletin had been in the name of G. B. O'Connor. Mr. Campbell had not at any time applied for a transfer of the membership to himself nor had he at any time made application for a new membership in the corporation. Mr. Campbell had appeared before the Board of Directors of the Canadian Press in Montreal on Nov. 23, last, and had expressed his intention of making application for a morning paper membership in Edmonton, and had asked that he be furnished with an interim morning paper news service pending the review of his application. The Board had considered favorably permitting such a service, having particularly in view the need of a morning paper to the citizens of Edmonton, and a preliminary discussion had been held with Mr. Campbell concerning the basis upon which this would be done.

An appointment had been made, and agreed to by Mr. Campbell, for further discussion to be held in Toronto on Monday, Nov. 30, with a view to concluding such arrangement. Mr. Campbell did not keep the appointment nor did he reply to a telegram that had been sent him at Edmonton on that day intimating that the interim news service he had requested could be secured by him. Mr. Campbell on Dec. 3 started publication of an evening newspaper in Edmonton and subsequently issued the writ.

Mr. Livesay further stated that the Edmonton Bulletin had ceased publication on or about June 19, 1925, and its membership had automatically lapsed under the by-laws of the corporation.

Queried by EDITOR & PUBLISHER Mr. Campbell said that his printed statement covered fully his difficulties with Canadian Press.

Eureka Editor Out on Bail

Alfred Lindsley, publisher of the *Eureka* (Cal.) *Humboldt News*, in jail since October serving a sentence of 1,000 days for contempt, is out on $2,500 bail. The Third District Court of Appeal will make a complete review of the case Jan. 6. Since his sentence Lindsley has been editing his paper from his cell.

NOVEMBER NEWSPAPER LINAGE IN 30 AMERICAN CITIES, 1925-1924

Compiled by Statistical Dept., New York Evening Post, Inc.

LINAGE statistics compiled for 133 newspapers in 30 U. S. cities for November, 1925-1924, show a total volume for the month of 138,501,124 lines, a gain of 14,737,560 lines over the November, 1924, total. All city totals ran ahead of last year's, and losses are marked for only 20 of the 133 newspapers. The figures, which are compiled from local sources by the Statistical Department of the New York Evening Post, Inc., follow:

S. B. GRIFFIN, VETERAN SPRINGFIELD REPUBLICAN M. E. DIES AT 73

Had Held Executive Post for More Than 40 Years at Time of His Retirement in 1919—Picked for Staff by Samuel Bowles

SOLOMON BULKLEY GRIFFIN, 73, for more than 40 years managing editor of the *Springfield* (Mass.) *Republican,* died Dec. 11, at his Springfield home. He had retired from newspaper work in March, 1919.

Mr. Griffin went to Springfield in 1872 from Williamstown, Mass., where he was born, Aug. 13, 1852, and where he had attended Williams College, in which his father, the Rev. Nathaniel Herrick Griffin was librarian and professor. Ill health prevented him from taking a full course of study, but in 1881, his alma mater bestowed upon him the A. M. degree and enrolled him in the class of 1872. He had been one of the editors of the *Vidette,* the college weekly, and his experience on it turned him to newspaper work. His intention was to spend a year with the Republican and gather experience enough to warrant him in applying for a job on the *New York Tribune.* He never applied; either to the Tribune or anywhere else.

Samuel Bowles, the elder, was in the Springfield Republican saddle then, and he had an eye for young men. From the start he was impressed with Mr. Griffin. He made him local editor and then managing editor, the latter in 1878, and he remained in that position until his resignation.

Soon after he went to the Republican, Mr. Griffin took up the work of reporting state and national conventions. From that time until he left newspaper work, he attended every one, except the national convention at which Woodrow Wilson was renominated.

Mr. Griffin looked upon newspaper work as a means to serve his day and generation. His views on this subject were contained in an interview printed by EDITOR & PUBLISHER, shortly after his retirement in 1919.

"From my own point of view," he said, "no other line of public service offers a field of work comparable in opportunity and results with that available to high minded and devoted newspaper workers. It is a life of hardship; for the financial returns that go with the majority of those in journalism are meagre when compared, for example, with the money received by successful writers of advertisements. It is rather pitiable to see how many men, trained in schools of journalism take to this side track.

"But straight newspaper work should invite the real men who desire to serve their day and generation. They can get nearest the sources of events, where the opportunity for shaping and guiding them is greatest. I would almost say there is no limit to the good that tactful and determined men and women can accomplish in journalism. Certainly I see no other line offering greater opportunity for the guiding hand, and nowhere do I see larger possibilities of service. All men who accomplish things must pay the price, and do it over years of struggle. My advice to those who have thought of life in a newspaper office has consistently been that none should undertake it if he could keep out of it; that is, the aspirant must be full of enthusiasm for his job, and he must be willing to endure its hardships if, after seeing the serious drawbacks of journalism, the applicant persisted, he or she was pretty certain to be of the sort to stay and grow in value and accomplishment."

Although Mr. Griffin retire in 1919 he had continued active in a number of tasks, both literary and philanthropic. He had just completed a new book, a life of the late Senator W. Murray Crane, of Dalton, Mass. His business activities as president of the Hampshire Paper Company, and officer of two other companies, together with his duties as head of a drive to raise $200,000 for a memorial building to house the collections of the Connecticut Valley Historical Society, contributed largely to his breakdown.

He had attained a unique position in American journalism. From the time when he joined the staff of the *Republican* in June, 1872, until his retirement 47 years later, his life was centered in his newspaper. He took on his shoulders the responsibility of the managing editorship when only 26 years old and lived to see himself widely recognized as the dean of his profession. As his friends he numbered leaders in the public life of the country, among whom were Presidents Wilson and Cleveland.

Tribute to his qualities as an editor was paid by the Republican in an article on his life published after his death.

His reminiscences were published in 1923 under the title, "People and Politics, Observed by a Massachusetts Editor."

Mr. Griffin was a member of the Century, Williams, and Authors' clubs of New York, and the Colony, Nayasset, Winthrop, Country and Century Clubs of this city. Williams College granted him the degree of L. H. D. in 1907 and in 1919 Amherst College honored him with the degree of LL. D. In 1915, after the death of Samuel Bowles, he was chosen a member of the advisory board of the Pulitzer School of Journalism at Columbia University. He was a member of the Kappa Alpha fraternity, but of no other secret orders.

His business interests were extensive. For many years he was president of the Hampshire Paper Company, of South Hadley Falls, Mass., vice-president of the Carew Manufacturing Company and a director of the Southworth Paper Company of Mittineague. In 1892 he married Miss Ida M. Southworth, daughter of John H. Southworth, of Springfield.

Pawtucket Editor Dies Suddenly

Archibald G. Adam, 60, managing editor of the *Pawtucket* (R. I.) *Times,* was stricken suddenly ill just as the paper was going to press, Dec. 14, and died in his office shortly afterward. He refused to go home before the paper was made up, despite his illness. He was born in Paisley, Scotland. Coming to this country at the age of 28, he joined the now defunct *Pawtucket Post* as a reporter. He went to the Times in 1895.

Vivian, Hearst Veterar Dies

Thomas J. Vivian, 78, who two years ago retired as foreign editor of the *New York American,* died in New York, Dec. 14. Mr. Vivian was one of the veterans of the Hearst service. Mr. Vivian, in addition to newspaper work, wrote books on serious, light, and historical subjects; knew music and the stage from the standpoint of a dramatic and music critic, composed music, and wrote for the motion pictures.

Veteran Cartoonist Dies

Charles Lederer, 70, cartoonist for the old *Chicago Herald, Times-Herald,* and *Chronicle,* died in Chicago, Dec. 13. For many years he was a conspicuous figure in the newspaper life of Chicago. He began his career as an illustrator and cartoonist for *Leslie's* and *Harper's Weeklies.* He nad also worked for the *New York World* and the *New York Herald.*

Obituary

J. W. SOWERS, 69, founder and editor of the *Spring Hill* (Mo.) *New Era,* died Dec. 3,

GEORGE N. HOFF, 73, editor of Missouri newspapers for 53 years and formerly with the *Pleasant Hill* (Mo.) *Register,* died Dec. 8. He retired from the newspaper business five years ago.

W. J. COTTEN, 63, editor of the *Windsor* (Mo.) *Review,* died in a Kansas City hospital following a major operation. He edited the Review for 35 years.

HARRIE MORRELL KRUGLER, advertising man, for the past 26 years, died suddenly, Dec. 10, in New York. He started with the *New York Press,* after two years joined the force of the *New York Sun.*

WILLIAM SPENCER CORBETT, 47, died on Nov. 25, at the New York Eye and Ear Infirmary. He had been associated with the advertising department of the *New York Journal,* the *New York Herald Tribune* and at the time of his death was a member of the advertising department of the *New York Telegram.*

HOWARD CONARD, former editor of the *Mansfield* (O.) *News* died suddenly at his home in that city on Dec. 7. At one time Mr. Conard, was State Librarian.

Store Takes 8-Page Roto Insert

A special 8-page rotogravure section in tabloid was published by the *Buffalo Courier,* Sunday, Dec. 6, for Victor & Co., large local retail furniture store.

OHIO'S GREATEST HOME DAILY

Prosperity is Here in
THE SOUTH
Are You Riding the Wave?

Although great progress has been made by the South in the past twenty years, its possibilities are so great that it may be considered still undeveloped.

Its enormous national resources, when developed, will add a factor of wealth and power to the nation equal to that of all Continental Europe.

Accessibility of the South to all the great centers of population east of the Mississippi offers advantages of further agricultural and industrial development.

The South possesses almost every resource necessary for the establishment and maintenance of a prosperous, thickly populated community engaged in varied occupations. In addition to its varied possibilities in the agricultural field there is the great mineral and timber wealth of the South which insures the development of vast manufacturing industries, much greater than those which even now make several parts of the South notable for their manufactured output.

The South is already equipped with rail facilities, has a large number of ocean ports suitable for foreign trade and is spending vast sums for the building and improvement of public roads.

Merchandising and sales promotion of commodities in the great southern market must have the aid of the local daily newspapers in order to bring your message directly to the consumer.

The newspapers of the South are close to their people and offer valuable merchandising cooperation to the National Advertiser.

LETTERS FROM OUR READERS

Doctor Watson Re-discovered!

To EDITOR & PUBLISHER: Conan Doyle fans have often wondered what became of Dr. Watson, the patient audience of Sherlock Holmes. It now appears the doctor has quit the detective line and has gone into the agency business. At least that is the logical deduction from the article on page 32 of your Dec. 12 issue, entitled, "Agency Man Sees Newspapers as Tail to Magazine Kite."

Surely there can be no mistaking this delightful identity! The Dr. Watson mentioned in your article seems to work for the J. Walter Thompson Company, and, according to your story, lectured recently to two hundred students in the advertising class of the New York Advertising Club on newspaper advertising. The Thompson agency incidentally, is reported to have claimed the world's championship for placing magazine advertising, because it bought for clients more than $200,000 worth of space in a single number of a national magazine. This is one of the reasons which, apparently, qualified Dr. Watson to discuss newspaper advertising.

As long as Dr. Watson stuck with Sherlock Holmes, he had little opportunity to air his views. We had no idea just how he could talk if he had been permitted by the great and garrulous detective to make statements. Now we know he was always able to talk entertainingly had Holmes but given him the chance.

Dr. Watson was in the magazines for many years. He is still a strong believer in them. He thinks newspapers are all right but only insofar as metropolitan dailies resemble magazines in their somewhat wide distribution. Newspaper advertising as a whole, he feels, is "too costly." The merchandising service departments of newspapers, he admits, must be good because the magazines "are attempting similar departments," which, in his opinion, "is proof of their value."

The doctor has a grave doubt as to just what "dealer influence" may be. It seems strange that one who acquired so much publicity in the late Victorian Era should not remember that magazine advertising solicitation was founded way back in those distant days on "dealer influence." To be sure, some rude, but practical persons termed it "dealer bunk," but that is another story. He agrees that the printing of names of dealers in a newspaper advertisement may be useful, but he thinks dealers are "satisfied when customers come in and ask for the product by name, proving that a magazine campaign has some weight."

This does not sound as profound as the few samples of Dr. Watson's philosophy Conan Doyle has given us. But you never can tell just what a man will say when he is permitted to talk to his heart's content.

Dr. Watson shed some further light on his assertion that newspaper advertising is "too costly" by reciting a suppositious case showing what his agency would do to a new product. After everybody is quite sure the product is as good as can be made, he is quoted as saying, "We pick out three or four cities after we have sent men out to investigate the market, and religiously over-advertise in the newspapers of those cities." This religious over-advertising, he asserts, consumes 15,000 lines of space in about three months.

Well, after "religiously over-advertising" in three or four cities, the doctor waits a month and then he goes back, lured like Desperate Desmond in the last act, to the scene of the crime. He calls upon the retail dealers. He says he takes a taxi—probably one with a fifteen-and-two meter, if such a one may be found. Anyhow, after this jamboree of advertising, taxi-fare is a small item. If the taxi ride proves that the newspaper advertising has produced results, then, according to the doctor, the client is ready to spread his wnigs and fly into the magazines.

From all of which an amateur deducer (or is the word deductionist?) gathers that Dr. Watson's idea about national advertising is first to prove that newspaper advertising will pay and then to spend his clients' money in the magazines. This, while a bit intricate, seems to be worthy of Sherlock Holmes at his best.

He was at his best, wasn't he, after Watson had handed him the needle!

JOHN WILBERFORCE PEABODY
Chicago, Ill., December 15, 1925

True as Gospel

To EDITOR & PUBLISHER: The editorial "Perhaps It's Habit" in the current number of EDITOR & PUBLISHER prompts this question.

How long, O Lord, will it take advertisers to learn that live news on special pages, like automobile and radio, pulls more business than publicity handed out by factory press agents?

HORACE P. BULL, Managing Editor,
Syracuse (N. Y.) *Post-Standard.*

Bend Press Issuing Sundays

BEND, Ore.

To EDITOR & PUBLISHER: We thank you for the small notice in your November 28 issue in which our entry into the morning field was reported, but we would appreciate a correction of one detail.

"No Sunday edition will be published" the item said. This is in error. We will print each morning except Monday, as is the custom among upstate morning papers in Oregon. We plan to make our Sunday edition the most attractive of all.

CENTRAL OREGON PRESS,
HAROLD A. MOORE, *Editor.*

Sigma Delta Chi Correction

Dec. 2, 1925.

To EDITOR & PUBLISHER: As a member of the committee that wrote the story of the Sigma Delta Chi national convention in Boulder, Colorado, Nov. 16 to 18, for your periodical, I feel it my duty to forward this correction.

The Oregon chapter was cited as having won fourth place in the chapter efficiency contest. Oregon State chapter, located at Oregon State Agricultural college, was the chapter winning that place. Oregon chapter, located at the University of Oregon, placed eighth.

I will vouch for the accuracy of the story when filed with the telegraph operator at 1:30 o'clock the closing night.

Intense rivalry exists between this chapter and the one at the university and we are proud of having placed four above it.

BERNAL E. DOBELL.

Requests Bradford Data

To EDITOR & PUBLISHER: The text columns of the EDITOR & PUBLISHER have called attention to the celebration commemorating the two hundredth anniversary of the birth of New York's first newspaper—the *Gazette* published by William Bradford on Nov. 8, 1725. A memorial volume recording the life and activities of William Bradford is now in the course of preparation.

The committee in charge of publishing the volume is very anxious to obtain copies of any letters of William Bradford or of his son Andrew Bradford that may be in the possession of collectors, historical societies, public libraries, etc. As the originals of such letters are so valuable it is not expected that they will be forwarded to the committee to be returned later. For all practical purposes of the committee copies of the letters will be sufficient.

Through the columns of the EDITOR & PUBLISHER I should like to request that any who have copies of Bradford letters, books, or pamphlets printed by Bradford, or copies of the New York Gazette printed while Bradford was publisher should inform me of the fact and send transcripts of the letters and documents bearing the signature of William Bradford or his son Andrew Bradford. Communications may be addressed to me care of Department of Journalism, New York University, Washington Square East, New York City.

For the courtesy of finding space for this letter in your columns please accept the thanks of the committee in general and those in particular of,

JAS. MELVIN LEE.

"Hunch" Proved Popular

To EDITOR & PUBLISHER: Some time ago we followed one of your hunches, publishing weekly two stories of couples married twenty-five years or more. This feature, run on the first page in a box, has proven very popular. Your magazine has always been a great help to us.

Chicago North-West Ledger,
MANUEL GOLDBERGER,
Editor.

Sing Sing Publicity

To EDITOR & PUBLISHER: In looking over my scrapbooks yesterday's rainy afternoon, I came across something which shows the very different relation which some departments now bear to the press compared with what it was some years ago.

As you know, they maintain now an active publicity service in the Ossining prison, but it was not always so, and writing an editorial paragraph in the *Sun,* of which, of course, Mr. Dana was then the editor, I had the following:

"If Warden Brown who established a deadline to keep the newspaper reporters out of the Sing Sing Prison had maintained a deadline to keep Roehl and Pallister in, these convicted murderers could not have escaped."

Brown was then Warden of Sing Sing (Ossining), as Lawes is now, but though the prison is there just the same, the relation of the Warden to the press has changed substantially.

Yours very truly,
ERNEST HARVIER.

Serving as Forest Week Directors

Elbert H. Baker, of the *Cleveland Plain Dealer,* and R. W. Kellogg, of the News Print Service Bureau, are among those named as directors of American Forest Week, which begins April 18, 1926. President Coolidge will be requested to confirm this date by the Forest Week Committee.

RAILROADS GIVEN HEAVY NEWSPAPER BAGGAGE RATE INCREASE

Interstate Commerce Commission Ruling Hits Dailies, Weeklies, and Illustrated Supplements—Eastern Papers to Bear Most of Added Burden

By BART CAMPBELL

WASHINGTON, D. C., Dec. 16.—An additional financial burden was placed this week upon newspaper publishers in the most densely populated section of the country when the Interstate Commerce Commission decided that the proposal of various railroads to increase the rate per 100 pounds on newspapers shipped in baggage cars on passenger trains was justified. The decision covers not only daily, weekly and semi-weekly newspapers, but illustrated newspaper supplements as well.

The new rates went into effect on Dec. 15. The old rates and the increases allowed by the Commission are as follows:

Between all points on the Pennsylvania lines east of Pittsburgh and Erie, Pa., including affiliated or subsidiary lines, such as the New York & Long Branch and West Jersey & Seashore, the rate was increased from 30 cents to 50 cents per 100 pounds.

On Pennsylvania lines west of Pittsburgh and Erie, the rate was increased from 30 to 50 cents.

Between points on the Pennsylvania lines east and lines west of Pittsburgh and Erie, the rate was increased from 60 to $1.

For example, the old rates from New York and Philadelphia to Pittsburgh and intermediate points, the rates were increased from 30 cents to 50 cents. The old rates from New York and Philadelphia to Chicago and intermediate points west of Pittsburgh were increased from 60 cents to $1. These charges are also the minimum for one month's shipments.

The old rates between all points in trunk line territory on the Baltimore & Ohio of 30 cents for distances of 500 miles or less and 60 cents for distances over 500 miles, were increased in trunk line and central freight territories to 50 cents for 500 miles or less and $1 for more than 500 miles, and are graduated according to weight.

For example, for 2 pounds or less the new rate is the minimum of 1 cent for 500 miles, and the rate of progression is 2 pounds for each additional cent. The weight-progression for all distances over 500 miles is 2 cents for each 2 pounds additional. A joint rate of 60 cents now applies from New York City over the Central of New Jersey to points on the Baltimore & Ohio for distances not over 500 miles, but Baltimore & Ohio trains now use the Pennsylvania station in New York and the Commission said this joint rate now was obsolete and should be canceled.

The old rate regardless of distance between points in the Baltimore & Ohio's district between Parkersburg, W. Va., and St. Louis, and interstate between points in Ohio, Indiana and Illinois, with minor exceptions, was 60 cents. The new rate of 50 cents represents a reduction of 10 cents per 100 pounds. The present intrastate rates in Ohio, Indiana and Illinois are 25 cents and no changes therein were proposed.

The old rate between points on the Reading lines, regardless of distance, of 30 cents was increased to 50 cents, subject to a minimum charge of 50 cents for one month covering the shipments of any one newspaper. The Reading maintains joint rates of 60 cents from and to points on the Central of New Jersey, in which no change was proposed.

Between stations on the Western Maryland and its Emmitsburg and Thurmont, Md., connections, the old rate of 30 cents was increased to 50 cents.

A similar change from 30 cents to 50 cents was proposed between points on the Baltimore, Chesapeake & Atlantic, but as there is practically no interstate movement of newspapers over its lines, no action was taken.

Similar increases in intrastate rates between points in the State of Pennsylvania were also allowed by the Commission, despite the protest filed by the Pennsylvania Newspaper Publishers Association, assailing the proposed increased intrastate rates as unreasonable and discriminatory.

The railroads proposed to put the new rates into effect on May 1, 1925, but upon the protest of various newspaper publishers in Philadelphia, Baltimore, Washington, Harrisburg, Pittsburgh and Cleveland, the Commission ordered an investigation of the matter. Extensive hearings were held at various places and a valient effort was made by the publishers to prevent the railroads from placing higher rates into effect.

The publishers contended that while the transportation conditions surrounding the movement of newspapers are somewhat different from those in the case of milk, they believed that newspapers were entitled to rates at least as low, if not lower, than those applying on milk, due in part to the fact that the rate on milk includes the return of the empty containers and refrigeration when needed.

The territory through which the railroads operate in this case is more densely populated than any other in the entire country. The publishers pointed out, for example, that in Philadelphia the newspapers furnish the railroads with a daily volume of traffic, which is practically the same throughout each day of the year. The shipments are properly packed and labeled and delivered in bulk to the railway station by the agents of the newspapers and cannot, therefore, be compared with an express service which undertakes to collect from the shippers at many points and deliver them from the terminal stations to the individual consignees.

Furthermore, the publishers contended, the expense to the railroads for transporting newspapers is less than that of any other commodity. No clerical force is needed. There is no bookkeeping and no way bills or accounts. The newspapers report the weights each month and pay in advance therefor.

The magnitude of this traffic was vividly shown to the Commission by one Philadelphia newspaper, which alone paid the Pennsylvania railroad on the rate of 30 cents per 100 pounds, the sum of $44,389 and to the Reading the sum of $25,253 in a single year.

"There is nothing in the life of the nation comparable to the daily newspaper, in so far as the public welfare is concerned," the publishers told the Commission when the case was under consideration. "It may be said to be the very heart beat of the people. It is not too much to say that the very existence of the Republic depends upon a free and virile press. The newspaper, therefore, occupies a unique field which entitles it to unusual consideration by the railroads."

"The existing system of transporting daily and Sunday newspapers in baggage cars from the large eastern cities to their surrounding vicinities is a tribute to American ingenuity in acquiring the greatest possible expedition by the elimination of clerical processes and records," the Commission said in its decision. "The value of news decreases rapidly as the time required for its dissemination increases, and speed in distribution of papers to out-of-town points is the dominant characteristic of the transportation service. It is this factor which renders regular mail and express service inadequate, and justifies the handling in baggage cars traffic which ordinarily be shipped as less-than-carload express or as second-class mail."

Herewith are presented some of the interesting points in the Commission's decision:

"The system of flat charges, applicable within radii of 500 miles, or within two territories, are departures from the ordinary method of grading rates according to distances and the justification for their existence is the fact that the service would be retarded if the charges were based upon separate rates and weights of individual shipments to widespread destinations in numerous distance-zones.

"Protestants are satisfied with the present basis of flat charges on single lines and no change in this basis is proposed or need be considered except that the Pennsylvania lines are willing to adopt the 500-mile limit in place of their present method of breaking the rates on the Pittsburgh-Erie line. We are of the opinion that this change should be made in tariffs of the Pennsylvania lines.

"No bills of lading, freight bills, or waybills are issued for this traffic, and ordinarily the shipments are not weighed by the carriers. Respondents, except the Baltimore & Ohio, require from each publisher monthly statements of the weights of newspapers shipped and an amount of money is deposited with each carrier by each publisher equivalent to charges based upon the estimated total weight of the shipments to be made during the next subsequent month.

"The Baltimore & Ohio issues stamps

in various denominations which are sold to the publishers. When a shipment is prepared the publisher attaches to a weight-notice, or memorandum of weights, stamps in value equivalent to the total transportation charges for all of the shipments listed on the weight-notice.

"Both methods of assessing charges are satisfactory to the publishers and, upon this record, there is no occasion for requiring any changes in either plan.

"Special attention is given this traffic by railroad employes in order to avoid delays in getting the shipments aboard trains and, when necessary, preference is given to newspapers over other matter carried in baggage cars. During the rush periods, particularly on Saturday night, special labor is detailed to this service in the larger cities, and frequently employes are taken from other regular work in order to rush this traffic aboard trains.

"In shipments consisting of only a few copies to one destination or distributor the newspapers are rolled, wrapped, pasted and addressed. In larger consignments, up to 30 copies, the papers are stacked flat, one upon another; a wrapper is placed around the bundle and tied with rope or heavy twine. If more than 30 copies are destined to one distributor at one destination separate bundles are prepared in like manner.

"Respondent's tabulations indicate that the average weight per bundle of all newspapers out of Philadelphia over the Pennsylvania lines for an entire week is 20.7 pounds, of the Sunday editions 40 pounds, and of the week-day editions, 17.9 pounds; out of New York, average for entire week, 27.6 pounds, Sunday editions 31.5 pounds, and week-day editions 27 pounds; out of Pittsburgh, average of entire week 19.1 pounds, Sunday editions 38.3 pounds, week-day editions 13.7 pounds; out of Baltimore, average of entire week 18.2 pounds, Sunday editions 32 pounds, week-day editions 13.5 pounds; out of Washington, average of entire week 7.8 pounds, Sunday editions, 26.1 pounds, week-day editions 4.7 pounds; and out of Chicago average of entire week 35.7 pounds, Sunday editions 43.7 pounds, week-day editions 33.4 pounds. These weights were derived from a special test during a short period. The method in which these tests were made leaves doubt as to the exactness of the results, but, as approximations, they are sufficient for the purpose of this proceeding. They indicate that the weighted average per bundle is probably near 20 pounds.

"Respondents approximations of average hauls, based upon the same test period, for all newspapers are as follows; over the Pennsylvania; out of Philadelphia for an entire week, 90.5 miles, Sunday editions 128 miles; week day editions 78.2 miles; out of New York for the entire week, 183.6 miles, Sunday editions 238.8 miles, week-day editions 174.6 miles; out of Pittsburgh for the entire week 55.1 miles, Sunday editions 67.2 miles, week-day editions, 45.6 miles; out of Baltimore for the entire week 126.2 miles, Sunday editions 65.9 miles, week-day editions 172.7 miles; out of Washington for the entire week 55.5 miles, Sunday editions 49.2 miles, week-day editions 61.5 miles; and out of Chicago for the entire week 209.7 miles, Sunday editions 180.9 miles week-day editions 220.4 miles.

"The weighted average haul of the Reading out of Philadelphia for a typical week-day is 51.75 miles, and of the Atlantic City Railroad 50.08 miles; and for Sunday editions over the Reading 58.23 miles and over the Atlantic City Railroad 41.84 miles.

"On the Western Maryland the bulk of the week-day and Sunday editions do not go more than 70 miles out of Baltimore.

"The average hauls out of smaller cities, such as York, Pa., and Cumberland, Md., for example, are much less than those out of the cities enumerated above. As a rule the volume of the traffic, the average length of hauls, the number of destinations, the average weight per bundle and the number of trains used per day vary in proportion to the population of the points of origin.

"The Pennsylvania publishers contend that respondents weighted average hauls are excessive. Their estimates for all respondents are, for an entire week 87.87 miles, Sunday editions 88.53, week-day editions 87.76. Their estimates of their own papers for an entire week are as follows: out of Philadelphia 65.56 miles, out of Pittsburgh 49.28 miles, for the state of Pennsylvania 60.37 miles. These do not include papers from New York, Baltimore, Washington and Chicago.

"The data placed in evidence by respondents is not susceptible of direct comparison with that furnished by the Pennsylvania publishers, which includes papers shipped from points in Pennsylvania alone. This record does not disclose the actual weighted average haul of all newspapers handled by respondents in baggage cars, but respondents offer a general description of the diffusion of the papers which originate in the larger cities.

"A test made of shipments over the Pennsylvania lines during the period, 6 p. m., May 9 to 12 noon, May 11, out of Philadelphia, New York, Pittsburgh, Baltimore and Washington indicates that shipments to 862 out of 2,232 destinations weighed from 1 to 25 pounds. If the weights to each destination were divided by the number of trains on which papers were shipped; this number of shipments of not over 25 pounds would be increased to 1141. The revenue derived from these shipments varied from less than ½ cent to 7.5 cents per shipment. Assuming that the average weight per shipment is about 20 pounds, the average revenue per shipment would be about 6 cents. Even for hauls much shorter than the average this approximate average revenue appears unusually small.

"Protestants cite instances where the volume of the traffic amounts to entire carloads, such as those handled from Philadelphia by the Pennsylvania to Lancaster, Pa., and by the Reading to Norristown, Pa. They estimate the revenue per car to be about $134, and for the distance to Lancaster, 68 miles, per car-mile of $1.97 under the present rate and $3.28 under the proposed rate. They compare this with the average passenger revenue per car-mile for the Pennsylvania in the year 1924 of 53 cents. These comparisons lack in probative value. The unit they have taken, namely, the carload, is the exception in actual experience. The shipments are strictly less-than-carload in every sense of the term. Car-mile revenue is often employed as a basis for comparison of carload rates, but is obviously improper for comparison of less-than-carload shipments which move at a flat charge to thousands of scattered destinations in such small individual lots or parcels. In contrast to the straight carloads mentioned above respondents show that there are hundreds of individual shipments daily to separate destinations which weigh less than 7 pounds and move for distances up to 500 miles, at charges of 2 cents and less. In other words the total shipments per day to many widely scattered destinations yield revenue of less than the letter-postage rate of 2 cents.

"Most of the cars which are loaded heavily at points of origin commence distribution at nearby suburban stations and, at the ends of the long hauls, contain only a few bundles. Protestants exhibits show that 58.2 per cent of the daily editions are unloaded within the first 50 miles, 75.4 per cent within 70 miles, and 84.7 per cent within 100 miles.

A. W. Fell, executive secretary of the Pennsylvania Newspaper Publishers' Association, announced that Pennsylvania newspaper publishers are awaiting action by the Public Service Commission before taking further steps to oppose the 66⅔ per cent rate boost granted the railroads for transportation.

He said 85 per cent of the papers shipped in Pennsylvania are between state points.

"Since the year 1900 respondents' rates for freight service have undergone general increases of 5 per cent, in trunkline and central territories, 15 per cent in central territory, 25 per cent in both in 1918, 40 per cent in 1920 and a general reduction of 10 per cent in 1922. If the rate of 25 cents in central territory in 1900 had undergone these general changes, the present rate would be approximately 46 cents. The proposed rate of 50 cents represents a small increase over the rate in effect in 1900, in comparison with the large increases in costs of operation since that year. Respondents state that the composite increases in wages and materials, 1925 over 1916, were about 85 per cent for the Pennsylvania and 89 per cent for the Reading.

"The local and out-of-town retail prices of the newspapers have been increased generally by different amounts; for example, some New York and Philadelphia papers have increased their local prices from 1 to 2 and 3 cents for daily editions and corresponding increases for Sunday editions. Rates on milk have been increased 51.7 per cent over the pre-war level. The average revenue of the Baltimore & Ohio per passenger per mile in 1924 had increased 72.45 per cent over the year 1910. These facts indicate that newspapers have not borne their relative share of the increases in revenue and the increased costs of transportation over respondent's lines."

50,000 VISIT DAILY'S RADIO SHOW

New Orleans States Project a Success With All Booth Space Sold— To Be Repeated Next Year

The *New Orleans States,* a little more than a month ago, staged one of the largest radio shows in the South, which attracted more than 50,000 persons during the six-day period.

P. K. Ewing

The idea of the show for 1925 was conceived by P. K. Ewing, radio editor and manager of that branch of advertising.

The fourth floor of the States, comprising more than 22,000 square feet of space, with ample ventilation, light and elevator facilities, was considered the ideal "auditorium" for the show, especially since the location of the States four-story building is far enough away from Canal street to permit ample parking space for automobiles.

When Mr. Ewing and staff started out to sign contracts with leading wholesalers and retailers in the radio field, some doubt was expressed by a few that no one newspaper could successfully "put over" the show.

All doubts were dispelled, however, when more than 10,000 persons attended on the opening night.

Speeches were made by Mayor Martin Behrman, William Pfaff, president of the Association of Commerce, and Col. Robert Ewing, publisher of the States.

Daily feature stories in the States, supplemented by windshield stickers and window cards, brought out the large attendance.

At the conclusion of the show a joint letter, signed by every exhibitor, was sent to Col. Ewing, expressing appreciation of what the States had done.

On the opening day of the show a 28-page radio section was published, in which more than 55,000 lines of radio advertising was carried. The cover design included a personal letter from Mayor Behrman urging everyone to attend, and also endorsing radio as a means of improving home life. On each succeeding day of the show from 2,500 to 3,000 lines of radio advertising was published in the States, according to P. K. Ewing.

Entertainment features nightly included the personal appearance of many of the well-known local radio artists.

"We arranged all details for exhibitors," said P. K. Ewing, "selling them a completed booth, already decorated, and including insurance protection against fire, and amply lighted. A flat price of from $150 to $350 per booth was charged, which included all incidentals. Many exhibitors felt that we really gave them too much for their money, which sounds rather strange in a newspaper ant."

Col. Ewing dined all exhibitors at Antoine's at the conclusion of the show, and the States was asked to conduct the New Orleans exposition again in 1926.

The admission price was 50 cents to adults or children, but many tickets were given out free by dealers to prospective radio purchasers. The dates of the show were Oct. 26-31.

FRANKFORT TIMES BUYS AND SUSPENDS NEWS

Pulliam and Swank Sell to G. Y. Fowler's Sons, Leaving Morning Times Without Competition in City

The purchase of the Crescent News Publishing Company, publishers of the *Frankfort* (Ind.) *Daily News,* by G. Y. Fowler's Sons, publishers of the *Morning Times,* was announced Dec. 12.

With the last edition of the News on that date the city's evening newspaper suspended.

The News has been absorbed by the Times and only one newspaper is being published in the city. The paper will continue under the name of the Frankfort Morning Times and will continue in the morning field.

The News was purchased from Eugene Pulliam, publisher of the *Lebanon* (Ind.) *Reporter* and Roy Swank, who has been manager of the News since Oct. 1, when the paper was bought by them from J. J. Schumann, now at Orlando, Fla. The purchase by the Times included only the good will and subscription list of the News, Pulliam and Swank retaining the physical equipment which under the contract they must dismantle immediately.

The Times was founded as a weekly in 1885 by the late G. Y. Fowler who converted it into a morning daily in 1894. Since the death of the founder in 1914 the paper has been continued by his three sons.

The News dates back to 1849 when the *Clinton News* was founded. It had been continued under various managements and names. Later it became the Frankfort News and in 1914 was consolidated with the *Crescent,* another evening newspaper by W. G. Hendricks, now owner and publisher of the *Peru* (Ind.) *Journal.* It was published under the name of the *Crescent News* until about a year ago when the name was changed to the Frankfort Daily News.

Concerning the merger the Times editorially said in part:

"It is the desire of the management to make the publication even better. The Times was established in 1885 and that it has served the community is shown by the fact that from the start it obtained the lead in the field and despite aggressive competition throughout the years maintained the largest circulation in the county. In line with its policy of leadership, the Times always was first with the latest mechanical equipment. It is in keeping with this desire to give the community the best possible newspaper that the merger has been made."

W. S. Fowler is editor of the Times.

ADVERTISING

General Promotion

Advertising Promotion—If you want more business, communicate with the International Publications Service, Suite 1004, 1841 Broadway, New York City.

Special Editions—Publisher may contemplate anniversary or industrial edition or desire to institute weekly business review page but hesitate at usual high rate of commission charged by specialists in this work. Eleven years' experience as executive in local and national advertising departments of newspapers, coupled with five years' experience on special editions and pages, insures efficiency of advertiser, who will work for reasonable compensation, and guarantee continued good-will of advertisers. B-560, Editor & Publisher.

Special Pages—Save the make-up worry!. Run any day—once a week a special feature or contest page. I develop local display with permanent good will prestige for a reasonable commission. Every account guaranteed. Endorsement of leading publishers. William E. Jordan, Newspaper Revenue Builder, care Editor & Publisher.

BUSINESS OFFICE

Appraisers

Appraisers—Recognized authority on Printing and Newspaper plant valuations. Standard Appraisal Company, 90 John St., New York.

Accounting

Accountants and Auditors—Specializing in Newspaper Accounts and Federal Tax Matters. The largest and oldest firm of Certified Public Accountants handling Newspaper Work Exclusively. Edmund Walker and Company, 247 Park Ave., New York City.

Over box number "A-989" a newspaper was offered for sale on the Classified page. To date the advertiser has received 18 replies, and he assures us that they all look like live prospects and he anticipates no difficulty in closing sale.

BUSINESS OPPORTUNITIES

Brokers

Broker—Did he say no broker? Then be careful, he probably has a property that will not stand the acid test. Many purchasers prefer to pay the commission, realizing that it is money well spent. If you desire to buy or sell a property, you will do well to engage a qualified, responsible broker. I claim to be both and have some desirable properties to offer.—J. B. Shale, Times Building, New York.

CIRCULATION

Promotion

Circulation—When quick, additional circulation coverage becomes necessary, remember that our twenty years in this one line of endeavor is your proof against experimenting. Write or wire Pacific Coast Circulation Service, Bell Block, Cincinnati, Ohio.

Premiums

Premiums—Publishers! Circulation Managers! Circulation solicitation, using your crew, with premium to produce circulation at maximum cost of twenty cents order. Extremely low financing and minimum purchase of premium. Crew average 8 orders. Details without obligation. Albright China Co., Carrollton, Ohio.

EMPLOYMENT

ASK MORE NEWS VIA RADIO IN BRITAIN

Broadcasting Company Requests Modification of Present Restrictions Saying Newspapers Now View Radio As Ally

LONDON, Dec. 7.—In this country the broadcasting of news by radio is fledged around with numerous restrictions. No news may be sent into the ether before 7 p. m., and then the items are limited to matter supplied by the four great news agencies, the news announcements being prefaced by the intimation "Copyright by Reuter, Press Association, Exchange Telegraph, and Central News." Functions and speeches may be broadcast, so long as the transmissions are limited to what the microphone can pick up, at any hour of the day, but the Broadcasting Company is not allowed to describe happenings of the day by placing a narrator before the microphone.

The British Broadcasting Company, which, as American readers know, holds the monopoly of radio broadcasting in Great Britain, intends to press for greater freedom of action as far as news transmission is concerned.

This fact was made clear in an interesting statement submitted by the Company to a Committee of Enquiry that is now sitting at the House of Lords. The Broadcasting Company holds the opinion that the 7 o'clock time limit should be abolished, and it also wants to broadcast eye-witness accounts of the current day's happenings from the studio each evening. It suggests that this development would not detract from the value of the newspapers.

The relations between the press and the Broadcasting Company are now exceedingly cordial—a point that is touched on in the report. The early uneasiness that undoubtedly prevailed in newspaper circles has now disappeared, and the Company warmly acknowledges the great assistance that the press has rendered in developing the broadcast service. It adds that newspapers now regard radio as a potential ally rather than a rival, and the B. B. C. takes the same view, the assurance being given that any of the recommended developments will be taken in cooperation with newspapers and in harmony with their interests.

PRESS MOVED EASILY

Only 27 Hours Needed to Transfer Fond Du Lac Reporter's Duplex

Only 27 hours were required recently to take apart and move the 35-ton Duplex press of the *Fond Du Lac Daily Reporter* from the basement of that newspaper's plant to the first floor. Forty men were engaged in the work. Removal of the press is part of the general remodeling and enlargement of the Reporter's plant.

The stereotyping department is also being moved to the first floor with a view to speeding up operations and increasing efficiency.

The work of dismantling and reassembling the press was in charge of Herman Ninnow and Herman Prellwitz, experts from the Duplex Press Company of Battle Creek, Mich.; the electrical work was directed by C. S. Hall and K. R. Ross, of the General Electric Company, Chicago.

New N. C. Paper Planned

L. D. Miller, R. E. Price and J. B. Miller are planning another newspaper for Rutherford County, N. C., to be called the *Rutherford County News*. These three men have been associated with the *Rutherford Sun* for a number of years.

Florida Publications Merged

Sunshine, St. Augustine, Fla., has been merged with *The Hollywood Magazine,* Hollywood, Fla., and the combined magazines are being published as *Tropical America,* starting with this month's issue.

Political Weekly Launched

The *Virginia Democrat,* political weekly published at Richmond, printed its first issue Dec. 5. Herman H. West was named as editor; William P. Smith, business manager; Charles S. Thomas, advertising manager, and William J. Herndon, circulation.

Sac City Sun and Bulletin Merged

S. M. Stouffer & Son, publisher of the *Sac City* (Ia.) *Sun* have purchased the *Sac County Bulletin* and will merge the papers. The Bulletin has been published by J. S. Russell. The Sun was founded in 1871 and the Bulletin in 1880.

Sir Charles' Gift to Poor Richard

Sir Charles Higham, British advertising agent, has presented the Poor Richard Club of Philadelphia the painting by Allen Stewart of "Penn Receiving the Charter of Pennsylvania from Charles II." It is planned by Sir Charles that the gift will be brought over by Col. Lawson, president of District 14, Associated Advertising Clubs of the World, when he comes with the British delegation to the A. A. C. W. convention in Philadelphia next June as memento from England.

BUSINESS TICKLERS

DECIDING that local fish canning and preserving plants had been receiving much local publicity without contributing to the coffers of the local newspaper in the way of advertising, the advertising manager of the newspaper arranged a canning page. Each of the canning firms was solicited for advertising in this page and all made purchases of space. Two insertions were made of the page.—W. McNulty, St. John, Can.

A device which is arousing considerable interest among advertisers has been adopted by the *Bloomington* (Ind.) *Star*, a weekly. A box is run at the top of the fifth column on the first page calling attention to the largest ad in that week's paper. With it is an announcement that the Star will call attention every week in that space to its biggest advertisement of the week.—Norman J. Radder, Bloomington, Ind.

Unusual full-page copy run this week in the *Pittsburgh Press* with 153 cuts advertising separate articles

A page headed, "Don't Flirt with Death," carrying a few accident "illustrations" will bring business from the accessory stores and garages in your city. Auto chains, brakes, and steering gear can all be emphasized.—Roy C. Swank.

WHENEVER there is an important postoffice robbery, great numbers of readers puzzle over how the bandits are able to dispose profitably of large quantities of stamps. They have little or no information of the criminals' "fence" through which crooks realize on their stolen goods. Police and detectives can give a good account of the "fence" system which will be of interest to readers.—A. C. Regli.

Analyzing the character of readers from photos furnished is proving an interesting stunt on one of the northwest papers. Services of an expert character analyst have been engaged and numerous characters are analyzed each day. A leading citizen has his character told in several sticks, with photo, while the average citizen is addressed by initials and draws a paragraph.—C. M. L.

One of the Boston papers recently ran a feature story on the air mail postage stamps with reproductions of the first ones used. Local collectors in your city could help you out on information as well as the post office and the story would make very interesting reading even to people not interested particularly in stamps.—C. E. Pellissier.

Get your sports page editor to run a questionnaire on what the major sport developments of the year will be. Will Tilden hold his championship? Will Helen Wills defeat Suzanne Lenglen during 1926? Will Willie Hoppe regain his billiard title? Will Pittsburgh repeat as pennant winners? Sum up the results and check up on them at the end of the year.—E. Merle Hussong, Santa Ana, Cal.

The *Los Angeles Times* recently conducted a twin-matching contest productive of much reader interest. Photos of twins were run in the paper for a period of time and contestants were to match the photos of twins. All age groups were represented.—Harold J. Ashe, Long Beach, Cal.

"Has Girl Right To Propose?" was the title of a feature some days ago in the *Ogden* (Utah) *Standard-Examiner* which caused a great deal of interest. The ministers of the city were asked to give their views, and they did freely. Of course, they disagreed, as we all would, but it made interesting "copy."—F. L. W. Bennett.

Most Populous State in the Union

New York State

is Wealthiest Community in the World

THE population of New York State is for the most part centered in 59 cities, six of which have over 100,000 inhabitants and the rest have from 25,000 to 100,000. The city people in New York State number 8,589,844. There are more people to the square mile in New York State than in any similar area in America.

New York State has more people than any one of these European countries: Belgium, Roumania, Greece, Netherlands, Portugal, Sweden, Bulgaria, Switzerland, Finland, Denmark or Norway.

It has more than Scotland and Ireland combined. It has almost twice as many as Australia and it exceeds all Canada. New York State is more populous than any country in South America, except Brazil, and it exceeds any country in North America except Mexico.

New York State with a wealth of about $37,000,000,000 represents the greatest concentrated wealth in the world. The per capita wealth is $3,431.

In this thickly populated market of vast wealth there is big business for the state wide distributor.

The New York State newspapers listed below offer excellent cooperation for the promotion of sales to National Advertisers.

† Government Statement, Sept. 30, 1925.

Why Should They Read *Your* Paper?

THIRTY!

The last piece of copy has left the desk, the last form is hot from the foundry, the last plate locked on the cylinders.

A long, low roar from the presses and another "final" is on its way to the wagons and the boys! Another good job done.

But how much better a job than your competitor's?

What is there in that sheet, still wet from the press, that isn't in your competitor's?

In the answer lies the measure of your success.

The secret of that success is the *news behind the news.*

an interpretation of the big story of the day by the country's most widely-read national correspondent.

—a summary and analysis of the day's developments in the business world by the head of a staff of expert business news writers.

—the background of the big news story in each section of the country written by staff men trained to cover the exclusive angle.

—expert analysis of the situation in each major sport by trained sport writers with national reputations.

—world news of human interest from thirty capitals.

—the day's contribution to the world of radio and fashion.

—the most complete and authoritative review and outlook of the markets available.

These exclusive dispatches by the staff-writers of The Consolidated Press Association, distributed over its leased wire, give you the "background" news that makes your paper different—makes it *dominate your field.*

Radio Products That Sell Best in Chicago Are Advertised Most in The Chicago Daily News

This is a case of "cause and effect," and you may check up on the statement with little difficulty. Ask the better class dealers—the dealers who stay in business and grow.

There is abundant reason for the effectiveness of Daily News advertising in selling good radio products. Its interesting and authoritative radio department every day and its radio section every Saturday hold the interest and confidence of radio fans throughout Chicago and its suburbs. And with its 400,000 daily average circulation—approximately 1,200,000 daily readers—concentrated 94 per cent in Chicago and nearby towns—it goes into the great majority of financially competent households that are the best supporters of radio.

To sell more radio products in Chicago, follow the lead of experience and advertise more in

THE CHICAGO DAILY NEWS

First in Chicago

Note—The Daily News is the only newspaper in Chicago that owns and operates its own radio broadcasting station—WMAQ.

DRY MATS FOR STEREOTYPING

501 FIFTH AVENUE
AT 42ND STREET

NEW YORK

December 21, 1925

Gentlemen:

The magnificent new plant of THE PHILADELPHIA INQUIRER is unquestionably the most complete and best equipped newspaper home in the world.

It houses the speediest and most substantially constructed printing press ever built. The production of this remarkable machine is easily double that of any other press in existence.

The last word in the science of manufacturing the modern newspaper was said by THE INQUIRER when it ordered in for exclusive use in its beautiful plant the WOOD METROPOLITAN DRY MAT. Shortly THE INQUIRER will be making such speed in getting to the delivery room as never before dreamt of.

The new Wood Newspaper Making Machine and the WOOD METROPOLITAN DRY MAT are the outstanding newspaper inventions of the present century.

Cordially,

President

The woman pays because—

¶ In America women do the buying—whether for themselves, their families or their homes.

¶ This is as true of automobiles and books as it is of soap and dress goods—it is true, in most cases, of the clothes worn by men, whether by married men or sons at school.

¶ For this reason the advertiser receives the greatest benefit from advertising in newspapers read in the home by the family—such newspapers as the Baltimore Sunpapers.

¶ The Sunpapers are family papers, delivered right to the home by exclusive Sunpaper carriers.

¶ This carrier system was inaugurated in 1837 with the first issue of the Sunpapers—and has grown steadily with the growth of Baltimore until today it spreads out and covers the 93 square miles that make up Baltimore and Baltimore's suburbs.

¶ Using the Sunpapers, the advertiser knows that his message will be read not only in the office, on street cars, in lunch rooms—but in the home where the real buying of America is done.

Baltimoreans Don't Say "Newspaper;" They Say "SUNpaper"

Christmas Sales Set New Record in

PHILADELPHIA

Around $100,000,000 Mark

PHILADELPHIA (America's third largest market), with an unprecedented jam of Christmas shoppers, buying more costly gifts than ever before, bids fair to make this the greatest Christmas spending year in its business history, according to leading merchants.

The department stores and other retail merchants are enthusiastic over the heavy buying of the early Christmas shoppers. Shortly after Thanksgiving they began to descend on the stores with the result that hurried calls were made to employment departments for additional sales girls and packers.

"It looks like the biggest year yet," said Sheridan Taylor, of the credit clearance bureau of the Philadelphia Chamber of Commerce. "If the crowds keep up their buying, Philadelphia's Christmas business will pass the $100,000,000 mark this year, setting a new record in this city.

"Not only is heavy spending pretty general, showing no reaction from the predicted reaction of the coal strike, but the average amount of money spent is greater than ever before. Automobile dealers tell me their holiday buying is beginning to catch up to their spring trade and the radio people are reporting heavy sales in the more expensive sets.

"Another noticeable increase is in the buying of women's apparel, especially fur coats, and the haberdasheries are experiencing active buying in men's coats, gloves and golf suits. It looks as though the man of the household will have more spent on him than ever before.

"The jewelers are delighted with the Christmas trade so far. Diamonds are proving popular gifts, with a decided trend toward unusual earrings for women and imported cuff-links for men."

DOMINATE PHILADELPHIA

Create maximum impression at one cost by concentrating in the newspaper "nearly everybody" reads—

The Evening Bulletin.

PHILADELPHIA'S NEWSPAPER

"In Philadelphia nearly everybody reads The Bulletin"

520,072 Copies a Day

Average daily net paid circulation for the six months ending September 30, 1925.

The circulation of the Philadelphia Bulletin is the largest in Philadelphia and is one of largest in the United States.

Death Suddenly Summons Frank Munsey At Height of Power and Success

Succumbs at 71 After 9-Day Battle With Appendicitis—Newspapers Temporarily in Charge of William T. Dewart—Wealth Estimated at $40,000,000

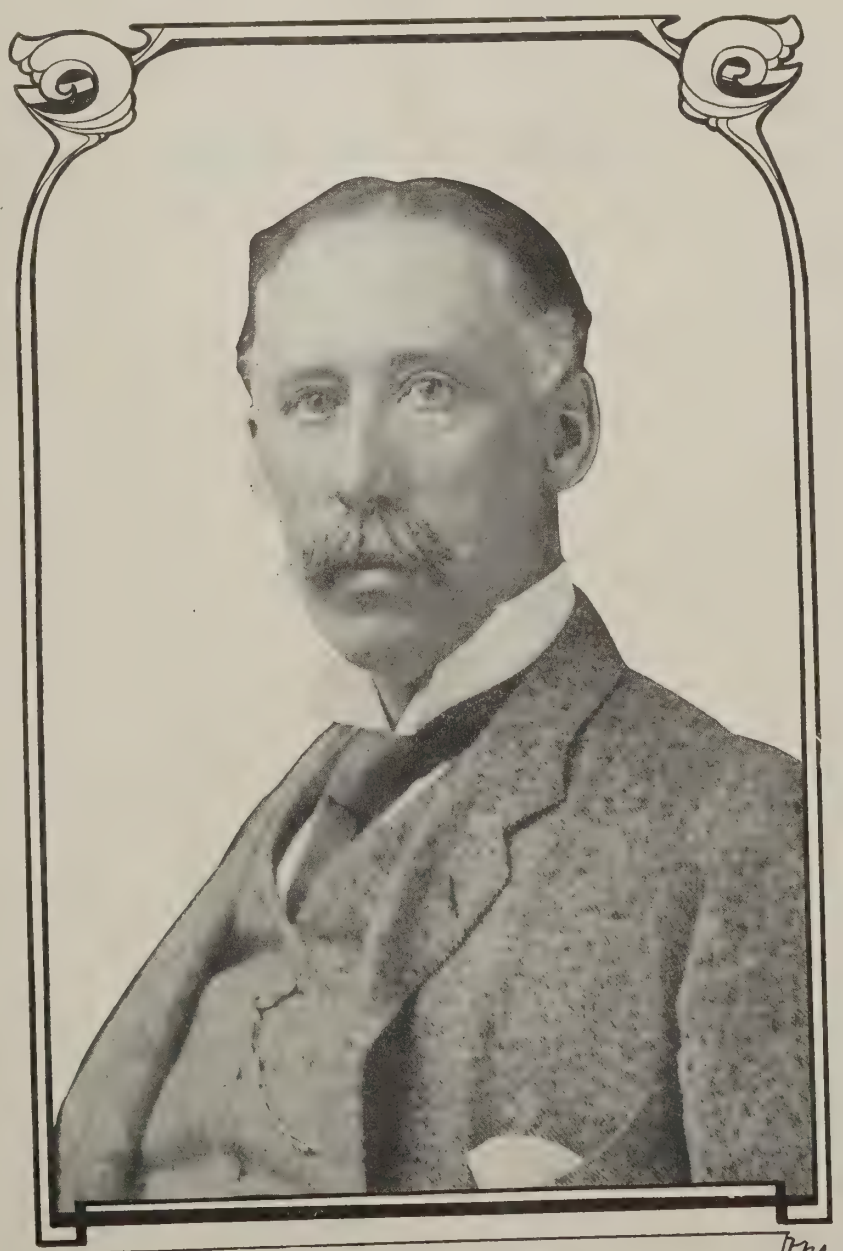
FRANK ANDREW MUNSEY is dead. The end came to the millionaire business man and publisher of magazines and the *New York Sun* and the *New York Evening Telegram*, at 6:30 o'clock in the morning, Dec. 22, at Lenox Hill Hospital, New York, where he had been operated on for appendicitis and peritonitis, Dec. 14. He was in his 72d year.

The body lay in state Dec. 23, in a chapel of the Cathedral of St. John the Divine, attended by old employes, while funeral services, conducted by Bishop Manning, were held Christmas Eve, with burial in a vault at Woodlawn cemetery. In the spring, the remains will be removed to Lisbon Falls, Me., and placed beside those of his father and mother, in a plot Mr. Munsey himself had arranged.

During the services Mr. Munsey's various business interests paid tribute by several minutes of silent reverence. In his headquarters building, 280 Broadway, the office of the Sun, all portraits of the dead owner were draped with black, the only visible sign of mourning.

The Munsey newspaper and magazine properties, for the time being, are in the hands of William T. Dewart, vice-president and general manager of the Frank A. Munsey Company. The will has not yet been opened, and all executives claim ignorance of the plans Mr. Munsey may have had for the future of his publishing enterprises, and disposal of his vast fortune, conservatively estimated as between $30,000,000 and $40,000,000. It is known that during this last sickness, he summoned Charles E. Rushmore, his attorney, to his bedside, and made changes in his will and testament previously drawn.

The newspapers were owned by the Frank A. Munsey Company, capitalized at $10,000,000, with Mr. Munsey president and Mr. Dewart, vice-president and general manager. Directors of the company, which also controlled the Munsey magazines, are C. H. Pope, Matthew White, Jr., C. H. Stoddart, and R. H. Davis.



Mr. Munsey's nine days of fatal illness brought him daily closer to death than the general public was permitted to know. Optimistic bulletins were issued to the daily press, while his doctors and associates knew his condition was more desperate than was ever hinted.

The final fight for life was brave, however. Mr. Munsey's heart was strong, and he withstood the shock of two secondary operations in a remarkable manner, giving proof of his amazing vitality.

Hopeful statements regarding his condition were issued to the public up until last Saturday. Then late Saturday night, because of a tendency to coma, it was decided at a consultation between Drs. Oastler, Lambert, Poole and Garbat that another secondary operation be performed, which took place Sunday afternoon. Because of the drainage established by this operation, Mr. Munsey seemed to show a very considerable improvement, but the septic condition was so widespread that the favorable signs were only temporary. Late Sunday night he began failing rapidly.

A group of close business associates remained with him until midnight of that day, and then, because of evidences of the approaching end, they were re-summoned at about 4 o'clock Monday morning. Gilbert T. Hodges, director of advertising of the Frank A. Munsey Company, had remained on watch and had notified the others by telephone.

In the private suite of the hospital were gathered Mrs. Allan W. Mansfield, of Meriden, Conn., a grandniece of the publisher; Mr. Dewart, who has been associated with Mr. Munsey for 30 years, and Mrs. Dewart; Fred A. Walker, for 24 years intimately connected with the dying man; Edwin S. Friendly, business manager of the Sun; Mr. Hodges and C. T. Dixon. As the first streaks of day filtered into the blind-darkened room, light flickered out of Mr. Munsey's body. His life on earth had come to an end. He had been unconscious during all the last several hours.

Frank Andrew Munsey
1854—1925

Mrs. John Hyde, the publisher's sister, who lives in St. Petersburg, Fla., and who, because of her age, 77 years, and the wish of her brother, was not summoned to his death bed, was to arrive in New York in time for the funeral services, Dec. 24.

The passing of Mr. Munsey was the more dramatic, because of its suddeness. In the spring of this year, he had suffered a severe attack of influenza. Then some few feared for his health. But he spent an unusually long time at his country estate in the Adirondacks, and then went abroad to Carlsbad for the baths. He returned to New York in the early fall, decidedly improved in health.

"He was in better condition this fall than he had been for years," Mr. Walker said. "He would arrive at the office every day at 10 o'clock and remain all day. He kept later hours and worked harder than anyone he employed. He was more exacting of himself than of anyone else."

It was in this condition of vitality and energy, that he came to his office on Dec. 13. During the day he stopped in at the news room of the Sun on the second floor, an almost daily custom. His tall gaunt frame showed not the slightest indication of illness. He paused at the desk of Keats Speed, managing editor, and chatted with him informally, then moved over to George Van Slyke, his political editor, ending his inspection at the desk of Franz Schneider, financial editor.

Mr. Schneider was particularly impressed with the owner's good spirits and apparent good health. The financial editor has not been long on the Sun's staff, coming there from the *New York Evening Post*, where he had made a brilliant reputation.

"I want the best," Mr. Munsey told him on this day, "I want the best financial talent you can engage."

Then he mentioned the name of one of the present financial writers, and complimented Mr. Schneider on this man's work.

"How much is his salary," Mr. Munsey questioned. He was told, and the sum is considerably above that paid most newspaper men.

"It isn't enough," Mr. Munsey answered. "I want you to write out a recommendation to me to raise that amount substantially. Bring it to me in my office on Monday."

On Monday he was in the hospital he would never leave alive.

On that same Saturday afternoon, he motored out to his estate at Manhasset, L. I., where he remained until evening, returning later to his apartment at the Ritz Carlton Hotel. He dined that evening with friends at the Ritz. During dinner, he became ill and retired to his

rooms. Even then he refused to consider his illness seriously and did not seek medical aid.

In the morning, however, he felt worse and summoned his physician, Dr. Oastler, who, after consultation with other doctors, order his removal to the hospital.

The funeral on Christmas Eve at the Cathedral of St. John the Divine was dignified and impressive. The Union League Club, of which he was a member, appointed a committee of 98 to attend. The members of the Publishers' Association of New York attended in a body, with the executives of the American Newspaper Publishers Association.

The Publishers' Association at a meeting the day before passed a resolution in tribute to Mr. Munsey, and voted to have it engrossed in a book and presented to the Sun. Tributes at this meeting were paid by Victor Ridder, *New Yorker Staats Herold,* Herbert F. Gunnison, *Brooklyn Eagle,* and Howard Davis, *New York Herald Tribune.*

Honorary pall bearers at the funeral included:

Gov. Alfred E. Smith, Judge Elbert H. Gary, Charles E. Hughes, John D. Rockefeller, Jr., Charles E. Mitchell, Albert J. Beveridge, Thomas Lamont, Charles H. Sabin, Clarence H. Mackay, James W. Gerard, Chauncey Depew, Adolph S. Ochs, Ogden Reid, John W. Davis, Otto H. Kahn, Dr. Nicholas Murray Butler, Erman J. Ridgway, Edward P. Mitchell, William R. Wilcox, Morgan J. O'Brien, Melville E. Stone, George Gordon Battle, Kent Cooper, Judge Martin T. Manton, Darwin P. Kingsley and Karl A. Bickel.

When the body lay in state at the Cathedral, it was guarded by old employes.

Throughout the night the following employes were on guard: Robert Ferris, James Lockhart, Harry Ney and J. W. Brannigan. At 7 o'clock they were relieved by Matthew White, C. H. Tate, S. P. Schafer and H. B. Ward.

The Gorham bronze coffin rested in front of the altar, lying parallel with it. Lilies were around it. The golden inscription it bore read, simply:

FRANK A. MUNSEY

One of the floral pieces was a cross covered with lilies. It stood at the head of the coffin. Another floral piece consisting of roses and smilax was the tribute of Miss Daisy Sorenson, who had been Mr. Munsey's private secretary for many years. Upon it was the single name, "Daisy."

A guard of honor, composed of men who had long been employes of Mr. Munsey, attended the body, each group remaining in the chapel for twelve hours.

GET ALL THE NAMES!

Is Latest Order to New York World and Times Reporters

"Get all the names!" is the latest order to *New York World* and *New York Times* reporters.

Herbert Bayard Swope, executive editor of the World, started it not long ago, and the Times was quick to follow suit. Of course, printing long name lists is nothing new in the newspaper field. Across the river in the big borough of Brooklyn the dailies there have been doing it for years. New York, however, it was thought, had outgrown this journalistic feature.

But Mr. Swope decided one day the people would like it, and in consequence accounts of public dinners are now being followed by a detailed list of those attending, printed in agate, and arranged alphabetically. He figured that, despite apartment house isolation, there was alive in New York a keen interest among people as to what their neighbors were doing.

"The response has been overwhelmingly in favor of the innovation," William Preston Beazell, assistant managing editor, told EDITOR & PUBLISHER this week.

We can't blame the French if they think America is merely a place to get money to buy a Paris divorce.—*Cleveland Times.*

WORLD PRESS PROGRAM GROUPS NAMED

Ad Interim Committees Appointed by Dean Walter Williams to Report Subjects for European Meet—Many Foreigners Named

Dean Walter Williams, of the University of Missouri School of Journalism and president of the Press Congress of the World, has announced ad interim committees which are to report various subjects at the next meeting of the congress to be held in Europe.

The committee on news communications consists of Col. Edward Frederick Lawson, *London Daily Telegraph,* chairman; B. W. Fleisher, *Japan Advertiser,* Tokio, vice-chairman; Mons. Borsa, *Il Secolo,* Milan, Italy; Henry Houssayo, Agence Havas, Paris; Walter Nichols, *Province,* Vancouver, B. C.; A. A. Humme, Dutch Press Association, The Hague, Holland; Ludvig Saxe, *Verdene Gang,* Christiana, Norway; Robert Bell, *Lyttleton Times,* Christ Church, New Zealand; Thales Coutoupis, *Nea Alles,* Athens, Greece; W. P. Wang, *Shun Pao,* Shanghai, China; Keith Murdock, *Herald,* Melbourne, Australia, and Gregoria Nieva, *Philippine Review,* Manila, P. I.

Committee on Freedom of the Press—Thales Coutoupis, chairman, and M. Borsa, vice-chairman.

Committee on Interchange of Journalists—Guy Innes, *Herald,* Melbourne, Australia, chairman, and Hollington K. Tong, *Review of the Far East,* Peking, vice-chairman.

Committee on Journalist Education—K. Sugimura, *Asahi Shimbun,* Tokio, chairman, and Robert Bell, Lyttleton Times, Christ Church New Zealand, vice-chairman.

Committee on Ethics and Standards of Practice—Stephane Lausanne, *Le Matin,* Paris, France, chairman, and Edouard Chapuisat, *Journal de Geneve,* Geneva, Switzerland, vice-chairman.

Committee for Promotion of Welfare of Journalists—Jorge Mitre, *La Prensa,* Buenos Aires, chairman and Torcuato Luca De Tena, A. B. C., Madrid, Spain, and H. A. Davies, Australian Journalists' Association, Melbourne, vice-chairmen.

Booklet Features Women Writers

"Women of the Tribune" is the title of a book produced by the *Chicago Tribune,* containing sketches of the women journalists now on the staff.

Sagaser Offices to Macon

The Sagaser Newspaper Association will establish central headquarters in Macon, Mo., about Jan. 1, it has been announced by C. G. Sagaser, vice-president and treasurer, who will be manager of the office. The company operates the *Atlanta* (Mo.) *Express* and the *Bevier* (Mo.) *Appeal* as well as holding Jackson county, Missouri, printing interests.

Songs of the Craft

(*Written Exclusively for* EDITOR & PUBLISHER)

By Henry Edward Warner

GREETINGS

ABOVE the din I hear a yell
For copy, and I speed me well
To make the grade; but in my heart
I am no parcel and no part
Of all this racket in the room
Nor of the presses' roar and boom.
I'd rather quit a while and say
A word to you of Christmas Day—
Greetings!

I'd rather chop the chore, and do
A season's wish-you-well to you!
I'd rather say, I hope you see
Your wishes on your Christmas Tree.
I'd rather sing a song of cheer
For this so gladsome time o' year,
And so invoke the gods to bring
You all you want, of everything!
Greetings!

I have my mind, I have my health—
I have no pressing need of wealth;
I have my job, my daily task,
My kids, and what more could I ask?
And I have you who read these things
That one in altruism sings;
I ask no other thing than what
I've had, and hope for, and have got!
Greetings!

Here's wishing you may all enjoy
Your Christmas; that no harsh alloy
May touch the pure gold of delight
When Santa's reindeer come in sight.
And if Fate left the job to me—
If I were Kris, your Christmas Tree
Would bend with gifts, your socks enfold
More happiness than they could hold!
Greetings!

IRONTON (O.) DAILIES TO MERGE JAN. 1

Morning Irontonian and Evening Register to Continue as Morning and Evening Tribune Under Consolidated Ownership

The two daily newspapers at Ironton, O., the *Morning Irontonian* and the *Evening Register,* are to be consolidated Jan. 1.

Financial arrangements were made equalizing the difference in value of the two properties and stock will be issued to the merging companies on an equal basis.

The Irontonian is owned by the *Portsmouth* (O.) *Times* interests and the Register by the C. B. Moore estate. A new company to be known as the Ironton Tribune Company will be incorporated and an evening and Sunday morning paper will be issued under the heads of the *Ironton Evening Tribune* and the *Ironton Sunday Tribune.* The names of both merging papers are to be dropped.

Miss F. B. Moore, who has been business manager of the Register, will be business manager of the new paper, which will be Republican in national affairs and independent locally. The Tribune will be operated in close co-operation with the Portsmouth Times, interested in general business and other policies. I. A. Klein will represent the papers in the national field.

The Portsmouth Times is published by the Times Publishing Company with Harry E. Taylor as editor.

Donahey Taking Long Vacation

Hal Donahey, cartoonist of the *Cleveland Plain Dealer,* has entered, upon a vacation that will continue until April 1, 1926. Donahey has been working on the Plain Dealer 25 years and says he figures that he has a real vacation coming to him. In 1924, Donahey was in Egypt for three months, but the Plain Dealer carried one of his cartoons every day. They were drawn on onion skin paper and mailed from Cairo. This time he will take neither pen nor pencil with him. Donahey has drawn nearly 9,000 cartoons for the Plain Dealer since 1899. He is a brother of A. Victor Donahey, governor of Ohio.

NEW "TELEVISION" TEST

Edouard Belin Displays Latest Invention Before Paris Society

A new invention for transmitting pictures by telegraph was demonstrated Dec. 18, by Edouard Belin, French inventor, before the Society of French Photography in Paris. M. Belin carried on his early experiments with "television," in co-operation with the *New York World.*

M. Belin gave his colleagues a demonstration of his instrument, which while lacking certain practical aspects is nevertheless said to be a definite working out of the principle of "television."

"The turning mirror," used by scientists has been modified by M. Belin. Twenty silver facets are mounted on a vertical steel disk and turn at a speed of 4,000 revolutions a minute in the face of a strong electric arc light, before which is placed the image to be transmitted. An ingenious movement backward and forward permits the mirror to sweep a pencil, the connection of which with other details of the invention are not revealed, and reproduces the original picture.

The photograph of M. Louis Lumière, President of the society, was transmitted several times in the course of Mr. Belin's demonstration. "Television" by radio is on the point of being realized, M. Belin told the society.

R. H. L's Line Book Out

The *Chicago Tribune's* 1925 Line Book is out. Between its covers are some 125 selections from contributions to Richard Henry Little's Line O'Type column on the Tribune's editorial page.

FRANK MUNSEY LIVES IN MANY MEMORIES

Tributes From Government Officials and Publishers of the Nation Stress His Integrity, Self-Reliance, Sagacity, and Ambition

The following eulogies and comments on the life of Frank A. Munsey have been received by telegraph by Editor & Publisher:

PRESIDENT COOLIDGE

The death of Frank Munsey has taken one of the outstanding publishers of our time. He started as a poor boy in Maine. Through energy and an indomitable will to succeed typical of our true American spirit he conquered all obstacles in his path. As an editor he reached a position of influence in the country. His support of measures appealing to his judgment was strong and unfaltering. Mr. Munsey was a member of the commission appointed by me to arrange for the celebration of the 200th anniversary of the birth of George Washington. The swiftness of his passing has been the more of a shock, for very recently he was my guest at the Cabinet dinner.

ADOLPH S. OCHS
Publisher, New York Times

I extend my deepest sympathy. I am deeply grieved by the news of Mr. Munsey's death. He has been my friend for many years and I held him in high esteem and affectionate regard. He was a man with a high conception of honor and a gentleman in the true sense. He was original in thought, courageous, independent and enterprising. He took his life's work seriously and gave himself unsparingly to everything he undertook. He was a man of generous impulses, genuine and sincere in his sympathies and toward his friends. He was an ardent patriot and a valiant promoter and defender of the public welfare. The country has lost a fine, outstanding, useful citizen, and I have a keen sense of personal loss. Extend my sympathies also to his family.

FRANK B. NOYES
Publisher, Washington Star and President, Associated Press

The news of the death of Frank Munsey comes as a shock for the last time I saw him he seemed in full health and spirit. Through a relationship covering many years I found him an honorable competitor and a man of fine ideals with the courage of his convictions.

HARRY CHANDLER
Publisher, Los Angeles Times

Unique in the annals of American journalism, Frank A. Munsey was a leader among modern newspaper men and as such he has left his mark on the evolution of the publishing business. Therefore the public felt a distinct shock at hearing of his unexpected death.

Mr. Munsey had practically completed his career when the summons came, a career marked with a series of unique ventures and successes in magazine and newspaper publishing—fifty years of a crowded and busy life that he devoted to the object that, to the exclusion of all other interests, occupied his talents and his energies. Of him it may truly be said that printer's ink ran in his veins and the call of the press was the best music to his ear.

Nor was this single-hearted determination to be recognized as a leading figure in the publishing business barren of material results. From a $40 a month clerkship he acquired a fortune of $40,000,000 from his many publishing ventures, through which he was known in the profession as a "Dealer in Dailies." In the course of his unusual activities at different times he owned as many as 17 newspapers and ten magazines. At the time of his death, however, he retained only his interest in the *New York Sun* and the *New York Telegram*, the *Argosy All Story* and the *Munsey* magazines.

HIS PROGRESS NEVER BESMIRCHED BY UNWORTHY MOTIVE

Tribute to Mr. Munsey, delivered at a special meeting of the Publishers' Association of New York City, by Fred A. Walker, chairman of the Association and for many years one of Mr. Munsey's chief executives.

IN our human judgments it sometimes seems that what we most need is taken from us and what we value highest, we lose.

In the death of Frank A. Munsey, the city and the nation has undeniably lost one of that type of men which both genuinely need. From a beginning small in promise, as material things are considered, but big in aspiration, in courage, and in purpose, Mr. Munsey rose to a prominence in his greater endeavors which gave him rank with the outstanding citizens of his country. Nor was this progress ever besmirched by unworthy motive or questionable method.

The fortune which he built from the meagre $40 with which he landed in New York, had not in it one unclean penny, nor was one farthing of it made at the cost of suffering or sorrow to a fellow man.

In the field of journalism his purpose was high and his efforts never ungenerous. His every act and decision bore the brand of his best judgment and the hallmark of his always exacting conscience.

He never tore down, except with the advance purpose to build again, bigger and better, that which he destroyed.

To those who worked with him, for he so wished them to feel, he tempered his criticism, and accentuated his rewards.

He was not blind to the financial returns of successful newspaper publishing, but gave far greater consideration, more time and more patient effort to those phases of the business which concerned the welfare and benefits of his fellow men. Such men, in any profession, are all too rare, and for that reason, he stood large, and ranked high among his fellow publishers. They knew always where he stood and why, and that whatever happened, and at whatever cost, he was for the right, as he saw it.

He will be sadly missed in the organizations which he himself built, but scarcely less shall we, as an association, miss his calm judgments, his cool courage, and his inspiring leadership.

OGDEN REID
Publisher, New York Herald-Tribune

Mr. Munsey's newspaper career extended over a long period and covered a wide range of interests and activities. He started as a publisher in a simple way and he lived to control newspapers with national reputations and influence. No difficulty was too great; no obstacle too high. Perseverance was one of his strongest characteristics.

As a publisher Mr. Munsey took a broad view of his newspaper properties, giving close attention to all departments. He found pleasure in newspaper writing. In addition to his contributions which frequently appeared over his name on the first page, Mr. Munsey wrote many fine editorial page articles which his readers had no means of crediting to him.

Mr. Munsey's influence on the recent history of American newspapers needs little comment. He was never lacking in courage. He was bold without being reckless. He was not afraid to face facts. To his newspapers he applied the same principles which brought him success in business.

WILLIAM RANDOLPH HEARST
Publisher, Hearst Newspapers

I am very deeply grieved to hear of the death of my good friend Frank Munsey. His death is a great loss not only to his friends but to the public generally. Mr. Munsey was a very powerful and valuable influence in journalism. His influence was exerted not only through his newspapers but through his very strong and very winning personality.

His influence was felt not only through his own papers but also because of his position as chairman of the Publishers Association of Greater New York, on other newspapers as well. His ideals were high, his interest in the public welfare very deep and sincere, his journalistic ethics irreproachable, his objectives and his methods always worthy of commendation and of imitation. The profession of journalism will feel Mr. Munsey's loss deeply. His manner was so gentle, his spirit so kindly, that we have hardly realized in the past the extent of his influence but we will realize it and miss it now that it is gone.

All newspaper men, radical and conservative alike, will mourn the loss of the leadership of Mr. Munsey, and I know of no higher tribute than this to his liberality, his generosity, his justice and his judgment.

ROBERT P. SCRIPPS
President, Scripps-Howard Newspapers

The sudden death of Mr. Munsey, following such a brief illness, is shocking. At 71, it was not easy to think of him as even approaching that age. His business career has been an outstanding illustration of the opportunities that do exist in this country for a man able to seize them, and of the fact that successful and well-managed newspapers must rank with the greatest of our great business institutions. As a journalist and magazine editor he proved that there is still a field in this country for decent fiction and the decently written and considerate news story.

ROY W. HOWARD
Chairman of the Board, Scripps-Howard Newspapers

Mr. Munsey's death marks the passing of one of the most interesting figures among American publishers.

He once told me that he believed firmly that there was only one rule for success—hard work. Even after he had made himself the master of one of the country's great fortunes, he continued to practice his belief right up to the hour of being taken to the hospital. From this point of view, his life offers a valuable example to those of the younger generation vainly seeking a short and easy cut to success.

Mr. Munsey was a unique figure, of distinctive personality, and I doubt that we will see his counterpart in journalism in our time.

CYRUS H. K. CURTIS
President, Curtis Publications

I was very sorry to learn of Mr. Munsey's death. I have known Mr. Munsey for 40 years. He was a country boy from Maine who overcome all obstacles to success and he had many of them to overcome. He was always upright in his dealings and deserved all he achieved.

GEORGE S. OLIVER
Editor, Pittsburgh Chronicle-Telegraph and Gazette-Times

The nation as well as his friends will miss Frank A. Munsey. He was one of the men who has made the United States the leading country of the world.

WILLIAM T. DEWART
Vice-President and General Manager of the Frank A. Munsey Company

There could have been no greater privilege accorded any man than to have had contact and association with Frank A. Munsey, whose keenness of perception and soundness of judgment made him one of the outstanding successes of his time.

ARTHUR BRISBANE
Editor, New York Journal

Frank A. Munsey, able business man, is dead. Owner at different times of eighteen newspapers, Mr. Munsey died owner of only two. Some he sold, others he suppressed or "merged," to clear up newspaper situations. He was a benefactor of the newspaper field, and as such will be remembered.

Frank Munsey could carry a heavy load without worrying. He said to this writer, "Carrying 200,000 shares of stock on margin never bothered me. Now that I have lost interest in stocks I never think of them."

Munsey possessed the power of undivided concentration. He made and spent many millions and undoubtedly has left many millions. He enjoyed his seventy-one years of life and, a very temperate man, he should have lived longer. Many regret the death of a sincere friend.

BRADFORD MERRILL
General Manager, Hearst Newspapers

Frank Munsey's death will be very widely and sincerely deplored by a great circle of friends. His pre-eminence was due to his strong, self-reliant independence of character and his great sagacity in business, supported by incorruptible integrity. He possessed one quality of the greatest newspaper men: the ability to support a party, or policy, or a public man with tremendous zeal and effect, but always to stand apart, separate from the party or policy advocated, never a follower.

He started with nothing. He made a

great fortune in four widely different businesses, and he cared most for the one in which he had the least success. This was creditable to him. Also that he started the first tabloid newspaper, the *Continent*, in 1891.

The death of such a man is a public loss because he made much, but took nothing from others and lessened no other man's opportunity.

CHARLES P. TAFT
Publisher, Cincinnati (O.) Times-Star

Unique among the newspaper chiefs of his time, Frank Munsey made the publishing of magazines that spacious portal through which he entered the field of journalism. His journalistic ventures disclosed an unusual initiative, a rare facility for carrying large burdens easily, and a mind at once vigorous, inventive and methodical in its operations—a rare combination, indeed. As magazine and newspaper proprietor and editor, Mr. Munsey made a distinctive place in the life of the generation.

ROBERT EWING
Publisher, New Orleans States

Frank A. Munsey had the qualities which make for outstanding success—New England shrewdness, original ideas, high ability, Napoleonic daring, and indomitable pluck. He was a pioneer with the cheap magazine, the basis of his great fortune, and his periodicals succeeded because he sensed a popular need and knew how to cater to it. He was a great publisher even if he did now and then bury a newspaper or merge it with some other and the weight of his influence was always on the side of good government, clean living, and upright citizenship.

W. H. COWLES
Publisher, Spokane Spokesman-Review

Frank A. Munsey's death removes a great organizer, a publisher not afraid to champion what he considered the right policies for the nation in the face of strong opposition, and a man of keen vision and surpassing energy. His great success was accomplished by hard work and clean methods.

ELZEY ROBERTS
Publisher, St. Louis Star

Another great American publisher has passed on. Frank A. Munsey spread out in many directions in the publishing field instead of confining his efforts to the building of one great successful enterprise as did Victor Lawson of the *Chicago Daily News*. Because of this course he has not left behind him a single great monument as Mr. Lawson did in the Chicago Daily News, but has left the imprint of his personality in many different ventures with as many varying degrees of success. Mr. Munsey was well known in the eyes of the public as well as in the newspaper circles through his active participation in public questions such as his violent opposition to the soldier bonus.

C. W. BARRON
Publisher, Wall Street Journal

Mr. Munsey's death will be a distinct loss to American newspaper life. He made money in other businesses and put much of that money into his newspapers.

G. LOGAN PAYNE
Publisher, Washington Times

In the death of Mr. Munsey, America has lost a vigorous pioneer in the field of popular-priced magazines, a prominent newspaper publisher, a patriot of unquestioned devotion to his country, and an example to our youth of ambition. Backed by perserverance he held fast to American ideals as he saw them and fought for what he believed to be the best. There is a lesson for all of us in the life of Frank A. Munsey.

GEORGE F. MORAN
General Manager, Cleveland News

The death of Frank A. Munsey removes from the ranks of newspaper publishers one of its notable characters. It took a man of genius and rare courage to do many of the things that Mr. Munsey accomplished. From a very small beginning he attained great success as a magazine publisher and later as publisher of newspapers. He established among other things a precedent in the ruthless way in which he destroyed newspapers and merged others. Once his mind was made up he cut through to his objective without regard for anything that stood in his way. Some of his ventures repaid him well for the millions he ventured in his various operations. Dynamic, and often ruthless, he leaves an indelible impression upon the newspaper industry.

CLARK HOWELL
Publisher, Atlanta Constitution

Frank Munsey a man of virile and winning personality, a leader of good fellowship and an earnest upstanding advocate of all worthwhile things.

RALPH PULITZER
Editor, New York World

A very strong force in journalism passes with Frank A. Munsey. Without reverting to the earlier and well-known achievements of his career, the Sun can be cited as an example of how well he knew how to build a great newspaper. His development of this paper into one of the finest newspaper properties in America was distinctly a personal exploit.

And though he made the Sun conservative, Mr. Munsey did not sacrifice independence to conservatism as he proved notably by his recent support of the New York state amendments against the Republican organization and by his previous fight against the soldiers' bonus bill.

He had a conception of newspaper publishing as a business which was not the conception of the pioneer American publishers and editors, but he proceeded ably, logically and fairly in the development of his idea, and much of the aspect of the present New York journalistic scene is due to his labor and his thought.

FRANK E. GANNETT
Publisher, Rochester Times-Union

The death of Frank A. Munsey, has removed from the publishing field a genius and unique figure. His life was a romance of vision and achievement. Starting with a few dollars, a pitiful "shoestring" even in the early 80's with an incomplete common school education and a business horizon bounded by a telegraphers key, but with ideas and unbounded ambition, he dared to invade the Metropolitan city with a juvenile weekly publication. A man of many eccentricities, Frank Munsey was also a man of courage, of daring and of purpose.

LOUIS H. BRUSH
Co-Publisher, Marion (O.) Star

Most fortunately the Munsey conception of newspaper responsibility is so deeply imbedded into the Munsey organization that its influence will go on forever. Though we suffer the loss of one of the country's most valued publishers, the death of Mr. Munsey is a shock to the newspaper world but it should bring us to a stronger realization of the tremendous importance of standing out bravely for the proper interpretation of our duties to the public.

WILLIAM ALLEN WHITE
Publisher, Emporia (Kan.) Gazette

Frank Munsey contributed to journalism in this day the plant of a meat packer, the morals of a money changer, and the manners of an undertaker. He and his kind have transformed a noble profession into a profitable business.

JOHN C. SHAFFER
Editor and Publisher, Chicago Evening Post

In the passing of Mr. Munsey another of the great editors of New York and the nation has finished his work and has joined in company with his former friends and Editors Greeley Dana and Bennett. Mr. Munsey was a dominant and important factor in the conferences of the editors and publishers. He was a national figure.

EDGAR B. PIPER
Editor, Portland Oregonian

I share with other journalists their admiration for the achievements of Mr. Munsey. He had exceptional vision, unusual initiative, rare independence and great courage. His remarkable record in both the magazine and newspaper world will be long remembered.

JAMES ELVERSON, JR.
Publisher, Philadelphia Bulletin

There will be general regret at the death of Mr. Munsey. Although he won his first success in the magazine field, he will be best remembered for the part he played in American Journalism. His energy and enthusiasm were great factors in the striking results he achieved. Probably the *New York Sun* will remain his best memorial. His fellow publishers are deeply grieved by the sad news of his death.

ELMER T. PETERSON
Editor, Wichita (Kan.) Beacon

The world probably has never seen another such example of driving, restless energy and unconquerable courage. His career is one of the outstanding ones of world newspaperdom.

WILLIAM F. ROGERS
Advertising Manager, Boston Transcript

As one of the lesser lights in journalism that originally came from Maine, I have admired the great luminary Frank A. Munsey, and regret his passing. His achievements as a publisher make his fame secure. I am glad to pay my small tribute to his memory. I feel confident the wonderful organizations he has built up will carry on his work successfully.

CHARLES H. STODDART
Special Advertising Representative, Munsey Publications

Frank Munsey's death came to me as a great shock. I have been associated with him for nearly 44 years and naturally a great bond of friendship and affection has grown up between us. It was only ten days ago that I spent a day with him and I never knew him to be in a happier frame of mind or apparently in better health. His loss is a great one to the publishing field and particularly to those of us who have been close to him personally throughout his wonderful career.

EDGAR D. SHAW
Publisher, Boston American

From what viewpoint is one to think and speak of Frank Munsey? Shall the memory be the farm-bred Maine boy whose vision led him to dare greatly, whose indomitable determination to succeed carried him through bitter discouragement and crushing debt, whose incessant outpouring of mental and physical strength finally forced the way to the goal? As such he typifies American opportunity and American character.

Shall the memory be that of a leader in business, winning and maintaining his position by honorable methods, battling unafraid in the turmoil of competition, refusing compromise of principle for tained profit or quick advance, organizing soundly, watching constantly, participating always? As such he typifies the American business builder.

Shall the memory be that of a man eagerly reaching for disinterested friendship, treasuring old associates, joining sympathetically with their good or bad fortunes quietly, aiding materially in times of stress? As such he typifies the man who experiences the greater satisfactions in life.

Those who have been privileged to close contact with Frank Munsey knew him in all these characters. Their memory of him will be enduring and their sense of loss is great.

EDWARD H. O'HARA
Publisher, Syracuse Herald

Frank A. Munsey was an outstanding figure in every phase of activity upon which he entered. His life should be an inspiration to every American boy. From a humble clerkship in a little Maine town he rose to eminence in the publishing and business world. His was a rugged character. By his great energy and definite genius he reached goals to which few men would have dared to aspire. He not only acquired a fortune of many millions of dollars, but become one of the greatest publishers of magazines and newspapers of his day.

JOHN S. COHEN
Publisher, Atlanta Journal

A great publisher, a great achiever, a great personality has gone out of the world in the death of Frank A. Munsey and one of the romances of American life has closed. In any field of enterprise that he might have entered where the race was to the swift and the battle to the strong, Mr. Munsey would have won renown.

KARL A. BICKEL
President, United Press Associations

Frank Munsey's outstanding quality was his genius in surrounding himself with a corps of very able executives who had the ability to push successfully to completion the plans for the development of the various Munsey publications, that had been devised either by him or in conference with his advisers. Mr. Munsey was a pioneer in the appreciation of the economic advantages in the combination of competing but unessential newspapers. Crocodile tears have been shed over some of the newspaper deaths at Mr. Munsey's hands; but Mr. Munsey never killed a newspaper that had won for itself a real economic right to live.

LOUIS WILEY
Business Manager, New York Times

American journalism has lost in the death of Frank A. Munsey a leader of vigorous individuality, courage and honesty. Newspaper men may well take pride in the knowledge that their ranks held one who had wrung success from such small opportunities as those held out to Mr. Munsey as a youth. The determination which carried him from the humble posts in shops and telegraph office through adversities to his high place was of a rare sort. His publishing associates saw that same determination shown in the making and carrying out of decisions of large moment. Mr. Munsey was rightly judged to be a significant force in the newspaper world.

Mr. Munsey himself would be the last one to expect agreement with all that he did in the management of the newspaper properties which he acquired. He asked of no approval of his course, but acted with decisiveness upon his own best judgment. I think that all right thinking men will agree with Mr. Munsey's statement that too many weak newspapers are a potential source of danger to the community and to journalism itself. Whether the best remedy is so thorough a series of consolidations as Mr. Munsey consummated is a matter of opinion; but his analysis of the economic reasons for such a step held a great deal of truth. And everyone must have admired the candor

(*Continued on page* 48)

YANKEE LAD'S GRIM CLIMB UP GOLDEN LADDER

Frank Munsey's Boy Dream of Power and Wealth Came True—Indomitable Will Triumphed Over Countless Obstacles—Fortune Estimated at $40,000,000—His Amazing Adventures With Magazines and Newspapers in Five Cities

AMONG the thousands of romantic success stories that have been published in Munsey magazines and newspapers during the past 40 years none rivals the true story of Frank A. Munsey's rise to great wealth and power, every step up the ladder representing his amazing concentrated will-power, ambition, idealism, personal confidence, courage to meet and conquer all obstacles.

There was good stuff in Munsey—those who knew him well testify to character which numbered among its elements both iron and salt. He was not a soft and tender man, but he was not lacking in a sentimental side. He looked upon life as a battle and he fought desperately and unceasingly to his very deathbed to win. The stake was to be measured by two yardsticks, dollars and influence among men.

Munsey was a hard-headed business man, yet he was as well a dreamer. The same hand that dealt million dollar cards in the fiercely competitive publishing business in New York, delighted in leisure moments to sketch a flower or a landscape. The same mind which often seemed committed to the welfare of merciless corporate wealth, at times gloried in such flights as the Progressive Party movement and, only recently, throwing editorial bricks through the windows of the standpat leaders of his own political party. The same man who, to achieve what he considered to be sound economics in newspaper management, caused hundreds of newspaper workers to suddenly find themselves out of work, kept other men in their jobs for years after they had served their terms of usefulness. A great human paradox was Munsey. The story of his life, briefly told, and for which EDITOR & PUBLISHER is largely indebted to the *New York Sun,* is as follows:

He was a product of the rockbound State of Maine. His father and mother were the direct descendants of Puritan settlers, the first Munsey having been a landowner in New Hampshire in 1686. Munsey's mother was a lineal descendant of no less than eight Mayflower pioneers.

He was born on a farm near Mercer, in the Sand River country of Maine, August 21, 1854, and his early years were those of the common farm-bred lad, hard work being intensified during three years of Civil War when his father's absence made him the head of the family.

After the war the family moved to Lisbon Falls and there, at the age of 14, Frank Munsey was employed as a clerk in a grocery store and the post-office, in the latter place picking up the art of telegraphy. Later he secured employment as a telegraph operator in a Western Union office at Augusta, the state capital. He became the manager of the Augusta office, but his love was not for the telegraph key, but for printer's ink. Many years later he wrote of this period of his life as follows:

"I had picked up telegraphy and was using it as a stepping stone to something better, a means to an end; but to get out of one kind of activity and into another, for which one has no special training, is not easy. I learned this fact through bitter disappointment and many heartaches. The four walls of a telegraph office were to me as a cage to a tiger yearning for the boundless freedom of the jungle.

"I knew at that time, as well as I know now, that I could do things. The thought of immediate money had no weight with me, no consideration. It was the future I wanted, a future in the big world, where things are done in a big way."

One of Munsey's friends, connected with a publishing house, left Augusta for New York. The incident fired the ambition of the telegraph-manager who, however, was without capital.

Finally a backer was found, an Augusta broker, who was willing at the moment to take a chance. It was arranged that the New York friend was to put in a thousand dollars, Mr. Munsey five hundred, and the broker twenty-five hundred—five hundred of which was in the nature of a loan to Munsey, whose interest in the project was thereby raised to one-quarter. And he came on to New York, almost all his money spent for manuscripts which filled a valise. There were no extra clothes to bother with. There was also nothing extra—and the $2,500 from the Augusta broker was still a promise, reassuring but non-convertible.

But "there was no turning back," Mr. Munsey wrote. "The bridges had been burned behind me, and if they hadn't been, I wouldn't have gone back. Nothing could have induced me to go back."

In New York he spent the $40 for a little room, an $8 table, and a couple of cheap wooden chairs; for paper and pens and ink. He was a publisher. And then, added to his first discovery that the plans he had made for his enterprise were hopelessly optimistic, came a new blow. He had arranged with the backer in Augusta that the $2,500 should be sent as soon as he called for it; he called and and there was no answer. There never was an answer; the broker ignored the entire proceeding. And Munsey had spent his own $500 for the manuscripts with which his grip was so bulgingly packed.

Of these events, Mr. Munsey wrote: "My failure to get the $2,500, following hot upon the heels of the first jolt, began to suggest to my inexperienced mind something of the difficulties of the game I had tackled. The money in my trousers pocket wouldn't keep me going very long in New York. The new plans looked hopeful, but without this $2,500, the $1,000 of my friend in New York meant nothing, so we dissolved our fleeting partnership and he kept his savings.

"Being free to make other connections, I took my scheme (it was for a magazine for juveniles) to a publisher, who became interested in it, and who finally suggested that I should turn over my proposed publication to him and let him bring it out in his own name, retaining me as its editor and manager. This arrangement went into effect, and on the 2nd of December, 1882, the first issue of *The Argosy* appeared, just two months and nine days after I had landed in New York—rather quick work in view of the kaleidoscopic changes that followed my coming to the metropolis.

"As ill luck would have it for the Argosy, however, at the end of five months its publisher became generally involved and failed. This was a third crisis, and the worst of the three.

"My very life was centered on the work I had undertaken. I had been putting 18 hours a day into it. I had been working with the most intense interest and the keenest enthusiasm. The crash came like a bolt from the blue, and again left me pretty nearly high and dry, with but a few dollars in my pocket, as I had drawn only so much of my salary as I needed for my slight expenses."

The Argosy of these early days was an illustrated paper for boys and girls. Its first number carried two serial stories, one by Horatio Alger, Jr., the other by Edward S. Ellis. The paper, issued weekly, was of eight large pages.

The failure of the first publisher left the young editor in a predicament. A thousand dollars, which the defunct firm owed to Munsey, was written off the books in exchange for the good will of the Argosy—and matters were there left much as they had been before. Munsey borrowed $300 from a friend in Maine and went ahead. Money had been received for subscriptions, and it was a matter of honor that the magazine should go on. The dream must come true.

"I was everything from editor and publisher down to office boy," Mr. Munsey wrote. "And editor with me meant writer and contributor as well. I wrote much of the paper myself—freshened and brought up to date old things that had been published years before."

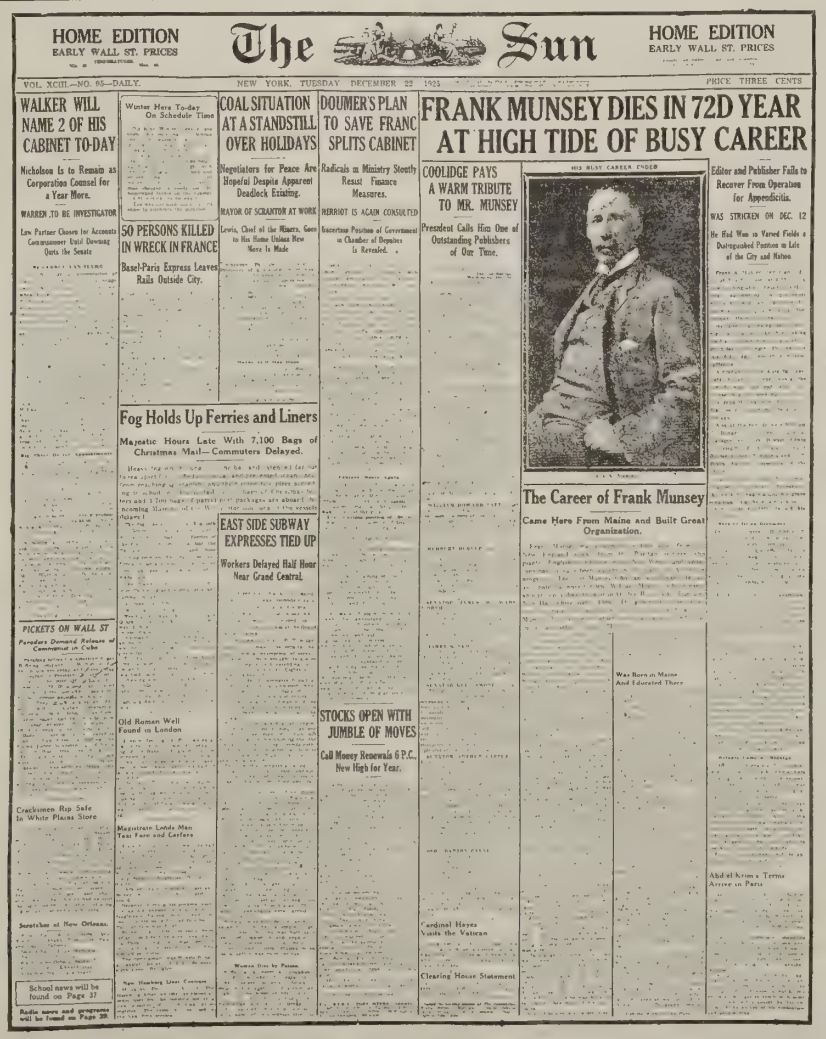
A considerable part of the fiction which appeared in the magazine was written by Mr. Munsey himself. "Afloat in a Great City" was an early story which made the circulation grow somewhat. He wrote far into the night; he wrote until the work of his authorship of the day before merged almost imperceptibly with his work of editorship of the day ensuing. He wrote when the city slept; he worked and wrote when it awakened.

For the story of Argosy's expansion we must turn again to the account of Mr. Munsey himself:

"I have never worked harder on anything than I did on that story ('Afloat in a Great City') to put into it elements of dramatic interest that would get a grip on the reader. I wrote and rewrote the early chapters many times. It was a midnight toil—work done by candlelight, after long days of struggle at the office. I wrote that story with a special purpose. I wanted something to advertise, and I put my faith to the test to the extent of ten thousand dollars."

He advertised extensively, distributing sample copies widely. Finally, after he was "battered and worn by four years of toil and disappointment, with never a vacation, never a day for play, and rarely a night at the theater," he found the magazine bringing in $100 a week.

Then he decided on a new move, which was "to enlarge the Argosy from eight pages to sixteen, increasing the price from five cents to six.



"The original Argosy—or, I should say, The Golden Argosy, for that was the name by which it was christened and which it still bore—had had four years of life, without change of makeup This doubling up in size and the improvements that went into effect with the fifth volume were about as daring as the campaign that followed, considering the fact that I was still working without actual capital, and that I had an indebtedness of something like twelve thousand dollars.

"I spent in the following five months $95,000 in advertising the Argosy.

"I bought paper on time," said he. "I bought everything I could on time. The very audacity of it all gave me credit, and more and more credit all the while. But merciful heavens, how the bills fell due! The cry from in town and out of town, from men on the road and from all the four corners of the earth, and in a thousand voices, was money, money, money! We were living over a powder mine, and every minute brought a new sensation, brought a dozen of them, brought one hot after another.

"Five years of poverty, five years of awful struggle, and now the earth was mine—rich at last, richer than I had ever dreamed of being—$1,000 a week net, and every week adding to it by leaps and bounds—$50,000 a year and all mine—next week $60,000, then $70,000 and

$100,000—$1,000,000, maybe—great heavens, and it was real!

"Then the powder mine, the dynamite, the explosion, failure, disgrace, a fortune swept away, and all for the want of ready money to carry on the work. Gambling? No, never for a minute. It was sound to the center; right to the rim. And I had it in my hand, on the very tips of my fingers—knew every move in the game—the bounding forward of the circulation proved it, the gold coming in proved it.

"But the money to work it out, thousands of dollars every day—where could I get it? How could I get it? And it meant riches, power, position, the world, the great big world!"

The whirl continued and the circulation grew. Then Mr. Munsey stopped advertising for a time. The circulation slumped. New efforts failed to regain the loss; the publisher decided that the tide had definitely set against the magazine, and decided that there was no secure place for a paper making its sole appeal to juveniles. He looked about for a new venture, meanwhile keeping the Argosy as nearly as possible at its highest mark. He sought it through a radical change in that magazine at first; he made the pages smaller and more numerous, and added a cover. The new form at first was successful; then circulation sagged again.

"The more I reasoned on the problem, the more I felt convinced that the hand of death had fallen upon the juvenile paper," he wrote later. "It did not occur to me that this condition had any bearing on adult publications. So, backing my conclusions, in February, 1889, I brought out an adult weekly which I called *Munsey's Weekly*, and which was the predecessor of *Munsey's Magazine*."

There were more struggles. Now, instead of one declining magazine, Mr. Munsey had two. He changed Munsey's into a monthly, charging 25 cents a copy—then the conventional price for a magazine—and nothing happened.

Two years later, however, he took a bold and original step, one destined to have important consequences, not only for himself, but for the entire reading public of America. By issuing Munsey's at 10 cents a copy he practically created a new force in American letters.

Eight years after making this memorable move Mr. Munsey saw his two magazines—for The Argosy had followed into the monthly field—with a circulation of over a million and a net annual income of more than $700,000.

The magazines have in a sense been secondary Munsey interests in recent years, yet in 1924, *Flynn's*, a detective story magazine, had its first issue. Its advent raised the productions of the Munsey Company to three—Munsey's and the *Argosy-All Story* being the other two.

Various other magazines were at one time owned and combined, among them the *Scrap Book*, the *Quaker*, *the Puritan*, *Godey's*, *Peterson's*, *Woman*, the *Live Wire*, the *Junior Munsey*, the *Cavalier*, and the *Railroad Man's Magazine*. All these lost their separate identities in other magazines.

Mr. Munsey's first newspaper venture came in 1890, when the Argosy was still at the height of its prosperity. It was the *New York Continent*, with which was merged *The Star*—in a sense the first of the tabloids. It was born and died and was forgotten, and years were to pass before the tabloid was once more to be born.

Eleven years passed before Munsey again entered the newspaper field. In 1901 he purchased the *New York Daily News*, and years later he told EDITOR & PUBLISHER he paid the Benjamin Wood estate half a million dollars for it. It was etablished as an afternoon paper in 1855, and was known as a Tammany organ. It specialized in Irish-American news.

Mr. Munsey made the News a morning paper. It represented Republican policy. It lost its field, piled up losses for three years and then Munsey suspended publication, charging the loss to "experience."

In 1901 Munsey also bought the *Washington* (D. C.) *Times*, paying $200,000. In 1917 he sold it for $500,000. He paid $600,000 for the *Boston* (Mass.) *Journal* in 1902 and sunk a million in it during ten years. He practically gave it away in 1913.

He sunk another million in the *Philadelphia* (Pa.) *Times* in 1908 and scrapped it in 1914.

In 1908 Munsey, still with the idea in mind of building a string of newspapers, bought the *Baltimore News* for $1,500,000. He explained his views in these words in the Baltimore News at the time of his purchase:

"There is no business that cries so loud for organization and combination as that of newspaper publishing. The waste under existing conditions is frightful and the results miserably less than they could be made. For one thing, the number of newspapers is at least 60 per cent greater than we need. As a result of the overproduction the publishers suffer, and as a direct consequence the public suffers.

"Think of the possibilities involved in a chain of 500 newspapers under a single control! Such a faculty could be so maintained as no college could support; the greatest authors, artists, engineers, essayists and statesmen could write with authority on every question of importance, each of 500 papers getting the benefit of these great minds, while maintaining their individuality on purely local matters.

"There could be a $100,000 or $200,000 a year man at the head of the editorial force and another God-made genius in charge of the business end. Such economies would be effected that the highest salaries would be mere details of the business, and the product of the combined genius of the men in control would be the most uplifting force the world has ever known."

Baltimore did not "work out" for Munsey. He sold the News in 1915, took it back again in 1917, began to make money and then sold it to Hearst in 1922. Meanwhile he had purchased from Gen. Felix Agnus the *American* and the *Star*. The latter he merged with the News. The American became a Hearst property in 1923.

Ten years previously, in 1912, during the Bull Moose campaign, Mr. Munsey had purchased the *New York Press*, openly for the purpose of supporting the candidacy of Theodore Roosevelt. He paid $2,500,000 for it. In his announcement he said:

"I have bought the Press because I want it. It completes my chain of newspapers covering the five big cities of the East—Boston, New York, Philadelphia, Baltimore and Washington. I have been waiting for years to get a New York newspaper equipped with an Associated Press franchise, which this newspaper has. . . .

"I have no political or personal ambitions to serve through this newspaper. I realize fully the responsibility to the community a man incurs when he undertakes the publication of a newspaper. A newspaper is a semi-public institution which, in its true sense, must represent the best interests of the community and the nation.

"The logical and honest thing for this newspaper to do is to support Roosevelt, who can be elected and whose election would mean the continuation of a tariff that protects the American wage against the cheap wage abroad."

On June 30, 1916, Munsey purchased *The Sun* and the *Evening Sun* from William C. Reick. He paid more than $3,000,000.

"I have a keen realization of the great past of the Sun, and the unique and incomparable position it achieved under the direction of that master journalist, Mr. Charles A. Dana," he wrote in a statement to the readers. "His work was an inspiration to all journalists throughout the length and breadth of the land.

"But no man can make a worth while imitation newspaper. If Mr. Dana himself were alive and editing the Sun, he would not imitate any past performance. A newspaper must be of the period, the day, the hour, the minute. The man responsible for the Sun in the present and in the future, while holding to the best traditions of the past, must square it to the conditions and requirements of today—must put into it his own thoughts, his own convictions, his own analysis of the times and everyday issues."

Concurrently with this announcement Munsey announced that *The Press* was to be merged in his new property, taking with it the Associated Press membership which the Sun had long lacked. Thus ended the Sun's long feud with the A. P., which had led to the formation of the Laffan Bureau and years of bitter rivalry.

The price of the Sun was reduced from two to one cent.

A year later Munsey bought the Stewart building at Broadway and Chambers street and established a home for his newspapers and magazines.

Negotiations for the purchase, from the James Gordon Bennett estate, of the *New York Herald*, the *New York Evening Telegram* and the Paris edition of the Herald culminated on January 14, 1920. Rodman Wanamaker and the Guaranty-Trust Company issued a short statement telling of the sale, and Mr. Munsey announced that he had not yet decided on his disposition of the properties.

Ten days later the announcement was made that the Sun and the Herald were to be combined. Mr. Munsey issued two statements, one to the readers of the Sun, the other to those of the Herald. He emphasized the importance of the step and his confidence that it would bring to both groups more than they had ever had.

Herald Square was deserted a few months later. The Telegram was moved to Seventh avenue and Sixteenth street. The Herald came to Chambers street and Broadway.

The merger of the Sun and the Herald continued under the dual name until Oct. 1, 1920, when the Herald was officially designated as the name of the morning newspaper. At the same time the Sun assumed the position in the afternoon field which the Evening Sun had therefore held.

On May 27, 1923, Munsey announced his purchase of the *Globe and Commercial Advertiser*, the oldest daily newspaper in the United States. On June 1, 1923, the merger of that paper with the Sun was officially announced.

For several months the two names were carried in combination; then the name of the Globe was dropped.

The *Evening Mail* was purchased on Jan. 24, 1924, and a few days later it was consolidated with the Telegram. As in the case of the Sun and the Globe, the dual title was maintained for a time before the newspaper assumed its present style.

In the following March Munsey announced that the Herald and the *Tribune* should be merged, and finding Ogden Reid, the owner of the Tribune, unwilling to sell, he had sold the Herald to the Tribune's owner. The merged newspaper is now published under the combined name—and both it and the Sun have prospered remarkably.

"I inherited nothing and I have never had a financial backer," said Mr. Munsey to EDITOR & PUBLISHER in 1920.

At that time his investments in newspaper properties aggregated $16,000,000. Subsequently, in 1923 and 1924, his New York Globe and New York Mail purchases represented more than $4,000,000, bringing the total to the stupendous total of $20,000,000.

Here are some little known facts regarding Mr. Munsey:

He never married, and once said that he "never had time."

He studied drawing for a short time in his youth, and was an excellent penman. He once conducted a school for writing and drawing.

He liked editorials that classed as informative; preferred discussion of some archaeological subject. Had all controversial articles referred to him.

Lived at Sherry's for many years; later at the Ritz; with two country places near New York.

His largest known benefactions were $100,000 to the Cathedral of St. John the Divine and a similar amount to Bowdoin College. He gave $50,000 for the study of diseases of the eyes at Johns Hopkins.

He spent much time abroad in recent years and was prominent in New York society. He was a member of many clubs. He was the author of a number of stories, among which were: "A Tragedy of Errors," "Under Fire" and "Deringforth."

In his recent editorial policies the following were conspicuous:

Opposed the League of Nations and the World Court.

Led opposition to the payment of a large cash bonus to ex-service men.

Favored the break-up of the two present major political parties and the formation of a liberal-conservative group and a radical group.

Advocated a liberal selective immigration law.

Was a defender of "intelligent union labor" but strongly opposed the "radical" leaders.

Mr. Munsey made a fortune from stock speculation. He once testified that he purchased 200,000 shares of U. S. Steel common stock below $30 a share and made millions from the trade. He later denied that he had acted on an "inside tip."

"I have always been willing to take a chance or a loss on my own judgment," he said.

While he was developing his publications he also developed a chain of grocery stores through New England, called the Mohican Stores, and they have paid him large dividends.

He also possessed the Munsey Trust Company at Washington, a huge building there, and also much real estate at Baltimore, New York and elsewhere.

His wealth is unknown, but it is believed to have been in excess of $40,000,000.

MUNSEY'S $20,000,000 INVESTMENTS

FOLLOWING is a list of newspapers Frank A. Munsey purchased during 35 years, representing a total investment of approximately $20,000,000. In 1920 Mr. Munsey told EDITOR & PUBLISHER that his investments in newspaper properties aggregated $16,000,000.

1890. *New York Star* and *New York Continent* and started first tabloid, which he soon sold for a song. Costs unknown.

1901. *New York Daily News*, $500,000, junked in 1904. Also *Washington Times*, $200,000; sold in 1917 for $500,000.

1902. *Boston Journal*. Investment, $1,000,000. Sold in 1913 at low figure.

1908. *Baltimore News*, $1,500,000, subsequently sold to W. R. Hearst, 1922, price unknown. In the meantime Munsey had acquired *Baltimore American* and *Baltimore Star*, the latter being merged with the *News*. The *American* also passed to Hearst control.

1912. *New York Press*, $2,500,000.

1916. *New York Sun* and *New York Evening Sun*, $3,000,000, merged *Press* with *Sun*.

1920. *New York Herald*, *New York Evening Telegram*, *Paris Herald*, $4,000,000. Merged *Herald* with *Sun*.

1923. *New York Globe*, reported price $2,000,000. Merged with *Evening Sun*.

1924. *New York Evening Mail*. Reported price $2,000,000. Merged with *Evening Telegram*.

1924. Sold *New York Herald* to *New York Tribune*, reported price "in excess of $5,000,000."

Christmas Luck

By D. H. TALMADGE

Editor & Publisher Prize Winning Christmas Story

This story has been judged the best Christmas story in EDITOR & PUBLISHER'S annual prize contest. Some 100 manuscripts were received from men and women regularly employed on the daily or weekly press. The judges find in "Christmas Luck" a good story, describing a novel situation, told with distinction. This is the second prize that Mr. Talmadge has won in the EDITOR & PUBLISHER contests.

Mr. Talmadge is on the editorial staff of the Portland (Ore.) Oregonian. He has been engaged in newspaper work for 40 years in the states of Iowa and Oregon. He was born in Rhode Island in the sixties. "I have been going like sixty ever since and while I have not arrived at any great station I have thoroughly enjoyed the journey," Mr. Talmadge writes to EDITOR & PUBLISHER, adding: "All I know is newspaper work, and it is all that I much care for."

Merry Christmas to all of the happy band of story-writing contributors, each of whom has breathed into our ears true sentiments of love and cheer concerning the newspaper craft and the brotherhood that serves it with unequalled loyalty and skill.

IT is strange, but a man may live through many years and see many things, and of these many things few cling to his memory. It is often the seemingly inconsequential things that cling, that most persist, but not is it invariably so.

There is a man who is high in the world of newspaperdom, the editor of a powerful newspaper. Were his name to be printed here, you would recognize it as one which means much. The circumstances incidental to his beginnings with the Midwest Tribune (which is not the newspaper's name) are among the few memories, apart from my own family life, which persist.

It happened a long time ago, but I can close my eyes this minute and see that setting,—the long and narrow room, plasterless in spots, the red-hot stove, the thick frost upon the windows, the litter-laden news table, and the two desks, John Turck at the one, Sam Wilson at the other.

The editorial room of the Midwest Tribune. Not much of a newspaper in those days, as such concerns are rated now. Still, much depends upon the viewpoint, and in certain respects the Tribune, mighty newspaper that it has become, seems to me to have been a greater one in its genesis, with old John Turck in the role of creator, than it can ever be again. You need not take this statement to your hearts. I am an old man and subject to notions.

At any rate, it doesn't matter. There was the room and there was John Turck and Sam Wilson and two youngsters. And the time was the day before Christmas.

I recall distinctly the squeal the door gave when it was opened, and how slowly it opened, and how John Turck scowled at the young man who stood with his hand upon the knob as if not fully minded to enter.

He was an odd-looking chap, this young man, tall and slender, wearing a short overcoat, a long muffler, arctic overshoes, huge red mittens and a fur cap that had not much fur about it. He carried an old-fashioned carpetbag, old-fashioned even then, and a roll of newspapers under an arm. But he was in no wise slow of comprehension. His eyes flashed once at John Turck's scowl and he slammed the door.

Then, because the hour was fitting, the last form having gone down for the day, he accepted the gestured invitation of John Turck's hand—a hand that was scarred vividly as if by fire—and seated himself beside the editorial desk. And presently, having removed the muffler and the furless cap, he talked.

It was a conventional story. His name was Wiston Westphal. He had left the home nest at Upnorth village to take up daily newspaper work. Hadn't liked to leave Upnorth very well but his widowed mother and his sister and another person had agreed with him that the place did not meet the requirements of either his ambition or his talent. Yes, there was newspaper blood in his veins; his mother's father, Aaron Kane, had been a newspaper publisher and editor back in the eastern country. No, he didn't know much about him; had never seen him. His mother said—

A boy scuffled in with a press-proof, and John Turck turned abruptly away from the visitor. Wiston Westphal was silent. After a time he began slowly to rewind the muffler about his neck.

"Don't go," said John Turck. But he did not look up.

Wiston Westphal's eyes widened. After an instant of hesitation, he stuffed the muffler back into a pocket.

When John Turck had nodded at the proof boy he swung about and nodded at Wiston Westphal.

"You may go to work here tomorrow morning," he said surprisingly. Then for what seemed a long time he sat rubbing his nose with a forefinger, a familiar habit. And, involuntarily, Wiston Westphal rubbed his nose with a forefinger. A peculiar sound issued from Sam Wilson's throat, but when I turned to look at him he was merely staring at Wiston Westphal.

"One of you boys chuck some wood into the stove, and I'll tell you a Christmas story."

A Christmas story from John Turck! Even Sam Wilson, hardened newspaper man that he was, gulped a bit. John Turck sprawled back in his chair and closed his eyes. Wiston Westphal struck at a tear that was hanging ticklishly to the end of his nose, and said he had been going from place to place for weeks and weeks, and had about given up getting a job.

"You haven't much of a job." John Turck's eyes opened. "But it will keep you alive until—until we determine whether you are worth keeping alive or not. I'm taking a chance on you because—well, because that I, years ago, drifted broke and half sick into a newspaper shop on a cold Christmas Eve, and a certain man whose name was Kane gave me a job. It is as simple as that. Your job is a Christmas present from your old grandpa. I was with Aaron Kane back yonder for ten years."

I began the asking of a boylike question, but Sam Wilson, his eyes upon John Turck, leaned and plucked my sleeve and whispered in my ear that this was deep stuff—prophecy—God knows what, only shut up.

So we waited while John Turck filled and lighted his pipe. And for that space nothing was to be heard but the heat-snappings and the frost-snappings of the stairs and of the board walks in the street below.

"There was a Man once"—John Turck spoke half dreamily, gazing into the smoke clouds above his grizzled head—"who gave his life for humanity. It is a good story, the best ever told, the biggest news that ever broke. Sometimes I wonder whether or not we realize, most of us, what it really means. Are we, to put it bluntly, worth the price that was paid?"

His eyes dropped suddenly to Wiston Westphal's face.

"Are you?" he asked.

"I fear not, but I should like to be." The reply was given without hesitation, barely above a whisper.

John Turck smiled. Evidently the reply pleased him.

"There was another man once," he resumed, "who fought for a home and all that the name implies in its sacred sense. He championed in his newspaper, a village weekly, the cause of a woman and her infant son against a husband and father who was attempting through the courts to rid himself of them. A man of wealth, enamoured of another woman. The claim was set up that his wife had deceived him; that she had Negro blood in her veins. This may or may not have been true, but she was a good woman, with all the worldly odds against her. It was a family matter, of course. Perhaps it was none of this newspaper man's business, but he saw it differently. He made a public issue of the case. The court decided against the woman. The newspaper office was mysteriously burned, and at the fire that bitterly cold night, when the publisher and his helpers did their puny best to save a portion of the property, the man contracted pneumonia and died. Shortly after this the wife and mother died. I will not say she was hounded to her grave. You may draw your own inferences. And the child, a boy, was adopted by the newspaper man's daughter. Such had been her father's last request."

John Turck tamped the tobacco in his pipe with a finger, and the fire scar upon his hand stood out in full relief.

"That was the end of my job with Aaron Kane." He spoke without emotion. His eyes rested for a moment upon the scarred hand, then, speculatively, upon Wiston Westphal. "Are we worthy of the sacrifice? Was the price paid for us too great?"

A long silence. Suddenly John Turck stood up and placed his hands upon the young man's shoulders.

"I'm glad you came, Wiston," he said. "A Merry Christmas to you—and to all of us!"

THE COST OF GROWING NEW PULP FORESTS

Ten Dollars Added to Cost of Each Ton of 1925 Newsprint Would Provide for New Crop to Replace Present Trees—Northeastern States the Natural Site for Continued Paper Manufacture

By GEORGE G. WHEAT

ADD $10 a ton to the price of newsprint, beginning today, and you would not more than provide the money for the new crop of pulpwood by the time the present crop is used up. Ten dollars more a ton would mean $30,000,000 more on the publishers' newsprint bill for 1925. Is that sensational? Things were also sensational in 1920.

It is a fact that paper prices, newsprint and all others, have never included the item of reproduction of the raw material supply. Discussion of the reason is not pertinent now, even were it important. The present need is to learn the bedrock facts of existing conditions, decide what to do, and do it.

It is a fact that new grown pulpwood stumpage will be worth more than $10 for the wood to make the future ton of newsprint. Today, stumpage in favorable locations is worth $5 per cord and in the most remote sections is worth $2 upward. It takes one and one half cords to make a ton of newsprint—and stumpage is now worth $7.50 in the best locations and $3 to $6 per ton in the less favorable.

But, and here's the rub, new stumpage is not being grown where the mills are now located, except for a comparatively small percentage of the present production. It is true that the pulp and paper industry has done more toward reforestation and establishing itself on a permanency basis than any other wood-using industry, but only a small beginning has been made.

It has been learned that a few mills have long been trying to maintain their supplies and the experience of these mills proves that it is practicable. Those producers of paper who did make the investment when they could and did sacrifice a share of present profits to the permanent maintaining of their business are now in a fortunate position.

Canada, on all crown lands, is trying to maintain a permanent paper industry by limiting the concentration of mills and by forestry reproduction practices. Except for our mills, the United States producing section is not.

Don't make the mistake of thinking that the $7.50 stumpage cost in today's ton of newsprint is buying the new ton 20, 30 of 40 years from now. It is not. That $7.50 is merely buying the present harvest from the present owner and the business is selling itself out.

The question has been raised at meetings of the A. N. P. A., "Would it be advisable to tax ourselves 50 cents or $1 per ton and engage in forest reproduction?"

Another question has been discussed. That is the matter of the I. T. U. raising $20,000,000 in four years and spending $15,000,000 of it to negotiate for wage concessions, etc. What the I. T. U. obtained is not the subject at this time. That the union did have the organization and the nerve to raise the money and try the job is the established fact.

One dollar per ton or $3,000,000 per year set aside now might provide stumpage 40 years from now to replace the newsprint stumpage cut this year. About $2 per ton or $6,000,000 per year would take over a large acreage and provide for management that would supply cuttings 30 years hence. About $3 per ton or $9,000,000 per year would arrange for forests and management to provide new cuttings of approximate needs in 20 years' time. The above figures are at best approximate. Money is calculated at 5 per cent compounded annually. The best known and best informed men have been consulted personally for the figures that are used.

The time element is the controlling factor in the physical and farming task of getting new forests. Larger investment at present and more intensive and expensive methods can bring closer the harvesting dates. Five years have passed since the excitement of 1920 and little has yet been done. National forestry programs have been improved in general features. But no direct national effort looking to the reproduction of pulpwood forests as such has yet been begun.

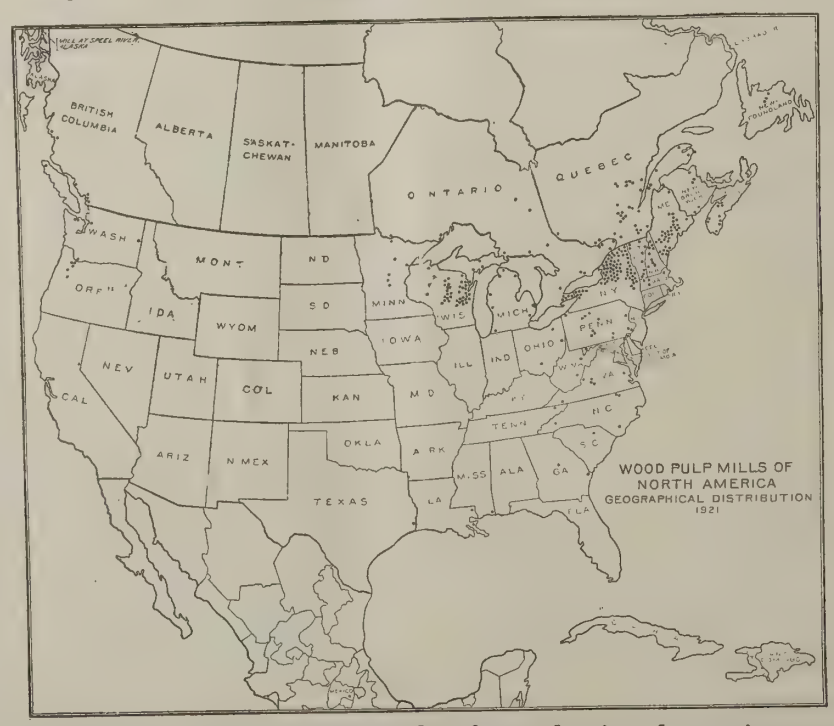
Thousands of such frame houses have sprung up in Queens Borough, New York, and in many other cities, largely constructed of spruce, cheap lumber, recently challenged in New York as a fire hazard, and serious menace to pulp supply.

Now let it be shown more fully that these forests should be grown in the area where the mills are located.

Northeastern U. S. was the original spruce and hemlock area, naturally. New England, New York and part of Pennsylvania, and the Lake States, in the order named are the better growing areas.

The map pictures the latest location of the pulp mills. A very few pulpmills are in the south and a small amount in Newfoundland and Alaska. Recent growth in the paper industry has brought the northwest U. S. up to where it can supply about 10 per cent of the volume and relieve the eastern mills to that extent.

This matter of pulpwood supply is the one main controlling factor in determining the location of paper mills. The northeast have the right location for growing the wood. That fact will now be accepted.



There are many other large factors that especially favor the retention of the paper industry in this area. These will be named in as few words as the writer can use.

The power supply conditions, are good; the markets and transportation facilities are good; the trained labor supply is excellent and is self sustaining; the large investment in mills is now made.

Water power well distriubted, already well developed and much larger potential power in this northeastern area is a commonplace of or knowledge. Pennsylvania coal with water and rail transport lie on the front doorstep nevt to the mills area. Plenty of pure water, needed in large volume for paper manufacture, is there.

The markets and the transportation to those markets need few words. Look at the map. You all know the location of the printing presses, the location of the center of the reading population—said to be in northern Pennsylvania—the location of industrial development demanding wrapping and package paper. You likewise know the facilities for transportation and the necessity for this to feed the presses and the other paper using industries their daily supply.

Trained labor supply and favorable living conditions are nowhere better than they are in the present paper-making area. Labor schooled in the industry is a very important item. It is largely a product of generations rather than years. The individual is not so important as the community. The pulp and paper industry is one of the more progressive industries in this matter of trained labor supply that takes a pride in its craft. The living conditions in this area are far better than they can be made far north in Canada, or in Alaska. The industry will suffer in the degree that it must maintain favorable living conditions farther north.

United States and Canada map, dots showing location of newsprint manufacturing centres.

The capital investment is already there. One more look at the map is all that is needed. The total investment in Pulp and Paper making is now $1,000,000,000 in the U. S. Eighty-five to ninety per cent of this is in this northeastern area. When the industry moves the buyer of paper must pay the price to amortize the investment left behind.

One more item in transportation must not be overlooked. About four tons of materials are required to produce one ton of paper. One year analyzed shows pulpwood, 7 million cords; coal ten million tons; waste paper and wood pulp, 3 million tons; other fiber materials, 1 million tons; casein, china clay, bleaching powder, sulphur and machinery and machinery parts and supplies; food, clothing and commodities for the army of employes make additional large transportation demand. Steady production of paper requires this transportation and it is now there.

The publisher who takes thought for the morrow takes all these matters into consideration. They are not presented here in any attempt to educate or inform but are reviewed as reasons for making every legitimate effort to perpetuate the forests in this area and so perpetuate the important paper industry there.

In the previous article (Editor & Publisher. Oct. 10, 1925) it was stated that "nowhere else in the United States was the need for growing trees so great as in the paper making area." The following facts should be studied carefully:

New England gets 20 per cent of the spruce, and 31 per cent of the poplar or aspen imports; New York State 60 per cent of the spruce, 50 per cent of the poplar; Pennsylvania gets 15 per cent of the spruce, 19 per cent of the poplar; the Lake States 7 per cent of the spruce. These account for 100 per cent of each. In addition to this import come large amounts of wood pulp into these states.

It has been also shown that New York State makes 50 per cent of our domestic-made newsprint, New England States 30 per cent and the Lake States 15 per cent.

New England has 10,000,000 acres of spruce area and an equal amount of hemlock and other pulpwoods. New England could grow four times its present consumption of pulpwood and support nearly four times as great an industry as at present.

New York State has 2,500,000 acres of spruce and 10,000,000 acres of hemlock area.

It could grow enough pulpwood to perpetuate its present mill capacity. The Lake States have 4,500,000 acres of spruce area and over 20,000,000 acres of hemlock, jack pine and other pulpwoods. They could grow pulpwood for three times their present paper-manufacturing industry.

Spruce supplies 56 per cent, fir 5 per cent, and hemlock 15 per cent of the total pulpwood used for paper. Poplar or aspen, 6 to 8 per cent, jack pine, white fir, white pine and tamarack or larch, supply each one per cent. Three woods supply more then 86 per cent of our pulpwoods. The area above named is the natural home of these trees.

The spruce, fir, and hemlock supply 95 per cent of the total groundwood pulp and 94 per cent of the sulphite pulp.

New England is talking so much about her own industrial position and her fears

ALBERTINI GAVE ITALY FIRST MODERN DAILY

Managing Director of Milan Corriere della Sera, Deposed by Fascists, Brought New Life and Methods to Italian Press—First to Realize Importance of Advertising—His Career

FASCISM has thrown overboard the creator of the first modern Italian newspaper, in the words of the Rome correspondent of the *London Observer,* who tells the story of Senator Luigi Albertini, deposed director of the Milan *Corriere della Sera,* in a recent dispatch to his newspaper.

A three years' fight for sane liberalism ended a short while ago with Albertini's retirement. This signal Fascist victory coincides with the golden jubilee of the great Milanese newspaper, the Observer's correspondent points out, and continues:

"While Signor Torelli Viollier will go down to history as the founder of the Corriere della Sera, to Senator Luigi Albertini belongs the honor of having created his first modern newspaper in Italy. Founded as a Liberal organ it suffered a first crisis during the disturbances in 1898, when King Humbert's Government dealt with the general unrest and changed social situation through reactionary methods which culminated in a military dictatorship, and during the tumults in Milan a hundred persons were killed. Signor Viollier, who had espoused the side of reactionary conservatism, soon realized that the commercial success of his paper depended upon keeping the balance between extreme policies. He began to look for the right man to place at the helm, and found him in Luigi Albertini, then 'an elegant young man of twenty-five, with a decided manner and a remarkable forehead.'

"The venerable staff of the Corriere sniggered at the nomination of so youthful a managing director. Nothing was known about him except that he had sent some remarkable correspondence from Moscow in 1896, had 'studied social questions at the British Museum,' and written the ablest treatise on the Eight Hour's Bill.

"Albertini brought new life and new methods to the Corriere and gave it personality. He moved in the literary, as well as the business world; among his close friends were Boito, D'Annunzio, and Giacosa, whose daughter he married. He chose his staff carefully from the best writers and experts, and sent specially selected correspondents all over the world. To meet these unusual expenses he founded monthly reviews and the first illustrated weeklies in Italy, which required a small and inexpensive organization and soon showed a big profit. When he went to America to study printing methods he was the target of the Italian comic press, but there was no cause for satire on his return to Milan, when the first type-setting machines seen in Italy were installed in fine new offices in Via Solferini, and a great business began to run on new lines and on oiled wheels.

"Milan was soon proud of the Corriere della Sera. Albertini was the first director in Italy to realize the important part advertising plays in modern journalism. He placed his contracts with an *agenzia concessionaria* on a basis by which it became possible to break the commercial monopoly exercised in Italian journalism. The big manufacturers, the brothers Crespi and Signor Pirelli (cotton and rubber), became associated with the paper when another company was formed in 1900, but never interfered in its policy, which was free trade, and often advocated measures against their commercial interests. Although Senator Albertini did not hold the majority of shares in the Corriere company, he was given practically despotic powers till 1930, the conditions being that the paper should support a constitutional monarchy and that it should prove a financial success. Both those conditions were fully adhered to.

"Signor Albertini instituted a severe discipline in the office, and never relaxed his hold over policy or organization, keeping in closest touch with the office by telephone, even when abroad. Associated with him were his two brothers, the editorship being given to Signor Alberto Albertini, who was said by the staff to be ready to throw himself out of the window had his brother given the order.

"The Corriere has always been the most widely read and the most vigorously conducted paper in Italy. For several months it was practically alone in the struggle for intervention on the side of the Allies in 1914, while after victory, when a wave of nationalism swept over the land, it kept to a spirit of moderation in face of great unpopularity. In his opinion, the conquest of Dalmatia was not in the interests of Italy. In 1918-20 he was for D'Annunzio and Fiume, but against the march of the Legionaries. Later he was in favor of Fascismo and the participation of Mussolini in the government, but opposed openly and firmly the march on Rome, and directly the revolutionary tendencies of the Fascist régime were made clear, he opposed it on the fundamental issue of the constitution.

"From the early days of Fascism in power the Corriere was regarded as an enemy paper. The *Popolo d'Italia,* the Premier's personal organ, once announced that many Fascists had begged 'the honour and responsibility' of being chosen to raze the premises of the Corriere to the ground. Soon afterwards, bombs were thrown at the offices without, however, causing any damage. The unceasing campaign carried on against it has been met with dignity by Albertini and the staff, while the industrial part-owners had nothing to complain of, as its circulation continued to increase. The circulation often touched a million, and rarely fell below 800,000. Politically and commercially, it was, therefore, a dangerous rival to the Fascist Press, which is going through a financial crisis.

"Some day we shall know the full story of how the Corriere saved its life and lost its voice. Senator Albertini tried to tell it a few days ago, but the number with his article was immediately sequestrated. Only this is clear: that the Government did not wish to suppress a constitutional organ, while the brothers Crespi would not risk the loss of a very paying business, and, somehow, Senator Albertini was thrown overboard. Nothing could be alleged against him to enable the contract to be broken, but a legal pretext was found in the fact that his contract had not been ratified, which enabled his associates to ask for the liquidation of the company on the basis of a clause in the commercial code. It is believed that the Albertini shares have been liquidated, and he has received an indemnity due to him as director. I hear on good authority that the sales of the Corriere fell by 75,000 copies when the news came that Albertini had resigned.

NEW EASTERN CHIEF

H. L. Rennick, Former A. P. Man Takes Press Executive Post

H. L. Rennick has been appointed news editor of the Eastern division of the Consolidated Press Association. He began newspaper work on the old *Springfield* (Ill.) *Record,* of which he later became managing editor.

H. L. Rennick

In 1914 he went to the United Press and two years later joined the Associated Press in Chicago. He was detailed to the Petrograd office in August, 1917, when he covered the early days of the Bolshevik revolution for the A. P., later joining the American expedition when it arrived at Archangel. After nearly a year as war correspondent with the American troops in North Russia, the A. P. assigned him to watch the ex-Kaiser at Amerongen, Holland. Later he served in the Hague and as war correspondent in the Baltic States, and Finland. In 1922 he went back to Soviet Russia as chief of the Moscow bureau of the A. P., which post he occupied until the summer of 1924. He returned to America two months ago after spending a year in Eastern and Central Europe as special writer for New York and London Sunday newspapers.

SPHINX CLUB'S 1925-26 SEASON OPENED AT WALDORF ASTORIA

ADVERTISING'S glittering horseshoe in New York. Members of the Sphinx Club gathered for Christmas dinner, with William H. Rankin, presiding, and Irvin S. Cobb, H. V. Kaltenborn, of the *Brooklyn Eagle,* and William S. Crawford, British advertising agent, speakers.

At the speakers' table were: A. S. Bullock, *London Daily Mail;* Hewit H. Howland new editor of the *Century Magazine;* W. Frank McClure, chairman of the National Advertising Commission of the Associated Advertising Clubs of the world; G. T. Hodges, of the Munsey Company; Charles C. Green, president of the Advertising Club of New York; C. A. Penn, vice-president, of the American Tobacco Company; Howard Davis, business manager of the *New York Herald Tribune;* and Conrad W. Massaguer, caricaturist, now drawing for the D. P. Syndicate.

WHEN A WOMEN'S PAGE BRIGHTENED UP A DREARY ENGLISH SHIPPING TOWN

A Man's Paper Opened Its Columns to Portray the Feminine View With Surprising Results—Lady Eugenia Doughty, British Daily Publisher, Tells the Story

SOME twenty years ago the late Sir George Doughty, once called the "Demosthenes of England," founded the *Grimsby* (England) *Daily Telegraph.* One of the best speakers for the conservative party in Parliament, he wanted to get into the homes of voters in his constituency in addition to reaching them from the political platform. There

Lady Eugenia Doughty taught women to read her paper

was no other way than to establish a newspaper.

It was to be a man's paper, he said. Grimsby is a shipping town of 100,000 population, 170 miles from London. The working man was all that counted; no need for this silly expression of the women's point of view.

Lady Eugenia Doughty thought differently. Lady Doughty had been a newspaper woman on the brilliant *Sydney* (Australia) *Bulletin,* before she married Sir George.

"But women don't read newspapers," insisted Sir George.

"They could be taught," Lady Eugenia argued.

Quite aside from this purely personal dispute, the Daily Telegraph was duly established. And its columns were tight closed to feminine interest.

The daily Telegraph prospered as a man's paper, and for a while persisted in being a perfect blank as far as women were concerned. It was published and still is, near the railway, making for quick distribution, and overcoming in a large measure the ever present menace of the London press, which reaches out to all English provincial cities, and tends to stifle local publishing enterprises.

Not long ago, Lady Doughty won her point; the Daily Telegraph, the "man's paper," opened its columns to portray the women's point of view.

"And the results were immediate and surprising," said Lady Doughty in an interview in New York this week.

"It is no exaggeration to say, that inauguration of a women's page on the Daily Telegraph brightened up the entire town. Cafes did more business; dressmakers and milliners prospered as they never had before. Our circulation increased enormously.

"In effect, our page seemed to make Grimsby people more eager to do well, to appear well.

"Co-incidentally with this newspaper innovation, women began to have a voice in government. We found that the working man's wife influenced her husband in political questions a great deal. The Telegraph's influence increased accordingly. The women's page attracted women readers, and they became interested in other columns, rigidly confined for men only. We taught them how to read newspapers."

Lady Doughty was asked her idea of an ideal women's page.

"Of course, first comes dress," she replied. "Then social functions, and reports of artistic movements. But news of fashion is the easiest and the best way to reach any woman.

"A women's page should be refining, informing, and uplifting. No matter what goes into the rest of the paper, the women's page at least keeps clean and moral."

Lady Doughty has been about six weeks in this country on her present visit here, and has made it a point to study American newspapers, especially the pages devoted to women. She confessed she was rather disappointed.

"The American newspapers, I believe," she said, "are the best media for news in the world. They are very daring, very free. But they lack the great dignity of the British press. All these liberties your press indulges in are quite a shock to me.

"I had heard much of women in journalism in America. I hope the women's pages do not represent their work accurately. Of course, their writing is pithy and outspoken. But American newspaper women don't appear to study style at all. They use the vernacular, I think, a little too freely, with corresponding loss in dignity and restraint.

"I wonder if these 'Advice to the Lovelorn' columns are very widely read. I have no use for them. I think the pulpit can do better than the light pen of a woman in the matter of advice. The printed word can never heal up the sorrows of an unhappy couple."

Lady Doughty for 13 years now has been writing for the newspaper of which she is part-proprietress. All her articles are signed, "The Scribe." At present she is writing her impressions of America.

She sees a stirring future ahead for women in journalism. Some day, and soon, she believes, they will cast aside the trivialities they write today, and embark on a great work of peace.

"Women plus newspapers will win the war for peace," she declared. "There is no other way. Let the women writers speak for their kind through the press, and insist there shall be no more war."

UNION REPORTERS WORK ONLY FIVE DAYS A WEEK IN AUSTRALIA

Arbitration System Fixes Hours and Wages—Listed in Three Classes, Seniors, Generals and Juniors—Editors Exempt

By DAVID LOTH

A FIVE-DAY, forty-hour week for reporters! It seems too good to be true, but in many parts of Australia it is a fact, and with it goes a standard, court-fixed wage scale.

Australian journalists—a newspaper man is a fellow who sells the paper—owe their easy hours and quite good wages to the labor movement. In fact they are part of that movement with a union of their own which at one time was very strong but which is not so popular today.

Labor established an elaborate arbitration system in Australia and the Journalists' Union brought their own profession into it. So now the Federal Arbitration Court lays down the number of hours reporters shall work and the pay they shall receive for it.

Of course the scale is not the same throughout the country. The COURT has taken into consideration the different conditions prevailing on a metropolitan newspaper in Sydney or Melbourne and a country weekly in the "back blocks."

But for Sydney and the other large cities the Court has decided that a five-day 40-hour week is sufficient. A factor which is not quite so pleasant in their award is the clause which in effect limits the number of reporters a newspaper will employ.

Under the award reporters are divided into three classes, seniors, generals and juniors. In American offices they would be described as stars, just reporters and cubs. The proportion of these classes on each paper are fixed in the award, so that when a newspaper wishes to take on an experienced man, it must also employ a junior to keep the proportion right.

The theory was that in this way there would always be a plentiful supply of young men learning their trade. It works out that managing editors hesitate to employ new general or senior reporters because they must then get another junior for the same reason.

The rate of pay—laid down by the Court as a minimum, but actually serving as a maximum too—is in Sydney $25 a week for a junior, $45 to $50 for a general and $70 for a senior. The cost of living is about one-third less than in New York, so that salaries are in purchasing power fully equal to those paid by most New York papers.

The Court awards apply only to reporters. Copyreaders for some unaccountable reason are classed as reporters by the Court although under the name of

David Loth, on *New York World,* studied reporter's work in Australia

sub-editors they perpetuate the cleavage existing everywhere between the men who wield the pan and the men who wield the ax.

Editors and specialists are left by the Court to shift for themselves. They are not of the proletariat and according to good Labor doctrine are not considered as working at all. So in Australia they may—and usually do—infest the office for six days a week and as many hours a day as they like.

The five day week system in Sydney is partly responsible for the fact that none of the four morning papers—the *Sydney Morning Herald,* the *Guardian,* the *Daily Telegraph* and the *Labor Daily*—publish Sunday editions. Saturday news is handled by two papers, the *Sunday Times* and *Truth,* which are weeklies and by Sunday editions of the two afternoon papers, the *Sun* and *News.*

More than anything else, Australia has copied England in newspaper style. It is only within the last few years that any paper of importance has opened its front page to news. Many of them have not done it yet and those who have copy the style of the more sensational London journals.

The plants of the Sydney and Melbourne papers are as modern as any in America. Several have just completed or are now building new plants with the latest type of presses. But in the editorial rooms they cling to traditions. Stories are written in long hand with articles, prepositions and the commoner verbs and nouns abbreviated. City rooms in American style are unknown. The offices are partitioned into cubbyholes where every member of the staff can enjoy privacy.

One other tradition dies hard. It serves to defeat much of the Court's award, for the feeling still survives that the story comes first and no Australian reporter would think seriously of dropping a hot item just because his eight hours were at an end. Even the five day week falls victim to this loyalty on occasion and the union says nothing.

It probably could make no effective protest if it wished. No office compels its men to join the union. Some advise it, others discourage the practice and the result is that about half the newspaper men are not affiliated with the union. Working conditions being what they are, not much more is to be gained.

CONTEMPT CHARGES DROPPED

New Mexico Supreme Court Frees Magee of Old Charges

The New Mexico Supreme Court, Monday, ordered the dismissal of all charges of contempt of court against Carl Magee, editor of the *Albuquerque State Tribune,* now pending in the San Miguel County District Court.

The decision came on Magee's application for a writ of habeas corpus. The editor had been pardoned by the then Governor of New Mexico for contempt of court, after he had been sentenced in connection with his statements during a trial for libel.

Magee was charged with contempt by Justice David J. Leahy, former District Court judge.

"I deny this is a court," Magee declared during one of his trials. His friend, Governor Hinkle, pardoned him, and the court held the Governor had the power to pardon for contempt.

CHURCHES VOTE TO QUIT COMPETITIVE ADS

Montreal Group to Limit Copy to Bare Standardized Announcements — Competitive Bidding Depreciated as Undignified

Competitive church advertising in Canada came in for severe criticism last week at the hands of the Montreal Presbytery of the United Church of Canada.

Rev. Dr. Richard Roberts, minister of the American Presbyterian Church, U. C. deprecated the present tendency in church advertising, saying that the competitive flavor of many of the church notices in Saturday newspapers was decidedly not "the fitting thing." He made a motion, subsequently passed, that a committee be formed to take all United Church of Canada notices out of the competitive class, substituting "a uniform notice for all the churches in the presbytery."

Reginald W. Colley of the educational department, Associated Advertising Clubs of the World, defended present church advertising.

Nevertheless, the various United Churches of Montreal are going ahead with limiting their advertisements in future to bare, standardized announcements.

The practice of removing the punch from church advertising has not yet spread to other parts of Canada, however. In Toronto and other large cities the different churches have awakened to the wisdom of attractive and technically correct advertising in varying degrees and the newspapers have accordingly benefited in increased space demands.

During the recent church union controversy, the extent to which the union and anti-union forces utilized newspaper advertising, big space campaigns embracing almost the entire press of the country being conducted on the most modern advertising methods, amply demonstrates the degree to which Canadian churches have come to depend on paid publicity.

EDITORIAL MASTHEADS ATTRACT A CRITICAL EYE

Nobody Reads 'Em, Not Even the Editors, or They Wouldn't Look That Way, Says Buffalo M. E.—Finds Them Dumping Ground for Mottoes, Seals, Advertising, Verse and History

By MARC A. ROSE
Managing Editor, *Buffalo Evening News*

WHO reads the masthead?

Nobody, apparently—not even the editor.

This must be true, for if editors ever did read them, with just one of the two critical eyes they cast over the type below, surely mastheads would not be what they are today!

Ours was like the rest. I like to think I am no more careless than the next, but I will onfess I hadn't looked at the top of column one of our editorial page for years. Oh, I suppose I saw it every day, but I'd never really read it until our advertising representative moved, and wrote to ask that his change of address be recorded properly—on our editorial page!

"In the name of the sacred mission of journalism," I asked, "have we picked top of column, next to and preceding our purest, so to speak, reading matter, as the fitting place to talk business?"

We had indeed. Also we chose that same high altar surmounting the holy of holies as the place to display our subscription rates, advertise our news services, and to reassure a nervous world that we had actually complied with the Act of Congress governing second class mail matter. We told nobody who we were, or when we began our life, or what we stood for. But we did inform all and sundry that our paper was on file at such and such an address in Peking, where callers might see it on application.

Well, the obvious thing to do was to look at other papers and profit by their examples, was it not?

It was not! Bad typography, bad taste, incongruous material, bad printing and even bad English, that is what one finds surmounting the page whereon the newspaper is supposed to show forth its very soul!

Them's hard words, mates. Maybe the young man is exaggerating. Let's look them over.

Well, take the *New York Times*. Surely there we shall find dignity and taste. It starts well, "The New York Times," in Old English lettering, sharp and neat. Then, "All the News That's Fit to Print." this in full face. Next, Published Every Day in the Year by THE NEW YORK TIMES COMPANY" Why are "Every," "Day" and "Year" capitalized? Why is the name of the corporation in two sizes of caps? Why, if there is to be a period after "Fit to Print," is there no period after "Company"?

Then "ADOLPH S. OCHS, Publisher and President," with Publisher and" spaced so tight they look like one word. Then "B. C. Franck, Secretary." A single rule. The date in light caps another size). A double rule. "Officers of the New York Times"—light caps, still another size. "New York City:"—big and little caps. Why the colon after "City"? (Telephone Lackawanna 100.)" in agate, l.c. Why the brackets? Why no comma after Telephone"? Then, in italic, caps and l.c., a list of addresses, indented each side about an em, no periods after the lines, and such abbreviations as "43d St., w. of Broadway." Also "2,829 Third Avenue (149t St.) The "h" of "th" is missing. Next a list of out of town offices, in agate. And then what seems to me an atrocious line, "Two cents copy Greater New York," and a little further on, the equally elliptic "Sunday, Five Cents Manhattan, Bronx, Brooklyn."

Then some italic caps, followed by agate, followed by blackface, by agate, by blackface. Tabular matter this—the price of subscriptions. Then an advertisement for the various magazines the Times prints—sometimes using "per year" sometimes "1 yr." sometimes "one year."

Unimportant details—carping criticism—"bug picking"?

Why, yes, if you like. But would such things be tolerated in the columns that follow the masthead? Or anywhere else in The Times? We all know The Times too well to suppose so for an instant.

"This is no model," said I to my best friend and kindliest critic, myself, "let us look further".

We did, myself and I.

Jumping lightly across the continent, we opened the *Los Angeles Times*. The cut of the name of the paper (by the way, it is sunk below the names of nine individuals) is old and battered; the whole masthead is in blackface. It sets forth that the paper was founded "Dec. 4, 1881" and then, for fear arithmetic may not be your forte, it explains kindly, "44th year." But next to the name of the paper, the most prominent line in the masthead is this—"LOS ANGELES (Loce Ahng-hayl-ais)". We live and learn. So that's what a masthead's for, in "Loss An-geh-less".

The *Binghamton* (N. Y.) *Press and Leader* prints in its masthead an inky coarse screen cut, labeled "Binghamton Press Building absolutely Fireproof". Positively, Mr. Shean. In the other corner, the Typographical Union label.

At the head of its editional column, the *Geneva Daily Times* (with a bum "I" in "Daily") spells "Busines" just that way.

But why pick on the little fellows? There's *"The Topeka Daily Capital* By Arthur Capper." Honest, that's the way it reads, set off above and below by a shaded rule. The Capital "will always be on file at the above offices. Visitors from Topeka or Kansas, when stopping in any of these cities, will be welcomed at The Capital Branch offices and can always find the latest issue of their home paper." Any reporter who wrote "the above" English in the Capital's news columns probably would be fired.

The *Des Moines Register* goes in for display type, to boast of its circulation-type larger than the name of the paper. And then it adds, in blackface, "Largest MORNING Circulation in Iowa. Largest EVENING Circulation in Iowa. Largest SUNDAY Circulation in Iowa." That seems to cover it.

The *Rochester* (N. Y.) *Democrat & Chronicle* leads off with its title in an Old English lettered cut that has seen better days, but most papers do that. The real oddity of the Democrat & Chronicle's masthead is the line cut, in curious perspective, of the top of a building (its own?) upon the facade of which is carved a quotation

> "Without or with offence
> To friends or foes
> I sketch your world
> Exactly as it goes"

which we were going to call doggerel until luckily we managed to decipher the name of Byron as its author. So now we know it's poetry.

You can buy the *Rochester Herald* at all New York City's leading hotels "by 6 pm on day of publication. It is also sold at the Times Square News Stand—It can also be obtained at the news stand in the Woolworth Building." Many newspapers thus advertise news stands, at the head of the editorial columns.

Clark Howell ought to buy a new cut of the seal (it's either a seal or a doughnut) in the *Atlanta Constitution's* masthead. Speaking of curious information with which to lead off an editorial page, there is the Constitution's solemn warning that it is "not responsible for advance payments to out-of-town local carriers."

The *Jamestown Morning Post* has (in blackface) the "Largest Circulation of Any Paper in Jamestown or Chautauqua County", and after all, that's something no matter how it's capitalized.

The *Niagara Falls Gazette* (with a broken "F") is "Printed in U. S. A." and that's something, too.

The *New York World* has "Circulation Books Open to All," and advertises its Almanac. But bless The World for this, its name plate is new, clean, and sharp.

Hardly a newspaper but has crooked rules and battered type in its masthead—for instance, the *Denver Rocky Mountain News;* the *Toronto Daily Star* (Largest English Circulation in Canada); the *Omaha Bee* (which makes the Audit Bureau of Circulations singular and plural in the same sentence); the *Evening Public Ledger* (which batters the "D" out of Dave Smiley, but fortunately leaves the "Smile"); the *Cincinnati Enquirer* (with a broken "E" and a tailless "Q" and a mess of type all off its feet, and "advt'g" as an abbreviation); the *Hartford Courant* (Established 1764) and apparently using the same name plate today.

The New Orleans *Times-Picayune* and the *Detroit News* use line cuts of their buildings. There are appropriately enough, two flivvers scooting by the News plant, and also what may be a flivver truck. The flag is flying and the clouds are piling up behind. But we're for the Times-Pic; in front of it are three little trees for shade, and a bench for loafing. Pleasant suggestion in winter—a sunny bench in New Orleans!

The *Toronto Globe* has (in black type) "The largest morning circulation in Canada built without the aid of premiums." That has all the earmarks of a dirty crack, now, hasn't it?

Some put periods after the name of the paper, some don't, but the *London* (Ont.) *Free Press* I believe is absolutely unique in its use of a comma. Thus,

> The Free Press,
> London, Ont.

The *Birmingham Age-Herald* quotes Thomas Jefferson; the *Pittsburgh Post* tells us "News Is Colorless." The *Detroit Fress Press* instructs its readers, under the succinct heading, "Phones", "In calling ask for desired departments; Editorial, Advertising, Subscription, etc." The "etc." department probably is the morgue.

The *New York Sun's* seal (or what have you?) is pretty well worn, but the idea of telling the history of the paper in a few well-chosen words is one we like. The *Louisville Courier-Journal* does that, too, but spoils the effect by following it with a mass of business detail six inches deep.

The *Hamilton* (Ont.) *Spectator* leads off with this, "The Spectator aims to be an independent, clean newspaper for the home devoted to public service." The only trouble with that is that there are so few homes devoted to the public service.

The *Brooklyn Daily Eagle* "has a circulation Larger than that of any other Evening Paper of its Class in the United States. Its value as an Advertising Medium is Apparent." Rather than real? There are so few in the Eagle's "Class" that it may be allowed its claim. But to allow such capitalization is "something else again," as they say in the quaint little village of Brownsville.

This has all been more in mischief than in kindness.

But, seriously, shouldn't the top of "Col. 1, Ed pg.," look worthy of its position? Shouldn't it be reset now and

NOTABLE GATHERING AT LUNCHEON FOR CUBAN AMBASSADOR

Cabinet members, high government officials and newspaper notables attended the luncheon given recently by Dr. L. S. Rowe, director-general of the Pan-American Union to Hon. Rafael Sanchez-Aballi, newly appointed Cuban Ambassador to the United States. In the picture are, left to right (front row): Hon. John Sargent, U. S. Attorney General; Hon. Rafael Sanchez-Aballi, Cuban Ambassador; Hon. Frank B. Kellogg, Secretary of State; Hon. Andrew Mellon, Secretary of the Treasury; Hon. Curtis D. Wilbur, Secretary of the Navy; Hon. William Jardine, Secretary of Agriculture.

(Back Row) Karl A. Bickel, President of the United Press; G. Logan Payne of the Hearst Newspapers; Senor Don Jose T. Baron, Secretary of the Cuban Embassy; Hon. James J. Davis, Secretary of Labor; Dr. Hubert Work, Secretary of the Interior; Robert Edwin Olds, Assistant Secetary of State; Dr. L. S. Rowe, Director General, Pan-American Union; Green H. Hackworth, Solicitor of the Department of State; Dr. E. Gil Borges, Assistant Director of the Pan-American Union; and Frank B. Noyes, President of the Associated Press.

then? I don't mean to be unreasonable—say once every two or three years.

Is that really the place to fight circulation battles, advertise the names of our space salesmen, quote detailed subscription rates with a mass of tabulated prices, give detailed instructions as to how to mail letters, use the telephone and buy advertising? Is that just the spot for boasting that we put auditors on our books, and that we buy this or that news or feature service? Who the—(naughty word) that reads Bill White's editorials cares to be told, just above them, that the *Emporia Gazette* won't accept indecent ads, but does charge for lodge meeting notices?

Almost without exception, the mastheads of American newspapers really are display advertisements—very badly displayed. Why? Custom, of course. Traditions are fine—when they are good traditions. I can understand and admire a newspaper's affection for an old-fashioned trade mark or name plate, even a quaintly worded announcement or motto. But most of these mastheads aren't venerable at all—names of advertising agents, last month's circulation, names of New York news dealers. Why not put all this information, necessary and proper enough, in a neat box, to be displayed somewhere else in the paper? The *Christian Science Monitor* does that. Perhaps at the head of the classified ads, would be an appropriate place.

For of all the mastheads we ever have seen, we like best that of the Manchester Guardian. Do you recall it? It says—

THE GUARDIAN
Manchester, Monday, Nov. 16, 1925.

RADIO SEEN AS RIVAL TO NEWSPAPERS

Lord Riddell, London Publisher, Asks Broadcasting Committee If It Is Wise to Cultivate a "Listening-In Habit"

The wisdom of cultivating a "listening-in habit" was questioned late last week by Lord Riddell, publisher of the *London Sunday News of the World,* who spoke on behalf of London newspapers before a hearing Dec. 17, of the British government's broadcasting committee.

"Is it to the advantage of the nation to cultivate a listening, in preference to a reading habit?" Lord Riddell asked, and pointed out that if broadcasting could be used for general distribution of news at all times, the newspapers and the news agencies must reconsider their position.

The British Broadcasting Company, having a practical monopoly of broadcasting, pays £8,000 yearly for news bulletins, he said, while newspapers which must meet this competition spend £5,000,000 annually in gathering news.

Newspapers thus far have supported broadcasting by publishing programs, he said, but if radio seriously curtails newspaper circulation the results would be disastrous. Many classes of news, Lord Riddell added, are not suitable for radio distribution, such as reports of law cases. Other classes of news, like racing news, although appreciated by one section of the public, he said, are not welcome to others and listeners-in cannot choose the type of broadcasting as readers choose the type of newspaper.

Lord Riddell calls political and propaganda matter not suitable to radio, and that consequently newspapers must be protected. His defense answers the charges of broadcasters of a monopolistic attitude on the part of newspaper owners. The production of British newspapers costs £62,000,000 yearly.

Wilkes-Barre Editor Dead

Frederick Kirkendall, 55, editor and half-owner of the *Wilkes-Barre* (Pa.) *Times-Leader* died recently following an operation. Mr. Kirkendall is survived by his widow, two daughters and one son, Frederick, Jr., the latter being attached to the news staff of the Times-Leader.

INSTRUCTION, JOBS, PRESS COOPERATION, JOURNALISM TEACHERS' SUBJECTS

Program for 4-Day Annual Convention in New York Completed—Canby, Seldes, Davis, Knopf, Farrar, to Speak

EVERY phase of the teaching of journalism in schools and colleges will be discussed at the annual four-day meeting of the American Association of Teachers of Journalism and the Association of American Schools and Departments of Journalism at Columbia University, New York, Monday to Thursday, inclusive, next week.

A large attendance is expected at the convention, which is being held under the auspices of Columbia and New York universities. Hotel headquarters will be at the Waldorf-Astoria and meeting headquarters at the School of Journalism, Columbia.

Prof. James Melvin Lee of New York University will entertain early convention arrivals at supper at the Newspaper Club, on Sunday evening, Dec. 27. Prof. Lee will also provide teachers attending the convention with cards extending the courtesies of the Newspaper Club.

Professor Burgess Johnson of Vassar College has invited the teachers to visit Vassar College, Poughkeepsie.

The program follows:

Association of American Schools and Departments of Journalism:

MONDAY, 10 A. M.

Consideration of applications for membership.
Report of Committee on Fraternities—Dean Eric W. Allen, University of Oregon.
Report of Council on Education in Journalism.
"Qualities required in Teachers of Journalism"—Prof. Joseph S. Myers, Ohio State University.
Noon—Luncheon at the Faculty Club.

AFTERNOON SESSION

"Background Studies in Preparation for Journalism"—Prof. Nelson Antrim Crawford, Kansas State Agricultural College.
"Co-operation of the Press with Schools of Journalism"—Prof. Allen Sinclair Will, Columbia University.
"Some Early English Criticisms of Newspapers" Prof. W. G. Bleyer, University of Wisconsin.
"The Placement Bureau, Should it be Fostered?"—Prof. Grant M. Hyde, University of Wisconsin.
Round Table discussion of the papers presented.
Election of officers.

American Association of Teachers of Journalism:

TUESDAY, 9.30 A. M.

The Administration of a Journalism Department—H. B. Center, Boston University; J. S. Myers, Ohio State University; M. G. Osborn, Louisiana State University.
Extensive Work in Journalism—Bristow Adams, Cornell University; Frank L. Martin, University of Missouri.
New Teaching Methods—Symposium, in which it is requested that each member present discuss briefly any new method which he has found successful.
2 P. M.—Preparation for Special Fields of Writing: Critical Writing—H. S. Canby, editor, *The Saturday Review of Literature;* Gilbert Seldes, dramatic critic, *The Dial.*
Magazine Work—Elmer Davis; Burges Johnson, Vassar College.
Book Editing and Publishing—Alfred A. Knopf, president, Alfred A. Knopf, Inc.; John Farrar, editor-in-chief, George H. Doran Company.
Labor Journalism—Josephine Colby, Brookwood Labor College.
Appointment of committees.

EVENING

Dinner given by Columbia University to the Associations, at the Faculty Club. Speakers: Dr. Nicholas Murray Butler, president, Columbia University; Mr. Walter Lippmann, chief of the editorial page, *New York World,* and others.

WEDNESDAY 9.30 A. M.

President's Address—President Nelson Antrim Crawford.
The Relation of Cultural to Technical Courses in the Journalism Curriculum—J. W. Cunliffe, Columbia University; A. L. Stone, University of Montana.
Journalism Courses for Non-Professional Students; H. T. Baker, Goucher College; J. O. Simmons, Syracuse University.
2 P. M.—The Press and Authority—Oswald Garrison Villard, editor, *The Nation.* The Need of Practicality in Instruction in Journalism—Arthur Howe, editor, *Brooklyn Eagle.*
Present Day Tendencies of the Press—James Melvin Lee, New York University.
7 P. M.—Reception given by *The New York Times* to the Associations, followed by tour through the *Times'* plant.

THURSDAY, 9.30 A. M.

Research in Journalism—
Report of the Council on Research.
Report of research in Progress.
Presentation of research papers.
Problems in Applying the Principles and Standards for Instruction in Journalism.
Report of the Council on Education in Journalism.
2 P. M.—Relations with Student Societies—Report of the Committee on Journalism Fraternities.
Salaries Paid in Journalism—Report of the Committee on Salaries.
Reports of other committees.
Election of officers.
Miscellaneous business.

All subjects on the program are open to general discussion.

POSTAL CRITICISM TURNS TO NEW'S AIDE

Joseph Stewart Said to Be Chief Defender of Cost Report—Kelly Says Rates Now As High As They Need Be

BY BART CAMPBELL

WASHINGTON, Dec. 21.—Until Postmaster General Harry S. New has explained more fully certain statements regarding postal conditions contained in his annual report to Congress, the Joint Congressional Postal Commission will make no final recommendations for revision of the existing "stop-gap" postal law.

The Commission will also await a complete report on the current Christmas holiday business of the Postoffice Department before holding any further hearings or meetings. Like the Congress, the Commission will just "mark time" until the hour arrives when postal rates and postal wages may be considered with a view to permanent instead of temporary legislation.

EDITOR & PUBLISHER was so informed this week by U. S. Senator George H. Moses of New Hampshire, chairman of the Commission, as well as of the Senate Postoffice and Postroads Committee, and Representative William W. Griest of Pennsylvania, chairman of the House Postoffice and Postroads Committee and a member of the Commission.

There was a strong undercurrent of opinion in Congressional circles this week that criticism of the Postoffice Department should not be leveled at Mr. New personally so much as at Joseph Stewart, the department executive who has sought to justify even more than the Postmaster General the Costs Ascertainment Report repudiated by the last Cosgress. Mr. Stewart is certain to be called "upon the carpet" again when the Commission resumes its inquiry into postal conditions.

Following the action of the Senate, the House passed the Moses resolution continuing the life of the Commission until the next session of the new 69th Congress, at least, and thus giving it another year in which to sift the entire postal situation to the nethermost bottom if the Commission considers that much additional time is necessary to complete its investigation.

In the meanwhile word is being passed about both the Senate and House that postal law revision cannot come before May or June, at the earliest, and that it is highly probable that there will be no new postal legislation before the next session.

Representative Clyde Kelly, author of the postal wage increase, and a ranking Republican member of the House Postoffice and Postroads Committee, expressed approval this week of the stand taken by EDITOR & PUBLISHER toward the postal situation, and criticised severely the Postmaster General's report in a statement to EDITOR & PUBLISHER.

In this statement Mr. Kelly, a recognized authority on postal matters, to which he has given years of thorough study and research, charged Mr. New with unfairness in authorizing repeated criticisms of Congress for enacting the present temporary law.

Mr. Kelly said:

"The new rates are as high as they need to be. They should not be increased and I feel confident that Congress will not increase them.

"With any business system of bookkeeping which would segregate the free postal service performed for the common welfare, there would be shown a substantial surplus in the Postoffice Department.

"On behalf of the Congress, which by practically unanimous vote enacted the Postal Pay and Rate Bill, I resent the inferences in the publications so continuously authorized by the Department. If those responsible will perform their duty in loyally carrying out the law, they will do a better service for the great postoffice establishment than by efforts to prove that it was a blunder to grant decent pay to deserving postal employes."

FLORENCE, ALA., PAPERS MERGED

Daily News and Times Now Being Published as Times News

The *Florence* (Ala.) *Times* and the *Florence Daily News* were consolidated recently under the name of the *Florence Times News.* A. B. Camper, former editor of the News, is in charge of the editorial policy, and W. P. Williams, former manager of the Times, is directing the management.

The Times News has begun the publication of a Sunday edition eliminating the Saturday afternoon edition.

The Times News serves the tri-cities, Florence, Sheffield, and Tuscumbia with carrier delivery.

United Press service is being used by the consolidated papers.

TO LAUNCH TABLOID IN CHICAGO, DEC. 28

Morning Sun to Be Directed By T. K. Hedrick and C. E. Wood—to Sell at 3c—150,000 Advance Circulation Reported

A new tabloid daily newspaper, *The Sun,* is scheduled to make its advent in Chicago, Dec. 28.

It will be a 32-page paper, and will tell the day's news chiefly in pictures. It will be Chicago's first daily tabloid.

The first edition of the Sun will be known as the "Midnight Sun" and will appear on the streets between 7 and 8 p. m. The "Morning Sun" will be issued later for morning readers. It will sell for three cents a copy and is reported to have an advance paid circulation of 150,000 copies. It will be sold on news stands and by special news boys.

T. K. Hedrick, a newspaper man of 37 years' experience, is managing editor of the new publication, which will be issued by the Sun Company at 601 South LaSalle street. For the past 14 years he has been associated with the *Daily News.*

The business manager is C. E. Wood, formerly assistant publisher of the *Chicago Evening American.* Mazie Howell, formerly with the *Chicago Daily News,* will be the women's and art editor, and Andrew C. Kelly, city editor.

Student Editors Removed

Publication of the December issue of *The Virginia Reel,* student organ of the University of Virginia, barred from the United States mails by the Lynchburg, Va., postmaster, whose action was approved by department officials at Washington, resulted in the removal of Eugene Patterson Warner, of Cleveland, O., and James Benjamin Aswell II, of Washington, son of Representative Aswell, of Louisiana, editor-in-chief and managing editor, respectively, of the publication, by the student managing board.

TRAIL BLAZERS OF ADVERTISING

An Arizona Saloon Opening

by Chalmers L. Pancoast

COPYRIGHT 1925 BY EDITOR & PUBLISHER CO.

Chapter XIV

An Arizona Saloon Opening

MANY of the spectacular things of life, belong to yesterday. They are dead and buried in memory's grave. But the lights and shadows, and the noise and charm of old events occasionally come back from memory's grave appearing unreal in their dim outlines.

Perhaps it is against the Eighteenth Amendment to write about the glorious orgies and glamorous charm of the tap-rooms of the old West.

But these old community houses played an important part in the civilizing of the frontier. Here it was that bad men shot it out and killed each other. And the notoriety gained by these famous civic centers was their best publicity. They were talked about, condemned and slandered, but never praised. Word-of-mouth advertising made the world curious to know about them.

When I first went West years ago, at every station stop in New Mexico and Arizona men left the trains in a crowd to get a good look at these widely and notoriously advertised Western barrooms.

At one station gambling was openly advertised as it was openly indulged in. "Keno Tonight" was flashed by an electric street sign; and it was a popular sign at that. The gambling era in the West was not so wild and woolly as it was rough. Great gangs of Mexicans, Chinamen, cowboys, miners and lungers responded to the call of the electric Keno sign, and the gambling room was crowded to its very limit.

Years ago, when I was a traveling correspondent for a Western newspaper, I happened to be in an Arizona town when a widely advertised saloon opening took place. Handbills in red headlines were distributed calling attention to the new stocks just received, and the big public dance that would be held.

It was a great occasion, because the new bar-room was to replace a once famous place which had burned to the ground several months before.

There was a grand volley of noise. A brass band played its wildest tunes, there was much wild dancing, drinking, hilarity, joy; and quite a little shooting on the side. In those days "gun toting" was an important part of an Arizonian's costume. Most of the shooting was into the barroom floor to make some victim dance faster. Being a courageous tenderfoot the nearest I got was to sneak up to a window in the rear and peer through the glass. What they did to a tenderfoot was plenty. You simply had to be one of their kind to go unmolested.

The movies have attempted to reproduce many Western bar-room and gambling house scenes, but they can never reproduce the noise, odors and colorfully crude atmosphere of these places of genuine hell-raising.

Free lunch, a brass rail, and the drink that cheers! The frontier saloon was the social rendezvous of the elite and the bon ton of western mining camps. Sentences were short and punctuated with bullets. Tenderfeet were always welcome.

The owner of this Arizona joint, which advertised the public opening, was an enterprising man. He got up a card which was distributed to guests, announcing, a list of drinks unique and different:—

"The following is a partial list of the varieties of whiskey now in stock:—

"Common whiskey, the kind that killed father at the tender age of 93.

"Sporting whiskey, the kind that makes the game rich and the player go the limit.

"Business whiskey, the kind that makes a fellow who never had any business in his life, hold you up and submit a million dollar scheme.

"Wise Guy whiskey, the kind that swells the head of the absorber thereof until Solomon looks like a bum.

"Roaring whiskey, the kind that suddenly sets the quietest fellow in town to vociferating and swinging his arms.

"Fighting whiskey, the kind that makes a two-gun-guy out of a coward.

"Crying whiskey, the kind that softens the heart of the flint-hearted criminal.

"Loving whiskey, the kind that makes your worst enemy put his arm around your neck—and give you his guns.

"Loquacious whiskey, which makes a man run off at the mouth, whether he has anything to say or not.

"Notice—They all come out of the same bottle."

These old Western bar-rooms were brimful of color and exciting interest. The life they supported was composed of violent smells, brisk, brutal activity, a sordid brightness and a blunt, brash and brusk sociability. They had a distinct character and individuality—each one had its own following and loyal loafers. They had such picturesque names as The White Elephant; The Gold Nugget; The Silver Palace; The Mansion; The Capitol; St. Elmo. These names stood for something. They were the advertising handles which carried their fame to distant parts.

Men took great delight in spreading the stories of their roughness, wildness, wickedness and notorious gambling scenes.

Whiskey was at one time a great product to advertise. Copy for whiskey advertisements was always the most sunshiny and optimistic kind of copy.

Handbills and newspaper ads had great things to say about this product for man and beast. For instance what greater praise could be sung about any product than this:—

"Blank Whiskey is distilled in a state world-renowned for possessing every element conducive to distilling the best quality of whiskey, abounding with numerous slate springs of pure sparkling water and fields of rich waving grain.

"It is commended to consumers desiring thoroughly reliable, nutritious and invigorating whiskey.

"It is wholesome, helpful and comforting; in addition has a pleasing flavor and a delightful aroma.

"Its purity is guaranteed. And as a parting word, remember it is indispensable to every household.

"Avoid adulterated whiskeys, as they are exceedingly injurious, and great harm may result from their use.

"Finis."

The copy-writers who turned out those old flowery masterpieces of whiskey copy are out of a job. Well do I remember those surcharged superlatives such as — "sun kissed fields of golden grain"—"mellow to the taste" — "that golden glow feeling"—"rose tinted thoughts follow a draught" — "here's to your good health and prosperity"—"properly distilled, matured and blended"—"old matured malts and grains impart that smooth mellow taste."

Words forgotten, dead and buried! Words obsolete and objectionable. And so the most appropriate ending that can be written for this chapter of the dead is—

"In Memoriam."

CHAPTER XV

Goats and Ghost Towns

THERE was a time when the only publicity considered worth anything was a free write-up.

Just to get your name in print without it costing anything was considered worth a lot more than any paid space.

Some of the cleverest advertising men that ever bunked their way through life, thrived on the free publicity game.

It was the one method to get prominent quick. Just as many people have strived to get famous quick, as there have been to get rich quick.

The old combination press agent, advertising agent, and advertising man are passing out of the picture. And "easy" editors of newspapers have had their eyes opened to the free publicity game.

But there was a time when a free write-up could be put over on an editor without any trouble. The news columns were cluttered up by puffs of all kinds. Paid advertising was often handed out only to those who would come through with a column write-up. "Soft-soaping" or "salving" the advertiser as it was called.

In the old days when newspaper space was a battleground between yellow journalism and shouting medical advertisements.

(*Continued next week*)

"THE CHIEF" A BELOVED AUTOCRAT ON OREGON JOURNAL

Felix R. Mitchell, Oldest Employe, Rules Knights of Kollodion with Scepter of Affection— His Word Is Law

By HAROLD EVERETT HUNT

FOR thirty minutes each day the Chief is an autocrat of the luncheon table —an autocrat with a scepter backed by the affection which men show to years, combined with that elusive quality, fellowship.

In the city directory he is listed as Felix R. Mitchell, to his intimate friends he is known as Felix or Mitch, but to his subjects he is always the Chief.

Despite his three score years and ten, he is an active member of the staff of the *Oregon Daily Journal* of Portland. In point of years and service he is by far the oldest employe of the big western newspaper.

Subjects of the Chief form the Knights of Kollodion, a coffee club comprising employes of the newspaper, with several former employes retaining associate memberships. The name of the club is taken from collodion, which plays an important role in engraving, and was adopted because the majority of the members are connected with the engraving department of the paper.

An even dozen men and one lone woman, the only Knightess in existence, are the willing subjects of the Chief. The woman was formerly a member of the Journal editorial staff. An artist and an editor, with the engravers, complete the active membership.

Each workday noon the Chief and his subjects gather about a big table in the engraving room, with a steaming pot of coffee in the center, and spend a half hour in riotous fun, heated debate and pungent persiflage.

Despite the fact that his subjects range in age down to the engraving room apprentice, barely of years sufficient to satisfy the union and child labor law requirements, the Chief joins in the fun and argument as one of the boys. He is treated as are the others, with the exception that his station in the club is never forgotten for a moment and an undertone of respect is always apparent when he is addressed directly or indirectly.

His word is law and woe betide the Knight who questions it in any detail. Fellow Knights take particular delight in calling the attention of all to any slip and promptly squelch the offender.

In his kindly way the Chief settles all disputes when they reach dangerous proportions. Usually his rulings form the bright spots of the day's merriment, for the Chief has a fund of happy humor on which to draw.

One of the rules of the club deals with the "swear box," a big tin can into which pennies, nickels, dimes and even quarters find their way. Swearing is strictly prohibited during the lunch hour and the prohibition extends to any language which would offend feminine ears. Each breach costs the offender a nickel and few sessions fail to add to the weight of the box.

A never ending source of fun is the effort of some member to phrase his words so adroitly that he can approach the forbidden ground without overstepping the mark. Such efforts often bring about a kangaroo court, with profound argument as to the guilt of the Knight accused. Sometimes the Chief rules of himself but often he will leave the question of guilt or innocence to the Knights and the chorus for conviction is always so loud and long that accused members have learned to dig for their nickels without waiting for the verdict when his procedure is followed.

The "swear box" by the time the Christmas holidays approach, is usually of considerable weight and value. At first its contents went for a dinner for the Knights but several years ago they decided to brighten the Yuletide for tiny waifs of the city. With other money, added by the Chief and his subjects, the fund now furnishes toys, fruit and candy for children who lack loved ones.

The big event of the year for the Knights is a parade on Christmas morning, which has become a custom looked forward to by many members of the newspaper staff. Led by the Chief, the merry club members, in fanciful garb, march through the building, serenading each department with original songs. As a band, one of the members tunes up his saxophone, while the paper's machinist, taken into the club for the day, plays his accordion.

Knights of Kollodion costumed and masked on their Christmas parade. The accordion furnishes the music.

Moving pictures of the parade have been shown throughout the Pacific Northwest as part of a newsreel and stories of the holiday fun have been written for newspapers and magazines of the field of journalism and allied arts. Its fame has spread to such an extent that people not connected with the newspaper keep Christmas morning open that they may enjoy it.

The club has been in existence for seven years and, during that time, has never been endangered by dissension. Except as members leave the employ of the Journal its personnel has remained intact, with but few exceptions, and when changes are made the men invited to join have accepted with alacrity, for few are chosen for the honor.

From its inception the club has had but one Chief and his tenure of office will pass only when the day comes on which he no longer can take his place at the table with his boys. Recently, when the Chief was desperately ill, the lunch hours became dreary, but his return was a signal for rejoicing.

"I don't know what Mr. Mitchell would do without his Knights," Mrs. Mitchell told a member during his illness. "I believe he goes to work largely just to meet with them each day. I know he loves every member."

Do the Knights love the Chief? Ask them during the lunch hour.

Magnuson Buys Illinois Chain

Glen E. Magnuson, for the last year, general manager and treasurer of the Home News Publishing Company, operating a chain of newspapers in northern Illinois and southern Wisconsin, has purchased a controlling interest in the Community Newspapers, Galesburg, Ill. In acquiring the Community Newspapers' interests, Mr. Magnuson purchased also the interest of J. A. Noeke, who will no longer be associated with the papers. D. V. Moon will be managing editor of the chain under the new management.

MAY GET NEW TRIAL

Portland Express Holds $5,150 Damage Award Is Excessive

Decision that unless Mrs. Frances M. Smith of Portland remits all of the jury award made her over $3,850 within 20 days, the Evening Express Publishing Company will be allowed a new trial, was rendered by Justice Arthur Chapman in Superior Court, Portland, Me., on Dec. 17.

Mrs. Smith was plaintiff in a $15,000 damage suit against the publishing company at the October term of the Superior Court, at which a jury awarded her $5,150. Defense counsel moved for a new trial, asserting that the award was excessive. Arguments were made by counsel for both sides and this decision was the outcome.

Mrs. Smith alleged that one of her legs was seriously injured at a street corner when a bundle of papers from a circulation truck was thrown to the sidewalk a year ago. The publishing company admitted liability, the only contest being over the amount of damages.

WOMEN BANISH CRIME

When They Edit Complete Paper for Erie Dispatch-Herald, Dec. 8

A woman's conception of what a newspaper ought to be was given to the reading public of Erie, when members of the Business and Professional Women's club took charge of all editions of the *Erie Dispatch-Herald.*

With Mrs. Myrtle Ramsey as managing editor, Mrs. Helen Schluraff as city editor and other members of the clubs out on beats and assignments, the women turned out a paper which differed from the usual run in that all crime news was omitted.

Front page headlines told of a $30,000 fire in Erie. President Coolidge's message to Congress, the election of a woman as president of the Erie school board, and other topics upon which national interest is centered.

Editorials written by the women commended President Coolidge on his stand on the mothers' pension question and cited as the most urgent need of Erie at the present time, "more boosting by its own citizens."

The women took over the paper as a result of a challenge issued to them by the publishers. The women had expressed a wish that they might have an opportunity to put out a paper as they thought it ought to be, and they gladly accepted when the offer was presented to them.

Ohio Weekly Sold

The *Willoughby* (O.) *Republican* has announced that on Jan. 1 it will take over the *Lake County Herald,* published at Painesville, O., for more than 20 years. The Herald will be continued. The Republican is published by Bert Bryant with Ethel D. Bryant, his sister, as editor.

O'DELL ANSWERS NEW ON ENVELOPE QUESTION

Quotes Postmaster General's Aide to Show Weeklies Not Greatest Beneficiaries of Free-In-County Rule

Postmaster General New's attack on country newspaper publishers because of their activity in promoting legislation designed to restrict the government competition in the printing and marketing of stamped envelopes, brought forth a reply from Wallace O'Dell, chairman of the National Editorial Association legislative committee, while in Washington handling their affairs.

Mr. O'Dell in an interview with EDITOR & PUBLISHER said that the Postmaster General had apparently been poorly advised by his subordinates when he inferred in a letter to Congress that the country publishers are lacking in gratitude for the continuance of free-in-county privilege on second class mail. The N. E. A. official stated that the organization had no intention of dropping its legislative fight against unfair competition of the government in the printing business but intended to intensify its efforts to have the Kendall Bill, H. R. 4478, passed by the present Congress.

In a letter to Chairman Griest, of the House Post Office Committee, the Postmaster General referred to the campaign against the government in printing and marketing stamped envelopes, in which he said:

"The attack by the country weeklies is the most indefensable when it is recalled that this class of publications has enjoyed for many years the privilege of free county circulations of their newspapers. The quantity and cost of handling of which is referred to in beginning to this communication."

Mr. O'Dell claims that the Post Office Department is obviously inconsistent in its attitude on free-in-county privilege. The Post Office Department says that the demand for the cessation of printing and marketing stamped envelopes "comes chiefly from country publishers." The Postmaster General states further:

"While the government does undoubtedly perform a service for the users of stamped envelopes, it is glad to perform for the country publishers a service which is of even more substantial character. It may not be amiss to state in this connection that during the fiscal year 1925, the postal service transported 69,195,041 pounds of newspapers in the county of publication at an estimated cost to the government of more than $8,000,000 for which the government received no revenue in return."

Joseph Stewart, the executive assistant to the Postmaster General, in testifying at the postal hearings last January said:

"The free-in-county privilege is only an incidental feature of second class as a whole, for which Congress has fixed general rates. The cost report shows that during the fiscal year 1923 out of a total of 64,278,981 pounds of second class free-in-county matter mailed under the free-in-county privilege, 44,583,514 pounds, or 69.23 percent, represented daily newspapers. The apportioned cost of all free-in-county aggregates only $7,611,759 of which daily newspapers are charged with $3,260,931, which is only 42.84 percent of the total cost of the free-in-county service, although daily newspapers constitute 69.23 percent of the total weight. The department recommends that the free-in-county privilege be continued."

"It will be noted from this statement by the foremost authority on postal rates in the Post Office Department," O'Dell said, "that the old theory of the country press being sole beneficiary of the free-in-county is definitely upset. These official figures show that only 31 per cent of total volume of newspapers using the free-in-county privilege are weekly newspapers.

"This official document from which the above quotation is taken, carries the convincing answer to the Postmaster General as to the extent to which the country weeklies participate in the free-in-county privilege."

TEACHING ADVERTISERS TO PROFIT BY TRUTH

A Review of 1925 of the National Better Business Bureau, Inc.—Four Educational Campaigns Bring Results—75 Frauds Sent to Jail

"TO increase public confidence in business by promoting fair play in advertising and selling is presented as the purpose of the National Better Business Bureau, Inc., of the Associated Advertising Clubs of the World. The organization was incorporated this year and at the time adopted its present title, in place of the National Vigilance Committee of the A. A. C. W. The change in name was brought about in order that the main organization might be more closely identified with the 43 local and affiliated Better Business Bureaus in various cities of the United States.

A representative of EDITOR & PUBLISHER this week went to Edward L. Greene, managing director of the National Bureau, and asked him simply: "What has your organization accomplished this year?"

"That is a big order," he replied. "Supposing I let you investigate for yourself. I will introduce you to the staff. You can ask whatever questions you like, and then reach your own conclusions."

Mr. Greene's offer was accepted, and the representative spent the better part of a day at the Bureau's headquarters in New York, interviewing William P. Green, associate director; B. L. Shinn and E. L. Donnelly, representatives; Holland Hudson, manager of the department of education and research; and Miss A. D. Kemble, head of the Classified Advertising Service, inaugurated a few months ago. The conclusions reached are in the article on this page.

EDUCATIVE rather than punitive tactics were stressed this year by the National Better Business Bureau, Inc., subsidiary of the Associated Advertising Clubs of the World.

Not that punishment was neglected where needed in this organization's persistent efforts to promote fair play in advertising and selling in order to increase public confidence in advertising. Seventy-five men, convicted of fraud, are now vacationing in various jails, and behind their sentences stand investigations made by the National Bureau and turned over for prosecution to post office inspectors and prosecuting attorneys.

But an index of the National Bureau's work is to be seen in the fact that of a staff of 10 at New York headquarters, eight are engaged in teaching advertisers to profit by truth, while only two carry the practices of those who persist in deceit to the courts for prosecution.

Four outstanding educational campaigns, the adoption of a classified service, designed to assist newspapers to keep their classified advertising columns free from fraud, and radical reorganization of the publicity department, are high spots of the year's endeavor, a year marked above all by the great expansion of the organization. A hoe has given way to a modern tractor in cultivation of the advertising field.

In discussing 1925's work in the "Truth in Advertising Movement," it is necessary first to make plain what the National Bureau means by an "educational campaign." It means that representatives learning of advertising misrepresentation go direct to those at fault, explain to them their error, and working co-operatively through associations in the industry clean up the bad practice for the gain of both buyers and sellers of advertising space. If the misrepresenting company or industry fails to respond, publicity is resorted to, and, in the event a fraud case is possible, the matter is carried to the proper court authorities.

Chief among such drives conducted this year by the National Bureau ran under the slogan, "Name the woods furniture campaign." Furniture dealers and manufacturers were continually misleading the public in their advertisements either by simlpy naming one wood, or by naming only the hard wood veneer laid over soft woods. Within the past year a code, formulated by the Bureau, insisting that the public be not misled in this respect, has been carried to manufacturers and dealers associations, and endorsed by them. Among the large furniture associations co-operating with the National Bureau today are the Furniture Manufacturers' Association of Grand Rapids, Mich., representing more than 50 large furniture making concerns; the Southern Furniture Manufacturers' Association; the Ohio Retail Furniture Dealers' Association; and numerous local groups such as the Furniture Dealers Association of New York; the Furniture Dealers' Association of St. Louis and the Furniture Dealers Association of Birmingham, Ala.

Likewise the code of advertising ethics regarding furniture drawn up by the National Bureau has been ratified and adopted by the National Retail Drygoods Association. The National Retail Furniture Association, while declaring itself in virtual accord with the National Bureau, preferred to write its own code.

By this campaign, the confidence of the furniture buying public in furniture advertisements has been fully restored in the National Bureau's belief.

Recently some storage batteries appeared on the market made up in oversized boxes equipped with a small number of plates and over-rated as to their electrical capacities. A seven-plate battery, for example, was furnished with a box, designed for, and usually housing an eleven plate battery. In several instances these batteries were marked and advertised with wholly fictitious names and ratings and sold to users, who supposed from the advertisements, markings, and size of box, that they were obtaining batteries of large capacity at a bargain.

The National Bureau promptly took up with the battery trade ways and means to curb spread of this new variety of misbranding and deception of the public. A program was devised for "driving the 'gyp' into the open," and on Sept. 14, a code for rating and marking the ampere hour capacity of storage batteries was recommended to the industry. Within three weeks, the makers of more than 85 percent of the storage battery production in the United States had endorsed these recommendations and pledged themselves to apply them in the rating and marking of their products.

The recommendations were:

(1) Beginning immediately make sure that every battery made is appropriately and correctly rated.

(2) Beginning immediately, brand each battery with the correct rating figure, or with the maker's name and type of symbol number from which the rating may be determined. Preferably this branding should be on the box itself, at least on the name plate, or other exposed part.

(3) Beginning immediately in each catalog or piece of advertising matter, advise dealers of the rating method employed and what any type or symbol numbers used may mean.

(4) Beginning immediately, decline to misbrand batteries made for others or to deliver batteries in oversized boxes, unmarked with correct capacity ratings.

"Bait" advertising, so-called, was also attacked during the year by the National Bureau. In an educational bulletin issued on this subject, the following is quoted:

"It is as much the function of advertising to create confidence and goodwill for the advertiser and his product as to attract attention to it. The merchant with screaming banners and a buzzer on his window gets attention in plenty, but he does not get the confidence nor goodwill of intelligent consumers, and such business as he gets must be conducted on the plan of quick-or-never, for his customers seldom come back a second time except to register complaints. Why emulate his advertising tactics? Why not secure attention, instead, by any other of the several possible methods which sacrifice neither confidence nor goodwill?

"Individual publishers in both the newspaper and magazine fields are awake to the menace which bait copy carries. In order to protect the sales productivity of their advertising space they have persuaded a number of 'bait' advertisers to employ less destructive attention getting devices. They deserve the hearty commendation and support of all advertisers and agencies in such a policy, for the confidence-destroying effect of 'bait' copy extends merely in a less degree to all other advertising which appears in the same mediums.

The fourth educational campaign, which the National Bureau declares met with success, was designed to eliminate what is termed the "advertising hammer," that is, copy disparaging the goods of competitors. To concerns employing this method of promoting their products, the National Bureau went with this message:

"To build confidence in advertising and thus secure the greater return for advertising expenditures, there must be harmony among advertisers. The remedy for the destructive tendency in much current copy, with its backwash of flamboyant, exaggerated and untruthful statements, lies with the advertiser and the advertising agency.

"One year of constructive advertising by any industry will measurably increase the sales building value of its advertising. May we have your co-operation?"

The National Bureau claims that in the majority of cases this advice was welcomed and followed.

Where recourse to the courts was necessary, there were in 1925 two notable instances, among the 75 prosecutions ending in jail sentences.

Investigations carried on by the National Bureau and turned over to the proper authorities resulted in October in the conviction of Jacques Blevins of fraud and his sentence to five years in federal prison. Blevins, as head of the Southern Motors Corporation and the National Motors Company, defrauded the public of an estimated $6,500,000.

Blevins, one of 17 persons named in the indictment, was the master mind in a series of advertising and sales campaigns which broke some records in promotion history. The sale of $6,000,000 worth of stock and subsequent flotation of notes on proposed new stock issues indicated the energy and shrewdness with which this promotion was carried on.

To thousands of investors, Southern Motors appeared to be the "efficient operating organization" which the literature called it. The promoters were astute enough to manufacture a few cars, which they gave the name "Ranger."

As part of their regular work for the protection of the investor and the promotion of public confidence in the advertising of legitimate securities, the National Bureau and the local Better Business Bureau at Houston, Tex., headquarters of Southern Motors, co-operated with federal authorities in gathering evidence, which resulted in the indictment of Blevins, his conviction, and subsequent sentence. E. A. Schwab, special representative of the National Bureau, was subpoenaed as an important witness at the trial by David F. Cannon, the special assistant attorney in charge of the prosecution.

Lewis Van Riper, Charles Van Riper, and Henry Hedrick, promoters of the Parco Oil Company, fraudulent firm, were convicted in New York recently and fined $1,000 and sentenced to five years in federal prison each. Co-operation of the National Bureau aided federal authorities in this instance also. Henry Hedrick's sentence is considered of particular importance, since he has been writing a good deal of the literature for fraudulent enterprises during the past five years.

The five promoters of the Century Consolidated Oil Company, a $2,000,000 "amalgamation of seven practically defunct oil companies will probably be tried in New York late this winter.

The New York calendar is also likely to include the trial of two directory swindlers, apprehended at the instance of the Financial Department of the National Bureau. The Chicago docket is likely to include before spring the four land selling sharks recently arrested in that city in connection with the sale of Florida lands.

Of the many enterprises investigated by the National Bureau during the last month, upward of 75 involve sharp practices which place them at least in the class of minor frauds, although by no means all of these involve criminal prosecution.

The newest developments consist chiefly of Florida land selling schemes, motion picture and aircraft enterprises, so-called bankers' share promotions, a number of dubious foreign securities, and a series of "endless chain" selling schemes. The usual perennials, such as bucket shops, fake automobile clubs, lotteries, directory swindles, "write-up" publications, and fake solicitors are again in evidence.

Of utmost interest to newspaper publishers, as evidenced by the response received from them, was the inauguration this year of what the National Bureau calls its Classified Service.

In two months of operation, this new service has investigated 208 classified advertisements, issued 58 bulletins to nearly 1,000 newspapers, and received hundreds of commendatory letters.

Miss A. D. Kemble, in charge of this service, searches for shady sounding advertisements in the classified columns of newspapers. She answers them, finds out what the propositions are, and if they prove to be of a misleading character, forwards the information to the list of newspapers and classified advertising managers, furnished by the Newspaper Classified Advertising Managers Association, with which the National Bureau is co-operating. The Classified Service makes no attempt to preach to the publishers and does not pretend to advise them as to whether or not questionable advertisements should be refused. In the bulletins issued, the text of the advertisements are listed together with the name of the firms and agencies sending them out, and the response received to them when answered. Fifteen such bulletins are sent out each week.

Reorganization of the publicity system was effected this year by Holland Hudson, formerly a special investigator of the Federal Trade Commission, and now a member of the Bureau's staff.

Mr. Hudson said press releases to newspapers for publication have been virtually discontinued. Nothing is now sent out unless it can be strictly defined as news. Beginning Nov. 1, all explanatory material regarding the National Bureau, is being published monthly in a new four-page house organ called "Better Business News," which is sent out regularly, free of charge to 16,000 people, including heads of mail order houses, department stores, newspapers, chambers of commerce and local Better Business Bureaus. Between issues of this publication, special bulletins are also mailed out to the list, keeping all interested in touch with the organization's work.

TIRE FIRM'S SPLIT-COST CAMPAIGN WON HEARTY DEALER CO-OPERATION

Mason Company Featured Pictures of Dealers and Played Down Its Product in Cleveland—Hand-bills and Direct Mail Backed Up Newspaper Copy

By HAMMOND EDWARD FRANKLIN

STEVE SCHMITT runs the Schmitt Electric Automobile & Supply Company in Cleveland.

Steve is interested in selling more tires and accessories, but, like thousands of other dealers in all lines, he is busy, has heard a lot about advertising (much of which he discounts) and the ordinary salesman's approach to get him to add new lines leaves him "cold."

But this fall he has taken a keen interest in pushing Mason Tires made by

This is the copy that pleased dealers and boosted sales

the Mason Tire & Rubber Company, Kent, O., because of a peculiarly successful, strongly localized campaign combining newspaper and other methods, which put him in a stellar role. The plan produced tangible results for him. It also enabled this tire company to obtain a lot of new Steve Schmitt's in that city.

"A co-operative dealer campaign," with the manufacturer and dealer working together closely and splitting the cost is the "pipe dream" of more than one business man. This is a case of where it was put into practice, through the energy of George F. Kline, the Mason tire Cleveland salesman, who took infinite pains with the details to make the plan really "click."

Mr. Kline's idea was to stage a local campaign which would play up the dealer first and the tires secondarily. So he went to the dealers carrying the line in the city and convinced them they should share the cost with the house for some local advertising, in which their own pictures would appear and in which the tires and their service would be talked from their angle.

This appealed to the tire dealers, for they could see where they fitted into the program. It would be read by all their customers and prospects. Kline had a local photographer go around and take pictures of the dealers, each holding or pointing at a Mason tire. The photos of ten dealers were included in a half page advertisement published in the *Plain Dealer* on Friday, Sept. 18.

"Who's your tire man?" the copy inquired. "If he is one of these fellows—you have placed your confidence with the right man. Talking about tires won't increase mileage but if you'll consult us, we will save you money."

In a box appeared this letter to Cleveland car owners: "To be as distinctive as the product we sell is our aim. Our existence is justified only by the service we render. As tire specialists, we, the Mason dealers of Cleveland, can reduce for you the cost of car operation. One of us is in your neighborhood. Buy your tires from your nearest Mason dealer and be assured of unusually good tires and a square deal." A Mason tire with the nameplate was printed toward the bottom and below the names of other dealers, whose photos didn't appear, were listed.

It goes without saying that every dealer on the page bought copies of that issue of the paper with great zest and that he heard from it numerous ways.

Coincident with the release of this newspaper copy, a four-page letter was mailed to 400 car owners for each dealer, so arranged there was no duplication as to names. It was mailed Sept. 17, the day before the copy appeared. The direct mail work did not try to talk too much about tires, but rather stressed the dealer's store as a good place to trade. At intervals of two weeks a card and a colored mailing folder went to the same list. All carried pictures of the dealer.

In addition, each of the ten dealers participating distributed 2,000 hand-bills apiece, with his photo on it, featuring a special sale of various accessories as bargains on the night the newspaper advertising appeared.

"Thus it happened, in many cases, that the car owner received a letter in the morning containing a message from the dealer and his picture, picked up a newspaper, saw the co-operative advertisement, was further impressed, and finally went to the movies that night, and getting into his car, found a hand-bill, with his local dealer's picture, short copy about Mason tires, and an announcement of some special bargains in automobile accessories available near-by," said Philip J. Kelly, advertising manager of the Mason Tire & Rubber Company.

"The mailing lists were carefully checked to prevent conflict. Nothing was said about the price of the tires, the price appeal entering on various accessories the dealer was anxious to move. The sales were very good. Every dealer experienced a brisk business for several days after this campaign was launched. Hundreds of people came into our dealers' stores with copies of the letter, copies of the advertisement or, more still, with hand-bills.

"The comments received on the attempt were all very favorable but the main thing we were interested in were results—these were very satisfactory. The effect was very profitable from the standpoint of every dealer as well as ourselves."

By Oct. 23, when a full page was released, more dealers had been interested. Sixteen pictures of dealers were published with copy:

"Are balloon tires here to stay? Yes! If you doubt it, consult one of these reliable tire men! They can tell you why balloon tires are here to stay and they can show you how to obtain the same long mileage you used to get from high pressure cords."

The name and address of each dealer appeared under his photograph. A similar plan is to be applied in all Mason branch cities.

"Our advertising policy provides that on newspaper advertising and on dealer identification," the company states, "we will spend up to 2 per cent of the dealer's total volume in payment for one half of his newspaper and identification advertising. The newspaper space is billed to the dealer; the dealer submits the receipted bill to us and a merchandise credit is issued for half the amount. Our agency does not place this copy, it is placed direct by us at local rates.

"The fifty-fifty program works out very well because we confine it in a very definite manner to newspapers and dealer identification advertising such as painting special signs, walls, windows, etc.

"The other part of our dealers' advertising program contains many other features, which are divided into two subdivisions: advertising which we give free to the dealer, and advertising which is sold at a net price not subject to the fifty-fifty proposition. By adhering to our established policy, we are able to keep the 50-50 program within bounds and find it to be a very satisfactory and profitable way to handle the dealer who is himself a clever and original advertiser."

I. N. S. WINS RADIO PRINTER DISPUTE

Patent Office Affirms Its Claim to Finch Invention Which Was Contested by Morkrum-Kleinschmidt Company

The Law Department of the Patent Office has just rendered an important decision against the Morkrum-Kleinschmidt Company and in favor of the International News Service, Inc., in the matter of the conflicting claims of both companies for patents on a radio typewriter.

William S. Gluck, of New York, patent counsel for the International News Service, Inc., said:

"The invention in issue relates to the operation of a typewriter by radio and the International News Service, Inc., who are interested in the application of W. G. H. Finch, have actually been experimentally transmitting and automatically receiving news items on the radio typewriter at relatively great distances for some years. An operator using the Finch apparatus, manipulates a sending device that resembles a typewriter and sends his message merely by operating the keys of such an apparatus in the same way and just as if he were operating a typewriter to typewrite his news item.

"This sending apparatus which he is operating will cause radio impulses to be transmitted through the ether, which are picked up by a second apparatus far removed therefrom and not connected therewith, and this second apparatus, or the automatic radio receiving typewriter, or any number of such machines that may be installed in various localities covering a large area, would be actually typing the message sent through the ether line for line and word for word, so that the message received will be in typewritten form and an exact copy of the original as sent will be ready for the editor.

"The Morkrum-Kleinschmidt Company is the assignee of an application filed by one, Brady, which, it was claimed, operates somewhat in the same way. To settle the conflicting claims, an interference was declared to which Brady and Finch were parties. Brady was unable to claim a date of invention sufficiently early and it was therefore held that judgment would be entered against him unless he could show reasons to the contrary. This he attempted to do by claiming that the Finch application as filed in the Patent Office was inoperative. This question was tried out before the Law Department of the Patent Office, and after a filing of briefs and the making of arguments, a decision was rendered in favor of Finch and his device was held fully operative.

"In situations of this character, the general procedure of the Patent Office is to enter a judgment against Brady and his assignees, the Morkrum-Kleinschmidt Company."

N. Y. Jewish Editor Honored

Peter Wiernik, editor of the *New York Jewish Morning Journal*, was the guest Dec. 17, of his staff and about 400 friends at a dinner, honoring his 60th birthday. Israel Friedkin, publisher of the Jewish Morning Journal, was a speaker, and Jacob Fishman, managing editor, was toastmaster.

COMPLETING PROGRAM FOR PENN. MEET

State Publishers to Convene in Harrisburg, Jan. 19—Only Paid Up Members Will Be Eligible to Attend

Albert W. Fell, manager, of the Pennsylvania Newspaper Publishers' Association, this week stated that arangements are being completed for the annual meetof that association at the Penn Harris Harrisburg, Pa. on Tuesday, Jan. 19.

The first event of the day will be a meeting of the Executive Committee at 9 A. M. at the office of the association. The general session will convene at 10 o'clock, adjourning at 12:30 P. M. The afternoon session will be held at from 2 to 5 o'clock P. M., when committee reports will be heard and the annual election of officers will take place. In the absence on a world tour of President John L. Stewart, Vice-President Charles B. Spatz of the *Berks County Democrat*, Boyertown, will preside.

Edwin S. Friendly, business manager of the *New York Sun;* James Wright Brown, publisher, EDITOR & PUBLISHER; Frank E. Gannett, president and publisher of the Gannett Chain of New York dailies and Ross W. Kellogg, director of the Empire State School of Printing at Ithaca, N. Y., will be the speakers at the various sessions and at the banquet which will be held at 6:30 o'clock.

Only members whose dues are paid in full for the first quarter of 1926 will be registered and eligible to attend the business sessions and the banquet, Mr. Fell stated.

"This does away with the dead wood and eliminates publishers who heretofore have had much to say but who never paid their dues," he said.

CHICAGO AD STAFF DINES

Evening American Group Reviews Year's Work—Black Toastmaster

Employes of the advertising department of the *Chicago Evening American* held their annual banquet at the Blackstone Hotel, Chicago, with the motto, "It will be done better in 1926," blazing in electric letters above the speakers' table.

Herman Black, publisher of the American, was toastmaster, and W. A. Curley, the editor, was among the speakers. Others who talked included M. C. Meigs, advertising director; W. M. McNamee, local advertising manager; H. A. Koehler, national advertising manager, and O. E. Schenk, classified advertising manager.

Others speakers of the evening included James P. Bicket, Rodney E. Boone, F. C. McQuigg, Herman De Vries, J. N. Eisenlord, Allan Rankin and A. L. Carmical.

N. Y. WORLD PAYS BONUS

Christmas Gift of $60,000 Distributed Among 1,200 Staff Members

Nearly $60,000 was distributed among 1,200 members of the *New York World* staff this week as a Christmas bonus, J. F. Bresnahan, business manager, announced.

The sum represented one extra week's wages to each employe. Two years ago the World revived this custom, which had been given up for several seasons previously.

Writers of Northland Warned

Writers who go out of their way in their stories to make villains of employes of the Hudson Bay Company will be sued for libel, J. Chadwick-Brooks, secretary of the company, has warned. He declared authors of northland novels had made numerous references to reprehensible actions of employes, and "it was evident that the company's name and reputation might be injured."

Cincinnati Post Automobile Section

Each day 185,000 Cincinnati Posts are sold to readers who want to know what motor car models and refinements are being introduced for 1926.

The Post has the largest circulation of any Cincinnati newspaper daily or Sunday.

The Post Automobile Show Section will be published Monday, January 18, 1926.

NEWSPAPER MAKERS AT WORK

By PHILIP SCHUYLER

James W. Barrett, *New York World*—Unmasker of Frauds

LITERALLY for years now, I have been trying to get James W. Barrett, city editor of the *New York World,* to talk for publication in this department. Always busy, always terse, he has refused me consistently, when I asked him his views on this or that subject on the minds of newspaper men.

In his own words, he believes newspaper editorship is a trade dependent for success upon absolute secrecy. What? Where? When? How? and Why? are questions for newspaper men to ask and religiously to refuse to answer, if they are wise.

Well, not long ago I was able by a little strategy to get the required picture of him at his desk. Fine, I thought, he is cornered at last, and 'phoned immediately for an appointment.

"What is this you want?" he queried. "A 'Newspaper Maker at Work'? All right, you shall have it."

I was at his desk soon afterwards, keeping the appointment he had arranged. Mr. Barrett was eating his lunch, brought to him by one of the copy boys, and working while he ate, slightly ruffled, I thought, because a ham sandwich had appeared, when a ham and egg had been ordered.

"Hello", he said. "Come for that story, eh? Very good, draw up your chair."

I did so, and started asking some questions that had long been waiting for Barrett repies. His uplifted hand checked me.

"I haven't time to answer those questions. I don't believe in it anyway", he said. "You wanted a 'newspaper maker at work' from me, didn't you? Well, look me over. You can spend the rest of the afternoon here, if you wish. But nothing I say must appear in print."

Of course, the afternoon passed with interest. Here was a man sitting within easy reach of every corner of Manhattan Isle. Several hundred eyes were keeping watch for him, looking for news of interest to the millions. Here he was catching the first breath of every scandal; learning of murders as quickly, almost, as police; hearing the inside of city politics, and guiding an efficient staff to turn out city news, like an engineer at the throttle of a train. A few minutes were enough to show how he had every important story of the moment in New York at his finger tips. He would call reporters to his desk, tell them tersely what he wanted and dismiss them, or ask them the progress of an investigation they were conducting.

Very possibly he was on parade, while I sat as though on a reviewing stand, but certainly I was impressed by his ceaseless activity, his apparent keen knowledge of the city, the brevity yet sureness of his orders. Staff members declare this Barrett activity is continuous.

"He comes on at noon," they say, "and stays later than any other city editor in town."

And it dates back to his reporter days, when he was noted in Manhattan as an unmasker of frauds. Back in the war days, for instance, when the whole country was overrun with profiteering promoters for the destitute of France and every other imaginable thing, Barrett was the muckraker for the World, working endlessly for week on week, to uncover grafters and pilferers of the public purse.

There was the Allied War Relief Bazaar of 1917 investigated and shown up as 99 per cent graft by the indefatigable Barrett. The Army and Navy Bazaar of the same year made newspaper history, when the World reporter showed after a painstaking probe that out of gross receipts of about $75,000, only approximately $754 was turned over for the intended purpose, that of purchasing service kits for the soldiers and sailors in the war. Also the exposé of "Heroland," the same year, at the hands of the present World city editor, when it was shown up that of the 110 charities supposedly behind this venture, 49 per cent were bogus.

Other activities claimed the attention of Barrett as reporter. He covered the big Interborough Railroad strike of 1919, distinguishing himself for his thoroughness. He never allowed himself to overlook a point. His *metier* for awhile was obtaining facts on big robberies which police sought to suppress.

In 1919 he was in Boston with his family on vacation. The famous police strike, which put President Coolidge in the public eye, broke while he was there. He telegraphed his office immediately, and accepted the assignment to report the story. Early in the morning of each day he went to work, and kept at it until late each evening. He was not content to follow the system of other morning paper men on the job, who waited for the evening papers and then sent in highly colored re-writes. He wanted to go into every detail himself, and did. When others on the assignment knocked off for the day to go to a show, Barrett would continue working.

One sitting watching him at work today as city editor, an important cog in the making of the World, thinks back on these reporter days, and reads an interview into the orders he hands out to the staff.

"Be persistent, when on your assignment," I have heard him say. "I don't care how you get your story, but get all of it, and get it right."

"The kind of reporter I want to work for me, is a man who knows how; a man who still has curiosity, the urge to find out everything, and the speed to get in a complete story by edition time."

Barrett began newspaper work on the *Denver Republican* in 1909, when, he has confessed, he worked for nothing a week and earned it. A year later he transferred to the *Denver Times* remaining there until 1912. He had entered the newspaper business from the University of Colorado. In college he made many records as a sprinter on the 'Varsity track team, many of which still stand.

In 1912 he came to New York, and his first job in this city was with the *New York Morning Telegraph.* From 1914 to 1916 he was with the old *New York Press,* joining the staff of the *World* in March of the latter year.

UNIQUE SPECIAL EDITION

Vancouver Sun Prints Special Section Devoted to Fox Farming

Something unusual in special editions was issued Dec. 9, by the *Vancouver* (B. C.) *Sun,* when it printed a 10-page British Columbia Fox Show section devoted entirely to the fox industry and fox farm advertising.

The Fox Show was organized by the Sun in connection with a livestock show held in Vancouver. The fox department was one of the features of the show and more than 200 animals were entered.

As a result of the special newspaper section the fox breeders organized an association, and the business was taken from the unorganized state and lifted to the rank of a first class industry, according to S. Griffis, advertising manager of the Sun.

"We do not know of another place in Canada or United States where such an edition has been published, but we feel that with a little effort, the fox business could be developed to a point where it would be another great factor in the world of merchandising, and a big revenue producer for the newspaper," he stated.

"Some idea of the possibilities of this industry in the advertising field may be gleaned from the fact that this edition contained some 1,100 inches of space, sold at the rate of $2.50 per inch.

"A number of the breeders have already contracted to continue as steady advertisers. There are several fox farms in British Columbia, the value of which are estimated at from $100,000 to $250,000, and there are undoubtedly other such ranches, perhaps larger, in various parts of Canada and United States, which newspapers could profitably interest themselves in."

CHICAGO SPECIALS ELECT

J. J. McConnell Named President, George Noee, Vice-president

J. J. McConnell was elected president of the Newspaper Representatives Association of Chicago, at the annual election held recently, at the Morrison hotel.

The new vice-president is George Noee. Berry Stevens was re-elected secretary and H. E. Scheerer, treasurer.

On the board of directors F. E. Crawford and T. L. J. Klapp, were elected for one year and W H. Stockwell for two years.

There are a lot of well behaved young men in these days. They are in the penitentiaries.—*New York American.*

TEACHING FUTURE NEWSPAPER "CUBS" TO MEET AND TALK WITH PEOPLE

Elementary Course in News Writing at New York University Aims to Give Neophyte Reporters Confidence in Asking for Facts on Which to Base Their Stories

By PHILIP SCHUYLER

EDITOR & PUBLISHER herewith presents second of a series of articles concerning journalism courses at various schools in this country, designed to acquaint editors with the manner in which future staff men and women are being trained.

MORE than 150 neophyte newspaper men and women are learning the fundamentals of the reporter's trade in the school of journalism at New York University, directed by Prof. James Melvin Lee, conductor of "Our Own World of Letters," in EDITOR & PUBLISHER.

JAMES MELVIN LEE

This number represents only the members of two elementary classes in news writing, one conducted by Prof. Leon R. Whipple and the other by Prof. H. B. Rathbone. The former class, made up of freshmen and sophomore students, ranging in age from 18 to 20, meets twice-a-week in the day time, while the latter, a bi-weekly night course, is conducted for men and women of more mature age, many of whom are already engaged in newspaper work.

Prof. Whipple, big and jovial, keeps good order in his large class, which takes up nearly 100 of the total enrollment in this beginners' course.

His chief aim, he explained, when interviewed after a class attended by the writer, this week, is to teach the young students how to meet and talk to people for the purpose of obtaining facts for news stories assigned them. He insists on facts; no faking is allowed, and careful check is made to prevent it.

This week the class was assigned to obtain and write a Christmas story. They were told to discover the story for themselves. It might be on any of a wide range of subjects, but must be based on fact. They must question people to obtain the fact. By this time of year, the class has reached a point where further explanation is unnecessary. Members are high school graduates, capable of expressing themselves in writing.

In the beginning of the year, Prof. Whipple started his class by giving them the facts of an imaginary story, to be written by them, as they believe it should appear in a newspaper. Results are studied minutely and discussed in the class.

Shortly afterwards, he spent one period dictating an entire question and answer of an imaginary interview. Then he ordered the pupils to select the facts they considered of particular interest, and lay them out in approved newspaper story form.

The next assignment was for the students to attend some speech, and report it for the Professor, as though he were the reader-group of some paper. Instruction carries them from this point to the reporting of an accident story. No time element is placed on this assignment. The class is told to go out and find some friend, or relative, who has been in an accident, obtain the facts, and write them as a news story. An inquiring reporter stunt now enters the program. Five questions are assigned, which must be answered by people stopped and queried by the students.

Prof. Whipple, who leads this class, is at present literary editor of the *Survey Magazine*. Dr. Lee prefers always to have practical working newspaper men conduct courses under his direction. Prof. Whipple has long newspaper experience extending back to cub reporter days on the *St. Louis Republic* in 1901. He has been associate editorial writer of the *Richmond* (Va.) *Times-Dispatch*, editorial writer and book editor of the *Washington Times*, and director of the School of Journalism of the University of Virginia. He is a graduate with degrees of A.B. and M. A. from the University of Missouri.

In directing the smaller but more advanced class which meets at night, Prof. H. B. Rathbone, a former make-up editor of the *New York Sun* and a Hearst executive on the International News Service, deals more in imagination. He strives rather to teach his students to develop their own news writing style, avoiding bromides as much as possible, believing they have advanced beyond the point where they must learn how to ask for the facts of a story. Of the 57 in his class, 90 per cent are equpped to write good English. Nearly a dozen are connected with some New York newspaper, while a number are on the staffs of trade journals and still others work in publicity offices. The average age is about 24 years.

As an example of Prof. Rathbone's teaching methods, the other day he imagined for his class that President Coolidge had been shot at, while on his way from the White House to the Senate to make a speech. The name of the fictitious would-be assassin was given; the extent of the wound, and the names of the White House doctors. The students were told to write a short news flash of 200 words, covering the imagined news event, as though they were the Washingtoin correspondents of some press association.

" I cautioned them to use nothing but the facts given them," Prof. Rathbone said, "but many insisted on injecting some facts of their own imagining."

The course begins each year with a definition of news, given by Prof. Rathbone as: "News is anything that is timely and interesting to people. The best news is that which interests the most people."

The initial assignment is to bring in a short news story, which must be based upon something the student has seen before the next class. Eighty per cent of the students, Prof. Rathbone estimates, bring in a human interest story, based upon some triviality. Then the instructor endeavors to explain the difference between straight and human interest copy.

When teaching the development of a news story, Prof. Rathbone give his class what he calls the accepted form, as follows:

"First, give the introduction; secondly, give the results; thirdly, the causes; fourth, the major details; and fifth, the minor details."

These two courses are offered for beginners at New York University. Other classes held there are devoted to the history of journalism, news reporting; copy reading and editing; book reviewing; dramatic criticism; and fiction writing.

On occasion, Dr. Lee takes the entire journalism department's enrollment under his personal charge for a special assignment. Thus it was during a big milk strike in New York he had 300 students on the story, and was able to uncover a wealth of material.

He often uses his students to make researches. His students helped him write the history of the *New York Globe* in two days. At present they are engaged in digging up the history of 90 years of advertising of a New York department store, Lord & Taylor; and in obtaining answers to health questions for the Metropolitan Life Insurance Company. He believes that a journalism school should be, in effect, a busy laboratory for discovery by research of what the public wants.

THE DAILY ARGUS-LEADER
Sioux Falls, S. D.

"As a long time subscriber to your checking service I believe that the Argus-Leader is in a position to know and realize just the full benefit a newspaper derives from your service.

We are pleased to learn that you are planning an extensive campaign to extend your service. You may rest assured that the Argus-Leader will continue to be with you for some time to come. Our checking troubles immediately dropped to nothing the minute your service was started and we believe that a newspaper that has any volume of national advertising is passing up a very good bet if not making use of your bureau.

Sincerely yours,
THE DAILY ARGUS-LEADER, Ernest J. Kahler."

The Best Dressed Audience in CINCINNATI

According to the merchants who rely upon newspaper advertising for the bulk of their business the men who read the Times-Star are the best dressed audience in Cincinnati. They spend two dollars for personal wearing apparel for every one dollar spent by the readers of both morning newspapers combined and two dollars for every one dollar spent by the readers of the second afternoon paper.

Dealers in men's wear apportion their newspaper advertising on this basis, placing twice as many lines of display advertising in the Times-Star as they place in the morning newspapers and two lines in the Times-Star for every one line in the second afternoon paper. Being the shrewd business men they are these merchants buy their advertising space not on the basis of the cost per line or per inch, but by the cost per sale.

The out-of-town space buyer may be misled by an imposing array of circulation figures without knowing where the circulation is or how it was secured. But the local merchant knows where it is and what it is worth because his own sales records tell him which newspapers pull the most business for his store. And the only circulation he is interested in is the circulation that lives within his trading radius and has the purchasing power to buy the goods he has to sell.

The Times-Star leads its field in both quantity and quality of City and Suburban circulation. It leads its field in both quantity and quality of display advertising. In those departments in which the closest checking of results is possible the leadership of the Times-Star is most pronounced.

Mr. Advertiser, if you have a message for the people of Cincinnati address it to the best dressed audience. Your best prospects will be there.

November 28, 1925.

Mr. James Kerney, Editor,
Trenton Times,
Trenton, New Jersey.

Dear Mr. Kerney:

In the last meeting of the Trenton Chamber's Board of Directors recognition was paid to the fact that Trenton's exceptionally good afternoon paper had crossed the 40,000 circulation mark. It was accordingly voted to congratulate the TRENTON TIMES upon reaching this milestone.

With a circulation of 40,000 copies daily, it is very evident that the influence of the TRENTON TIMES daily reaches more than the entire population of the City of Trenton, there being approximately 30,000 homes in Trenton at this time.

The TRENTON TIMES is without doubt a newspaper of which any city of 200,000 population might be proud. It certainly compares very favorably with, and is regarded very highly by, the newspapers in the other leading cities throughout the country. Such a standing certainly is deserving of a 40,000 circulation.

The Trenton Chamber of Commerce wishes the TRENTON TIMES continued success and growth, and we are now looking forward to the early day when the 50,000 circulation mark will be crossed.

Cordially yours,

Trenton Chamber of Commerce,

W O Lochner

Secretary.

LETTERS FROM OUR READERS

Some Southern History

To Editor & Publisher:

The writer was much interested in an article which appeared in Editor & Publisher Nov. 28 written by Kenneth Watson, giving the story of how Governor Peay of Tennessee turned the tables on certain newspaper reporters by asking them questions about the history of the Volunteer State, which they were unable to answer correctly.

My enjoyment of the article was based to some extent on the fact that I am a native of Tennessee, and that section of it commonly designated East Tennessee; the section in which is located Dayton, the scene of the more or less well advertised Scopes trial. It is needless to say that I am not ashamed of my native State, its people or its record in war or in peace; and it is equally needless to remark that I do not consider the attempts of alleged highbrow newspaper reporters to slur and slander the State, on account of the Scopes case, are worthy of even passing notice.

The fact is that I am writing solely for the purpose of correcting an historical error which is to be found in the article alluded to above. The paragraphs following the story of Governor Peay and the reporters, printed as you say for the benefit of readers who are not students of history, contains the error mentioned.

The reference to the battle of King's Mountain states that the American army was composed entirely of East Tennessee mountaineers, led by Cols. John Sevier, Isaac Shelby and William Campbell. This is a grave error. The little army of victors in the battle of King's Mountain was composed of Tennesseeans, Virginians, and men from both North and South Carolina.

The Virginians were commanded by Col. William Campbell; the Tennesseeans by Col. John Sevier; the North Carolinians by Cols. Benjamin Cleveland and Isaac Shelby, and the South Carolinians by Col. James Williams. In the little American army were other well known patriot leaders, but the colonels named were the ranking commanders. With the Virginians was Col. Robert Campbell of Virginia; and among the Tennesseans the brother of Col. John Sevier, who fell in the battle. The greatest loss of the Americans, perhaps, was sustained in the death of the gallant South Carolinian, Col. James Williams.

King's Mountain was a glorious victory for the Americans, and many careful students of history regard it as the turning point of the Revolutionary War, leading up to the defeat of Cornwallis at Yorktown. The mountaineers of East Tennessee are due a full share of credit for the victory, but their fellow countrymen from Virginia and the Carolinas are due equal praise—in fact, it is said that the outstanding hero in the American army was Col. Isaac Shelby, a native of Maryland, who commanded a North Carolina regiment. After the Revolution, Col. Shelby was a citizen of Kentucky and contributed in a large measure to the laying of the foundations of that State.

Latter day newspaper reporters, and many other citizens, could study the history of our country from the beginning with profit. There is lamentable ignorance of historical facts in many quarters and among many citizens. More than this, those who are ignorant in regard to the country's history miss the encouragement and inspiration to be derived not merely from historical facts but the example and deeds of men like the commanders at King's Mountain, and the men led by them in that battle.

For example, how many newspaper rereporters are familiar with the inspiring life story of the gallant soldier and statesman, Col. John Sevier? How many know that he was the foremost Tennessee military commander of his time; that he was the first and only governor of an American State named Franklin? How many know where the State of Franklin was located and its history? Col. Sevier was also the first governor of the State of Tennessee and was elected to that office several times, serving altogether some ten or twelve years as chief executive of the Volunteer State. He also served several terms in Congress.

It is worthy of note, too, that in the backwoods of East Tennessee, Col. Sevier was instrumental in founding, about the year 1786, the first institution for higher education established west of the Allegheny Mountains. This institution was Washington College, and it is still engaged in educating the youth of backwoods East Tennessee. If the writer's memory is not at fault, there are only two institutions for higher education in the United States that are older than Washington College, and these are located in New England.

Ellis Replies to Hart

To Editor and Publisher: I note with some interest the article by Mr. Charles F. Hart, mechanical superintendent of the *New York Times,* in your issue of Nov. 14, and I feel that some statements made by Mr. Hart may lead to the forming of a wrong conclusion if the facts are not fully known.

The statements made by Mr. Hart that I take exception to are:

"The press blanket situation is at present deplorable."

"I am satisfied that, had the Publishers Association sensed the importance of this suit, they would have interested themselves in it, and carried it to the bitter end."

That newspaper publishers and executives may know what we claim for our blankets they are referred to our advertisements where the claims made and guaranteed are clearly stated. They are as follows: They will save 50% of printed waste and in the larger offices this item alone is many times the blanket cost; they will save 100% of tympan cloth and give 50% better printing; press efficiency will be increased 25% and 10% of power will be saved; they will eliminate 90% of paper breaks between the cylinders.

We have made the following proposition to the management of the New York Times and personally to Mr. Hart:

"We will agree, by a signed contract, to furnish all the surface or top blankets that The Times can use free of cost or any charge whatever, and in addition pay to the Times a cash bonus of $10,000.00 yearly as long as the contract may run (5 or 10 years as they elect) if the Times will pay to us one-half the savings they are effecting by using the Automatic blanket as against the expense they were under when using plain felt and muslin tympan cloth.

"Difference in cost to be determined from their own books and press room records. Items to be taken into consideration are specified above and in addition they are to include the cost of the blankets they formerly used."

A similar proposition is open to any and all users of the Automatic blankets in the United States, in proportion to the blankets used.

Personally I can see nothing deplorable in such a situation regarding blankets, and as Mr. Hart has not accepted our proposition he may have some other thought in mind than the words he used seem to imply.

Regarding the second paragraph that we quoted from Mr. Hart's address, a great many of the publishers, superintendents of pressrooms and the builders of printing presses did sense the importance of the suit, and rendered all the assistance possible to help us maintain the validity of the Automatic blanket patent.

It was realized that it required technical skill in manufacture and an intimate knowledge of operating conditions to manufacture a blanket that would meet the severe conditions imposed on blankets on high speed presses printing up to 64 pages at one operation.

No manufacturer of woolens could know the requirements of the pressroom, nor could a coating mill have this knowledge, and how could a newspaper executive have a complete knowledge of the problems involved to combine the various elements to make a successful operating surface for the cylinders of high speed presses.

This knowledge was in possession of the officers of this company, and the highest technical skill of all the combined arts was brought into co-ordination not through the efforts of a few months but due to experiments extending over years.

If the patent had been declared invalid, as seems to be the desire of Mr. Hart, there probably would have been many attempts made to produce a similar blanket, by those who did not or could not understand all the factors envolved, and the newspapers of the country would have paid a terrible price, in inefficiency, delay and waste paper.

I feel that Mr. Hart did not fully realize these facts, or possibly, qualifying statements may have been omitted from his address.

In either event I welcome the opportunity to tell the newspaper publishers about one of the efforts made in their behalf, and state that inventions of great importance do not just happen, they are generally the result of cumulative effort, careful study, intelligent application, and large expenditures of capital in research and development work.

of Huntington, West Virginia

In reply to your letter asking what we think of the Pony Autoplate, beg to say that in all of our experience in publishing a newspaper we point to this machine as one of the outstanding features of our plant.

Our Pony has given us entire satisfaction, producing plates quickly and accurately with the least amount of help, that is with one man casting and finishing the plate. Very seldom we do any hand work on the plate. We use it with the Wood Dry Mat and the results are as good as any paper printed anywhere.

EDITORIAL

FRANK A. MUNSEY

AS the year ebbs on the tide of time, the career of Frank A. Munsey comes to an end, the second great figure in American journalism to fade from view in 1925.

Frank A. Munsey and Victor F. Lawson represented the so-called "school of non-personal journalism," and yet how personal to them were the newspapers they owned and published. Three huge metropolitan newspapers, as this is written, seem orphaned by the death of these men. Of course, each newspaper institution is greater than any man. Each shall respond to new control and proceed, we dare say to new heights of power and usefulness.

Our pages this week are filled with tributes and comments of those well fitted to estimate the qualities of Frank Munsey's philosophy and achievements. The story of his intense 40-year battle in the publishing field, rising to vast wealth from poverty, is an epic success narrative, stranger than fiction, typically American, in its way as amazing as the Woolworth Building, Roosevelt Dam, Florida, an automobile for every other family, the air mail, radio and all of the startling and wholly impossible dreams that come true almost every day in this wonderland. The farm boy, small town telegraph operator, penny-a-line fiction writer, realized his vision of nation-wide fame and influence as a publisher. The youth who wrote his own magazine stories by candle-light and sleeplessly carried on the business of his small publishing house day by day touched his ambition. At 71, Frank Munsey, surrounded by his business associates and a single distant relative, laid down his burden—wealth so great that few rational men could envy it.

Munsey was a paradox. No one can conscientiously describe his career as either good or bad. It is vain to attempt a general characterization of one with so many sides. We have seen him in a hundred attitudes. We have scowled and applauded. We have witnessed his gentle moods, a kindly old man, bending his gaunt frame in courtesy, smiling from the corner of an eye unpracticed in the art. Again we have seen him cold, austere, imperious, fixed on an inflexible course. He could laugh, but rarely did so. He could tell a story, but few passed his lips. The same hand that would sketch a landscape on a sheet of stationery while idling, could write a check for millions to acquire a successful newspaper that provided livelihood for hundreds and had earned the love and faith of hundreds of thousands of citizens through generations, and in a few weeks cause it to lose its identity as if swallowed by the earth. He who so lavishly donated to build the Cathedral of St. John the Divine, did not hesitate to shatter a newspaper edifice that good men had striven to erect through a century. Munsey did not consolidate newspapers to rid the field of a cripple—that was not his economic science, and the fact should not be lost in discussions of his achievements. Sometimes Munsey wrote for the public in the terms of high idealism on public questions, but he has been heard addressing a gathering of manufacturers with a doctrine which is utterly ruthless of human rights when in conflict with the rights of property.

Indeed, Munsey was a great paradox and the controversy in the craft concerning his works shall continue while his name is remembered.

For our part, we believe that Mr. Munsey was in love with a philosophy. It is the most popular philosophy of this day. High and low, rich and poor, good and bad, in vast numbers, subscribe to it with varying qualifications. It measures success by accumulated dollars. On every hand there are hundreds of proofs that it is the correct principle by which to live, the strongest of these evidences being that no crime is so bitterly punished in America as is poverty. It is the biological doctrine of survival of the fittest, twisted to the form of the dollar mark, trampling down every rival precept however tender. Munsey said years ago that his object was to gain a fortune. It was not his only objective, but it ruled his life.

Had this man practiced his astonishing skill exclusively in commercial fields he would, as he once said, have made many dollars for every dollar he earned as a publisher. He was an astute trader. His vision as a financier and business executive was everywhere admired. He was a giant builder. His courage knew no bounds. He was a great advertiser, demonstrated when he risked all to give publicity to a magazine. He won, but he could gamely take a loss. He was deeply conscious of his class and of materialism. He believed in the power of money to buy the way to almost any threshold. In all this Frank Munsey was conscientious. In his dealings he was square, meticulously honest, according to the standards of modern business. His word was his bond. But in a factory he would see wheels, not the hands of men.

Because the newspaper profession is founded upon sentiment and idealism that are as close to humanity as hands and feet, Frank Munsey, in the largest sense, was a newspaper misfit. However true his philosophy, however scientific his economy, however the future may verify his commercial policy as applied to newspapers, the truth is that this generation of newspaper men have largely dissented from his view and regarded his major works with disfavor. This statement is none the less true by reason of its unpleasantness. Many men believe that the newspaper profession is not a "rich man's game," never has been, never will be. Applied editorial intelligence, righteous civic consciousness, able business principles are still the prime ingredients of a successful newspaper. The profession outranks the business.

Frank Munsey, great as a commercialist, not great as editor or publisher, is our view. As a man, at the noon-day meal at the Hardware Club in lower Broadway, calm, often kindly disposed, seriously discussing his affairs with loyal business associates, we shall miss him. In the large sense, we believe, his professional influence is lost at the grave.

When they saw the star, they rejoiced with exceeding great joy.

—St. Matthew, 3, 10

Must have been rather confusing for the people of a Southern city to read in two rival morning and evening newspapers headlines over a speech on advertising by a local celebrity: M. P. "Morning Papers Most Valuable Retail Medium"; E. P. "Says Afternoon Paper Best Media."

PASSING OF "XMAS"

THAT ugly profanation of the most brilliant word in the English language, which substitutes for the name of Christ an X, very largely disappeared from the press of the nation during the current holiday season. If "Xmas" has been killed for all time, there will be special cause for rejoicing this week. For a generation it has been an offense in the eyes of all men who are sensitive to the significance of the word and the occasion it defines.

We have seen "Xmas" used less often both in editorial text and advertising matter this year than during a lifetime. This must be a direct answer to the stirring appeals that have been made during the past five years, and we devoutly hope that we are right in concluding that the criticism has yielded a general reform. Duty is stern and the days are fleeting, but the American people still have time to spell out the name of the natal day of Jesus Christ.

Motion Picture Theatre Owners' Association challenges the "Red" Grange $300,000 certified check movie contract; film firm employing Grange is silent when show-down is called for; but every newspaper took the publicity hand-out, apparently without question.

DEFINING "GOOD REPORTER"

WHAT is a good reporter?

Kent Cooper, General Manager of the Associated Press, recently gave this definition:

"I believe that a competent reporter is one who has the ability immediately to perceive the multitudinous interesting things of life, and whose urge and ability is to picture to others, by adequate and competent expression, those same interesting things.

"His particular ability should not consist of the urge to create the interesting novel situations which he reports, but to sense them instantly as they occur in real life. One field is that of the dramatic or novelist; the other the field of the journalist. When he who aspires to remain true to journalistic standards adopts the imagination of the other field in the journalistic work, he not only discredits himself, but he discredits his profession. He harms those who know the line and hew to it.

"Of all the requisites for a good reporter, I put first a mental urgency, an intense, compelling force from within that brings contentment while on the job, and fretfulness when not.

"I repeat this word 'urgency' frequently. To me, 'mental urgency' is the very essence of the power that brings achievement. And what business in all the world needs the use of 'mental urgency" in all the elements of its task more than journalism needs it."

Mental urgency describes a temperament, and if it is the first qualification of a good reporter the old belief that "reporters are born, not made," is confirmed. Mr. Cooper naturally spoke of ideal reporters of the type engaged in press association work, rather than ideal local newspaper reporters. The former he did very well describe. The latter practice a technique which, in the opinion of many newspaper men, is broader than press service operation.

At a meeting of the staff of the *Daily Oklahoman*, at Oklahoma City, the other day the editors, copy-readers and reporters wrote a definition of what a good reporter is, using Mr. Cooper's definition as a basis. Here is the result:

1. He must know *how* to write; so well, at times, that he can tell a 1,000 word story in 250 words and leave out no essential points.
2. He must be accurate; stick to the facts; never stretch facts.
3. He must have a sense of news values; a nose for news.
4. He must have ability to sift essentials from non-essentials; put the best part of the story at the top.
5. He must know his city and state; have a good working knowledge of the geography, the history, the politics, the industry, the agriculture, the people and the peculiarities of the field his paper serves.
6. He must have initiative which enables him to smell; brains which enable him to tell; tenacity which spurs him on to keep smelling and telling.
7. He must be polite and courteous, yet firm and business-like in dealing with news sources.
8. He must be in love with his job; so much so that he will work a long day every day, if necessary, to do the job right.
9. He must have a sense of humor, not over-developed.
10. He must be fair and unprejudiced.

EDITOR & PUBLISHER submits these two interesting views to its readers with the suggestion that they may serve the staffs of many other newspapers as a topic for profitable discussion. When news men are talking in these terms they are at the heart of their business. If you can improve on the Cooper and Oklahoman definitions please pass your articles of qualification along to other members of the craft through the columns of EDITOR & PUBLISHER.

W. E. Willits is a new man on the copy desk at the *Chicago Daily News.*

Eleanor Gunn and Maude Moody, of the fashion department of *Women's Wear,* New York, will cover Palm Beach this winter.

William E. Dahlquist, assistant editor, *Montevideo* (Minn.) *News,* has become editor of the *Thief River Falls* (Minn.) *Tribune* and has bought an interest in the latter paper. Both papers are owned by Ludwig I. Roe of Montevideo.

Gentry Dugat, editor of the *Lufkin* (Tex.) *Daily News* for two and a half years, has joined the *Edinburg* (Tex.) *Review* as editor and assistant manager.

Wilbur White has been named managing editor of the *Toledo Times* in place of Charles W. Howard, who resigned.

Perry Freeman has joined the *Toledo Blade* copy desk. He formerly was rewrite man.

Frank D. Hunt, the *Toledo Blade's* Columbus correspondent, is spending a few weeks in the Toledo office.

Chauncey H. Derby, managing editor of the *Staten Island Advance,* was the principal speaker at the last weekly luncheon of the Staten Island Kiwanis Club. Mr. Derby spoke upon the making of the modern newspaper.

Lester R. Ruth, for 12 years sports editor of the *Alliance* (O.) *Review-Leader,* has resigned to move to Miami, Fla. He has been succeeded by John R. Hanlon, assistant sports editor.

Reid Homerick of Lexington, O., has joined the reportorial staff of the *Alliance* (O.) *Review-Leader.*

Charles G. Laird, news editor of the University of Iowa, has resigned to join the *Des Moines* (Ia.) *Register and Tribune.*

Edwin C. Torrey, for many years Northwest editor of the *Minneapolis Journal* and now assistant editor of publications, University Farm, St. Paul, has published a book of historical character entitled "Early Days in Dakota."

Miss Emily Houston is now society editor, *Eveleth* (Minn.) *News,* succeeding Miss Marjorie Smith, who has gone to Mount Dora, Fla.

Arthur E. Davis, sports editor of *The Lantern,* Ohio State University daily, Columbus, has joined the *Bloomington* (Ind.) *Daily Bulletin* as telegraph editor.

Howard S. Smith, formerly with the United Press, New York staff, has joined the *Waterbury* (Conn.) *Republican.*

Daniel E. Dean, of the city staff, *Staten Island Advance,* will take charge of the city desk Jan. 1, filling a vacancy caused by the resignation of Lewis Gale.

Dwight B. Jones, formerly with the editorial staff, *Devils Lake* (N. D.) *Daily Journal,* and later with papers at Aberdeen, S. D., Duluth and Minneapolis, has become managing editor of the *Miami* (Fla.) *Life.*

Miss Louise Aaron has succeeded Miss Marion Carter Snow as society editor of the *Richmond* (Va.) *Times-Dispatch.*

Mike Elkins, formerly of the *New York Mirror* staff of photographers and at one time with Underwood & Underwood, has been added to the staff of the *Richmond* (Va.) *Times-Dispatch.*

HOLDING NEW POSTS

RALPH HULL, from *Columbus Ohio State Journal,* to copy desk, *Columbus Dispatch.*

WITH THE SPECIALS

ROY BARNHILL, INC., publishers representatives, moved Dec. 26, to the new building at 183 Madison avenue. They were formerly located at 23 East 26th street.

Chas. H. Eddy Company, New York has been named Eastern representative of the *Bloomington* (Ill.) *Daily Pantagraph,* effective, Jan. 1.

FOLKS WORTH KNOWING

ONE of the successes in the Western newspaper field is credited to Bryan E. Woolston, manager of the *Butte* (Mont.) *Miner.*

BYRON E. WOOLSTON

Mr. Woolston started as advertising manager of the Miner 10 years ago. He was so successful in that position that he was promoted to the position of business manager, and was just recently made manager of the Butte Miner Corporation.

Mr. Woolston is considered to have excellent judgment in all matters pertaining to the newspaper industry. He has the ability to organize and possesses the faculty of choosing department heads who are successful. He is not only a front office executive, but is thoroughly familiar with the practical and mechanical ends of the business.

Mr. Woolston started in the business in Chicago on the old *Inter-Ocean,* directly after leaving college. He afterward held managerial positions in the Middle West and on the Pacific Coast.

MARRIED

GEORGE JOHNSON, business manager of the *Little Falls* (Minn.) *Daily Transcript,* to Miss Rose LaFond, daughter of Edward LaFond, editor of the Transcript, recently.

C. Elwood Milles, editor of the *Montevideo* (Minn.) *American,* to Miss Mary Brainerd of Detroit, Minn., recently.

Joseph F. Melia, advertising manager, *Buffalo Evening News,* to Miss Mary Agnes Doherty, also of Buffalo. They are home after a honeymoon in Bermuda.

SPECIAL EDITIONS

OSHAWA (Ont.) DAILY REFORMER, Christmas Shopping edition, Dec. 9.

Pipestone (Minn.) *Leader,* 44-page Christmas edition, Dec. 10.

St. Petersburg (Fla.) *Financial Journal,* special edition in connection with annual meeting of Investment Bankers Association, Dec. 11.

CHANGES OF OWNERSHIP

E. D. LUM & SONS of Staples, Minn., have bought the *Valley City* (N. D.) *Daily Times-Record* of P. R. Trubshaw.

J. L. Anderson, editor and publisher of the *Lingle,* (Wyo.) *Goshen County Journal* for the past several years, sold his paper and equipment recently to Joe Schnyder.

Jack Stapleton, owner of the *Stanberry* (Mo.) *Owl-Headlight,* has purchased the *Staberry Herald* and will consolidate the two papers as the *Herald-Headlight.*

W. F. Duffy, who for several has been editor and manager of the *Shakopee* (Minn.) *Argus,* has bought that paper of William Hinds of Washington.

C. B. MacDonald, for 16 years owner and editor of the *Caldwell* (Kan.) *News* has sold the paper to Henry P. Quinn, Manhattan. Mr. Quinn, recently has been advertising manager of the *Caldwell Daily Messenger.*

NEW PLANTS AND EQUIPMENT

ASHVILLE (N. C.) TIMES recently installed a new model 14 linotype and is now building an addition on the composing room to accommodate the installation of further new equipment.

Recent Ludlow installations have been made by the *Kalamazoo* (Mich.) *Gazette, Tulare* (Cal.) *Daily Advance, Sharon* (Pa.) *News Telegraph, Oregon City* (Ore.) *Enterprise, Knoxville* (Tenn.) *News,* and *Hollywood* (Fla.) *News.*

Workmen are now engaged in razing the old building of the *Scranton* (Pa.) *Times* so that the work of erecting the balance of the new Times plant can be started. It is hoped to have the old building out of the way by Jan. 1.

Trades Publishing company, publisher of the *Freeborn County Standard* and the *Community Magazine* of Albert Lea, Minn., has installed a 44-inch Chandler & Price power paper cutter.

Madison (Minn.) *Independent Press* has added a 12x18 Chandler & Price Craftsman job press.

Harvey (N. D.) *Herald* has increased its equipment with a perfecter and an Eclipse folding machine.

St. James (Minn.) *Plaindealer* has bought a folding machine.

Clear Lake (S. D.) *Deuel County Advocate* has put in a two-revolution cylinder press and a Model X 2-magazine Intertype.

Shipments made by R. Hoe & Co., Inc., last week included one 8-page addition to the Simplex Press of the *Passaic Daily News;* one Sextuple Press for *El Commercio* of Lima, Peru; two additions to the Universal-Unit Multi-Color Press of the *New York World* and a New Heavy-Pattern Unit-type Octuple to the *Miami,* (Fla.) *Herald.*

For 1926—

THE merit of any product or any newspaper feature service does not vary in direct proportion to its age, but with new services continually appearing, no service—new or old—makes its way and holds its place by accident.

The *Central Press Association* is in its 16th year, a pioneer in its field. *Central Press* is not now and never has been the by-product of any newspaper or chain of papers.

Starting with nine clients, *Central Press* has continued to grow and expand, until it now serves more than 500 newspapers, a record achieved by the unusual and sustained merit of its product.

Central Press will continue to attract new clients not only because of the quality of its service but also because increased production expenses has been offset by a steady increase in the number of *Central Press* clients; with the result that the base rates for the service never have been increased, despite constant additions and improvements.

Central Press enters the New Year with its staff and features INTACT. New services will continue to come—and go. Meanwhile *Central Press* will go on, not promising, but performing.

The Central Press Association

V. V. McNITT, President — Central News Bldg., Cleveland — H. A. McNITT, Manager

P. S. We Produce the World's Best Picture Page.

ASSOCIATIONS

CHARLES W. BALDWIN, for years a local newspaper man and now head of a Binghamton advertising agency, has been elected president of the **Binghamton (N. Y.) Advertising Club** to succeed Herbert E. Woodward.

Annual meeting of the **Missouri Republican Editorial Association** will be held in Springfield, Mo., Feb. 11.

Select List of Ohio Daily Newspapers will hold its annual meeting in Columbus, Feb. 1.

Six Point League, New York, will begin holding regular monthly meetings starting in January, M. P. Linn, president, announced this week. The first will probably be held the week of the automobile show.

CHAPEL HILL INSTITUTE PROGRAM READY

University of North Carolina and State Press Group Join in Arranging Three-Day Discussional Meet

A tentative program for the newspaper institute to be held at Chapel Hill, N. C., Jan. 13 to 15, under the joint auspices of the North Carolina Press Association and the state university, has been arranged at a conference between J. W. Atkins, of Gastonia, president, and Miss Beatrice Cobb, secretary of the North Carolina Press Association, and the university committee.

The institute will open Wednesday evening, Jan. 13, and close Friday afternoon. Dr. H. W. Chase, president of the University will be a speaker at the first session.

The Thursday morning sesson will be featured by the address of Robert Latham, editor of the *Charleston* (S. C.) *News and Courier,* on editorial policies; Robert W. Wottach, of the university school of law, on important laws and statutes affecting the newspapers; Paul Patterson, president of the *Baltimore Sun,* on the practical problems of making a newspaper; Robert W. Madry, director of the University News Bureau, on the problem of college correspondence; Ole Buck, field manager of the Nebraska Press Association, on the newspaper as a public utility.

There will be a banquet at the Carolina Inn that night, with addresses by two prominent speakers to be announced later.

Friday morning the institute will be divided into separate sections for the weekly and daily editors. The weekly group will be addressed by M. V. Atwood, managing editor of the *Utica* (N. Y.) *Observer-Dispatch,* who was formerly on the staff of the department of journalism of Cornell University. He will speak on "The Country Weekly and the Community." At another session he will address the institute on the practice of newspaper making. Prof. E. E. Peacock, of the University School of Commerce, will discuss a practical accounting system for weeklies.

The daily group will be addressed by M. V. Atwood, who will discuss a survey he is to make of North Carolina newspapers, and Gerald W. Johnson, head of the University's department of Journalism, who will talk on editorial problems. There will follow an open discussion on the problems of circulation.

The first speaker Friday afternoon will be Nelson Antrim Crawford, director of information in the United States Department of Agriculture, Washington, on "The Press and the Public: An Ethical Problem." Mr. Crawford has written a widely read book on newspaper ethics. James O'Shaughnessy, executive secretary of the American Association of Advertising Agencies, will also address the institute Friday afternoon.

Time will be allowed at each session for general discussion.

We wish some statistical wonder would compute the appalling loss occasioned by the breaking of cigars in one's pocket. —*J. R. Wolf in Milwaukee Journal.*

STREET LITERARY MARKET OPENED IN TOKIO

Hack writers in Japan are out to circumvent the rejection slip. They recently opened a street market in Tokio to sell their manuscripts direct to the consumer through the aid of poster advertising. The picture shows this novel market in operation.

BRITISH BILL PROHIBITS PHOTOS IN COURT

Cameramen and Sketchers Add to "Terrors of Courts" Backers of Measure Say—Called Abuse of Press Rights

LONDON, Dec. 7.—Because photographing and sketching in courts of law "interfere with the administration of justice, add to the terrors of the Law Courts, and are a monstrous abuse of the rights of the press," a measure now before the House of Commons aims to make it a criminal offence to take photographs or make sketches in a Court of law or Coroner's Court.

There is little doubt that the bill will become law, and many wielders of the press camera are considerably disturbed at the prospect. It makes the offender liable on summary conviction to a penalty not exceeding £50.

Judges already have powers to prevent sketching or photographing in Court, but this clause in the Criminal Justice Bill will give them wider power. It makes publishing such photographs or sketches an offence as well as making them, although there is nothing to stop a newspaper obtaining and using photographs of prisoners, counsel, or judges before they arrive in Court. The ban is also laid on the "precincts" of the Court, so that it appears that the highway immediately in front of the Court will also be forbidden ground to the press photographer.

Harassed sub-editors are already wondering where the precincts of a court begin and end, as the bill does not define them more exactly.

The Home Secretary said in the House of Commons that the press has agreed to the clause.

Piquant speeches have been made in the House by supporters and opposers of the measure. One member said that those who come before the public in a court of law must be prepared to have their portraits published as well as accounts of their careers, and he protested against the growing habit of trying to censor the press by grandmotherly legislation.

Another speaker said although it might be an offence against public taste to reproduce the features of some judges, it should not be made a criminal offence.

Sir W. Joynson Hicks, Home Secretary, has been satisfied by consultations with Judges that the practice interferes with the administration of Justice, and says that the prevention of camera-using in Court is in the best interests of the administration of justice and in the interest of the well-being of the people as a whole.

FLASHES

The way they get in and out of Cabinets, you'd think the French politicians learned their statesmanship from Houdini —*New York American.*

Frank Jarrell of Topeka reports to the *Journal* that his son Sanford, who went to Florida two weeks ago to write advertising matter, has been elected secretary of the Old Settlers' association in Miami —*Kansas City Star.*

The really hard thing is to be able to say whether it is opportunity at the door or another demonstrator.—*Detroit News.*

The rumor will not down that the Lucy Stone League is trying to have the thing changed to "So's Your Old Woman!"—*F. P. A. in Conning Tower, New York World.*

Sometimes you see a girl just naturally walking around looking as if she was standing under some mistletoe.—*Columbia Record.*

Few efficiency experts ever become so "efficient" that they have to ask the boss to drop them from the payroll.—*New York American.*

The very latest thing needed is a transparent leather, so that ladies can wear Russian boots and still expose a good deal of leg.—*London Punch.*

THE PROBLEM OF THE PRESS

as to Church Advertising—

"When the churches of the country realize that church advertising is the 20th Century form of preaching their gospel, they will all advertise. That is the problem of the American press—*to bring that realization.*"

This statement comes from a newspaper man who is developing church advertising in his columns.

Take advantage of the Christmas Season —a big one in the churches—and get the news. We will help you start a church page with plans and copy.

The World — NEW YORK — The Evening World

"The Most Notable Example of American Journalism Ever Created on This Continent"

A Tribute to THE NEW YORK WORLD
By THOMAS PENDELL

Publisher of the "Orange County Record," Washingtonville, N. Y.; "Storm King Sentinel," Cornwall, N. Y.; "Lake Region Reporter," Monroe, N. Y.; "Enterprise," Maybrook, N. Y.; "Star," Highland Mills, N. Y.; "Post," Central Valley, N. Y.; "Journal," Florida, N. Y., and "Press," Chester, N. Y.

"GOD bless The New York World! It is to-day the greatest institution on the American continent. As a conserver, supporter and champion of American liberty it is in a class by itself. There are other good newspapers—but The World is bolder in its attacks upon hypocrisy, fairer in its statements of fact, more independent of all classes, parties, corporations and individuals, and more everlastingly honest and American than any newspaper in the U. S. A. Every issue glorifies the name and memory of Joseph Pulitzer, one of the greatest Jews and best American citizens who ever lived, for he dedicated it solemnly to the public service, and his sons are magnificently carrying out his wishes. The spirit of Joseph Pulitzer still directs its policy.

"These remarks are prompted by reading in a recent issue of the giving away by The World to bed-ridden invalids of a thousand radio sets. How wonderful! God bless The New York World!

"Daily perusal of its columns comprises a liberal education. The diversity of its service is the wonder of present-day newspaperdom. Thousands of little fellows trying to publish newspapers in the back country draw inspiration and encouragement from its columns and many of them are thus bolstered in the belief that the newspaper profession is worth while. The good that The World diffuses daily in ten thousand ways upon American life cannot be calculated. As long as Americans splendidly support newspapers like The New York World the Union will remain safe and the flag unconquerable. Joseph Pulitzer's name will go down through the ages as the greatest publisher of his time or any other time.

"Joseph Pulitzer took over The World by going in debt up to his ears. He had the most supreme confidence in the American people ever displayed by any man outside of Lincoln. He believed way down deep that if he served the American people conscientiously as editor and publisher they would support him. He based his business and journalistic policy solely upon that belief. He imbued his employees with that belief, and New York City never had a big business man who was a more successful and enthusiastic leader. He staked his all on the honesty and virtue and civic righteousness of the American people. Thank God that trust was not misplaced. He succeeded. And on that foundation and in the pursuit of that policy The World has become the leader of the journalism of the Nation.

"Millions of pairs of eyes have communicated to the souls behind them inspiration, encouragement and high resolve as a result of reading the editorial page of The New York World. This beacon light of clean living, social and political progress and moral rectitude has spurred statesmen to high ideals and renewed faith in humanity; it has encouraged and inspired the poor mother with an infant at her breast; during the World War it sent thousands of young men to volunteer for the defense of the Nation; it has been a terror and danger to many men bent upon using the public weal for private gain; it has purified and uplifted public and private life; its influence for all that is good and pure and noble has been felt all over the world.

"A man in the pulpit or on the platform may reach a few thousands. The New York World is read each day by millions of people. The makers of the newspaper cannot conceive how great is its influence and effect upon men, women and children. The services rendered by Roosevelt, Wilson, Hughes, Cleveland, Blaine and Harding to the generation which witnessed their activities are as nothing compared to those rendered by Joseph Pulitzer and the newspaper he founded, in the doing of which he was guided by the principles of pure manhood and unselfish patriotism.

"This Nation, the biggest and grandest in the universe, cannot exist without a free press. Deprived of untrammeled, fearless and outspoken newspapers it would crumble. From the standpoint of the American citizen the most important thing in life is a free press. Joseph Pulitzer made The New York World the most notable example of American journalism ever created on this continent, and it still remains so. His personality, his life work and the newspaper he made are entwined in the flag that floats over the land of the free. His policy harmonizes perfectly with the Declaration of Independence and the American Constitution. The people of this Nation should at every opportunity acknowledge to the race that gave him birth a solemn debt of gratitude and thankfulness."

The World

PULITZER BUILDING, NEW YORK · TRIBUNE TOWER, CHICAGO

R. S. Hulbert, Winsted Editor, Dies

Robert Samuel Hulbert, 71, treasurer of the Citizen Printing Company and managing editor of the *Winsted* (Conn.) *Evening Citizen*, the *Litchfield County Leader* and the *Winsted Herald*, died at his home in Winsted, Dec. 20. Mr. Hulbert was a graduate of Sheffield Scientific School, Yale University, class of 1878. He had engaged in newspaper work at various times, but spent most of his life until 1920 in the practice of his profession, civil engineering. He was a division engineer of the Connecticut State Highway Department for about thirteen year, resigning in 1920 to take over the management of the Citizen Printing Company which he had been instrumental in reorganizing. He is survived by his widow, a sister, and a son, T. A. Hulbert, advertising manager of the Citizen.

Veteran Circulator Dies

James B. Cox, 45, for more than 20 years a member of the International Circulation Managers' Association, died Dec. 11, in Los Angeles. For many years he worked on the *St. Paul Dispatch*. Later he served on the *Houston Chronicle, Denver Post*, and *Calgary Herald*. He was country circulation manager of the *Baltimore American* in recent years and upon moving to California did special work for *Los Angeles Herald*.

Obituary

FRED T. HARRIS, 53, former telegraph editor of the *Rochester*, (N. Y.) *Herald*, and more recently director of publicity for the Rochester Community chest, died recently following a stroke of apoplexy.

H. P. CROUSE, 63, formerly with the *Findlay* (O.) *Republican* and *Toledo Times*, and widely known as a newspaper publisher and writer, died at his home in Cincinnati a few days ago.

MRS. HENRY G. MEYER, 60, who with her husband was formerly editor and publisher of the *Benson* (Minn) *Swift County Monitor*, and of the *Litchfield* (Minn.) *News Ledger*, died in Minneapolis, Dec. 11.

MRS. MATTIE MILLIS, 64, who died in Houston recently, was the mother of H. Lee Millis, editorial writer for the *Houston Post-Dispatch*, and of Eugene R. Millis of the *Houston Chronicle* editorial department.

FRANK R. OYSTER, 57, formerly business manager of the *Harrisburg* (Pa.) *Telegraph* died at Asheville, N. C., Dec. 18, after a long illness. Interment was made at Ridgway, Pa.

DAVID C. MCCUTCHEON, former Pittsburgh newspaper man died suddenly in that city on Dec. 20. He began his business career in the advertising department of the old *Pittsburgh Dispatch*. For several years he was manager of the *Bulletin* and later the *Index*, from which he retired to take up his own business, the Mercantile Publishing Company.

E. T. YEOMAN, 78, civil war veteran and founder of the *Chase County Banner*, died at his home in Strong City, Kan., recently.

JOHN P. HARRINGTON, printer, *Elmira* (N. Y.) *Star-Gazette*, died Dec. 15, after a long illness.

E. M. CRARY, 57, who published newspapers in North Dakota at Devils Lake and Edmore and was state printer, died at Devils Lake, Dec. 11.

J. S. SHEPHERD, 91, for many years editor of the *Mount Ayr* (Iowa) *Journal*, died recently. He was the oldest printer in the state.

MALLERY R. JACKSON, 80, for 38 years owner and editor of the *Tipton* (Iowa) *Conservative*, died recently.

C. A. SCAGGS, 56, one of the early publishers of the *West Side* (Ia.) *Journal*, died at Shattuck, Okla., recently.

FREDERICK MACKEY, the first manager of the *Virginia* (Minn.) *Enterprise* and later with the *Superior* (Wis.) *Daily Telegram*, died at New Kensington, Pa., recently, the result of an automobile accident.

S. B. EIDSMOE, editor of the *Walsh County Farmers' Press*, died at Grafton, N. D., recently.

HERBERT R. GIBBS, for 52 years employed by Houghton, Mifflin Company, Boston, in its editorial department, and at one time editor of the *Atlantic Monthly* died Dec. 6, at his home in Newtonville, Mass.

HENRY GIBSON, 52, of the circulation department, *San Francisco Examiner* died after a two-months' illness. He was born in New Jersey.

S. D. TAYLOR, for several years editor and publisher of the *Strawn* (Tex.) *Tribune*, died recently at a Fort Worth sanitarium.

LUTH JAEGER, 74, editor of the *Budstikken* of Minneapolis, the first Norwegian newspaper in the Northwest, died in Minneapolis Dec. 6.

MRS. JUSTIN SMITH, 82, mother of Henry Justin Smith, former news editor of the *Chicago Daily News*, and now associated with the University of Chicago, died recently at Chicago.

SAM SNYDER, 20, assistant sporting editor of the *San Diego* (Cal.) *Sun*, died recently.

ELMER WILBUR BURROWS, 52, publisher of the *Fort Bragg* (Cal.) *Daily News*, and for over 32 years identified with the newspaper industry of California, Oregon, and Washington, died Dec. 9 at a Santa Barbara hospital following a short illness.

HARRY D. CONOVER, librarian of the *Trenton Times*, died Dec. 4. He had been connected with newspapers in Trenton for the past 20 years.

LEWIS H. MINER, 65, former managing editor of the *Illinois State Journal*, Springfield, died at his home, Dec. 18.

ROBERT E. WOOD, advertising manager of the *Whiting* (Ind.) *Star*, died at the South Shore hospital, Chicago, Dec. 19.

Penn Yan Papers to Merge

Consolidation of the *Penn Yan* (N. Y.) *Chronicle and Democrat* with the *Penn Yan Express* will take place in the near future. A new corporation, the Penn Yan Printing Company, has been formed with $100,000 capital to effect the consolidation, plans for which are incomplete. Oliver G. Townsend, DeWitt C. Ayres and Sidney Ayres are directors of the new firm.

Fined $110 for Attacking Reporter

For attacking Ray Humphreys, *Denver Post* reporter, T. F. Cole, a former special officer for a private detective agency, was fined $110 by a Denver Judge recently. Humphreys was working on a murder story when assaulted by Cole.

News Man Entertains Ford

Boston newspaper men were not at all surprised to learn that Frank P. Sibley, of the *Boston Globe*, took a turn at entertaining Henry Ford at Detroit the other day. Sibley went along with Mellie Dunham, the Norway, Me., fiddler to Detroit, and while there someone told Mr. Ford that "Sib" could entertain with folklore songs and tales. So the Globe man had to perform as he used to for the Newspaper Club in Boston, and overseas as correspondent with the 26th Division from New England.

WEEK'S AD TIPS

WHAT'S WHAT IN THE FEATURE FIELD

Introducing Two New Syndicate Men—O'Donnell Writing New York Letter—Ford Explains Old-Fashioned Dance Steps—Cochran Joins NEA

TWO comparative newcomers in the syndicate field are Maj. Malcolm Wheeler-Nicholson, president, and N. Brewster Morse, editorial director of Wheeler-Nicholson, Inc., New York feature service.

MAJ. WHEELER-NICHOLSON

A "fortuitous combination of circumstances," Maj. Wheeler-Nicholson says, lead him to enter the syndicate business. Back in 1906, he was a reporter on the *Portland* (Ore.) *Evening Telegram*. Then he entered St. John's Military Academy, Manlius, N. Y. Following graduation, he enlisted in the United States army, serving on the Mexican border and commanding a battalion of infantry in Siberia during the World War. After leaving the army in 1923 he tried farming, but left this occupation to join the staff of Famous Features Syndicate, New York. Seven months ago he started his own syndicate with offices in New York.

N. B. MORSE

Mr. Morse, who in addition to being editorial director of the syndicate, is creator of the picturization of Robert Louis Stevenson's "Treasure Island," was formerly a moving picture scenario writer. He wrote both the story and the continuity of "His Brother's Keeper" and "The Crimson Cross." He also contributes to *Life*, *Judge* and *Town Topics*.

NEA Service, Inc., has just furnished its clients with a series of old time dance lessons through the courtesy of Mr. Henry Ford, Detroit automobile manufacturer. Mr. Ford gave NEA considerable time in explaining his views on old fashioned dances and his hope to see them revived for the present younger generation.

Robert Burns, Cleveland dancing teacher and Mrs. Burns posed for a series of 12 photographs showing various steps to illustrate the dance story.

Jack O'Donnell is now writing "East Side, West Side," the daily New York letter distributed by the George Matthew Adams Service, New York.

Frank M. Cochran, formerly of the *Toledo News-Bee* and *Toledo Blade* has joined the editorial staff of NEA Service Inc., Cleveland office. Cochran, a brother of Hal Cochran of "Hal Cochran's Poem" fame and a son of Negley D. Cochran of the Scripps-Howard editorial board, is editor of NEA Servicepaper, NEA's client newspaper.

The Bell Syndicate, Inc., New York, has obtained the second serial rights to "The Great Gatsby," novel by F. Scott Fitsgerald.

Robert Quillen, famous humorist and paragrapher for the Associated Editors, Inc., Chicago, has horrified the natives of Greenville, S. C., by erecting a monument in his front yard to Eve, the first woman. Beneath the inscription, "In Memory of Eve, the First Woman, is carved an apple, with a twig and one leaf.

Answering criticisms, Mr. Quillen said: "Eve was a distant relative of mine, on my mother's side. The family has always been proud of her. She was the first lady of the land and the reigning beauty of her time."

William M. Braucher formerly on the *Cleveland Plain Dealer* as copy reader and sports writer has joined the editorial staff of NEA Service, Inc., Cleveland office.

Miss Alice M. Robertson, who represented an Oklahoma district in the 67th Congress and was defeated for re-election, has become Washington correspondent for the Muskogee News. She plans to syndicate her articles later.

ADVERTISING AGENCY AFFAIRS

Two St. Louis Companies Combine—Hoyt Announces Staff Changes—Segar Opens Pacific Coast Office—Mullally Visits in New York Olmstead Moves to Boston

THE Chappelow Advertising Company, St. Louis, has absorbed the general advertising agency business of the Adamars Company, of the same city. The direct mail advertising activities of the Adamars Company will be continued, and the organization has moved to new enlarged quarters at 21 South Ninth street, St. Louis.

Elmer Marschuetz, remains president of the Adamars Company, and also becomes a vice-president of the Chappelow Company. Allen F. Bishop, formerly vice-president of the Mangan Printing Company and more recently of A. F. Bishop and Associates, direct advertising agency, becomes vice-president and general manager of the Adamars Company.

Charles W. Hoyt Company, Inc., New York, announces the appointment of Winthrop C. Hoyt as account executive in the New York office. Other staff changes made public this week include: Louis H. Clarey, new account executive; C. B. Donovan, space buyer; and Arthur H. Patterson, who has joined the organization in the New York office in charge of plan building.

After being graduated from Yale, W. C. Hoyt spent two years in magazine work. He was connected with *Harper's Bazaar* and the *American Agriculturist*. During the past year he has been with W. S. Crawford, Ltd., London, England. Mr. Clarey was with Street & Finney for several years, and for three years with the advertising department of the *American Magazine*. Mr. Donovan has been associated with the Hoyt agency for several years, and before his promotion to space buyer was in charge of the trade promotion department. Mr. Patterson, after leaving Hoyt, was in the interim connected with Street & Finney and more recently with the Chambers Agency.

F. Dwight Conner, who has been manager of the business extension department of the Illinois Merchants Trust Company, Chicago, for the past six and one-half years has resigned to become president of Bills-Conner Incorporated, Bank Counsel Service, of Chicago, effective Jan. 2.

Mr. Conner has been engaged in financial activities for 20 years, being for 13 years prior to coming to Chicago with the Guardian Trust Company, of Cleveland. He is a past president of the Financial Advertisers Association of America, and is now serving on prominent committees of the Trust and Savings Division of the American Bankers Association.

Roscoe W. Segar, advertising agent of Rockford, Ill., is opening a Pacific Coast at 312 Platt Building, Portland, Ore.

Cecil Bennett has joined Olson and Enzinger, Inc., agency at 228 Third street, Milwaukee. Mr. Bennett was formerly with the Koch Company, agency of Milwaukee.

Normand Olmstead, formerly with the Morse International Agency of New York and the Mantèrnach Company, of Hartford, has joined the O'Malley Advertising & Selling Company, Boston, as account executive.

Patrick Mullally, manager of the Chicago office of Nelson, Chesman & Co., general advertising agency, has been in New York for the past few days.

Virginia Daily 142 Years Old

The *Alexandria* (Va.) *Gazette* on Jan. 1, will celebrate its 142nd anniversary.

Among the things there is room for at the top is improvement.—*Bethlehem Globe.*

WHY GO TO PARIS?

When Gotham Is Here, Says Park Row Man Who Went

Ralph P. Taylor, 12 years a reporter on Park Row, is back on the *New York World* staff, wondering why he ever left that newspaper to try his luck in Paris.

Taylor resigned from the World Oct. 1, his mind fully made up to live henceforth in France. He was given a farewell party, and with his wife, a former Belgian nurse, who nursed him when wounded in the war, set sail across the sea.

"Why? I wonder now," he said this week. "Everywhere I went, I was told the same story. Newspaper correspondents are longing for home.

"The weather is bad, living conditions worse, and there is a general bitterness against Americans on the question of the war loans.

"To get a decent apartment one must pay 15,000 francs a year plus a tax, and sign a six year lease to boot. And as for amusements, give me New York any time."

Mr. Taylor had been on the World for four and a half years when he resigned. Prior to that he had been a reporter for the *Sun* and then the *Herald*.

He returned to the World, Dec. 7.

ATTACK ENDLESS CHAIN SELLING

Virginia Cities Take Steps to Prohibit Merchandise Scheme

Richmond, Bristol and other Virginia cities are taking action to prohibit "endless chain merchandising" in those cities. The city council of Bristol has passed an ordinance providing a penalty for those who carry on the "endless chain" plan of selling merchandise, and a similar measure is before the city council of Richmond, having been referred to the committee on ordinances.

Fred H. Powell, president of the Common Council of Richmond, in discussing the measure, said: "Its purpose is to protect the public; to safeguard a legitimate source of municipal revenue, and to check unfair competition with established retail merchants." Silk hosiery and other merchandise is now being sold in Richmond under the endless chain plan, he said.

By the plan a person makes a purchase of a lot of goods at a very low price, with reservations whereby he or she is required to sell a certain number of coupons. The purchaser of these coupons must in turn enter into a similar contract with the main agent and in turn receive a lot of goods at a price contingent upon their selling the coupons. A break in the chain, it is declared, means that the contract holder must pay the full price of the goods.

Employes Hold Christmas Party

Employes of the *Frederick* (Md.) *News and Post* held their annual Christmas party Dec. 19, including a dinner, entertainment and dancing. Gifts were distributed. It was announced at the party that early next year the papers would be changed from seven to eight columns, standard size. L. E. Birely, president of the company, spoke.

Only cloud on the horizon just now is soft-coal smoke.—*Brooklyn Eagle.*

over 10,000 new prepaid subscriptions secured so far for The Cleveland Plain Dealer

And only the first period of the world's greatest circulation campaign is completed. With three more to come, you can estimate the great results we will obtain! The opening weeks of 1926 is the best time for you to secure a similar increase.

HOLLISTER'S Circulation Organization

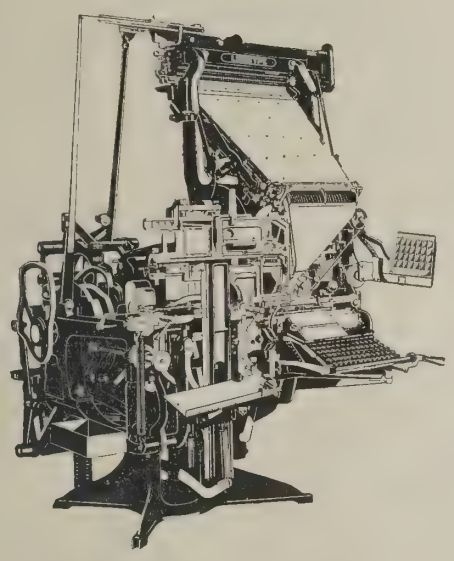
'Phone, Wire, or Write, care of Cleveland Plain Dealer.

Not "How Many"—But "How Well"

For twenty-two years we have been conducting successful circulation building campaigns for newspapers in all sections of the United States.

All of our campaigns are under our personal supervision, with a thoroughly trained force in the field. This fact limits the number of papers we can serve, and guarantees the maximum of results in every case.

We make no effort to secure a large number of contracts—but concentrate our entire attention on a limited number each year.



Not "HOW MANY"—but "HOW WELL"—is our motto

Woman Advertising Manager Seeks Customers' Views—Wheary Trunk Company Plans Six Newspaper Drives—Delco-Light Moves —Burgess 1926 Plans

WORKING behind counters in department stores with her position as advertising manager of one of the largest firms in the country carefully concealed, has been the experience the last several weeks of Miss Grace Walton. Miss Walton is advertising manager of the Julius Kayser Company, manufacturer of women's wear.

GRACE WALTON

"I was brought up to be a butterfly, but I flew," Miss Walton said during a visit in Kansas City, last week. "I surely believe in women in business. It is surprising the number of women who are advertising managers of department stores."

Miss Walton's first experience behind a counter was the result of a wager with an official of her company. So successful was that experience no selling campaign now is planned until after Miss Walton obtains behind-the-counter experience.

"We wish the customer's point of view in our campaigns," Miss Walton explained. "In selling behind the counter I find out whether a woman buys hose for color, quality or price."

Some of the things Miss Walton has learned from behind the counter:

Women buy for color more than they did six months ago.

Nude shades are "out."

Women don't darn hose any more.

Miss Walton's trip has taken her across Canada, down the Pacific coast, over the middle west and now she is headed for New York.

Six newspaper campaigns for 1926, to be placed by dealers in their local newspapers, are being prepared for the Wheary Trunk Company, Racine, Wis., by the William H. Rankin Company, New York, it was announced this week.

The year has been divided into different seasons considered best suited for special sales drives. In each of the six campaigns, there will be between 20 and 30 advertisements.

The company has 1,250 dealers in about 900 cities. The Wheary wardrobe trunk is considered an exclusive account business, that is, it is sold usually by only one dealer in a town, except in the metropolitan centers.

An annual sales convention was held by the company in Racine, Dec. 16. H. A. Groth of the William H. Rankin Company's Chicago office attended

Speakers pointed out that the Wheary Trunk Company is the only trunk concern in the United States which has used advertising continually since it was started in 1923 An unusually rapid sales growth has resulted. George H. Wheary is president of the firm.

The Burgess Battery Company, Madison, Wis., is planning the largest advertising campaign in its history for 1926, according to Duncan Keith, sales manager. Advertisements will appear in 1,815 newspapers in the United States.

Already space has been contracted for in newspapers in 14 states to reach the people in small towns and on the farms. The combined circulations of these newspapers alone is 1,343,827.

Aside from the extensive advertising schedule in the United States, a far-reaching campaign has been arranged for Canadian publications. Newspapers in Montreal, Ottawa, Windsor, Halifax, Hamilton, London St. John and Toronto will carry Burgess advertisements. Canadian magazines and trade papers will also be used by Burgess, giving a combined Canadian circulation for its advertisements of 1,165,000.

In carrying out the 1925-26 advertising campaign, the company has planned to reach the greatest number of people the greatest number of times consistently over a 12-month period.

Quaker Oats Company, Chicago has purchased the Aunt Jemima Mills, St. Joseph, Mo., but have announced that the Advertising accounts for 1926 will remain with the agencies that are now handling them, and that there will be no other changes in their advertising plans.

Formation of the Graybar Electric Company as successor to the supply department of the Western Electric Company, was announced in New York this week. Coincident with the announcement it was stated that the new company plans to expand its advertising program.

"This is the largest electrical distributing business in the world," the announcement read. "The Western Electric Supply Department last year used newspaper space extensively in cities where it had branch offices. The Graybar Electric Company will in 1926 be an even larger user of newspaper space in the 56 cities where its houses and branch offices are located."

Herbert Metz, advertising manager of the Western Electric, has been appointed advertising manager of the newly formed concern. He has been in the employ of the Western Electric Company for 12 years. He became advertising manager in 1923, when general offices for this department were opened in the Pershing Square Building, New York.

Dodge Brothers, Inc., shipments for 11 months amounted to 242,614 cars, compared with 211,669 cars in the same period last year, an increase of 14.6 per cent.

The Delco-Light Company, manufacturers of Frigidaire and other Delco-Light Products, will move their Company offices Jan. 1, from their present location at the Delco-Light plant on Taylor street, in Dayton, O., to the new Third National Building, which is just nearing completion in the heart of Dayton's downtown business district.

Three floors of this new building, the fourth, fifth, and sixth, will be occupied by the Delco-Light Company offices, and will accommodate between 300 and 400 office employes. The executive offices, occupied by E. G. Biechler, president and general manager of the Delco-Light Company, and his associates, also a good sized conference room, will occupy the sixth floor. The advertising and sales division will occupy the fifth floor, while the fourth floor will be given over to the accounting division, sales educational and mailing departments.

Arrangements have been made for the financing required to place "Coldak" a new electrical refrigerating machine on the market. The J. G. White Management Corporation, administrators of various public utility operations, will supervise manufacture and sale of the product.

Give the Reader
a Clean Sheet!

PITY the poor reader who strains his eyes in an effort to read a smudgy, poorly printed page. On him the best of news stories, features, editorials —yes, paid advertising, too—is lost. Give the reader a clean sheet.

The best of mechanical equipment in composing and stereotyping rooms is of no avail in producing a clean, well-printed sheet unless good metal is used. Give your men and your machines a chance to treat your readers right—give them good metal.

Wilke's Type Metals are alloyed in a modern plant under the supervision of expert chemists and metallurgists. They have set new standards of quality in type metals. The constantly growing list of regular users is the best testimony we can offer that Wilke's Type Metals will make good for you with your readers.

"Wilke's Type Metal Insurance Plan" is your protection against the deterioration of your supply of type metal.

Automatic Felt Blankets

"QUALITY GOODS ONLY"

Repressed Felt Blankets

Patented March 11, 1919. No. 1,296,782.

The Automatic Blanket

Is All the Name Implies

IN GENERAL USE THROUGHOUT THE WORLD

The ultimate standard of Pressroom Efficiency has been reached with the Automatic Blanket, the blanket that will produce Magazine Printing from Stereotype Plates at high speed.

The Automatic Blanket is our regular Re-Pressed Felt Blanket, coated on one side with a soft, resilient surface coating, which is non-absorbent and which offers great resistance to wear.

It is ink, oil, and water proof, and its principal characteristic is that ink will not adhere to it. Its softness prevents any undue wear on the stereotype plates. It is as smooth as glass, giving a perfect printing surface, especially fine to bring out all the details in half-tones and the full effects from solids.

It saves 75% of the work necessary to get the presses ready to start.

It prevents injuries to pressmen by eliminating the necessity of passing the sheets so frequently through the press.

It eliminates all tension trouble, as variation of tension from loose to tight will not affect the draw of the sheet over the Automatic surface.

It will prevent 90% of the paper breaks between the cylinders.

After a break at the roll the Automatic surface will clean itself with but 25 to 30 spoiled papers.

It will not smut the sheet, whether your run is 1,000 or 100,000 per day.

It will save 50% of printed waste.

It will save 100% tympan cloth.

It will give 50% better printing.

It will increase press efficiency 25%.

It will save 10% of power.

It will print a blacker, cleaner paper.

WE ARE THE SOLE MANUFACTURERS

Carried in stock in all thicknesses and widths to fit any newspaper printing press in the World.

PAPER MEN ASK PROBE OF CANADIAN EMBARGO

Manufacturers Committee Prepares Report Presented to House for Proposed Investigation—Claim Tax Threatened Newspaper Readers

A financial tax will be imposed on "every American who reads a newspaper, subscribes to a magazine, or buys a book," if a Canadian pulpwood embargo is passed, according to a committee representing the American pulp and paper manufacturers, which has submitted a report on the paper situation, calling for an investigation by the House of Representatives.

The report says:

"The so-called forest conservation campaign in Canada reveals a clever scheme fostered by Canadian paper manufacturers, who plan to cripple the industry in this country, seize control of the paper market and increase the cost to every user of the printed word in the United States."

It was declared in behalf of the American paper industry that if the Canadian Government acceded to the effort to stop the exportation of pulpwood, American paper mill operators would be forced to move their plants to Canada. The next step, it was asserted, would be an embargo on pulp, which would force the American manufacturers to make their paper in Canada."

The report of the American committee says that if the embargo becomes effective, "it will impose a financial tax on every American who reads a newspaper, subscribes to a magazine, or reads a book."

In arguing that the conservation plea is spurious, it is set forth in the report that 90 per cent of the timber in Canada is on crown lands, and that pulpwood from this source cannot be exported, but must be manufactured into pulp in Canada, leaving only 10 per cent available for direct export to the United States and which could be affected by an embargo. At present, it is asserted, only 10 per cent of Canadian forest consumption is for commercial purposes, with the other 90 per cent consumed by fire and other destructive agencies. Besides, it is argued, if the American pulp mills were forced to move to Canada it would not reduce the timber consumption, and so the conservation plea fails.

The claim is made that the real reason this movement has been started is to force all pulp and paper manufacturers into Canada and give the Canadians control of the market by laying export tax or declaring an embargo.

Methods of retaliation suggested with regard to rubber and coffee are now advanced as to the proposed embargo of Canada on pulpwood. Those interested, the report says, have been considering methods by which Canada may be made to see that an embargo on one of the great necessities of this country would provoke similar action by the United States, and a commercial war would ensue which would be detrimental to both countries and help no one, not even the Canadian pulpwood manufacturers, for in the end they would be compelled to suffer defeat with losses.

The report of the committee asserts that America is not wholly dependent upon Canada for pulpwood, and in case the embargo is declared the mills here will not shut down. The prices to consumers will be higher, but supplies will be obtained from other countries. But the manufacturers are doing their utmost to obviate a commercial war, it is declared, and they may seek the intervention of the United States Government in an effort to prevent the embargo being declared.

NEWSPRINT MILL OPENS AT THREE RIVERS

Wayagamack, Ltd., Plant in Canada Produces 200 Tons Daily—First Carload Shipped Last Week —Construction Rushed

The new plant of the Wayagamack Pulp and Paper Company, Ltd., Three Rivers, Quebec, has started operation. Formal opening was held Dec. 18, before a party of directors, bankers, brokers and newspaper men.

In less than a year from the company's decision on the final details of the project, the first carload of the product was shsipped on Dec. 16. Since the first of the year not only has the construction and installation work been carried out but a market has been established for the product.

The new plant embodies the latest features of newsprint mill construction and equipment and the operations are co-ordinated with shipping facilities. The employes are now working in three shifts. The capacity of the mill is 200 tons of newsprint a day.

In the Summer of 1924 the Wayagamack Pulp and Paper Company, Ltd., decided to go into the newsprint business and for this purpose organized Wayagamack News, Ltd.

Through the British Trade Facilities Act Committee they obtained £425,000 on the condition that this money should be spent in buying in Britain the machinery and material for the plant.

The Wayagamack Pulp and Paper Company, Ltd., issued $1,500,000 6½ per cent five-year general mortgage and collateral trust gold bonds, which were underwritten by Messrs. Rene T. Leclerc, Inc.

The proceeds of these bonds were lent by Wayagamack Pulp and Paper Company, Ltd., to Wayagamack News, Ltd., against which they gave Wayagamack Pulp and Paper Company, Ltd., security of $1,500,000 6½ per cent fifteen-year second or general mortgage bonds.

The Wayagamack Pulp and Paper Company, Ltd., guarantees the British loan and undertakes to operate Wayagamack News, Ltd., for fifteen years.

They Say That the Best Way To Reach a Man's Heart Is Through His Stomach

Indiana

The Heart of the Country, Is an Important Factor in the Supply of Foodstuffs for the Inhabitants

Indiana produces at least twenty crops that are of great importance as nutriment. The leading, and most valuable, are corn and wheat.

Cattle, sheep and hogs are produced in millions and Indiana ranks high in the livestock industry. Dairying has been made profitable by large numbers of milch cows.

The revenue from the market demand for Indiana foodstuffs creates millions of dollars that are directed into this state and must again be converted into commodities for the comfort and convenience of the home folks.

A food market is a substantial market of steady merchandising and is an ideal territory for cultivation by National Advertising.

Distribute your merchandise in Indiana and create consumer demand by advertising in the daily newspapers.

Speed Up Trade in PENNSYLVANIA By State Wide Advertising

Under the auspices of the Chamber of Commerce of the United States, the National Distribution Conference appointed a committee on methods of distribution to study marketing conditions.

The committee reported that the middleman system of marketing has developed, for the simple reason that middlemen are able to perform the marketing functions in the most economical and effective manner. They acquire skill in performing through specialization.

The middleman and the branch manager, acting for the manufacturer selling directly to retailer, specialize in the performance of marketing functions.

The chain store was characterized as one of the most important developments that has taken place in the field of marketing. It is considered an important influence today in reducing marketing costs and in changing methods of distribution.

Concurrently with territorial distribution of merchandise, the consumer must be advised that the authorized dealer has stocked the goods.

The success of your advertising campaign depends on the ability of your distributer to stock the dealer and the dealer to move the goods.

Public demand must be created by advertising. Newspaper advertising can be confined to any given territory and will cover that territory thoroughly.

Our Own World of Letters

By JAMES MELVIN LEE

THE latest book on reporting is "News and Newswriting" (The Home Correspondence School, Springfield, Massachusetts) by Robert Wilson Neal who will be remembered as the author of "Editorials and Editorial Writing," (same publisher). Maurice W. Dickey, managing editor of the *Springfield* (Mass.) *Union,* is the author of the opening chapter, "Making the Daily Paper"—an account of newspaper organization and routine. More extensive comment will be made in this department in a later issue.

* * *

NEWSPAPER publishers who are interested in books relating to foreign journalism should be sure to get "Un An de Journalisme en Pays Occupe" (One Year of Journalism in an Occupied Country). This volume is a collection of articles which appeared in *La Gazette des Ardennes* from Nov. 1, 1914-Oct. 31, 1915 and which dealt directly with the censorship of the press and the limitations imposed upon newspapers by army restrictions.

* * *

BRIEF mention has been made in "Our Own World of Letters" of the series of articles which Don C Seitz is going to contribute to *The Outlook* during the coming year and which graphically portray how American newspapers look to Mr. Seitz. In this series he will discuss the place of journalism in American democracy. He will tell something of the influence of commercialism in the press. He will stress the rise of the rewrite men and the decline of the reporter. And with a trenchant pen he will write about the use and abuse of syndicated features.

Attention will be paid to papers—past and present. The accounts of the so-called giants of yesterday will abound in pertinent anecdotes. The tabloid press both in England and in America will be covered. Evidently Mr. Seitz has but little use for tabloids.

One of the best articles of the series is that dealing with the country newspaper—or the community newspaper, as it is sometimes called. Of this type there are something like 20,000 in the United States. In this article Mr. Seitz speaks about the unresponsiveness of rural subscribers.

With a picric pen he writes about publicity agents. To Mr. Seitz they are parasites—"bee moths in the hive of the American press."

But why spoil the perusal of the series with too many tips about the contents? The articles will of course be noticed somewhat in detail when they appear from time to time in the columns of The Outlook.

* * *

FOUR sections and an appendix comprise "How Advertisements Are Built" (D. Appleton & Co.) by Gilbert P. Farrar. The keynote of the volume is how advertisements are arranged and put together. In addition, there are comments on the why of the arrangements.

Section I answers the question, "Why is it a good advertisement?" It suggests standards for judging advertising and stresses two basic principles—expression and impression.

In section II the assertion is made that there are five things which an advertisement can and ought to do regardless of the length of message or the size of space. An advertisement should attract attention, create interest, arouse desire, develop conviction, and then produce action. A chapter is devoted to each one of these five things.

In a similar way the third section lists the five units that make up an impression—size, borders, pictures, text, and trade mark. Again each one of these five units has a chapter. The chapter on pictures is one of the best in the volume.

The fourth section, "Buiding the Advertisement," concerns itself chiefly with lay-outs, the functions of which are to show a prospective advertiser what the advertisement will look like when finished and to act as a chart for the compositor who puts the cuts, borders, type, etc. into position.

The appendix entitled "Addenda" takes up department store advertisements and "Teaser" advertisements. In the latter type a warning is sounded that one ought not to go too far with a trick.

"It is hard," says the author, "to tell what will hapen when you get away from standard principles of advertisement construction."

The absence of an index detracts from the volume as a handbook. Illustrations, on the other hand, make up one of the most valuable features of the volume. But the comments underneath are too meagre and jejune.

* * *

CHARLES B. DRISCOLL, formerly editor of the *Wichita* (Kan.) *Eagle* is the author of "A Disillusioned Reformer Faces Forty" in *McNaught's Monthly* for January. In brief it is the confession of a Discouraged Liberal who after years of newspaper writing and editing is of the opinion that there is little or nothing in the pursuit of idealism.

The editor of McNaught's evidently dose not share this view for in a note he remarks that even if liberals are having "a dull time of it in these mild and placid days of good King Calvin there will be some day new battles to fight and a need for liberals."

* * *

DAVID S. BARRY, formerly Washington correspondent of the *New York Sun* and the *Providence Journal* has published through Little, Brown & Co., of Boston "Forty Years in Washington." The book covers the administrations from Hayes to Harding. It is an interesting chat about Washington notables during the period indicated.

* * *

TO be noted later at greater length is "The Life and Letters of W. T. Stead" (Houghton Mifflin Company) edited by Frederick White and published in two volumes. Mr. Stead was for many years editor of the *London Review of Reviews.*

* * *

GRANT MILNOR HYDE, associate professor of journalism at the University of Wisconsin, has just brought out a new edition of "Newspaper Editing" (D. Appleton & Co.)—a manual for editors, copyreaders, and students of newspaper desk work. The first edition was one of the earliest in the field and has stood the test of use both in the class room and in the city room. It did, however, lack certain details in copy reading and headline writing. This deficiency, however, has been met in the revised edition through the insertion of new material.

The book has been made more usable in the class room by means of class exercises appended to each chapter.

Most of the volume is devoted to the part played by the copyreader in newspaper production. Separate chapters take up such subjects as proof reading, headline writing, copy reading, and newspaper make-up. Other chapters deal with syndicate and association material, rewrite stories, and printing processes.

The appendices are three in number. The first lists the significant dates in the history of printing and the development of the newspaper. Unfortunately, it is marred by numerous sins both of omission and commission. Certainly the sins of commission should have been corrected in the revised edition.

The second appendix prints a typical style sheet drawn up by the instructors in the school of Journalism of the University of Wisconsin in co-operation with the newspapers of Madison. It is one of the best style sheets I have seen because it reflects rather accurately the tendencies of the best newspapers today. For accuracy it suggests the following rules:

Remember that the truth and nothing but the truth, interestingly presented, makes the best news story.

Don't try to make cleverness a substitute for truth.

Don't forget that faking is lying.

Realize that every mistake you make hurts some one.

Remember that what you write for newspaper publication is read by thousands and helps to influence public opinion.

Be especially careful about names, initials and addresses.

Get all the news; don't stop with half of it.

Don't give rumors as facts.

Be fair and unbiased; give both sides of the case.

Don't misrepresent by playing up a statement that, taken from its context, is misleading.

Don't make the necessity for speed an excuse for carelessness and inaccuracy.

Appendix III lists some of the more important books on journalism. Under the head of "Histories of American Newspapers" one notices several omissions—especially that interesting volume about the *Springfield* (Mass.) *Republican* from the pen of Richard Hooker. Certainly that volume should have been included. Another noticeable omission is found under the head "Collections of Editorials" where no mention is made of the recent volumes in which have been gathered together the editorials of Arthur Brisbane.

Other books written by Professor Hyde are: "Newspaper Reporting and Correspondence," "Handbook For Newspaper Workers," "A Course In Journalistic Writing."

"Charity Newsies" Raise $13,000

Charity Newsies at Columbus, O., raised more than $13,000 in the sale of a charity newspaper on the streets of that city last Saturday. More than 80 former newsies sold the papers.

Patents Pending

Ra-de-o Doll is made exclusively for publishers to use for increasing circulation. Will be sold only to one publisher in each city. It will not be sold to department or other stores. It will receive messages up to 60 miles from broadcasting station.

Ra-de-o Doll without ear phone or overhead wire $3.00 each. With ear phone and overhead wire complete $5.00 each.

Made and sold only by

FERNSTROM COMPANY,

807 Hearst Building San Francisco, Calif.

TELLING MORE IN CLASSIFIED COLUMNS MEANS GREATER RESULTS

THE *Chicago Tribune's* "Tell More" campaign for classified advertisers to show that better results follow greater usage was described recently for the Indianapolis Real Estate Board by W. E. Macfarlane, Tribune classified advertising manager.

His remarks, in part, follow:

"Keep this thought in mind—you expect your want ad, costing a few dollars, to sell a piece of real estate valued in the thousands. A want ad is a little thing, but its smallness does not mean that it can be written without proportion to the care with which you have written them. Is it not worth a few minutes of your time to see that your ad is properly equipped to accomplish its purpose? You cannot expect a carelessly worded ad to command the interest of your potential prospects. Put your best sales arguments into your sales message—form a word picture of your property and you will get the attention of prospects who are ready and eager to buy.

"Our experience with the 'Tell More' theory was very gratifying to us and to thousands of our advertisers. However, last year we were approached by a professor of psychology at Northwestern University who submitted a plan for scientific test of our theory. He claimed that because the advertisement which failed in our 'Tell More' example, and the advertisement which succeeded were not published on the same date, the results accomplished for our advertisers did not constitute a scientific endorsement of the 'Tell More' theory. We agree to accept any test he wished to make, and he submitted a plan of inserting four advertisements in each of four classifications in the Sunday Tribune. He was to write the advertisements, which would be graduated in sizes from two to nine or ten lines, using box number addresses and holding the call tickets himself. We used the classifications of 'Situations Wanted,' 'For Sale—Houses,' 'For Sale—Household Goods,' 'For Sale—Automobiles.' At the same time we felt that market conditions were not particularly favorable for those classifications. In three out of four classifications (the exception being Situations Wanted), the two and three-line advertisements brought no returns whatever. But none of the other advertisements, ranging from four to nine lines, failed to bring results. And in each instance but one that exception again being in Situations Wanted), the larger advertisement brought more results than the advertisement next under in size.

"While the theory which I expound is adaptable to all classifications of Want Advertising, I know that you are only interested in its application to real estate advertising. I am, therefore, submitting briefly as possible, the four real estate advertisements written for the test to which I referred, showing their variations in the sales appeal, and the results as tabulated by the professor.

FOR SALE—MODERN 6 ROOM HOUSE. $6,500. Address A. H., 227 Tribune.

"This 2-line Want Ad produced no replies whatever. Cost in Sunday Tribune $2.00.

FOR SALE—MODERN 6 ROOM HOUSE. Brick, good location; terms; $16,500. Address J. C., 307 Tribune.

"This 3-line Want Ad produced no replies whatever. Cost in Sunday Tribune $3.00.

FOR SALE—OLD ENGLISH STYLE SIX room; large living room with fireplace; breakfast room; 3 bedrooms newly decorated; fine fixtures; good transportation and schools; $16,250. Reasonable terms. Address A. A., 458 Tribune.

"This want Ad, only 7 lines in length, produced three good inquiries. Cost in Sunday Tribune $7.00; cost per inquiry, $2.33.

FOR SALE—MODERN BRICK HOUSE, SIX rooms, 2 large porches, living room 15x20; master bedroom 12x18, central hallway, hardwood floors, finished in ivory enamel, built only two years ago, oil burner, wooded lot, 50x125; shrubbery and flowers; near steam and "L," close to shopping district; $16,500. Address B. M., 334 Tribune.

"This 8-line Want Ad, although only one line greater in length, produced five good inquiries. Cost in Sunday Tribune $8.00; cost per inquiry, $1.60.

SUMMARY OF RESULTS

Lines	No. of answers	Percentage of total answers	Efficiency per line	Cost per inquiry
2	0	0 %	0%	Cost too much
3	0	0 %	0%	Cost too much
7	3	37½%	100%	$2.33
8	5	62½%	145%	$1.60

"Looking on the same scene, psychologists claim, no two people will see exactly the same images in the same relative perspective. We all see through different eyes, and for that reason no two people will construct an advertisement including the same detail in the same relative importance. It is a matter of paramount importance to a real estate dealer or realty firm that he or a representative shall have eyes which observe interesting detail and features in a property, so that in the preparation of the printed sales message he may match his description to the inquiry already in the reader's mind. Greater returns from newspaper advertising will be the result."

14 STRENUOUS YEARS

Milwaukee Socialist Daily Recalls Trials on Anniversary

The *Milwaukee* (Wis.) *Leader,* Socialist daily recently celebrated its 14th anniversary.

An editorial summarizing its experience said:

"Fourteen years ago today the first copy of the Milwaukee Leader was printed.

"It was a bold effort on the part of the useful workers of this city to start a daily paper of their own to fight the powers of inertia, corruption, and reaction. They had the grit and the determination—and they have seen it through. This paper is the ocular proof of that.

"Yet these 14 years have been strenuous. At first there were years of gaining a foothold. Just when it was gained the war came along, with its persecution. Many thousands of outside subscribers were cut off at one stroke by a despotic ruling of the postoffice department. The editor (Victor L. Berger) was indicted, the paper itself was indicted, and the office was raided by federal sleuths bent on "making the world safe for democracy" by destroying the only paper in these parts which was upholding democracy.

"The loyal readers of the Leader stood like a stone wall against the destructive powers. The paper told the truth about the war, while the war was going on. . . . The Milwaukee Leader enters upon its fifteenth year battle-scarred but stronger than ever before."

AN IDEA THAT SOLD

Paducah Real Estate Men Welcome Co-operative Campaign

The *Paducah* (Ky.) *News-Democrat* recently completed a co-operative campaign for local real estate dealers designed to elevate the profession and warn the public against doing business with other than bona fide dealers.

Ninety per cent of the local dealers shared the expense of the newspaper space, although no signatures were carried, according to W. H. Lackey, advertising manager of the News-Democrat, who prepared and sold the campaign.

"Consult a Bona Fide Real Estate Dealer Before You Buy or Sell" was the slogan stressed in all copy. Purchased space totaled 1,325 inches.

The idea has been copyrighted.

Lovering Joins Business Staff

F. J. Lovering of the reportorial staff, is now an advertising solicitor for the *Chicago Daily Journal.* He was in the limelight recently in an exposé of lax administration of the Cook county jail at Chicago and but recently was discharged from a hospital, where he was confined by a broken nose sustained in a conflict with a bootlegger during an interview in the jail.

Imperial's Map of West Virginia

ON the map of West Virginia shown above are the names of ten newspapers in seven cities, all of which selected the Imperial Plus Metal Plan as a means of keeping their metal in trim.

Why did the publishers of these papers select Imperial? Here's the answer. They knew that a reliable systematic plan of keeping metal fit, thus adding years of working life, was far more economical than letting the metal get out of balance and thus having to doctor it or replace it frequently with an entire new supply.

The growth of the list of Plus Plan users has been astonishing. The three Imperial Plants, located in Pennsylvania, Ohio and Illinois, are now serving thousands of Newspapers under the Plus Plan. Couple this with the fact that the Plus Plan is but a few years old and you can see that this popular plan has won its place in the Newspaper world through sheer merit.

Have you had the Plus Plan explained to you in detail? If not, be sure to see the Imperial Representative when next he calls.

ADVERTISING WILL BUILD NEW BANK BUSINESS

Cleveland Executive Says Newspaper to Draw Public Attention to Banks Services — Advises Personal Follow-Up

"New Business—How to Get It," was discussed by Allen B. Cook, assistant vice-president of the Guardian Trust Company, Cleveland, O., in an address before the Mid-Continent Fiduciary Conference of the American Bankers' Association at St. Louis, Dec. 11.

He stressed advertising as an efficient method, saying:

"The best method of attracting public interest to the service of the Trust Department involves a complete advertising campaign, consisting of from four to six advertisements in local newspapers, referring to a booklet which is being distributed, either generally or on request, such advertisements to be followed by letters amplifying the newspaper copy. We usually limit our mailing to not more than four letters, which are sent out 30 days apart. It is also our practice to run the four or more advertisements not more than two weeks apart, and preferably in consecutive weeks.

"While newspapers and other advertising mediums do part of the job of seeking new business, the chief function of such advertising, as we see it, is to prepare the ground for the solicitor to call in person during the six months' period which such campaigns usually cover. Naturally the replies received to our letters, and the requests which come in for the booklets form the basis of the first calls which are made, after which the balance of the persons, whose names appear on the trust list, are seen.

"In Cleveland, the advertising of Trust Companies is entirely individual and not co-operative. In our own market, at least, such co-operative efforts are not practicable, due to the fact that bank advertising originated here about thirty years ago. We feel that isolated booklets, which are not backed up by newspaper campaigns, proper mailings, and personal solicitation are a waste of money. This is of course purely an individual opinion. The local newspapers and class publications, such as club magazines, are valuable in that they reach the type of person most likely to use the services of the Trust Department.

"National advertising is at best only general publicity for the bank, and seldom results in a sale of banking or trust service to the reader. We do not feel that outdoor bulletin boards or street car cards should be departmentalized, but should call attention to the bank as a whole.

"Wherever possible, in our advertising copy we describe actual incidents, showing what we have done for our customers. While it is necessary to use fictional names and settings for such human-interest stories, we have found them to be very effective."

ENDOWS SCHOLARSHIP

Late Columbia Tecaher Leaves Pulitzer Prize Money to Students

The Katherine MacMahon Scholarship has been established in the School of Journalism of Columbia University in memory of the late Katherine MacMahon, student and teacher in the School.

"Before her death a year ago," the announcement by Director John W. Cunliffe said, "Miss MacMahon made provision to transfer to the School of Journalism the $1,500 which she received as holder of the Pulitzer Travelling Scholarship in 1920-1921."

The interest is immediately available for an annual scholarship of $75 awarded by the Faculty to a member of the senior class.

Leif Eid of Washington, D. C., a member of the last class Miss MacMahon taught, has been selected as the scholarship winner.

British Publisher Aids University

An unconditional gift of £100,000 to Birmingham University has been made by Sir Charles Hyde, proprietor of the *Birmingham* (England) *Post*. This is the most recent of a long list of benefactions by Sir Charles, who at the conclusion of the war gave £5,000 to the Lord Mayor of Birmingham as a thank-offering for the benefit of ex-soldiers. Sir Charles Hyde is a well-known race-horse owner, and was created a baronet in 1922.

ASKS FAIR PLAY

Miami Advertising Club Resents "Hammer" Attacks

Complaining that advertisers in other states are attacking Florida in advertisements, the Advertising Club of Miami, Fla., has passed a resolution asking the Associated Advertising Clubs of the World to use its efforts in "cutting out the hammer."

The resolution follows:

"Whereas, the state of Florida, both as an economic and health center, has been revealed to the people of this country by advertising, and,

"Whereas, the advertising in this center may have been injured by false and exaggerated claims made by unthinking or unscrupulous advertisers, and,

"Whereas, the Miami Advertising Club, in order to protect, foster and develop advertising, was the principal factor in establishing a Better Business Bureau and the promulgation for this center of an ethical standard for advertising, the cardinal principle of which was based on the ethical standard promulgated by the Associated Advertising Clubs of the World, which demands from advertisers a just respect for competitors and established institutions, therefore,

"Be it resolved, that the Miami Advertising Club respectfully petitions the Associated Advertising Clubs of the World to take similar steps to protect and foster advertising by calling upon the organized advertisers to lend their efforts to a movement to prevent the use of advertising for the purpose of attacks against the state of Florida, which lower the dignity and power of the printed word and bring advertising, which is such an important factor in modern industrial life, into disrepute."

Fraud Ad Solicitor Sentenced

Convicted of the charge of using the mails to defraud, Allen L. Rosenthal, alias, A. D. Roberts, was refused a new trial by Judge F. M. Schoonmaker, of the United States District Court at Pittsburgh, Pa. and sentenced to serve one year and a day in the Atlanta penitentiary. Rosenthal solicited, it is said, advertisements for a Masonic directory, and it was alleged that he did not fulfill his contracts and kept the money he collected for his own use.

Center of Agriculture
ILLINOIS
Is Great Home State

Illinois, twenty-third state in area, is third in population with 6,500,000 people. Only one state surpassed Illinois in total value of its farm crops in 1924, put at $554,000,000 by the U. S. Department of Agriculture.

Illinois stands first in agricultural commerce and is the center of agricultural commerce of the United States.

Only one state produced more corn. Illinois' corn for the year was 219,000,000 bushels. Only one state produced more wheat. Illinois' wheat ran 59,000,000 bushels. Only three states exceeded it in cattle; only two in horses and mules, only one in hogs. Illinois stood first in farm tractors, 2,750 ahead of its nearest rival. Only four states have more automobiles and only three more trucks.

Agricultural wealth is the most substantial indication of purchasing power to the manufacturer of products for home consumption. Newspaper circulation covers this important market. Newspapers are received in every home. On an average, every newspaper delivered into the Illinois homes is read by four persons.

This list of Illinois newspapers thoroughly covers the State

"BEG YOUR PARDON"

Miss Cecilia Katz was taken suddenly ill last Tuesday at the Burgess Battery plant and was not "gassed" as a Madison newspaper reported. Her illness was not caused by any factory condition.

A "Seeing" Radio

Both seeing and hearing through the radio has been successfully demonstrated with the receiving set and projecting cabinet shown above. This picture has been sent to Burgess officials in Madison by Mr. C. Francis Jenkins of Washington, D. C.

The young women appearing in the picture have turned in on a dance act and are listening to the music and watching the child perform the steps to it.

RADIO vision from broadcasting stations or theaters directly to our homes through our own receiving set is not far distant.

This feat has already been accomplished for many months between the experimental stations at Washington, D. C., of Mr. C. Francis Jenkins, who is the originator of this art

A small cabinet has been invented which when attached to a receiving set will project a moving object on a wall or screen from a lens at one side of the cabinet. On the screen is thrown a miniature picture of everything that takes place before a mirror at the broadcasting headquarters.

Voice and music, along with action, can be sent at the same time through the same apparatus. Thus many events, such as sporting programs, plays and dances, can be projected faithfully into the home for the entertainment of those who cannot see the events themselves.

His first Radio Vision Studio is being fitted up by Mr. Jenkins. In a letter to Mr. W. B. Schulte here, he writes that he is using Burgess Batteries and that he expects "very shortly to begin broadcasting from living objects, like dancing girls, clowns, stories in pantomime and so forth."

The Burgess folks are naturally much interested in these developments and wish Mr. Jenkins outstanding success in the production of this wonderful field of radio.

Drive 70 Miles After Batteries

A letter from a new dealer in a southern state has been received here which is a testimonial to the popularity of Burgess Batteries.

"I was considerably surprised to find that Burgess Batteries are a very scarce article in this part of the country, so scarce in fact, that I drove 50 miles and then 70 miles and could not find a jobber with some."

Adding that he could have purchased other makes of batteries, the dealer says "I will have Burgess batteries if I have to drive to Madison for them."

Here and There—Girls of the Billing and (not cooing) Accounting department at Burgess Battery Company had a supper and theater party a week ago Friday. Those going were Rose Powers, Mabel Ohnhaus, Erminie Stark, Mabel Thompson, Francis Hinrichs, Dorothe Barber, Viola Grabbert, Hazel Jacobson, Gladys Ruxton, Hazel Steele, Irene Norsetter, Inger Tiesberg, Ann Schunning, Lucile Prucia, Luella Lashway, Edith Drives, Edna Luce, Margaret Jaquish.

BEST WISHES TO BEANS

The best wishes and hopes of their fellow employees are extended to Mr. and Mrs. John Bean, both of whom are Burgess workers, for the quick recovery of their son, Albert Bean, who was seriously wounded when accidentally shot while hunting last Thursday.

THANKS, DR. JACKSON

Burgess officials and employees feel grateful to Dr. James Jackson and also Horace Austin whose work and medical attention saved the life of their fellow worker Frank Korn, when his boat overturned on Lake Mendota Thursday, while hunting.

Showing make-up and news in Burgess *Bulletin*

Such institutional news as the house-organ contains is moreover, generally read only by its employees.

How to get its institutional news across to the public at large and at the same time give its staff a house-organ has been aptly solved by the Burgess Battery Company.

For the past year the Burgess organization at Madison., Wis., including its main manufacturing plants and laboratories, has been issuing the "Burgess Bulletin."

The "Bulletin" is a 4-column replica of a newspaper and it appears weekly in the two newspapers at Madison, both of which have extensive city and state circulations.

Its purpose is "to present information of interest concerning the Burgess Battery Company and Burgess Laboratories," wrote C. F. Burgess, president and founder of the concerns, in the first issue appearing Jan. 19, 1925.

Stamping the advertisement as a house-organ was the further explanation of Mr. Burgess that "our employees are asked to read the 'Bulletin' that may know more about the business of which they are a part. Since it is our ambition to conduct our affairs so that we may contribute in large measure to the welfare of our city, our state and our country, we hope this weekly chronicle will include items which will prove to be of interest to our fellow citizens as well as to those more closely connected with our work."

The "Burgess Bulletin," has a standardized layout, the same heading and border being used for each issue, it has appeared every Monday without fail for ten months continuously, and it always occupies the same position in the newspapers.

filled with their news—everything from births, marriages, deaths, parties, new homes, trips and sport activities to mild personal jibes being published. Pictures of baseball, bowling, and basketball teams have been used.

The institutional copy for the "Burgess Bulletin" includes news of new buildings, co-operation with city and state movements, results of radio and chemical experimental work, additions to the staff, and feature stories concerning the work of the company.

On the anniversary of its incorporation, for instance, a story on the growth of Burgess was used. A recent story was on the advertising campaign planned for the coming year, featuring the extent of advertising which Burgess batteries will receive from October, 1925, to October, 1926.

That the "Burgess Bulletin" is widely read is evidenced by clippings received by the company from an eastern clipping bureau.

In addition to personal items, the "Bulletin" has also contained timely stories of general interest, such as an announcement of a lecture by Capt. Don MacMillan, news of the home-town radio club and of the American Radio Relay League.

Several times Mr. Burgess has taken occasion to write pithy editorials on civic and political subjects.

Once an extra issue was published to welcome the delegates to the Wisconsin State Telephone Association convention. News of the gathering and some of its prominent delegates were "written-up" and a cartoon strip of its officials used. The Burgess tieup of course, was an editorial welcome. Five hundred copies of this "Bulletin" were sent by the association with reports of its convention to its members throughout Wisconsin.

Besides keeping the public and employees informed of Burgess activities, the "Bulletin" is "back-curtain" talk for Burgess salesmen throughout the country. Too little time is available to inform salesmen of what the company is doing back home, many manufacturers find. The Burgess organization "kills another bird" with its "Bulletin" by sending copies to its branch plants and salesmen.

So successful has this combined ad and house-organ been that it is scheduled to be published indefinitely and similar issues may be started at branch Burgess plants. The cost of the space in the newspapers and the services of the journalist are negligible compared with the wide distribution and timeliness obtained, says Mr. Burgess.

EDITORS INITIATED

Wisconsin Group Made Honorary Members of Sigma Delta Chi

President Glenn Frank and five Wisconsin editors were initiated as associates into Sigma Delta Chi, honorary journalistic fraternity, at the University of Wisconsin tonight.

The editors were: John L. Meyer, Milwaukee, *The National Printer-Journalist;* John F. Cunningham, Racine, *The Wisconsin Agriculturist;* A. M. Brayton, *Madison State Journal;* W. T. Evjue, *Madison Capital Times,* and W. H. Bridgman, *Stanley* (Wis.) *Republican,* former president of the Wisconsin Press Association. President Frank was formerly editor of the *Century Magazine.*

Fifteen undergraduate and graduate students were initiated at the same time. The Wisconsin chapter of the fraternity will be hosts to the national convention next November.

Tonics for Tired Papers

At Last! Features That Will Be The Talk of The Town and Make Circulation Managers Turn Cartwheels

By CHET JOHNSON

MR. EDITOR, is your paper suffering from any of these ailments?

Dull, throbbing pains in the news columns.

Compound fractures of the features.

Fatigued photos.

Poor circulation.

Don't be discouraged.

Any or all of these afflictions may be quickly overcome by the judicious and consistent use of three simple household medicines that can be found in any news room: apple sauce, bologny and banana oil.

The writer has just completed a survey of the nation's greatest newspapers. Scores of city editors were called upon for news, picture and feature story hunches. As a result of their hearty co-operation, the following tonics for tired papers are sugested:

Run a series: "The Truth About Our Advertisers." Make it breezy and informal. For example: "Old Man Blank, of Blank's Department Store, claims to be a prominent church member. But he probably has more booze in his cellar than the average wholesale bootlegger, etc., etc." Your readers will get a kick out of this, and the advertiser, of course, will be glad to get so much free publicity.

Another good stunt is an ugly baby contest. Have the art department fix up each day the picture of some prominent citizen's baby, and run it under this standing caption: "Have You Ever Seen an Uglier Baby Than This Brat?" Offer suitable prizes. This contest will put you in strong with the parents.

Every reader admires good sportsmanship. Run a score chart once or twice a week showing the news beats your competitor has scored. And over every rewrite item in your paper put a sixpoint slug line: (Rewritten from an original news story in The Daily Blah, our wide-awake competitor.)

Clubwomen and society leaders like to see their pictures in the paper. A "How Old is Ann?" series will stimulate reader interest. Publish one prominent woman's picture each day, with a story something like this: "Although Mrs. De Gump-Highhat, charming society matron, professes to be but 32, she actually is 49 years of age." Then explain what the subject does and how much it costs each week to hide her wrinkles. Every woman in your territory will want to follow this series day by day.

Personal experience stories are always good. Have your smallest reporter walk up to the biggest policeman and hit him in the nose, then write his story of what happened next as soon as he regains consciousness in the emergency hospital.

Run a burlesque issue, filling it with the most insulting and libelous stories you can think of. "Mayor Arrested as Horse Thief," "Governor Identified as Escaped Convict," "Prominent Minister Arrested for Bootlegging," and other stuff like that. Run a small 1 column box the next day explaining that the stories were just written and printed in fun. You will be surprised at the interest shown in your paper.

Toward the end of March announce that every new subscriber will be given a seven-passenger sedan and a diamond ring. Then, in your April 1 issue, explain that it was just an April fool joke.

ENLARGING EDITORIAL ROOMS

Buffalo News Improving Plant—Several Staff Changes

New quarters soon will be available for the editorial department of the *Buffalo Evening News*. The Associated Press and leased wire department have been moved to the new addition to the Evening News building as has the financial department. Remodeling of a portion of the second floor of the older building will give the editorial department double its present space.

There have been numerous additions and changes in the Evening News editorial staff recently. William H. Lee, formerly of the *Cleveland News*, John H. Lycette of Binghamton and Willis P. Balbridge of Poughkeepsie are recent additions to the city staff. William G. Hippler, former night editor, has been made telegraph editor to succeed Walter Look, who resigned and is motoring to California, where he will reside.

Richard Murray has been made night editor. He formerly was on the copy desk. Jerome Wood has succeeded Arthur Sweeney on the financial staff, the latter having entered the Buffalo State Normal school. Gerald Dwyer and Frank Dooley have resigned from the News staff and are now with the *Buffalo Courier*. T. F. Lonergan, former make-up editor of the Buffalo Courier, is now reading copy for the News. Theodore Goetz, former News staff member, is now reporter on the *New York Herald Tribune* European edition, and is covering the steamer beat out of Paris.

Henrietta Bolks, Columbia School of Journalism graduate, also has joined the News staff.

Engraving Group Changes Name

Texas and Oklahoma photo-engravers meeting in San Antonio, Dec. 19, renamed their organization Southwestern Photo-Engravers Association and selected as secretary T. J. Turner, of San Antonio, who will maintain headquarters in that city. Other officers are: Tom P. Thornton, Dallas, president, O. C. Ankenman, Austin, vice-president, J. J. Walden, Fort Worth, treasurer. The Association comprises proprietors of the craft.

JINGO PRESS A MENACE TO WORLD PEACE

Bruce Bliven, New Republic, Says Foreign Correspondents Can Better Present Situation and Balk Predetermined Editorial Policies

"The popular press as it exists today is certainly more a menace than a buttress to international peace," Bruce Bliven, editor of the *New Republic* told members of the Association of Foreign Press Correspondents, meeting in New York, Dec. 17.

"Scores of incidents support this view," he said. "Everyone now knows, for example, that McKinley went to war with Spain against his own wishes and judgment because the yellow press forced his hand. As things are, the editor with the biggest circulation is more likely than not to be a thorough-going jingo; and in circulation there is power.

"Foreign correspondents can do something to better this situation. The more cynical, indifferent and subservient they are, the greater the temptation to the editor to order the support of a point of view, or to alter or suppress their dispatches on a basis of predetermined editorial policy.

"The more seriously they take themselves, the more they will deserve to be taken seriously by their employers and the public. In organizations like that of the foreign correspondents in New York are the beginnings of professional responsibility and self-criticism which may prove to be of the greatest value.

"We are fond of making cheerful assumptions about international intercourse and goodwill among the nations, some of which I feel are unfounded. Just as an example, nearly everyone assumes that to have numerous citizens travel in foreign lands makes for amity among the nations. But is this really so? Most of the tourists I have met have cordially disliked the inhabitants of the countries they are visiting. Certainly the inhabitants aforesaid hate the tourists. At present this is most of all true if the latter come from America. Indeed, one might almost argue that our government could strike a noble blow for amity if for a year or two it would nail down a strict embargo on the annual exported crop of tourists!"

Other speakers were Ogden Reid, publisher of the *New York Herald Tribune*, Arthur Brisbane, and Lady Eugenia Doughty, proprietress of the *Grimsby* (England) *Daily Telegraph*.

Hayes Heads Writers' Union

Martin Hayes of the *Scranton* (Pa.) *Republican* was recently elected president of Newswriters' Union in Scranton, Pa. Miss Emily Wilcox was chosen financial secretary. Arrangements were made to install the new officers on Jan. 30, when the annual banquet of the Scranton newspaper men will be held. Mr. Hayes succeeds Edward Gerrity, who declined re-election after serving one term as president.

RECORD BREAKING CITRUS FRUIT SALES CREDITED TO ADVERTISING

Paid Space Responsible for Great Increase in Consumer Demand Annual Report of California Fruit Growers' Exchange Declares

NATIONAL advertising and sound distribution methods worked hand in hand to make the past year a record breaker for members of the California Fruit Growers Exchange, according to the annual report of that body just issued.

This year the California citrus crop reached its highest peak, returning $93,581,263 to its producers. Delivered value of the crop was $122,245,523 including $28,664,260 for freight and refrigeration service.

It is interesting to note that in this year of greatest sales the California Fruit Growers Exchange spent more money for national newspaper advertising than it has in previous years. Newspapers received $250,000 of the Exchange's advertising budget, according to figures compiled by the Bureau of Advertising of the American Newspaper Publishers' Association. In 1924 the Exchange spent $180,000, in 1923, $240,000.

"The great increase in consumer demand for citrus fruits has been largely due to the consistent advertising campaign of the Exchange, supported by its members for the benefit of all producers," the Exchange's report states.

The Exchange handled 75.4 per cent of the total crop, or 37,258 cars, returning to its grower-members $70,236,507 for a volume 16 per cent less than the 44,266 cars shipped by this organization in 1923-24. Returns for the present season were 39 per cent more than the $50,508,184 receipts of the past year. Compared with the results of 1922-23, when volume was practically the same and returns normal, returns f. o. b. cars California were 27 per cent greater and for the fruit on the tree 41 per cent greater. Expressed in terms of boxes, Exchange shipments equaled 11,967,715 for oranges and grapefruit, and 4,176,677 for lemons.

"The wisdom of the consistent advertising policy of the Exchange maintained continuously over a period of 18 years is amply demonstrated in the marketing situation of the past several years, and particularly by the results of this season," the annual report says: "It is quite evident that consumer demand for citrus fruits has been soundly built to a point where they enjoy a distinct and preferential demand for which other fruits which may be in abundance do not provide an acceptable substitute.

"Consumer demand is the basis of the market, and the relation of that demand to available supply establishes the market price. For that reason advertising and sales promotion is a sound and profitable investment in seasons of a shortened supply such as this one, although the need is not as keenly felt as it is in seasons when a maximum volume taxes the consuming capacity of the country."

To carry on advertising and dealer service work, an appropriation of 4½ cents per box for oranges and 7 cents a box for lemons was made. This with the total average operating cost which is 8.46 cents per box, gave the Exchange a marketing and advertising cost equaling 2.4 per cent of the delivered value of the season's crop, which is materially lower than the marketing charges alone of any other fruit selling agency, it is stated.

In the normal crop year California now supplies 60 per cent of the oranges, 5 per cent of the grapefruit and 75 to 85 per cent of the lemons used in the United States and Canada.

The total orange and grapefruit supply has increased 211 per cent in the last eighteen years according to the report. Each five years has witnessed a distinct increase in per capita consumption. This increase has been absorbed without a corresponding decrease in price levels to the producer, which would have inevitably ensued if consumer demand remained static.

Forty-five thousand personal calls on the trade by dealer service men, 28,000 citrus fruit displays installed in sales windows, 146,153 letters to the trade, 10,000 calls on Sunkist juice extractor owners, and 7,000 new juice machines sold to the fountain and hotel trade of the country, in addition to the regular Exchange national advertising schedule, were part of the advertising and sales promotion work that brought about the season's success.

DAILY'S CONTEST AIDS LOCAL ART

Baltimore Sun Awards Prizes in Annual Black and White Competition—Drawings Must Portray Local Scenes

The *Baltimore Evening Sun* will shortly announce the opening of its Sixth Annual Black and White Sketch Competition.

It is an annual event believed to be unique in the artistic life of American cities.

Started five years ago entirely as the result of a desire on the part of the Evening Sun to publish sketches of Baltimore and its environs, it is now looked forward to each year as an opportunity for self-expression by Baltimore artists. And also as an opportunity to acquire some cash.

All the prize winners and a number of those receiving honorable mention are published in the Evening Sun each year with some account of who the prize-winners are, where they received their training and what their artistic points of view are.

While the competition is not limited to Baltimore artists and men and women from out of town have competed each year, the prizes up to this time have been won by Baltimoreans.

The judges are always men known nationally in the world of art. Joseph Pennell, the etcher was a judge one year. The judges in the Fifth Annual Competition, just concluded, were: John Alonzo Williams, President of the Illustrator's Society of New York; R. S. Meryman, of the Corcoran School of Art, Washington; M. Paul Roche, a Baltimore artist.

Two hundred sketches were submitted this year.

After the award has been made each year an exhibition is arranged at the Maryland Institute, chief art school of Baltimore. Students from this school have frequently taken the prizes.

No requirements are made, however, to the effect that those entering the competition must be graduates of an art school. Any one may enter whether he or she has had any artistic training in a school or not. This provision was made deliberately with the purpose of giving opportunity for the untrained as well as for the trained.

Only one condition is made. That is that the sketches must be studies of Baltimore. It was because of a desire to demonstrate the picturesque character of old, little visited quarters of the town that the competition was started.

Walter Bohanan, who won the first prize this year, says it was through the harbor with its maze of boats that he learned to appreciate the picturesqueness of his own city. On leaving art school he shipped aboard a freighter and visited South and Central America.

The sketch with which he won the first prize was one of 11 submitted by him. It is a study of street life.

John Kenny, who won the second submitted 10 sketches. Paul G. Braun won third prize.

Announcement that the competition is open is usually made early in the year. The closing date is fixed for sometime in the fall. The purpose of this arrangement is to give the artists plenty of time in which to do their work and to include the summer in the period in which the sketching is to be done.

STUDENTS TO TOUR EUROPE

Wisconsin Journalism Group Plans Summer Study Trip

Prof. E. Marion Johnson, of the department of journalism of the University of Wisconsin, will head an excursion of a group of teachers and students of journalism who will go on a 43-day trip to Europe next summer, participating in classes aboard ship and visiting newspaper plants of the larger cities of Europe. On board ship the classes will be held in comparative journalism, supervision of school publications and special feature articles.

COST OF GROWING PULP FORESTS

(*Continued from page* 10)

of industrial decline that she is getting many front pages, many full magazine section pages and abundant editorial comment.

If New England were to discover that cotton for her mills could be grown better in New England than in the south, how long would it take her to get busy as growing it. Every Governor, Chamber of Commerce, mill man and newspaper would be talking about it and nothing else until they got it going full blast. New England can produce wood cellulose fiber for a four-time increase of her paper industry, which would mean a billion dollar industry in paper alone. She now makes $249,000,000.

New York State and New England are also both suffering from a decline of home-grown food supplies. They talk and talk and talk about it and are working now with some effect to improve conditions of farming. Since the peak of farming development reached about 1880, there has been a steady decline.

Forestry researches show that intelligently managed tree growing is one of the larger stabilizing factors of farm life. Need many words be used here to indicate how this would be especially true in this pulpwood section? Need the advantage of food growing farms in the area of the paper mills be pointed out in detail?

What we need now is to get action for more Weeks Law forests grown definitely with pulpwood needs in view. This will pave the way and stimulate state and private growing of forests all the way down to the last farm woodlot. When this is done the paper industry can be perpetuated where it now is and can be ultimately increased to meet the needs of the future.

One other phase of paper supply has recently developed. It has very encouraging features. Sweden is reported to be turning her forest cut more to pulp and paper and less to lumber and export timbers. It is an unmistakable sign for better supplies of paper when such changes take place. Paper manufacture can at any time outbid lumber for the stumpage.

Canada is likewise quietly reducing the output of lumber. It has declined steadily from the high peak of 1911 until it now is below the cut of 1908, and is but three-fifths of the 1911 cut. The increase of pulp and paper production is common knowledge. It is expected that newsprint made in Canada will for the first time pass the volume made in the U. S. in 1925.

Canada is our real dependence for paper. All other importing countries supply but one-seventh of our imports. We are more interested in Canadian conditions and practices than all other countries combined.

Canada has twice the investment in paper-making that she has in sawmills industries. The investment in sawmills declined 12 per cent in 1921-22. The decrease was due entirely to the eastern provinces. There was some increase in the western provinces.

However Canada still cuts twice as much timber into lumber as it cuts into pulpwood yearly, and the largest lumber cut of any and all species is spruce. Douglas fir alone comes near the spruce cut. Spruce is one-third the total lumber cut. Spruce with balsam fir, hemlock and jack pine make up one-half Canada's total lumber cut and this is mainly from the eastern provinces, the paper regions.

Canada's lumber cut is one-third imported into the United States, and heavily imported to our eastern cities. Whether this will be reduced remains to be seen. Every reduction of the too rapid cut of the scarce and most important pulpwoods for other than pulp and paper can be looked upon with genuine satisfaction by every buyer and user of paper.

Congressman Haugen in the many hearings before the Agriculture Committee during 1921 on the Forestry Question, kept insisting on knowing what is was all going to cost. How much money would need to be put into forests to meet our present needs, in other words to make up the present deficit annually accruing between cut and new growth. That was probably the most pertinent question that was asked by any Congressman on the Committee. Nobody answered. Nobody knew. Some research has been made since that date. In the Department Bulletin 1242 of July 1924 some light is thrown upon the subject.

On pages 60 and following it is shown that our present total forest land area, public and private, of 470,000,000 acres can produce, when under careful management comparable to European practice can be made ultimately to yield 27 billion cubic feet annually. Our present annual use and loss is about 25 billion cubic feet annually.

Crude forestry management would secure us about 10 billion cubic feet annually, by the year 1950. Our present growth is calculated to be 6 billion cubic feet. Long continued forestry measures, mainly fire protection, and the areas growing timber would be increased naturally and this would ultimately raise our annual growth to 14 billion cubic feet under these protective forestry measures. But this possibility is stated to be far in the future. This yield of 14 billion cubic feet is but little more than half our present consumption. It is stated that a limitation to this annual cut would force a most drastic reduction in timber use in the United States, affecting lumber and practically every other forest product. Pulpwood because of its competitive advantage might be better off than most of the others.

"Well," one can hear Congressman Haugen ask again, "what is all that going to cost?"

Nobody has yet answered.

OLD N. Y. TIMES LIBEL CASE IN COURT

Newspaper's Appeal from $25,000 Damage Award Heard in Albany — Decision Expected in January

The appeal of the *New York Times* from a final judgment of $25,000 as damages for an alleged libel in favor of Mrs. Abigail H. Bishop, was argued Dec. 18, before the Court of Appeals.

A jury in the New York Supreme court rendered a verdict of $60,000 damages, which trial justice Proskauer reduced to $45,000 and the Appellate division, first department, further reduced to $25,000.

The alleged libel was published in the Sunday issue of the Times, March 2, 1913, and was a letter written by the law firm of O'Gorman, Battle and Marshall to former Gov. Charles S. Whitman, when he was district attorney of New York county. Mrs. Bishop had instituted a divorce action against her husband, naming Lelia Gaines Gwathmey, wife of J. Temple Gwathmey, well known financier, as co-respondent.

Mrs. Gwathmey was served with a copy of the summons and complaint by a process server who made written representation that he was from the office of her attorneys, O'Gorman, Battle and Marshall, to gain admittance to her apartment. Their letter to the district attorney demanded an investigation as to the commission of the crime of forgery in the service of the process and stated that Mrs. Bishop was mentally unbalanced, had been committed to an insane asylum and was a drug and alcohol addict. Copies of the letter were sent to all the New York papers and Mrs. Bishop's attorney requested that it be not published as it contained false statements.

On the first trial of the action Mrs. Bishop, who has five daughters, testified that the article was read by her youngest child, seven years old, and as to her mental anguish by reason of the effect on the child. The jury awarded her $45,000 damages, which the Court of Appeals reversed because of the admission of this evidence.

On the second trial she testified the child read a clipping of the alleged libelous article two years after the publication when nine years old.

Emil Goldmark appearing for the Times contended that the reading of the clipping was not a proximate result of the publication but an independent and intervening act of the mother in permitting her to read it and required a reversal of the judgment.

Prints 58-Page Regular Edition

The *Pawtucket* (R. I.) *Times* claims the New England record for a regular evening edition with a 58-page issue Dec. 4. It was printed in four sections. Christmas advertising was responsible for the large edition.

THE WELFARE COMMITTEE of the INTERNATIONAL CIRCULATION MANAGERS ASSOCIATION

Can supply you with competent circulation men of capacity and ability capable to take entire charge of your department or to fill important posts in the department.

Address the Secretary-Treasurer please, Mr. Clarence Eyster, care Star Building, Peoria, Ill.

FRANK MUNSEY LIVES IN MANY MEMORIES

(*Continued from page* 6)

and vigor of Mr. Munsey's public utterances on his policy.

As an editor Mr. Munsey's ability and independence were notable. The courage with which he waged a strong fight in *The Sun* in support of Governor Smith and against his own party leaders on important issues in the recent New York campaign was an index of the independence of his character and mind. Mr. Munsey had a strong sense of the responsibility of a newspaper publisher to the public, and his journals reflected his high ideals. His death comes at a time when he has brought The Sun to new high levels of success. Mr. Munsey's loss will be genuinely felt in local and national newspaper circles, and in the magazine publishing field.

WALTER A. STRONG

Chicago Daily News

I regret exceedingly to read of Mr. Munsey's death. His activities in the newspaper business were often criticised, but his record of achievement, his courage and conviction entitle him to a high place as a newspaper publisher during the difficult and the long period of time in which the standards of the business were being established.

KENT COOPER

General Manager, Associated Press

I am personally deeply affected at the death of Mr. Munsey, whom I not only admired, but whom I held in sincere and affectionate regard as I had come to know him in recent years with friendly intimacy. In the Sun as he had published it he expressed the highest type of journalism.

J. M. PATTERSON

Co-Publisher, Chicago Tribune and New York Daily News

Frank Munsey, I shall always be glad to remember, was one of my friends. He was a great American and a great publisher. After his crowded hours of life he will rest in peace.

LESTER L. JONES

Executive Representative, Publishers' Association of New York

My acquaintance with and knowledge of Mr. Munsey has been chiefly in connection with his activities in the negotiations between the newspapers and the unions employed in their mechanical departments.

Mr. Munsey arranged the first meeting in New York City of the several newspaper owners. He acted as their chairman and presided at their first meeting and the last. He was a firm believer in organization and co-operative effort and was largely instrumental in establishing amicable, uniform, and satisfactory working conditions in the mechanical departments of the newspaper industry in this city.

He was a man of strong character, keen business sense and a minute understanding of publishing affairs. Withal, he was fair-minded and open-minded, willing to make sacrifices for the good of the industry and to meet the views of his associates. He had a rare faculty of reconciling wide differences of opinion among his associates. A believer in good wages, yes, high wages, in exchange for a fair day's honest work, he was also opposed to restrictions which hampered production and did not benefit the worker, either in health or his toil. He was more kindly disposed toward the worker and more in sympathy with his efforts to better his condition than the worker knew or ever believed.

His death is a recognized loss to the newspaper industry and to those engaged in it. He leaves a place in the publishers' councils not easily to be filled.

EDWIN S. FRIENDLY

Business Manager, New York Sun

It is hard to realize Frank Munsey is dead. We recall his greatest attributes as honesty, sincerity, uprightness, loyalty, generosity, progressiveness, achievement. Perhaps it might best be expressed in the one word—sincerity.

Sham, deception, conceit, evasiveness, subterfuge, did not, could not dwell with him. He was sincere in every thought, word and deed.

Mr. Munsey believed in hard work. His success was built upon it. He had courage—first in himself, and in his work and the courage of his convictions. He reasoned with himself, and with his friends and associates, valued their advice and council, but upon himself alone, he rested his course.

Mr. Munsey wanted those connected with him to give service—well and truly. He led the way—he was always in the front, for he himself served all his life, and he was happiest when serving most. He craved accomplishment, and he created that atmosphere around him.

Mr. Munsey valued money most for the work it could do—for the good it could do. He made money, he saved money, but he did not love money selfishly.

His first and chief concern, when attacking a new problem was, "Is it the right thing to do?" Once having established it was the right thing to do nothing could swerve him from his purpose.

Only those who had the great privilege of daily association with him, knew of his deep tender heart, which he carefully concealed from the public. His unheard of acts of charity were manifold, his quiet help to those who needed it was a part of his life. He wished no credit for his many acts of goodness, just the knowledge he was helping a fellow man was enough to him.

When I think of the greatness of Frank Munsey, I am reminded aptly of the quotation from the immortal Bard:

"He was a man, take him all and all.
"I shall not look on his like again."

Iowa Daily Wins Libel Suit

A jury in district court after two hours' deliberation found for the *Fort Madison* (Ia.) *Democrat* in a libel suit brought by Elizabeth Ballinger for $5,000 damages. The suit grew out of a news story of a divorce granted Mrs. Ballinger, Nov. 3, 1923.

COAST EDITORS HONORED

Five Washington Newspaper Men Elected Associates by Sigma Delta Chi

Five Washington newspaper men were elected associate members of the University of Washington Chapter of Sigma Delta Chi, national journalistic fraternity, Dec. 11.

They are: Stoddard King, columnist on the *Spokane Spokesman-Review;* Royal Brougham, managing editor on *Seattle Post-Intelligencer;* G. W. Hopp, owner and publisher of the *Camas Post;* J. M. Stoddard, owner and publisher of the *Waterville Empire Press;* Henry Rising, editor of the *Spokane Daily Chronicle.*

246-Page New Plant Edition

The *Columbus* (O.) *Dispatch* last Sunday issued a special edition of 246 pages in commemoration of moving into its new home in Third street opposite the state house. The paper contained many illustrations with a complete description of the new Dispatch plant.

Students Edit Peoria Journal

Journalism students of Bradley College, Peoria, Ill., on Dec. 1, took charge of all editions of the *Peoria Journal.* They covered all beats and wrote the editorials. C. P. Slane, publisher of the *Journal-Transcript* said he considered the edition a noteworthy success.

BEN DEACON RESIGNS

Canadian Press, N. Y., Chief Takes Publicity Position

Ben Deacon, for the past six years superintendent of the New York bureau of the Canadian Press, has resigned to become United States press representative of the Canadian National Railways, Canada's big 22,000-mile rail system. His headquarters will be in the new New York office of the Canadian National at 505 Fifth avenue.

For the past 23 years Mr. Deacon has been engaged in active newspaper work in Canada and the United States and during the course of his experience has filled practically every position in the editorial end of the business. Mr. Deacon's successor in the New York bureau of the Canadian Press will be Harold Raine, formerly news editor of the Canadian Press Ottawa bureau. Mr. Deacon will assume his new duties Jan. 1.

U. S. DROPS COMPLAINT AGAINST HOSIERY FIRM

But Misleading Ad in Saturday Evening Post Cited by Commissioner Thompson in Dissenting Opinion

WASHINGTON, Dec. 17.—An advertisement carried by Real Silk Hosiery Mills, of Indianapolis, in the *Saturday Evening Post,* was made the basis of a dissenting opinion by Commissioner Thompson this week when the rest of the Federal Trade Commission dismissed the complaint against the hosiery concern for alleged "false and misleading representations to the public for the purpose of furthering the sale of its products."

The order of dismissal read:

"After a trial of the case the Commission found that the record failed to sustain any charges of the complaint, except those which in substance charged the use by the respondent of false statements in that representation were made by the respondent that it produced its own silk in Japan; that it possessed a greater capacity to produce hosiery than it actually possessed; and that the volume of hosiery it produced was greater than the amount it did actually produce. The respondent stipulated with the Commission that such false representations were used for a time but had been abandoned and would not be resumed. Upon these facts the Commission concluded that there was no longer any public interest in further action, and accordingly dismissed the complaint."

Commissioner Thompson in dissenting to the issuance of the order made the following statement:

"I am in accord with the majority of the Commission in dismissing the complaint as to all matters except the misrepresentations in advertising the following:

"The finest silk in the world comes from Japan. In Japan today 4,000 people are working to produce raw silk for the exclusive use of Real Silk Hosiery Mills, of Indianapolis. Our inspectors, right on the ground, insist that the quality standards of the Real Silk Hosiery Mills be strictly maintained. Every detail is scientifically supervised—the selection of silk worms crossed to secure silk of maximum tensile strength and the highest luster, their feeding and care, and the cultivation of hundreds of acres of mulberry trees from which the worms are feeding. Absolutely nothing is left to chance . . ."

"While this advertisement was carried but once in the Saturday Evening Post, the respondent had reprints made of it and enclosed the reprints in books which were carried by its salesmen in their sales kits and were used by the salesmen in their talks to customers. In fact, it appeared at the time of the argument before the Commission, that the sales books carried this imprint up until the time of the taking of testimony in the case. As the facts were not true and as the statements contained assertions practically similar to those condemned in the case of Sears, Roebuck & Co. v. The Commission, I am unable to differentiate the reason for issuing an order in the latter case and not in the instant case."

False and misleading advertising continues to occupy much of the Commission's attention, it was stated officially for the Commission. Among the complaints pending is one against the Federal Mail Order Company, of Chicago, charged with falsely advertising the quality and value of its product.

Applications for complaints include those against Norman Roberts & Co., of Chicago, charged with falsely advertising its clothing product; Nustile Hosiery Mills Company, of Philadelphia, charged with falsely advertising its hosiery products; and Dr. Eagan Manufactory, et al., of Chicago, charged with falsely advertising its toilet preparations.

An order to cease and desist was issued against Rosenbush & Solomon Company, of Chicago, for falsely advertising an adulterated varnish product as pure shellac.

TURNS FIRST SHOVELFUL

S. N. P. A. APPEALS TO ROADS

Urges Special Preference in Moving Newsprint to Florida

W. C. Johnson, president of Southern Newspaper Publishers' Association has again appealed to leading Florida railroads to give special preference in handling carload shipments of newsprint paper. He stated in telegrams to officials that publishers were obtaining permits but railroads were not handling shipments promptly.

The roads replied they would give special attention to the matter and asked for detailed reports on shipments and lines being used. President Johnson is cooperating with the associated dailies of Florida through Maj. Lew B. Brown, president, *St. Petersburg Independent* and F. P. Beddow, secretary-treasurer, *Jacksonville Journal.*

GEORGE E. FOWLER

General Manager, Columbus Dispatch, Dies After Long Illness

George E. Fowler, 51, general manager of the *Columbus* (O.) *Dispatch,* died Dec. 19 at his residence in Columbus after several years' illness. Earlier in the year he had undergone an operation in a hospital in Philadelphia.

Mr. Fowler first entered the employ of the Dispatch as a newsboy and finally became its general manager, his service with the paper, however, not being continuous. He was a brother-in-law of H. P. Wolfe, one of the owners of the Dispatch and was president of the Wear-U-Well Shoe Company, another Wolfe enterprise. Funeral services were held Monday afternoon.

BUSINESS TICKLERS

UNDER a banner such as "Better Vision" group a series of occulist, optometrist and optician ads. Make it a point to emphasize the fact that "better vision" is being sold, not glasses.—C. M. L.

As a jublicity stunt, one newspaper suggested to a restaurant, a drug store, and a taxicab company that each present free copies of the newspaper to all patrons, and the plan was adopted. The newspapers are furnished to them at wholesale prices and the plan has proved most popular. The idea does not affect the general sales and home deliveries of the newspaper to any general extent, because th avrage patron does not carry the free copy home, nor does he count on receiving it regularly in that manner, yet the paper thus reaches hundreds who otherwise might not read it, and who, under the plan, become regular readers and subscribers.—B. A. T.

What are the winter health-sports in your city? There's dancing, roller skating, bowling, gymnasium work, basketball, handball in the Elk's club perhaps, and so on and so forth. Present these sports in a page of ads from the angle of keeping people fit and healthy during the winter.—Frank H. Williams.

There are hundreds of sporting goods dealers in the country known as "scout outfitters." Suggest to him that he print one of the speeches of the scoutmaster in his advertisement and address it to the mothers and fathers of his city. A Kentucky paper did this and started a flood of orders in the direction of the local "scout outfitter."—George L. Bird, Warren, O.

The *Santa Ana Register* frequently reprints or reviews articles that appear in trade papers concerning local stores. Since these articles usually feature the advertising methods of the stores the local publicity confirms the policies of the various proprietors and makes them stronger advertising patrons than ever.—Fremont Kutnewsky.

Watch the sporting pages for advertising tips. Hunters who obtained a good bag should bring an ad from the dealers who sold them their ammunition, etc. Golfers who have remarkable records can be sold to dealers who sold or handle the clubs they use, etc.—B. A. T.

In moderate sized cities of from 25,000 to 100,000 population, where there are separate business districts in each end of the city, the following plan will often result in advertising contracts.

Assume that one of the outlying business districts of the city of X is situated on the west end. On a certain Saturday, or Sunday, have one page of your newspaper devoted to the west end merchants and their advertisements. Place the advertisements, all of even size, around the edge of the sheet; while at the top, have the following in large size type: "Next Week Is West End Week. Trade In the West End."

Such a plan should appeal immediately to merchants in outlying districts (not only merchants, but theaters, draymen, plumbers, etc.), for the ads will cause many who live in outlying districts but who generally trade downtown to follow the suggestion, if for no other reason than because the idea is novel.—J. J. K.

DAILY TABLOID FOR JERSEY

Newark Transcript, Formerly a Weekly, to Be Revived in March

The *Jersey Transcript*, a tabloid which appeared in Newark for a few weeks as a weekly and which has not been issued for two months, will re-appear the latter part of March as a daily with the financial backing of the state's leading citizens.

The paper will have 32 pages and will "cover" the state, William Steinke, secretary, announced. Three Newark printing plants are under consideration and a selection of one as a "home" for the paper will be made shortly. A small staff is already working.

The officers, all of whom were employed on the *Newark Ledger* at the time of the organization, are R. H. Reed, president, also formerly of the *New York American;* Mr. Steinke, secretary; and Rex Case, treasurer, also formerly of the American.

There's one difference. Nobody now lasts long enough to be called an "old soak."—*New York Telegram.*

The *Houston* (Tex.) *Chronicle* has been carrying for quite a while, a front page box with a DO YOU KNOW head. In these articles that appear daily and occupy a space two columns wide by two inches, articles of interest or some rather unknown facts are published. For instance, in one of the articles the gross receipts of oil through the city and County annually are given.—Barry Bishop, *Austin* (Tex.) *Statesman.*

Is your newspaper in a college town? You can have a bang-up page or two of local feature articles published in your Saturday or Sunday issues by students of the English or Journalism departments of the college through cooperation with their teachers. In Madison, Wis., a Sunday newspaper publishes two pages of local features each Sunday gathered, written, and edited by students of the University of Wisconsin journalism department "feature articles" course. Pictures usually accompany the stories.—Ruben Levin, Madison, Wis.

HUNCHES

ONE DOLLAR WILL BE PAID FOR EACH "HUNCH" PUBLISHED

A CANVASS of pioneer residents brought forth unusual surprises. Group photographs taken of school Classes, recollections of sensations of other generations, how the town took it when the boys came back from the wars, the oldest citizen and resident, the oldest city official and the oldest building in town. A good circulation getter under a "Memory" caption.—H. W. Schaefer, *Birmingham* (Ala.) *Age-Herald.*

Facility in finding news carried over from the first pages to the rear is a feature of the carry-over headings used by the *Seattle Star.* The following is a sample:

"Here's More About
MAUD
Starts on Page One."—C. M. L.

Who has the oldest Bible in your city? The *Pasadena Star-News* recently published an item about an old Bible, the owner of which thought that he had the most ancient one in the city. Letters from readers who had older Bibles formed the substance of an interesting story—L. C. Pratt.

One of the most notable dates in recent history is Jan. 16, 1920. On the anniversary of this date, which banished "officially" liquor by writing its prohibition into the constitution, you can get up good story on the local effect of the law, and its local enforcement, or other facts of pertinent interest. A brief resume of the last six years will make interesting copy on that date. Keep it before you.—C. M. L.

The juvenile delinquent is a big problem today, both for the authorities and for the parents, but perhaps there's a reason. The public often theorizes on this reason, but why not ask the boy and girl directly in a friendly and sympathetic manner and then put it up to the judge, parent, etc., for their views.—B. A. T.

JANUARY TO DECEMBER
NEW ENGLAND
NEWSPAPERS PRODUCE RESULTS

While seasonable merchandise is sold in volume to the holiday trade, the manufacturer whose product demands a substantial permanent market will do well to consult surveys for territorial information of New England.

These six states, with a compact population of seven and a half million, centered for the most part in large cities, lead the country in many lines of manufacturing. They also lead the country in savings, having 40% of the country's savings deposits as well as 11% of the total bank deposits in the national and state banks and trust companies.

With people of all classes and occupations, for the most part well paid and thrifty, New England is busy all the year round.

This great trading area has been carefully surveyed for merchandising data and the New England daily newspapers, for the specific purpose of assuring more positive results from national advertising, will supply you with territorial information and merchandising cooperation that will be of valuable assistance in the proper distribution of your product.

Complete your selling campaign by advertising in the following list of newspapers for positive and speedy results, at a cost that is lower than any other method of sales promotion.

These are the Home Papers of New England
